

Degradation/Utilization/Assimilation

Taxa

Degradation/Utilization/Assimilation&&Detoxification

Taxa

Inorganic Nutrient Metabolism

Aldehyde Degradation

Alcohol Degradation

-15

-10

-5

0

Effect

Taxa

Inorganic Nutrient Metabolism&&Respiration

Inorganic Nutrient Metabolism

Amino Acid Degradation&&Fermentation

Amide, Amidine, Amine, and Polyamine Degradation&&Fermentation

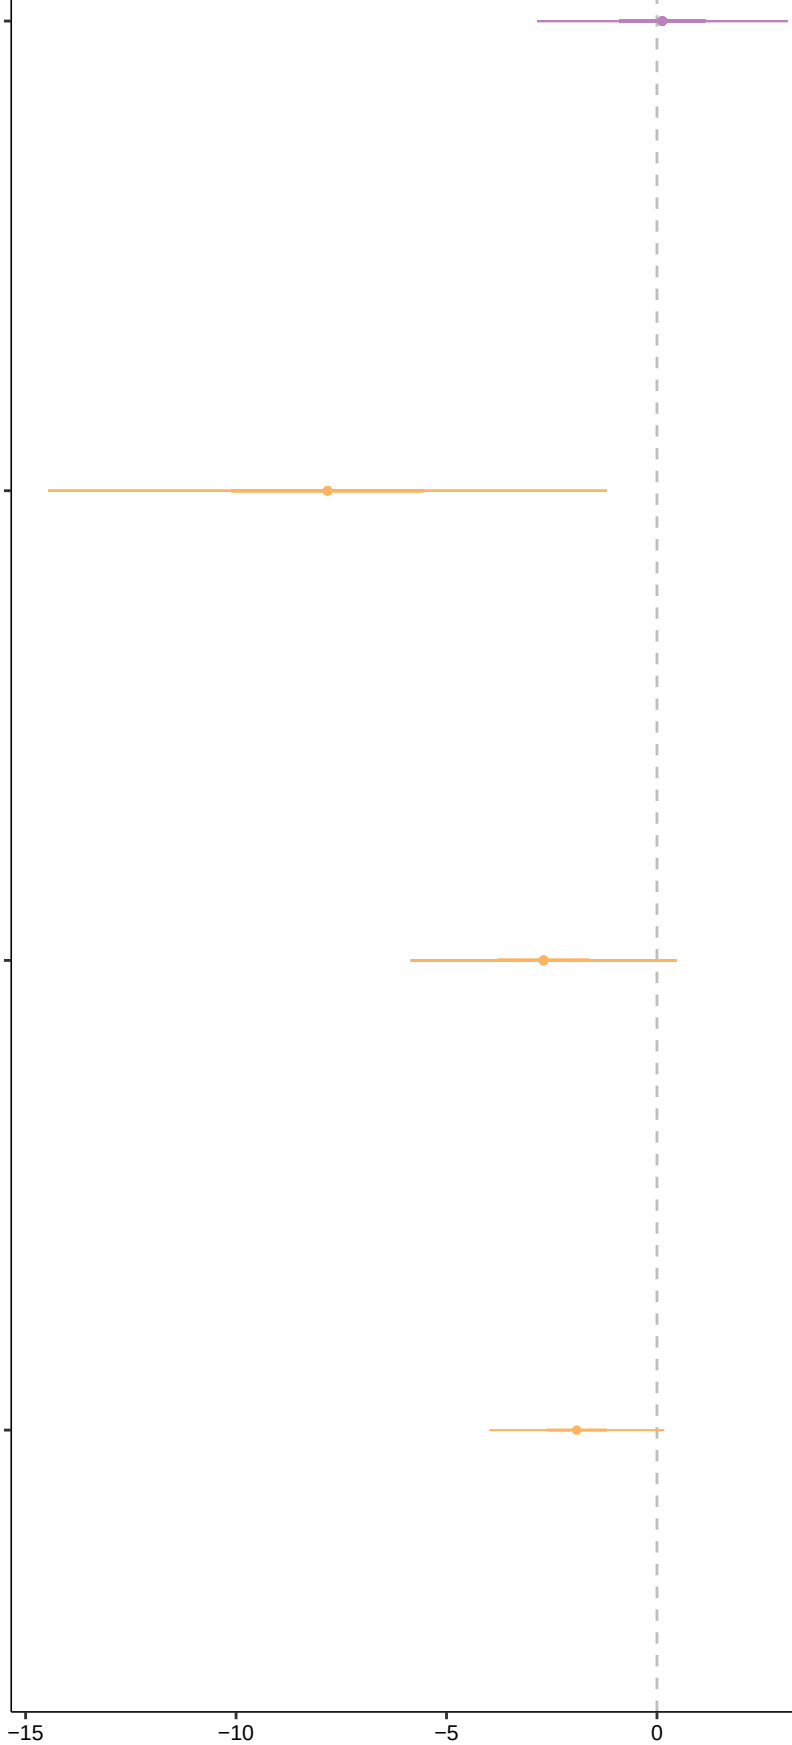

-15

-5

0

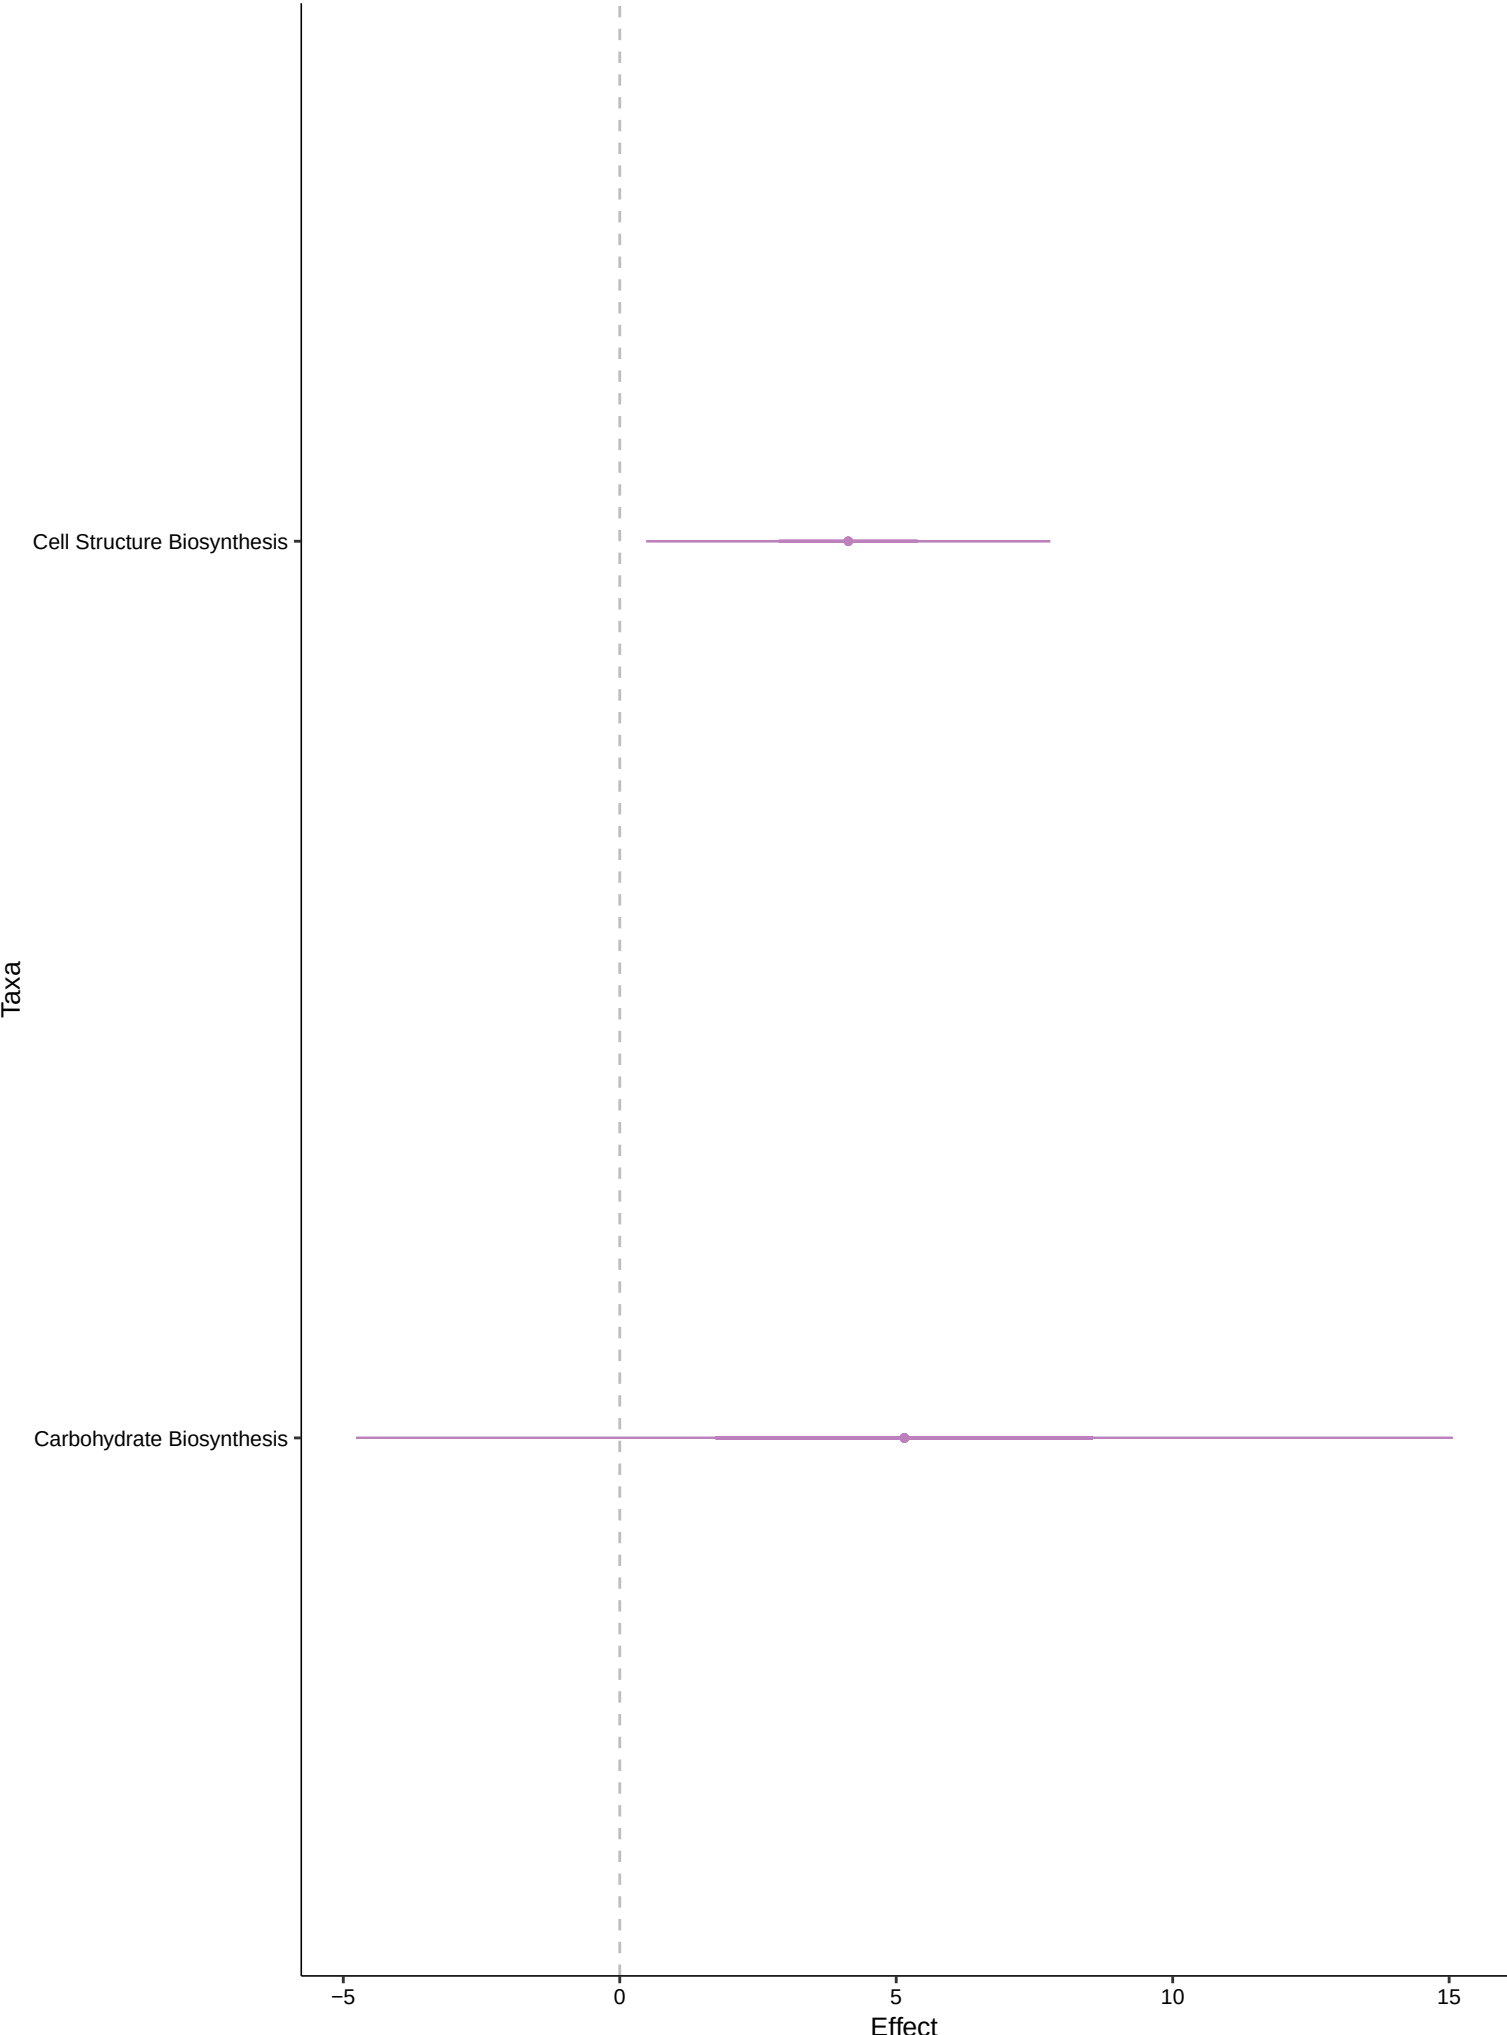

Effect

Biosynthesis

Biosynthesis&&Glycan Pathways

Taxa

Carbohydrate Biosynthesis&&C1 Compound Utilization and Assimilation

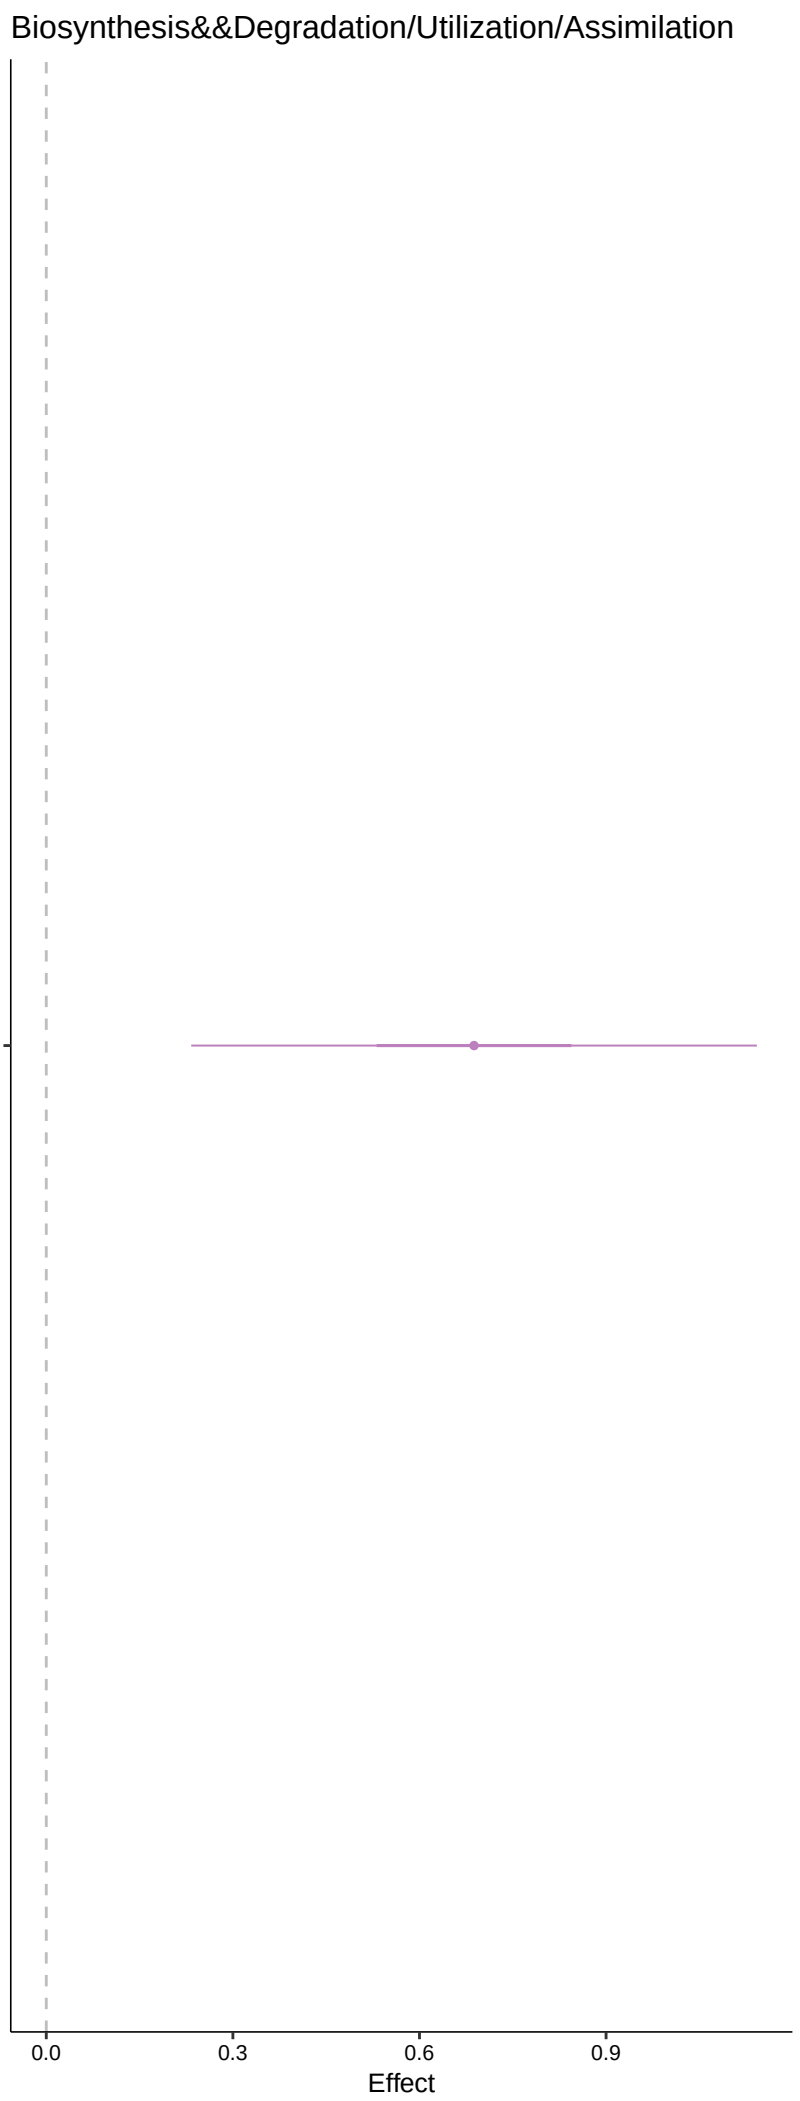

Effect

0.0

0.3

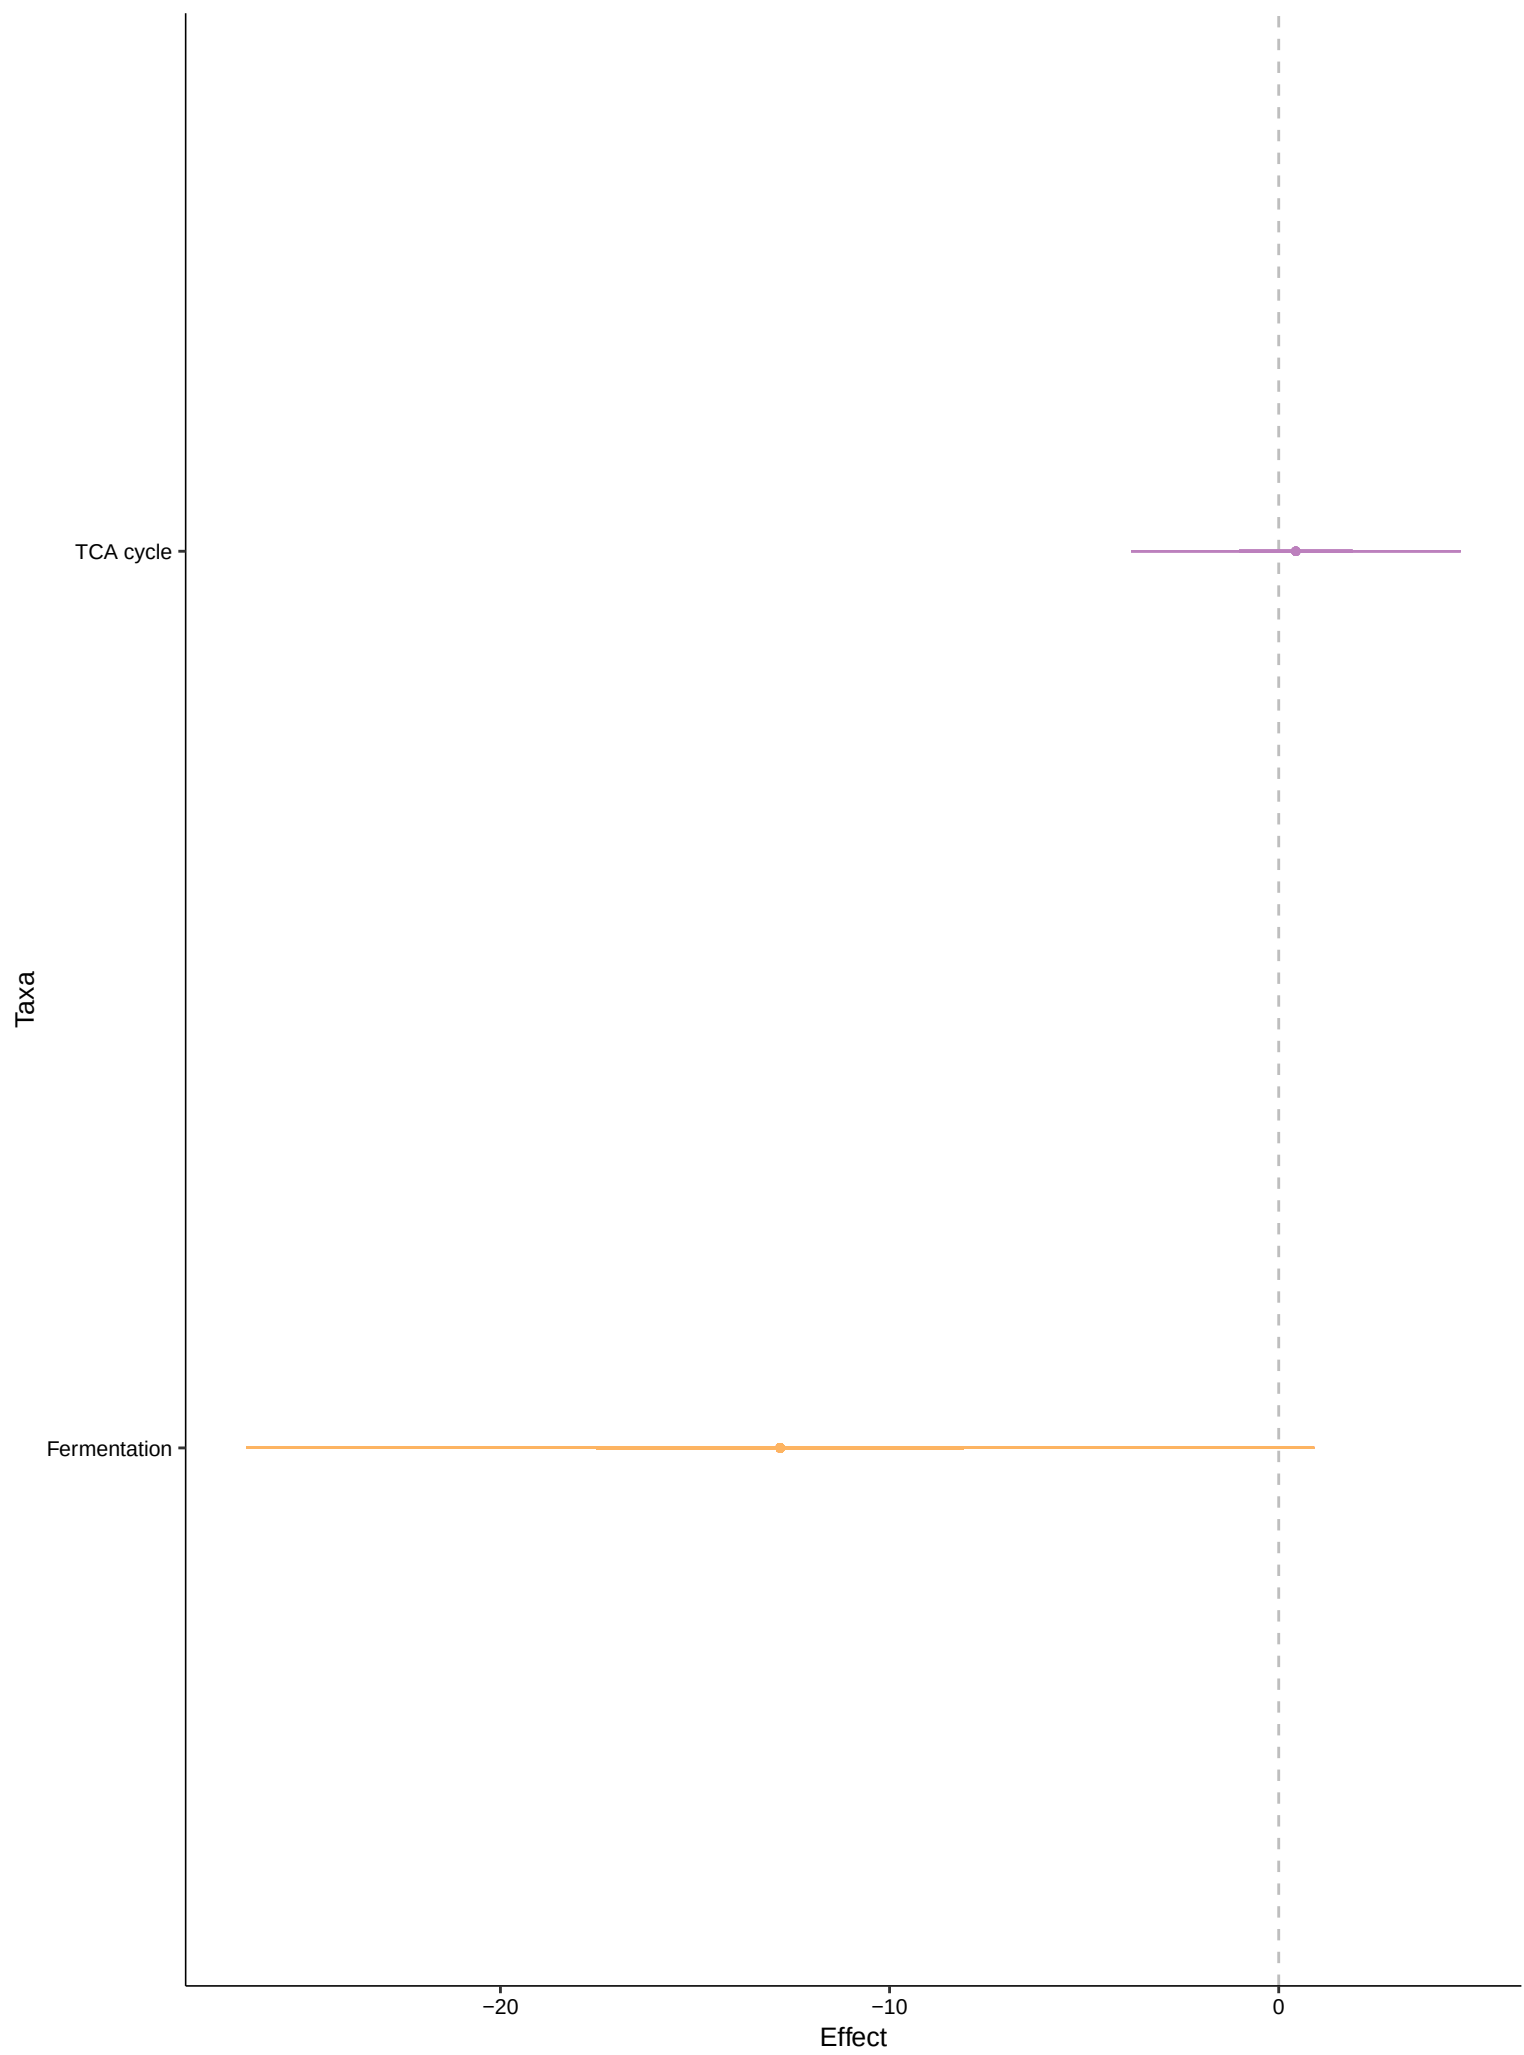

0.6

0.9

Generation of Precursor Metabolites and Energy

Biosynthesis&&Generation of Precursor Metabolites and Energy

Taxa

Secondary Metabolite Biosynthesis
