

Distribution for 00010 Glycolysis / Gluconeogenesis

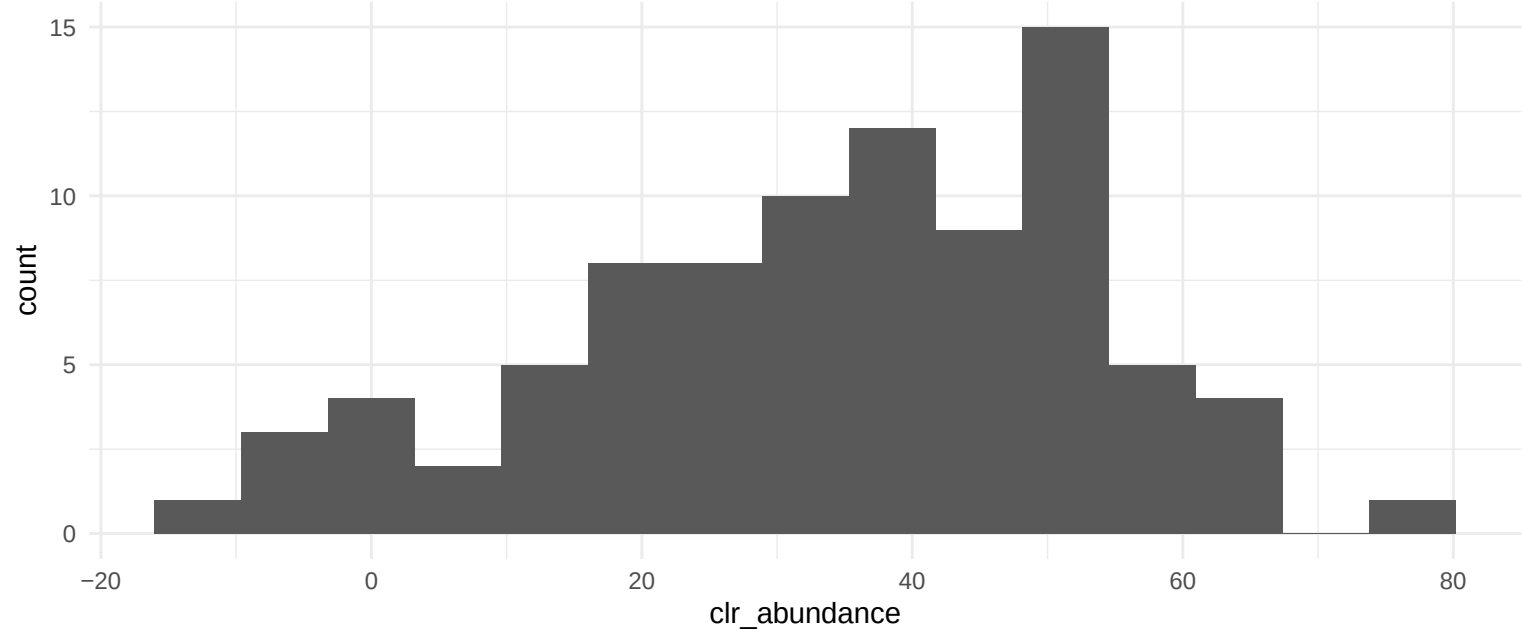

Distribution for 00020 Citrate cycle (TCA cycle)

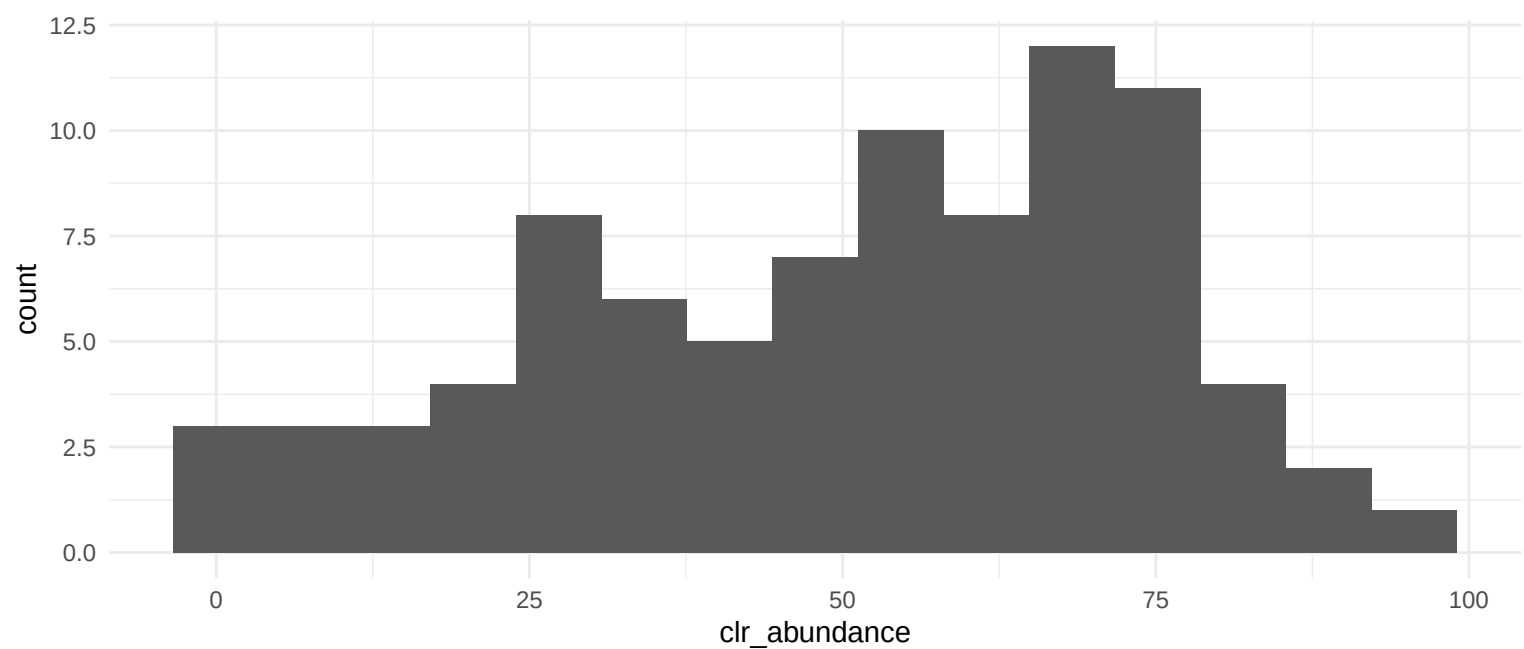

Distribution for 00030 Pentose phosphate pathway

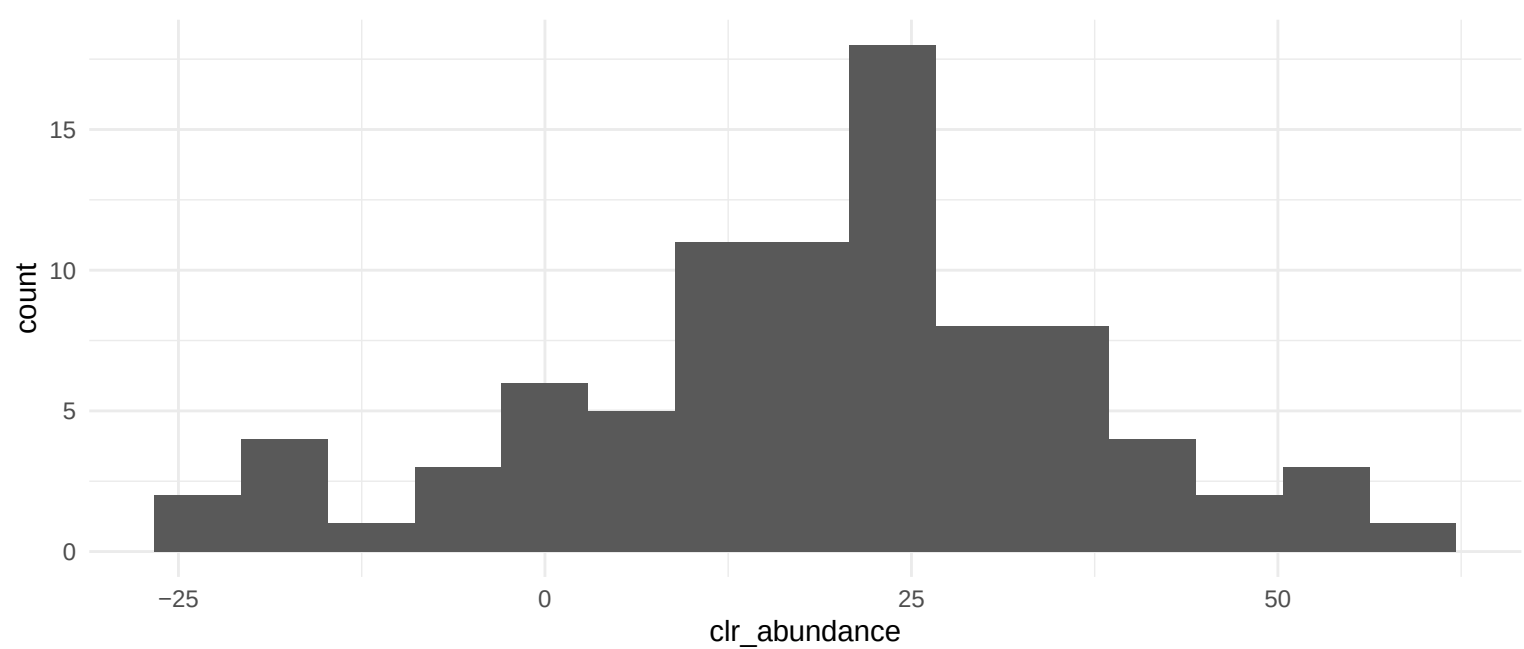

Distribution for 00040 Pentose and glucuronate interconversions

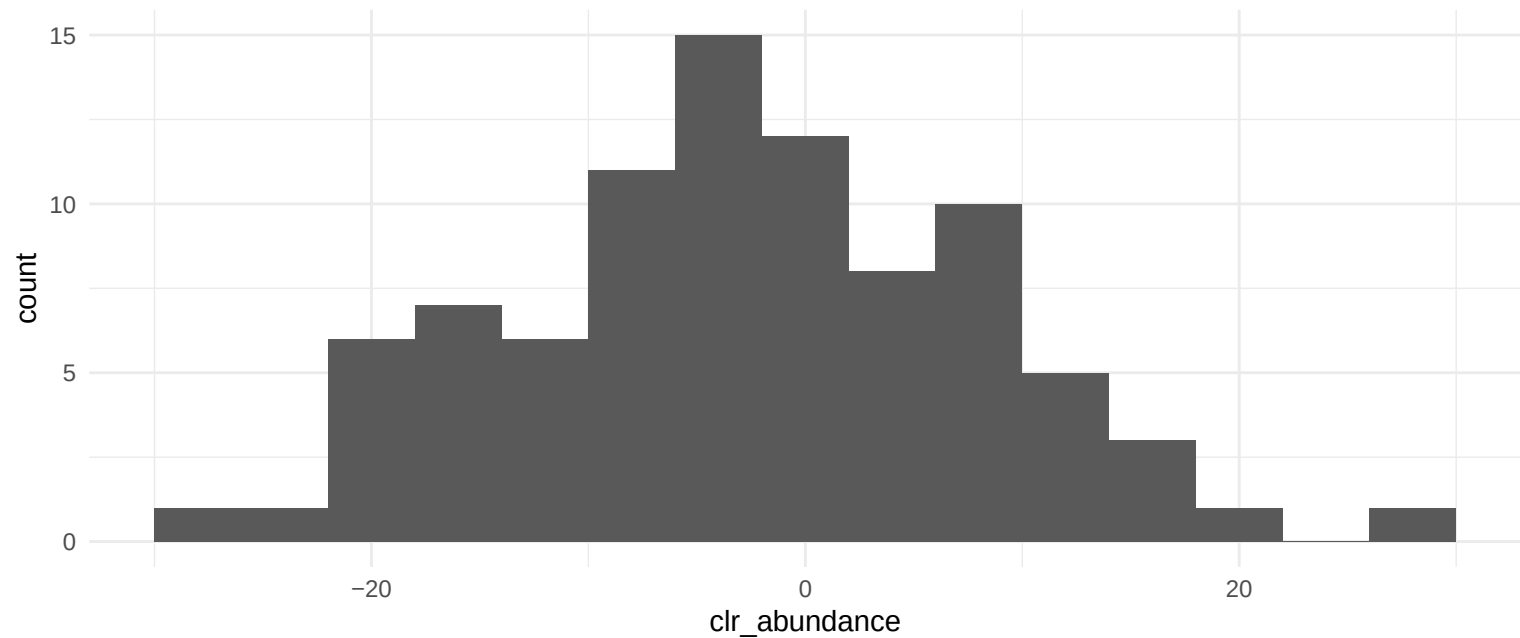

Distribution for 00051 Fructose and mannose metabolism

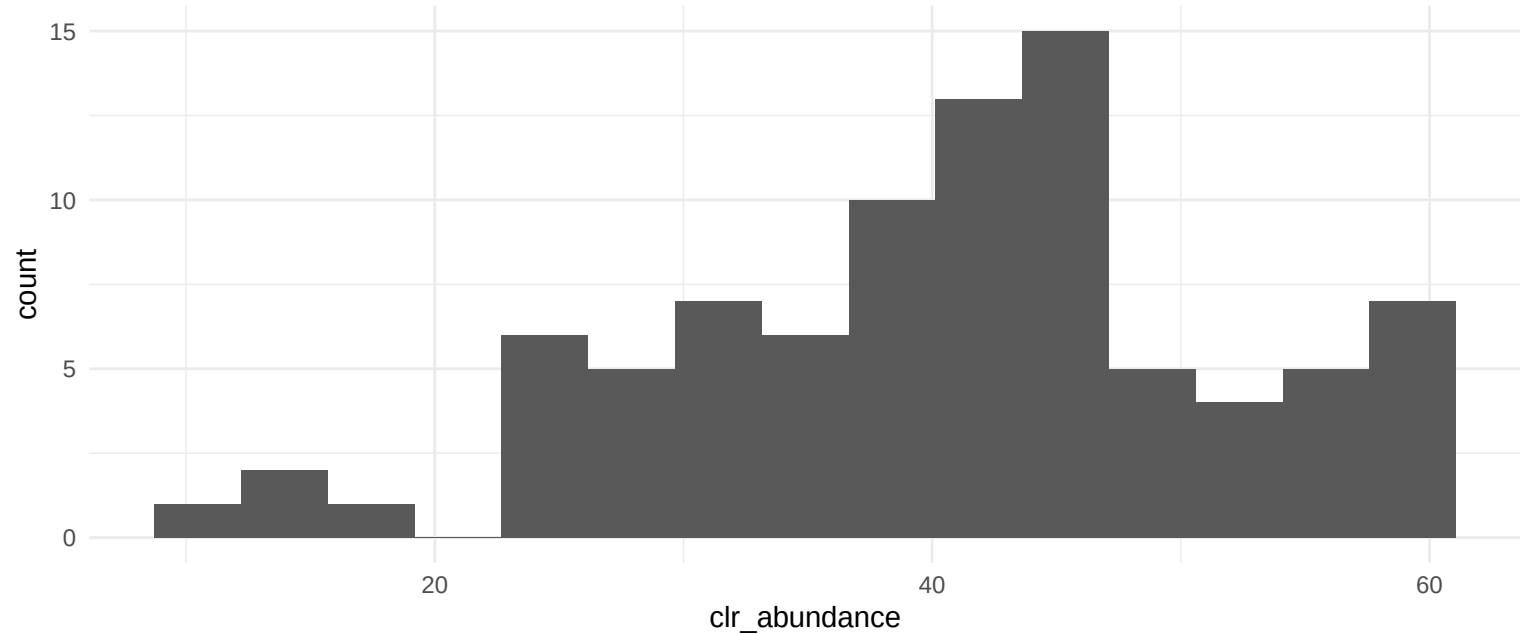

Distribution for 00052 Galactose metabolism

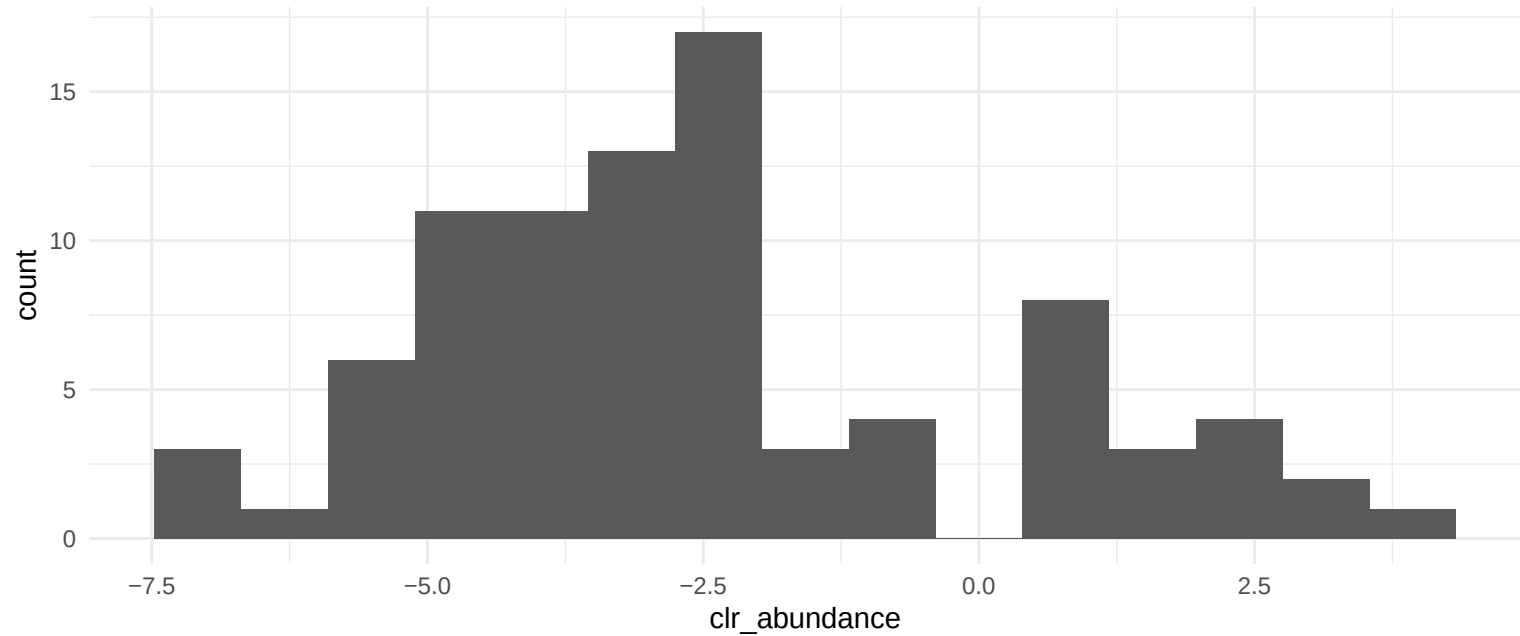

Distribution for 00053 Ascorbate and aldarate metabolism

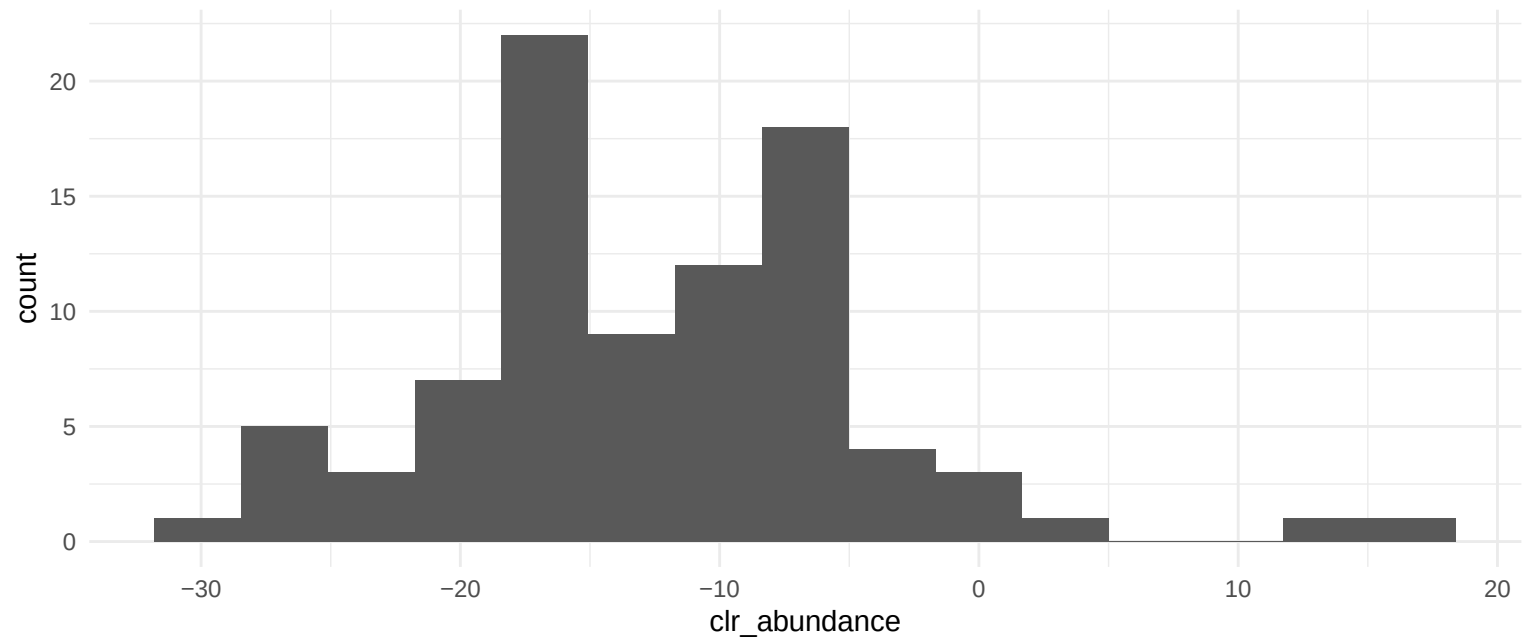

Distribution for 00061 Fatty acid biosynthesis

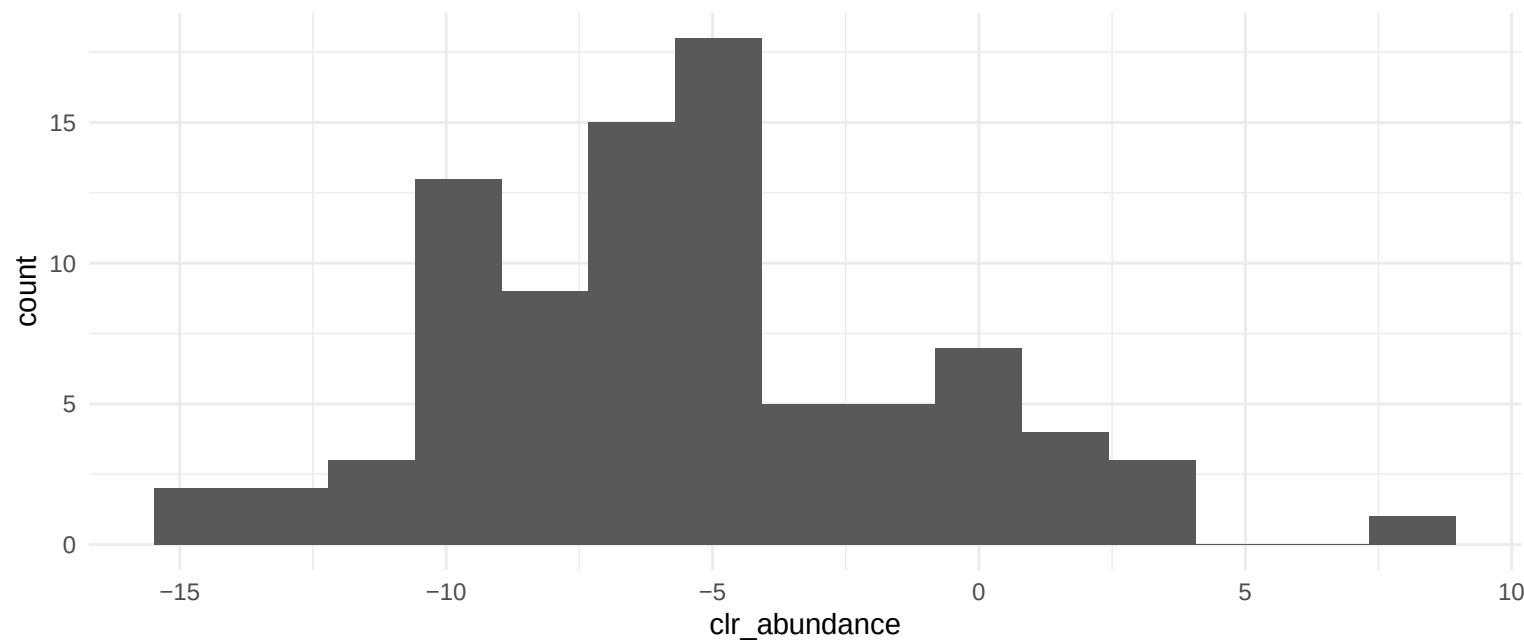

Distribution for 00062 Fatty acid elongation

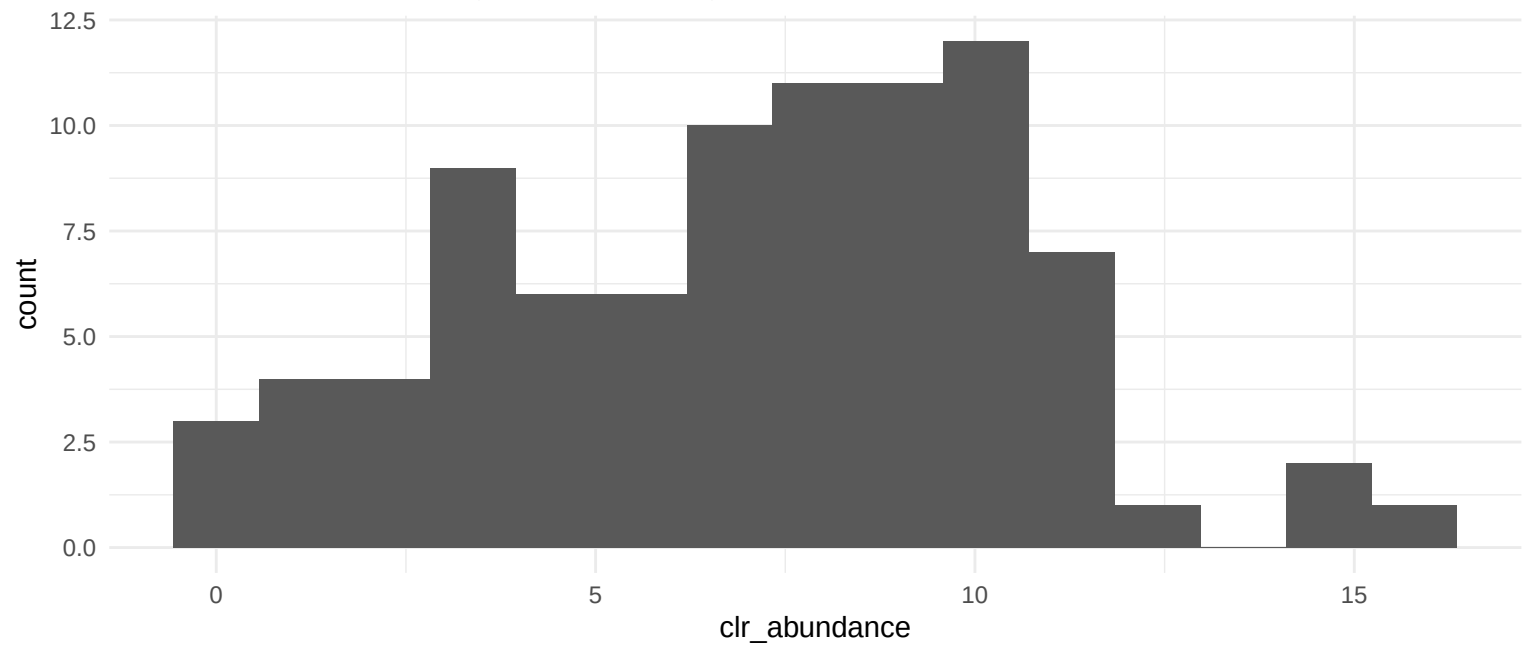

Distribution for 00071 Fatty acid degradation

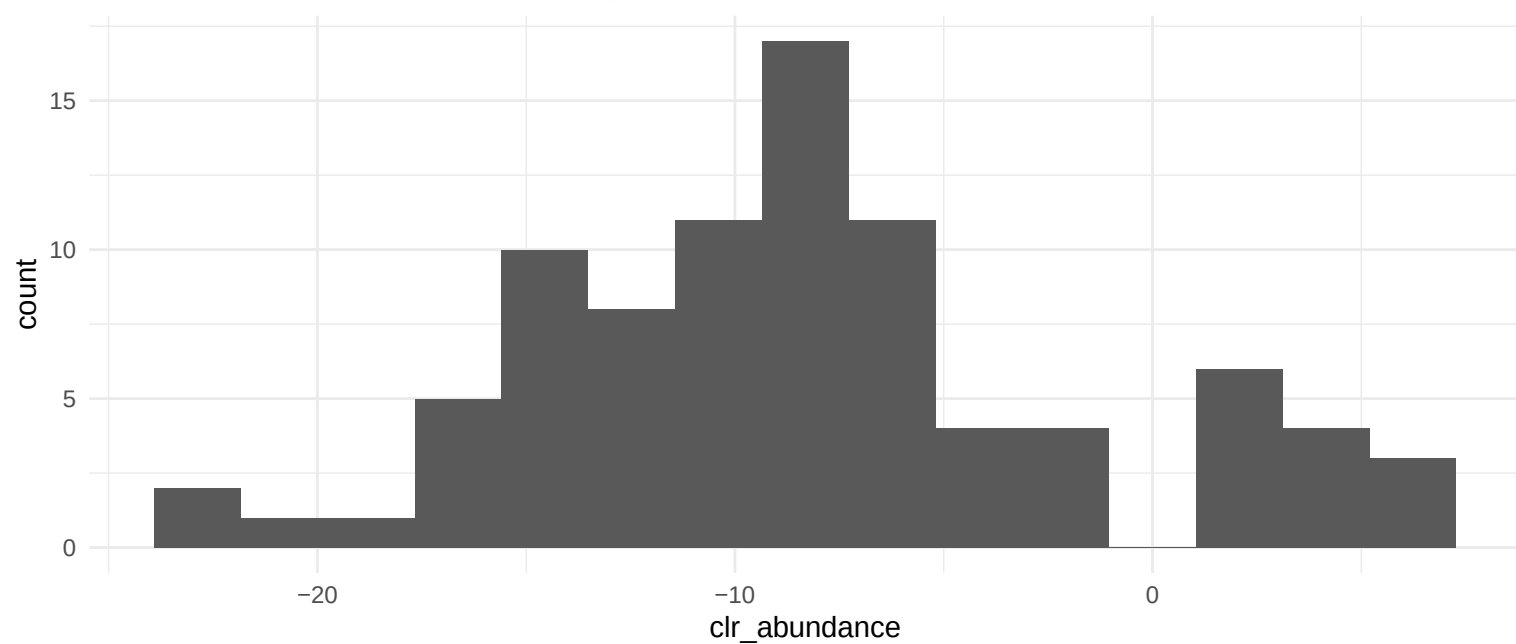

Distribution for 00073 Cutin, suberine and wax biosynthesis

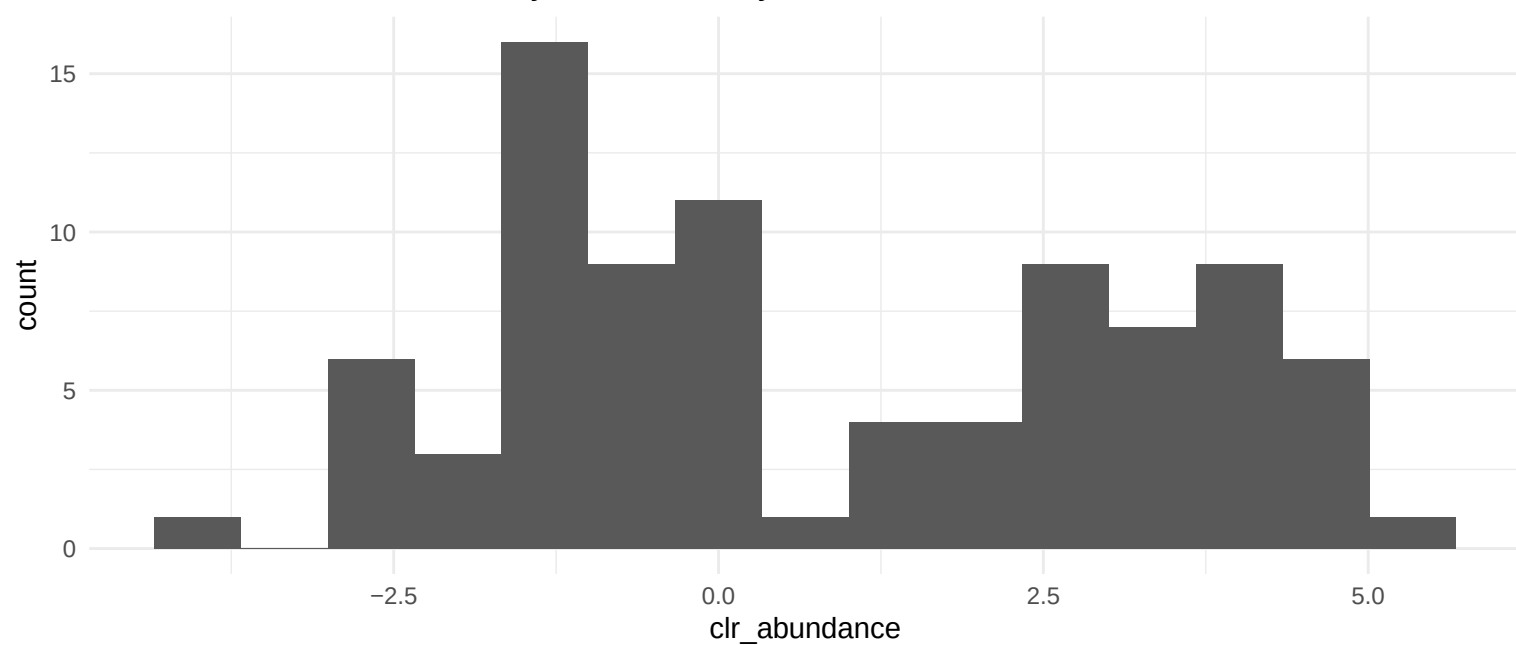

Distribution for 00074 Mycolic acid biosynthesis

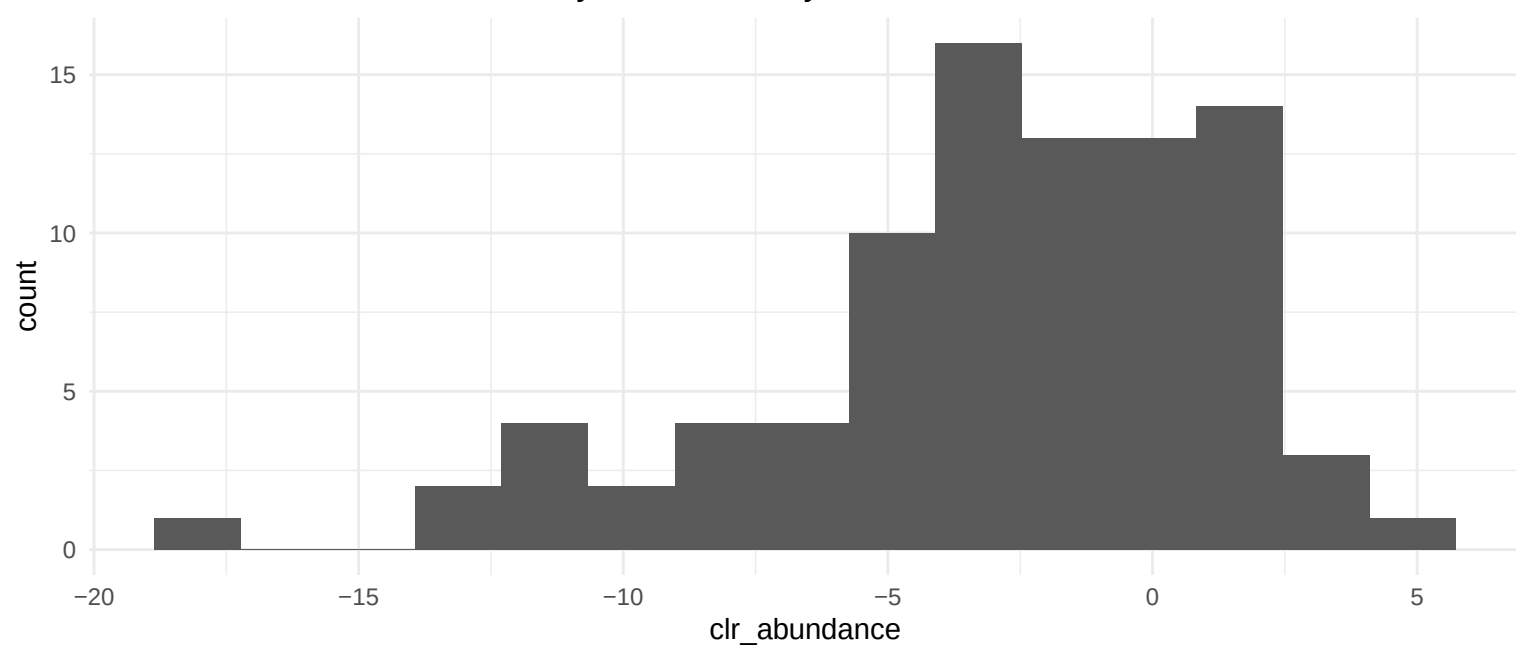

Distribution for 00100 Steroid biosynthesis

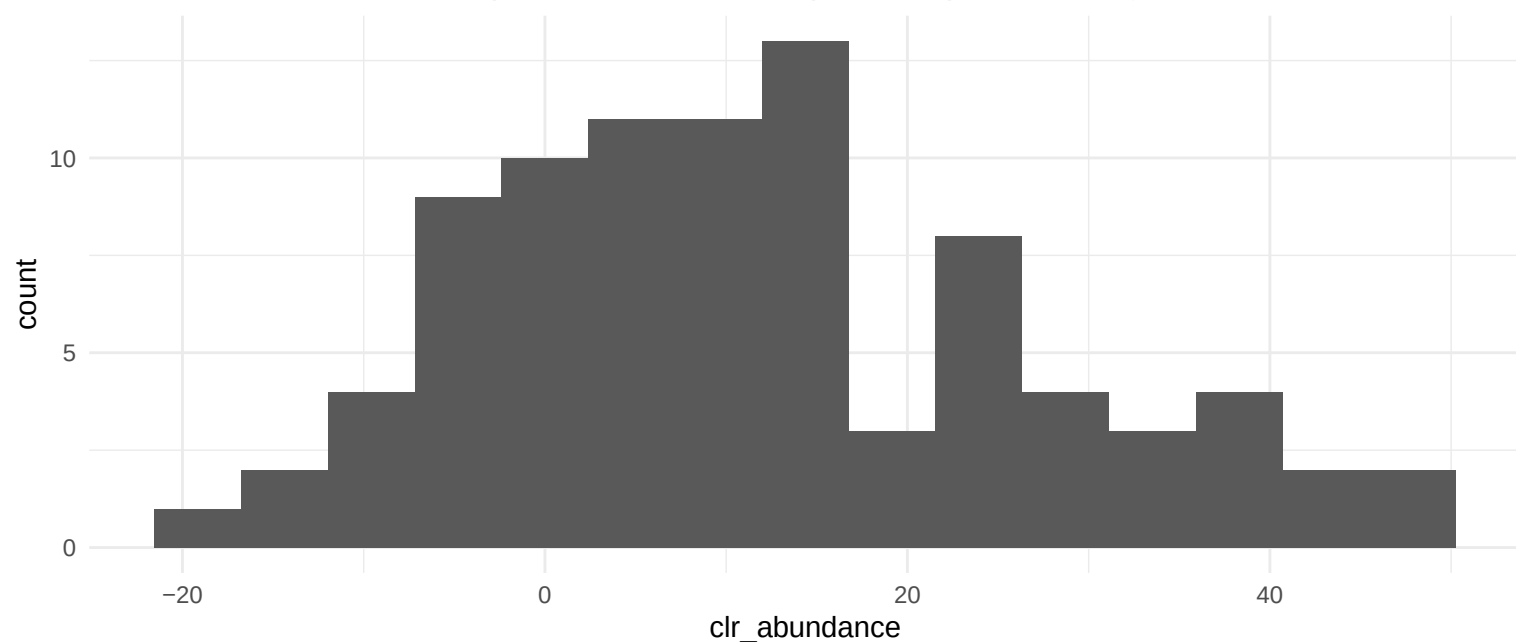

Distribution for 00120 Primary bile acid biosynthesis

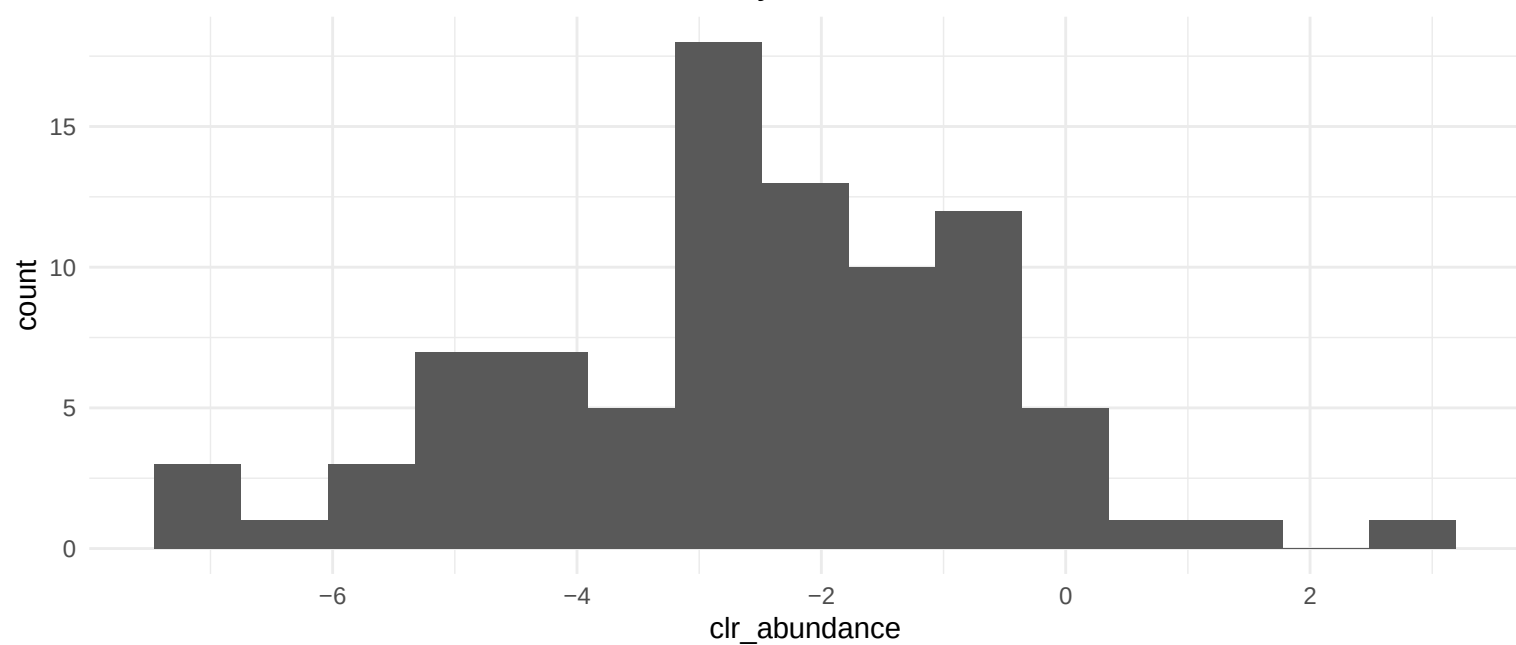

Distribution for 00121 Secondary bile acid biosynthesis

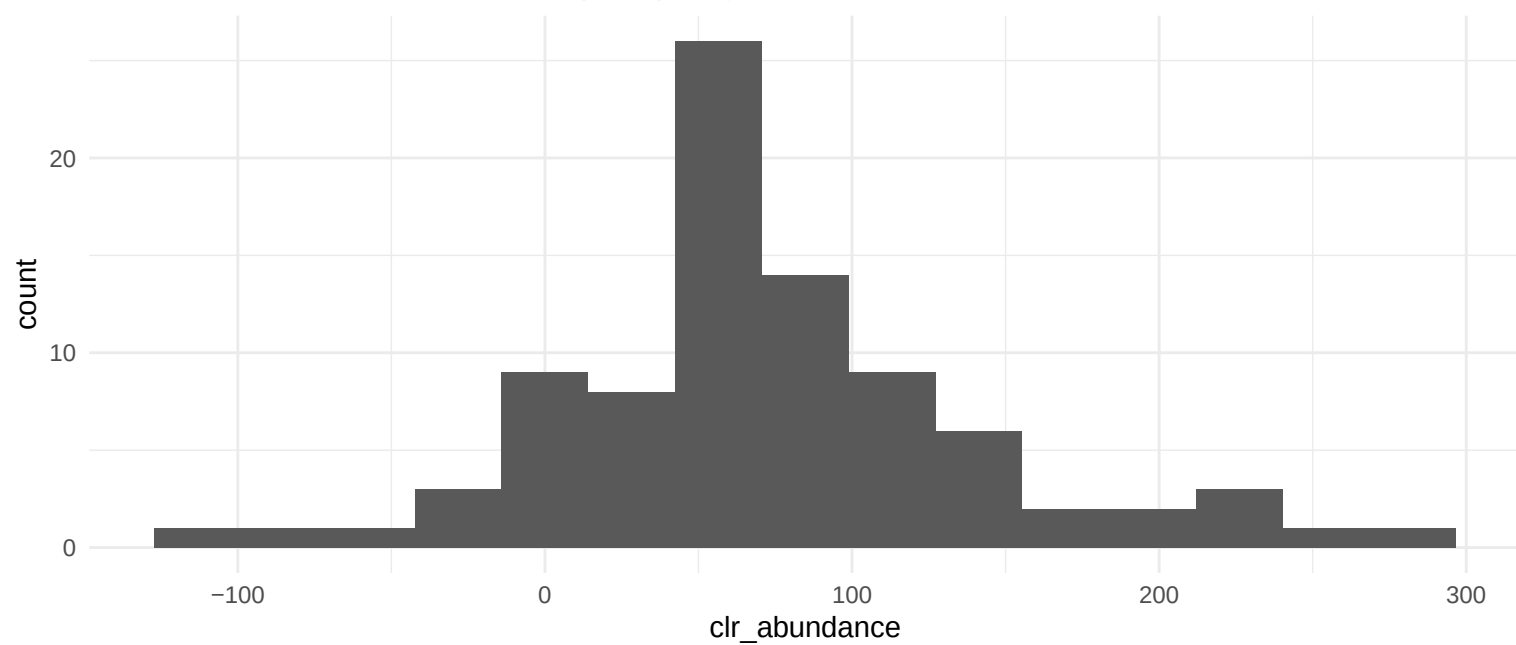

Distribution for 00130 Ubiquinone and other terpenoid–quinone biosynthesis

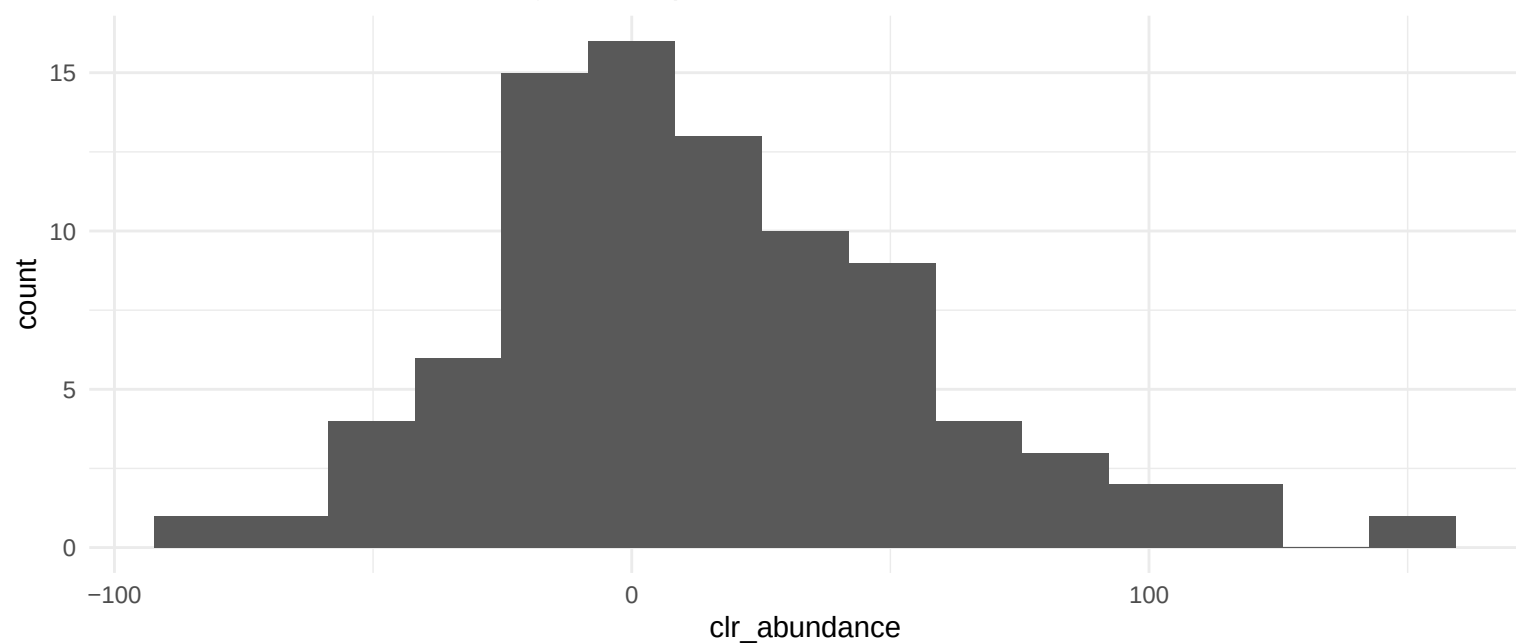

Distribution for 00140 Steroid hormone biosynthesis

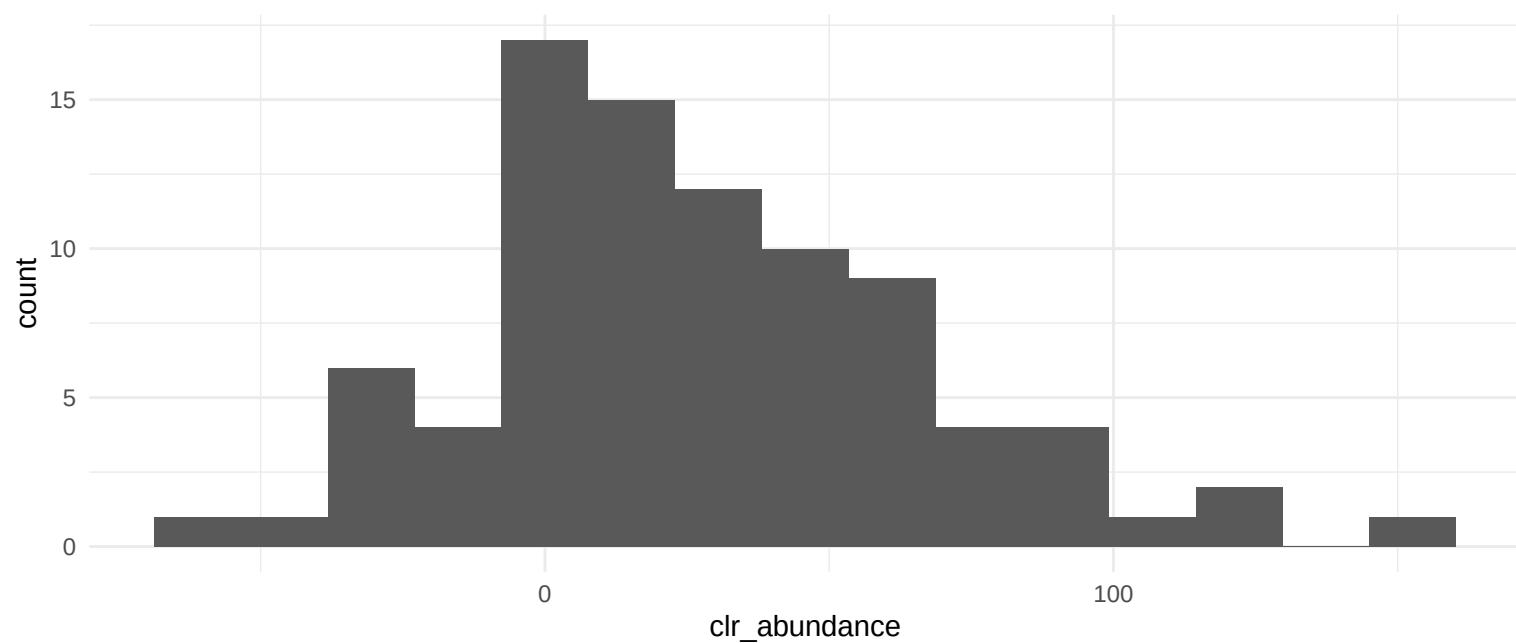

Distribution for 00190 Oxidative phosphorylation

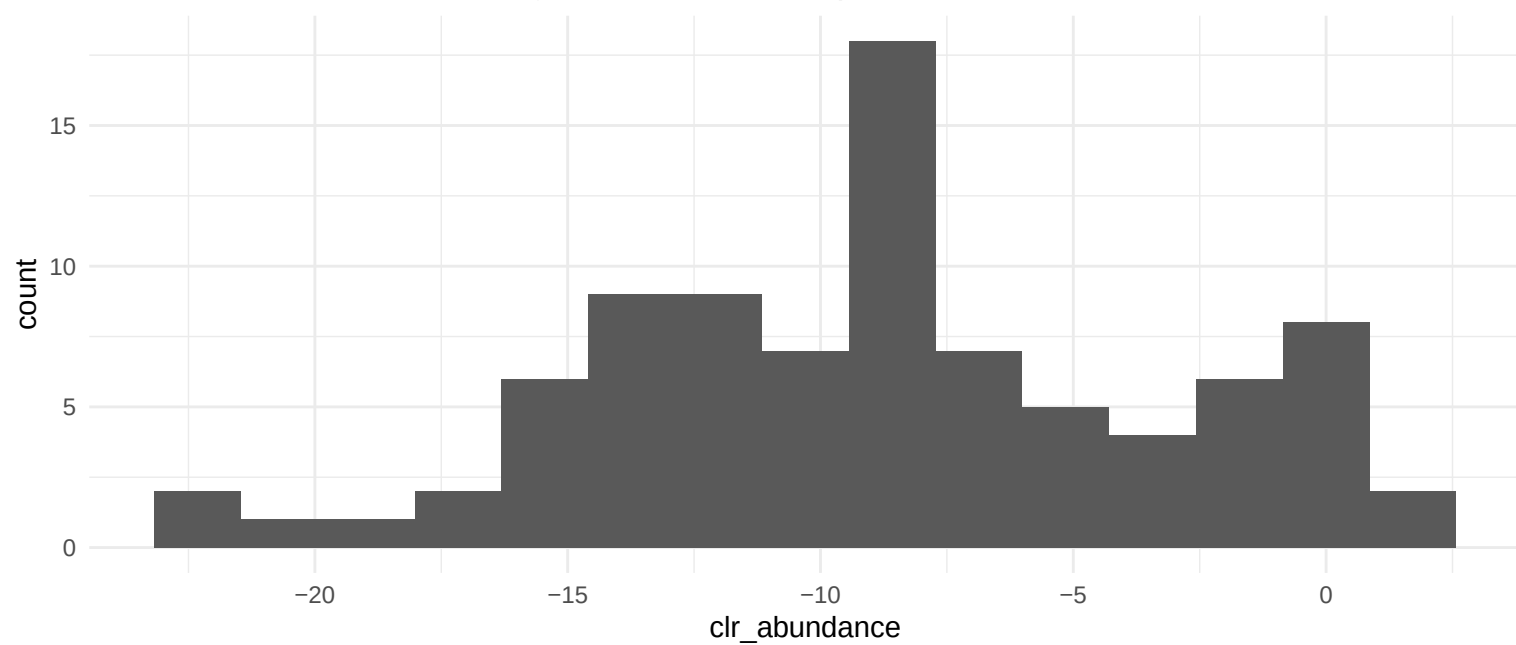

Distribution for 00194 Photosynthesis proteins

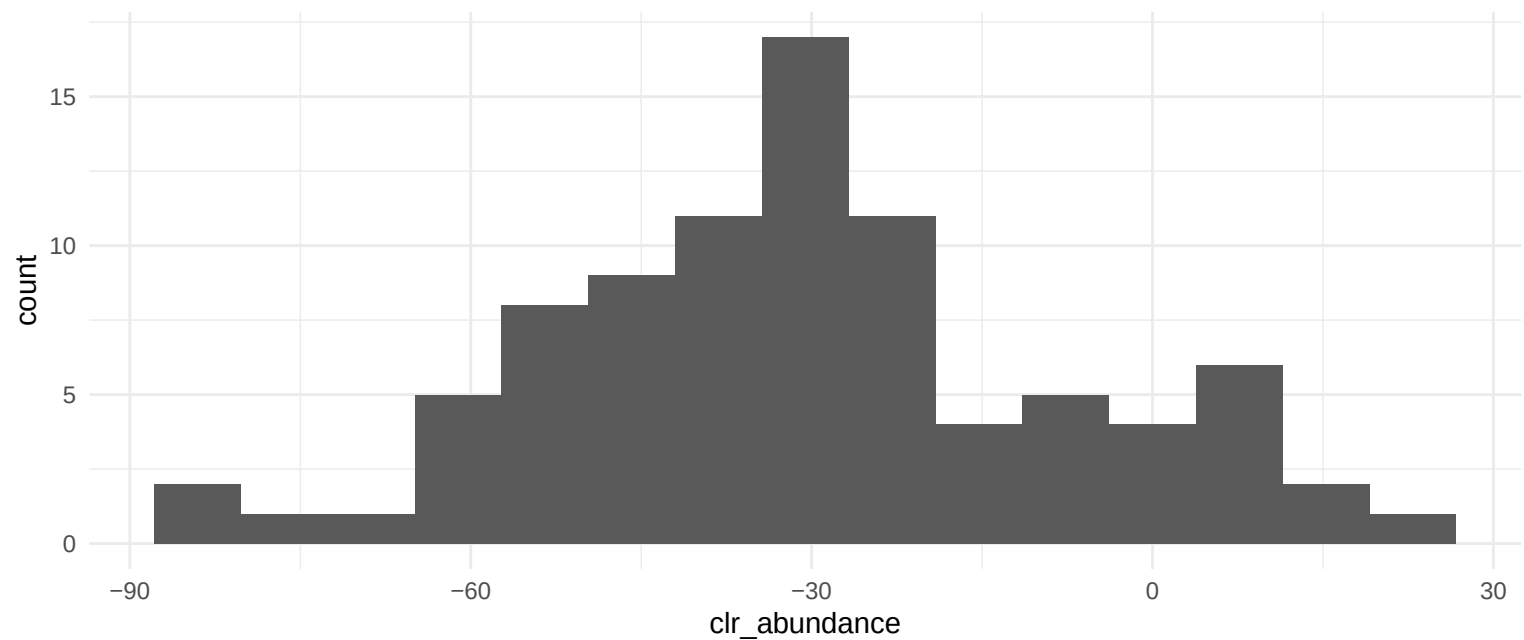

Distribution for 00195 Photosynthesis

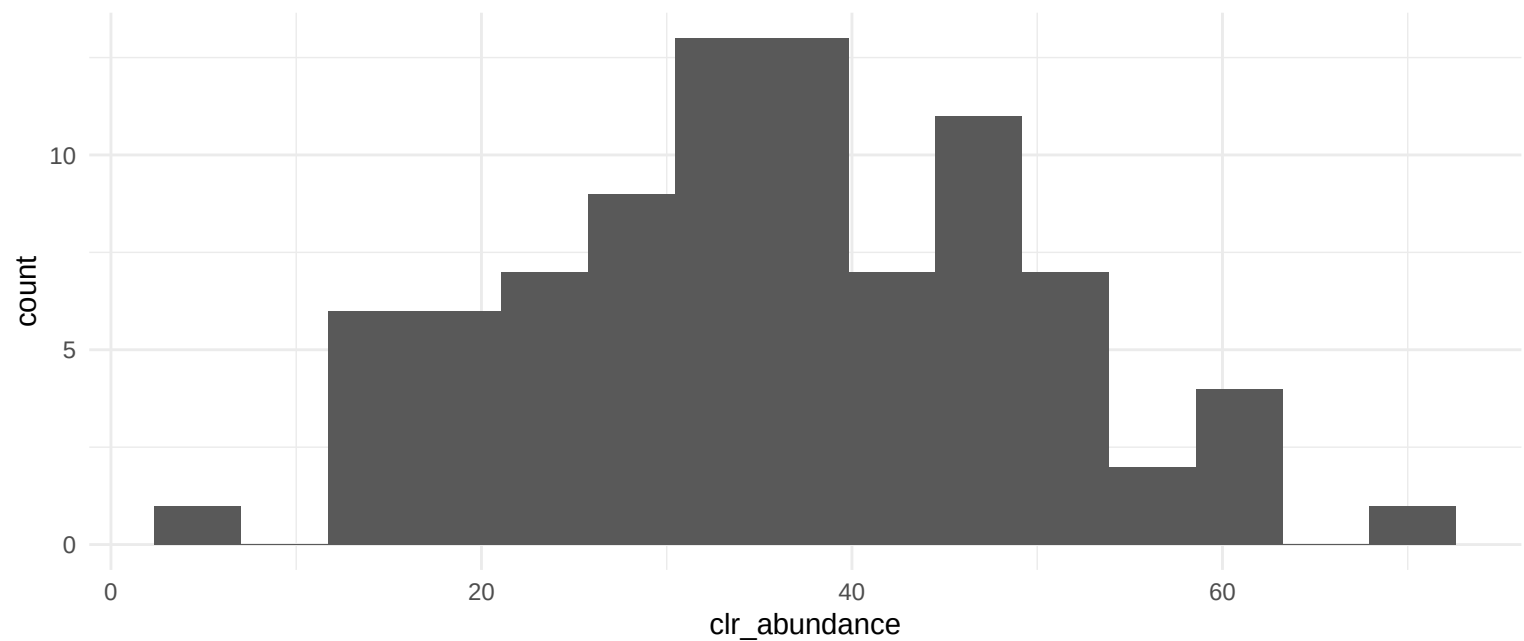

Distribution for 00196 Photosynthesis – antenna proteins

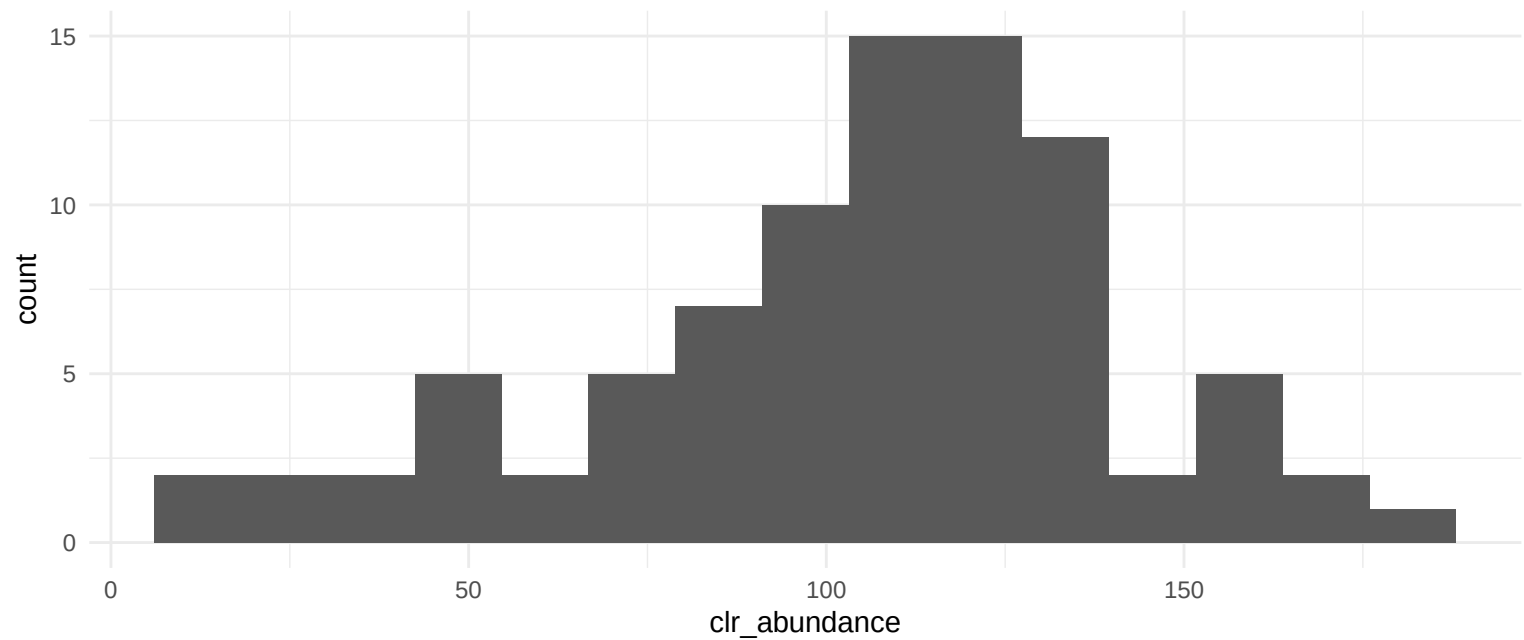

Distribution for 00199 Cytochrome P450

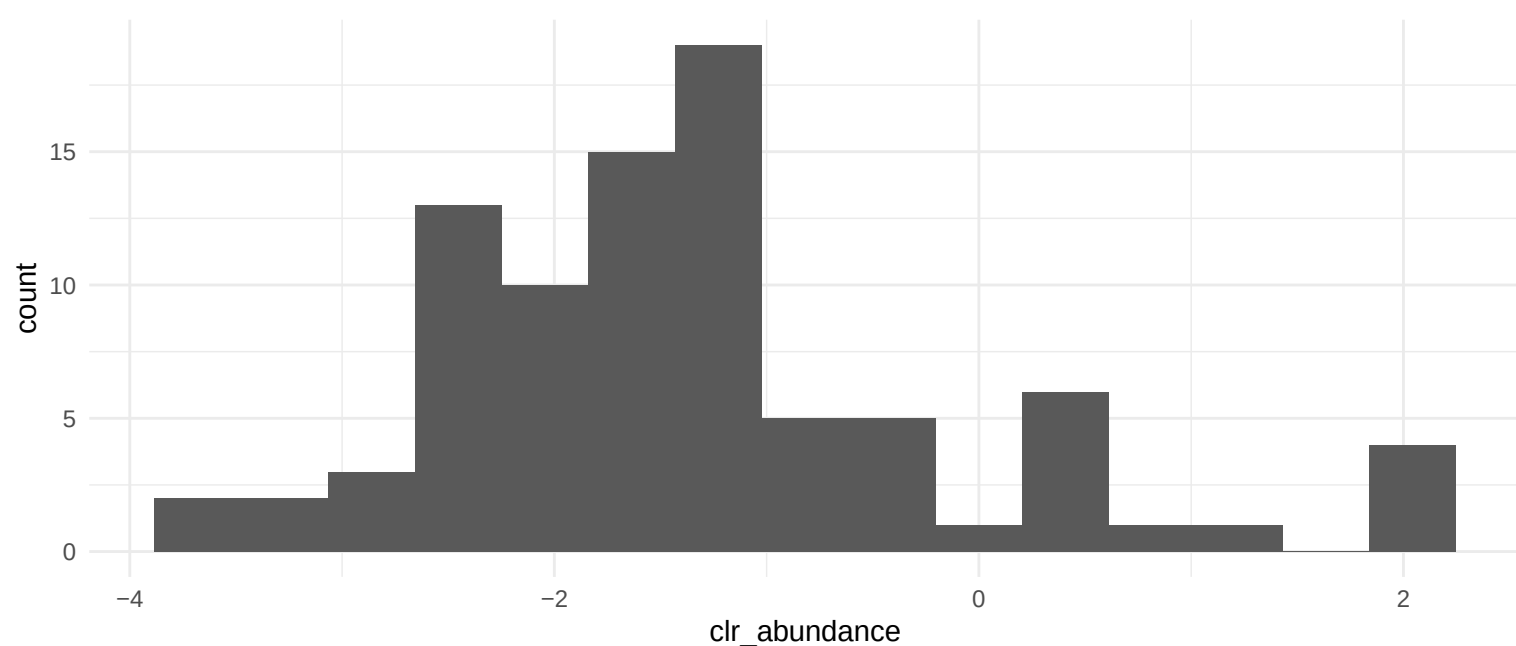

Distribution for 00220 Arginine biosynthesis

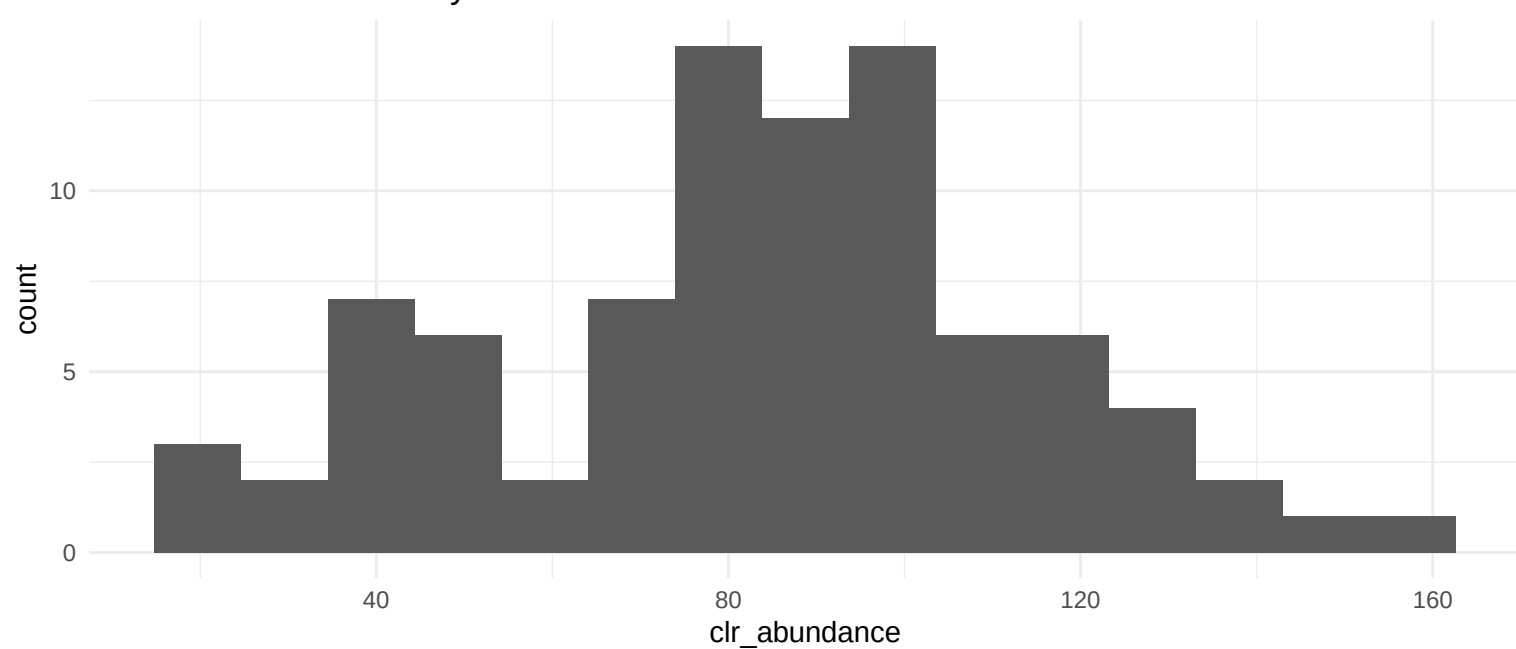

Distribution for 00230 Purine metabolism

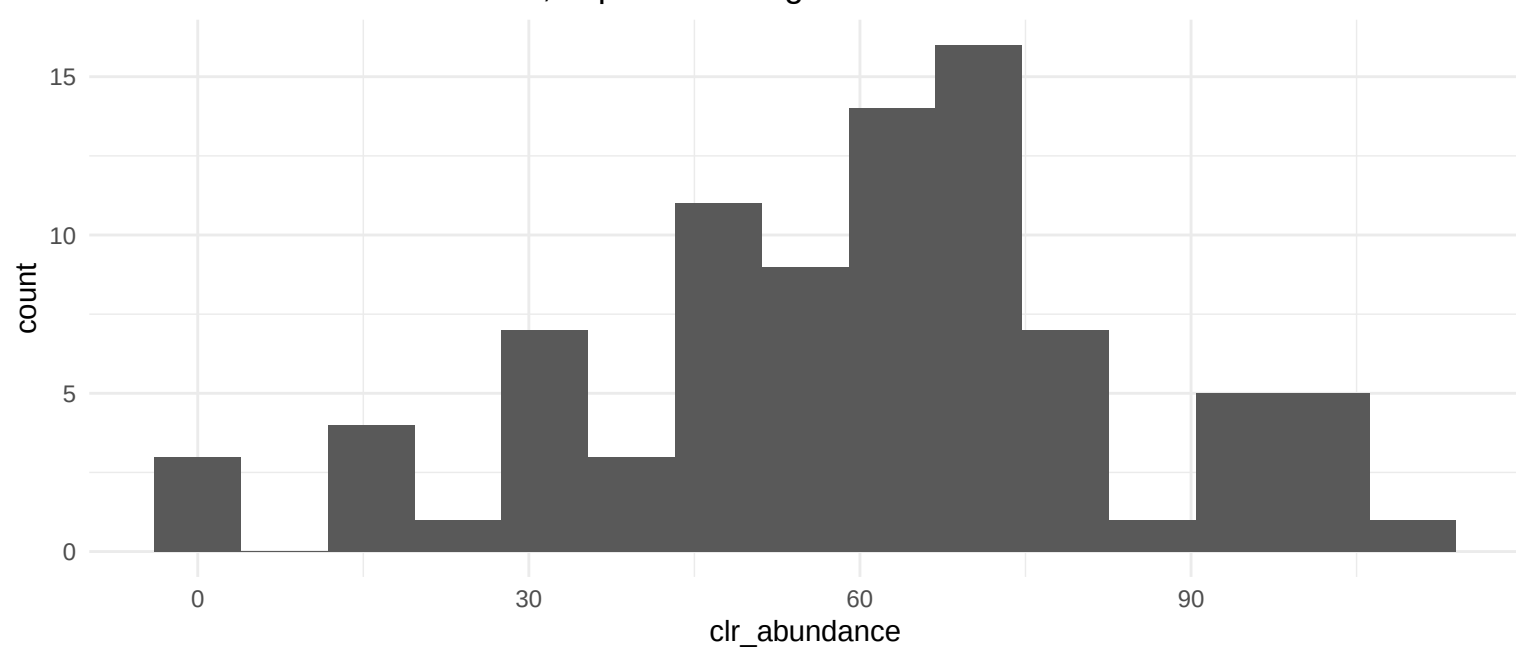

Distribution for 00232 Caffeine metabolism

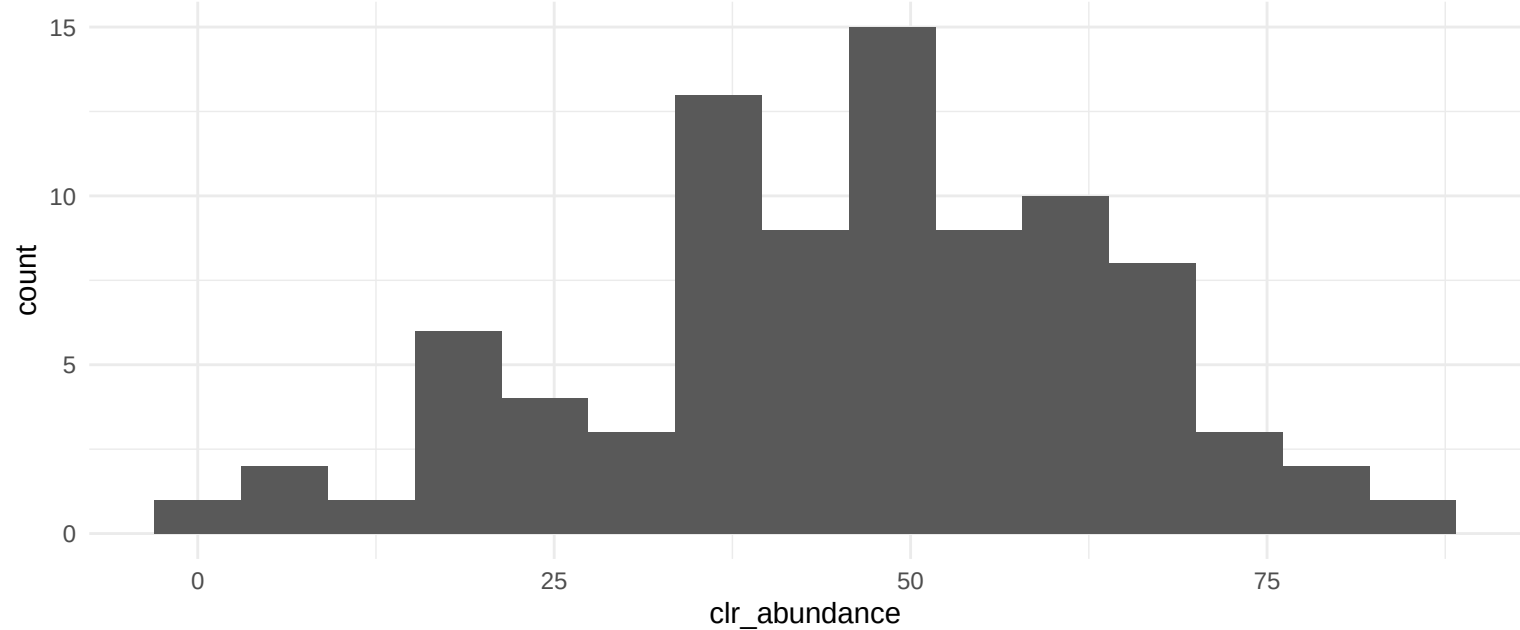

Distribution for 00240 Pyrimidine metabolism

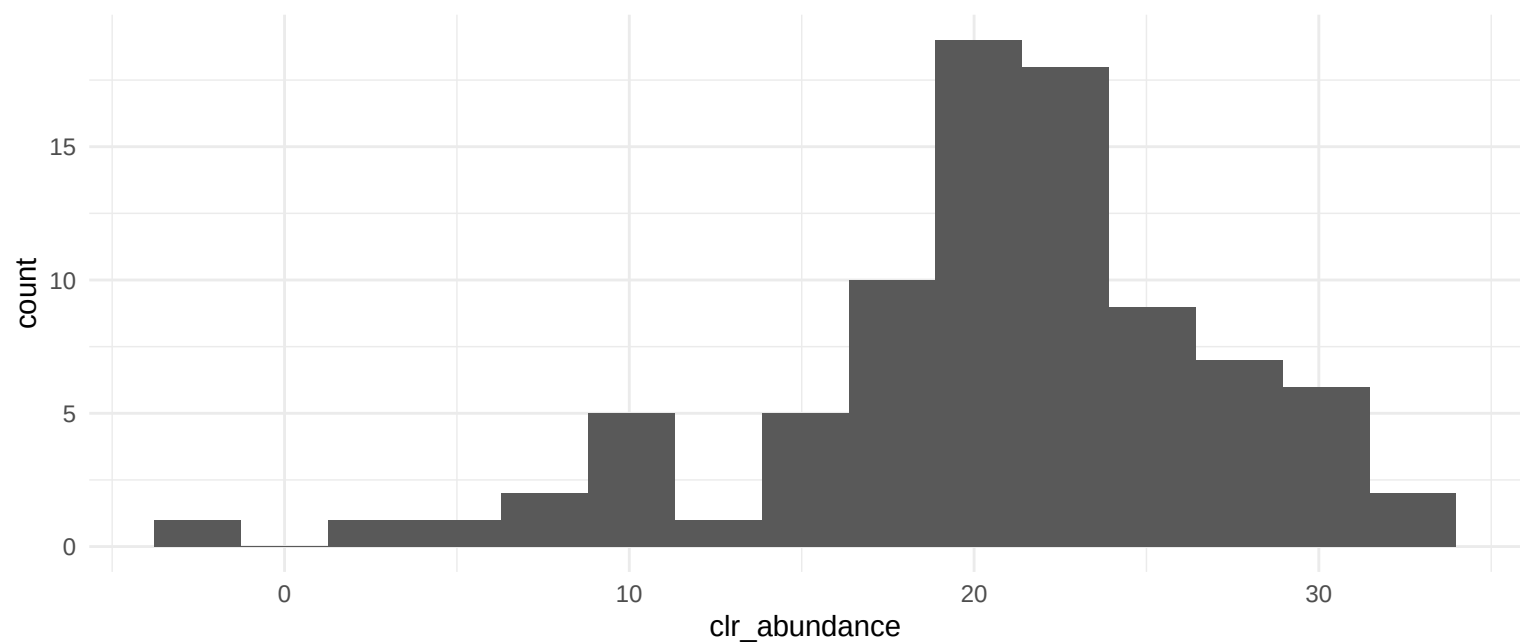

Distribution for 00250 Alanine, aspartate and glutamate metabolism

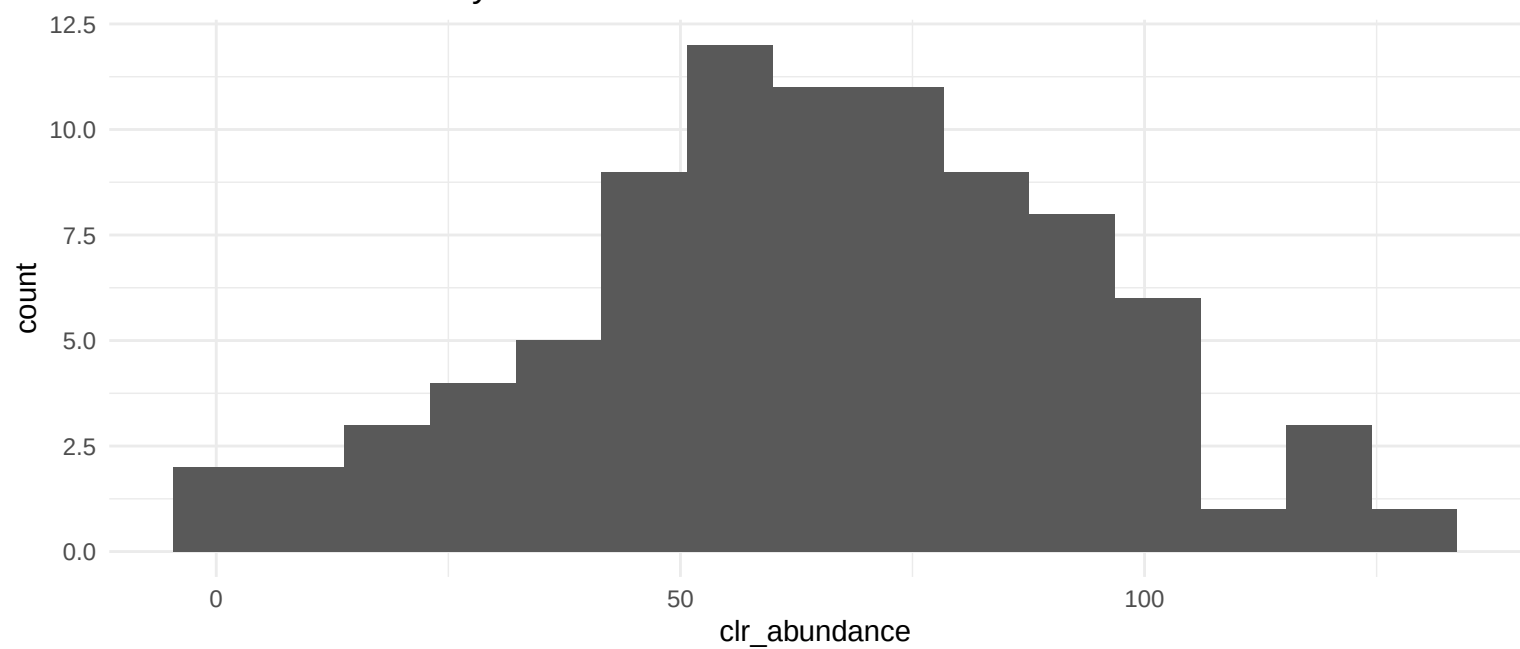

Distribution for 00260 Glycine, serine and threonine metabolism

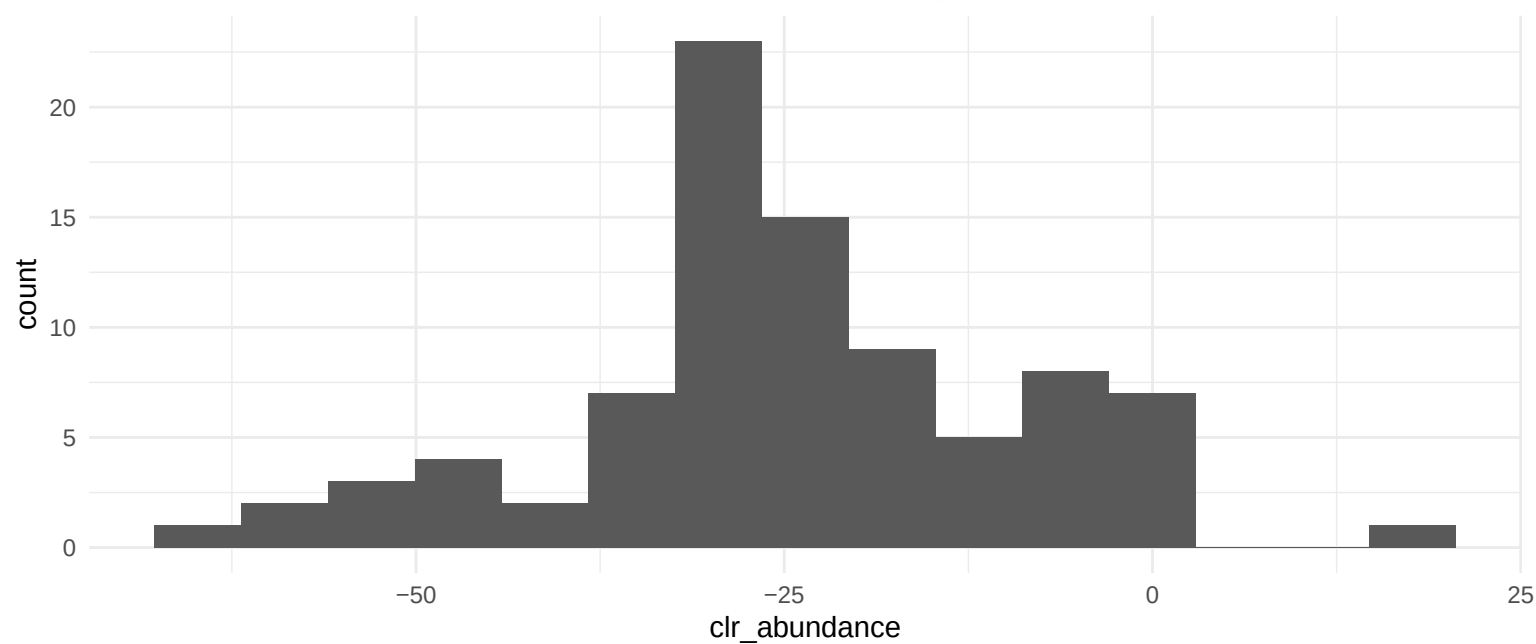

Distribution for 00261 Monobactam biosynthesis

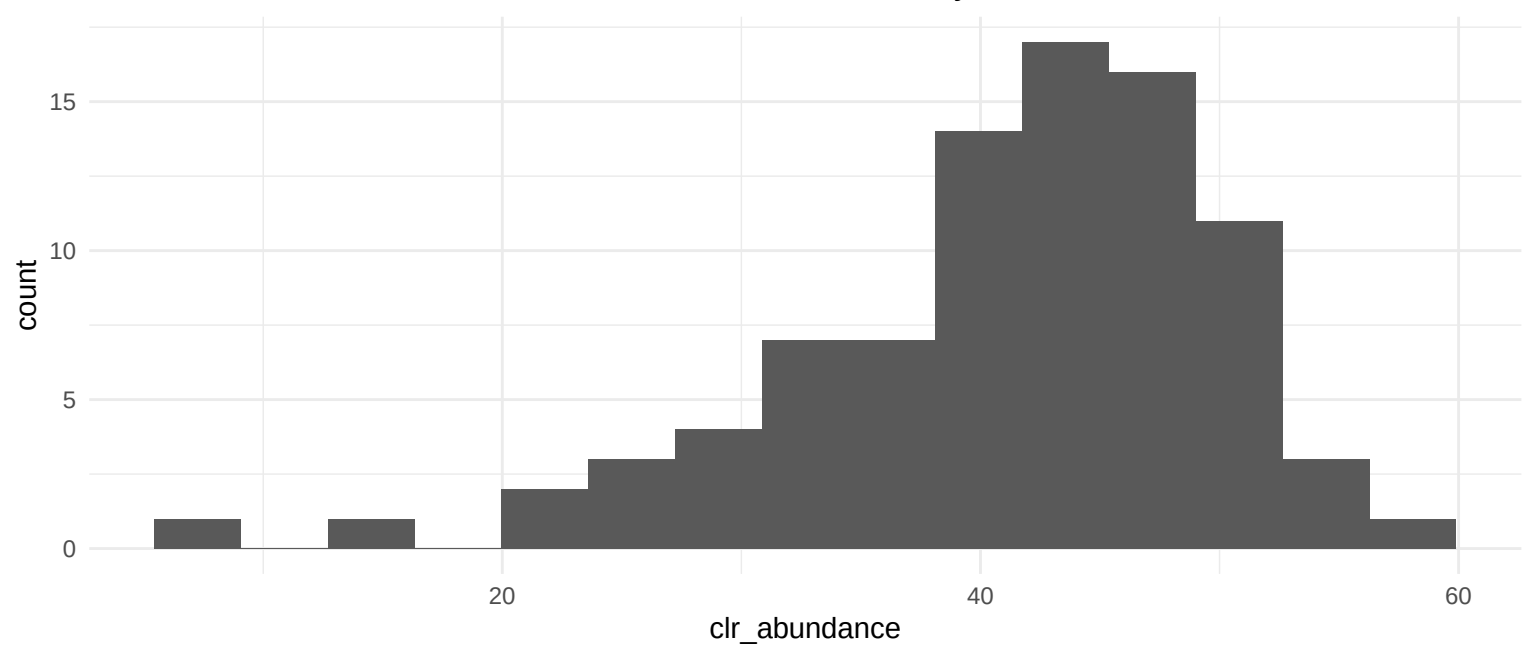

Distribution for 00270 Cysteine and methionine metabolism

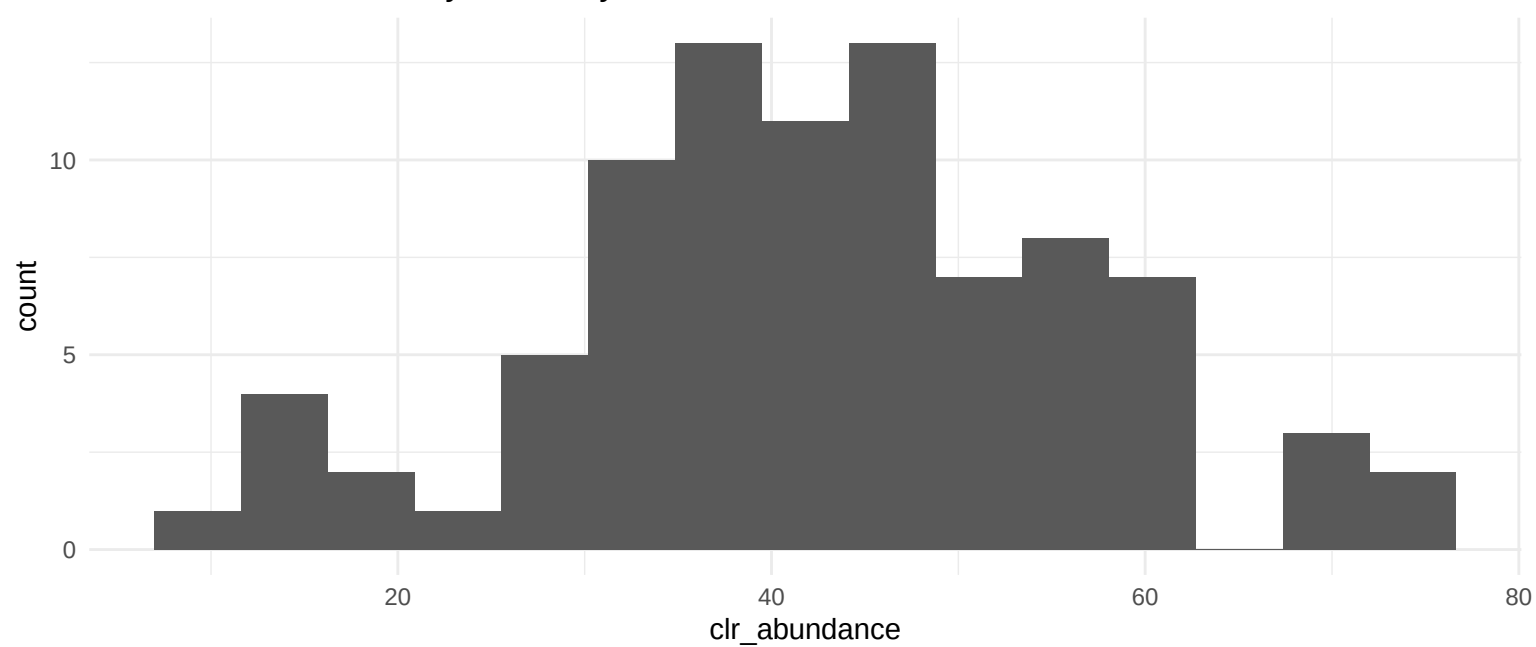

Distribution for 00280 Valine, leucine and isoleucine degradation

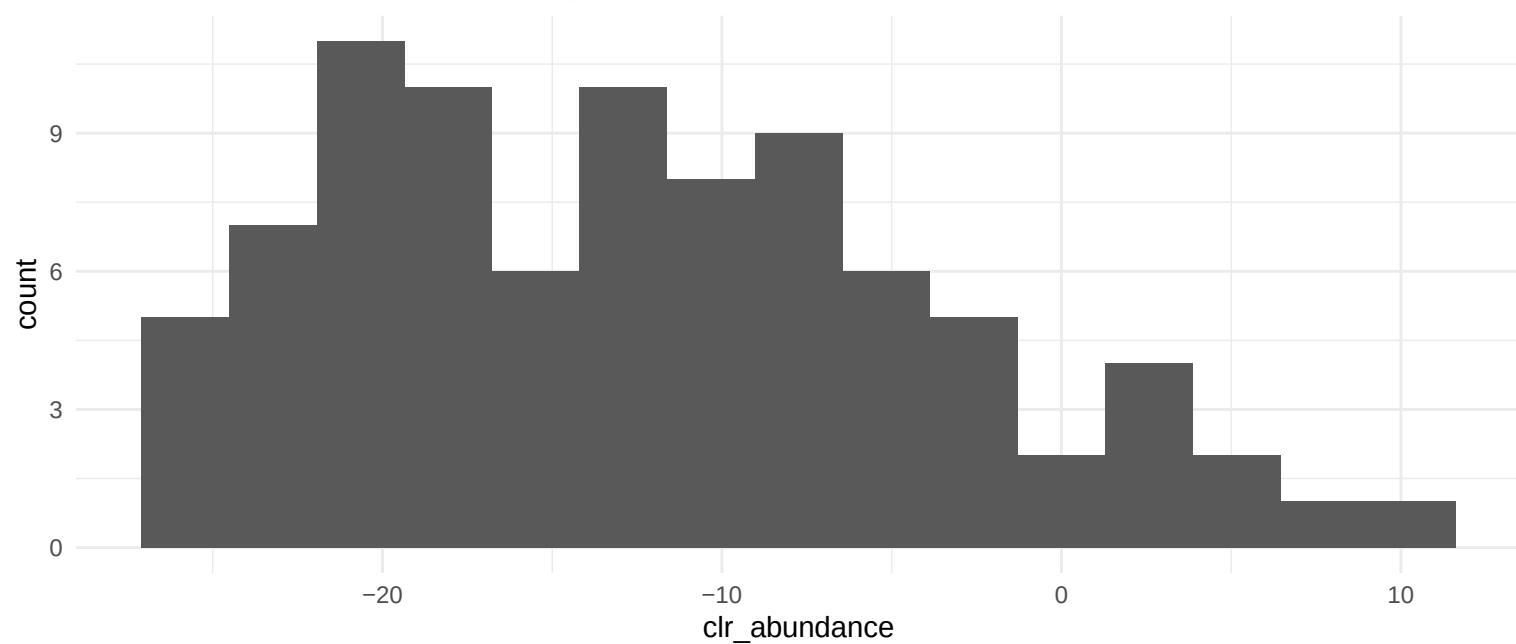

Distribution for 00290 Valine, leucine and isoleucine biosynthesis

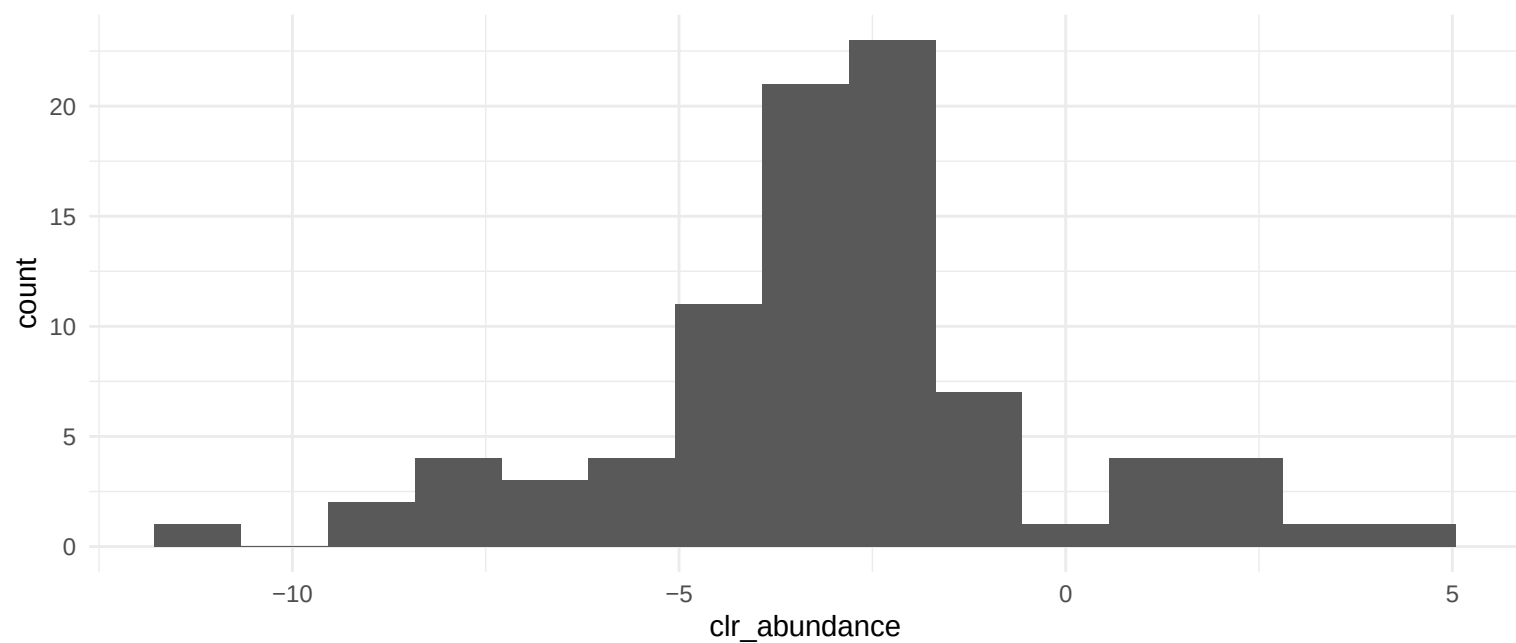

Distribution for 00300 Lysine biosynthesis

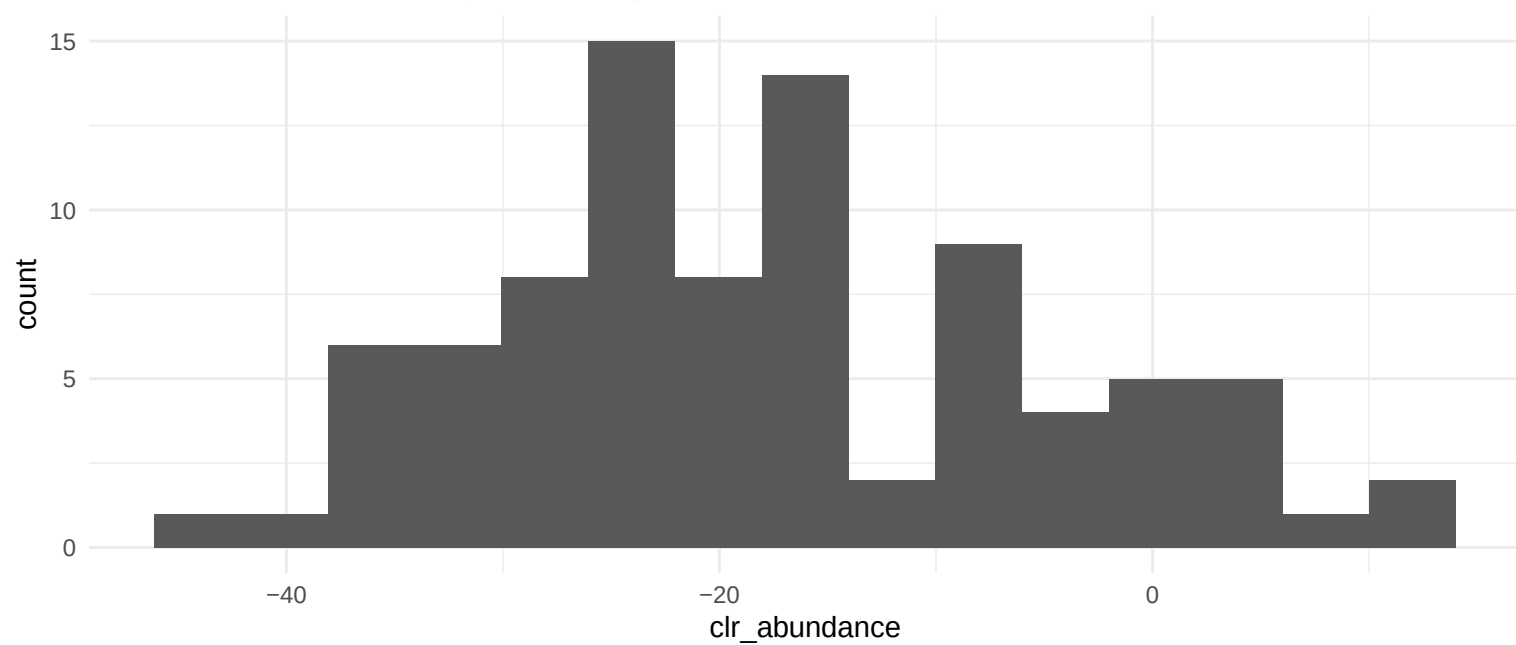

Distribution for 00310 Lysine degradation

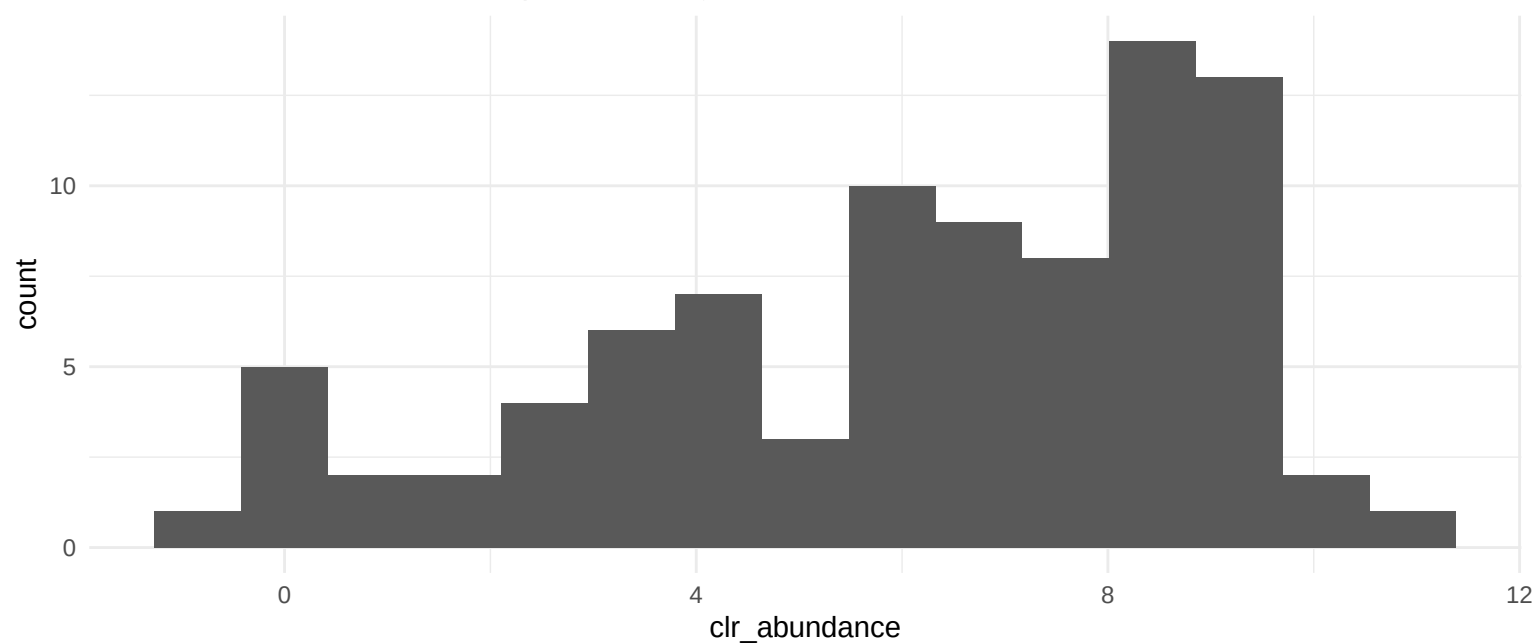

Distribution for 00311 Penicillin and cephalosporin biosynthesis

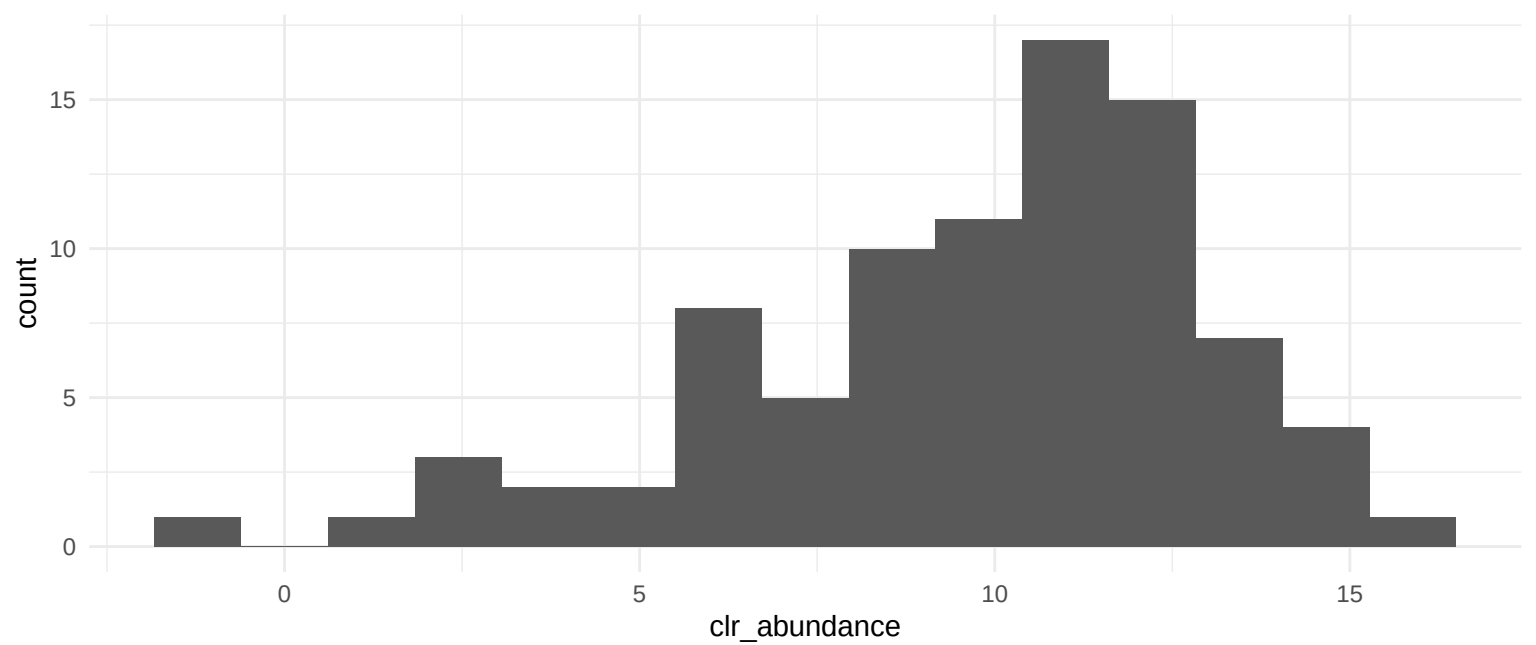

Distribution for 00330 Arginine and proline metabolism

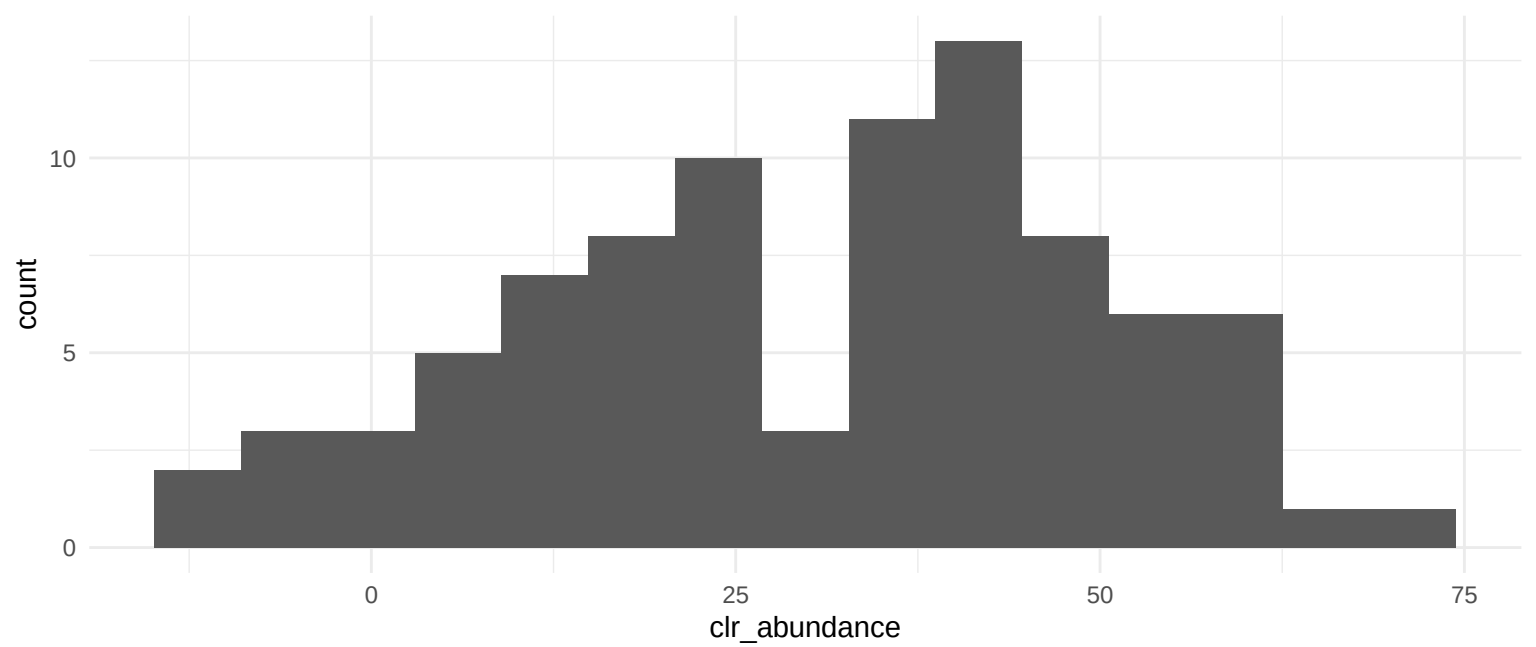

Distribution for 00332 Carbapenem biosynthesis

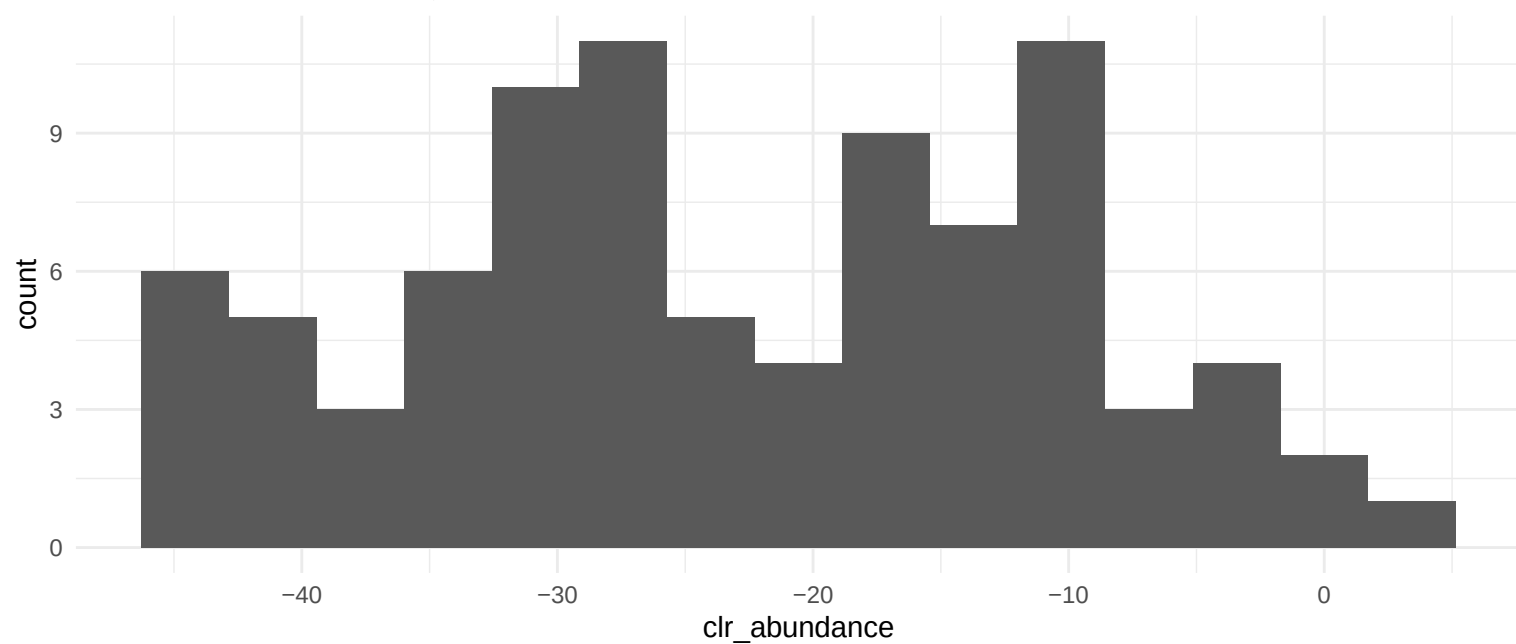

Distribution for 00333 Prodigiosin biosynthesis

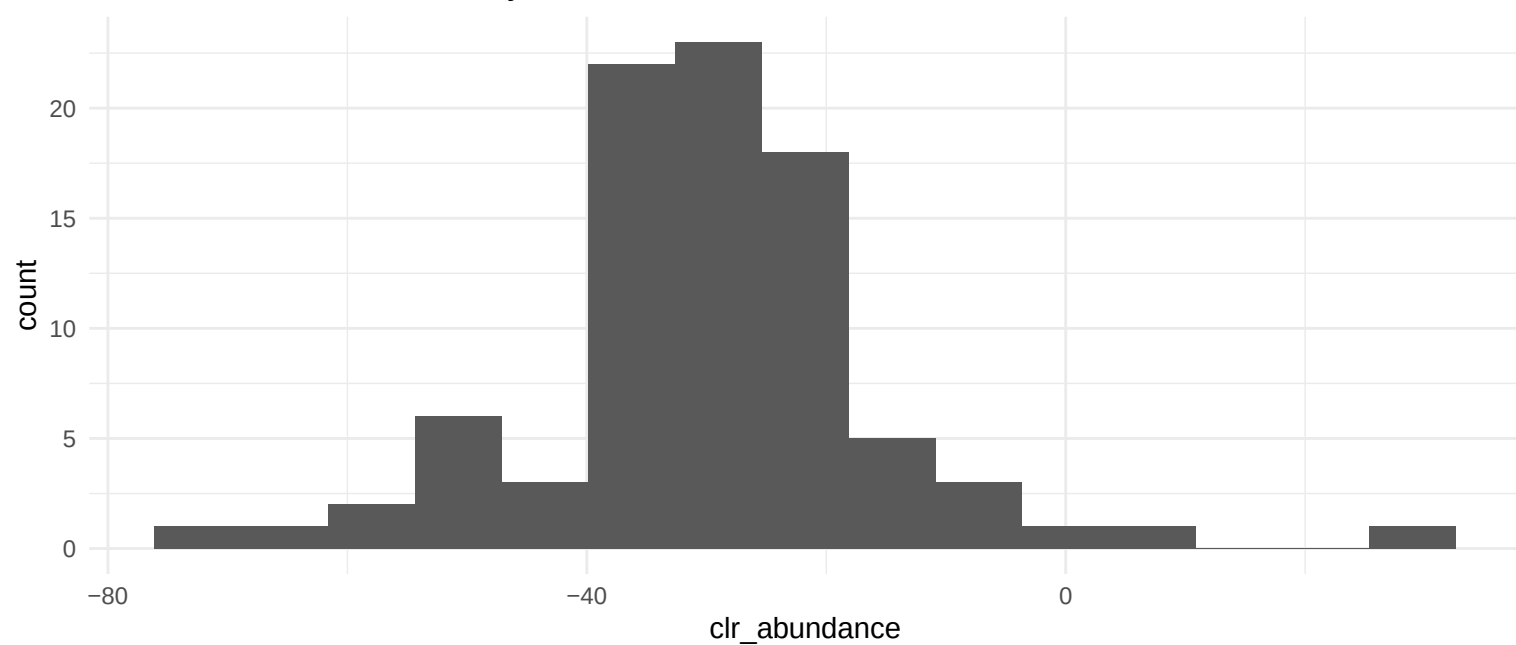

Distribution for 00340 Histidine metabolism

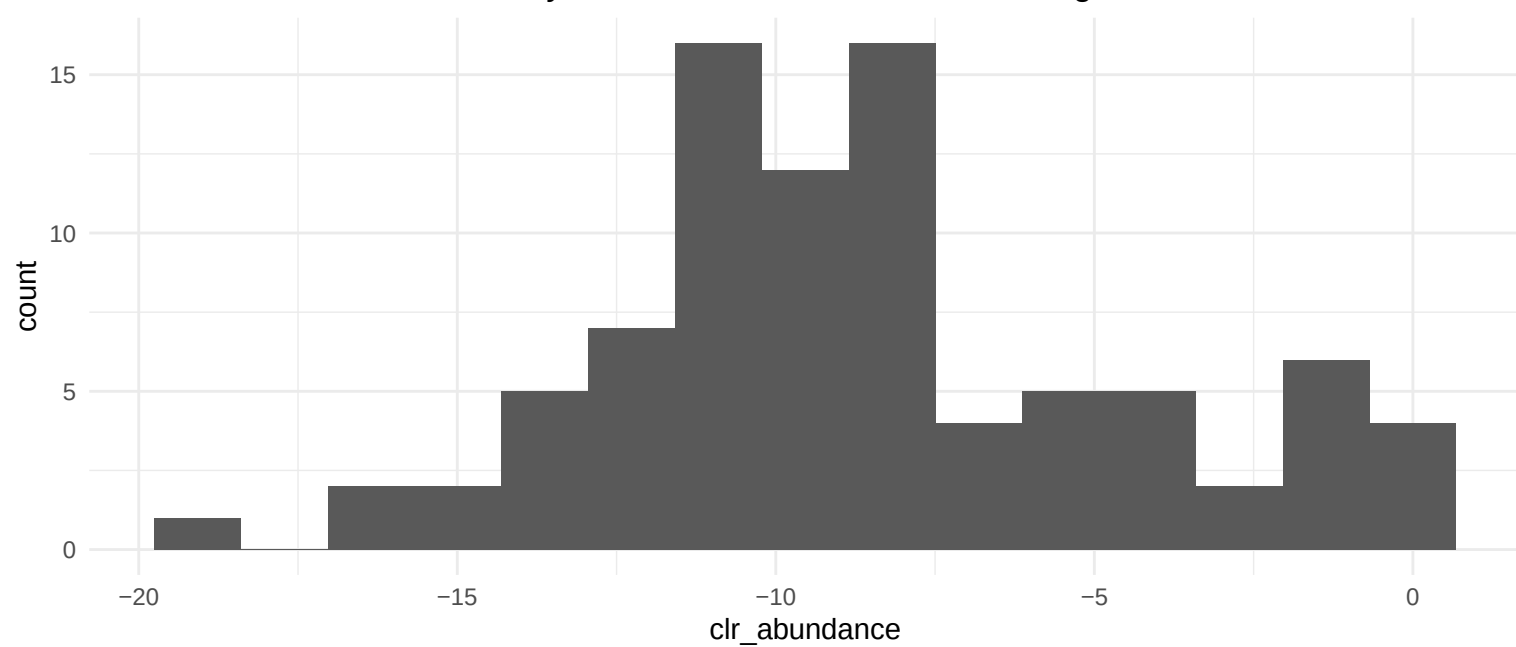

Distribution for 00350 Tyrosine metabolism

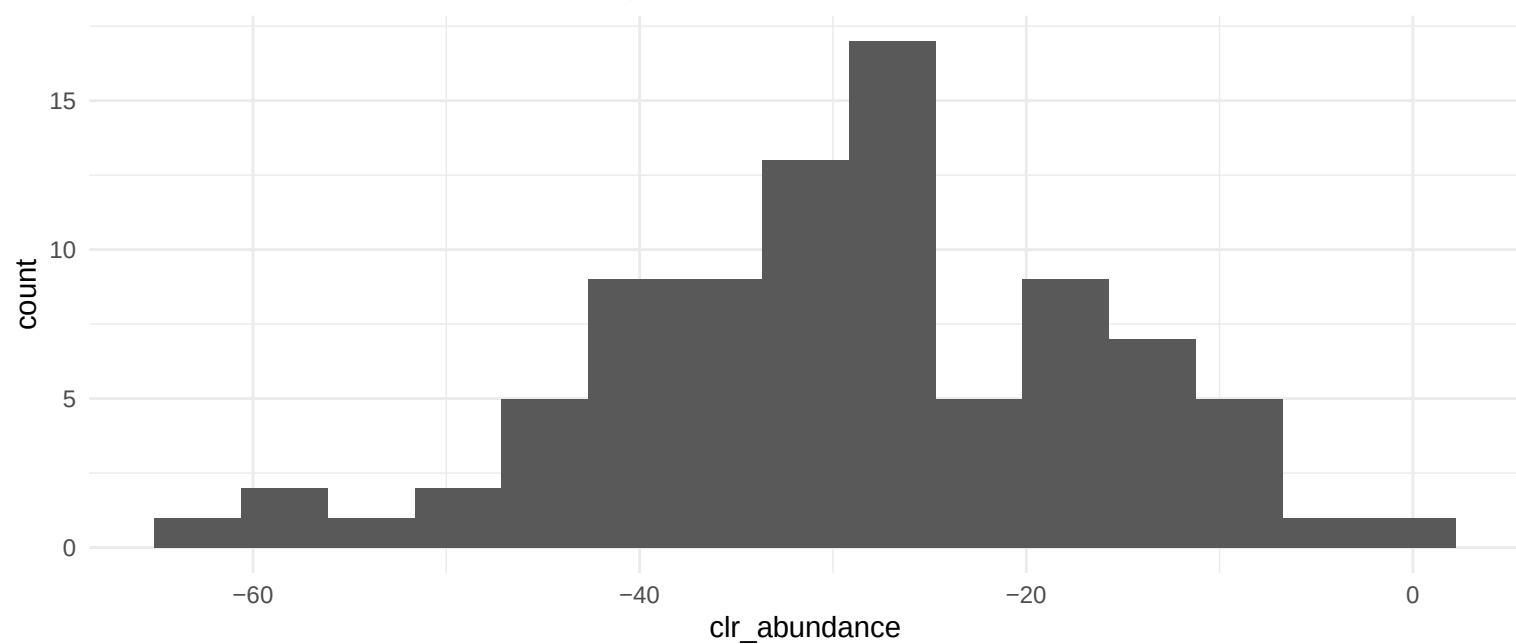

Distribution for 00360 Phenylalanine metabolism

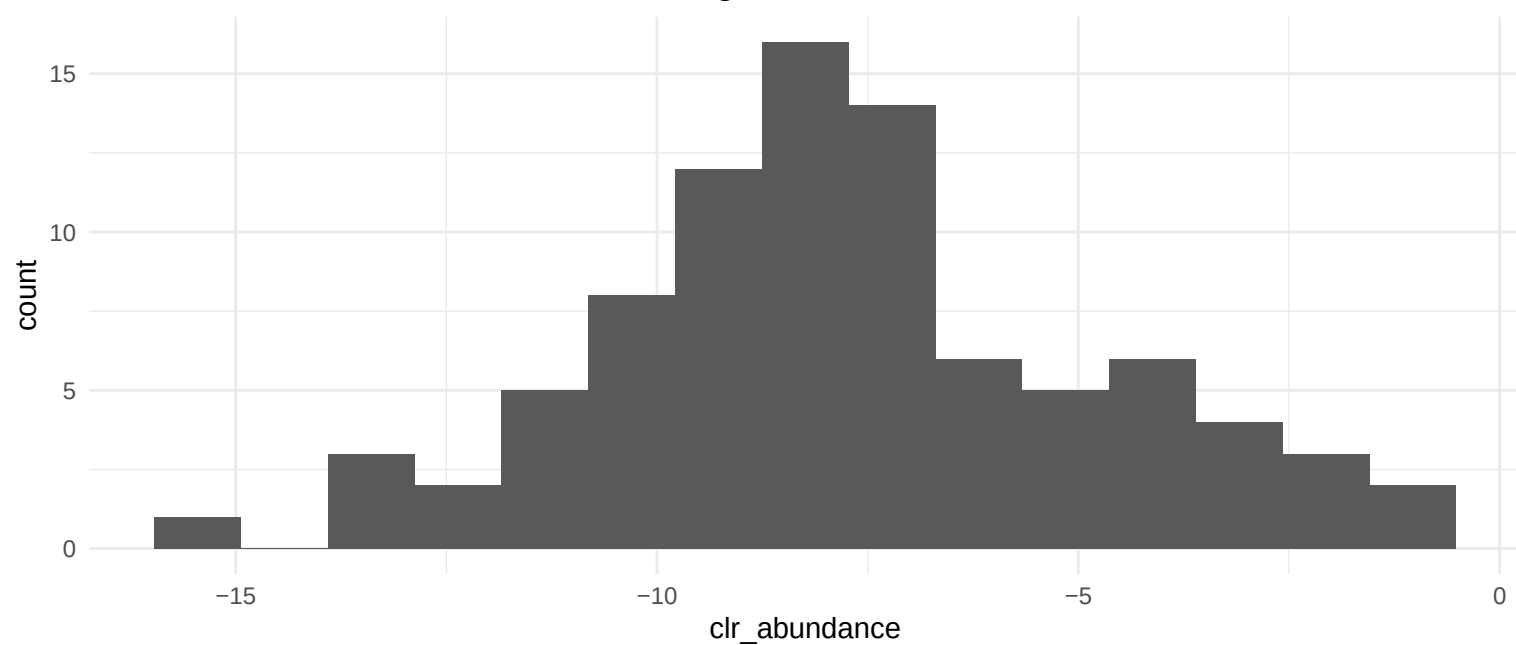

Distribution for 00361 Chlorocyclohexane and chlorobenzene degradation

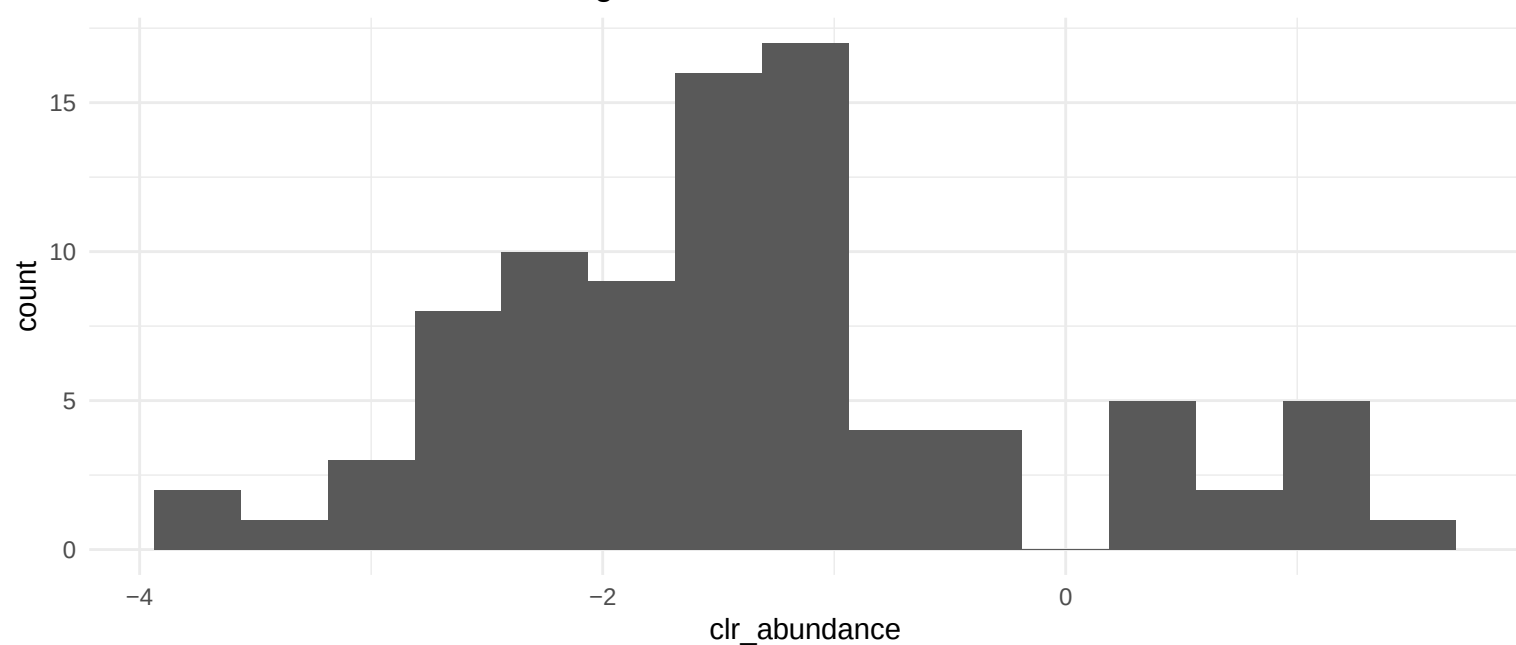

Distribution for 00362 Benzoate degradation

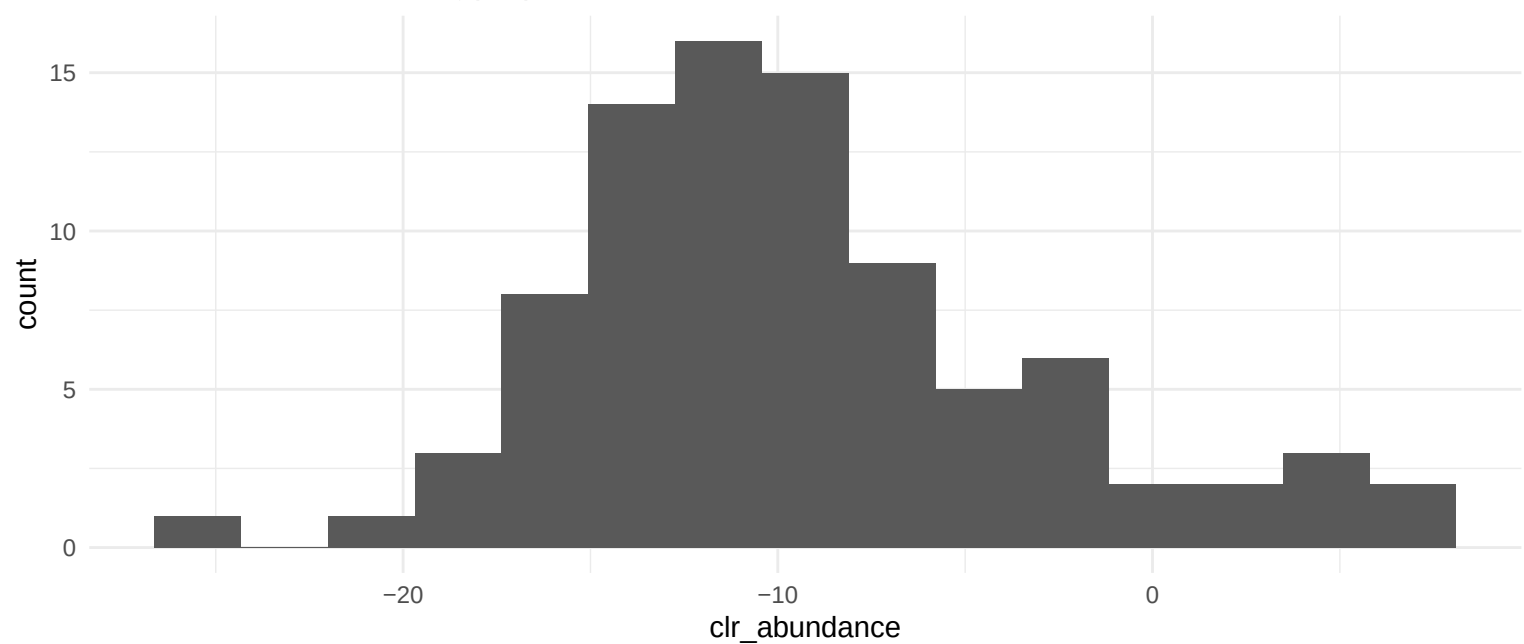

Distribution for 00364 Fluorobenzoate degradation

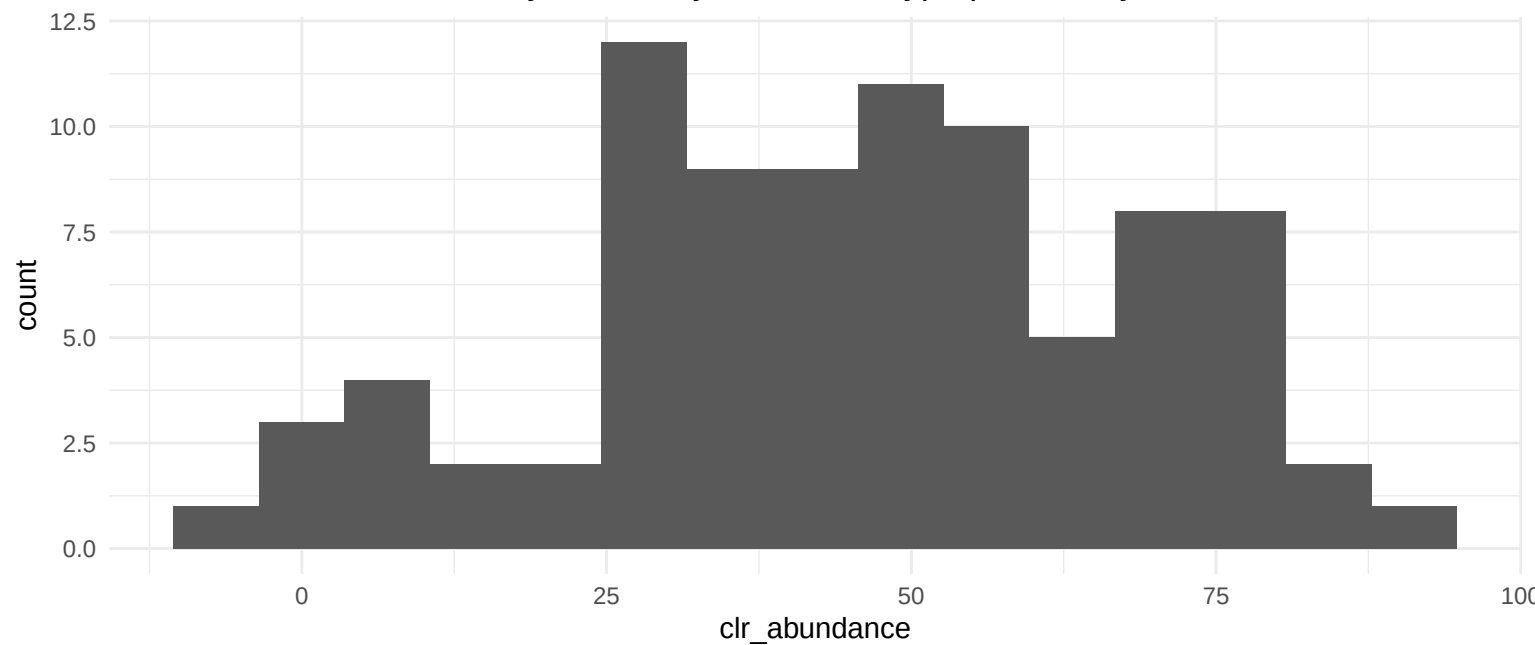

Distribution for 00365 Furfural degradation

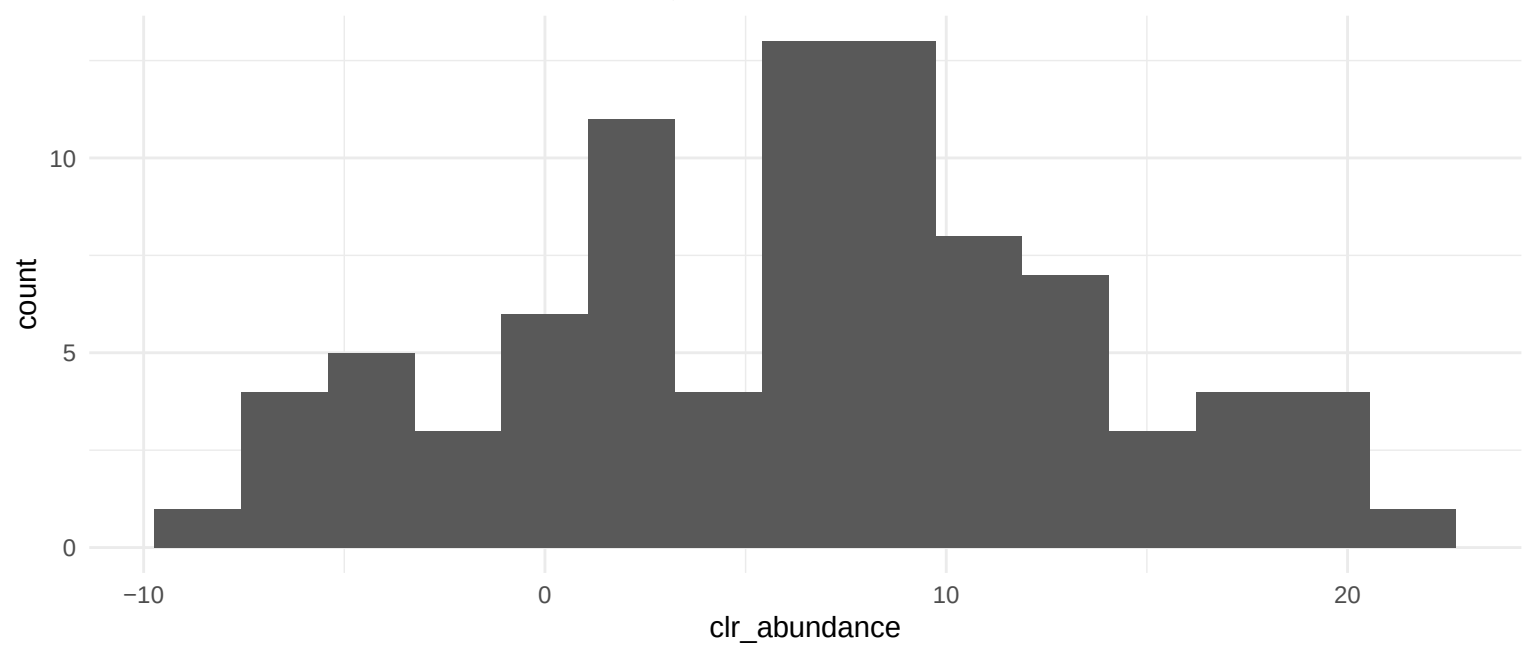

Distribution for 00380 Tryptophan metabolism

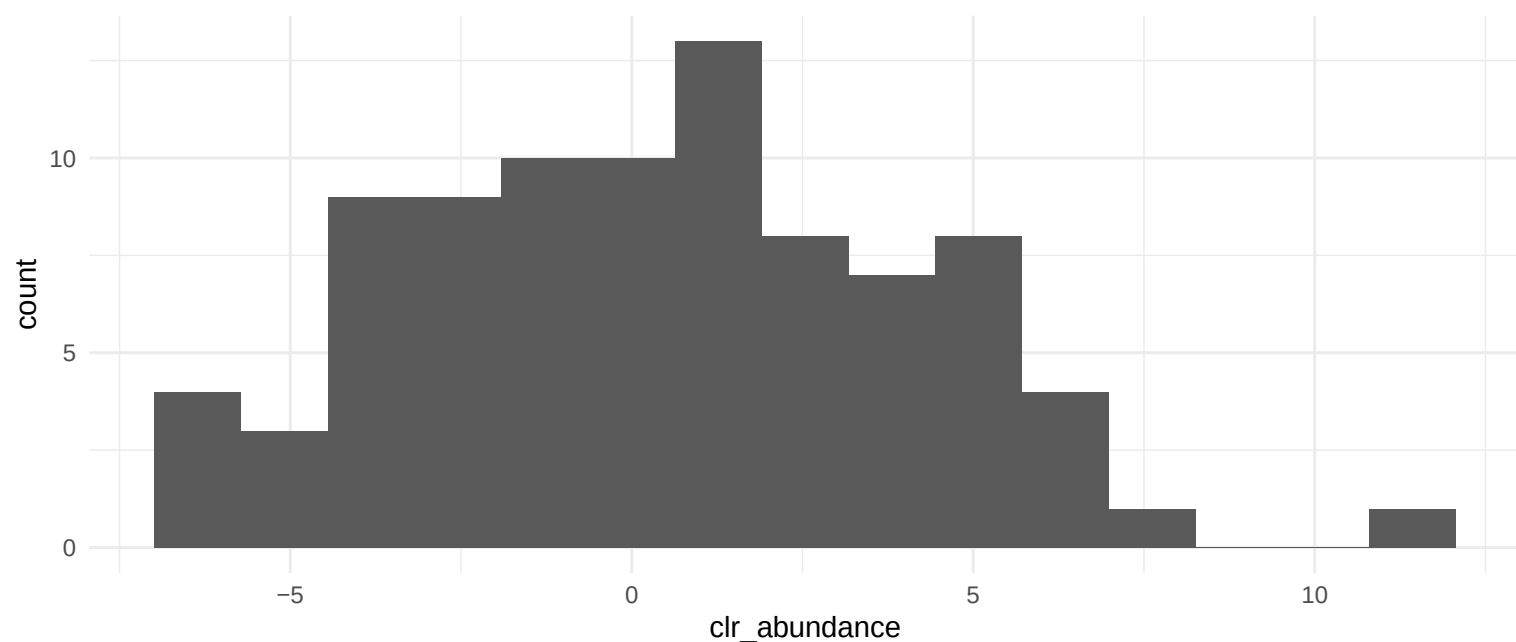

Distribution for 00400 Phenylalanine, tyrosine and tryptophan biosynthesis

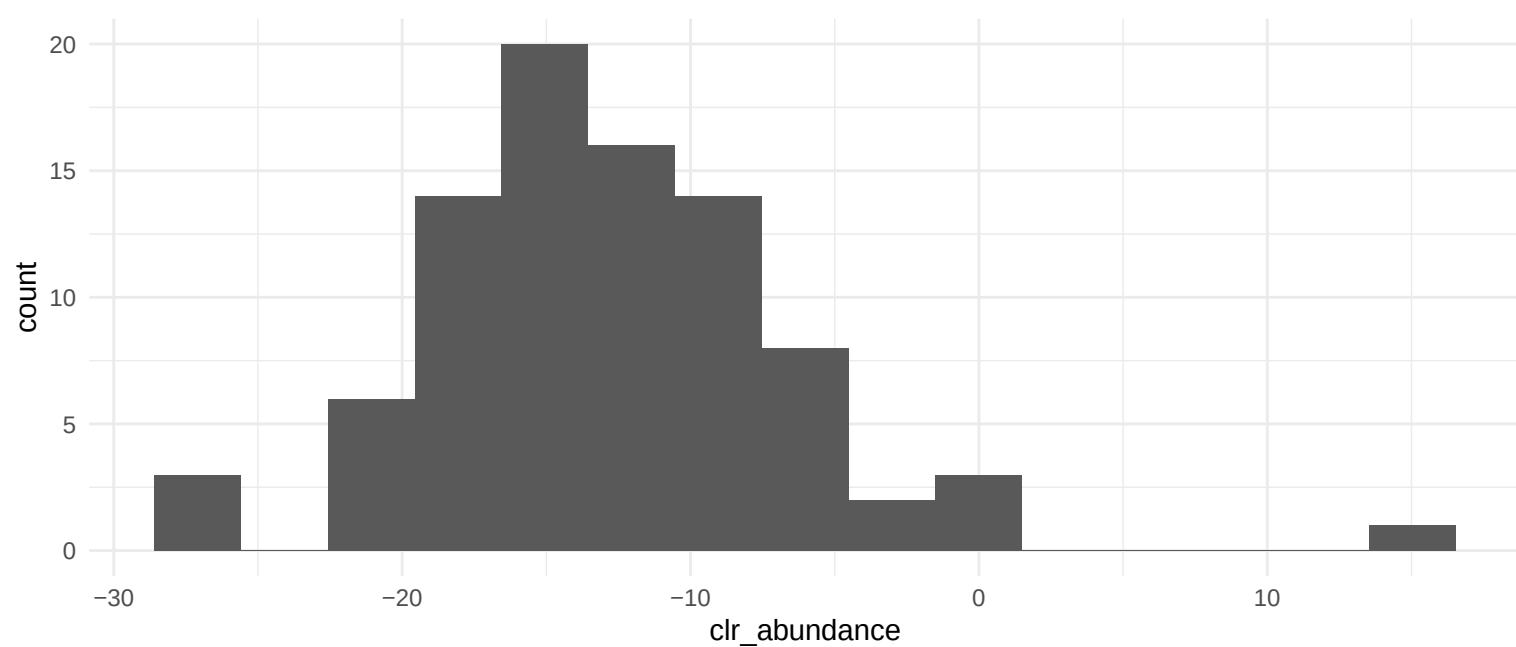

Distribution for 00401 Novobiocin biosynthesis

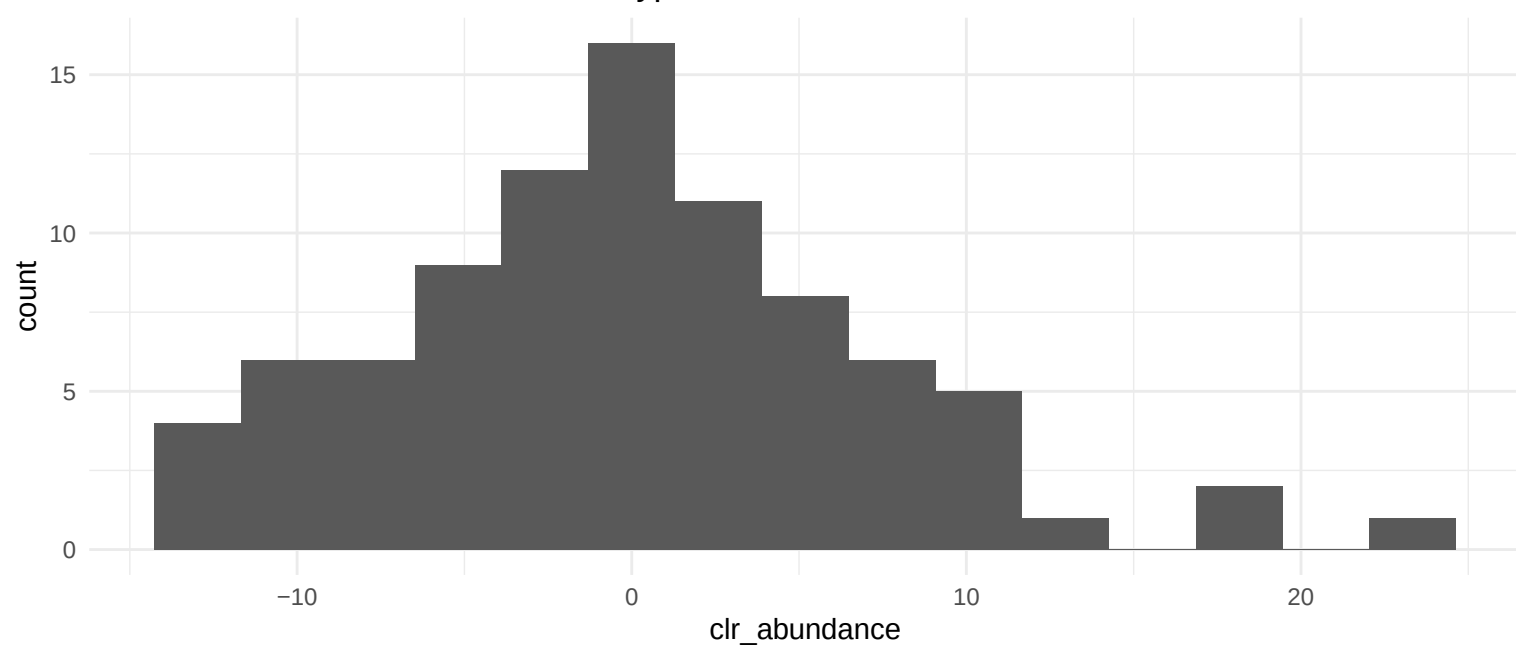

Distribution for 00405 Phenazine biosynthesis

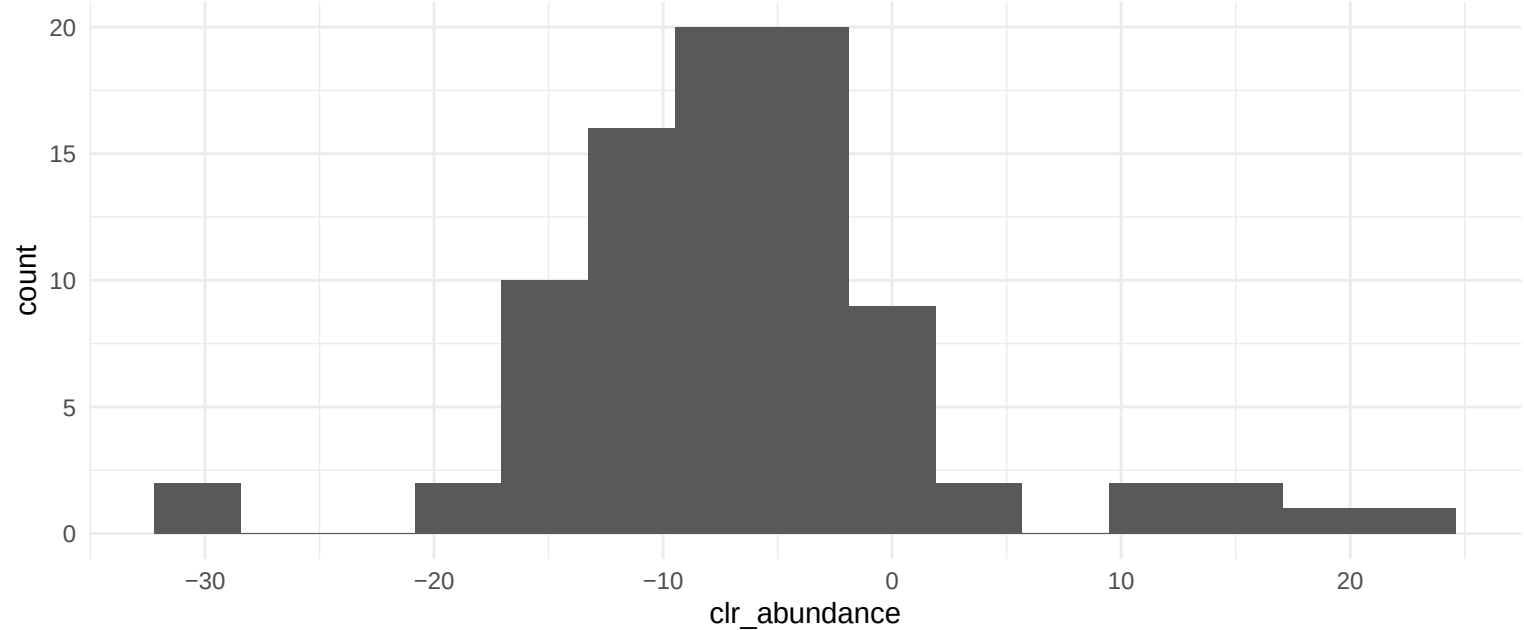

Distribution for 00410 beta-Alanine metabolism

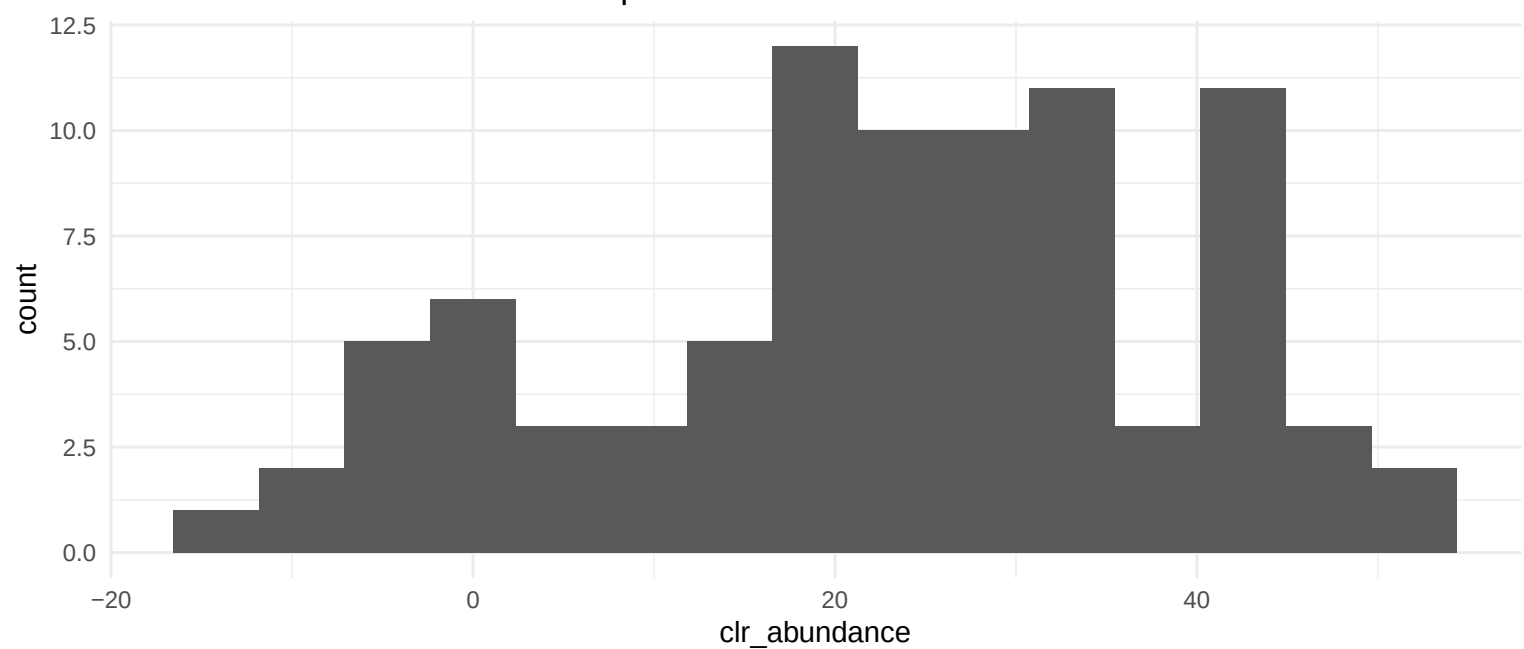

Distribution for 00430 Taurine and hypotaurine metabolism

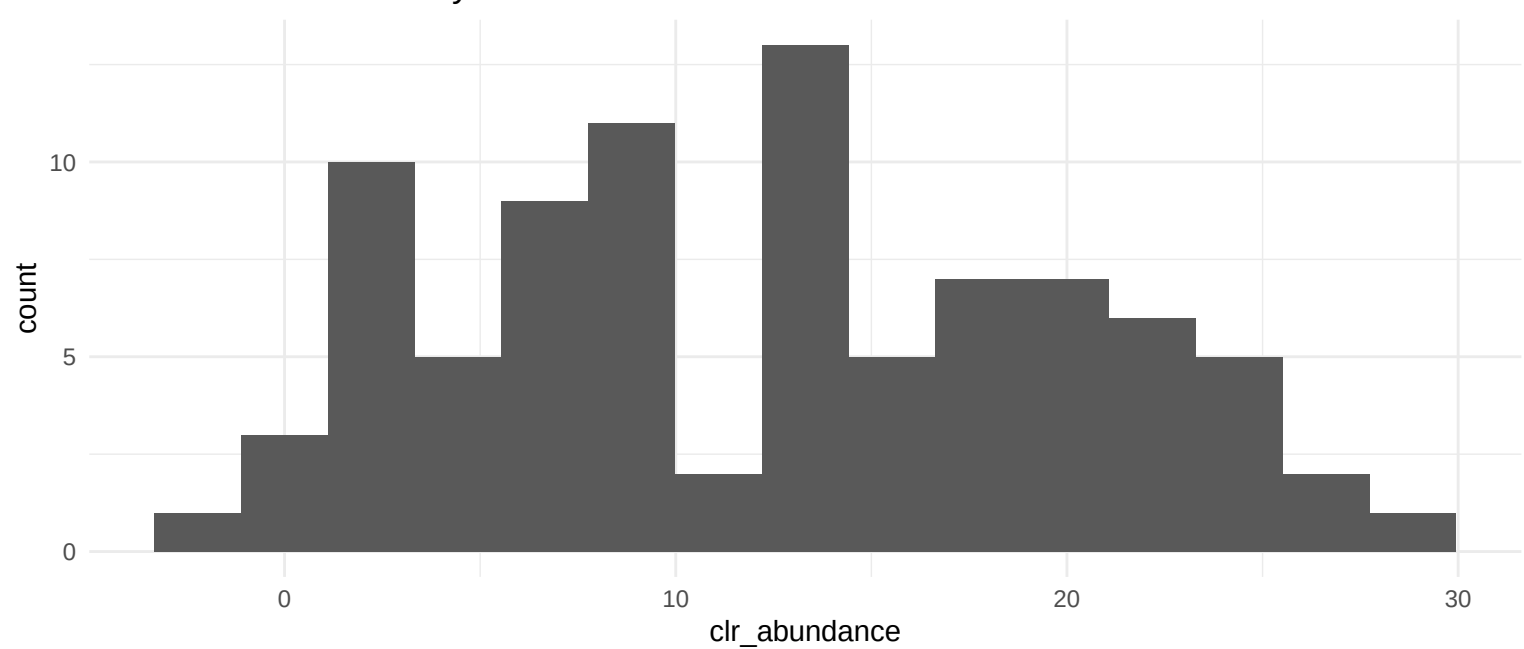

Distribution for 00440 Phosphonate and phosphinate metabolism

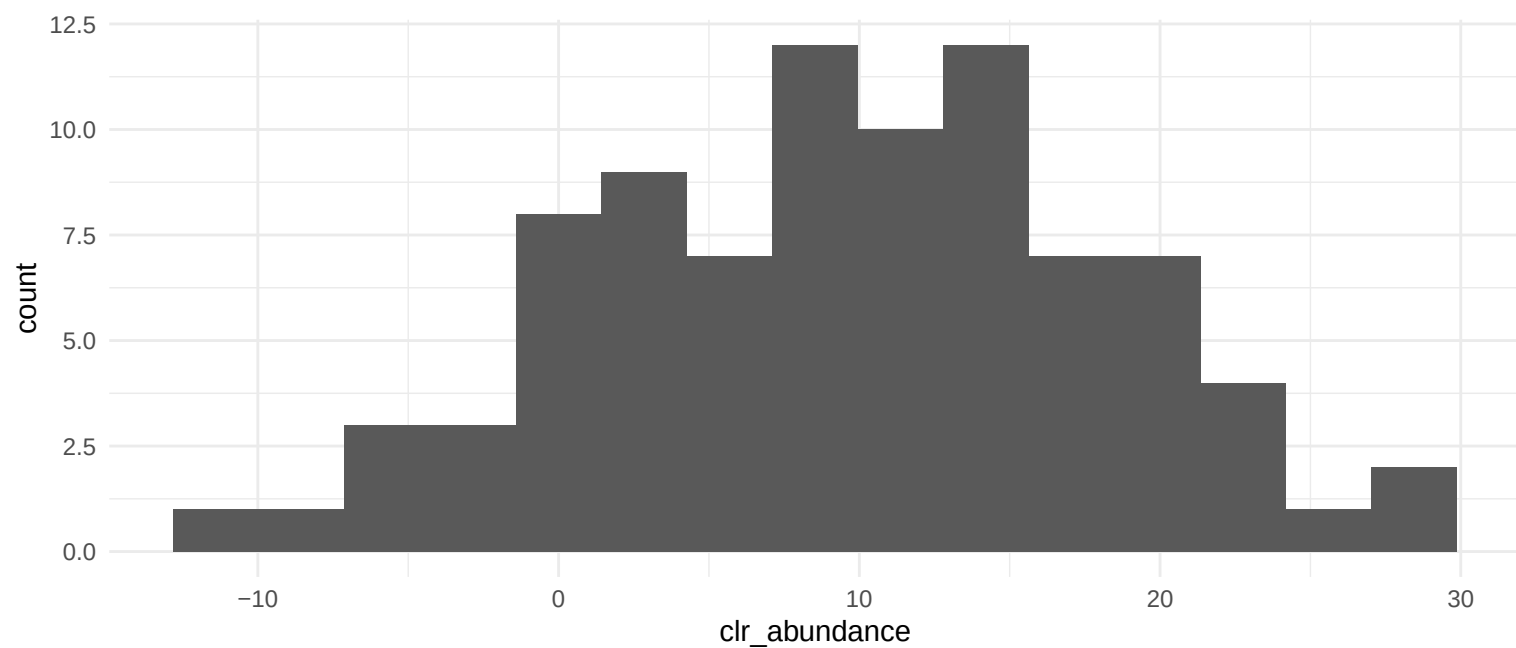

Distribution for 00450 Selenocompound metabolism

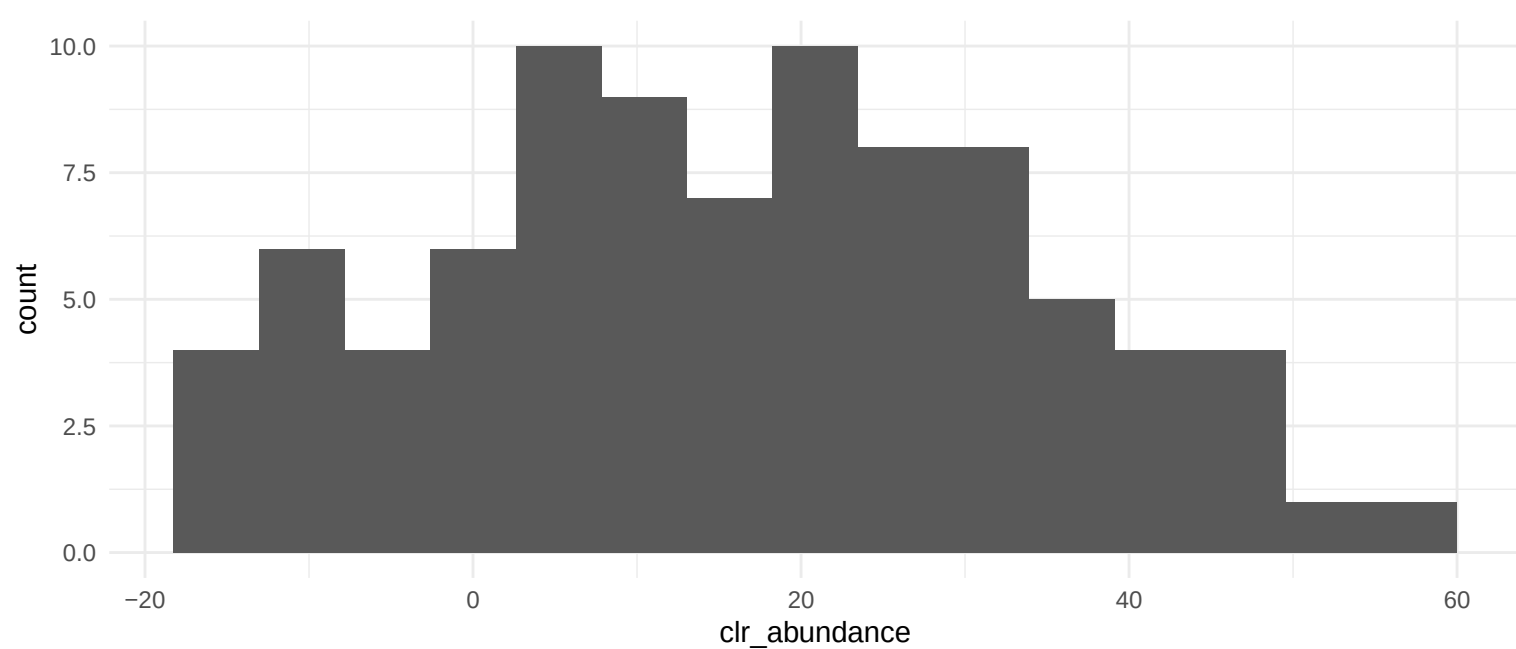

Distribution for 00460 Cyanoamino acid metabolism

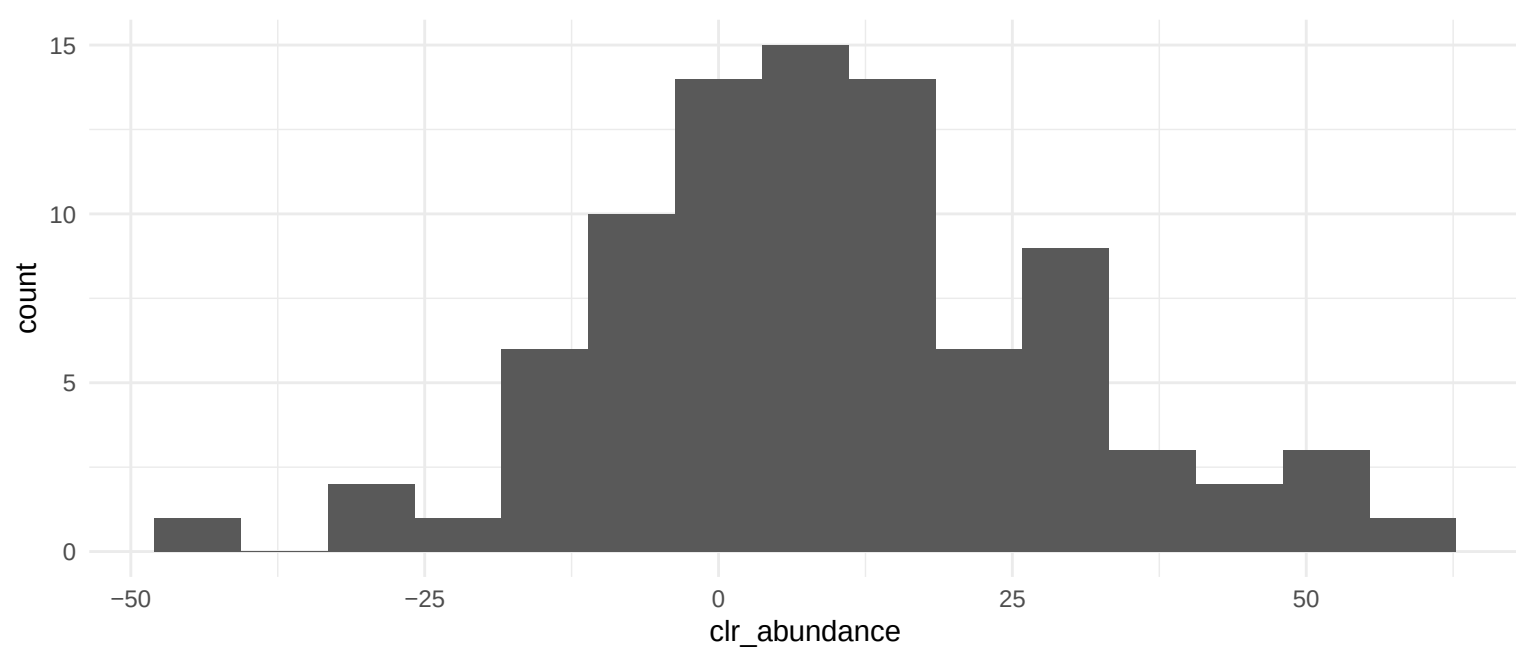

Distribution for 00470 D-Amino acid metabolism

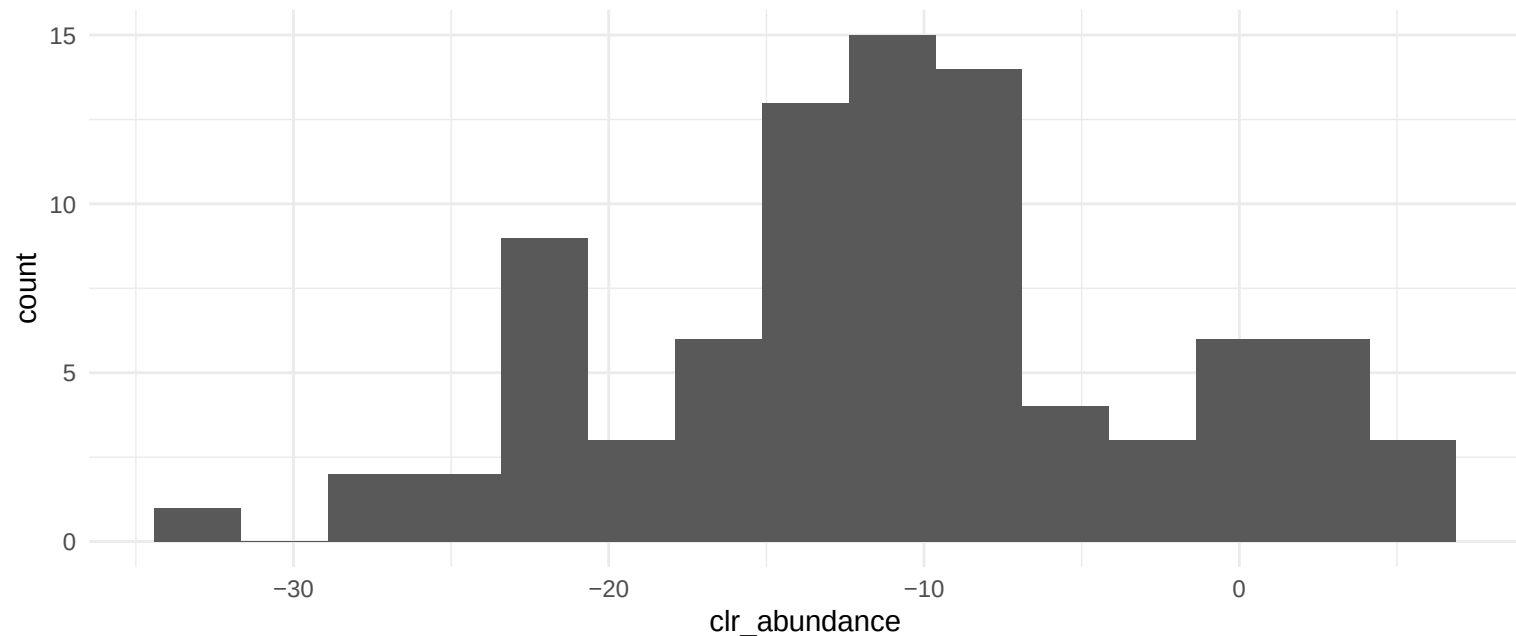

Distribution for 00480 Glutathione metabolism

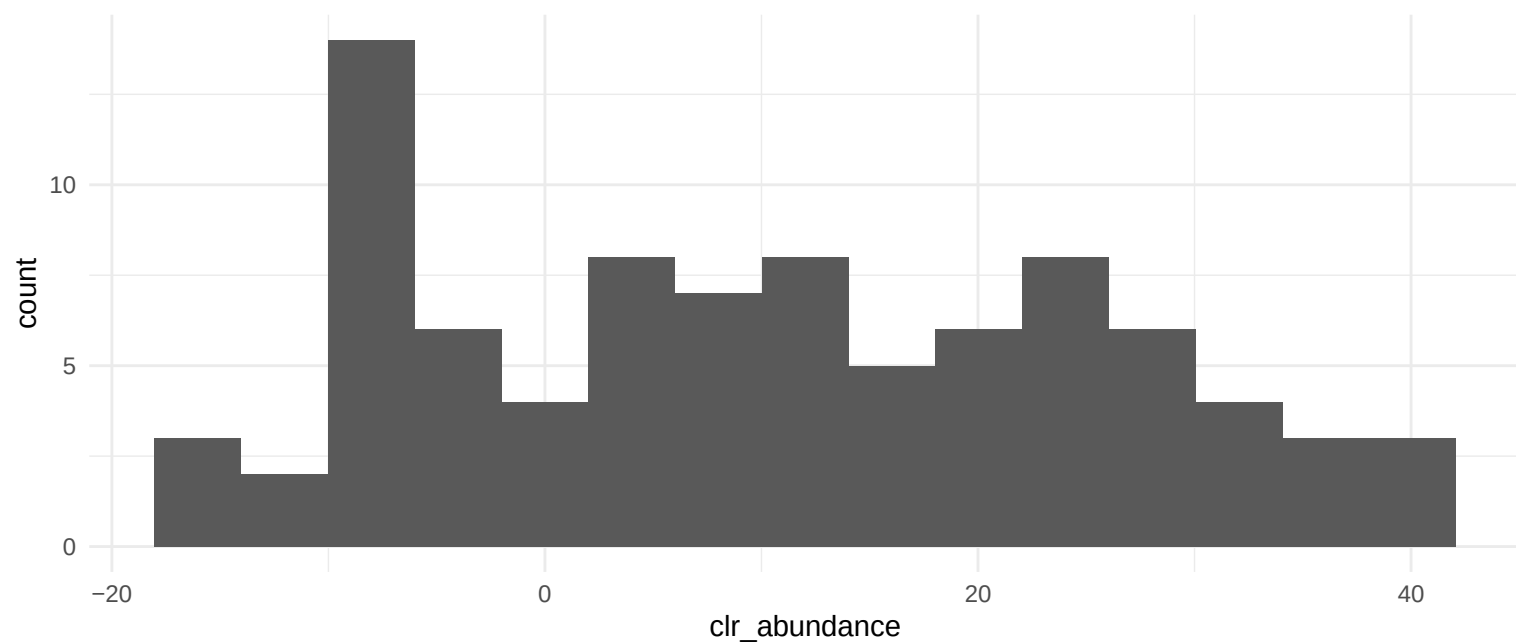

Distribution for 00500 Starch and sucrose metabolism

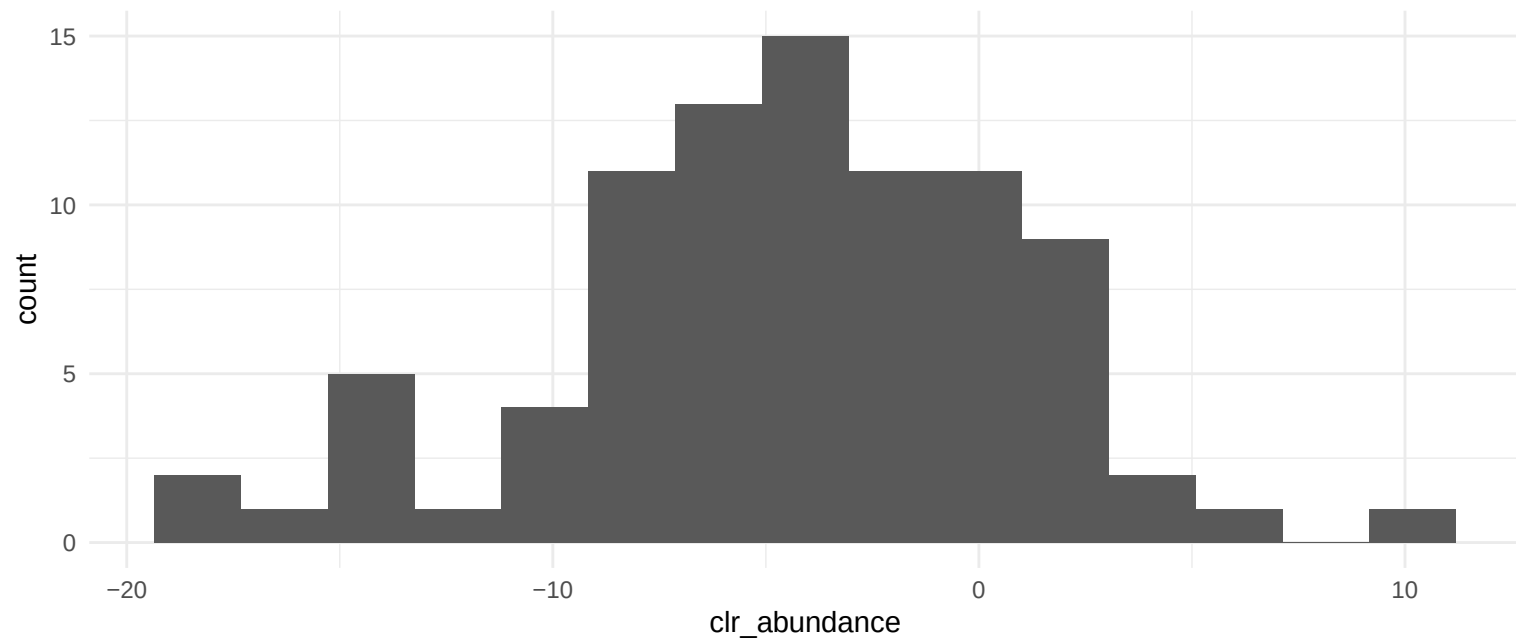

Distribution for 00510 N-Glycan biosynthesis

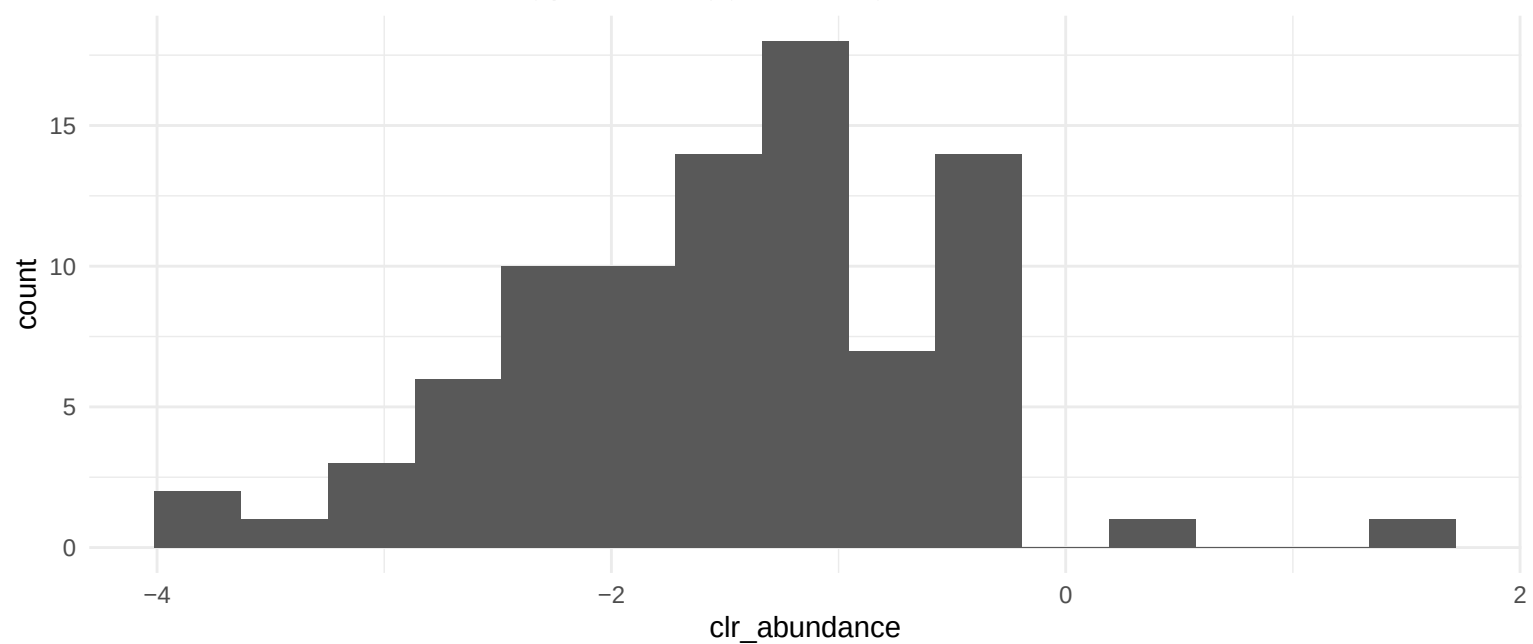

Distribution for 00511 Other glycan degradation

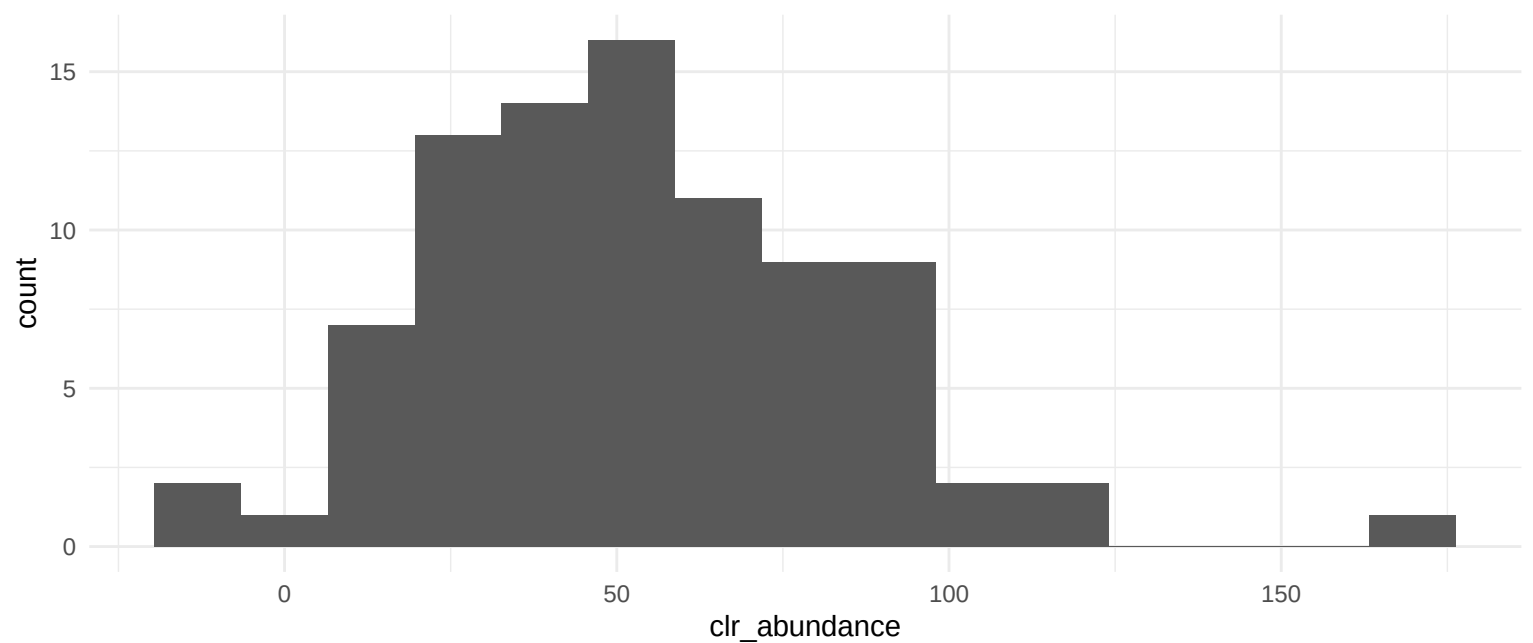

Distribution for 00513 Various types of N-glycan biosynthesis

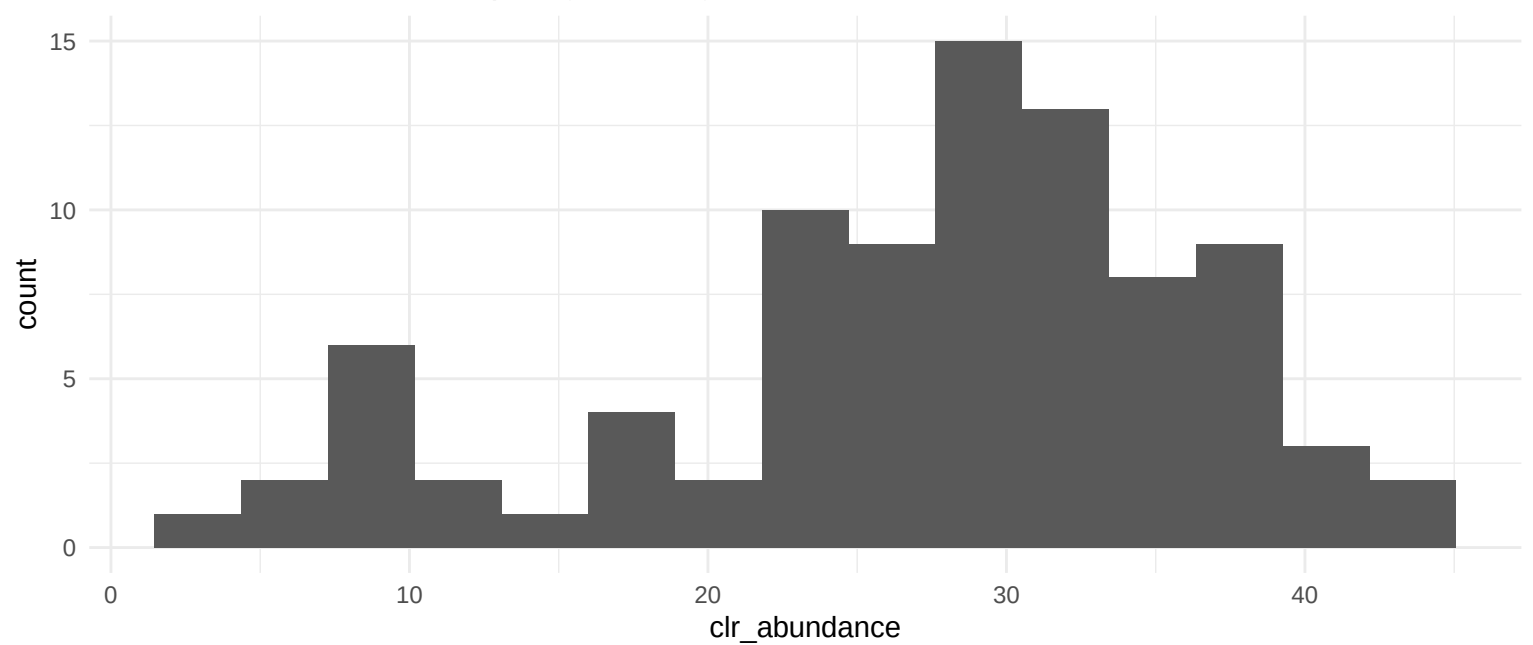

Distribution for 00514 Other types of O-glycan biosynthesis

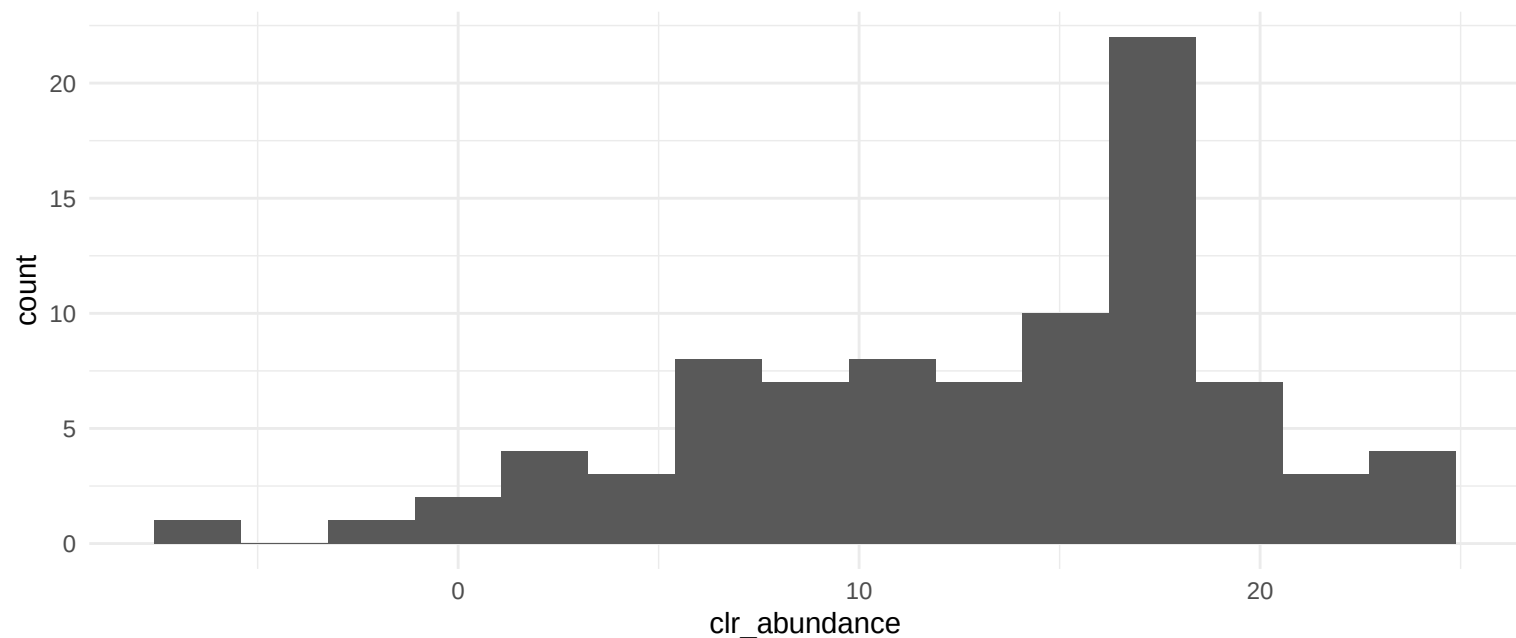

Distribution for 00520 Amino sugar and nucleotide sugar metabolism

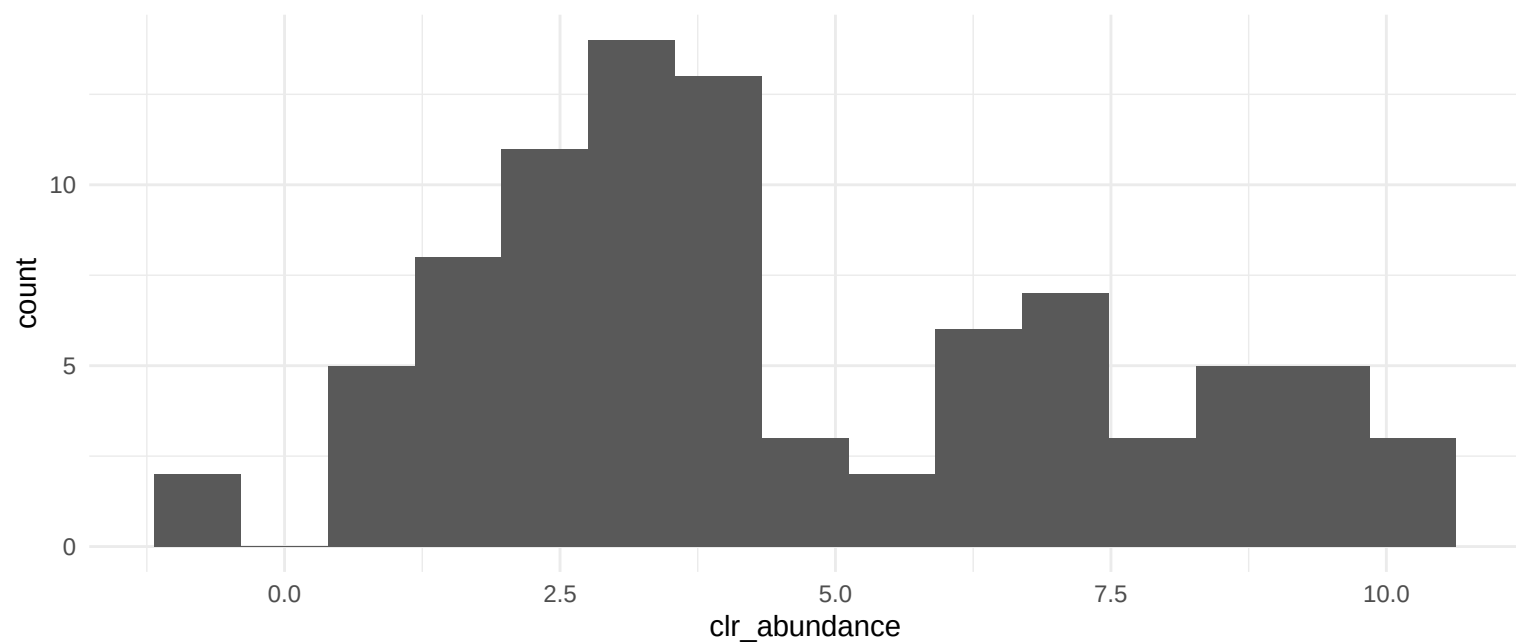

Distribution for 00521 Streptomycin biosynthesis

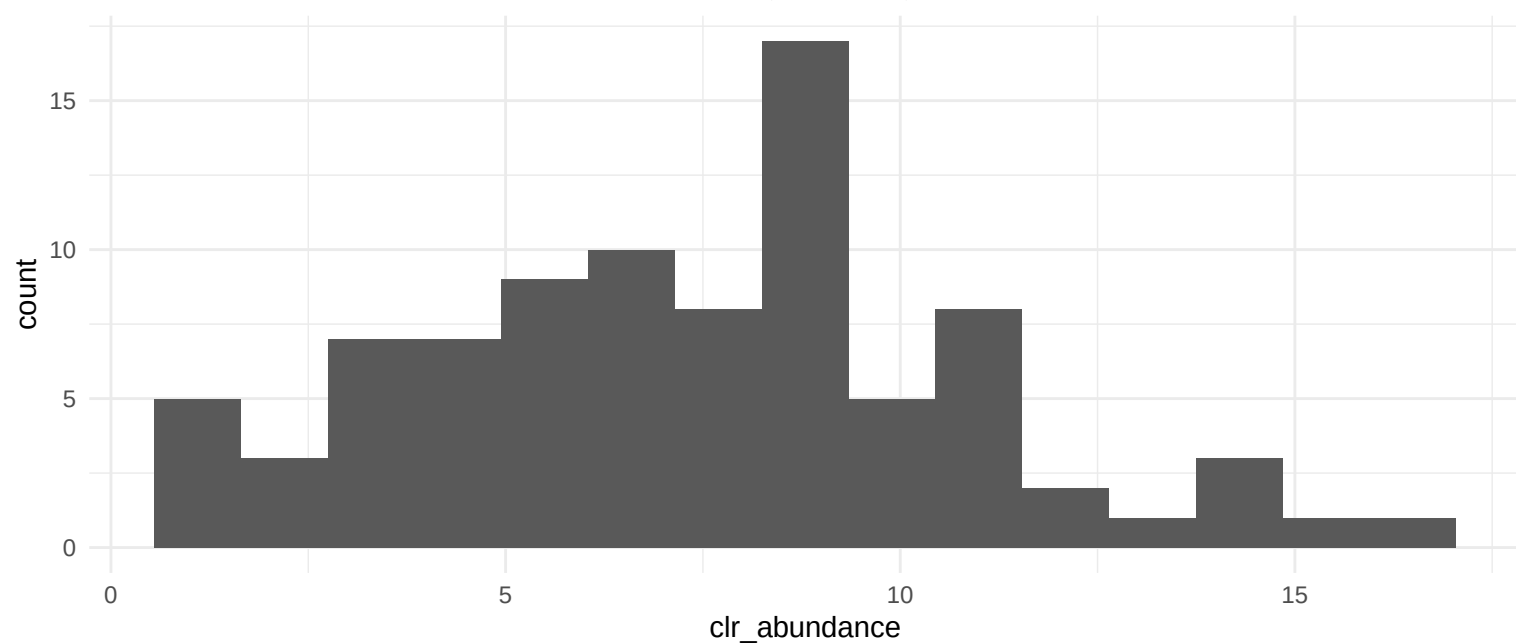

Distribution for 00523 Polyketide sugar unit biosynthesis

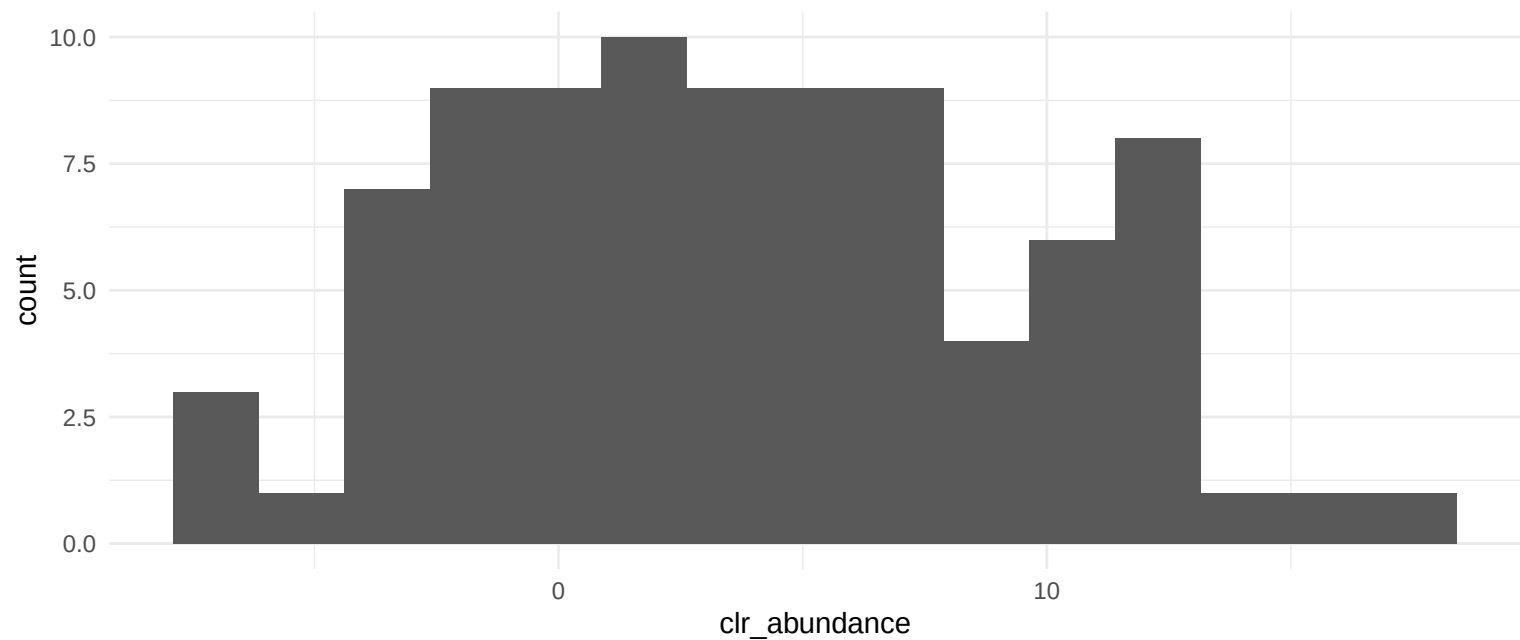

Distribution for 00524 Neomycin, kanamycin and gentamicin biosynthesis

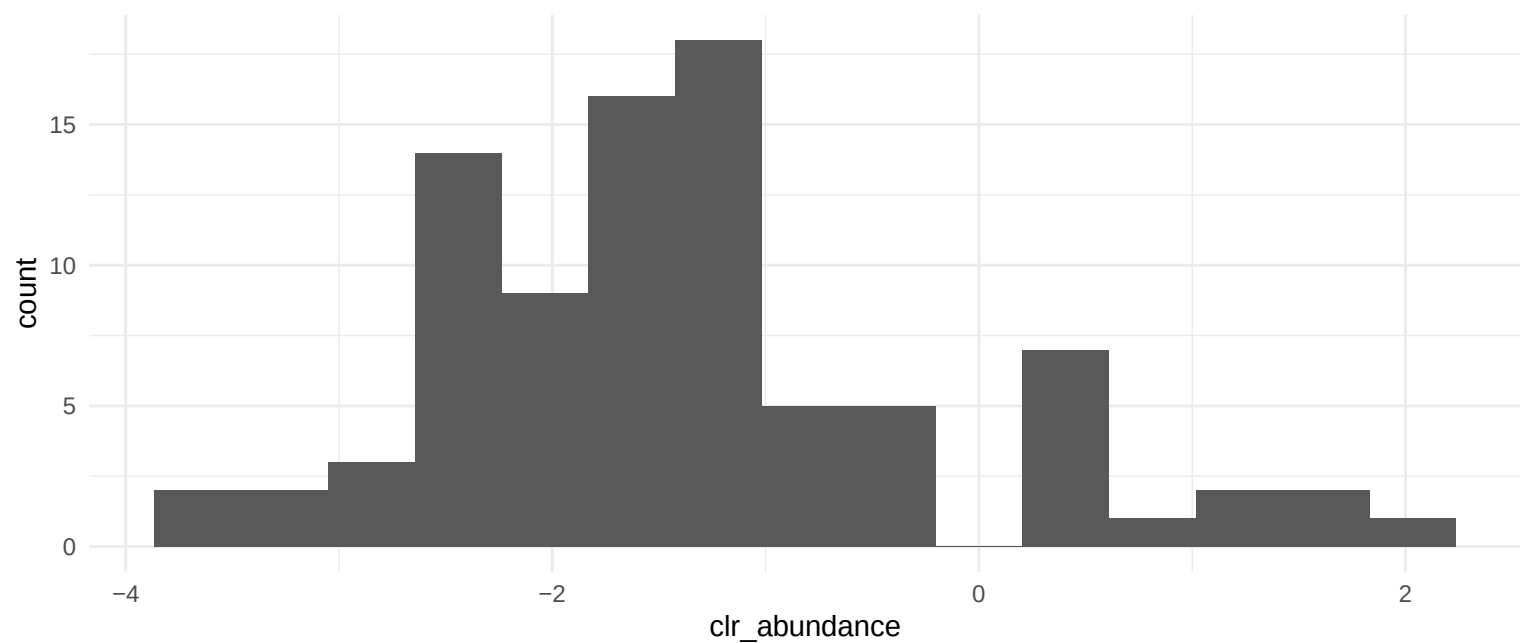

Distribution for 00525 Acarbose and validamycin biosynthesis

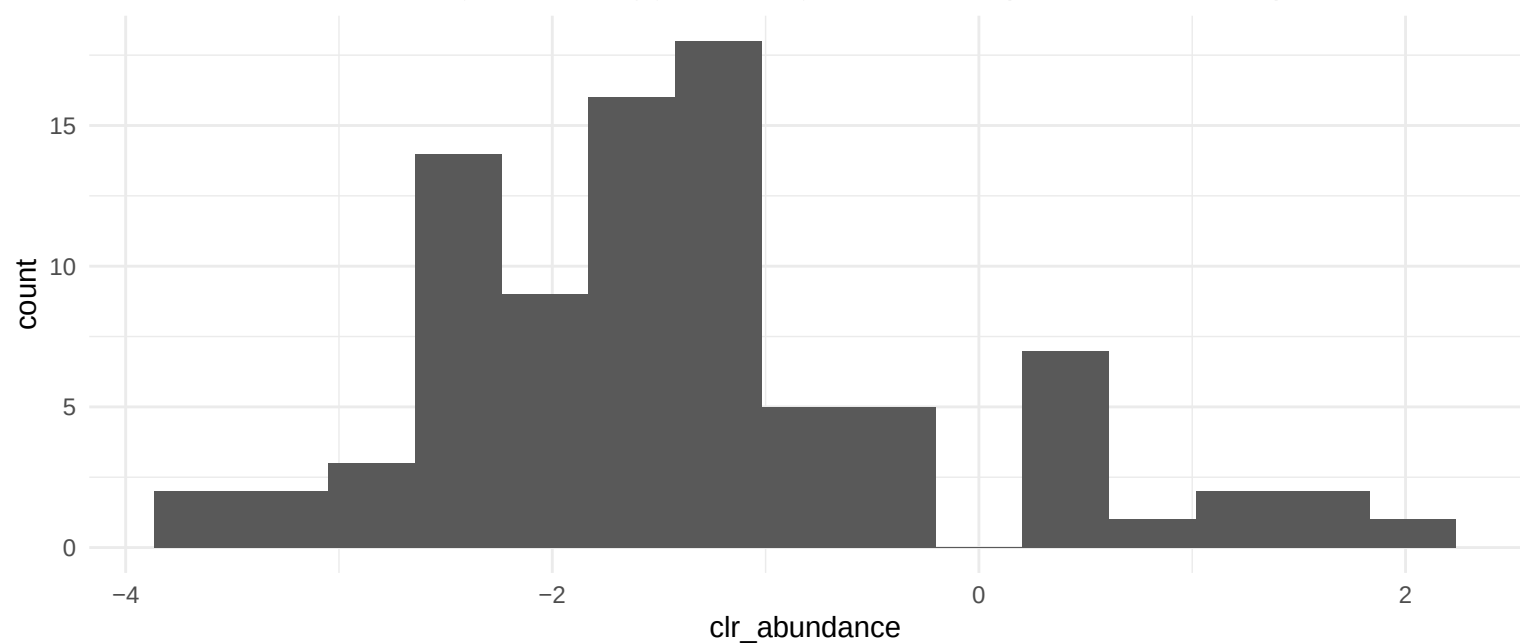

Distribution for 00531 Glycosaminoglycan degradation

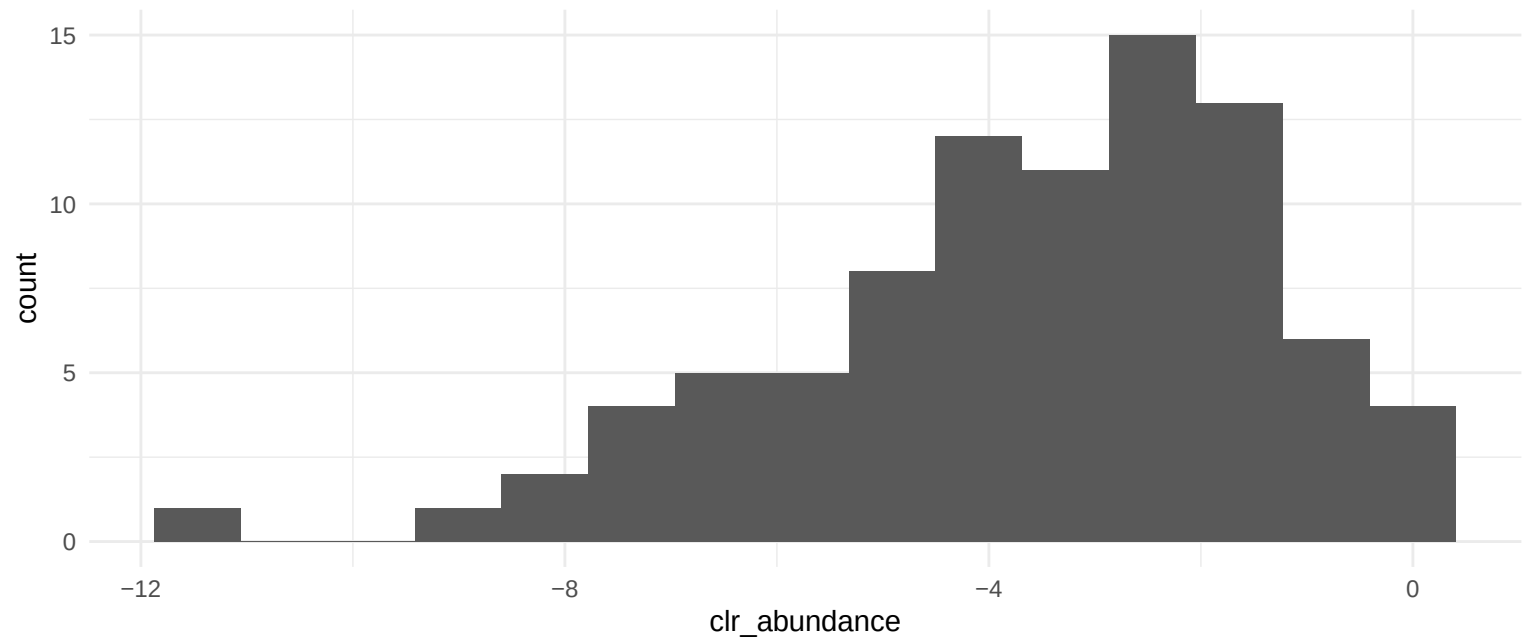

Distribution for 00532 Glycosaminoglycan biosynthesis – chondroitin sulfate / dermatan sulfate

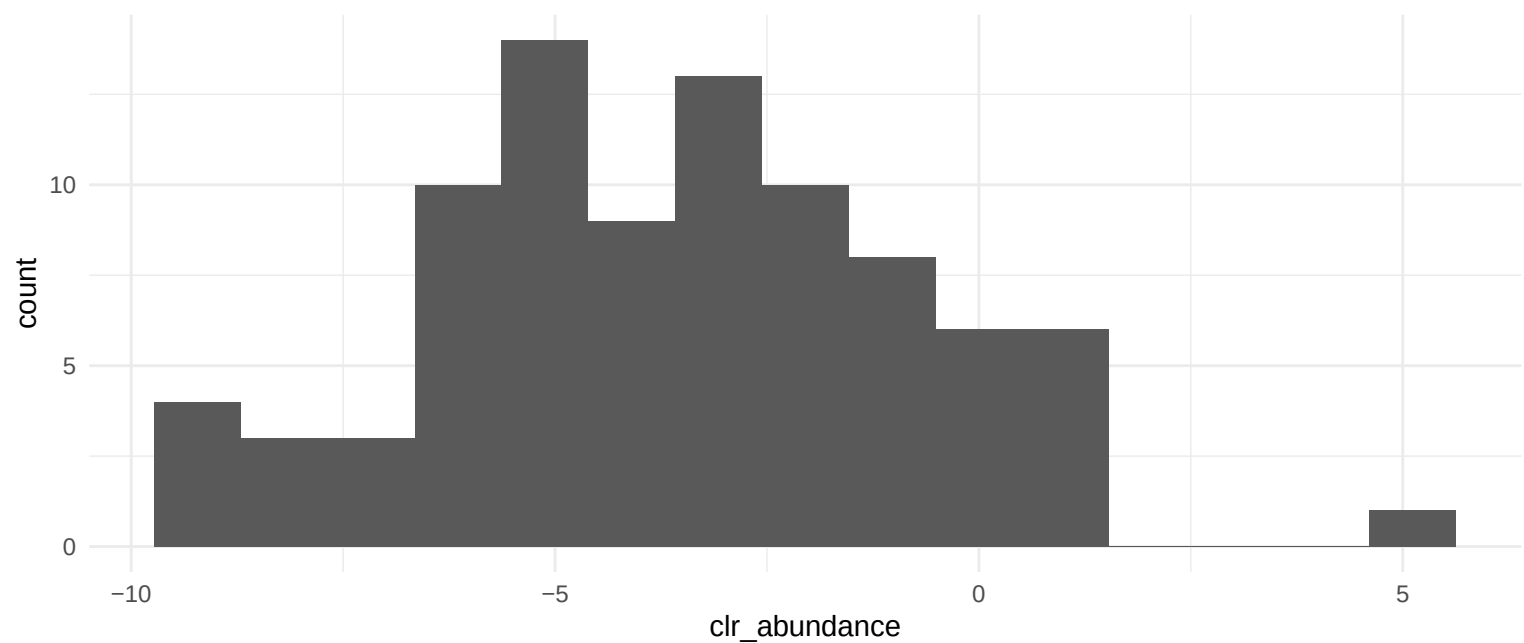

Distribution for 00534 Glycosaminoglycan biosynthesis – heparan sulfate / heparin

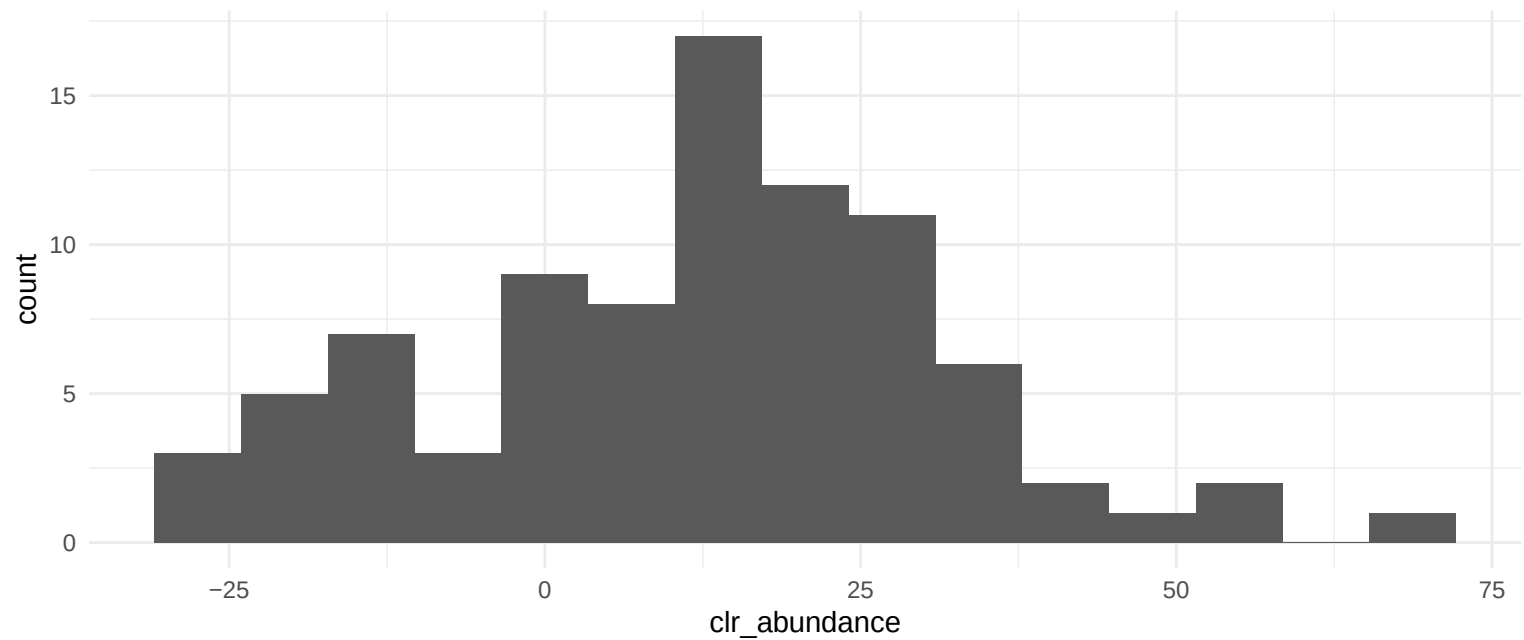

Distribution for 00536 Glycosaminoglycan binding proteins

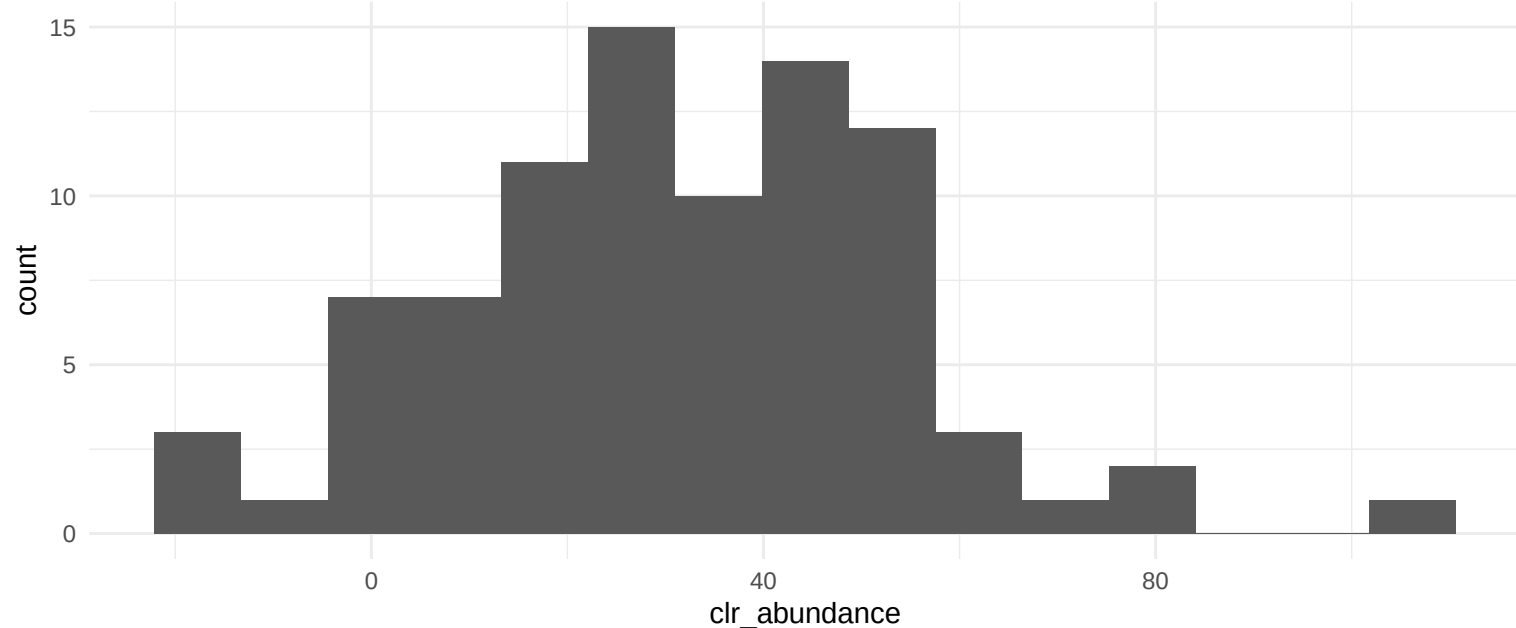

Distribution for 00537 Glycosylphosphatidylinositol (GPI)-anchored proteins

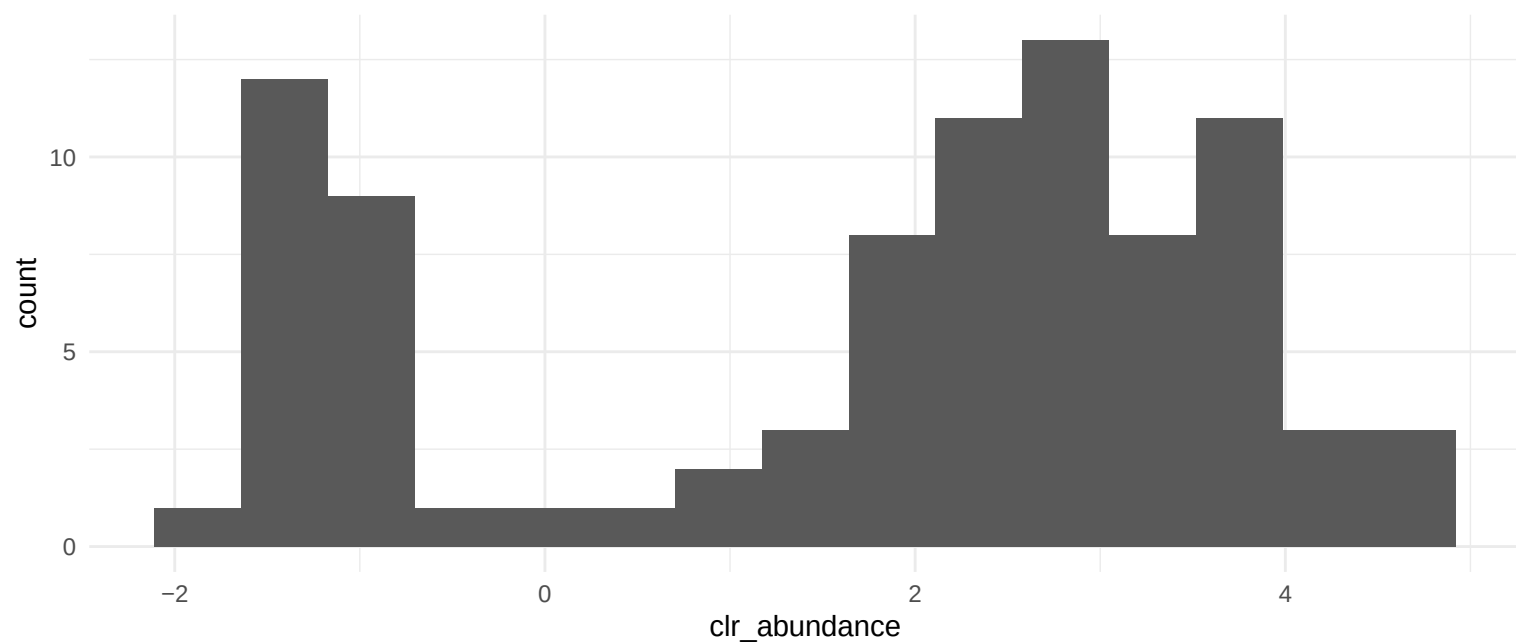

Distribution for 00540 Lipopolysaccharide biosynthesis

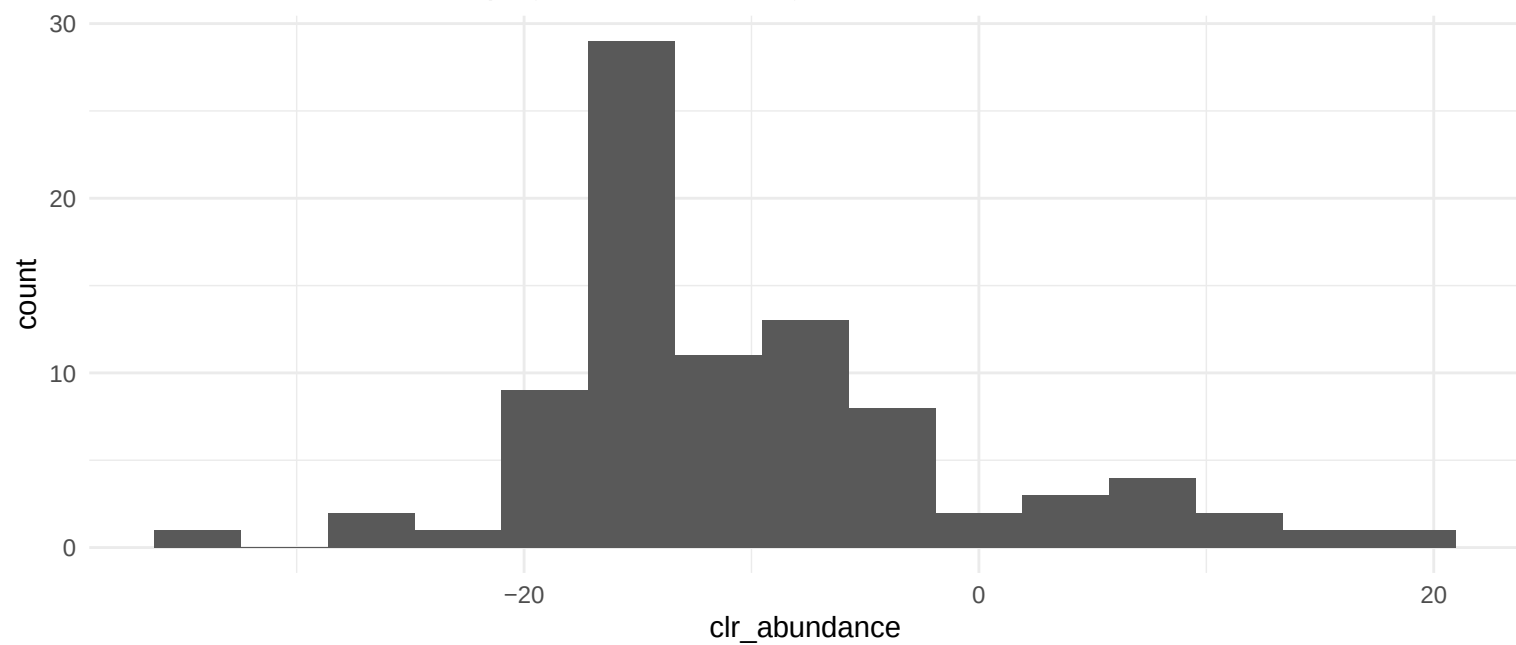

Distribution for 00541 Biosynthesis of various nucleotide sugars

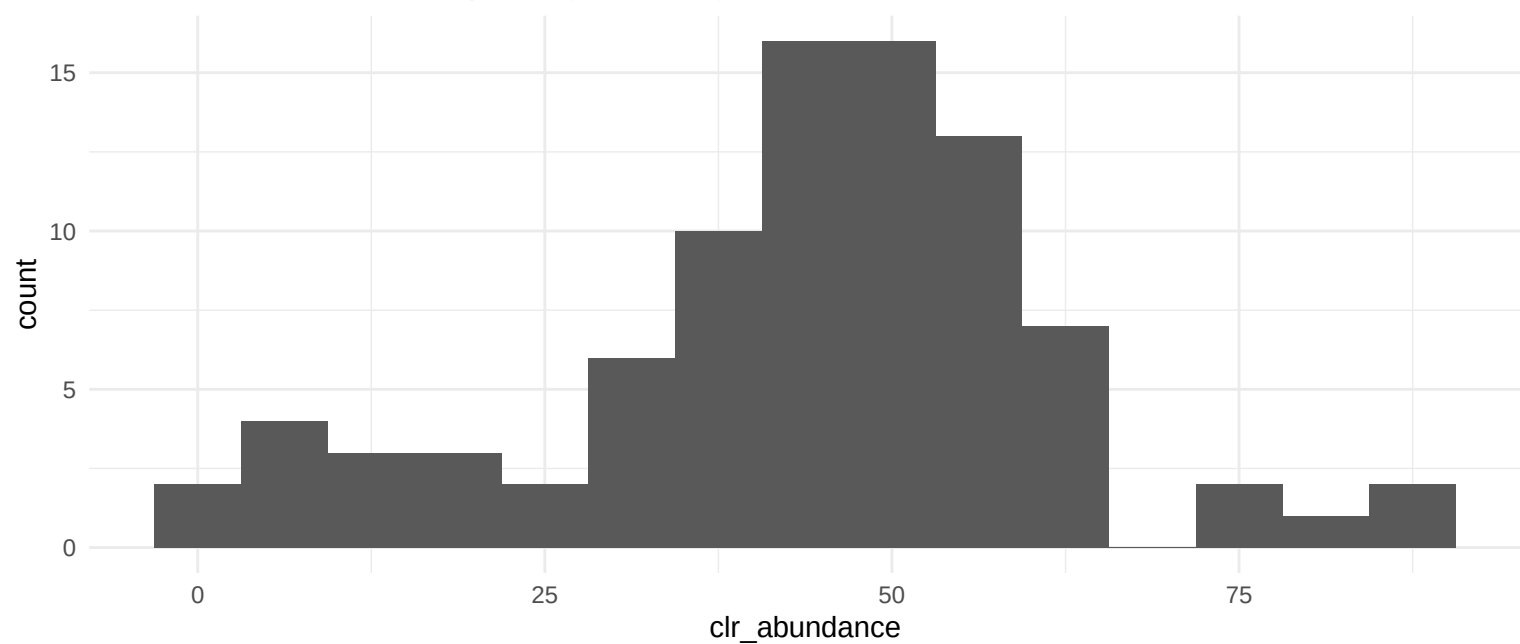

Distribution for 00542 O–Antigen repeat unit biosynthesis

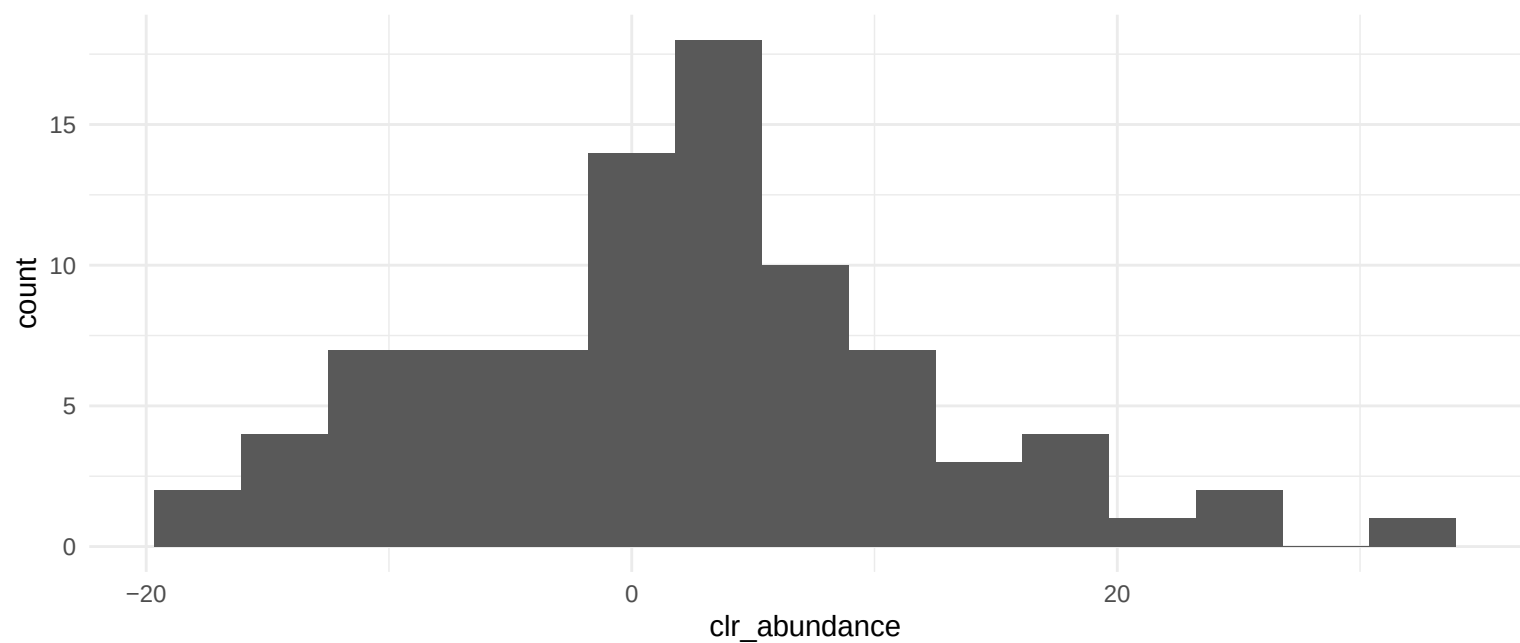

Distribution for 00543 Exopolysaccharide biosynthesis

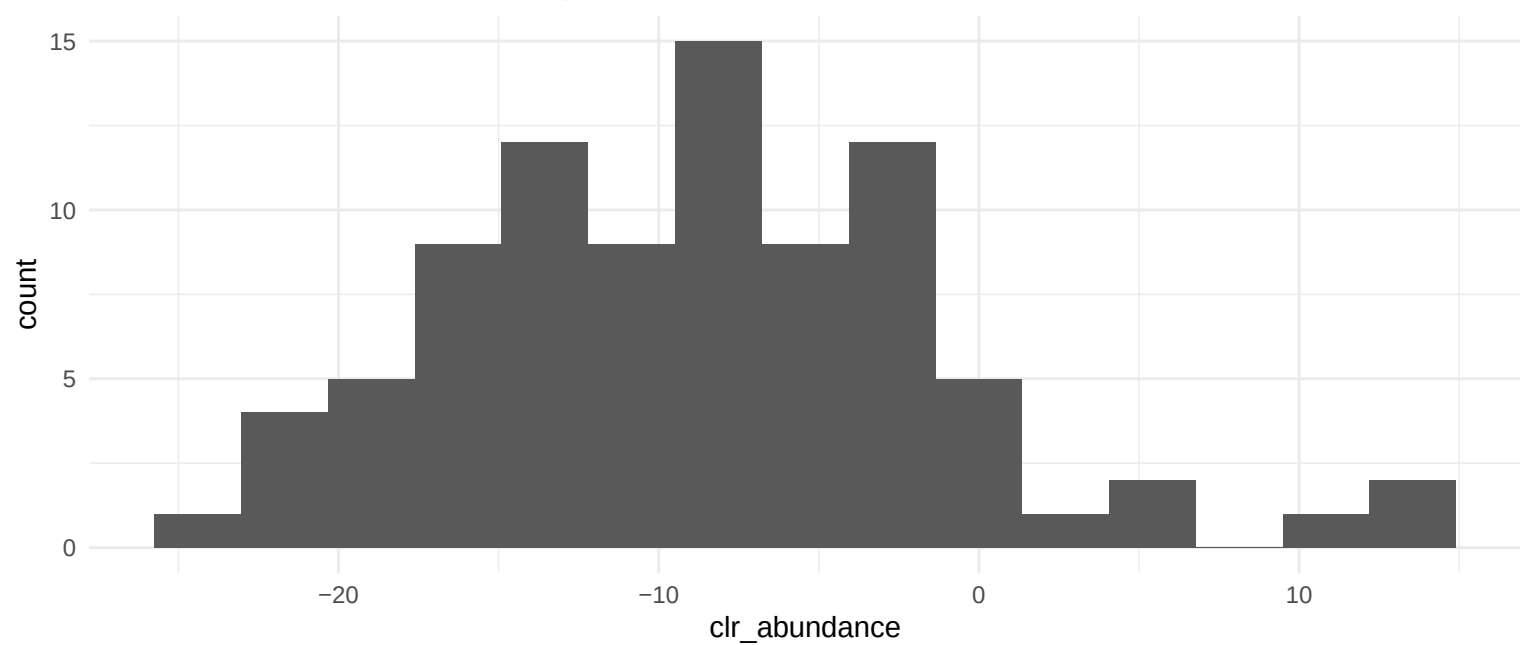

Distribution for 00550 Peptidoglycan biosynthesis

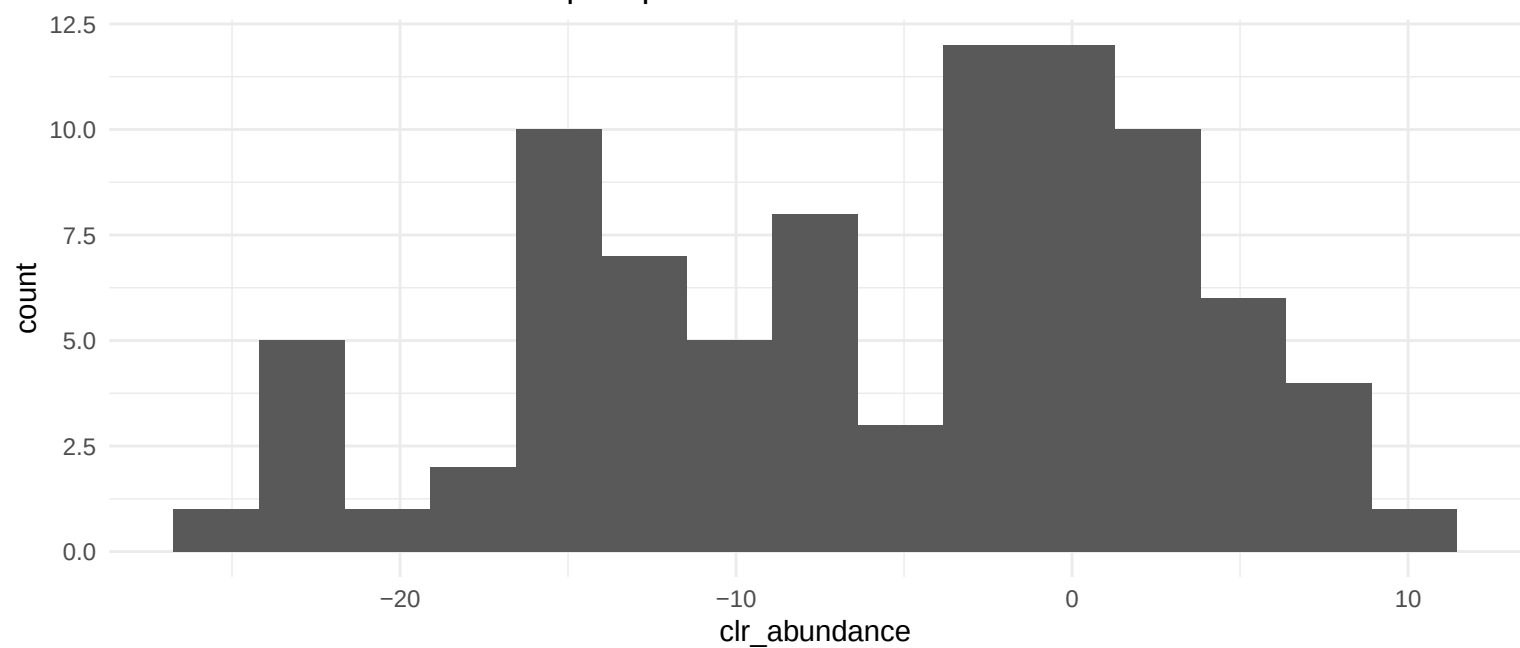

Distribution for 00552 Teichoic acid biosynthesis

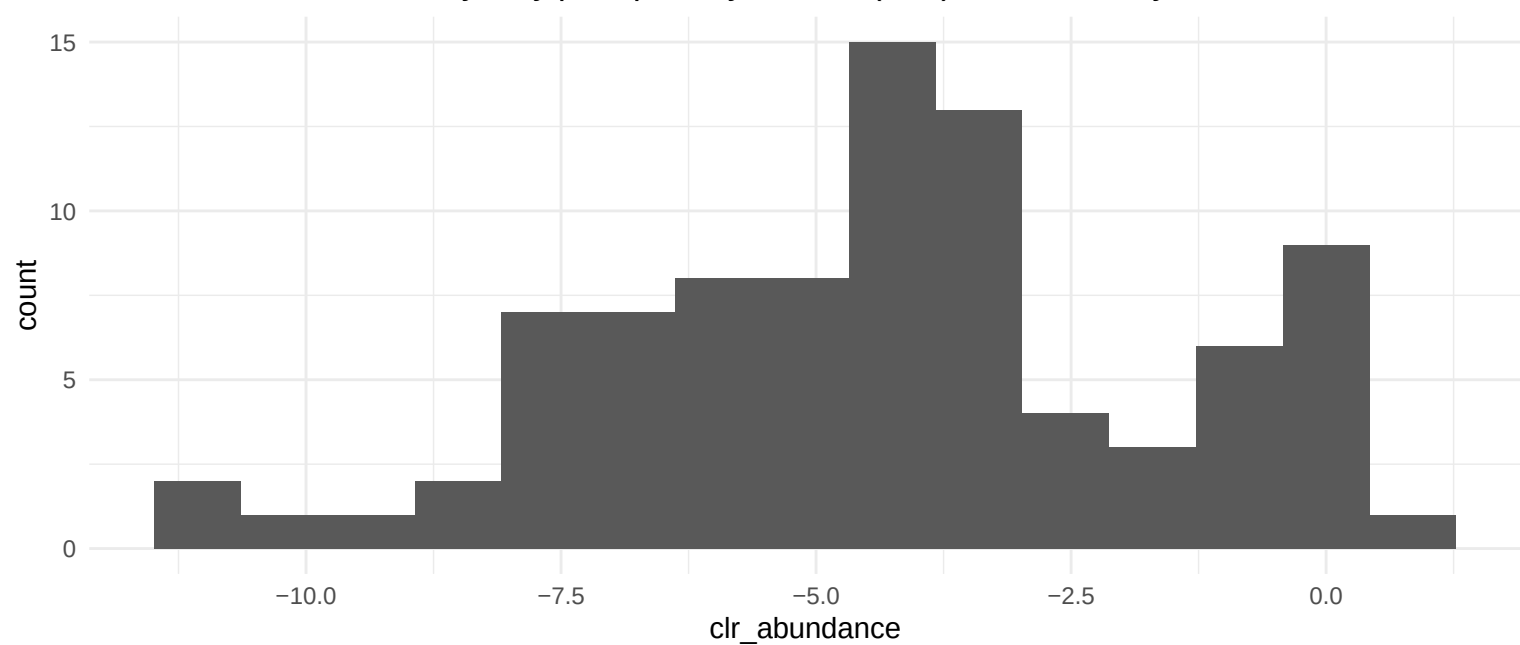

Distribution for 00561 Glycerolipid metabolism

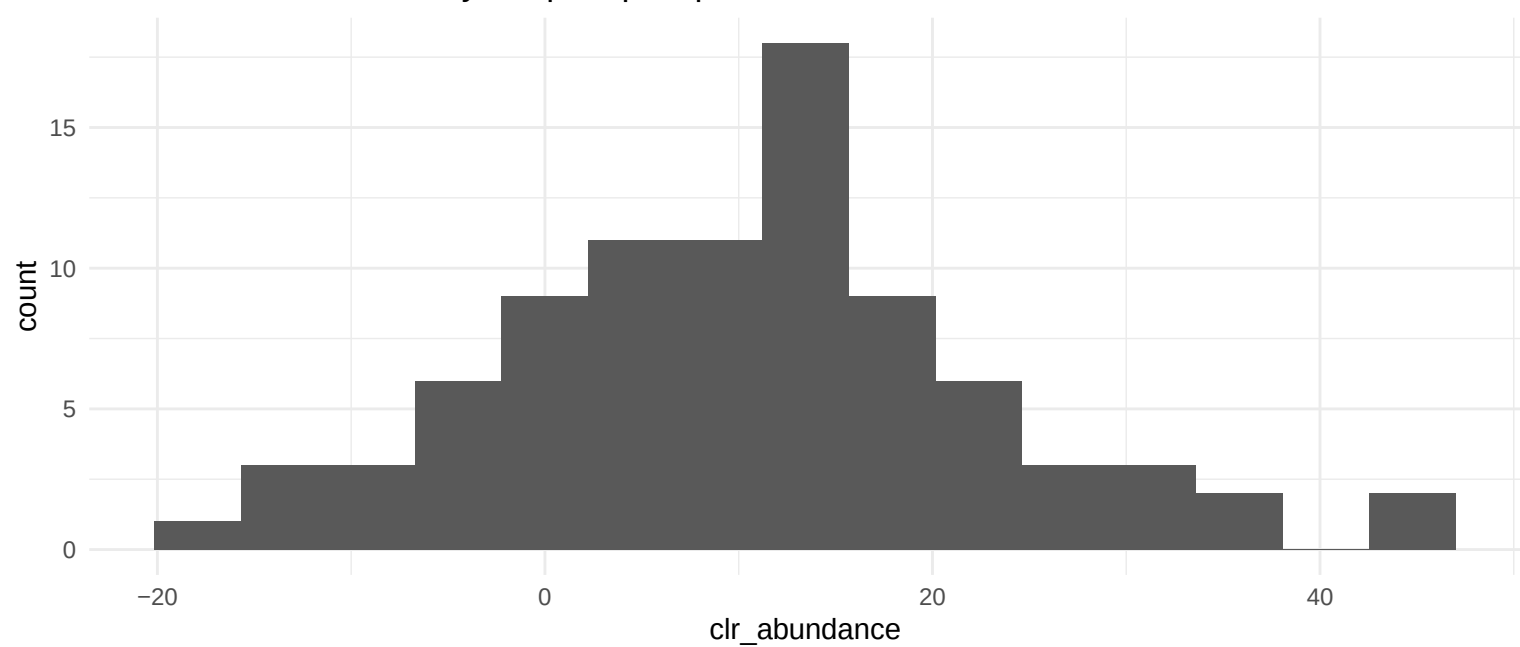

Distribution for 00562 Inositol phosphate metabolism

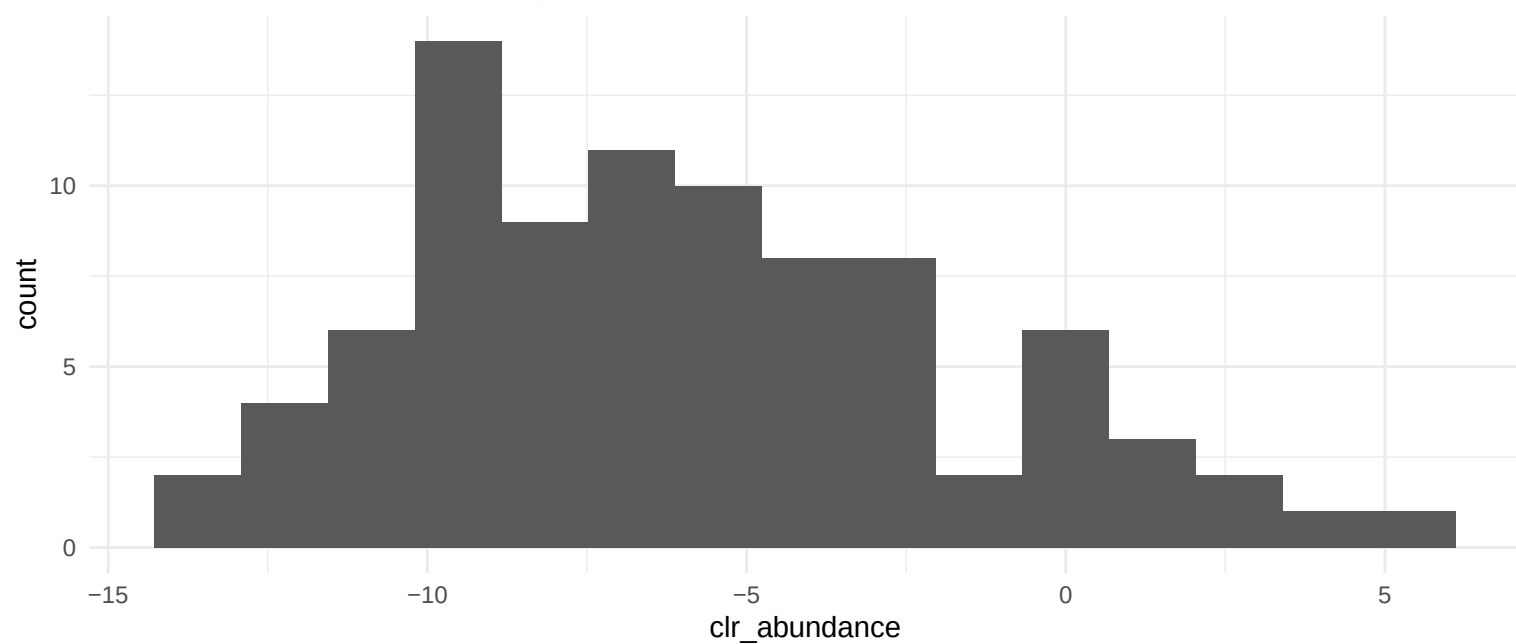

Distribution for 00563 Glycosylphosphatidylinositol (GPI)–anchor biosynthesis

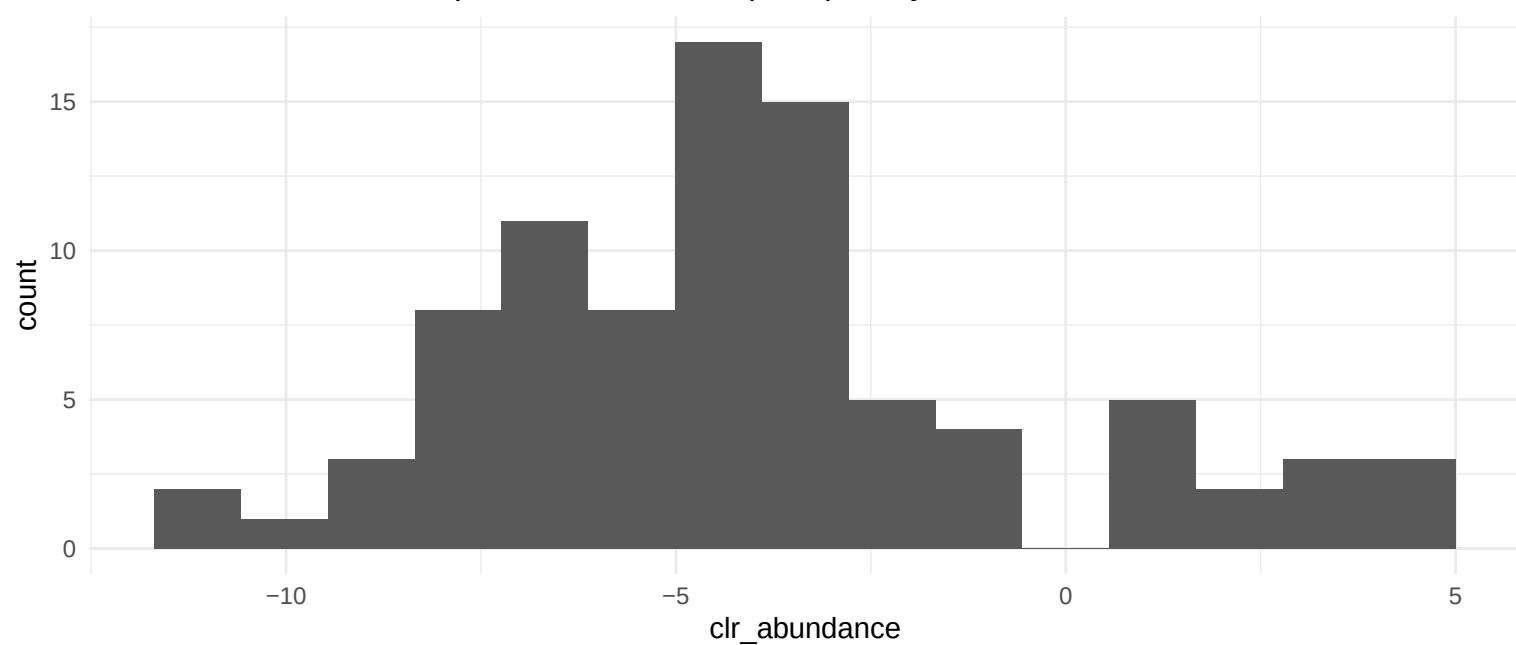

Distribution for 00564 Glycerophospholipid metabolism

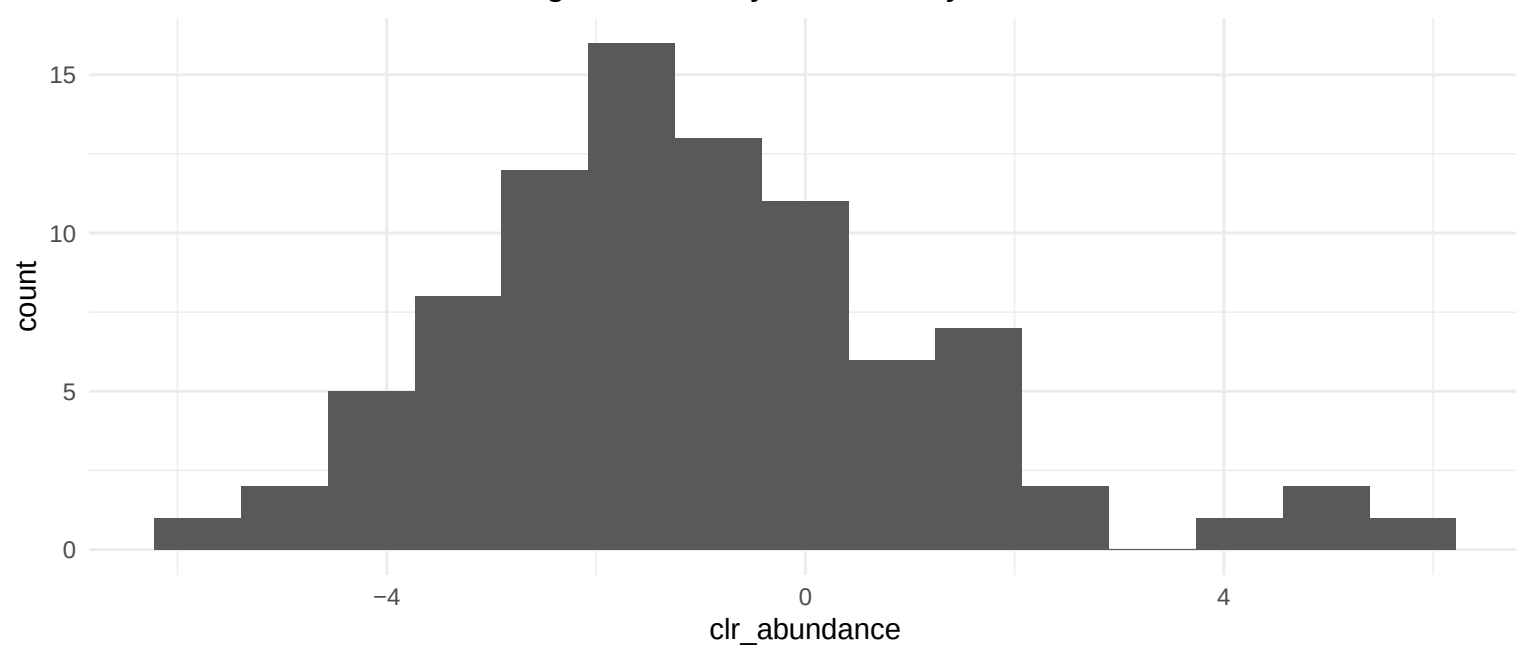

Distribution for 00565 Ether lipid metabolism

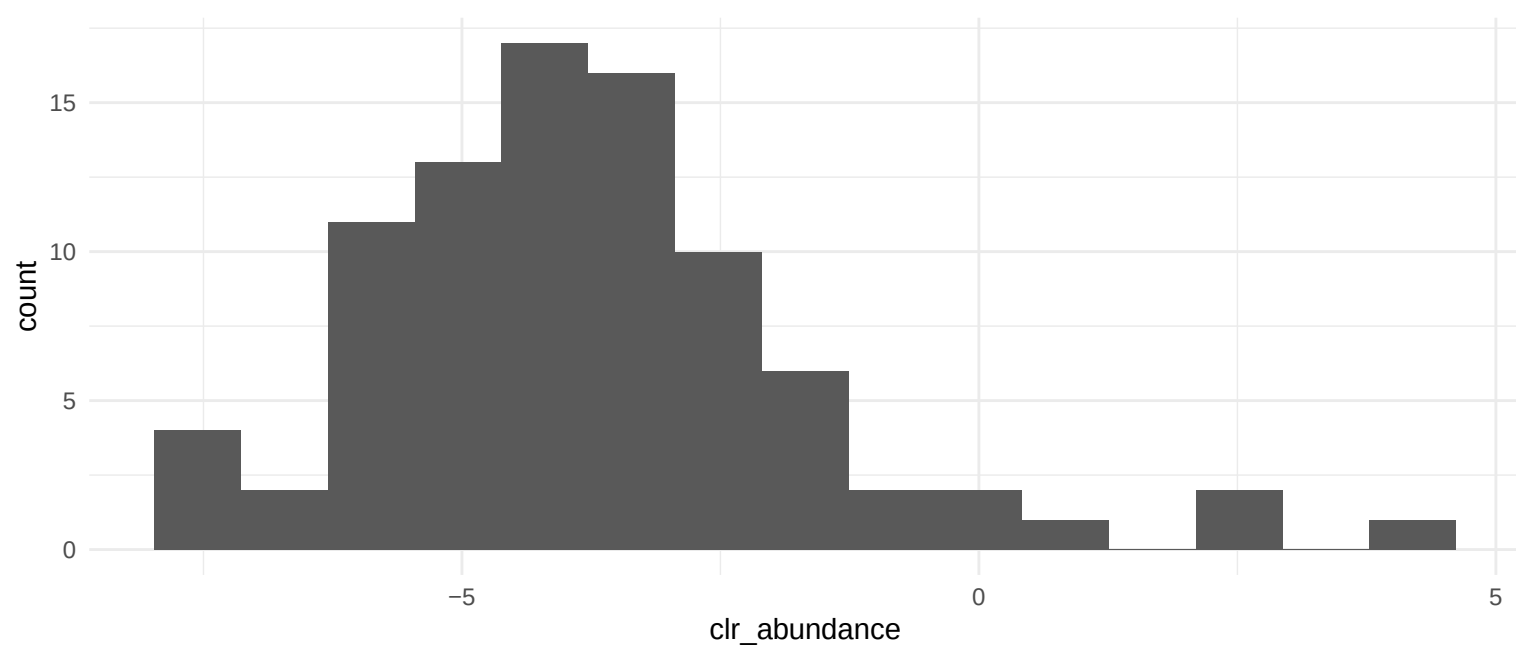

Distribution for 00571 Lipoarabinomannan (LAM) biosynthesis

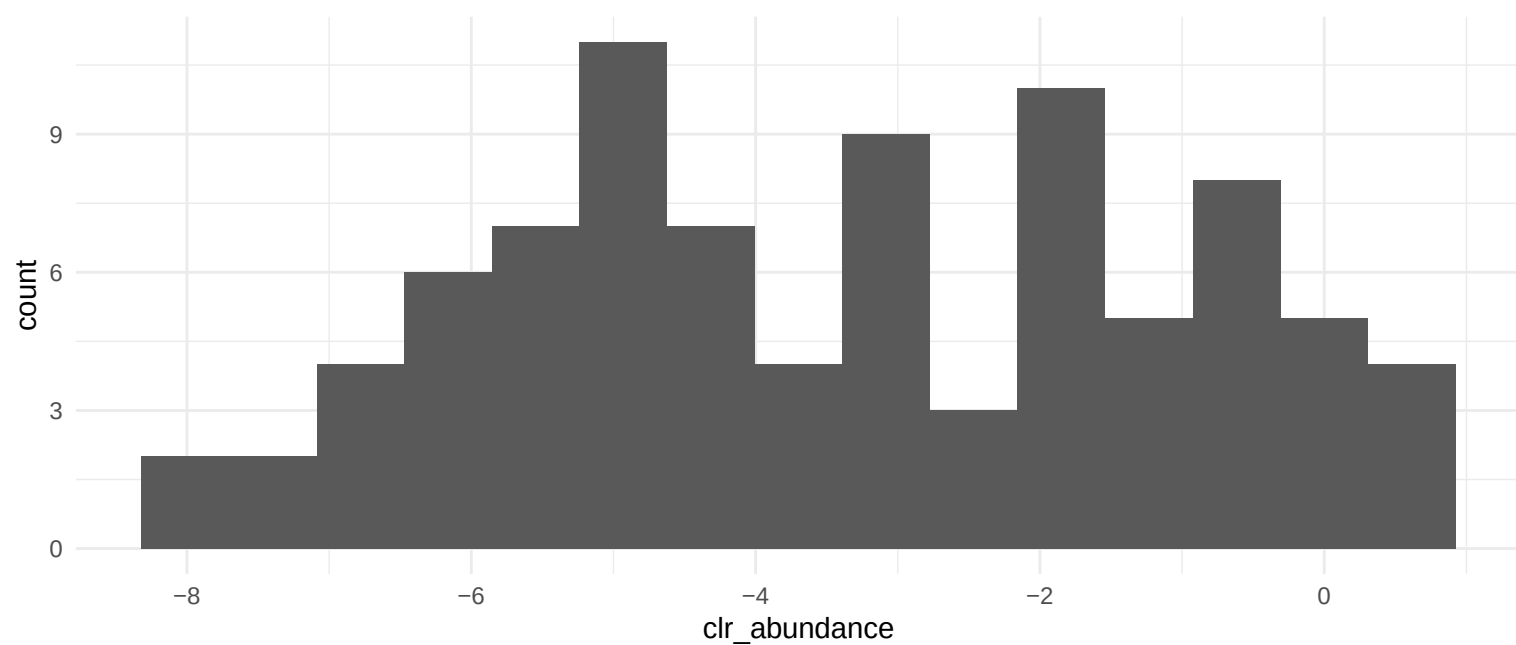

Distribution for 00572 Arabinogalactan biosynthesis – Mycobacterium

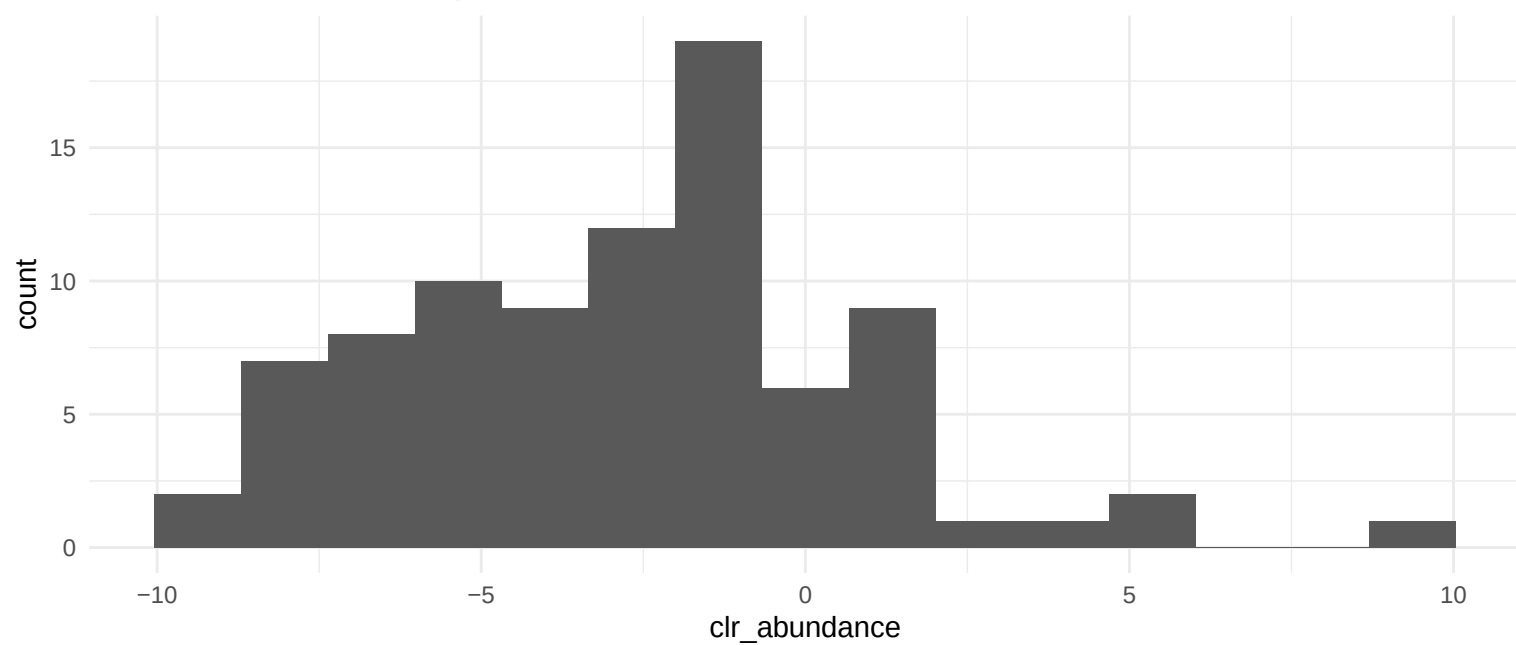

Distribution for 00590 Arachidonic acid metabolism

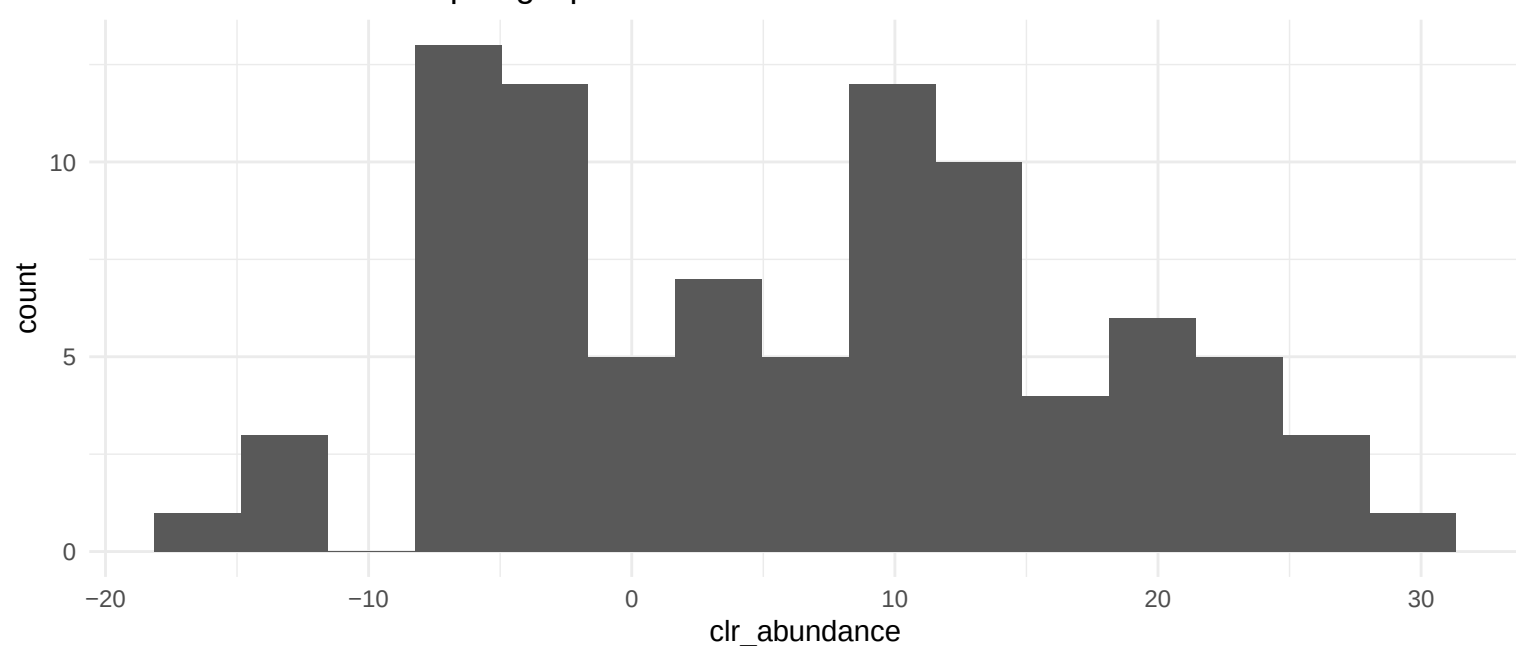

Distribution for 00591 Linoleic acid metabolism

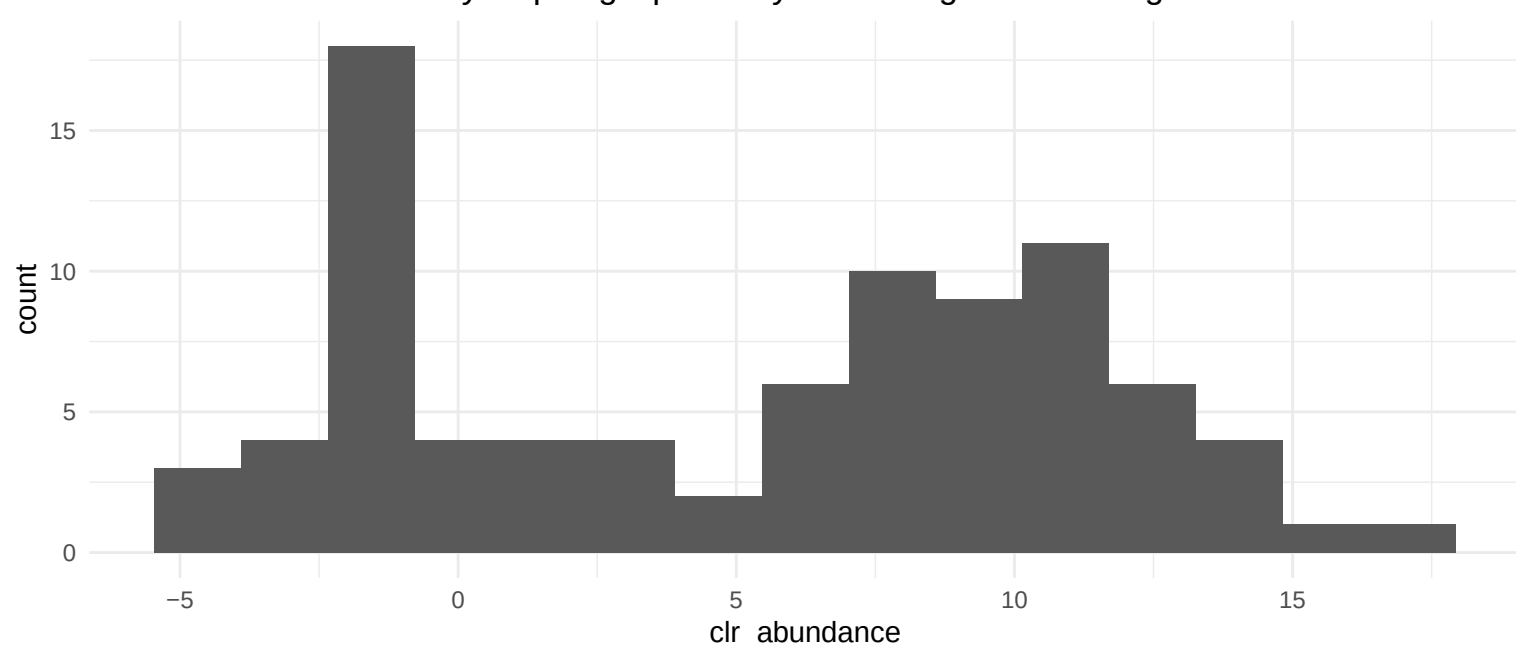

Distribution for 00592 alpha-Linolenic acid metabolism

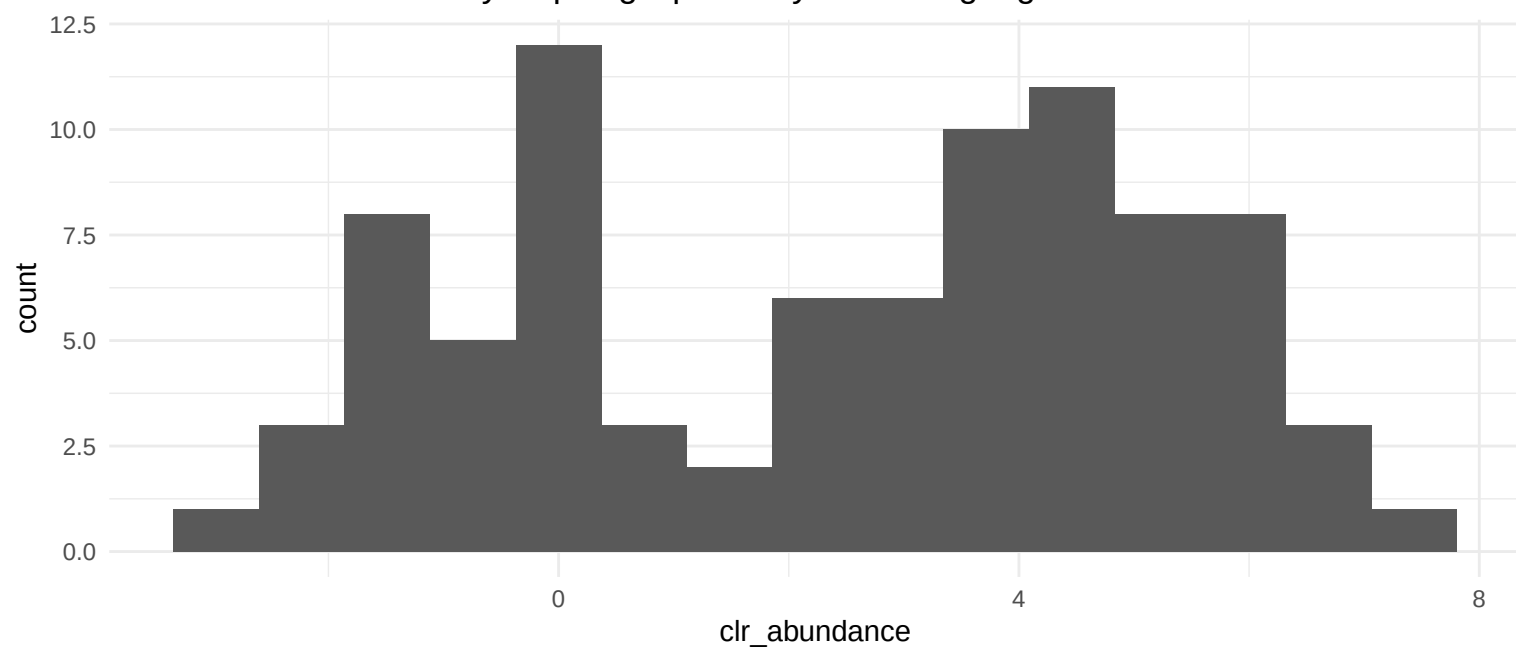

Distribution for 00600 Sphingolipid metabolism

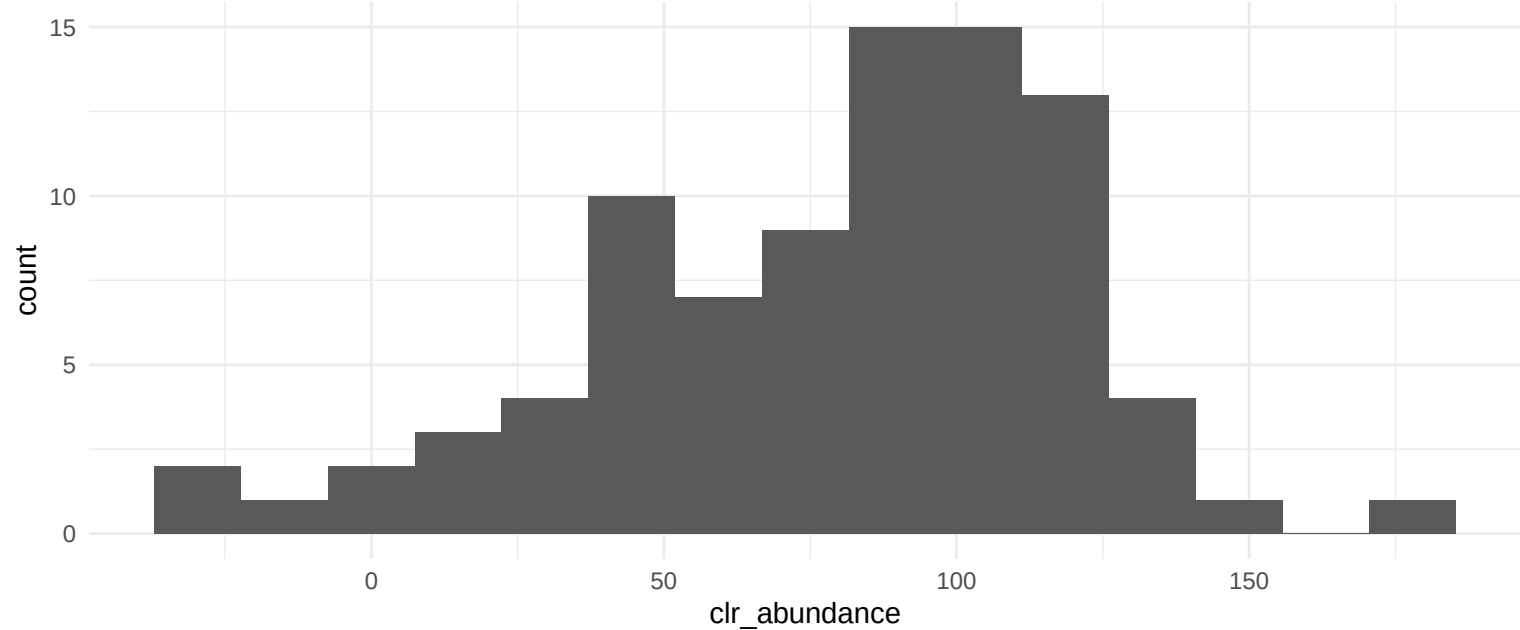

Distribution for 00603 Glycosphingolipid biosynthesis – globo and isoglobo series

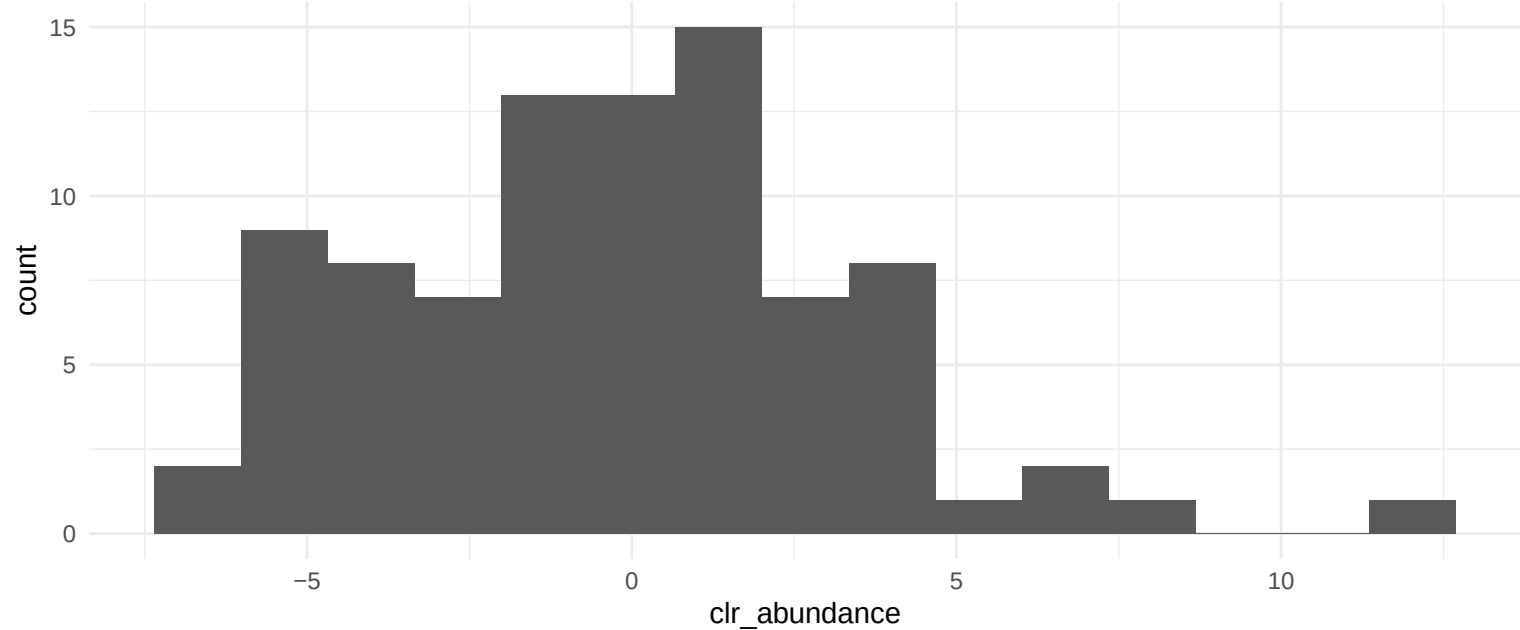

Distribution for 00604 Glycosphingolipid biosynthesis – ganglio series

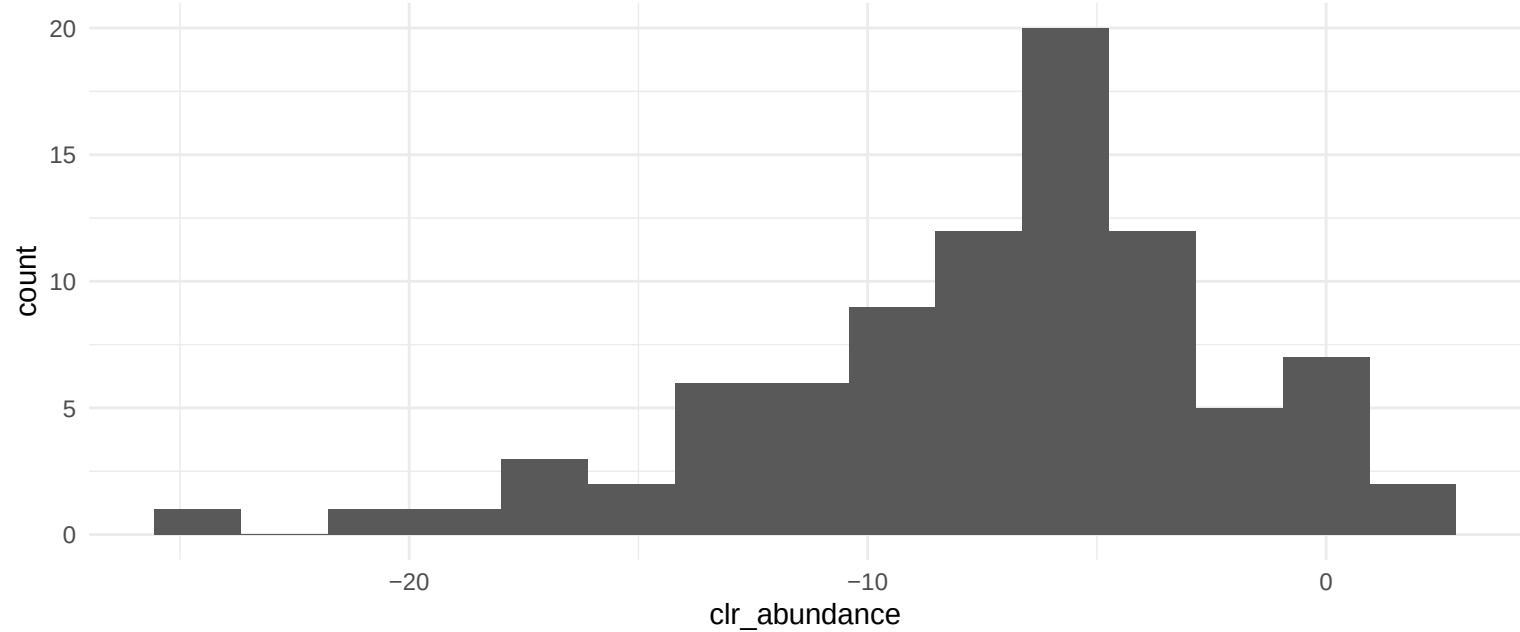

Distribution for 00620 Pyruvate metabolism

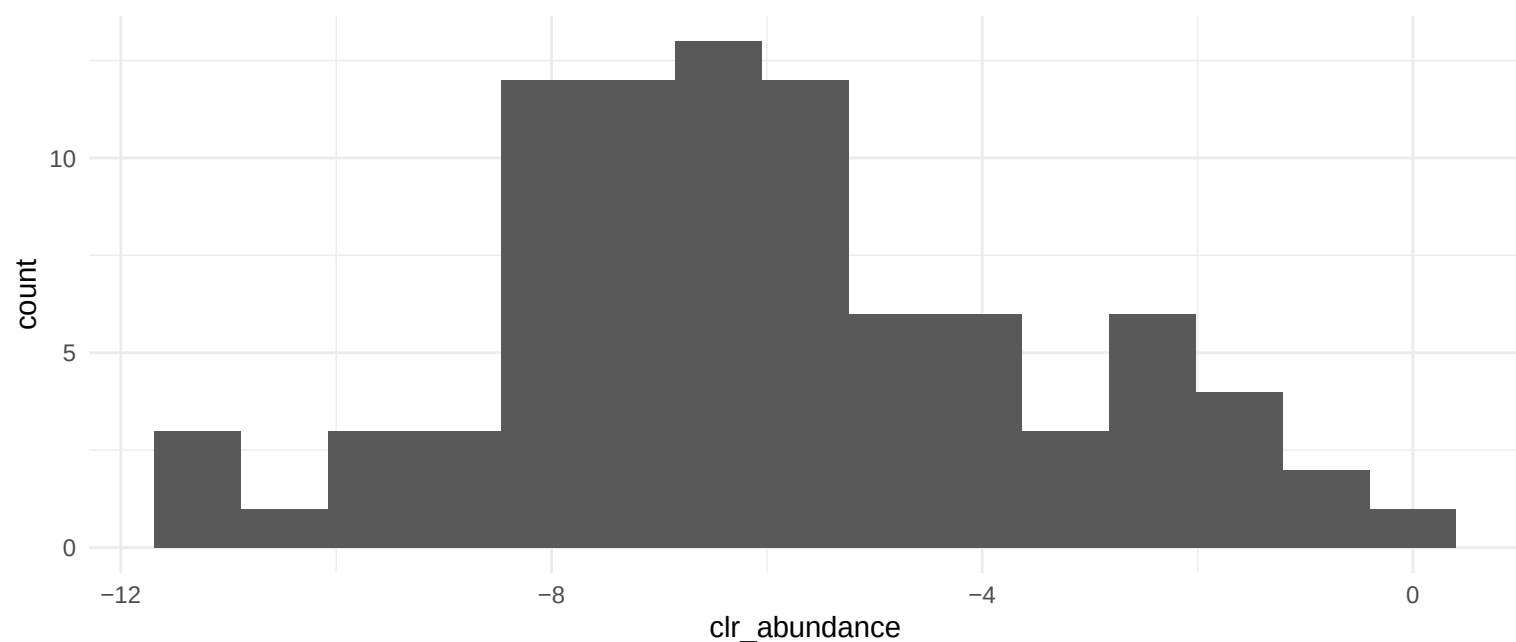

Distribution for 00621 Dioxin degradation

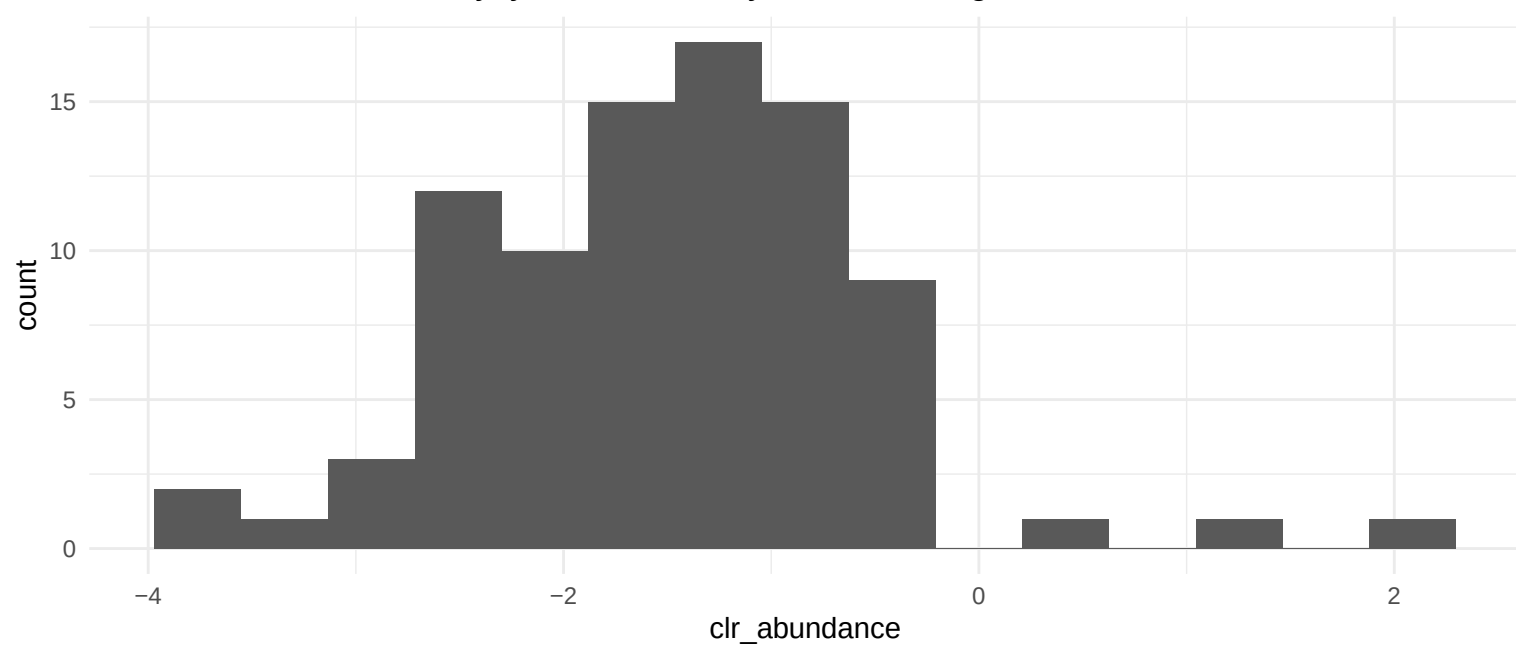

Distribution for 00622 Xylene degradation

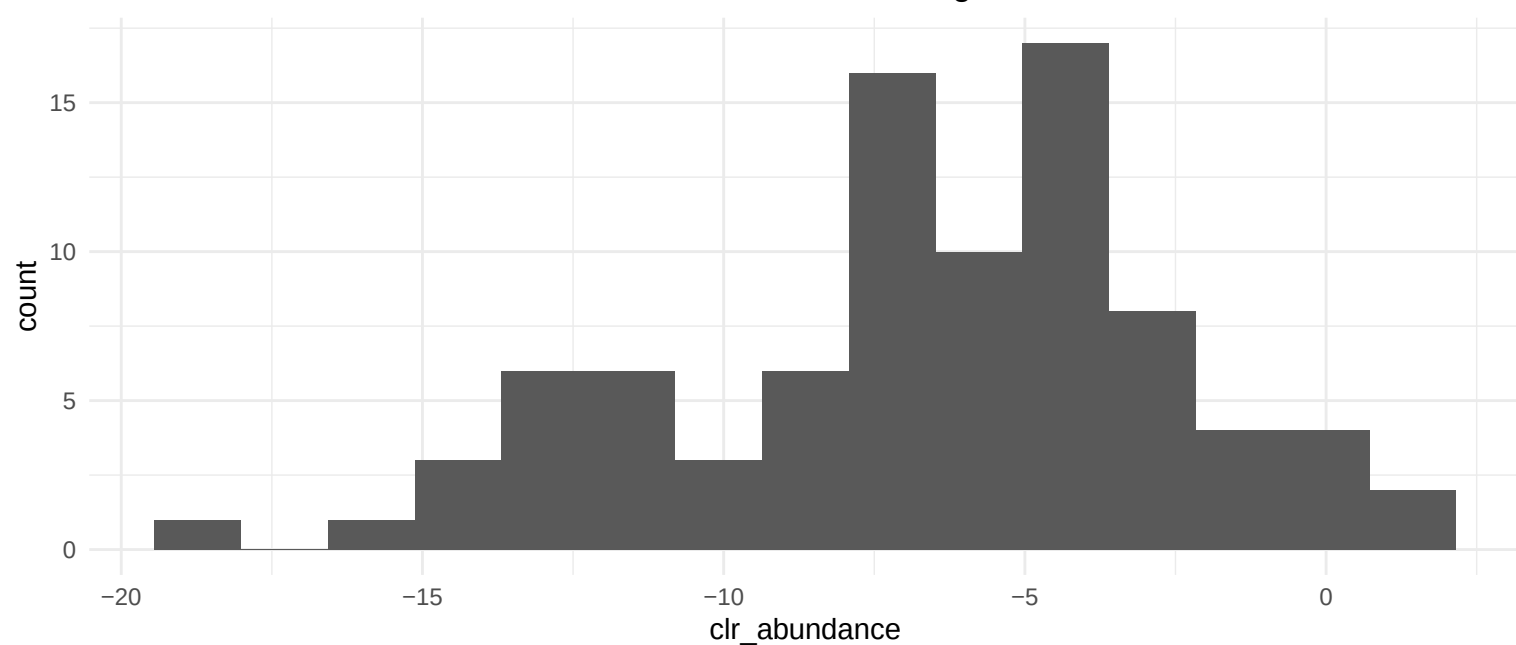

Distribution for 00623 Toluene degradation

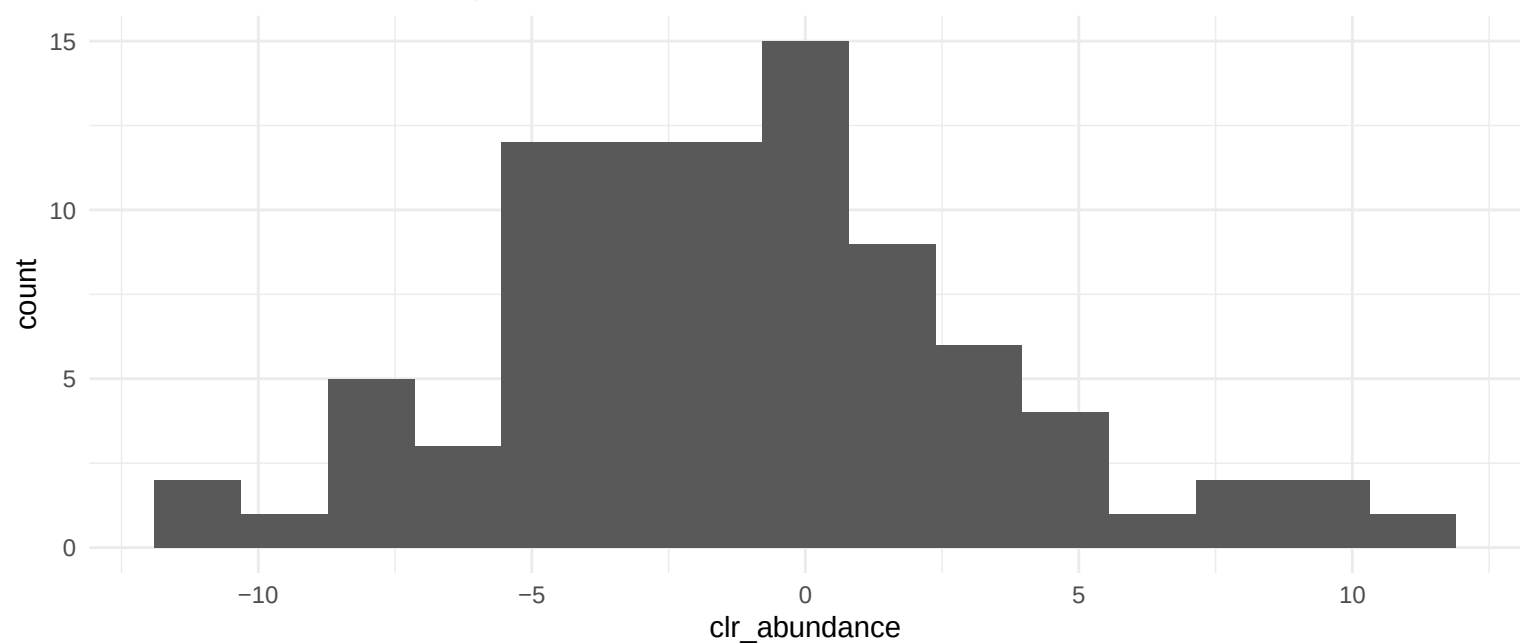

Distribution for 00624 Polycyclic aromatic hydrocarbon degradation

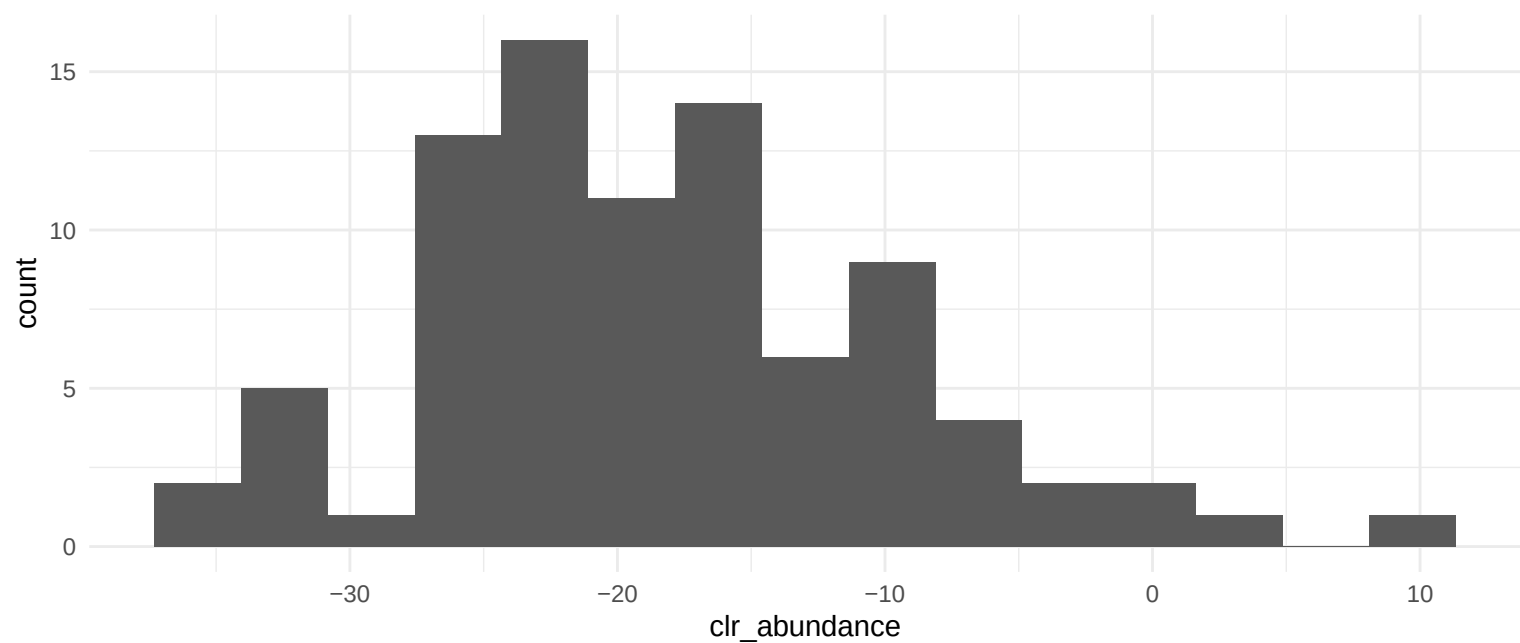

Distribution for 00625 Chloroalkane and chloroalkene degradation

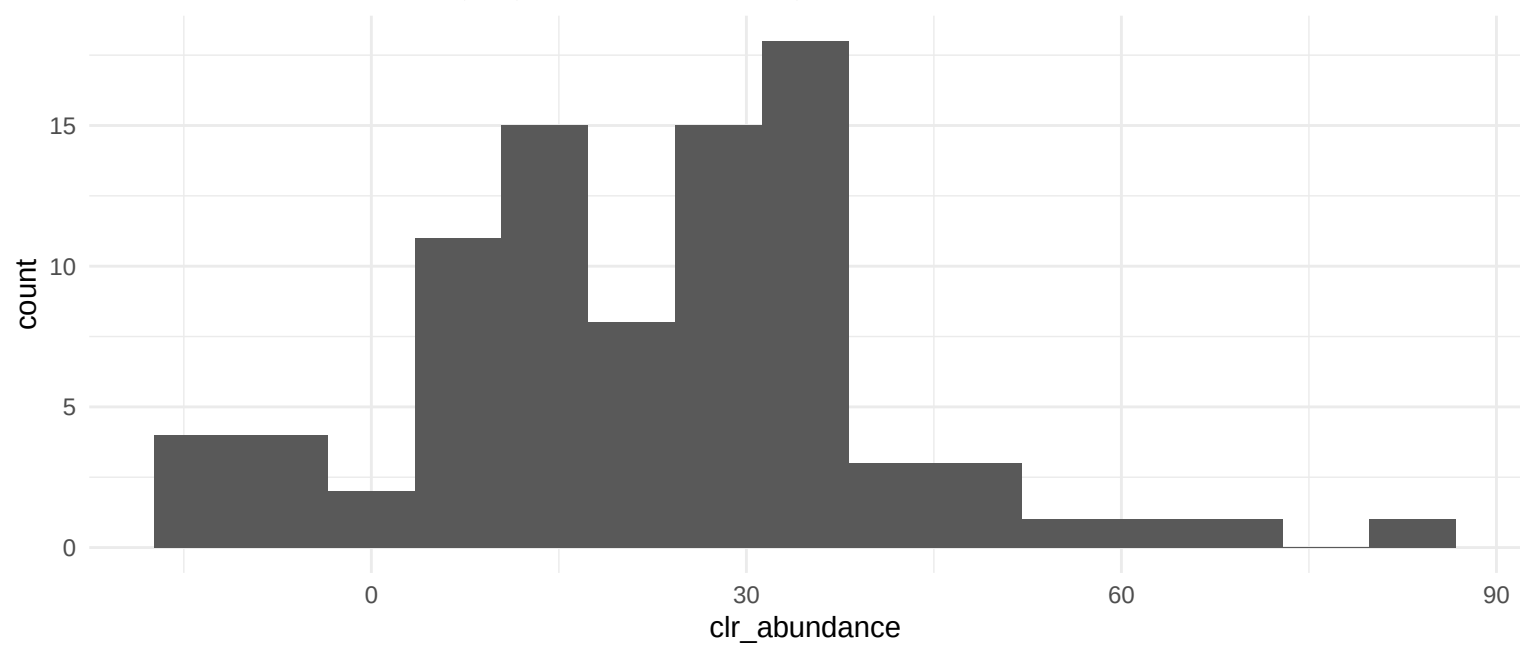

Distribution for 00626 Naphthalene degradation

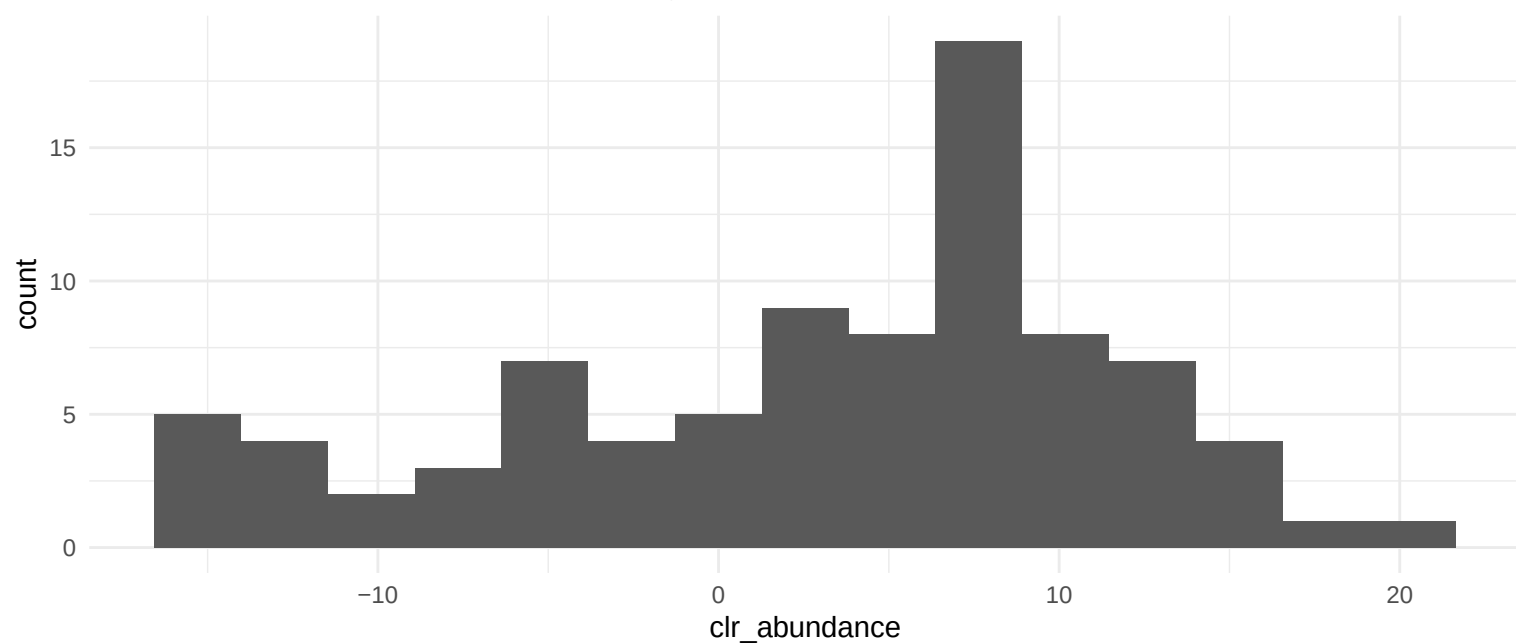

Distribution for 00627 Aminobenzoate degradation

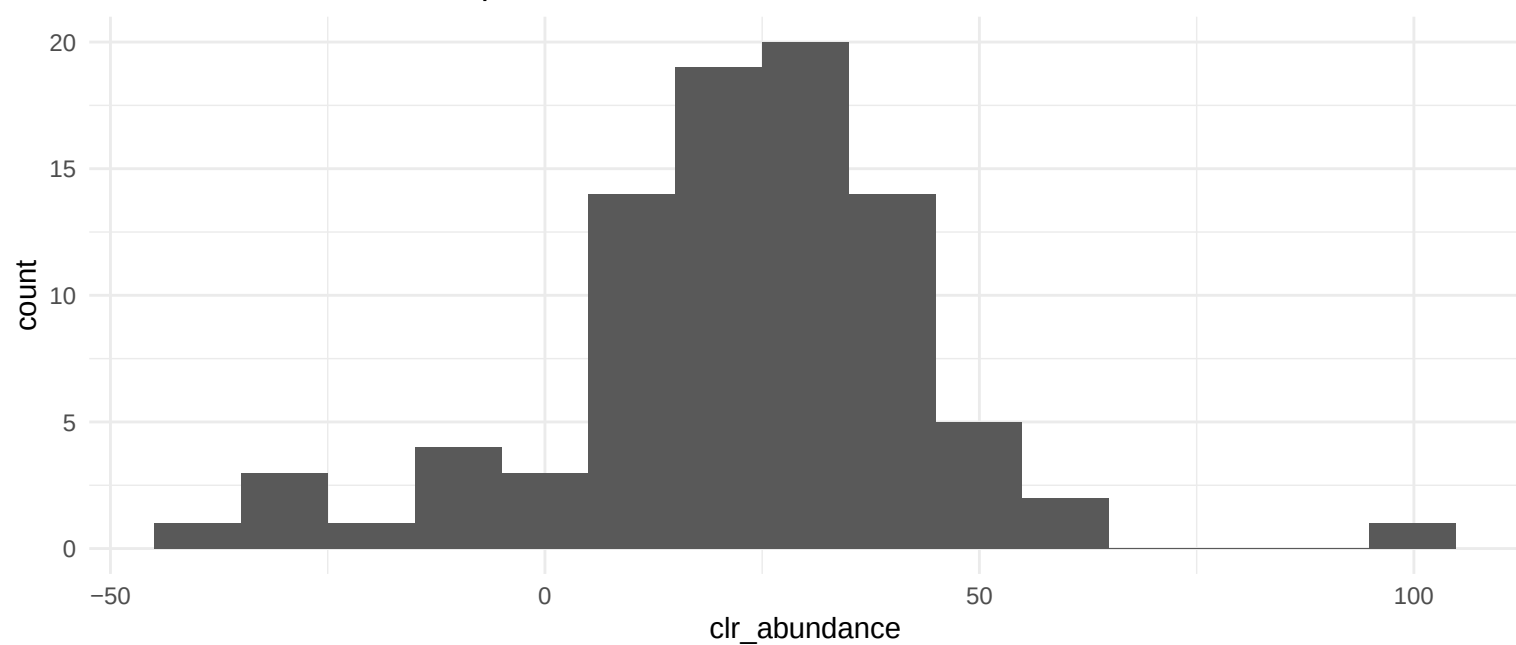

Distribution for 00630 Glyoxylate and dicarboxylate metabolism

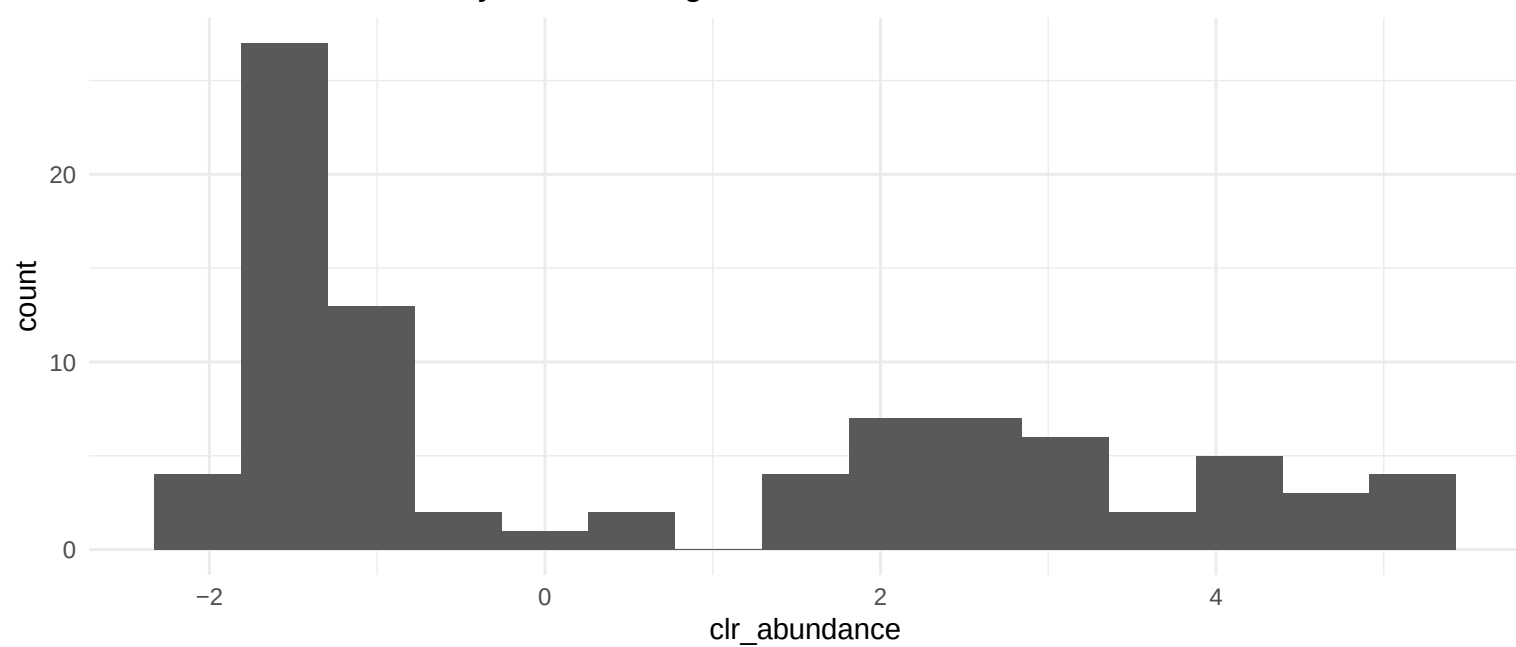

Distribution for 00633 Nitrotoluene degradation

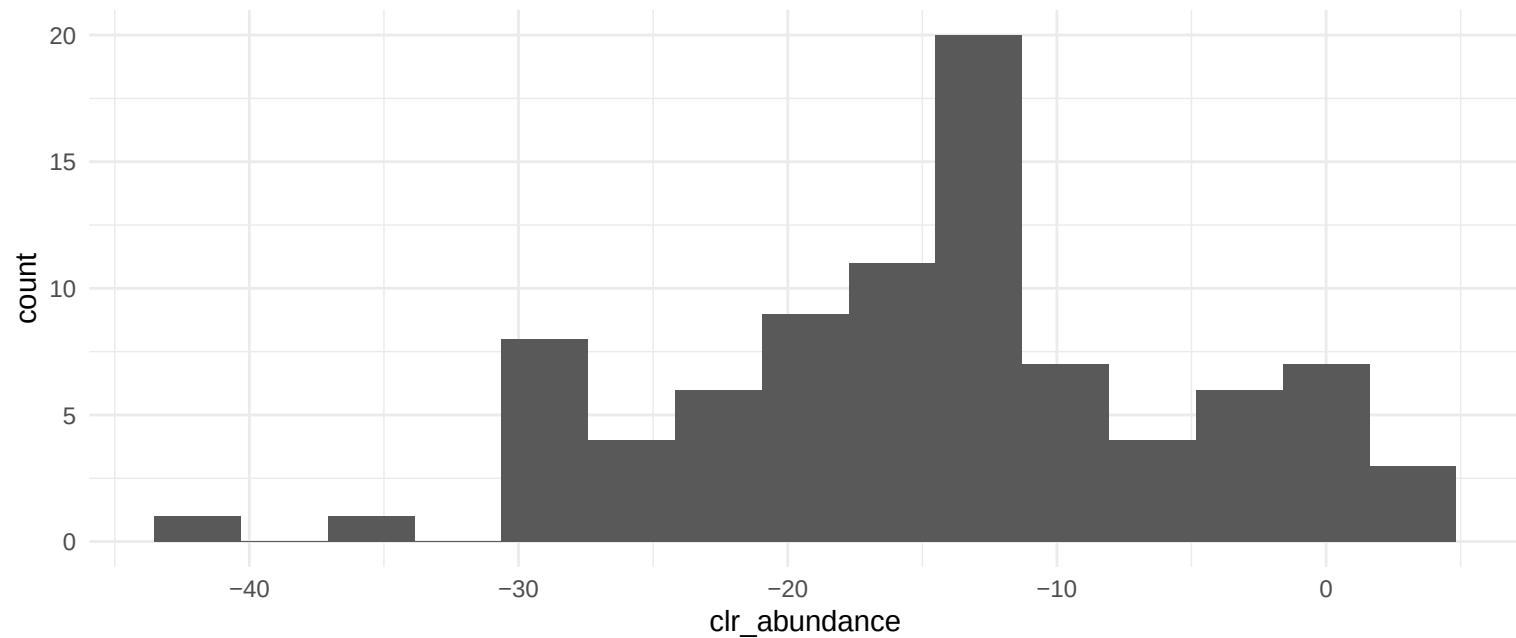

Distribution for 00640 Propanoate metabolism

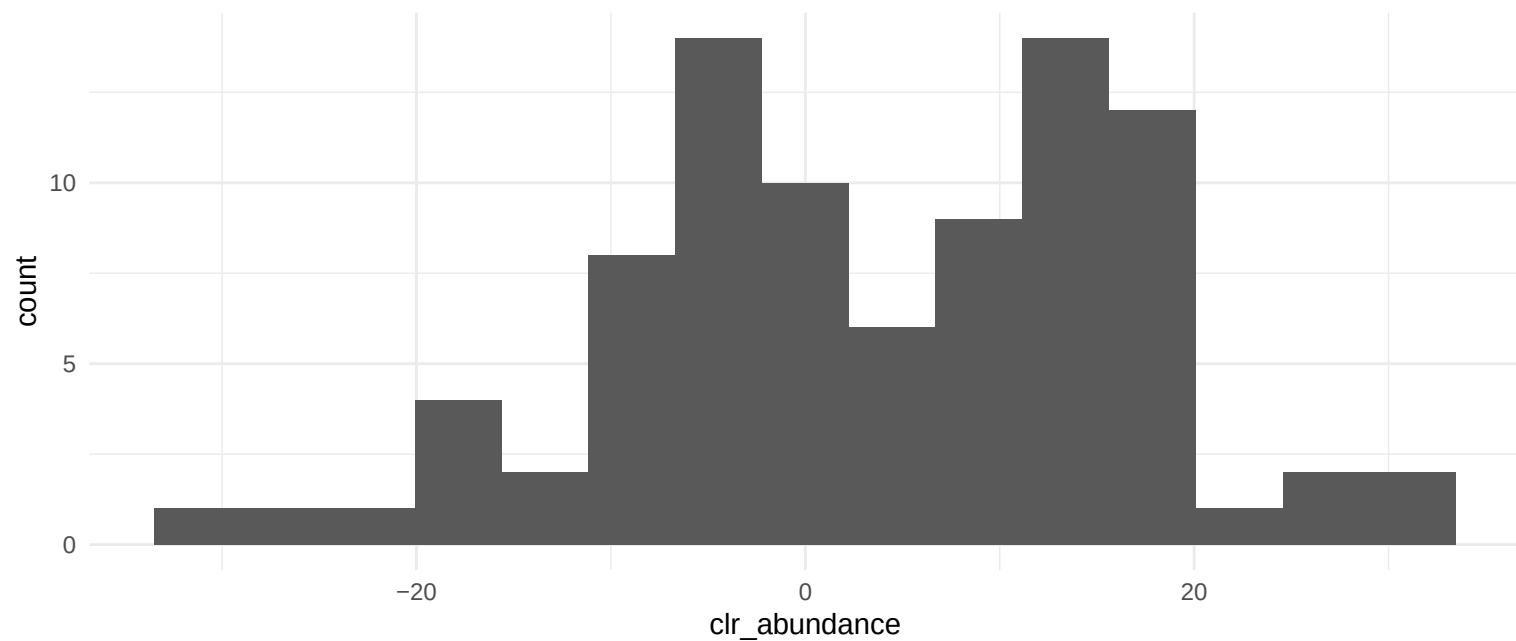

Distribution for 00642 Ethylbenzene degradation

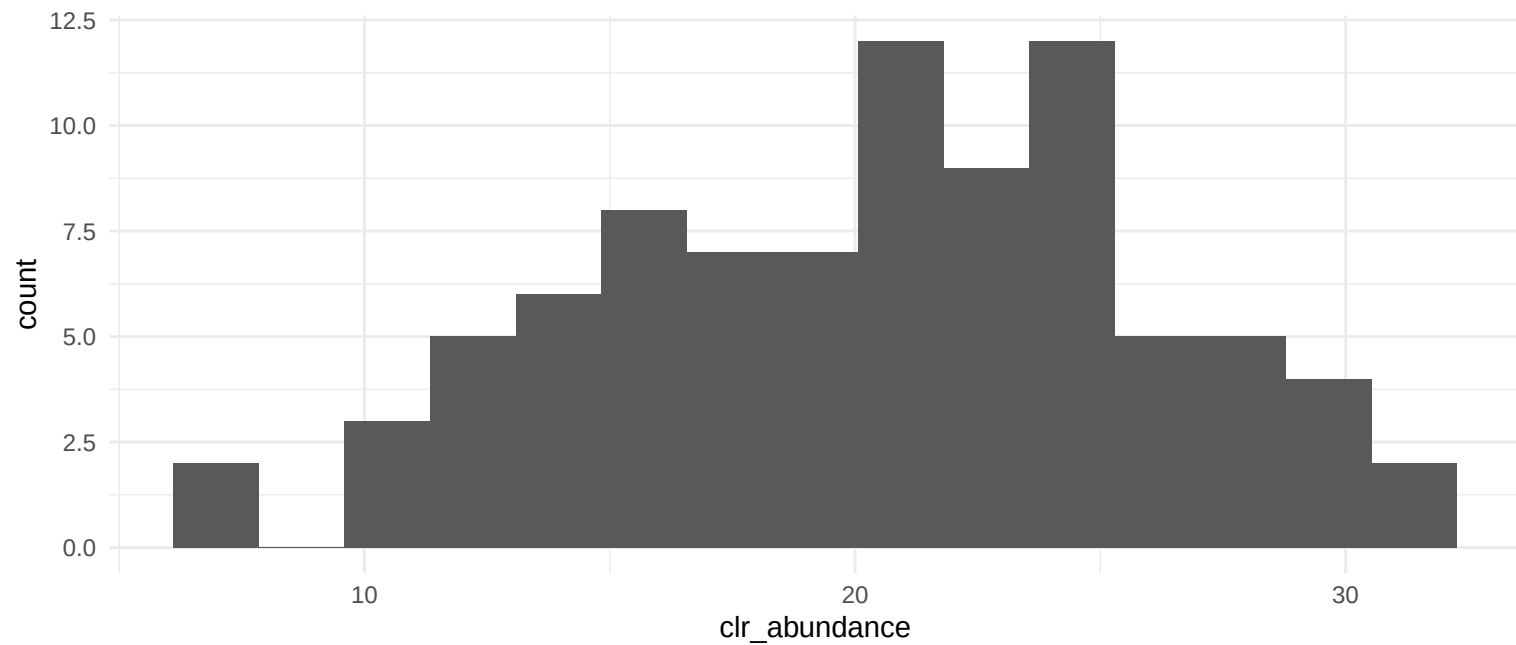

Distribution for 00643 Styrene degradation

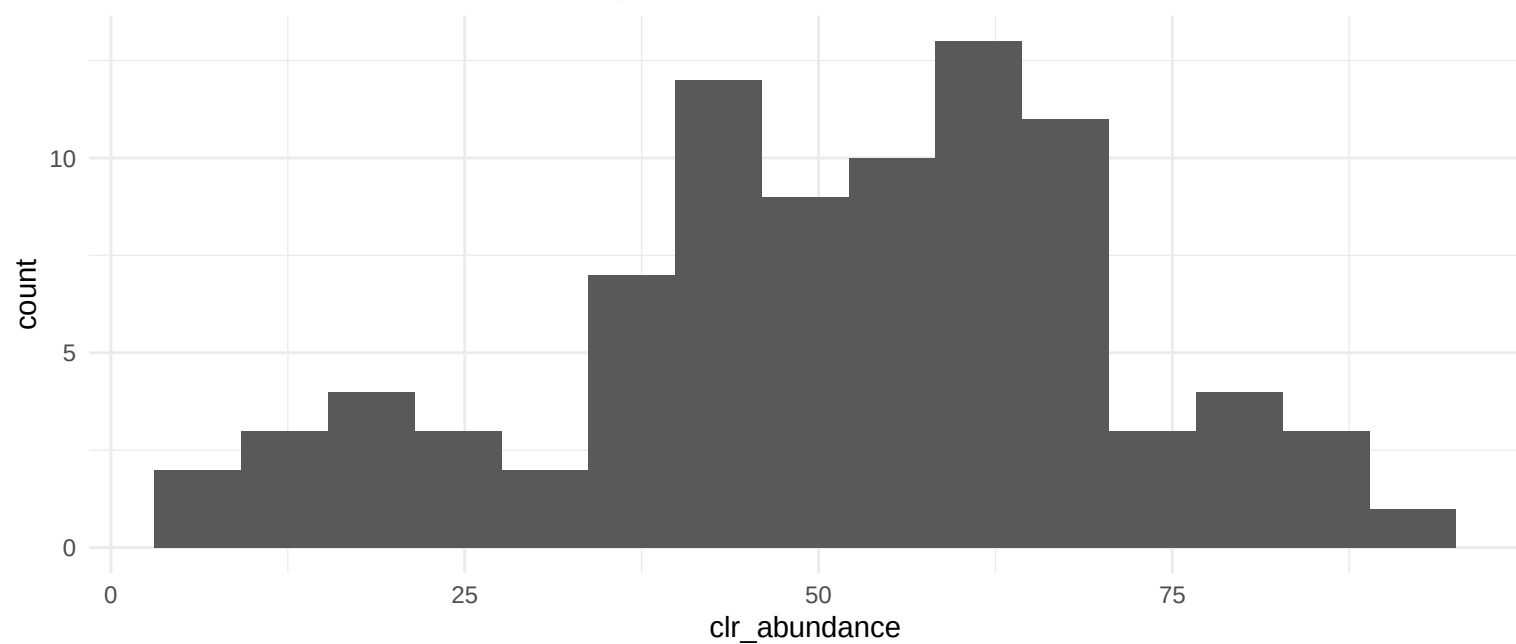

Distribution for 00650 Butanoate metabolism

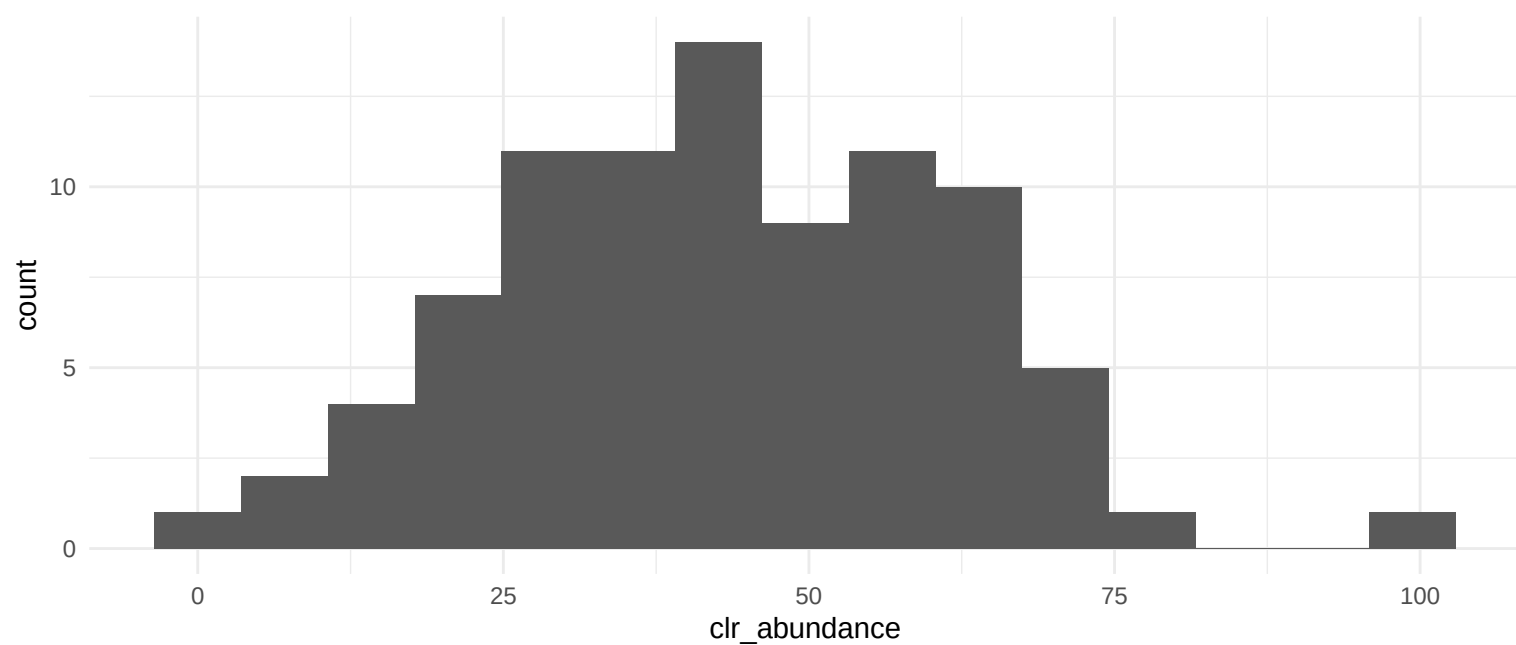

Distribution for 00660 C5-Branched dibasic acid metabolism

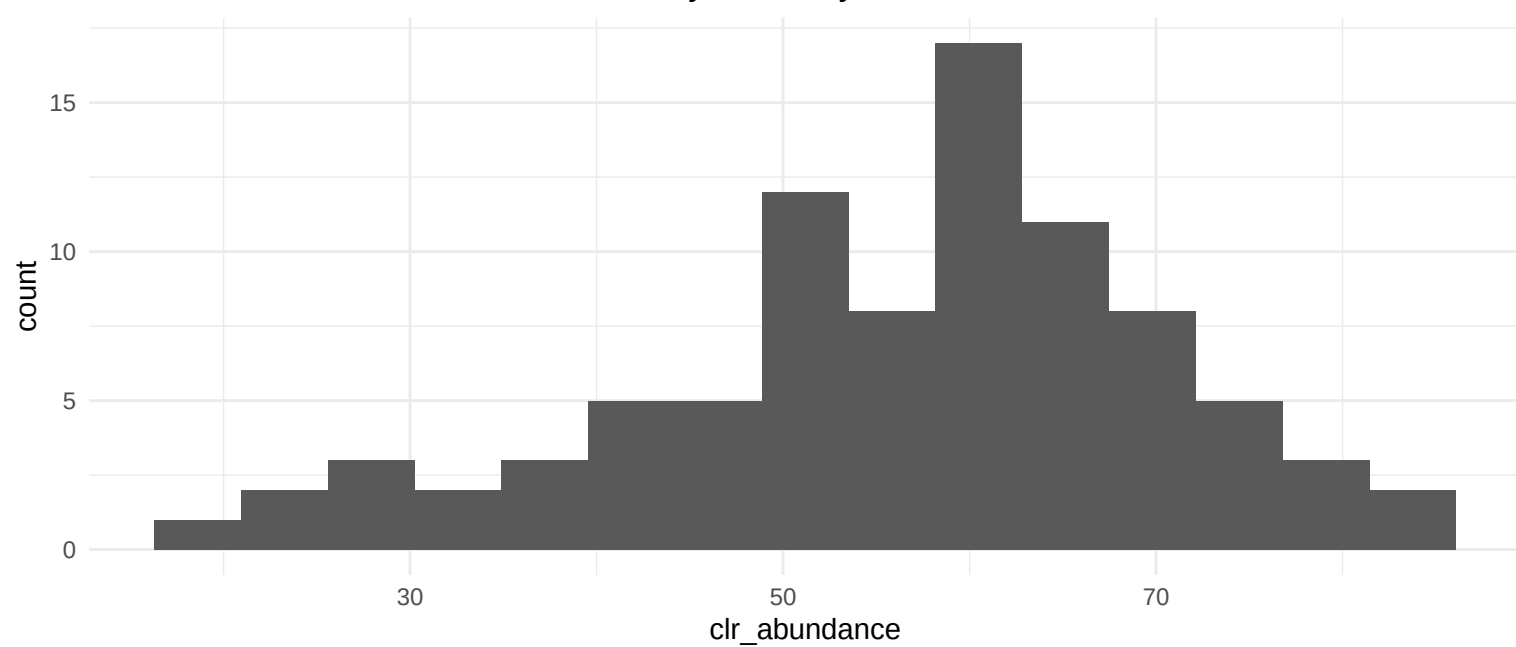

Distribution for 00670 One carbon pool by folate

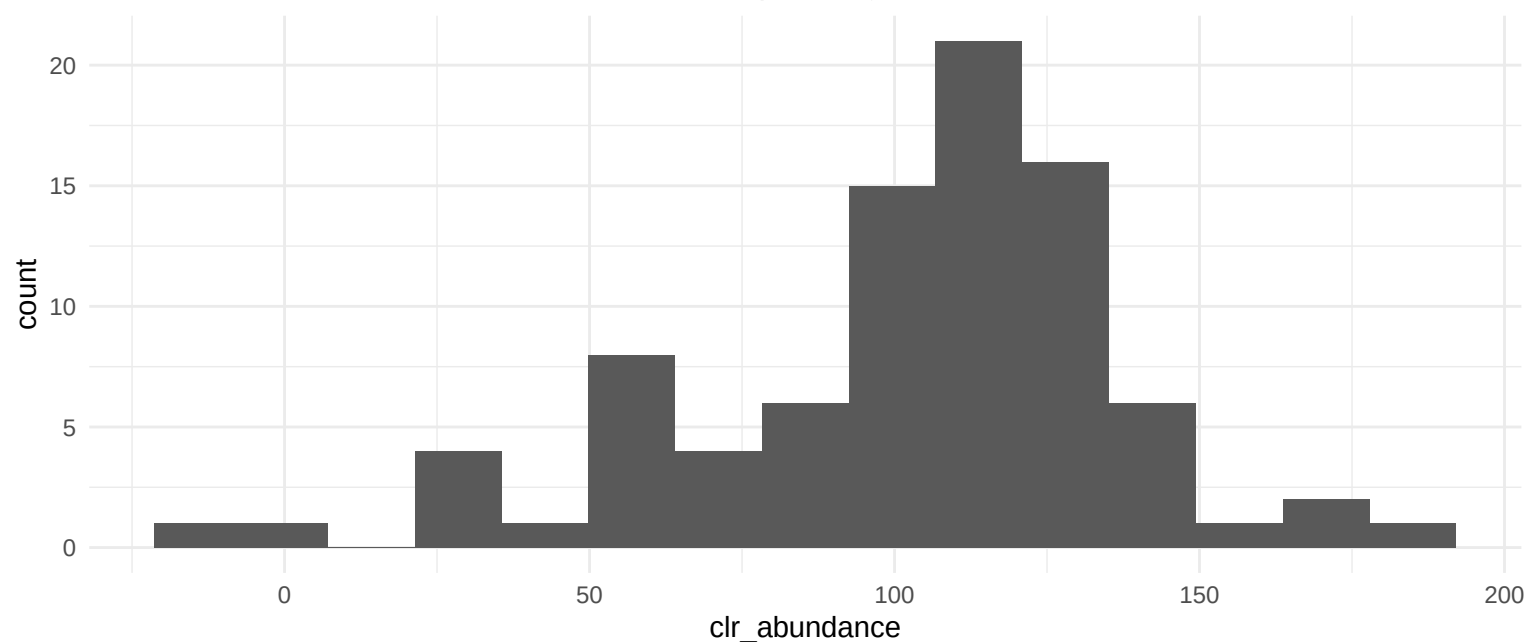

Distribution for 00680 Methane metabolism

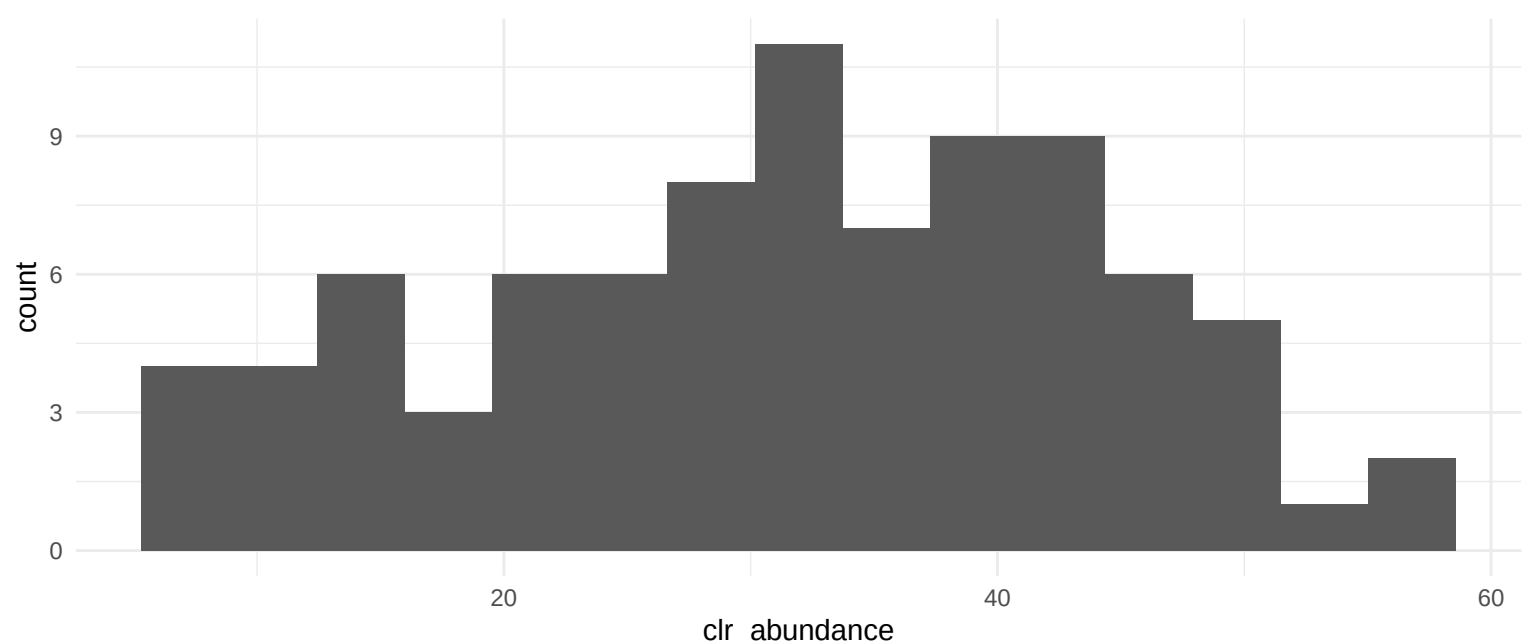

Distribution for 00710 Carbon fixation by Calvin cycle

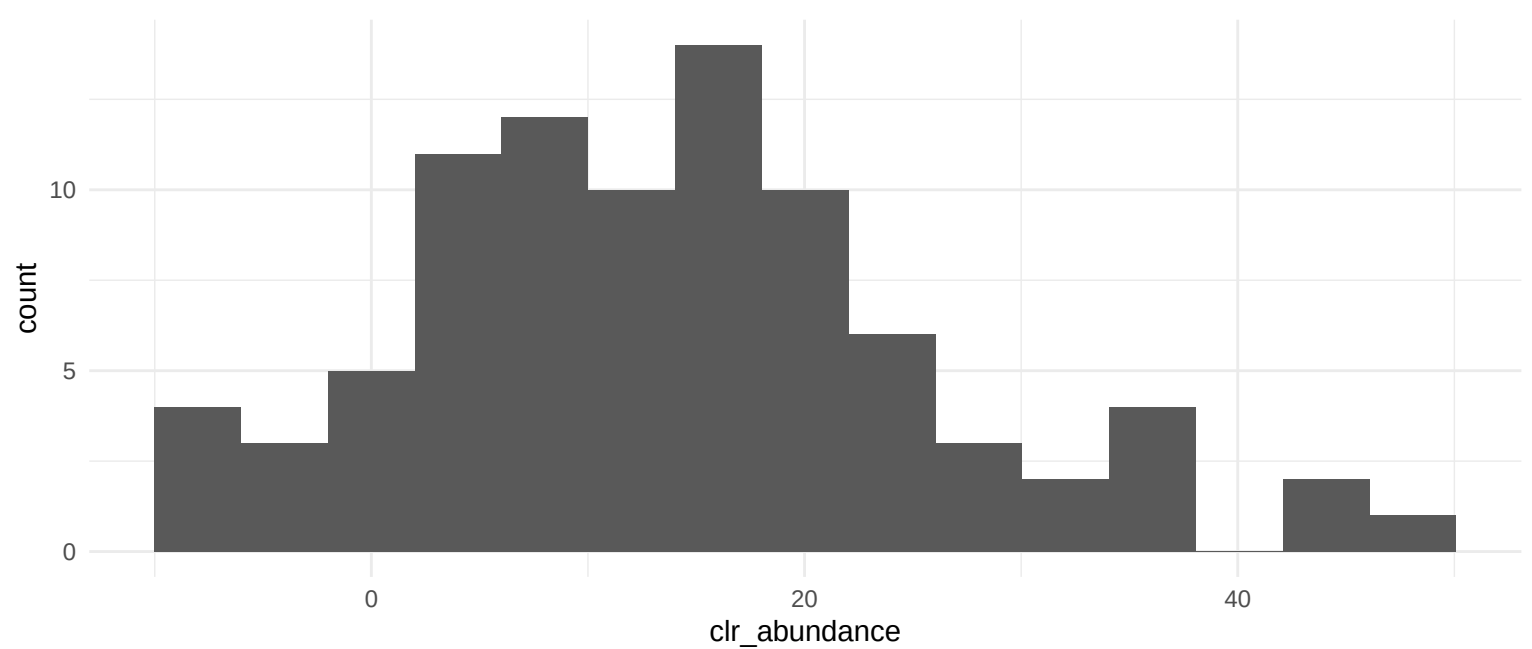

Distribution for 00720 Other carbon fixation pathways

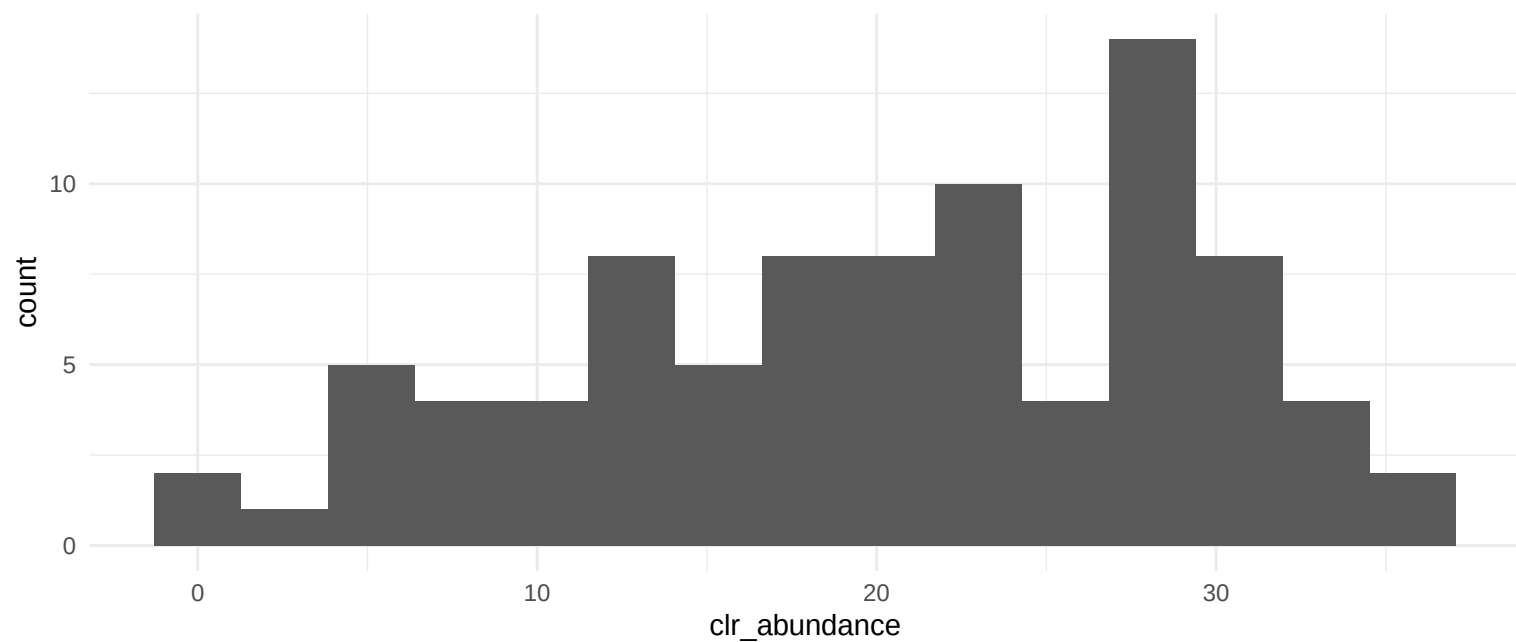

Distribution for 00730 Thiamine metabolism

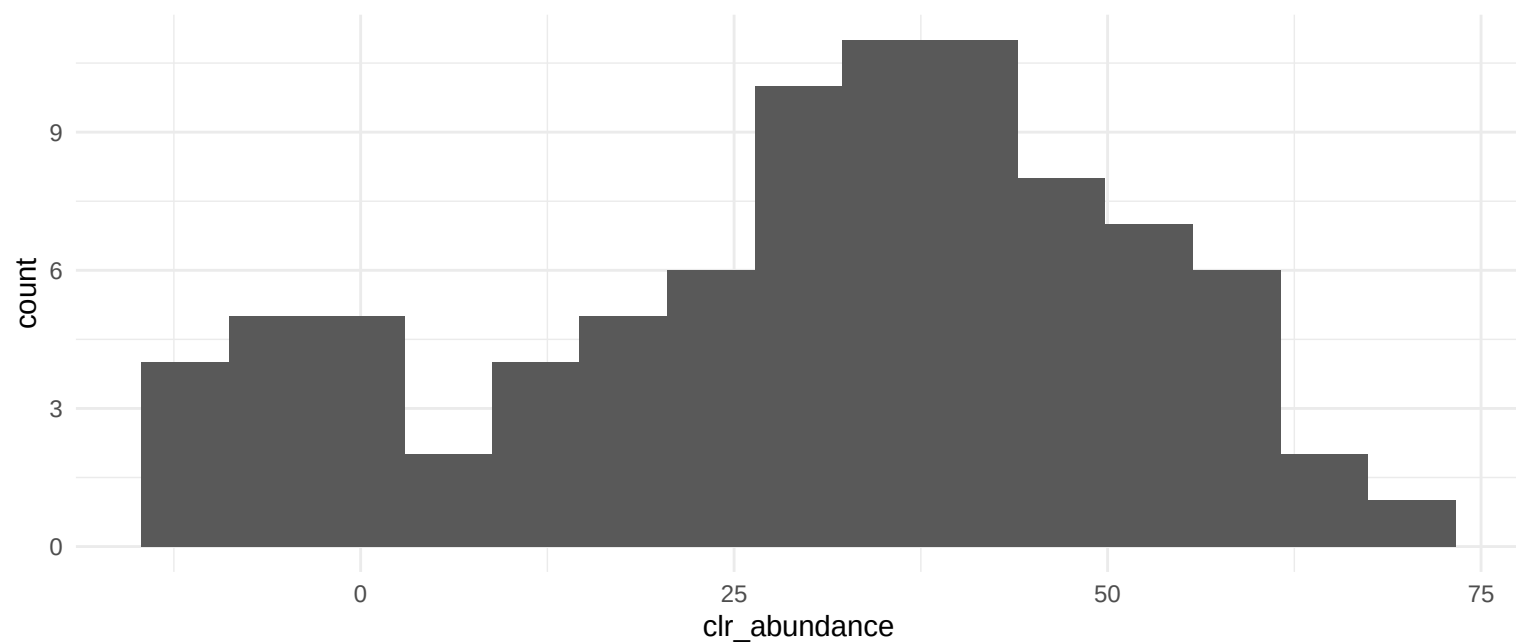

Distribution for 00740 Riboflavin metabolism

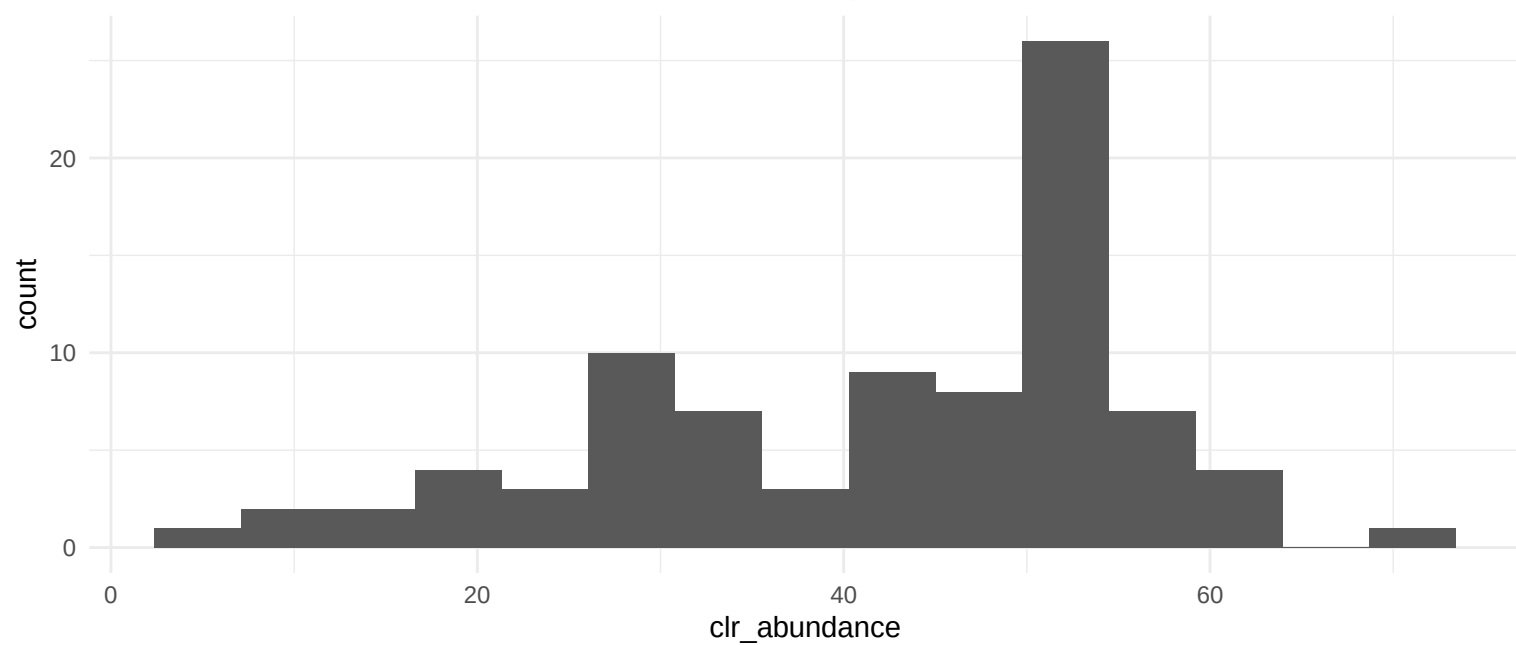

Distribution for 00750 Vitamin B6 metabolism

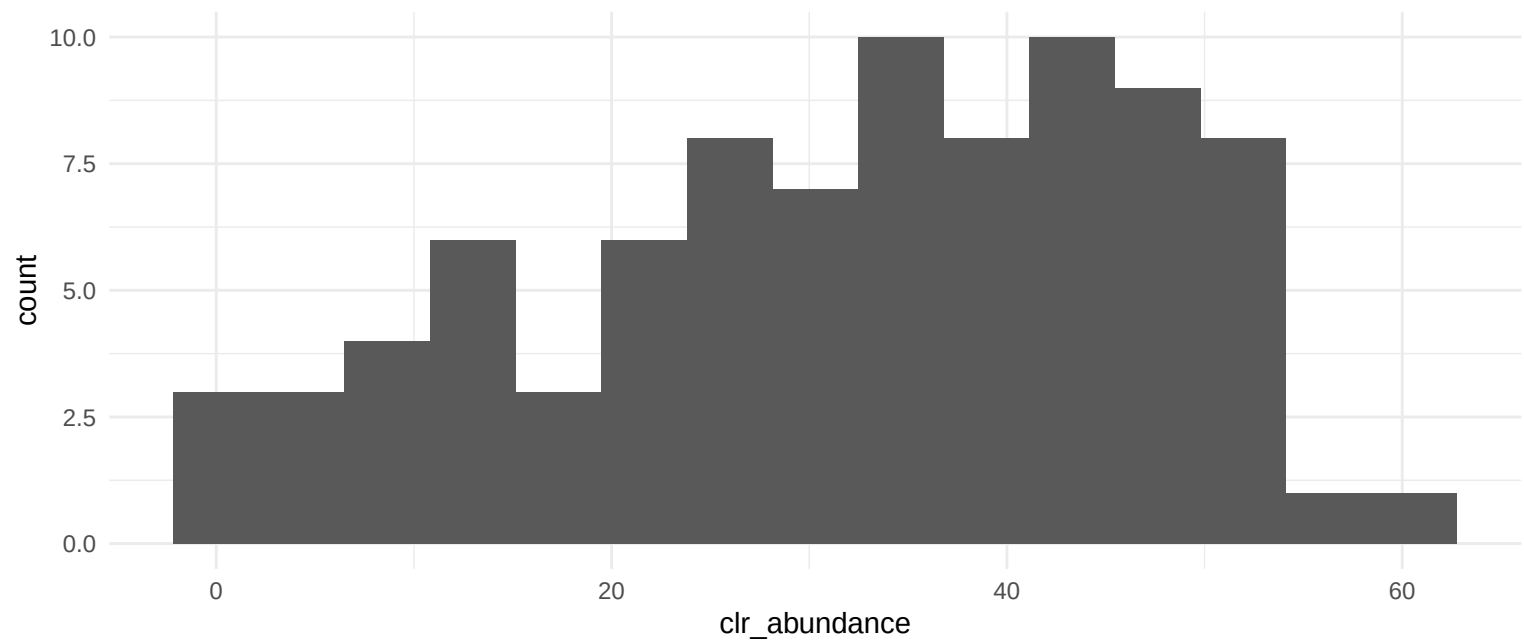

Distribution for 00760 Nicotinate and nicotinamide metabolism

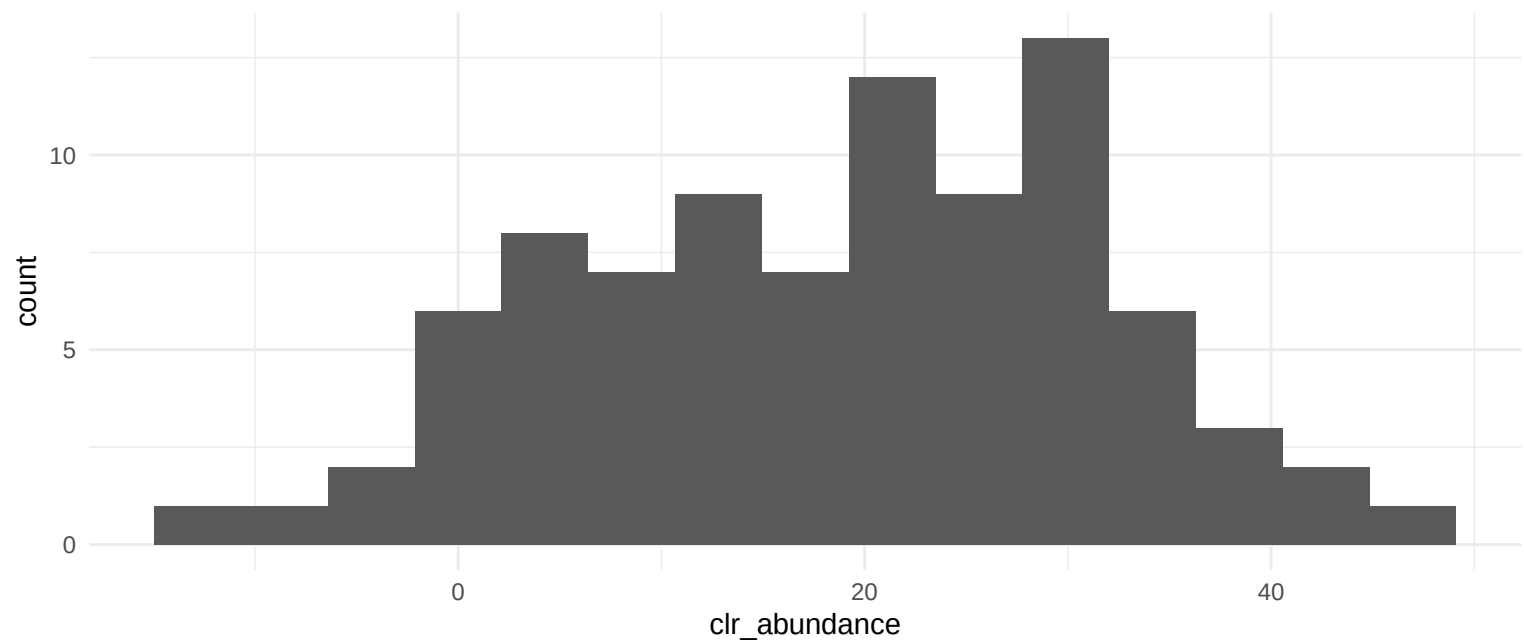

Distribution for 00770 Pantothenate and CoA biosynthesis

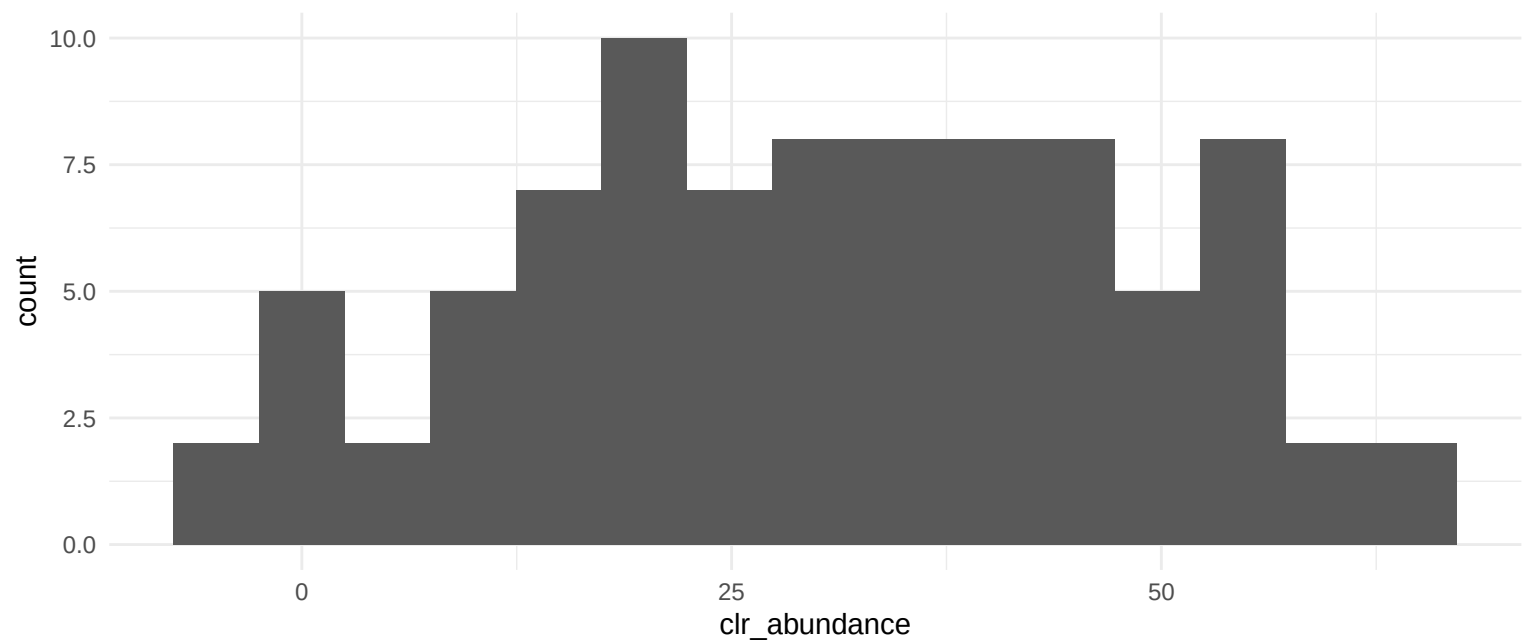

Distribution for 00780 Biotin metabolism

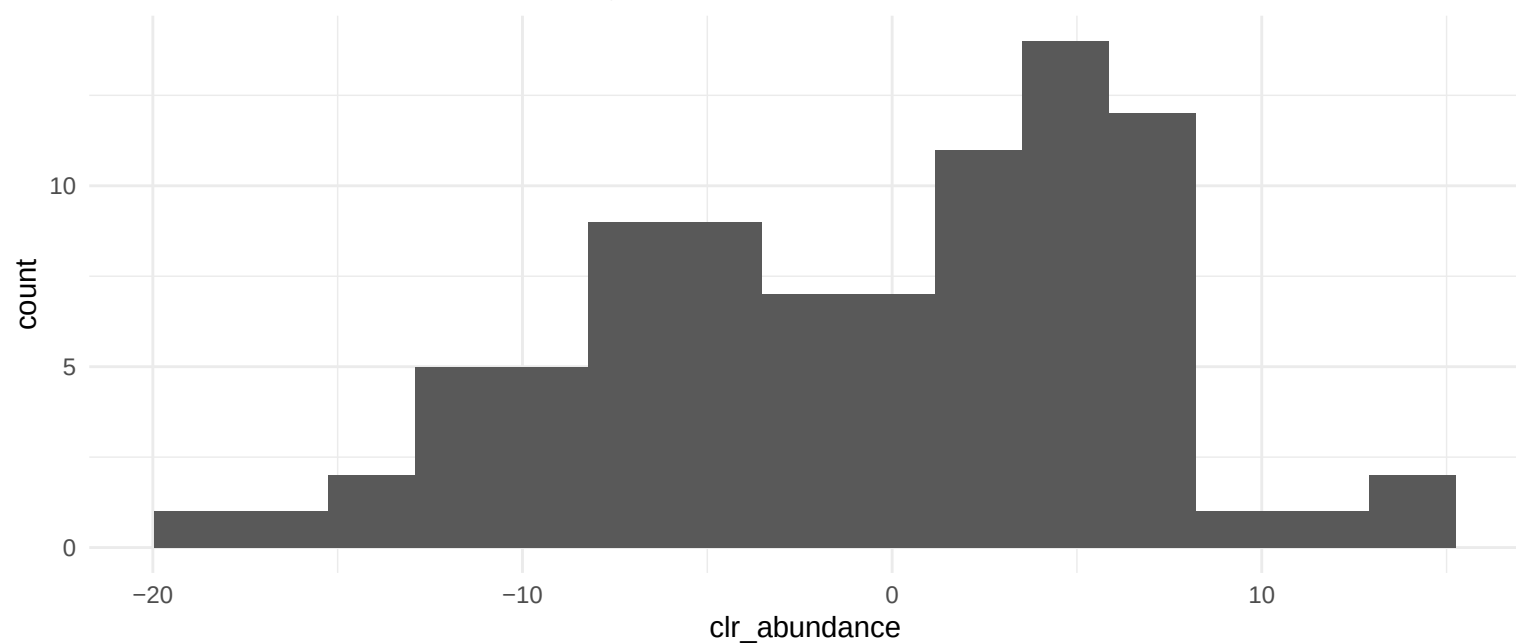

Distribution for 00785 Lipoic acid metabolism

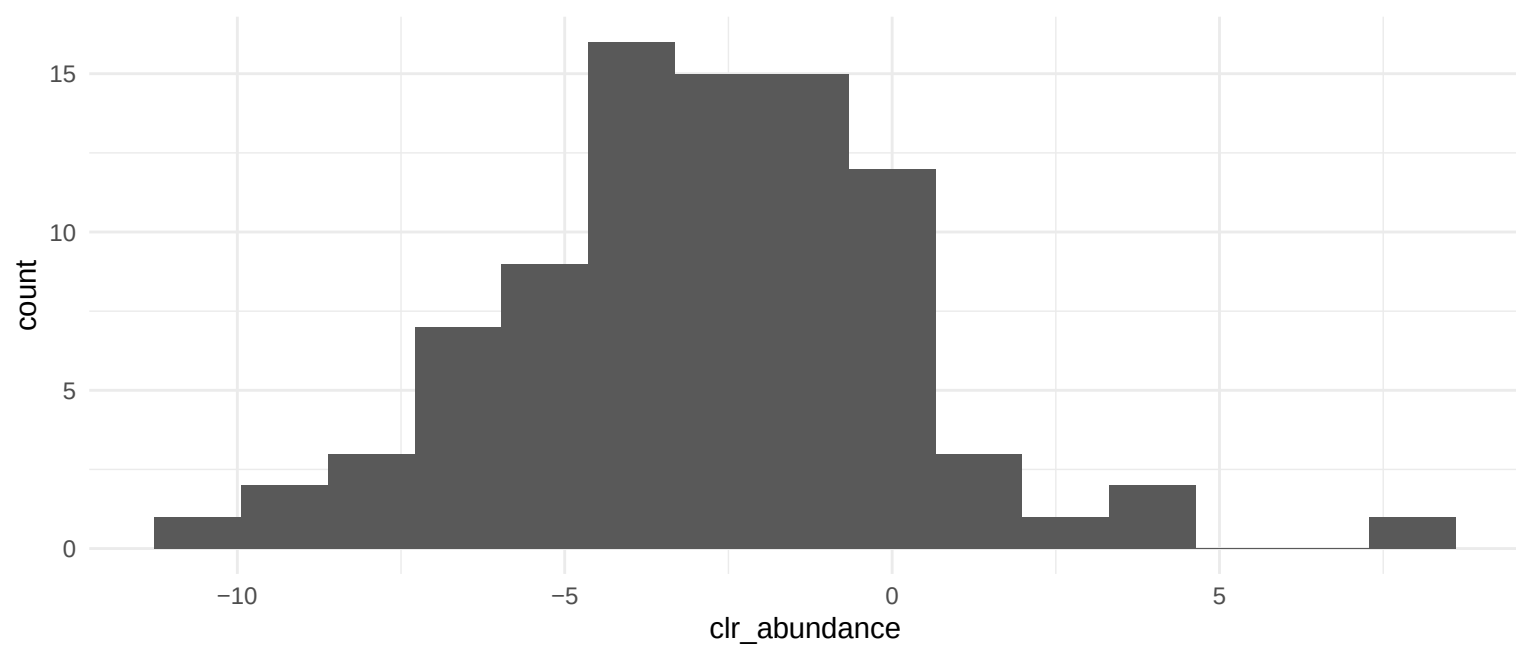

Distribution for 00790 Folate biosynthesis

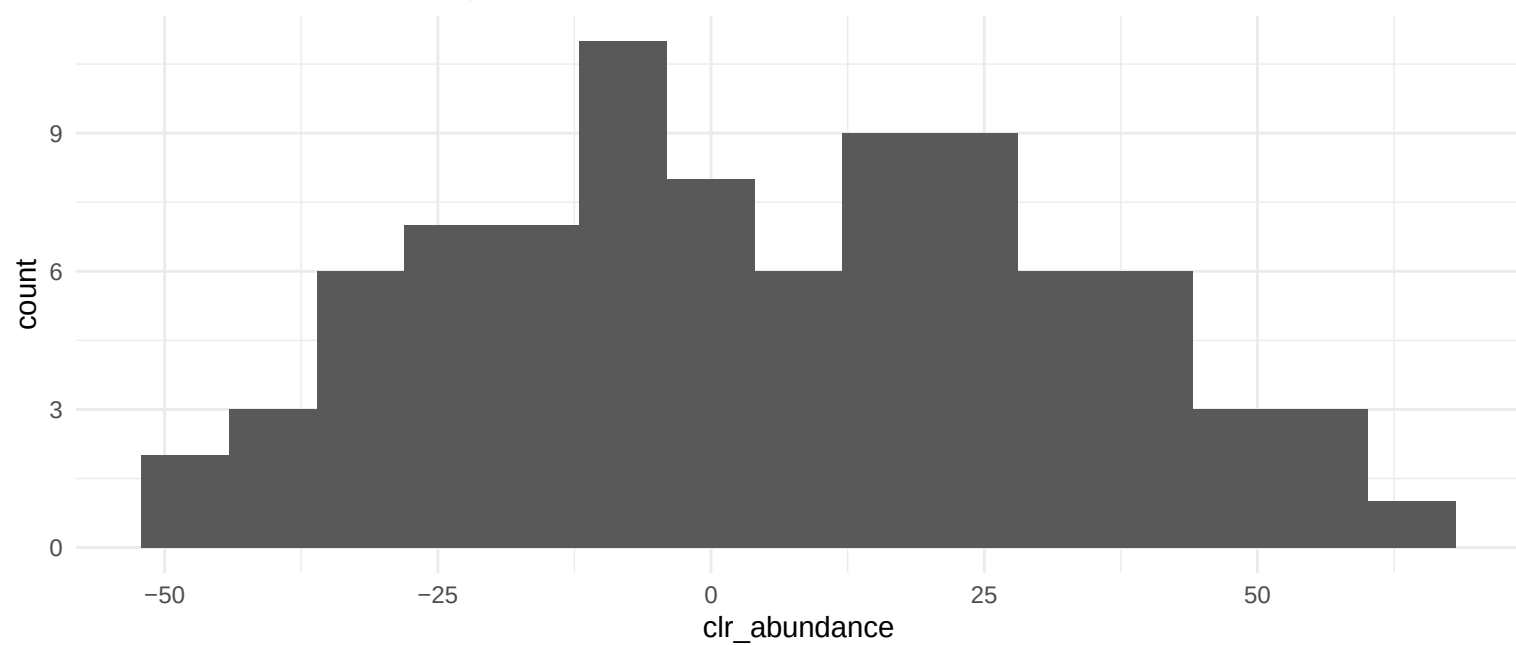

Distribution for 00791 Atrazine degradation

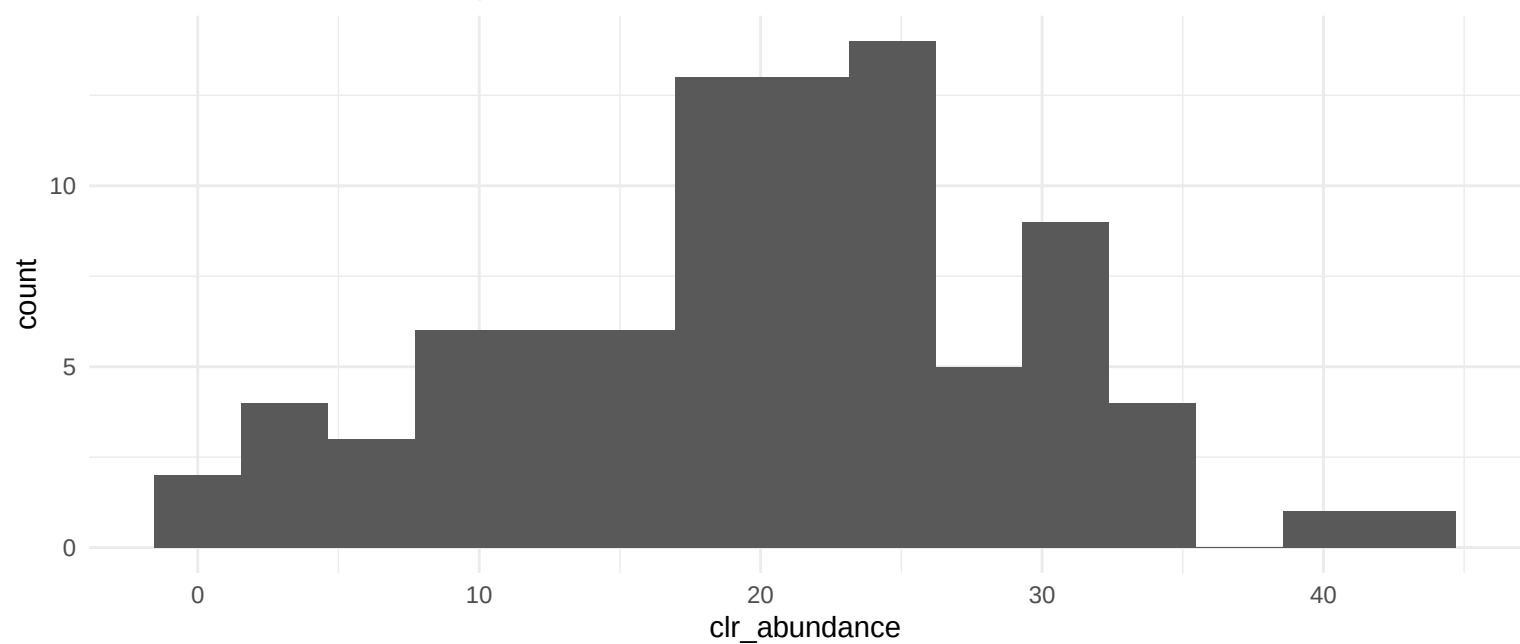

Distribution for 00830 Retinol metabolism

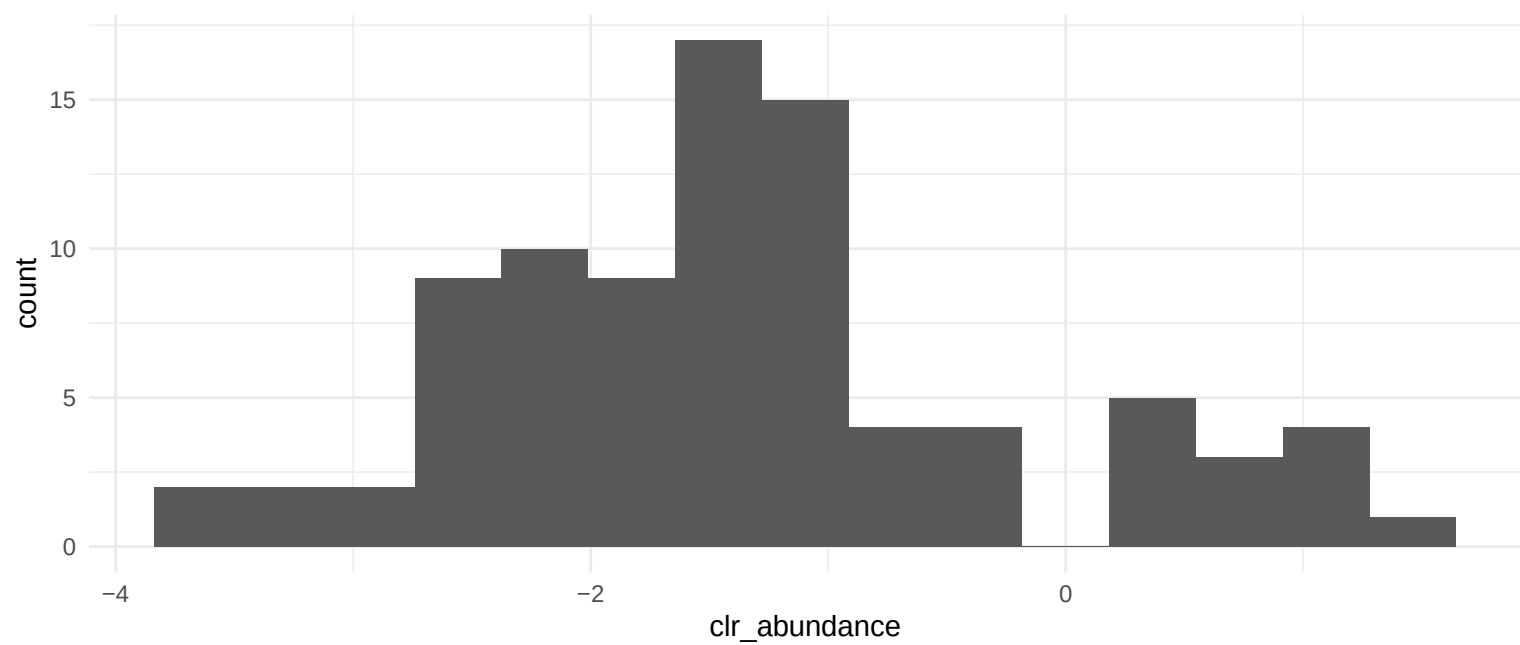

Distribution for 00860 Porphyrin metabolism

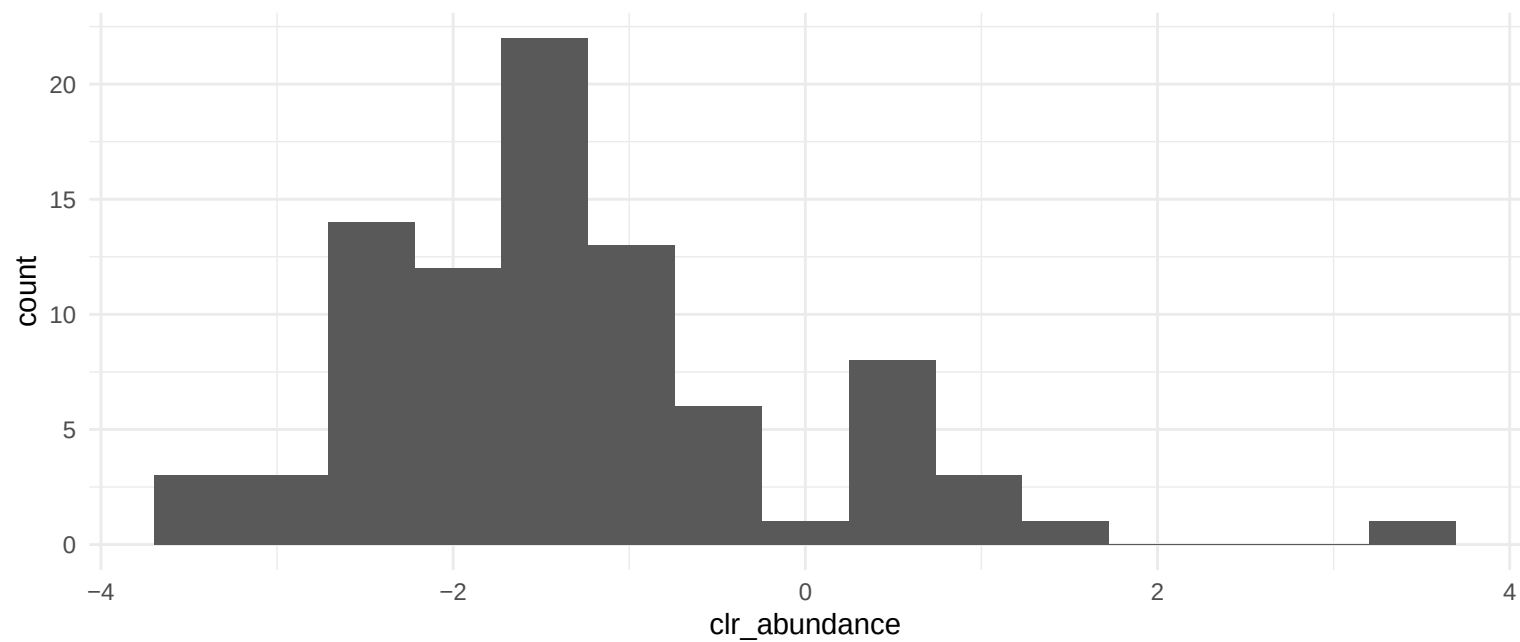

Distribution for 00900 Terpenoid backbone biosynthesis

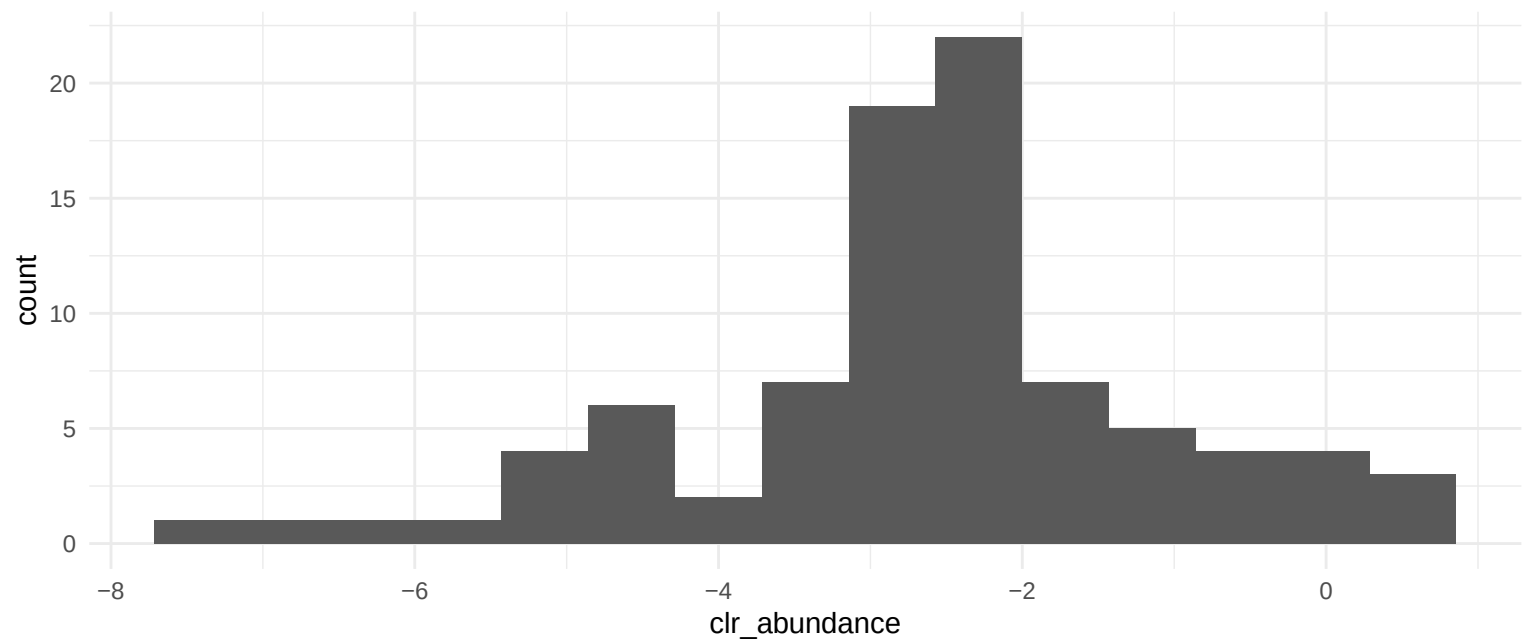

Distribution for 00901 Indole alkaloid biosynthesis

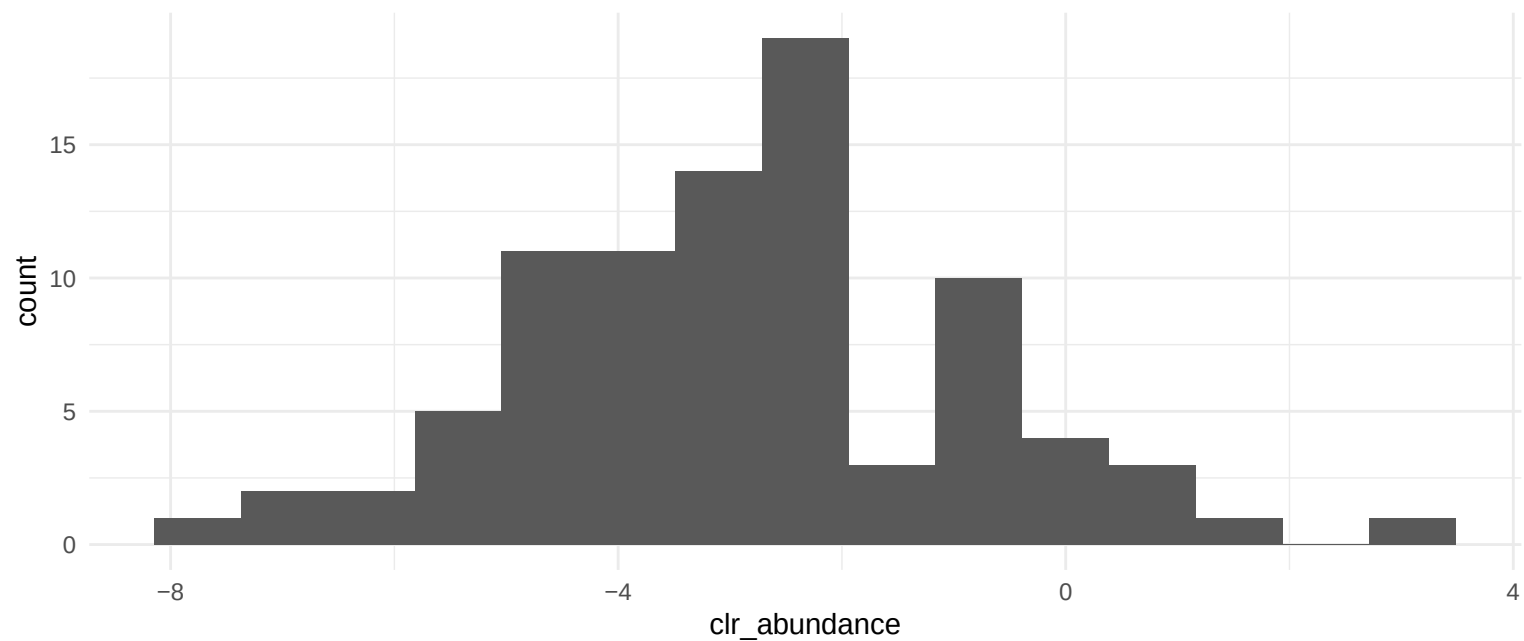

Distribution for 00902 Monoterpenoid biosynthesis

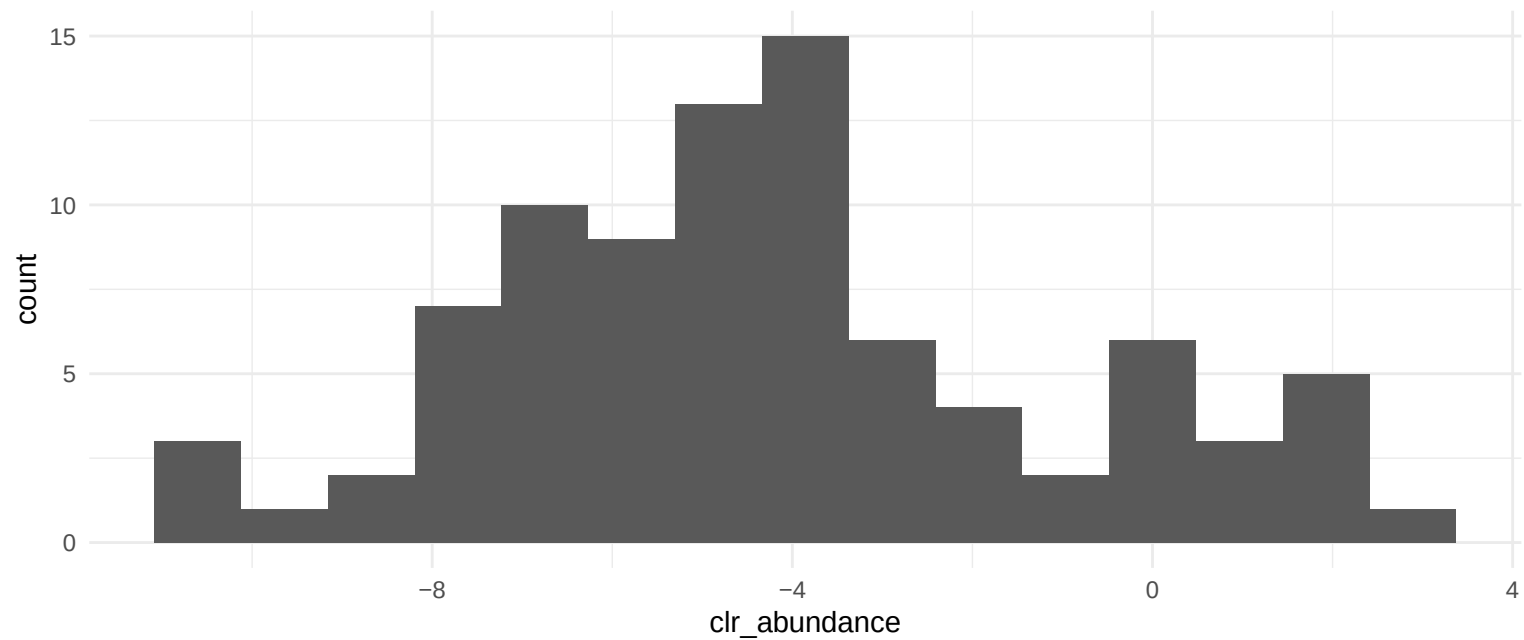

Distribution for 00903 Limonene degradation

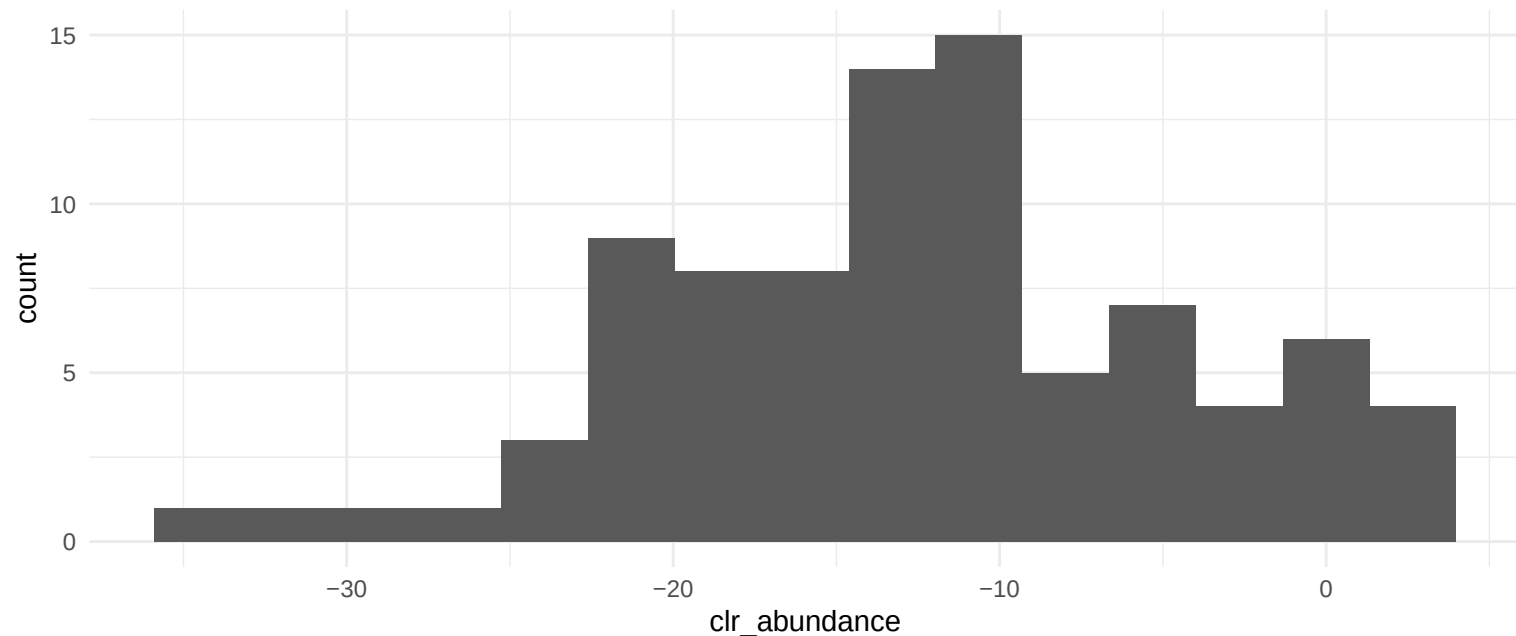

Distribution for 00904 Diterpenoid biosynthesis

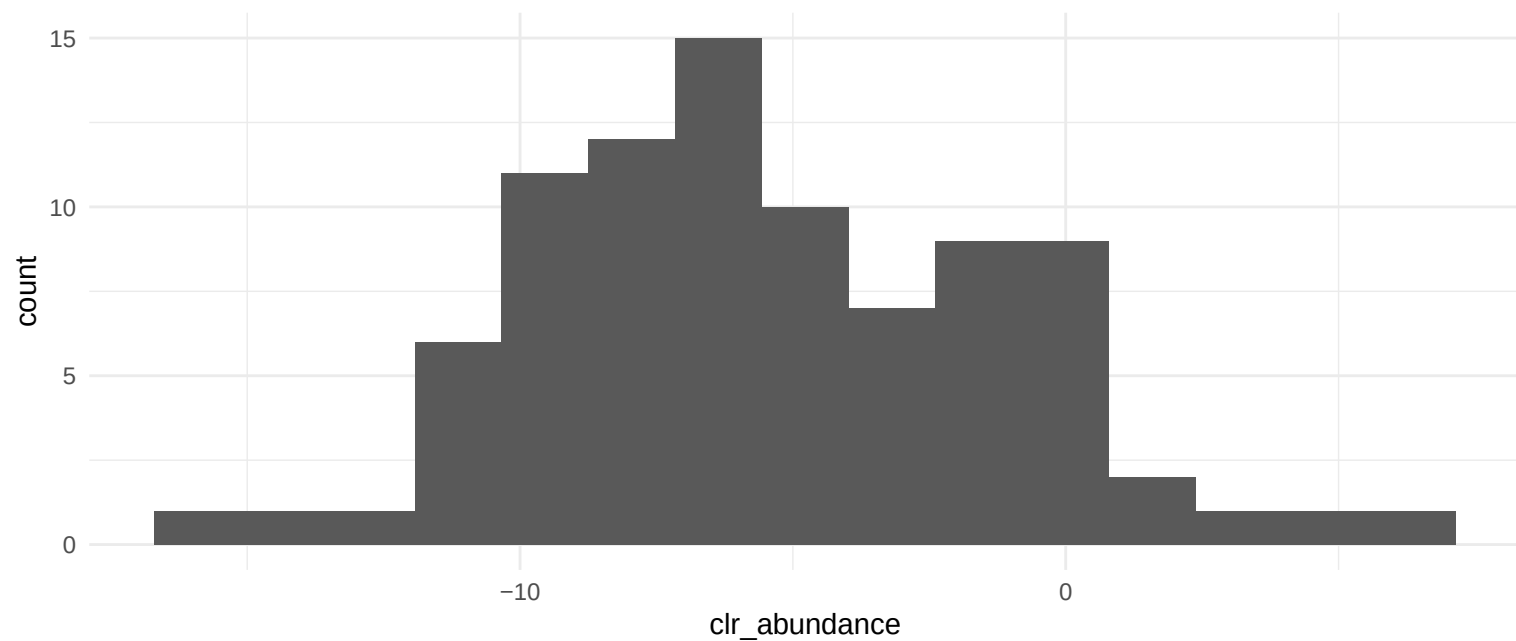

Distribution for 00905 Brassinosteroid biosynthesis

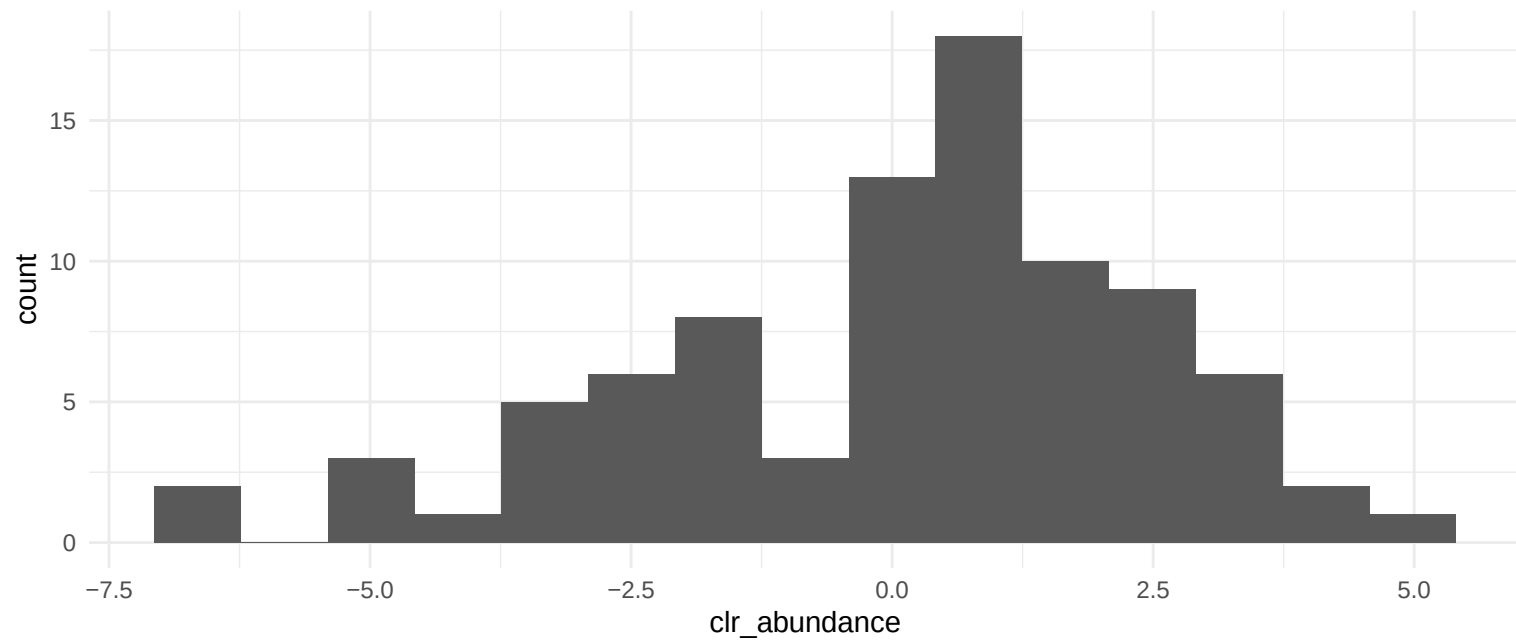

Distribution for 00906 Carotenoid biosynthesis

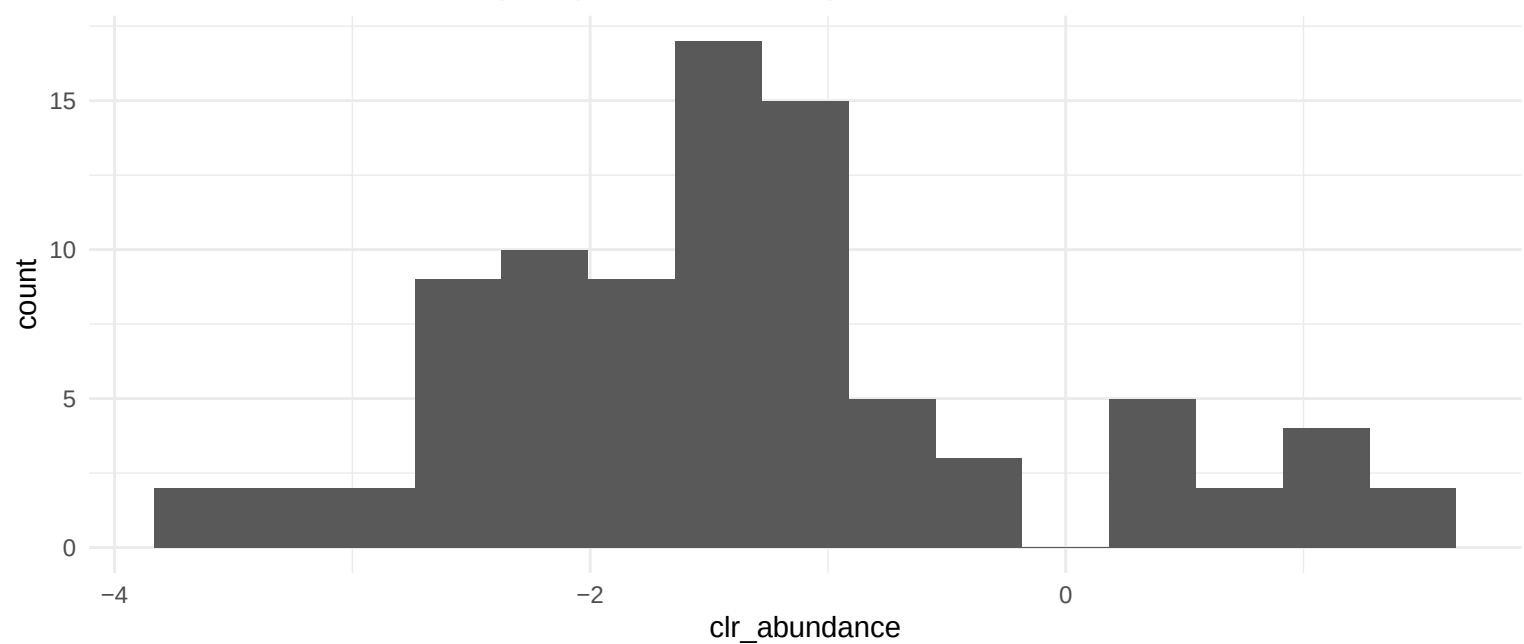

Distribution for 00907 Pinene, camphor and geraniol degradation

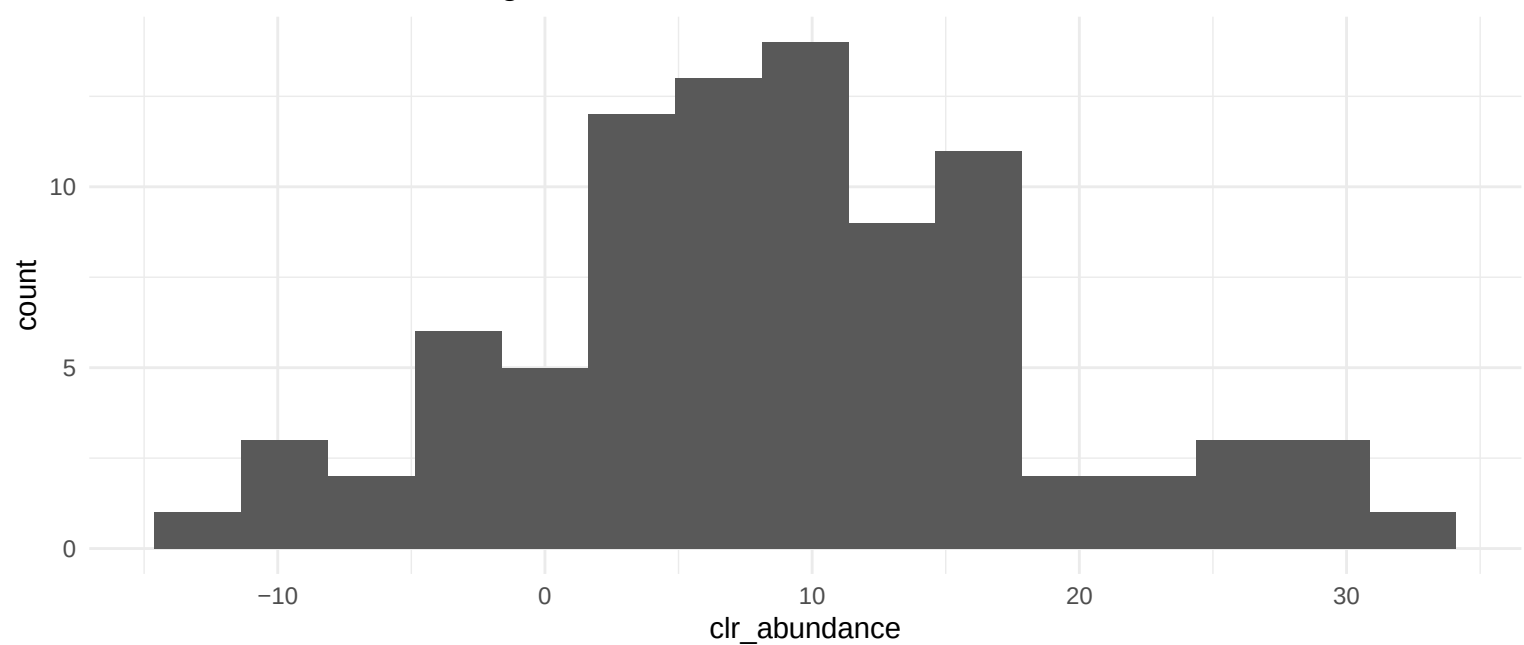

Distribution for 00908 Zeatin biosynthesis

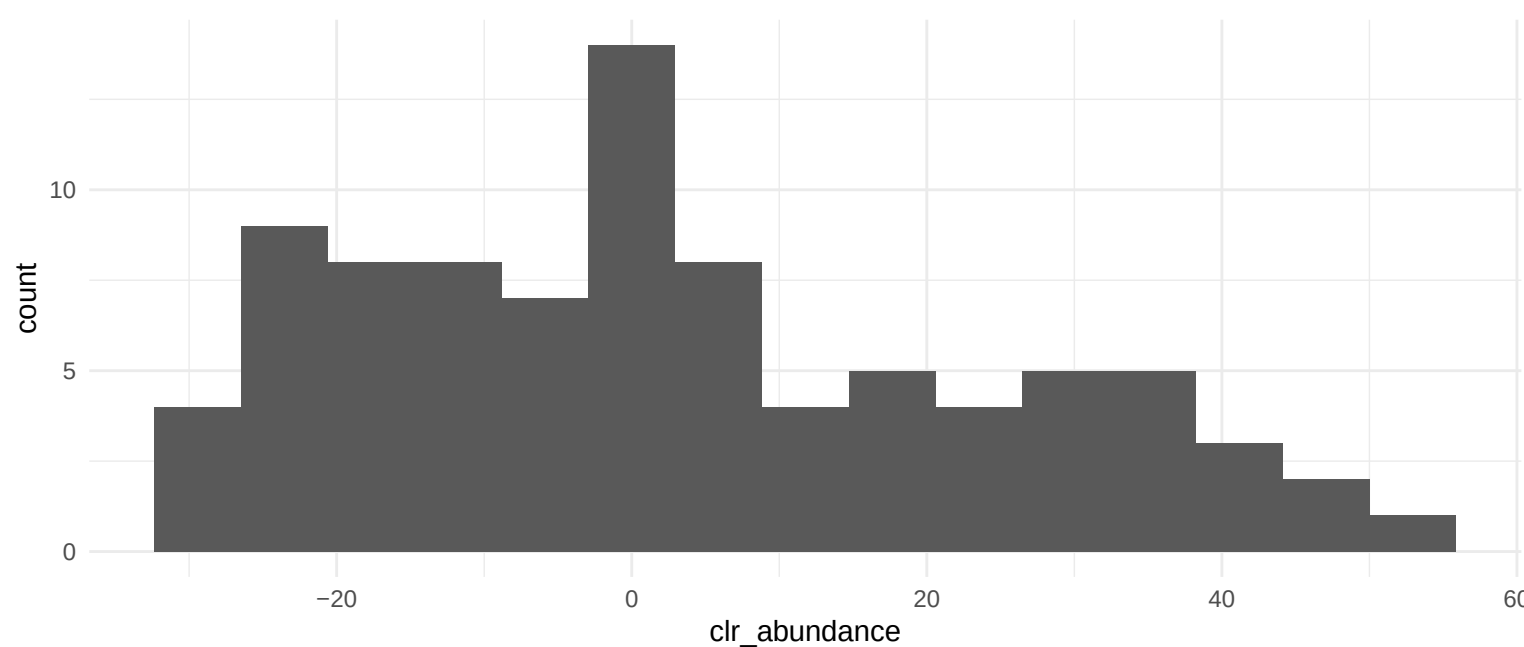

Distribution for 00909 Sesquiterpenoid and triterpenoid biosynthesis

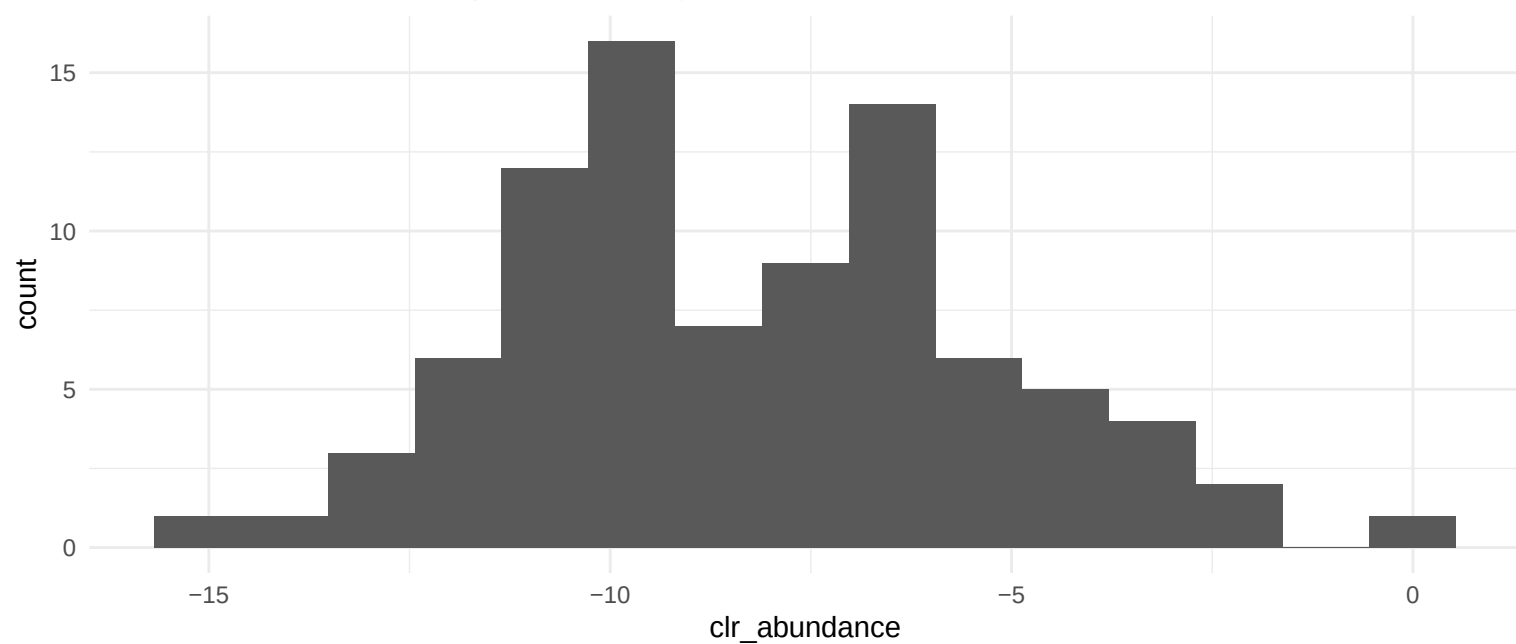

Distribution for 00910 Nitrogen metabolism

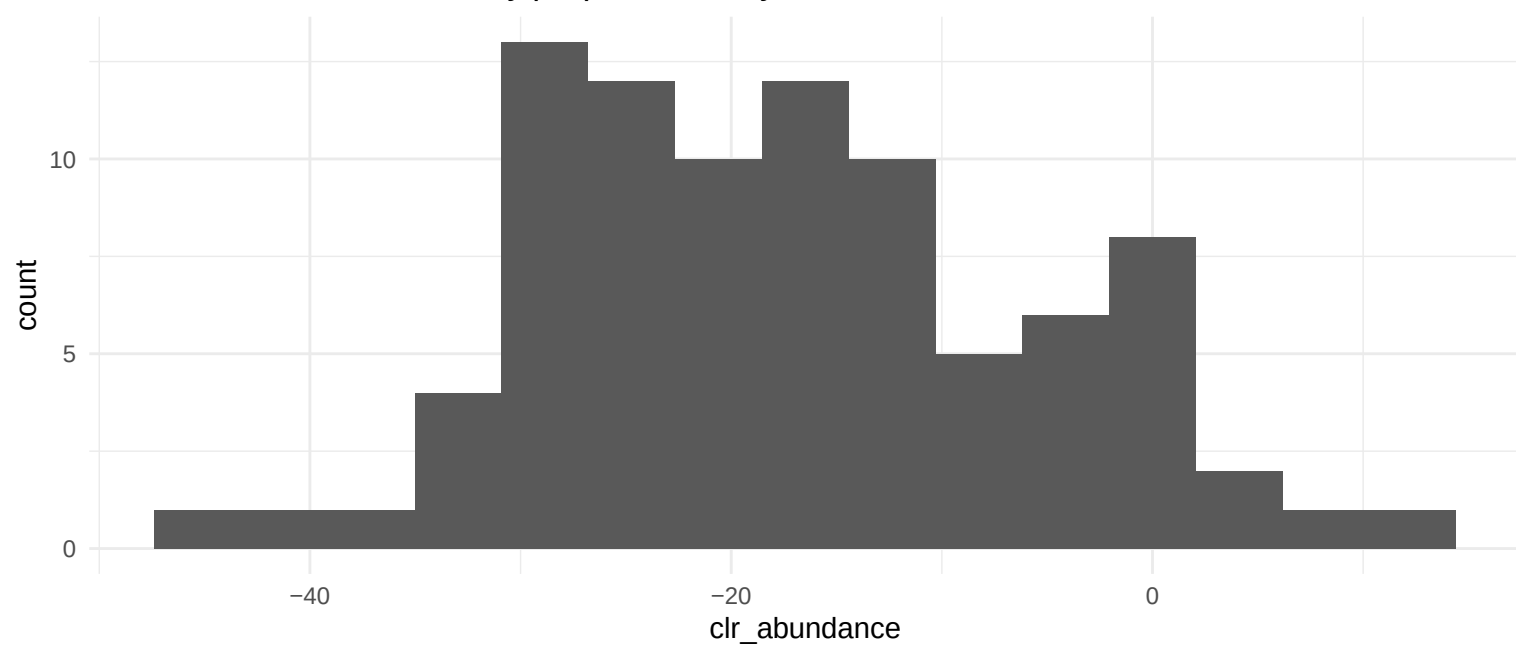

Distribution for 00920 Sulfur metabolism

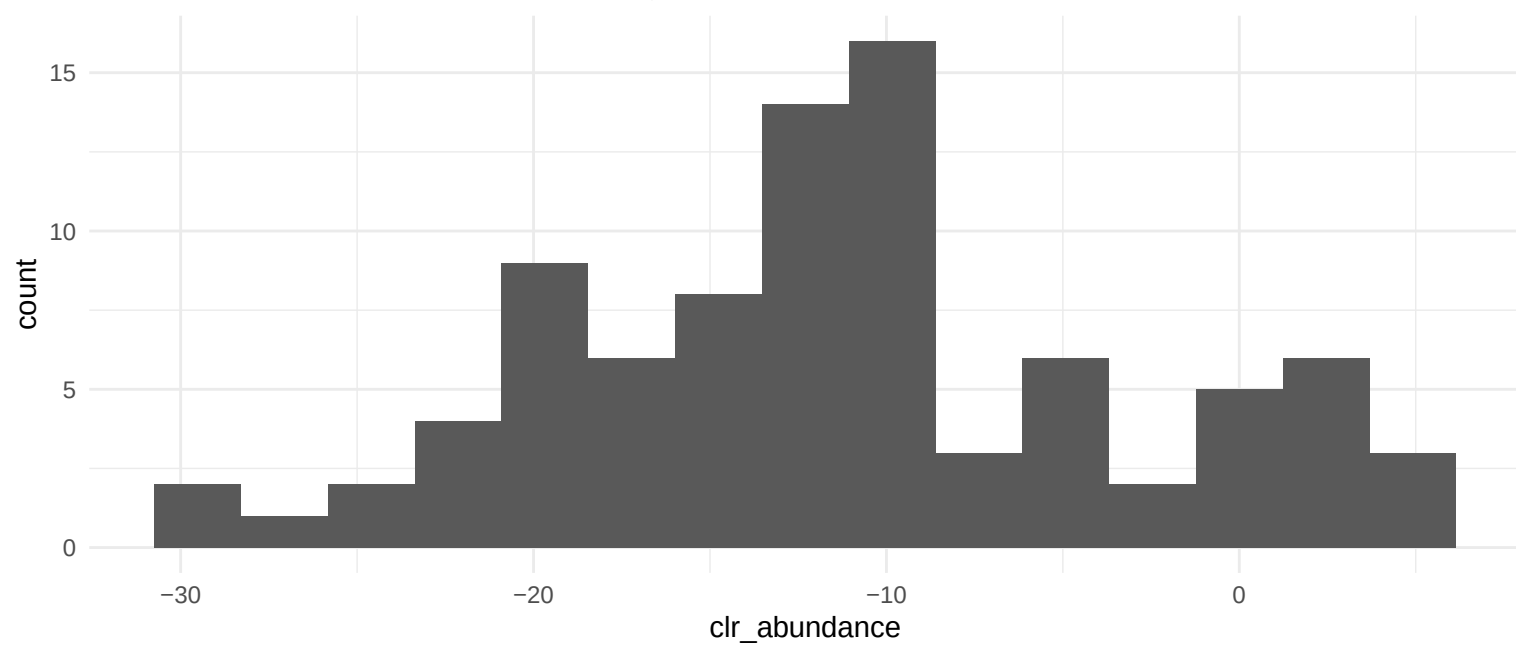

Distribution for 00930 Caprolactam degradation

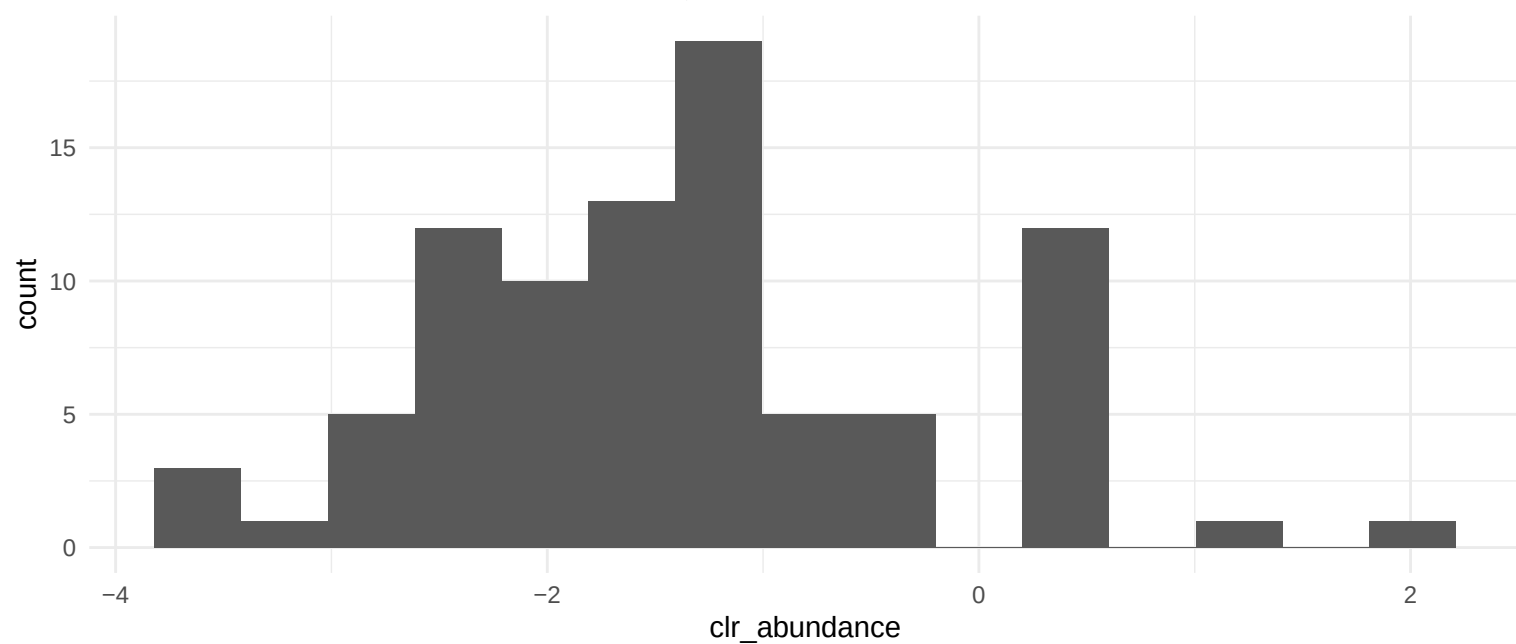

Distribution for 00940 Phenylpropanoid biosynthesis

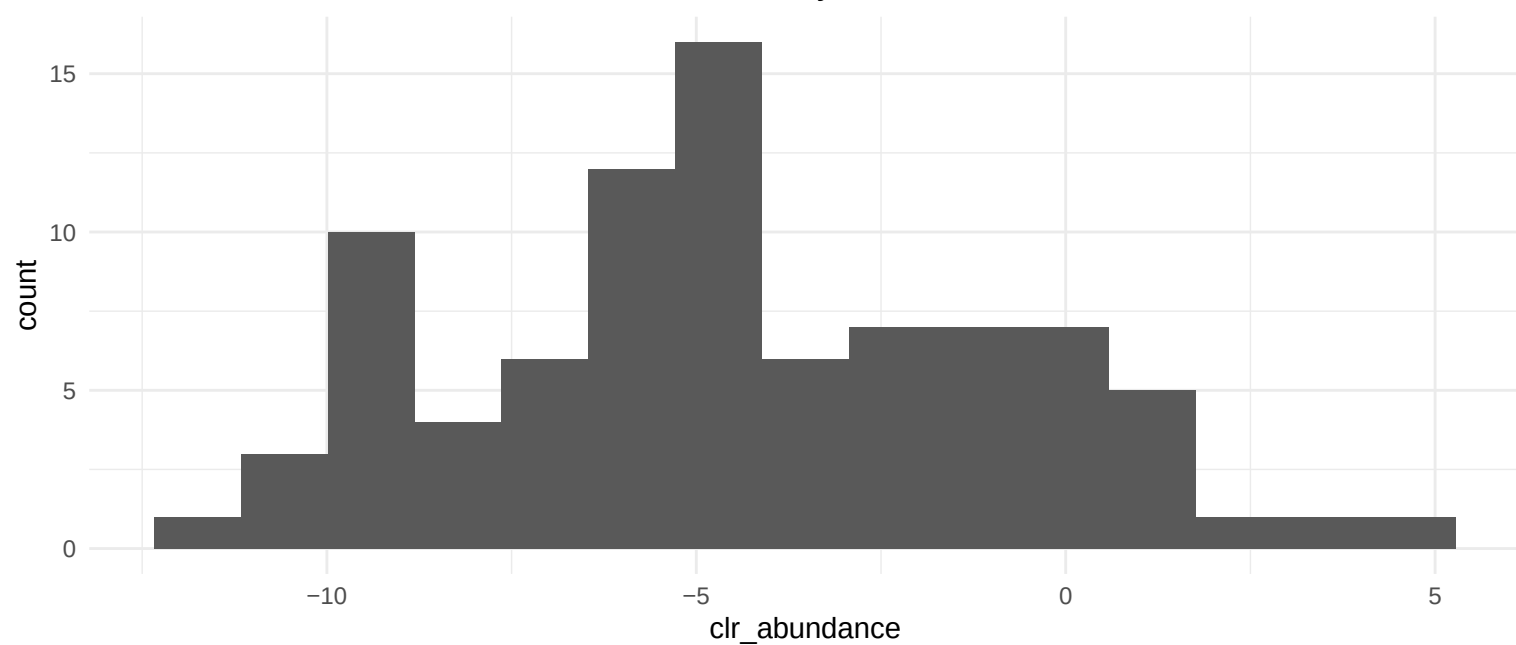

Distribution for 00941 Flavonoid biosynthesis

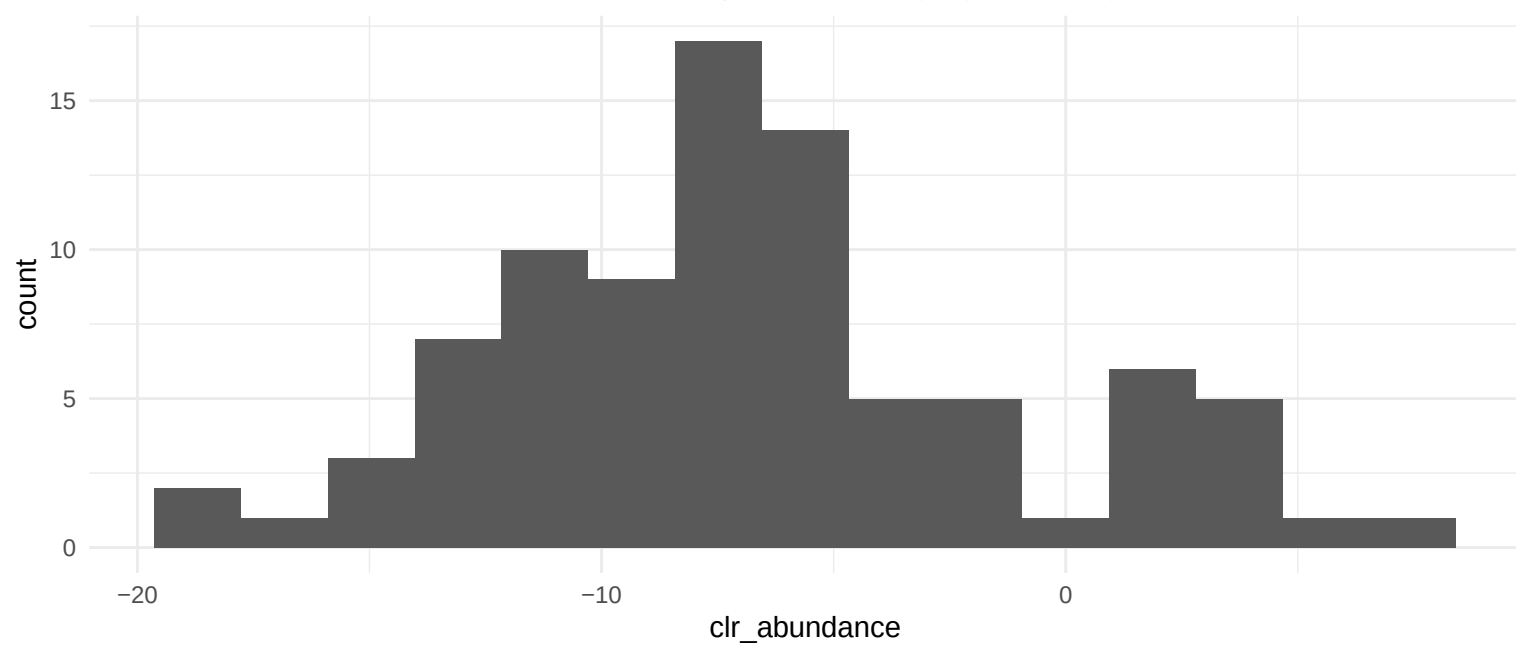

Distribution for 00943 Isoflavonoid biosynthesis

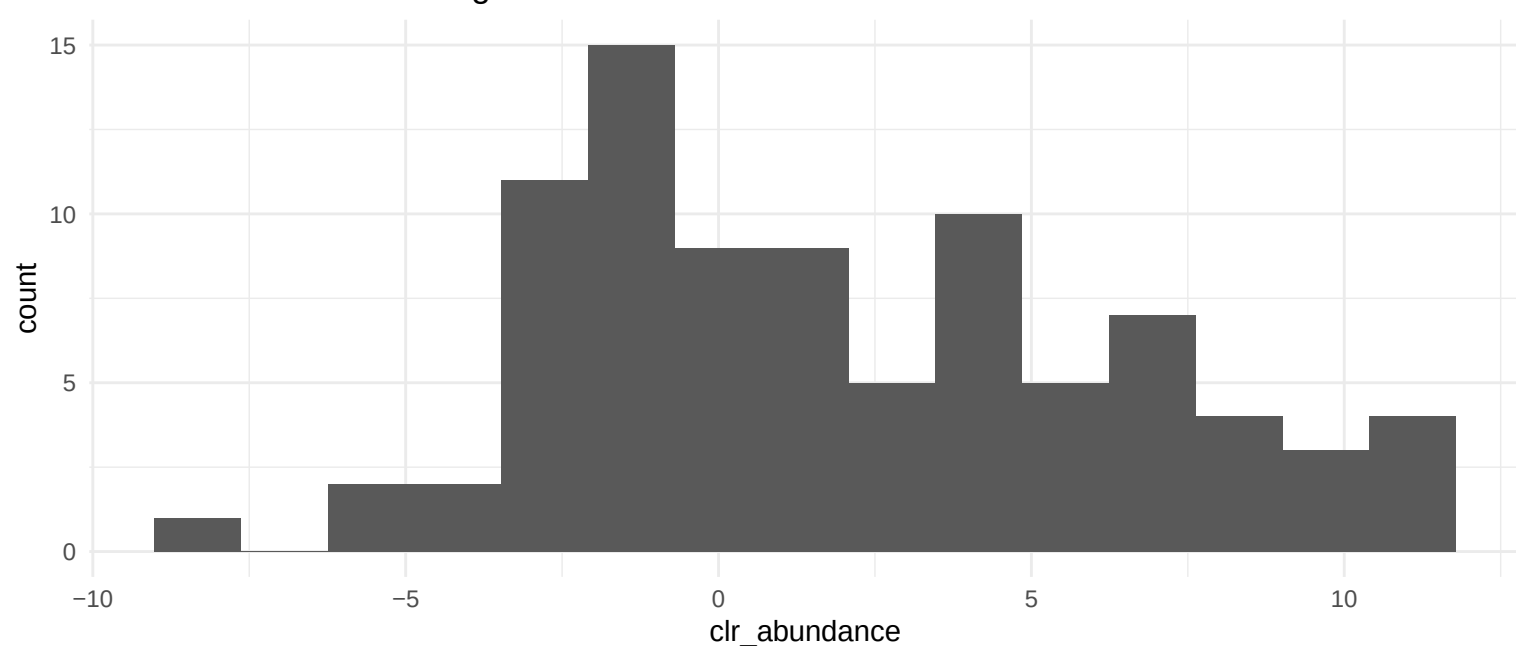

Distribution for 00944 Flavone and flavonol biosynthesis

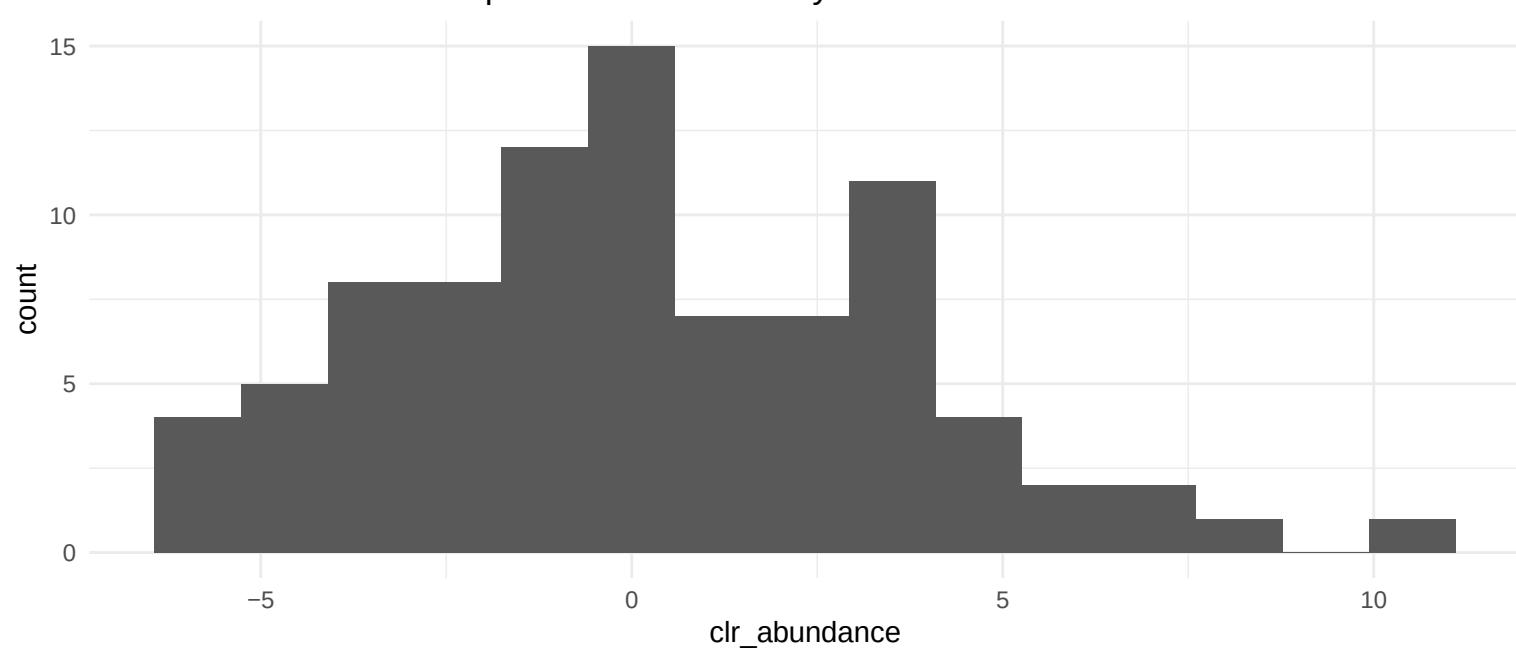

Distribution for 00945 Stilbenoid, diarylheptanoid and gingerol biosynthesis

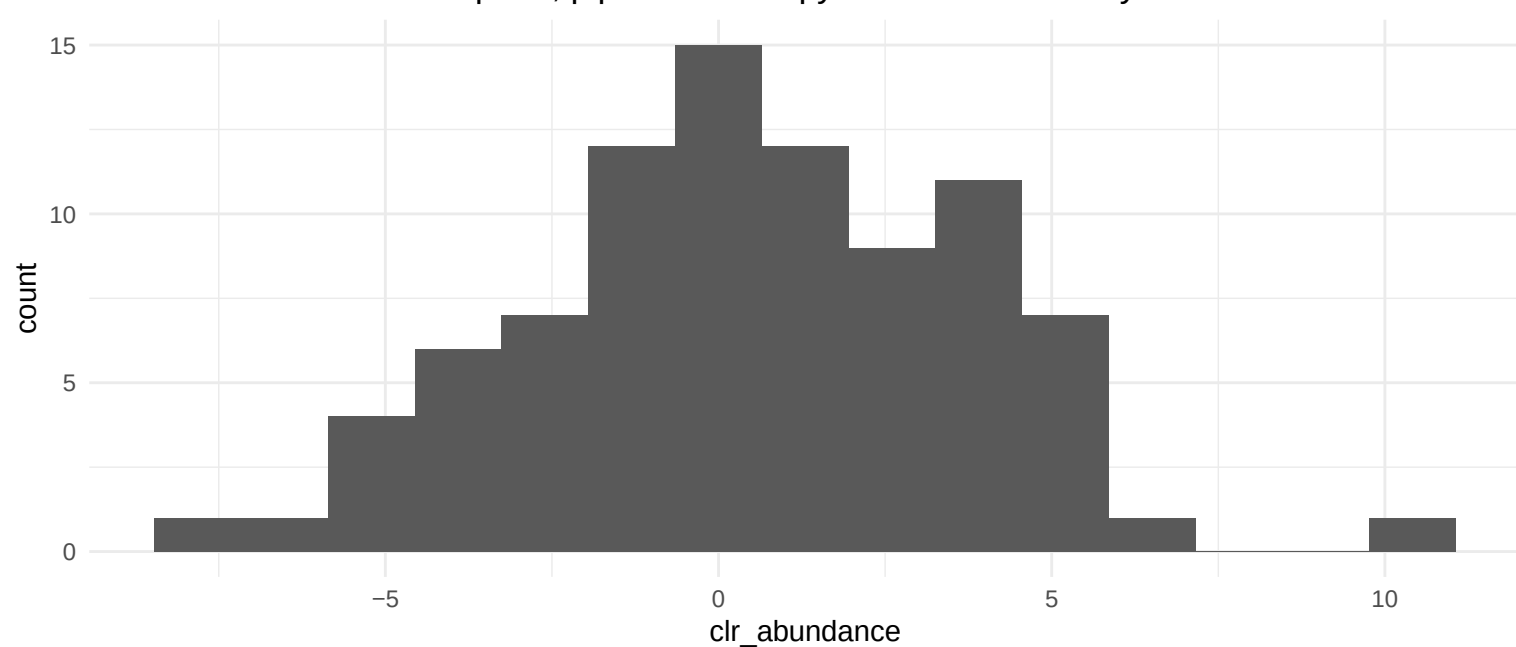

Distribution for 00946 Degradation of flavonoids

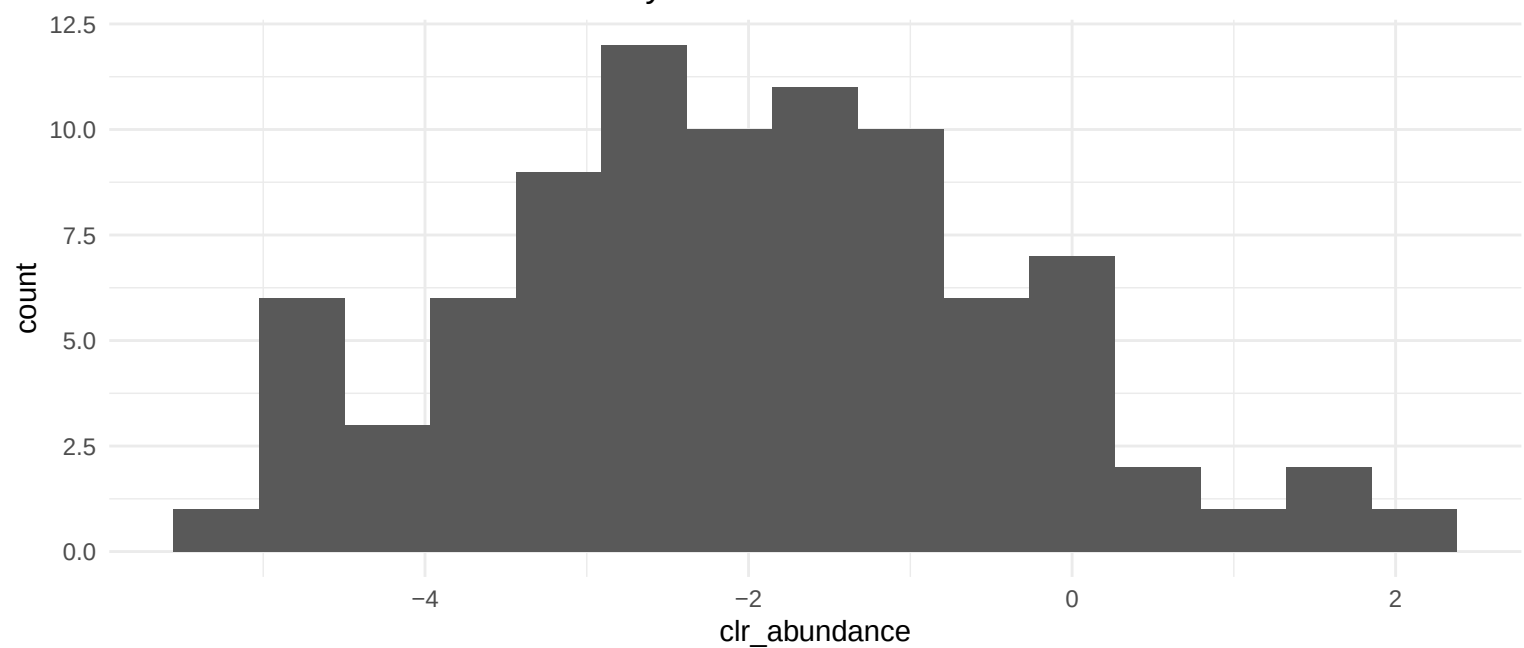

Distribution for 00950 Isoquinoline alkaloid biosynthesis

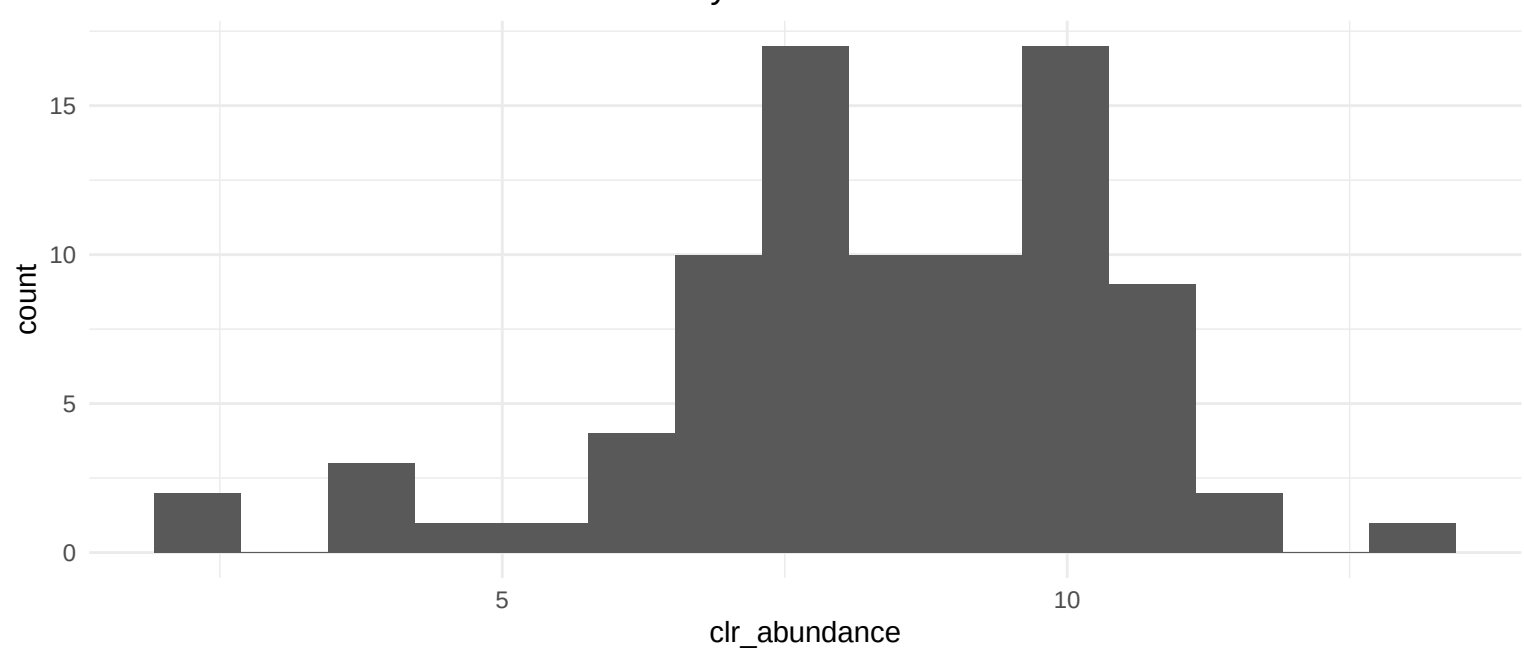

Distribution for 00960 Tropane, piperidine and pyridine alkaloid biosynthesis

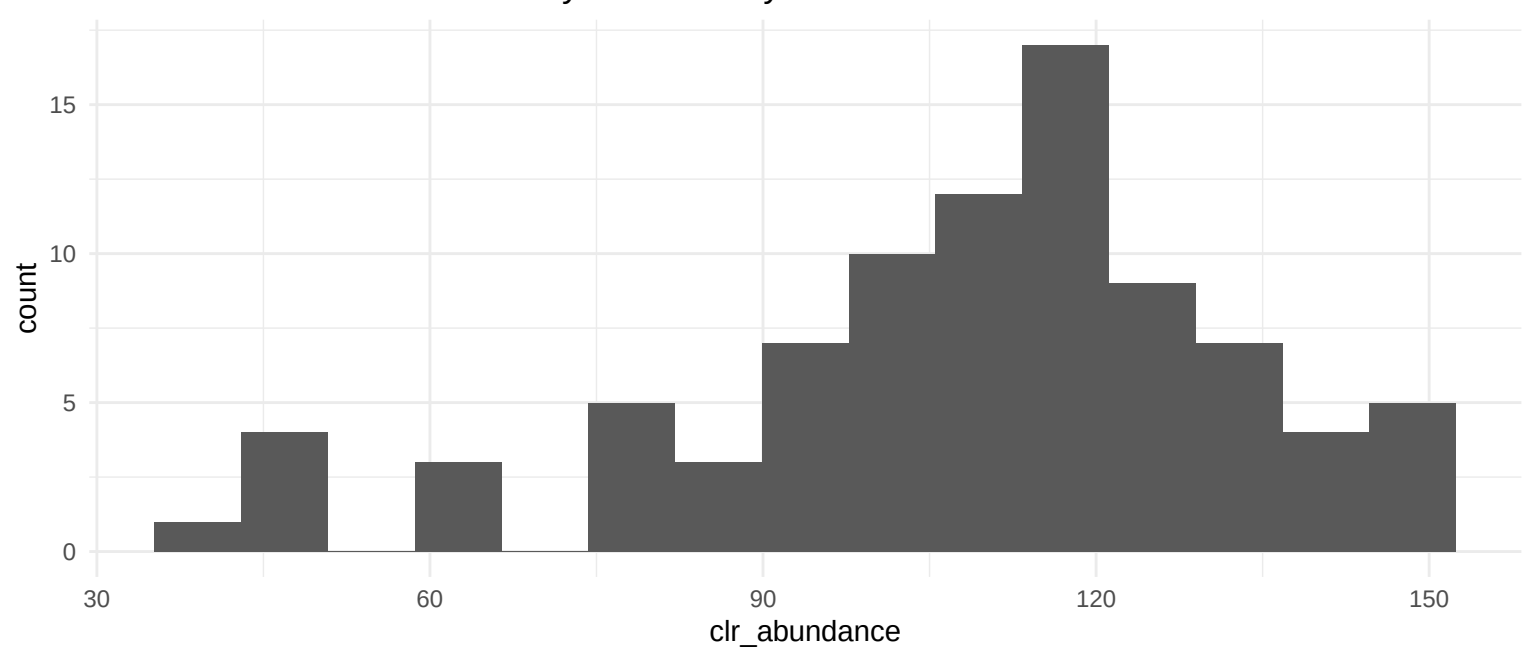

Distribution for 00965 Betalain biosynthesis

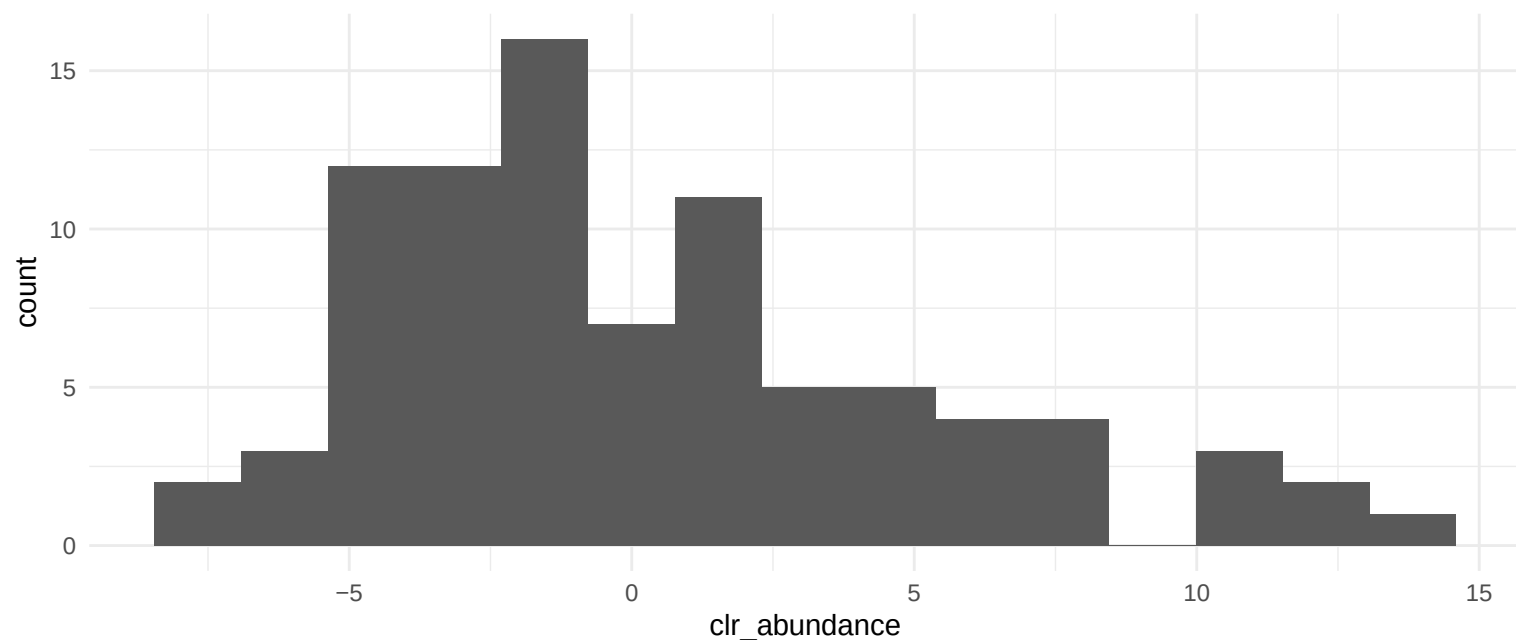

Distribution for 00966 Glucosinolate biosynthesis

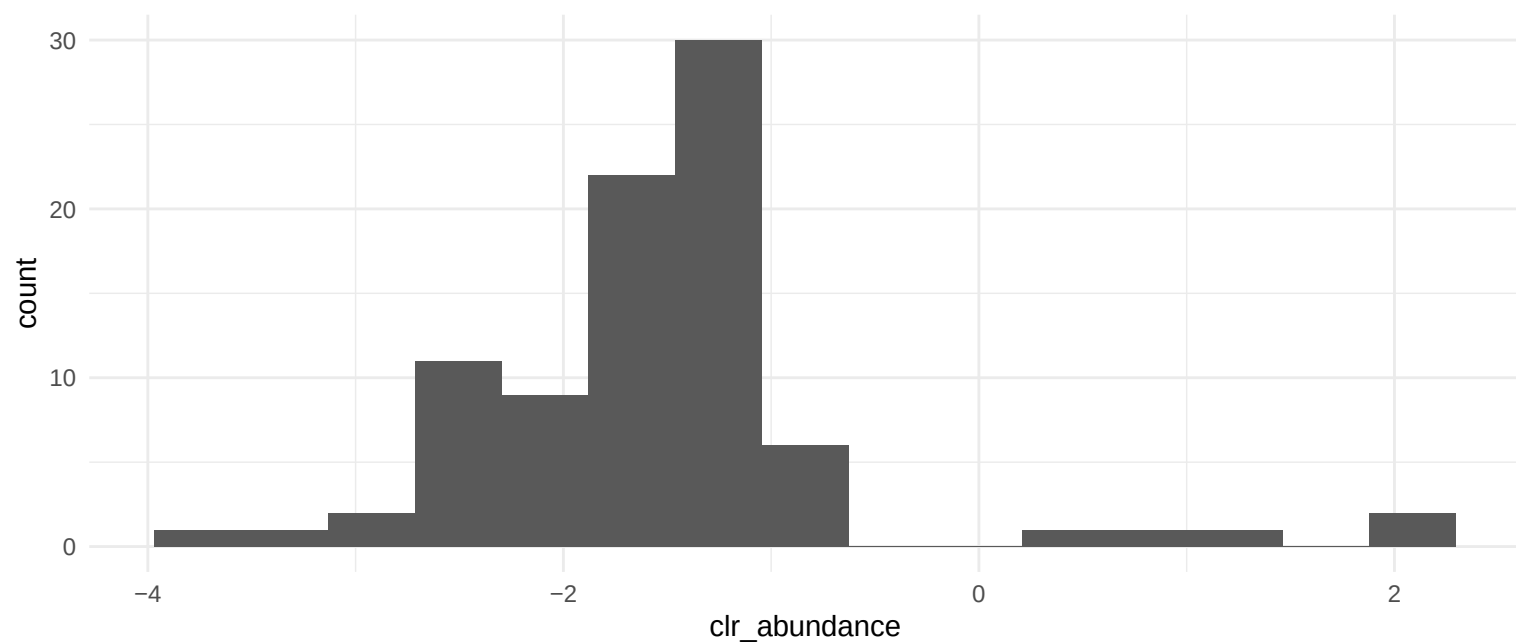

Distribution for 00970 Aminoacyl-tRNA biosynthesis

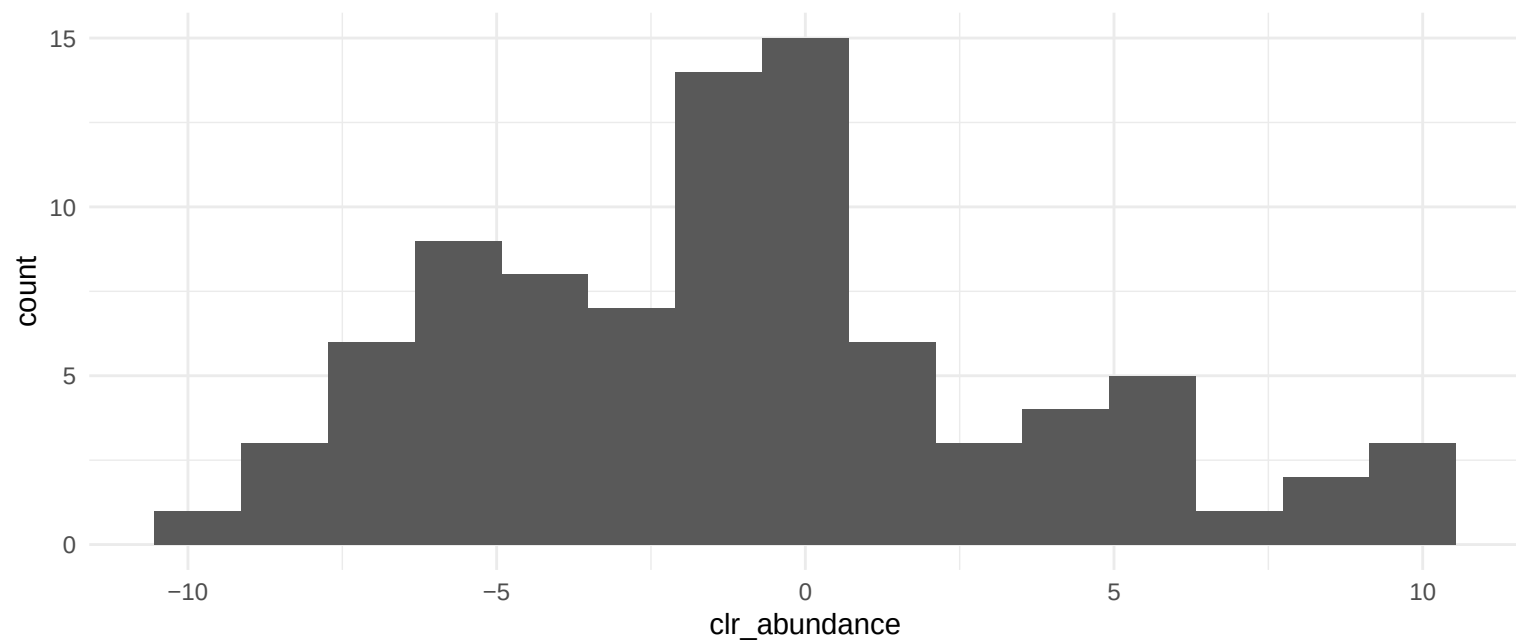

Distribution for 00980 Metabolism of xenobiotics by cytochrome P450

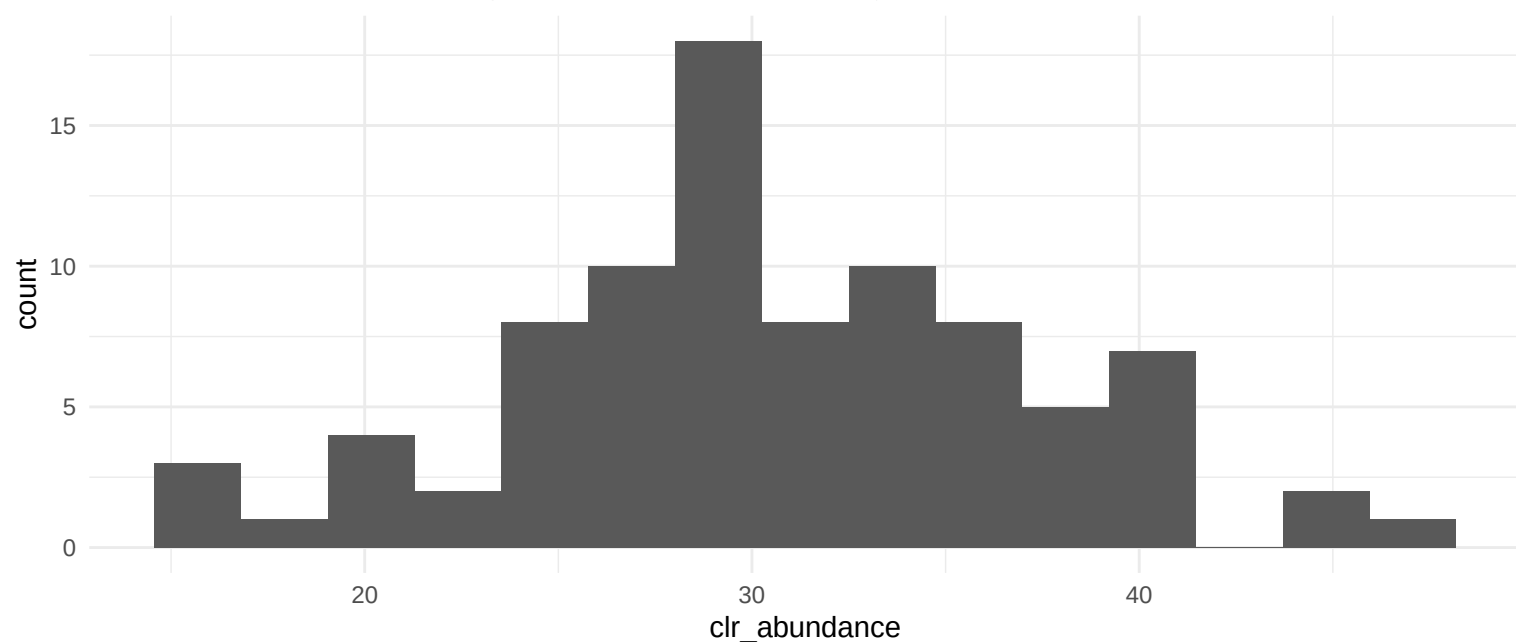

Distribution for 00981 Insect hormone biosynthesis

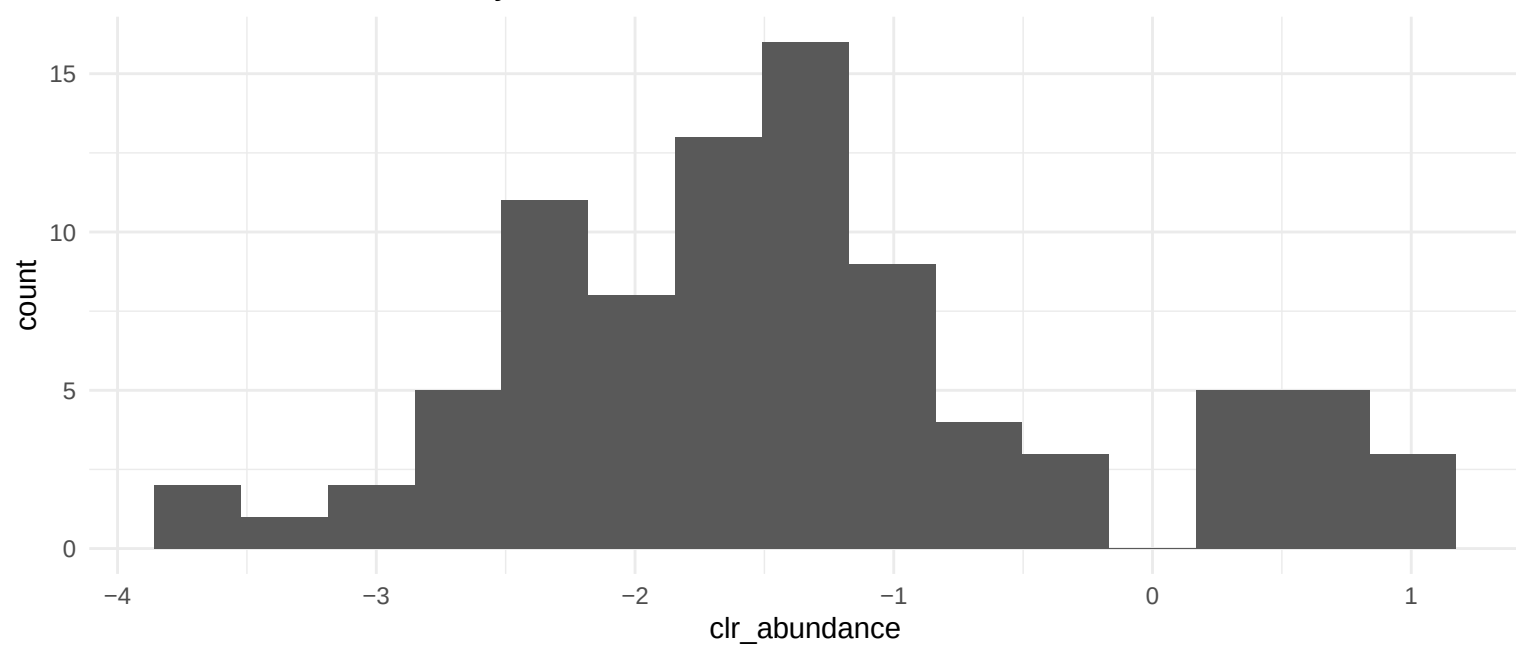

Distribution for 00982 Drug metabolism – cytochrome P450

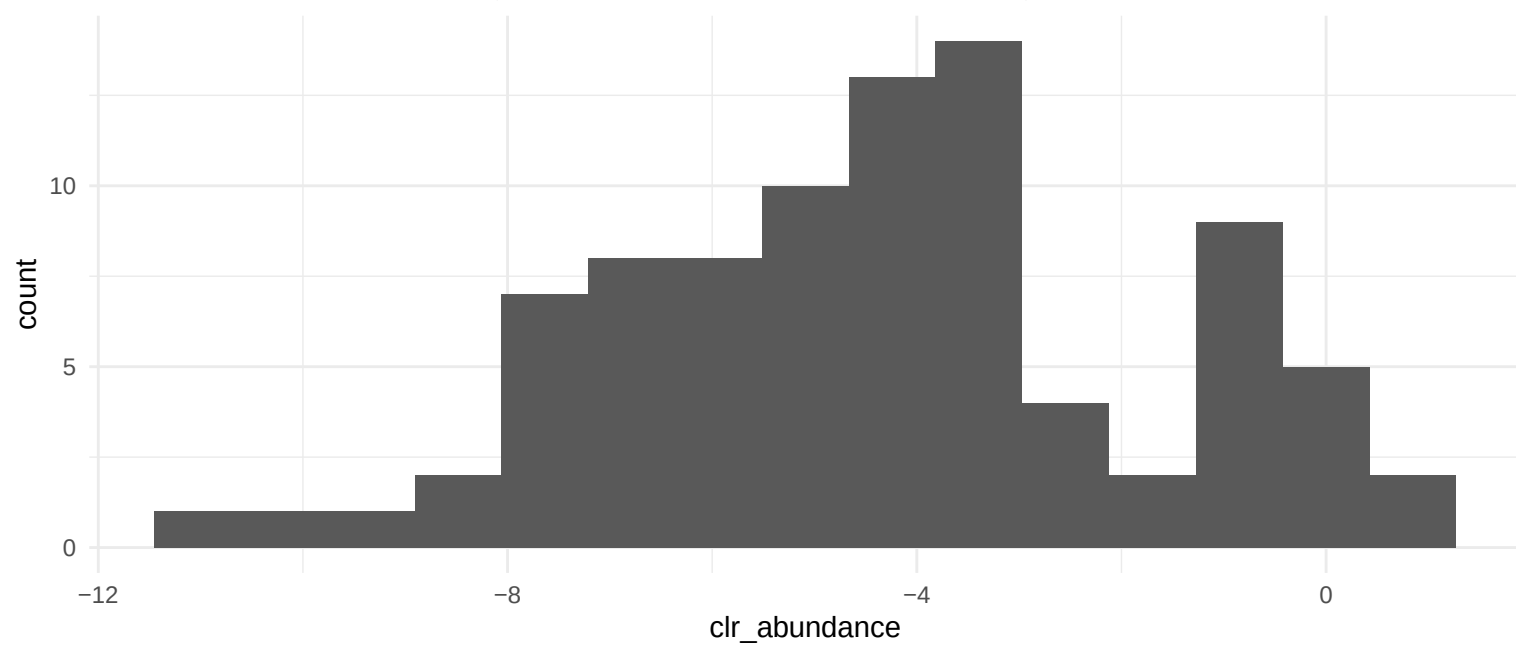

Distribution for 00983 Drug metabolism – other enzymes

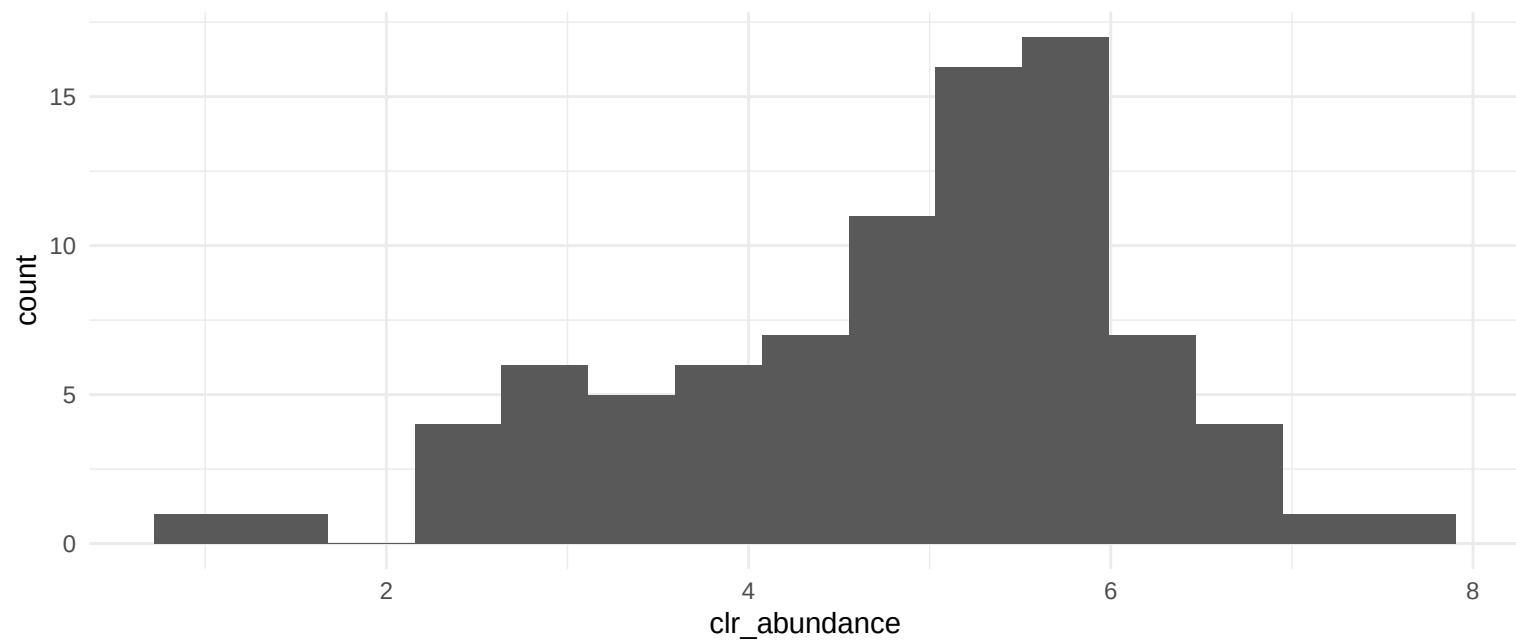

Distribution for 00996 Biosynthesis of various alkaloids

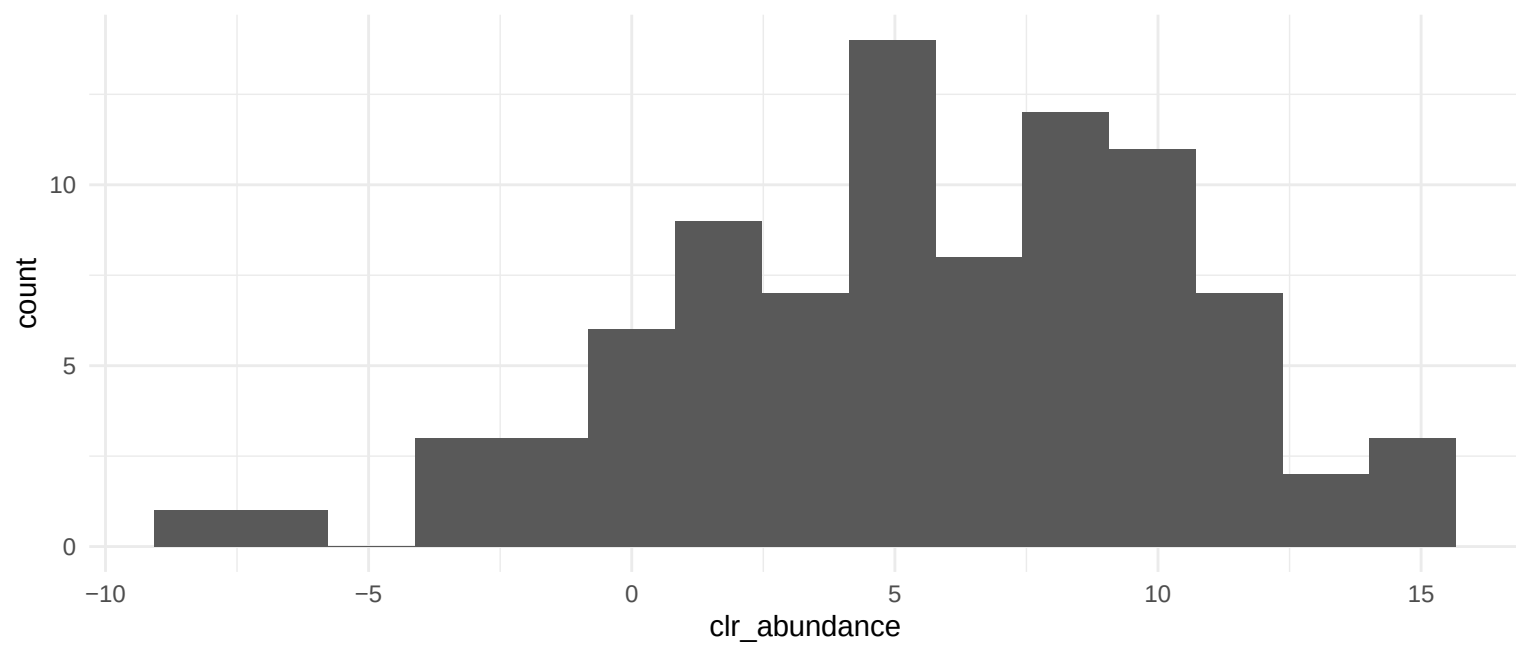

Distribution for 00997 Biosynthesis of various other secondary metabolites

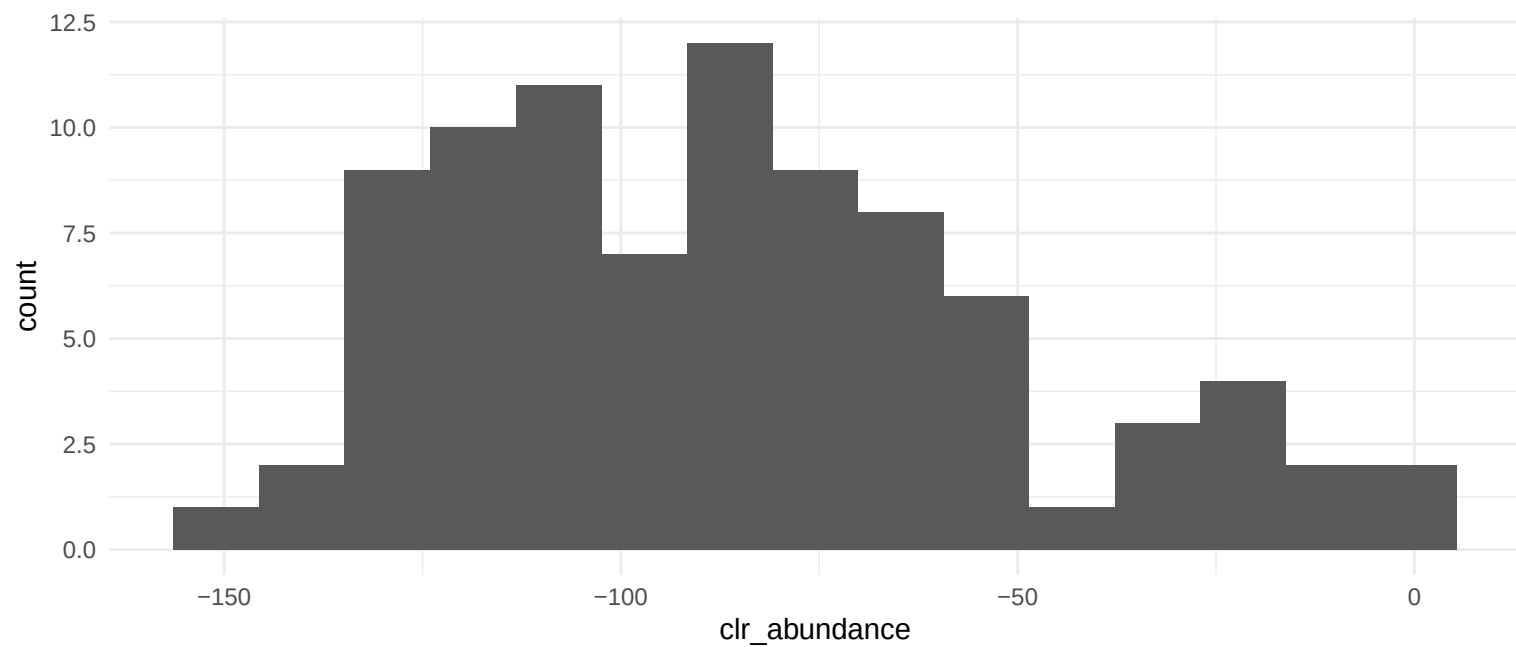

Distribution for 00998 Biosynthesis of various antibiotics

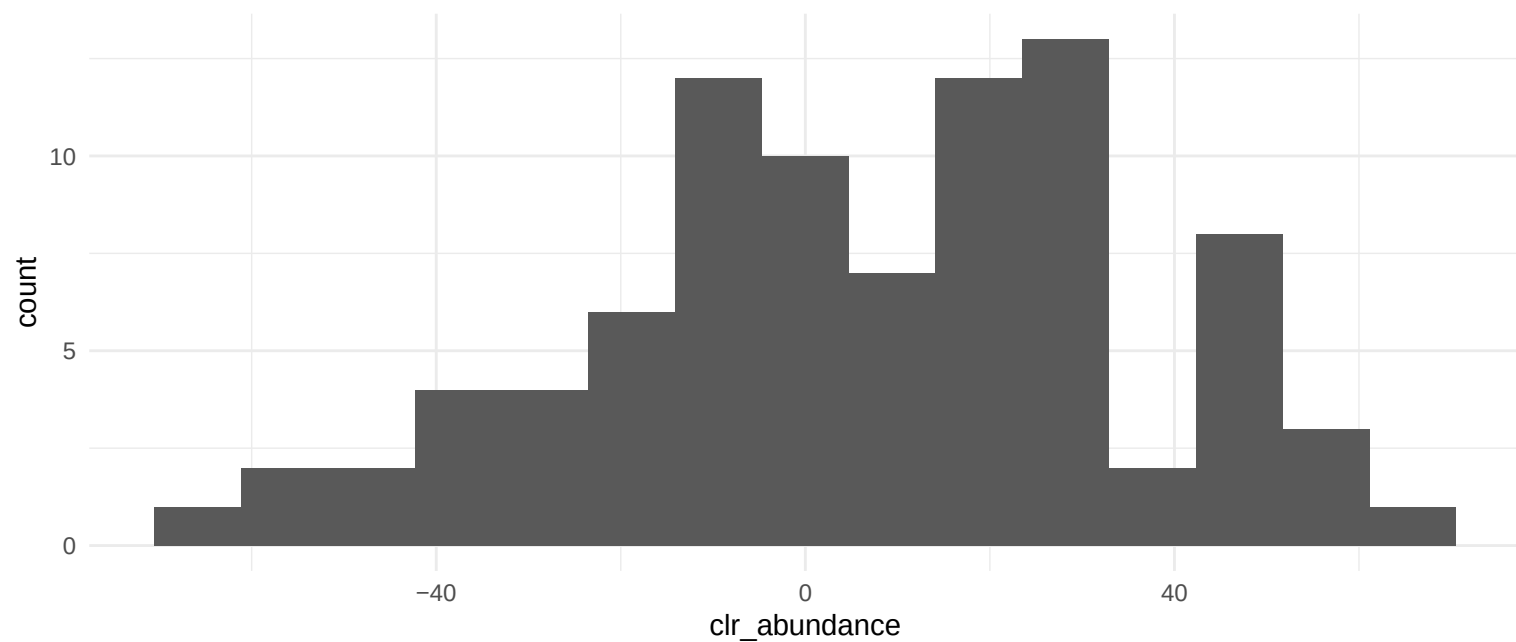

Distribution for 00999 Biosynthesis of various plant secondary metabolites

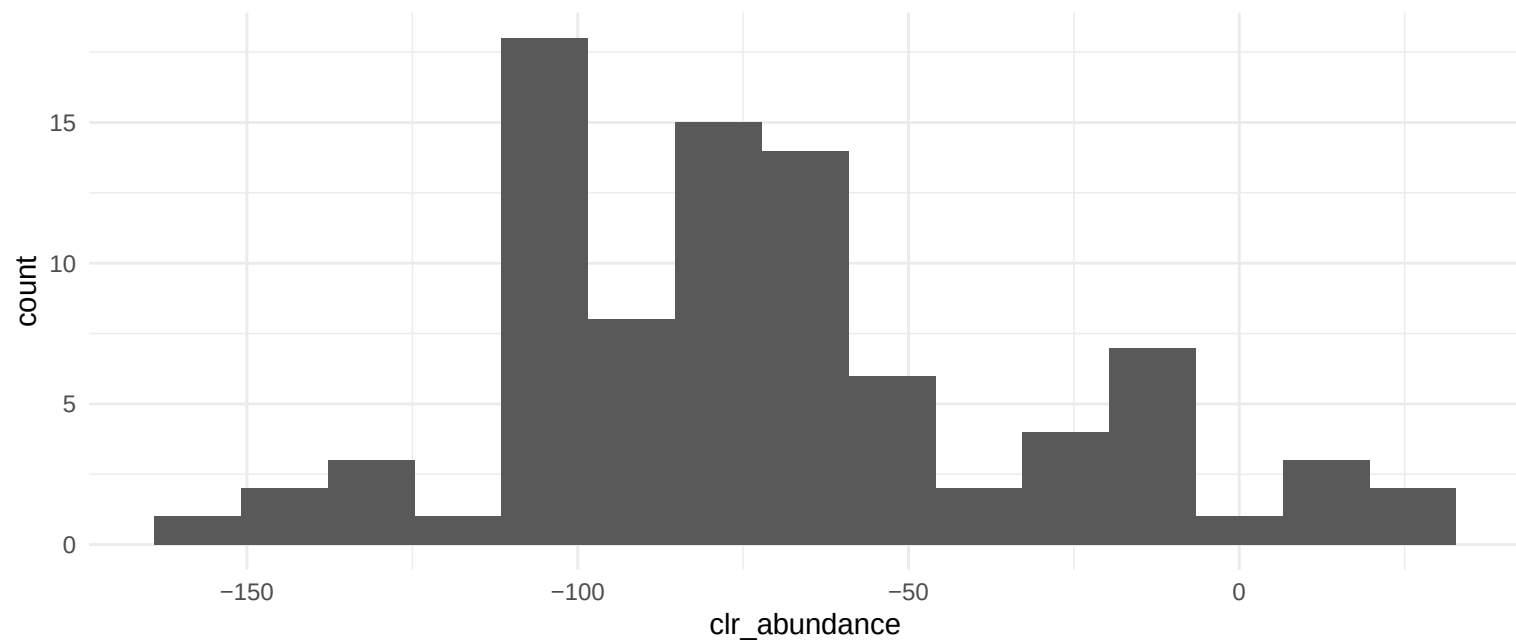

Distribution for 01001 Protein kinases

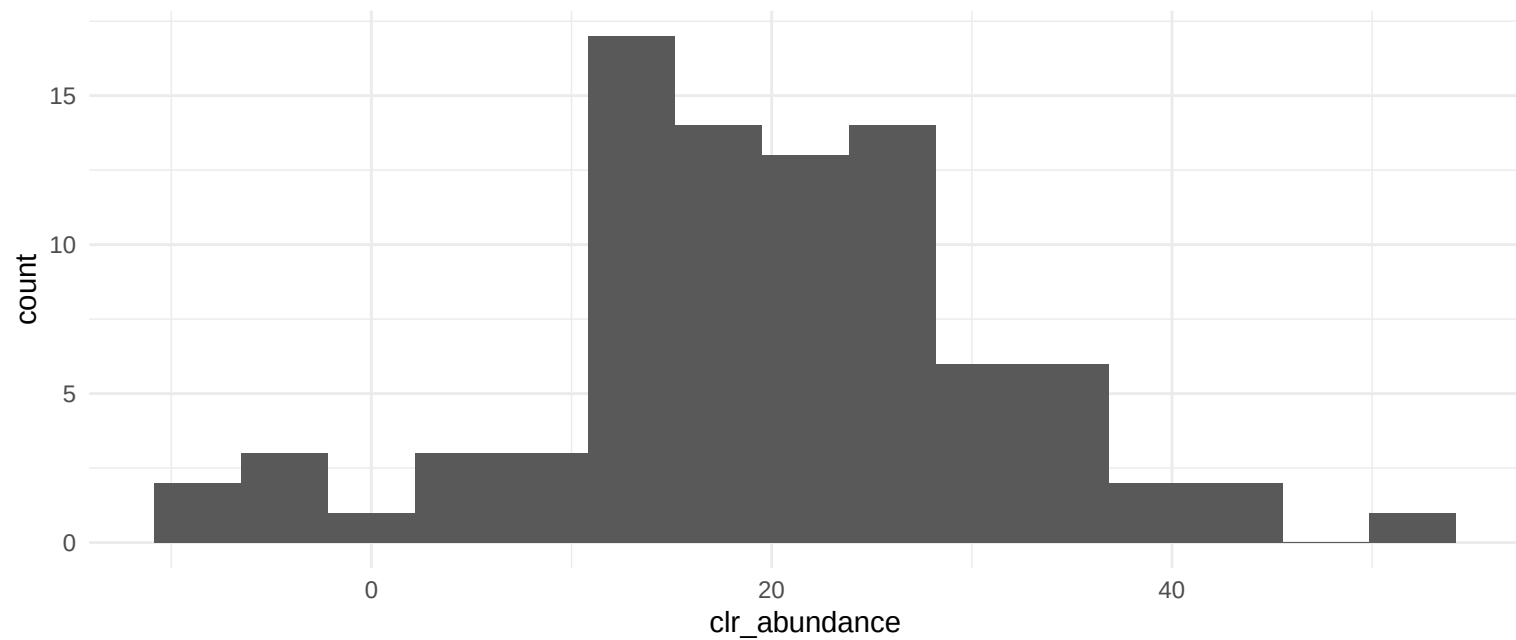

Distribution for 01002 Peptidases and inhibitors

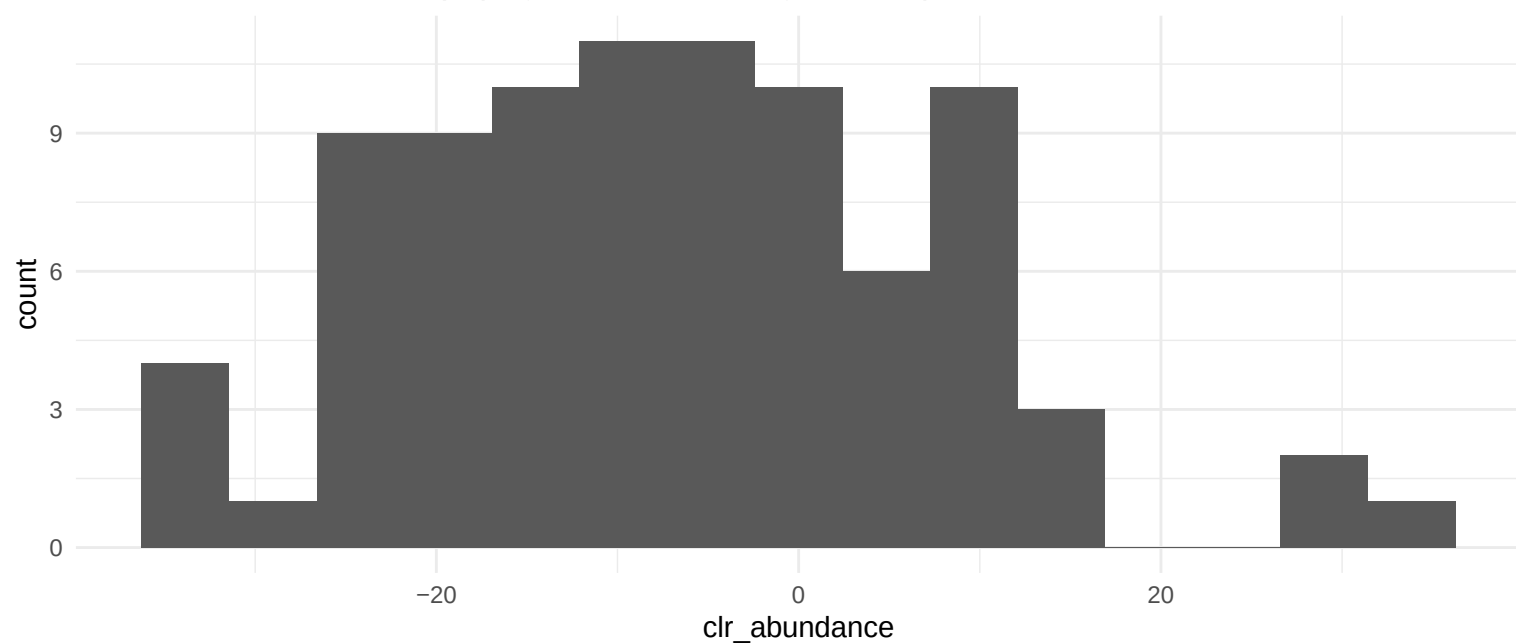

Distribution for 01003 Glycosyltransferases

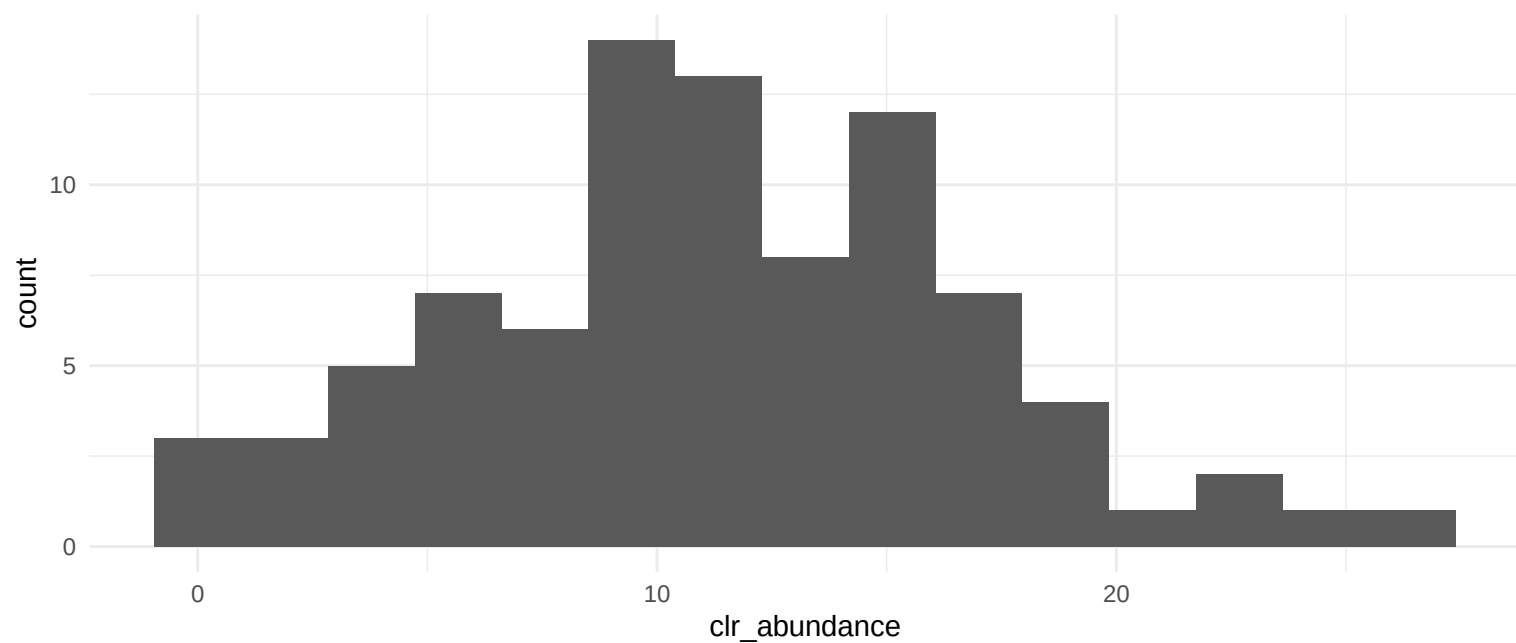

Distribution for 01004 Lipid biosynthesis proteins

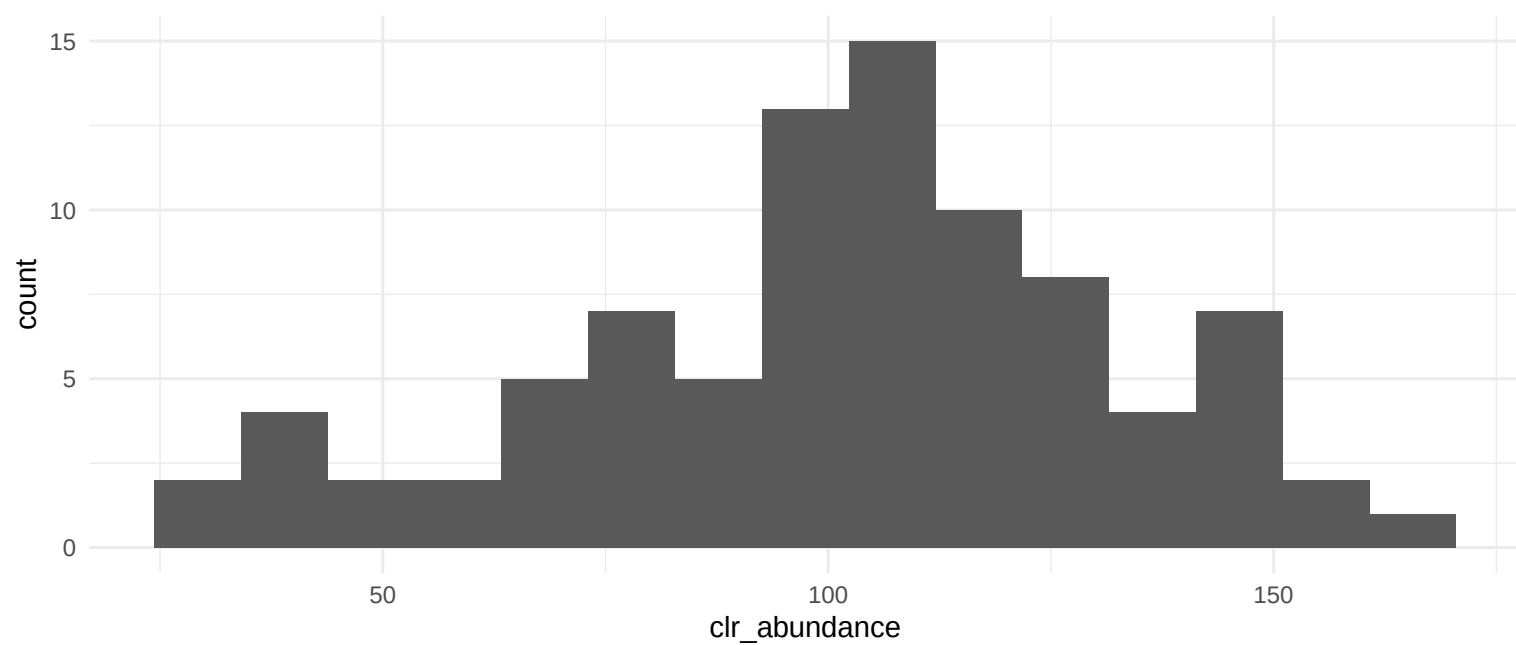

Distribution for 01005 Lipopolysaccharide biosynthesis proteins

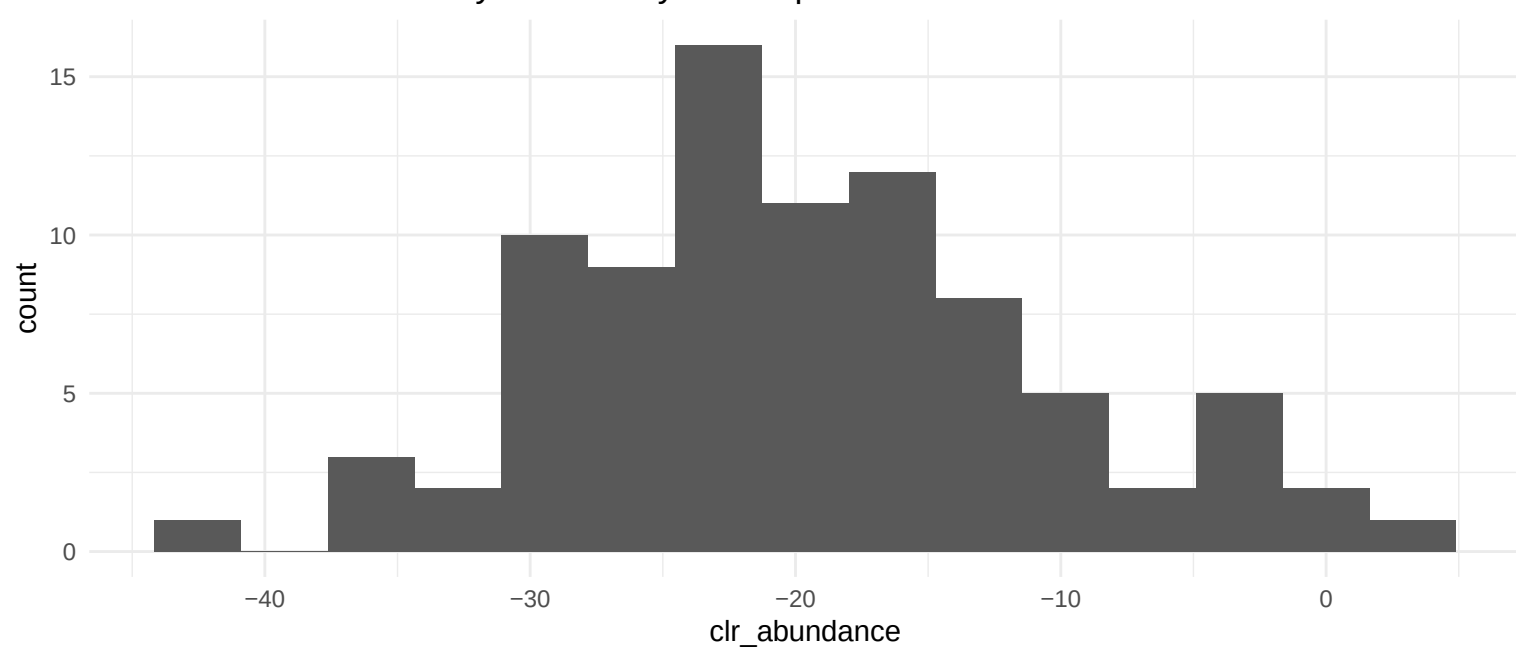

Distribution for 01006 Prenyltransferases

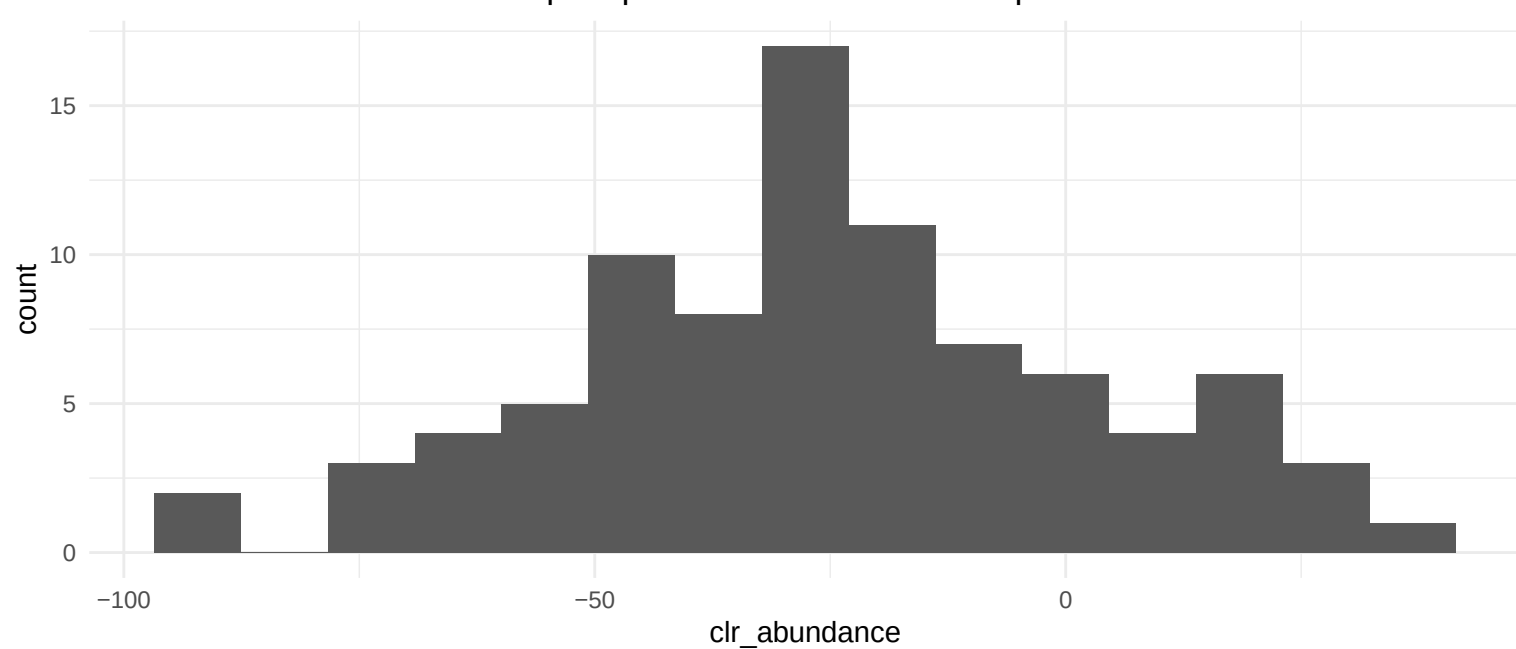

Distribution for 01007 Amino acid related enzymes

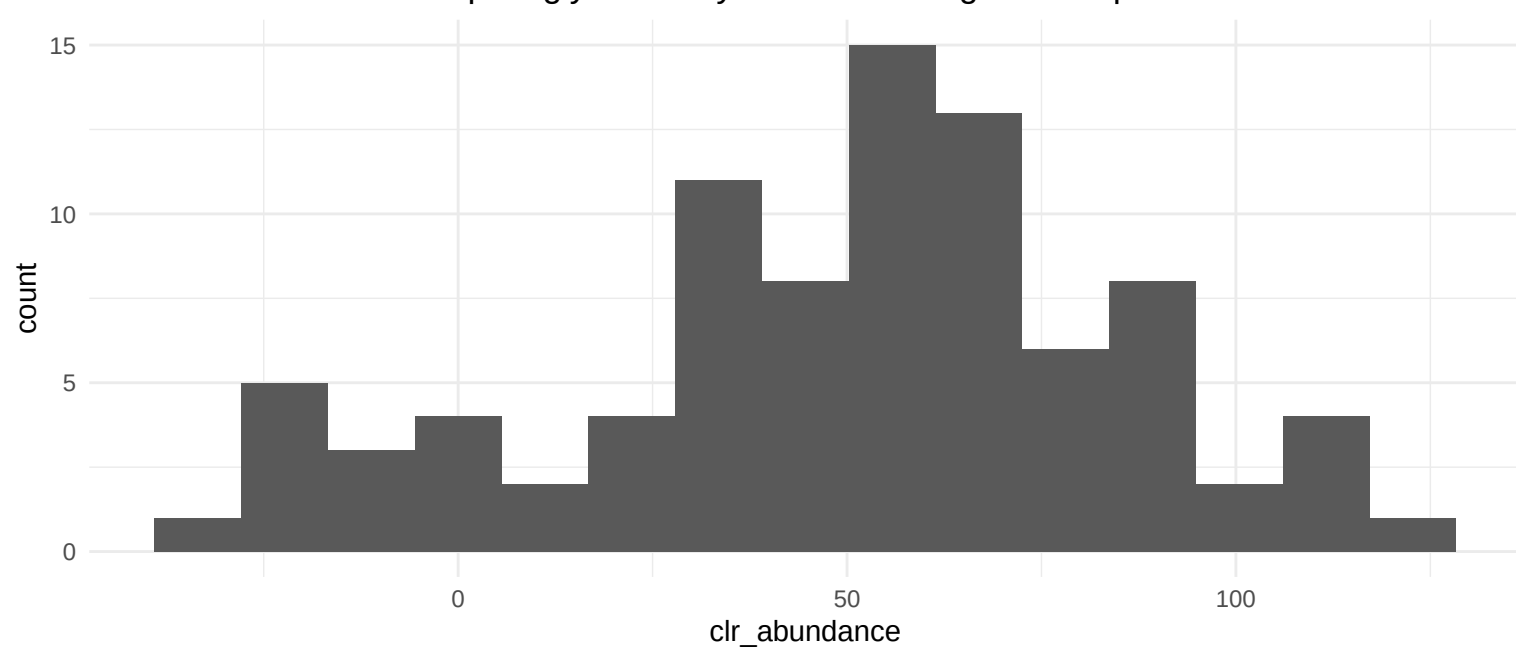

Distribution for 01008 Polyketide biosynthesis proteins

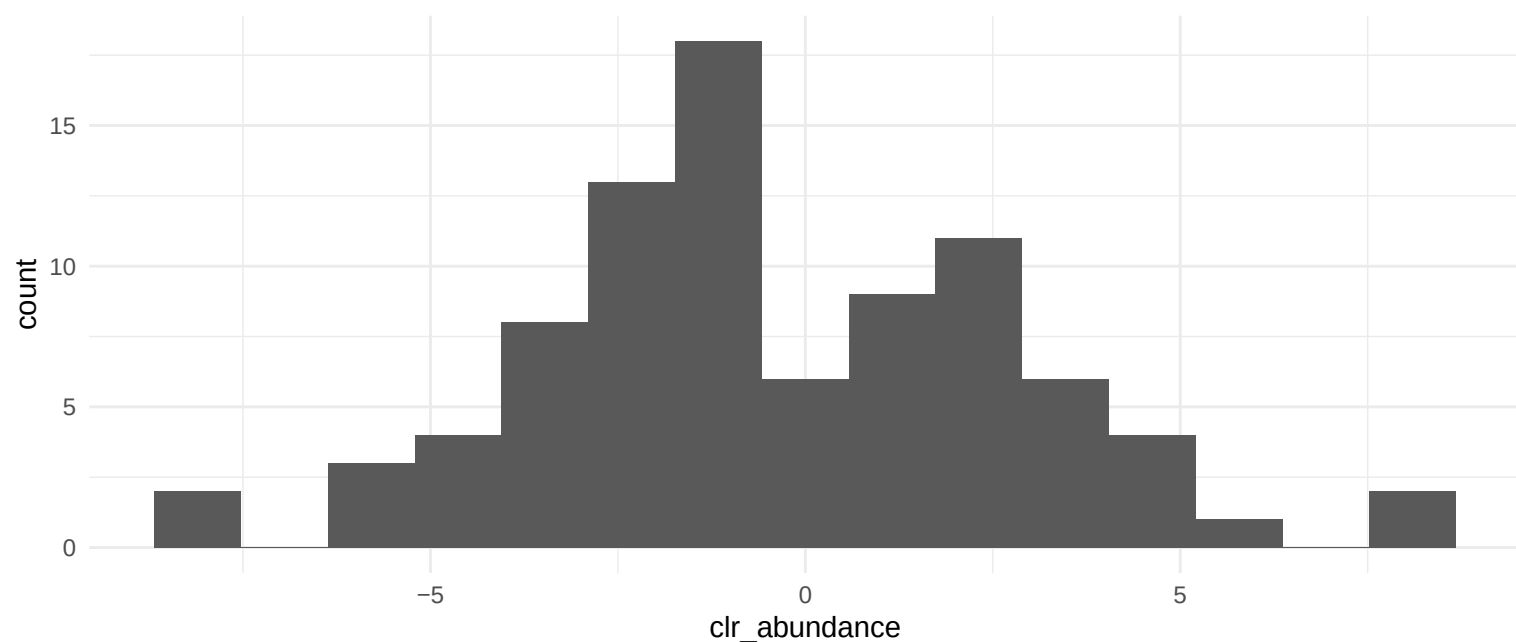

Distribution for 01009 Protein phosphatases and associated proteins

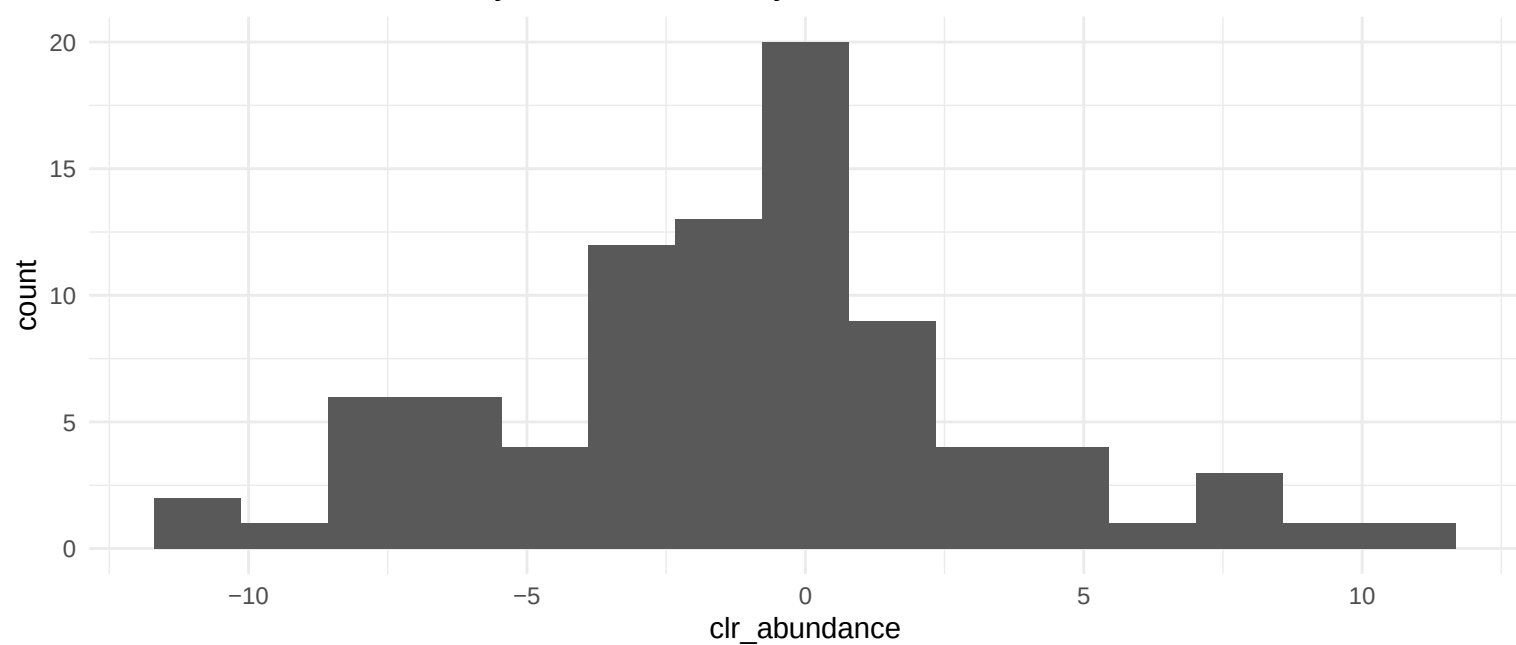

Distribution for 01011 Peptidoglycan biosynthesis and degradation proteins

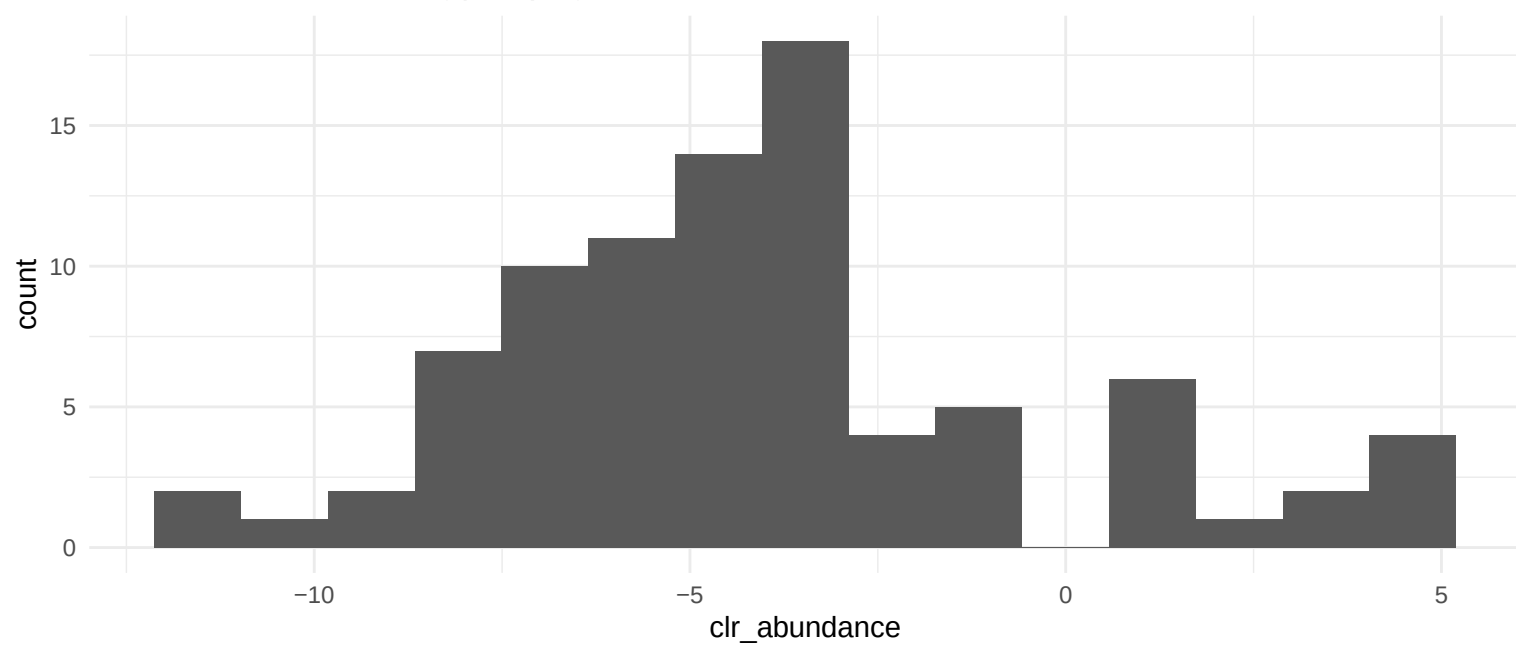

Distribution for 01040 Biosynthesis of unsaturated fatty acids

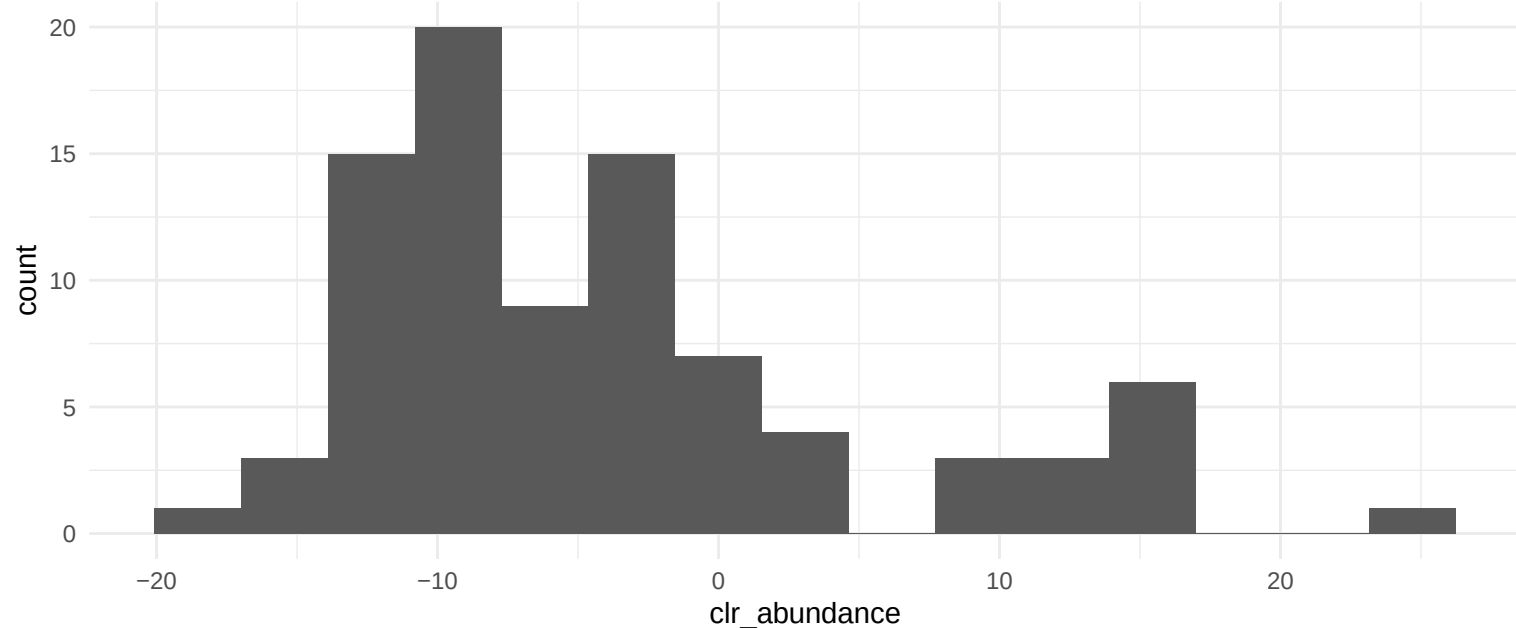

Distribution for 01051 Biosynthesis of ansamycins

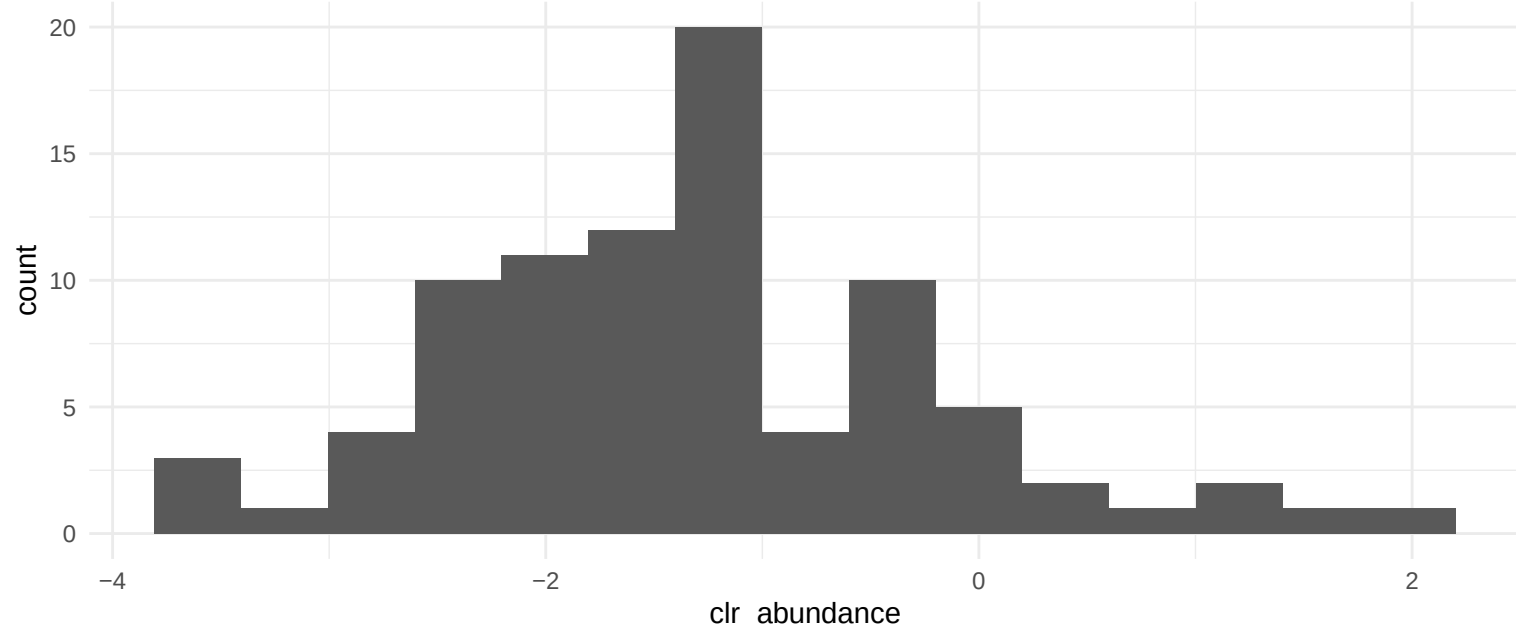

Distribution for 01052 Type I polyketide structures

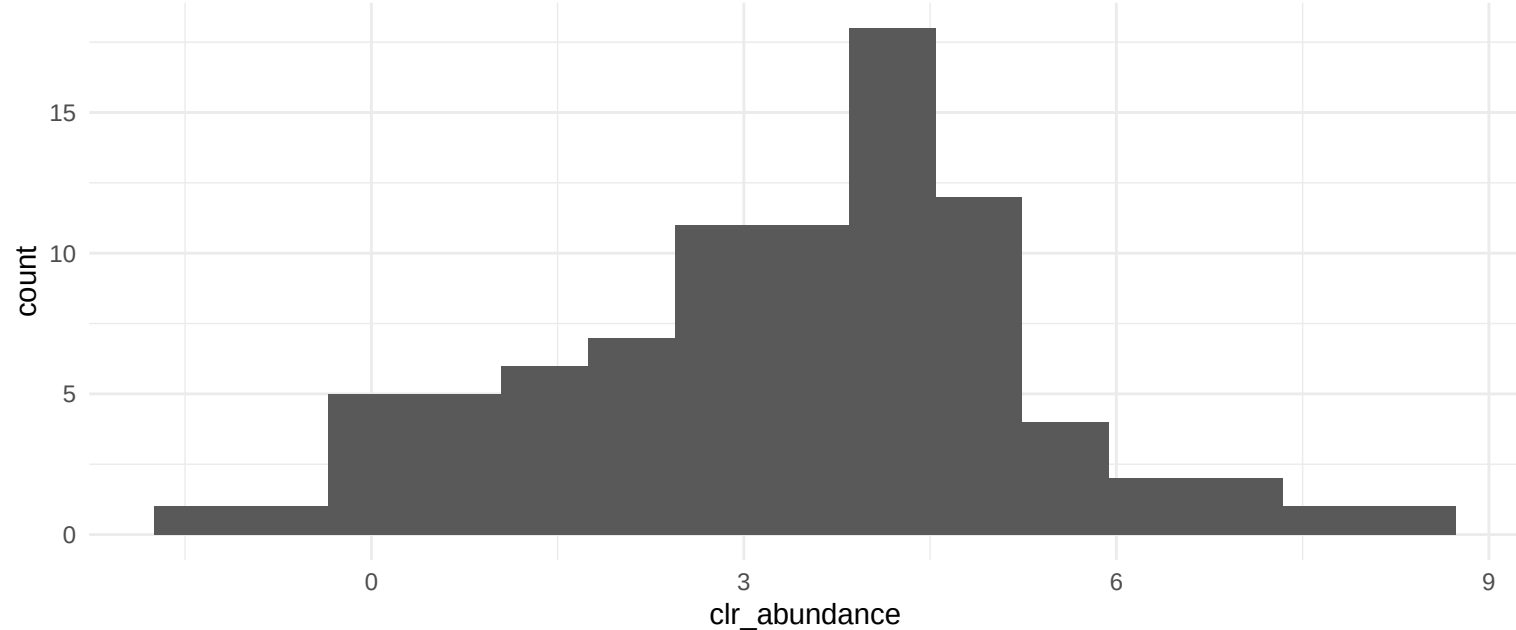

Distribution for 01053 Biosynthesis of siderophore group nonribosomal peptides

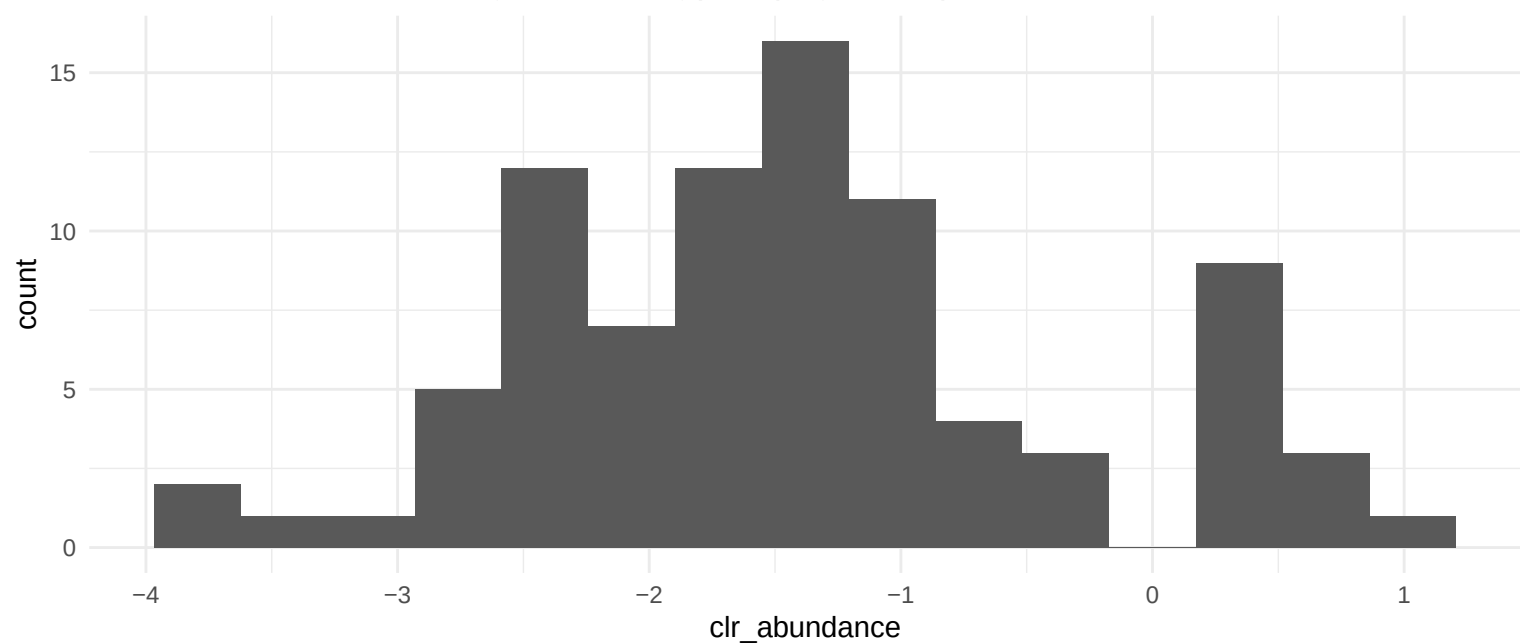

Distribution for 01054 Nonribosomal peptide structures

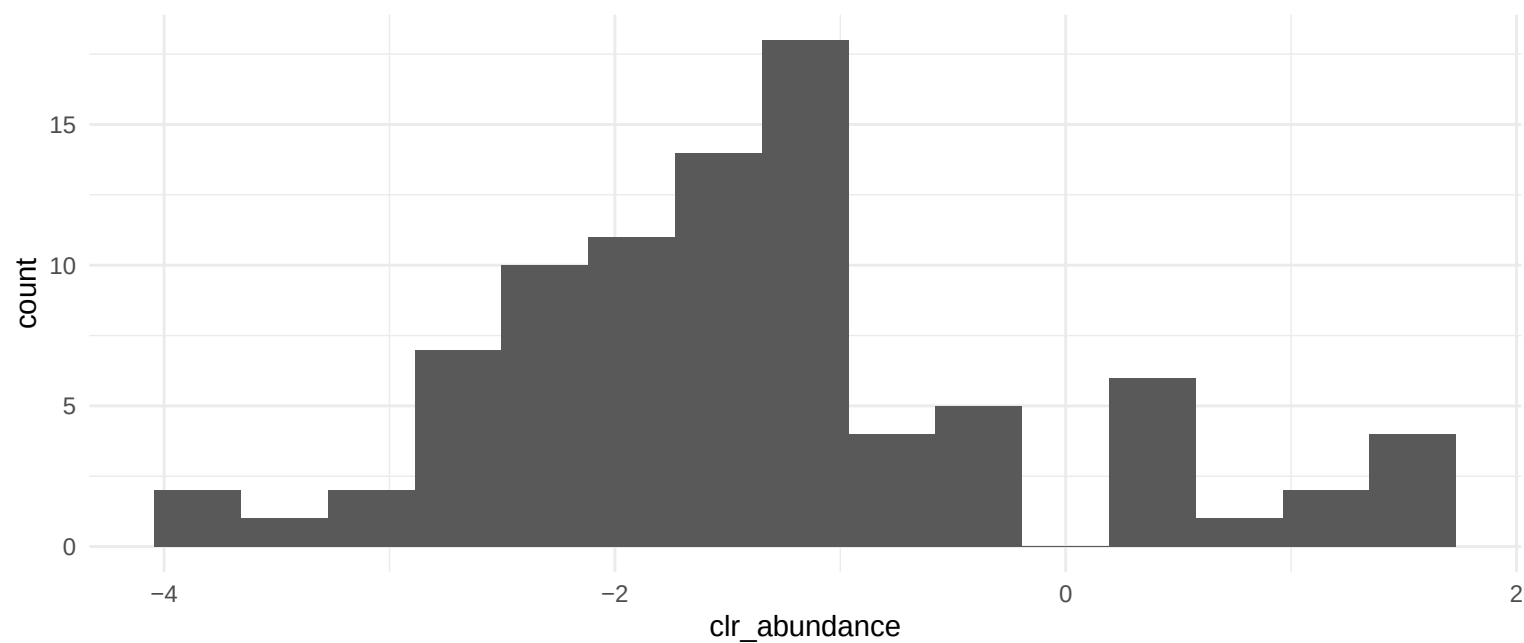

Distribution for 01055 Biosynthesis of vancomycin group antibiotics

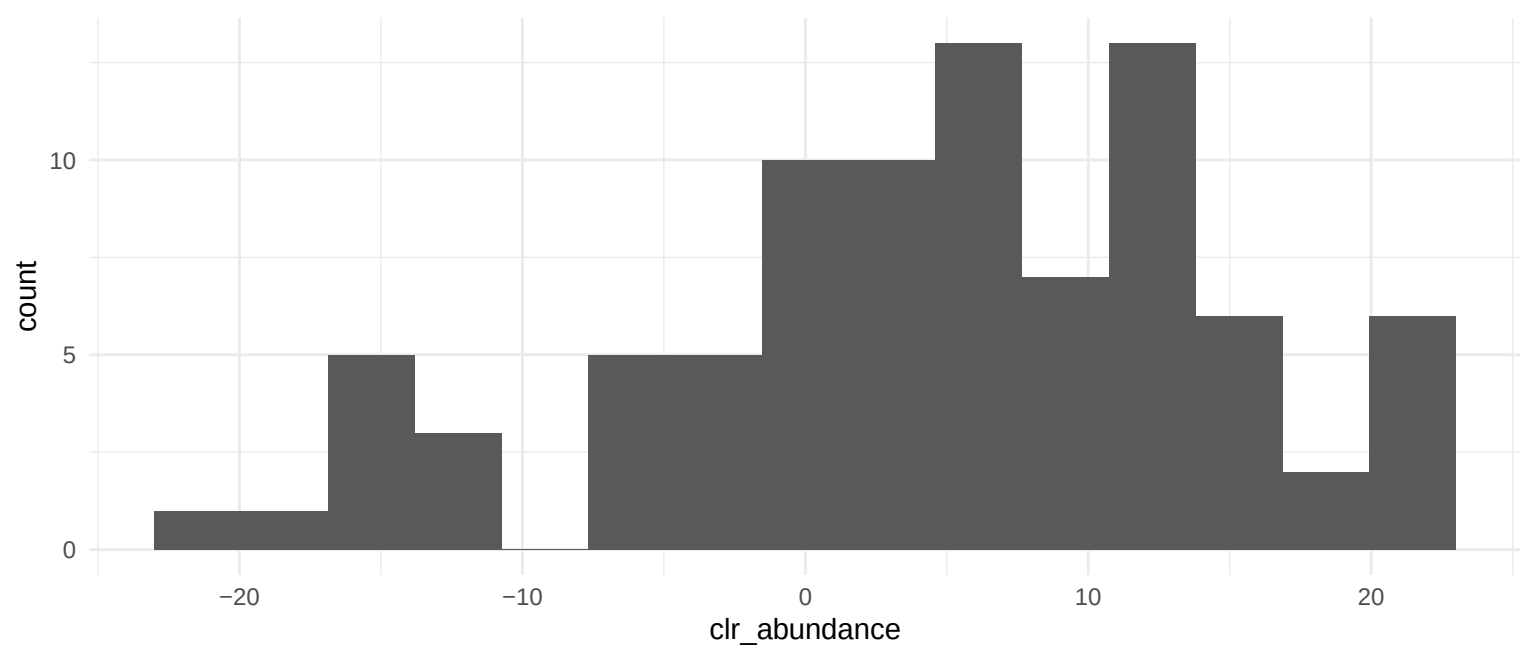

Distribution for 01057 Biosynthesis of type II polyketide products

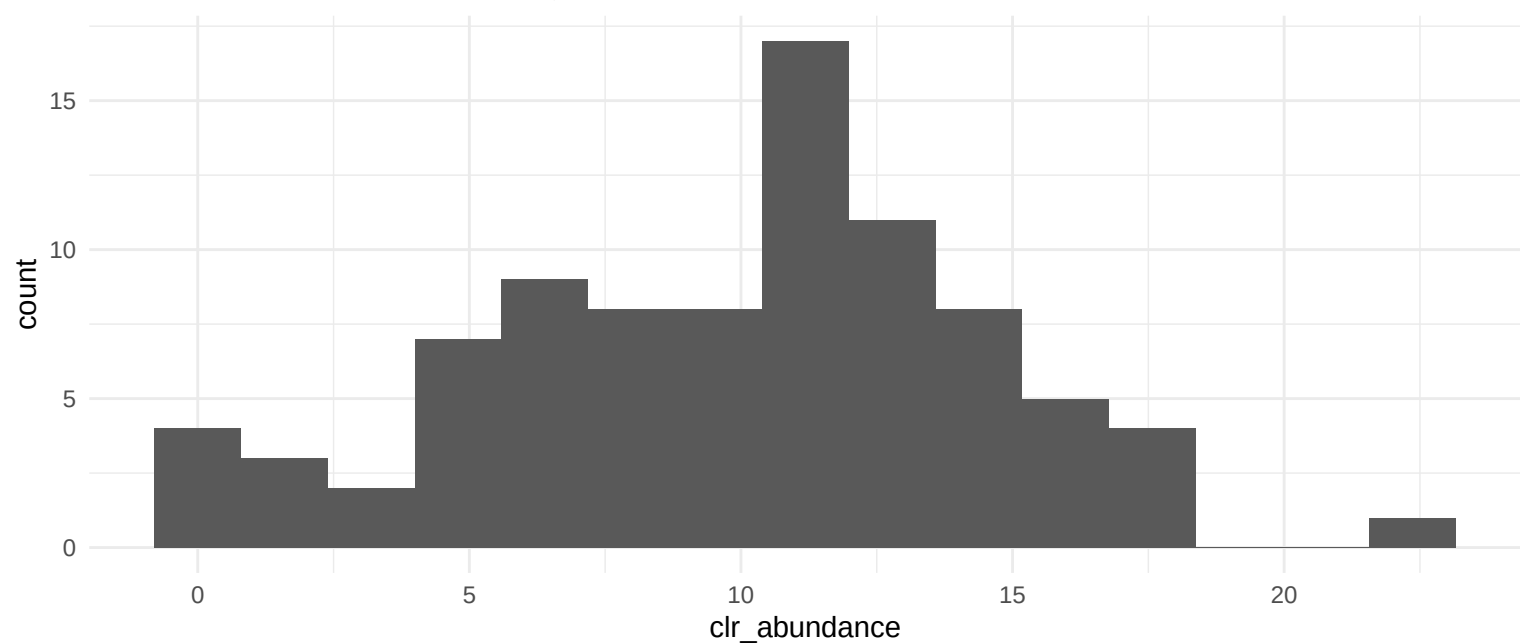

Distribution for 01059 Biosynthesis of enediynes antibiotics

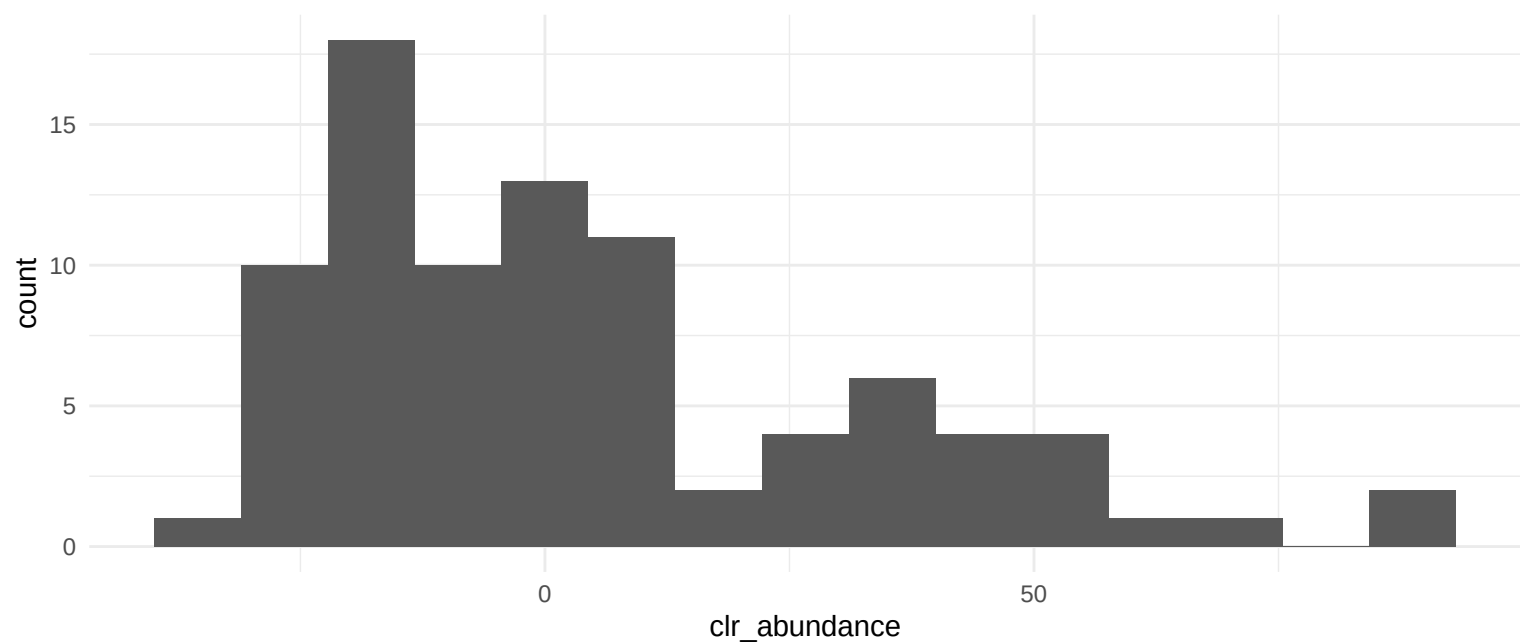

Distribution for 01501 beta-Lactam resistance

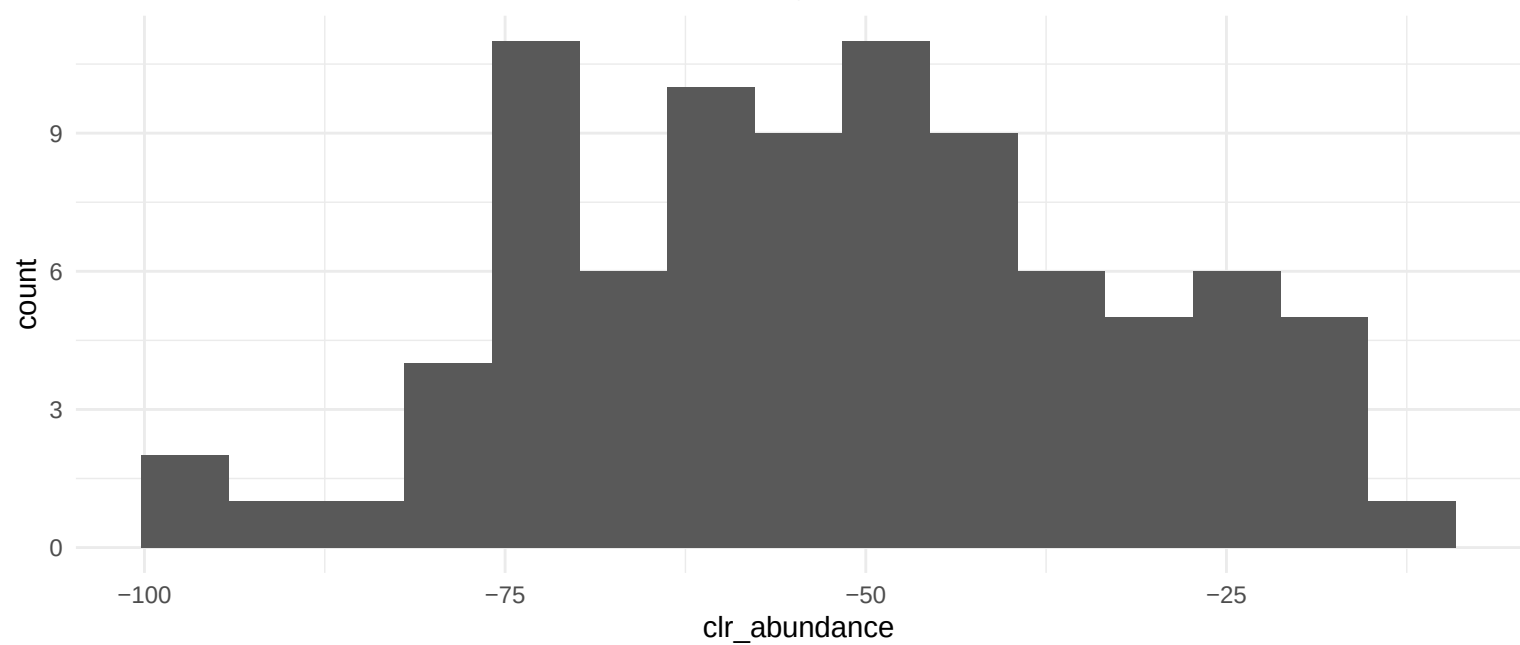

Distribution for 01502 Vancomycin resistance

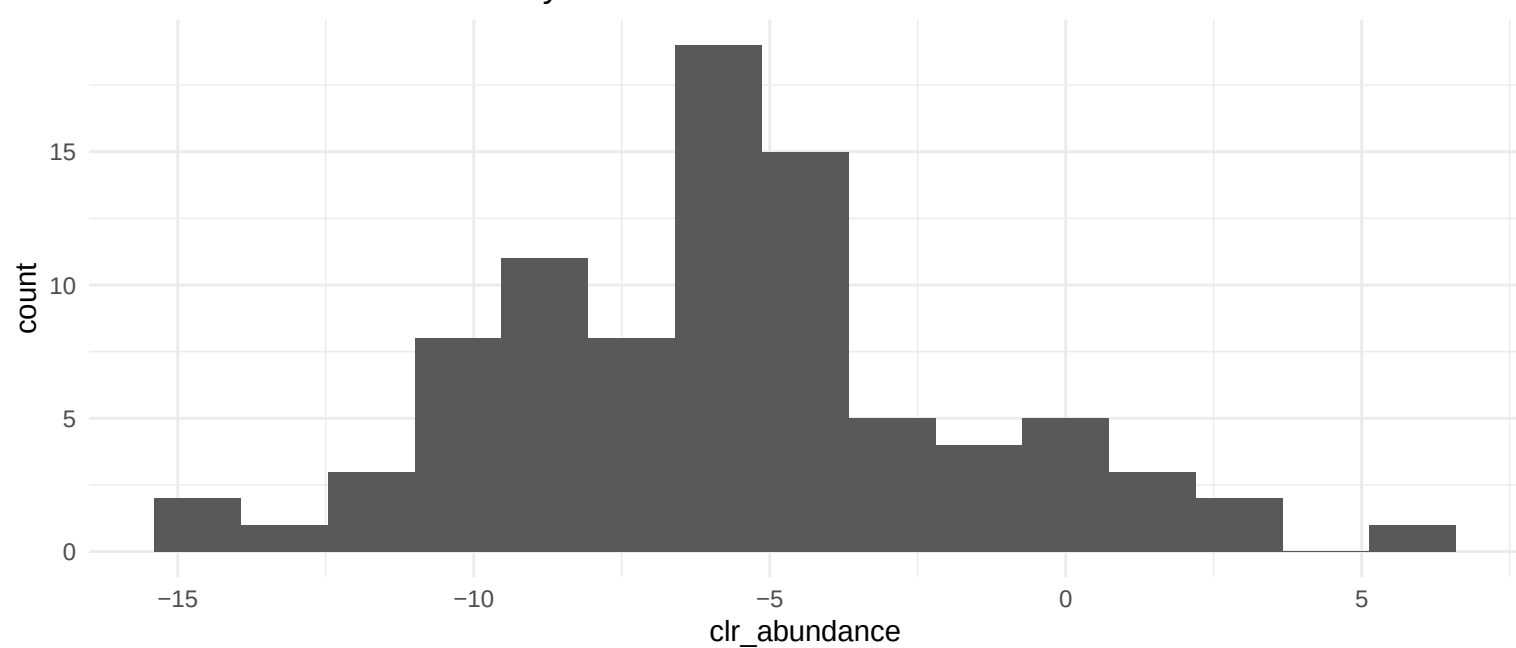

Distribution for 01503 Cationic antimicrobial peptide (CAMP) resistance

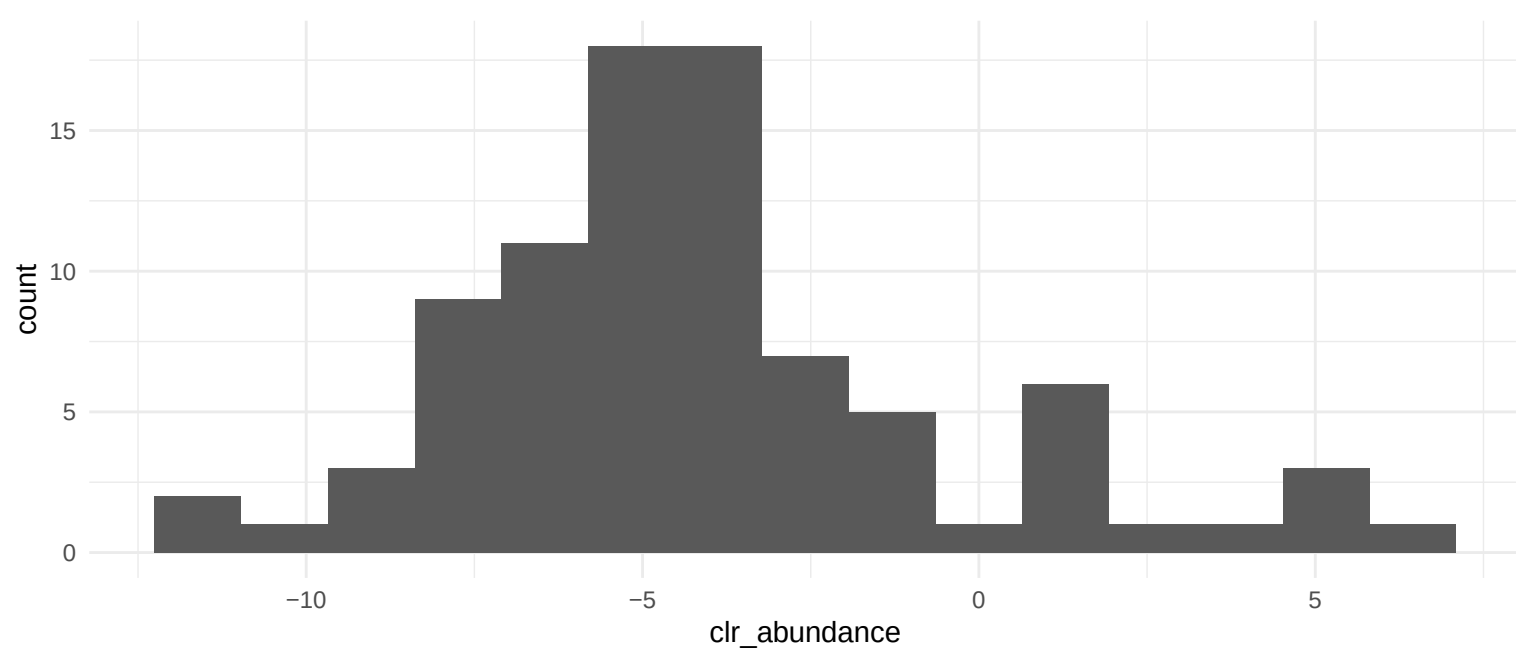

Distribution for 01504 Antimicrobial resistance genes

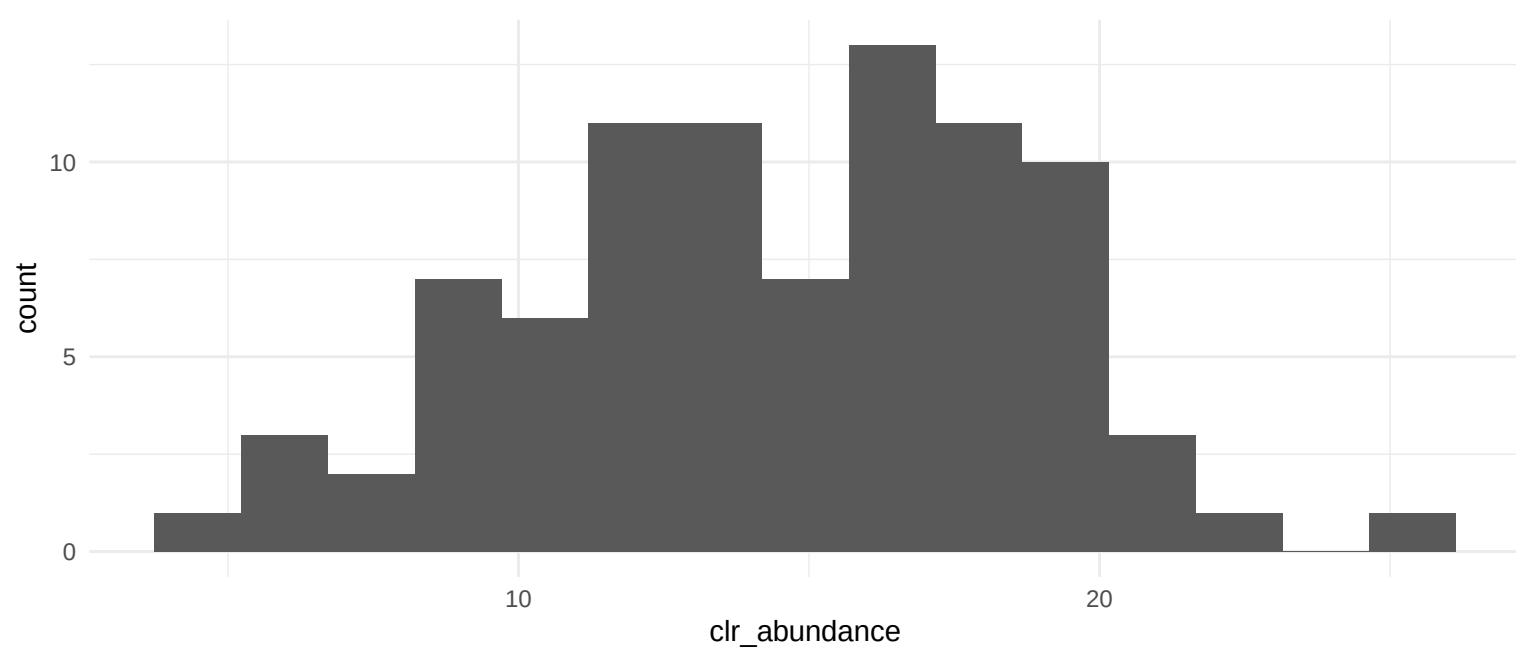

Distribution for 01521 EGFR tyrosine kinase inhibitor resistance

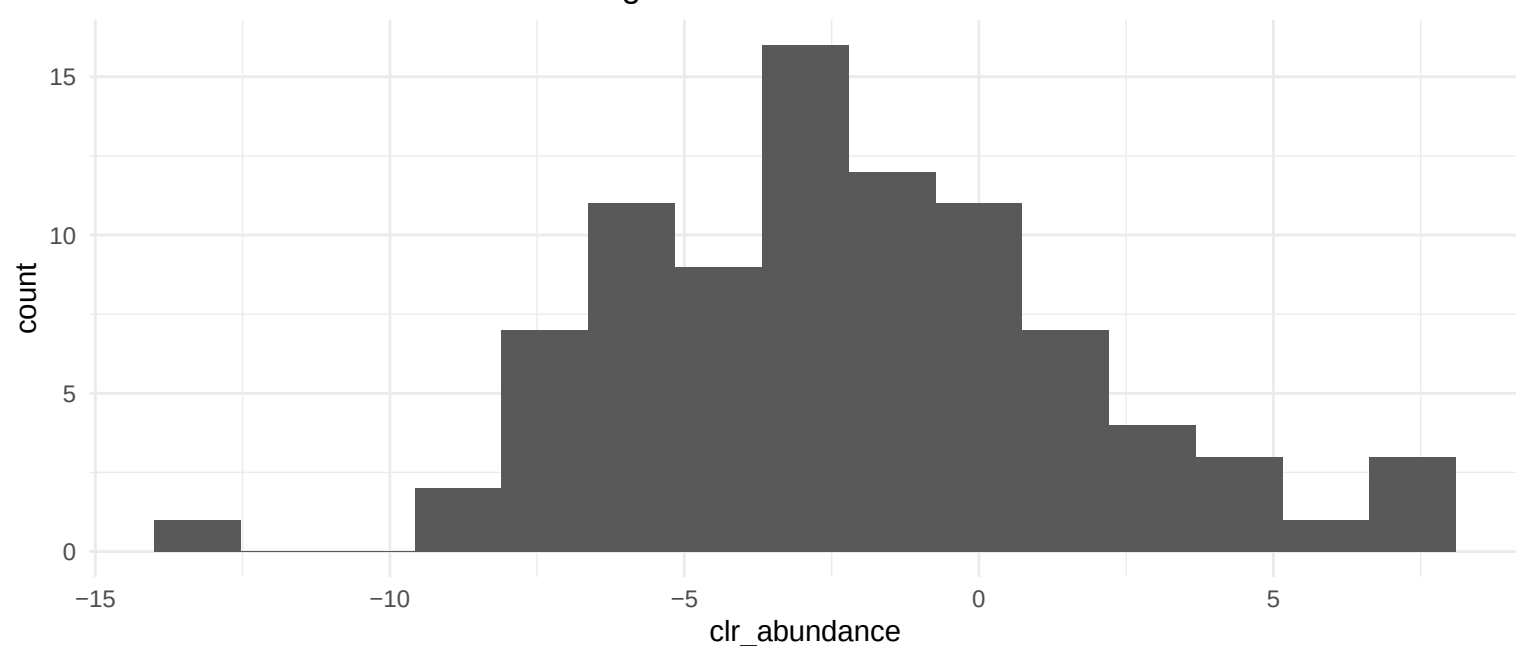

Distribution for 01522 Endocrine resistance

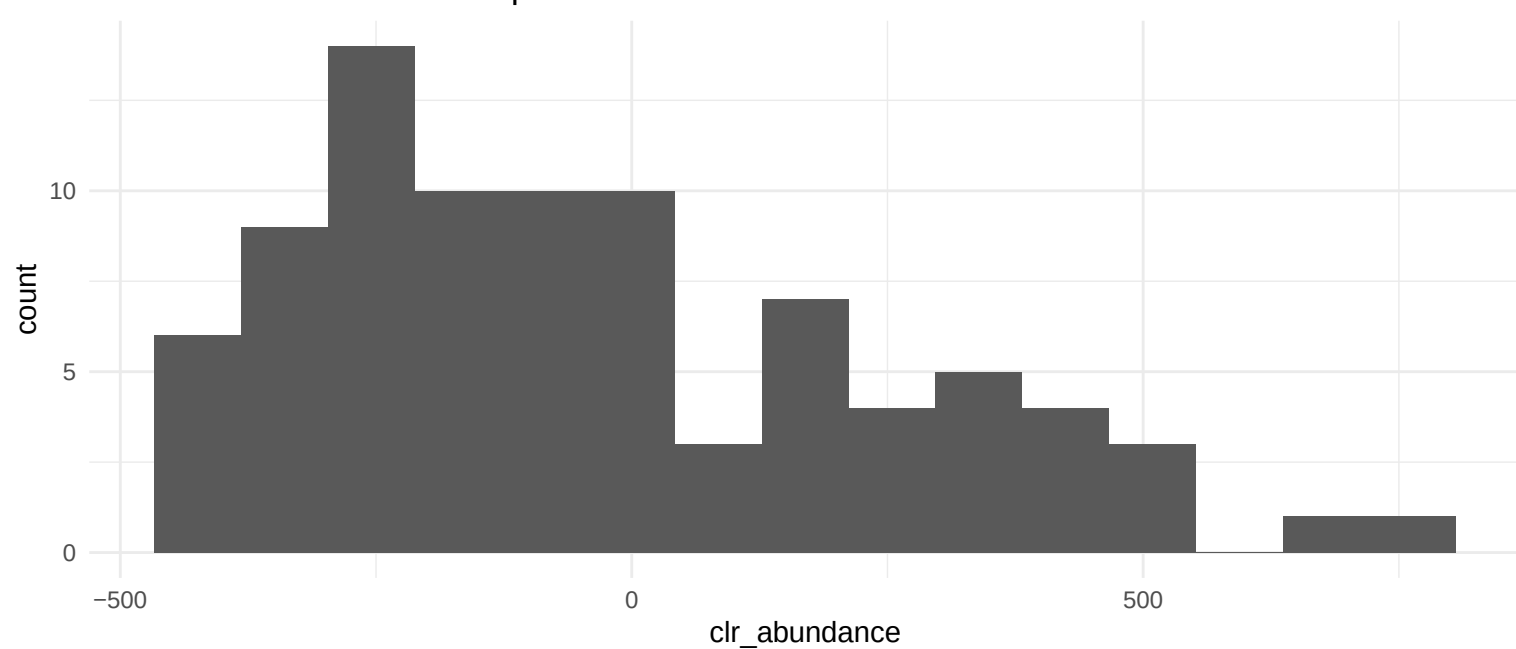

Distribution for 01523 Antifolate resistance

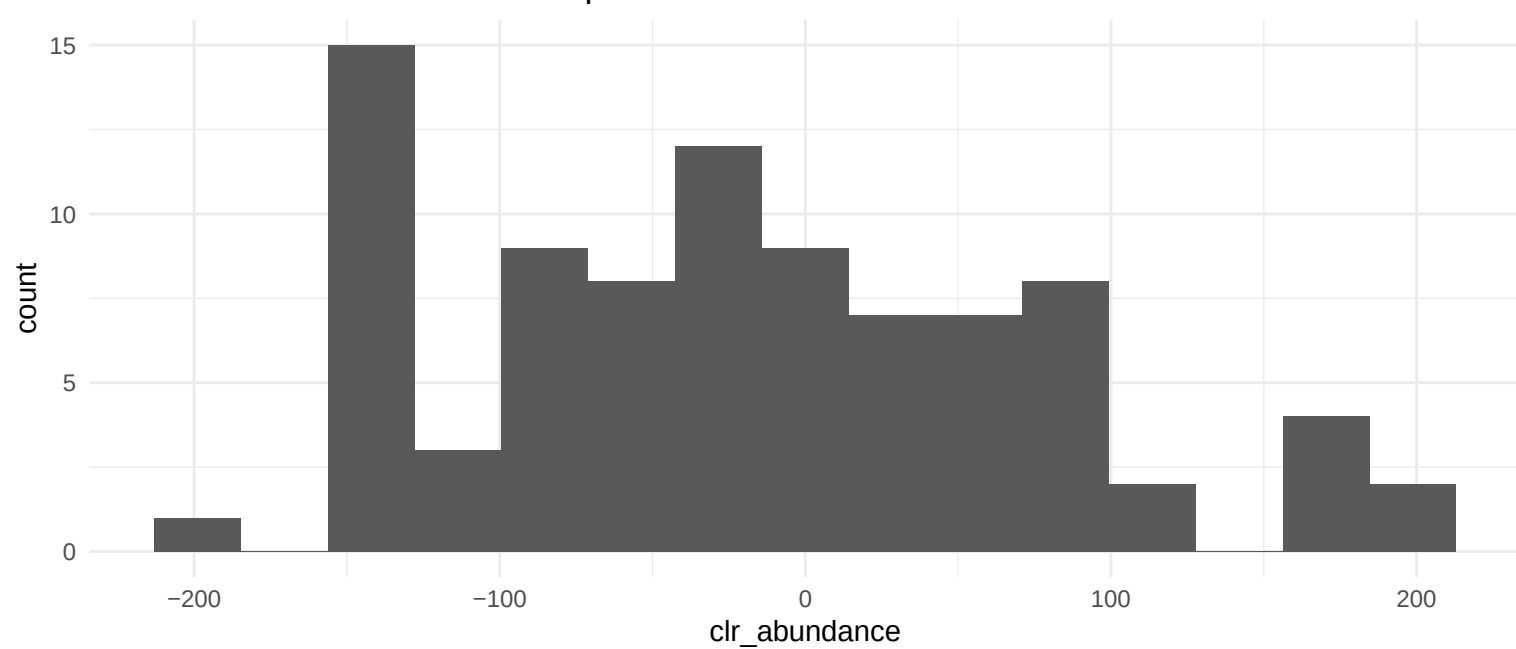

Distribution for 01524 Platinum drug resistance

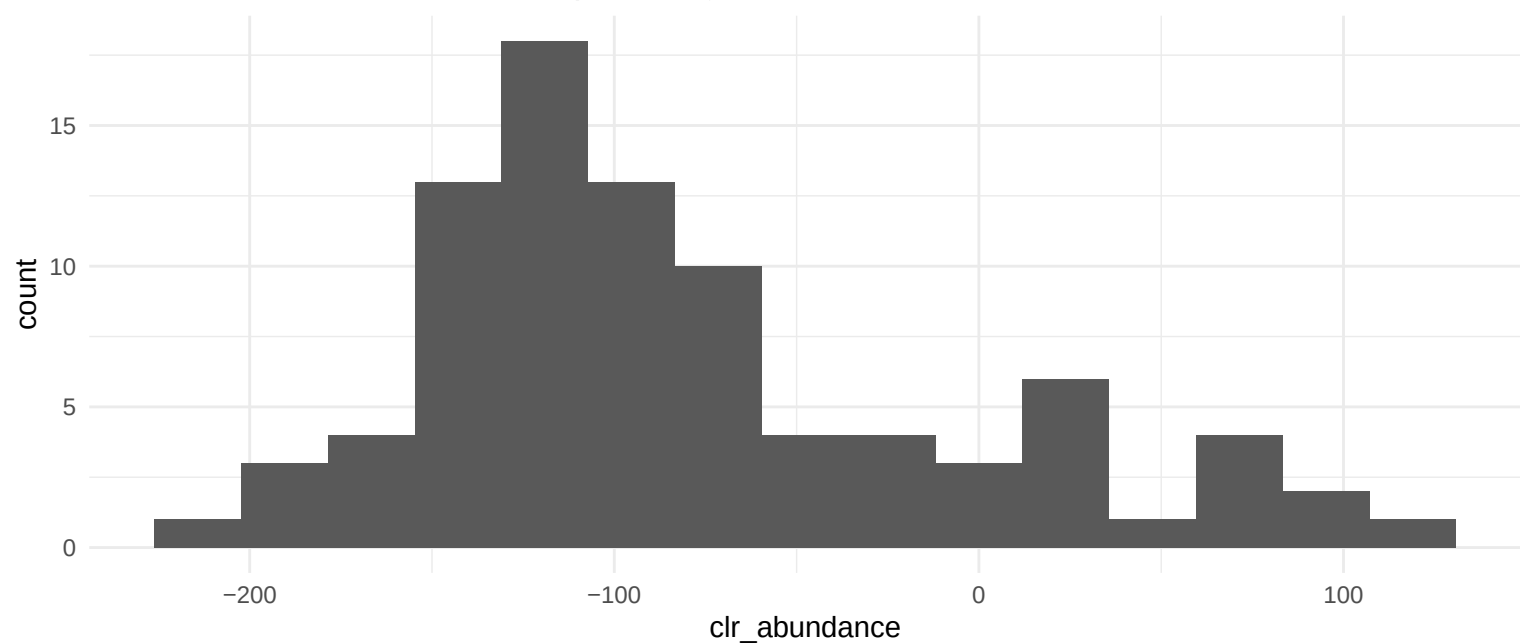

Distribution for 02000 Transporters

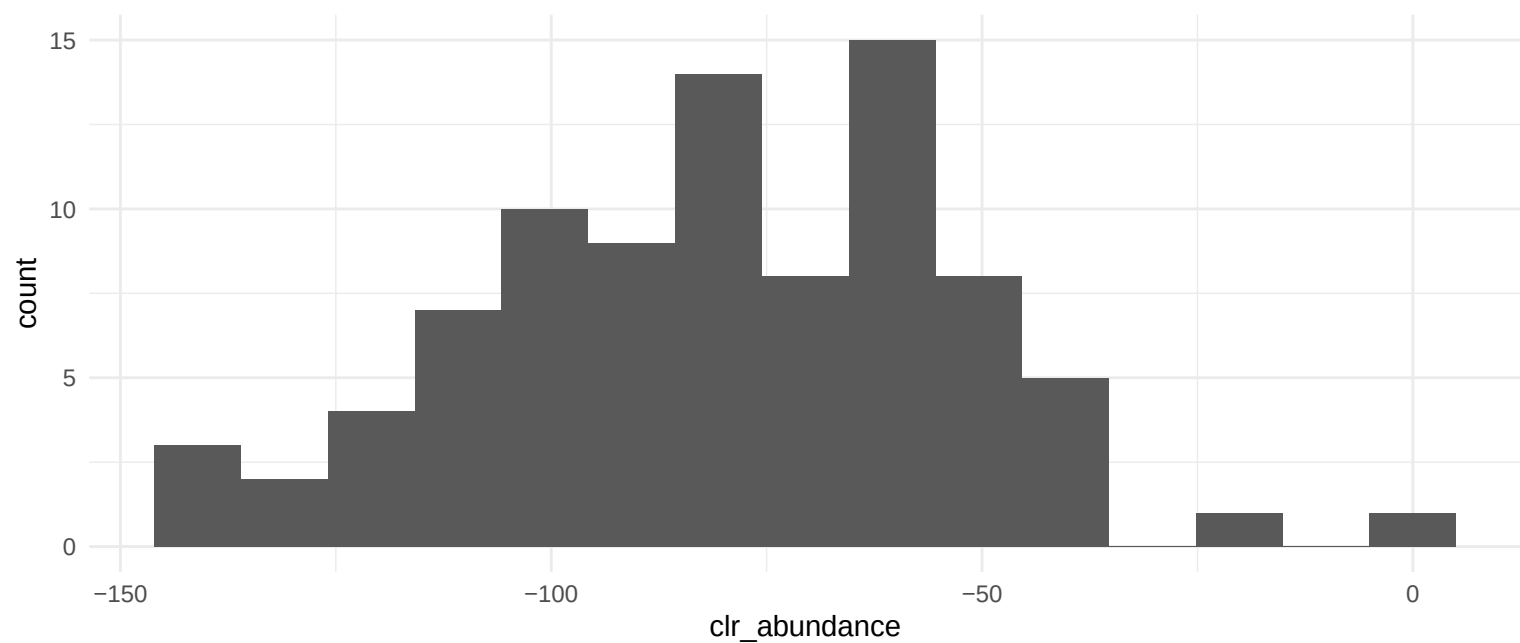

Distribution for 02010 ABC transporters

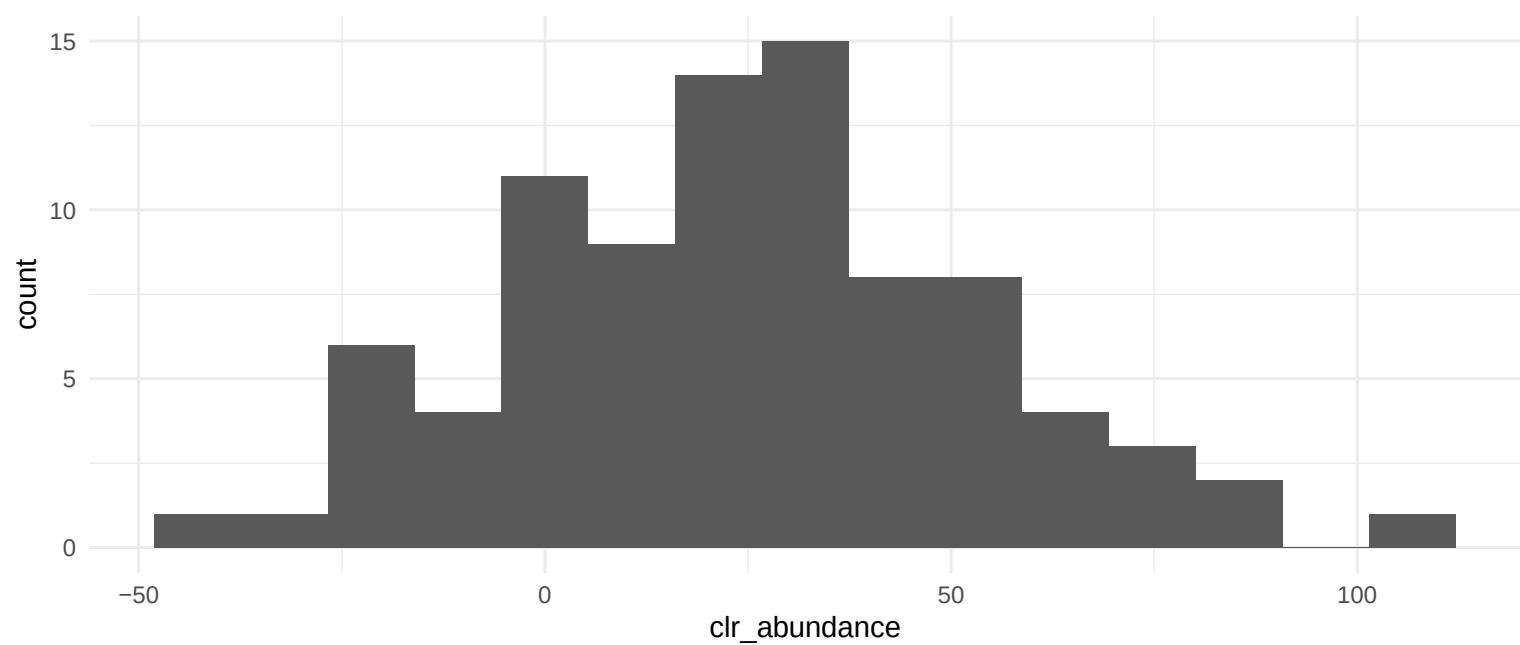

Distribution for 02020 Two-component system

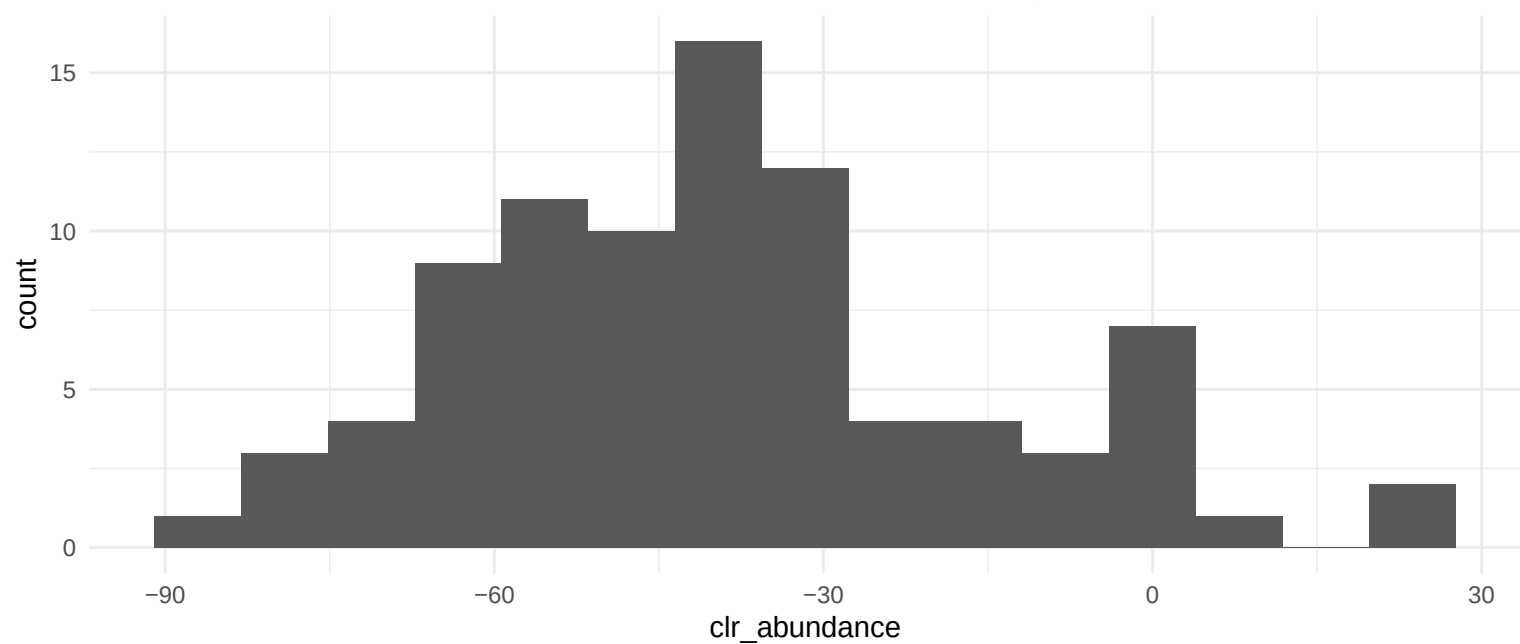

Distribution for 02022 Two-component system

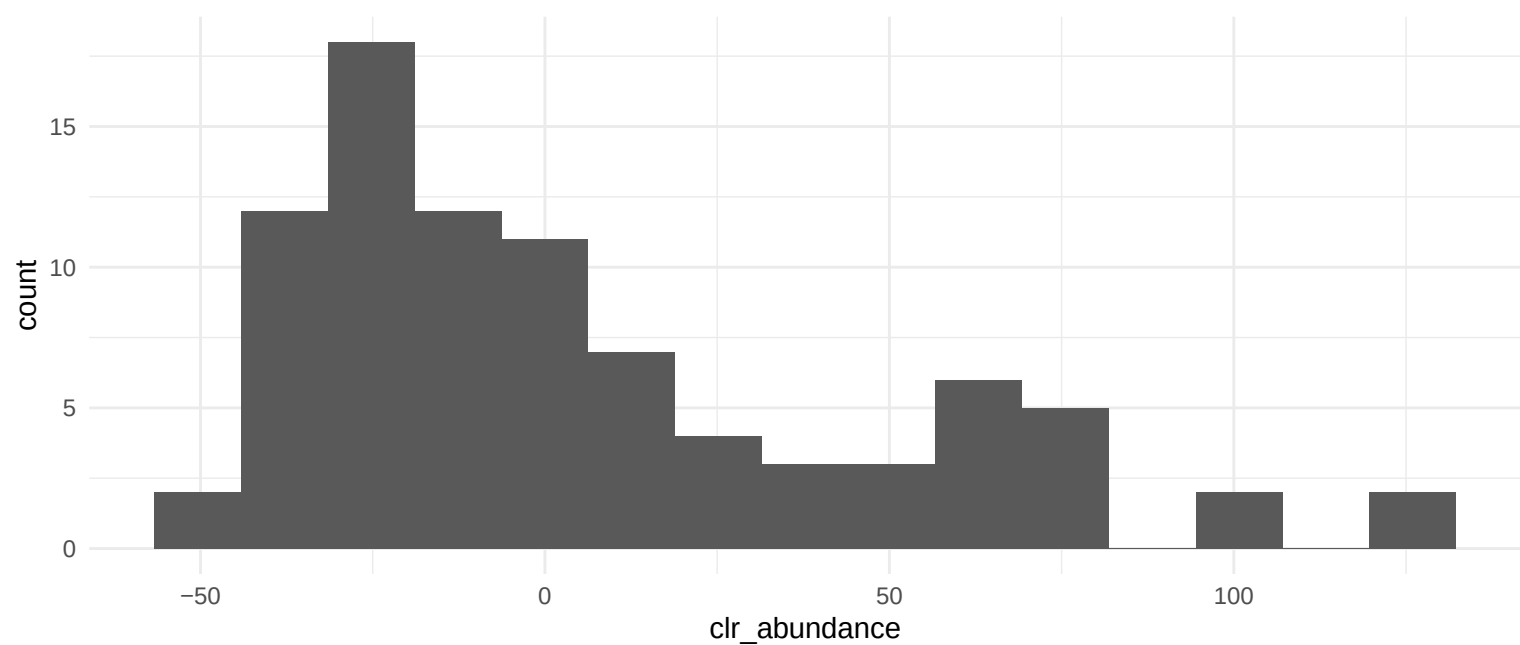

Distribution for 02024 Quorum sensing

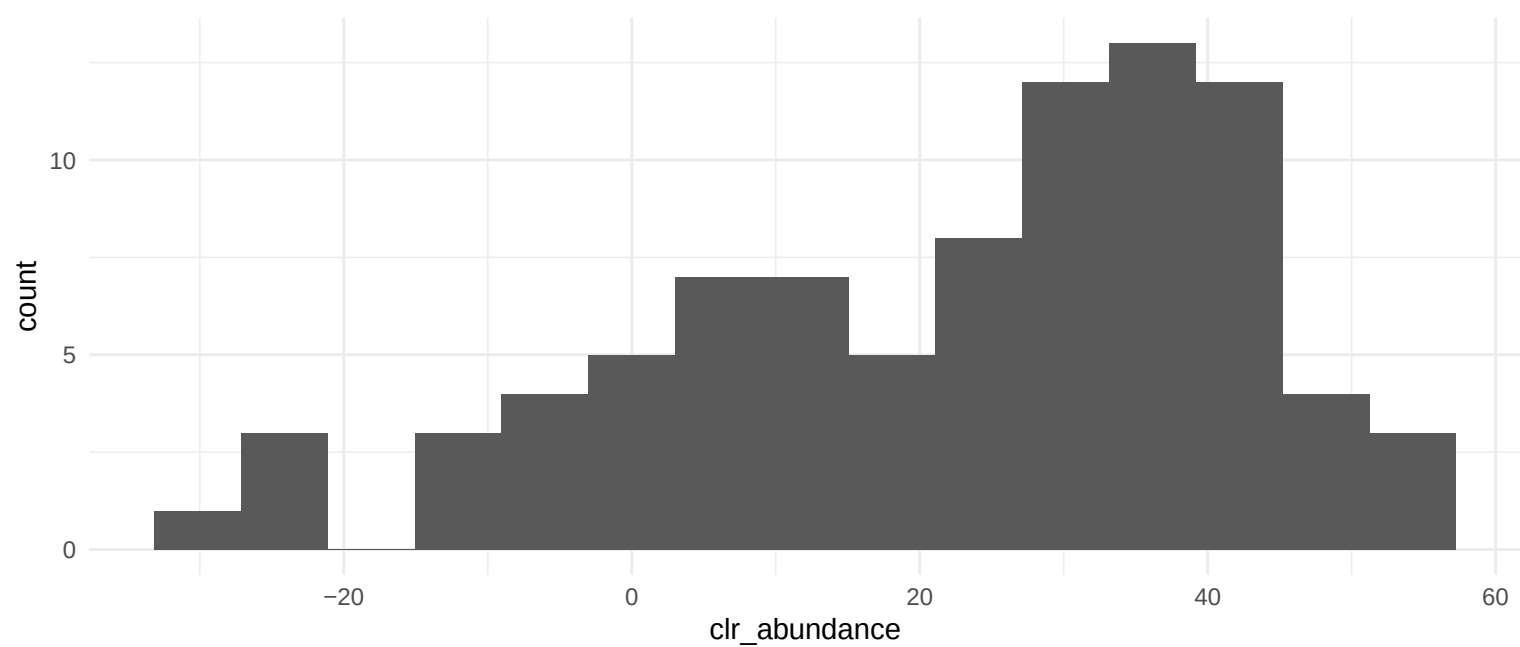

Distribution for 02025 Biofilm formation – *Pseudomonas aeruginosa*

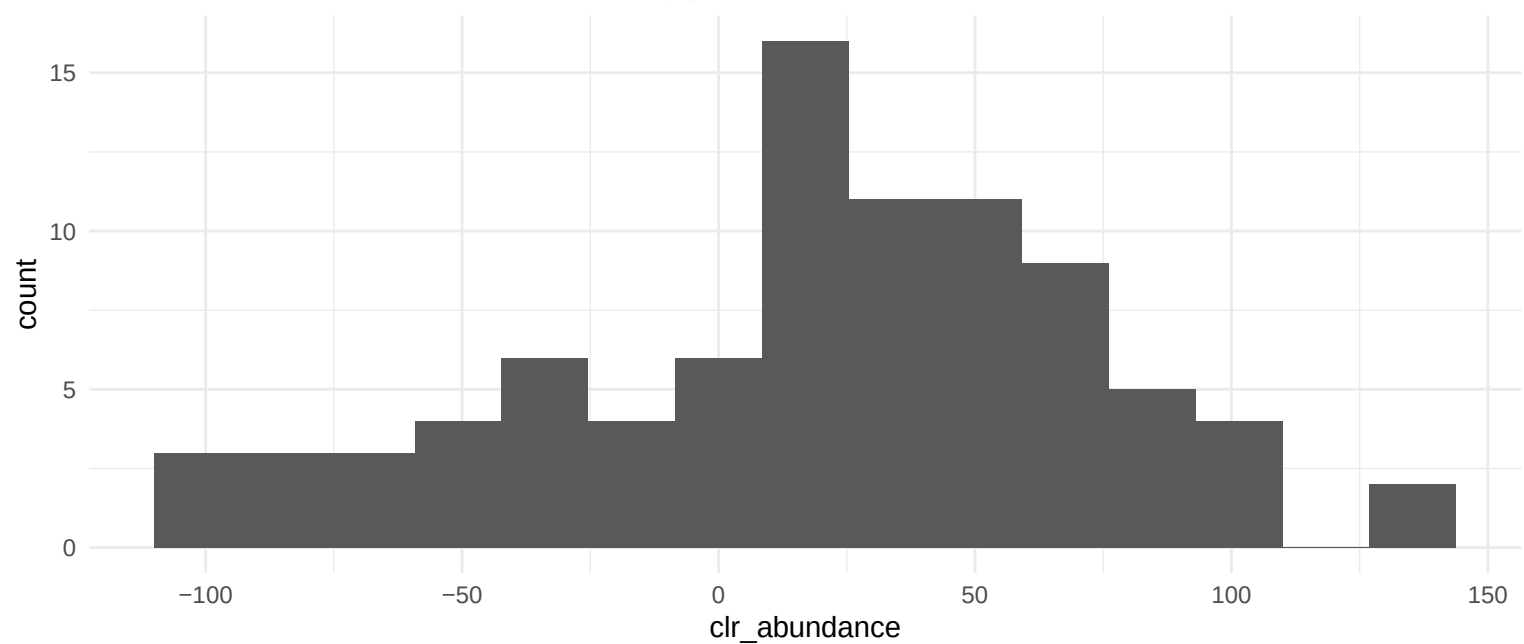

Distribution for 02026 Biofilm formation – *Escherichia coli*

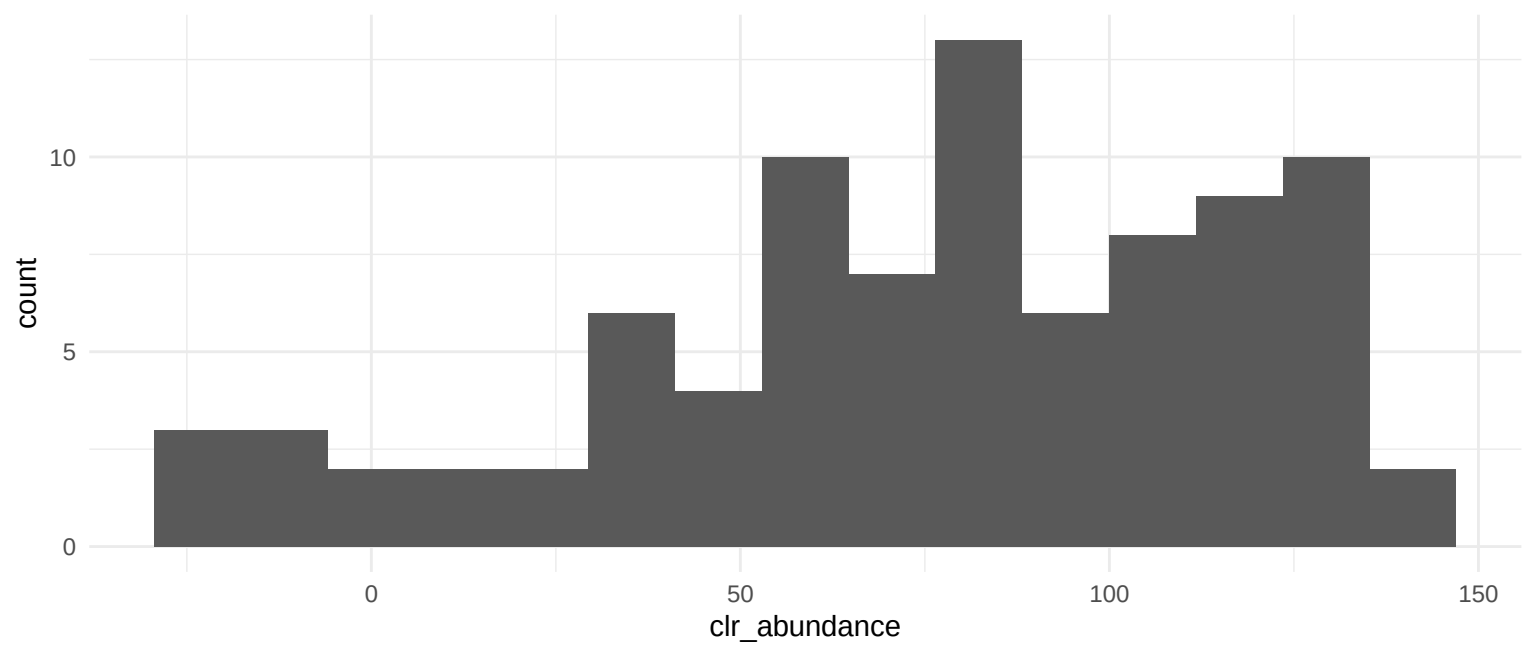

Distribution for 02030 Bacterial chemotaxis

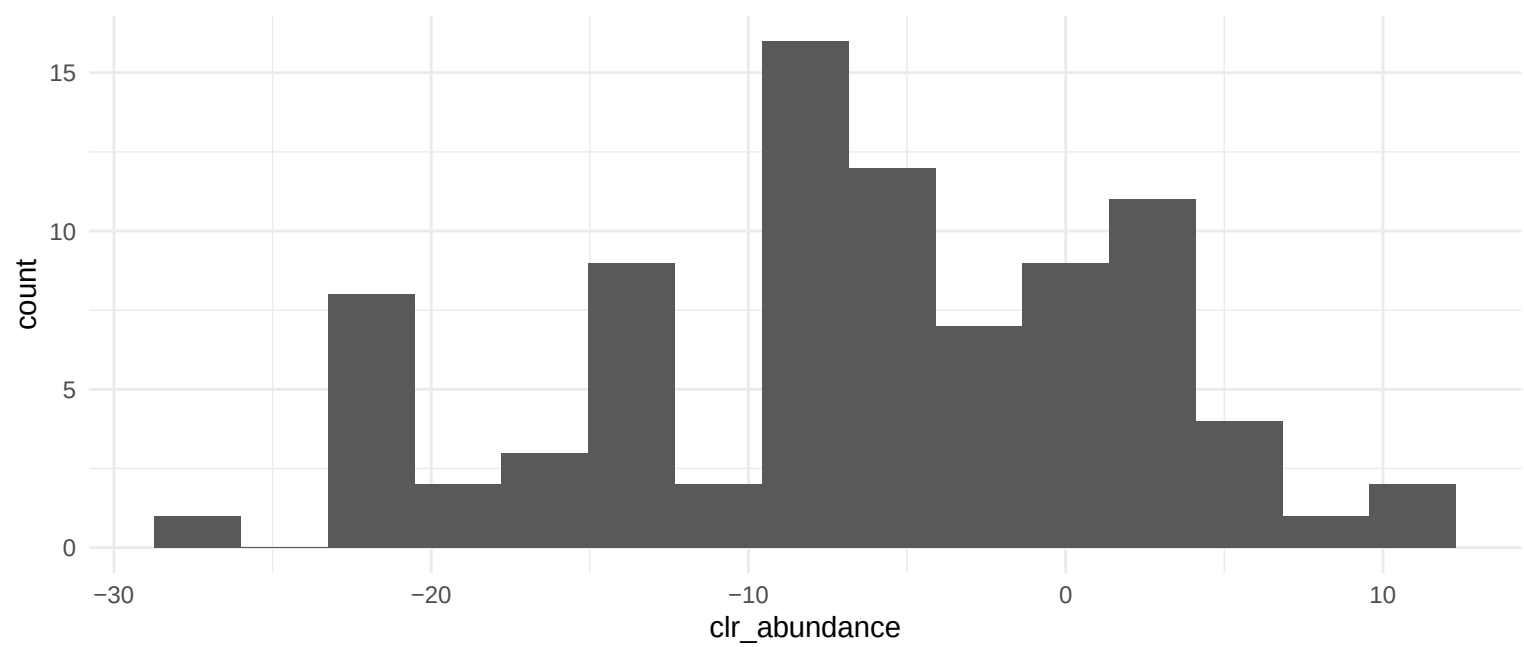

Distribution for 02035 Bacterial motility proteins

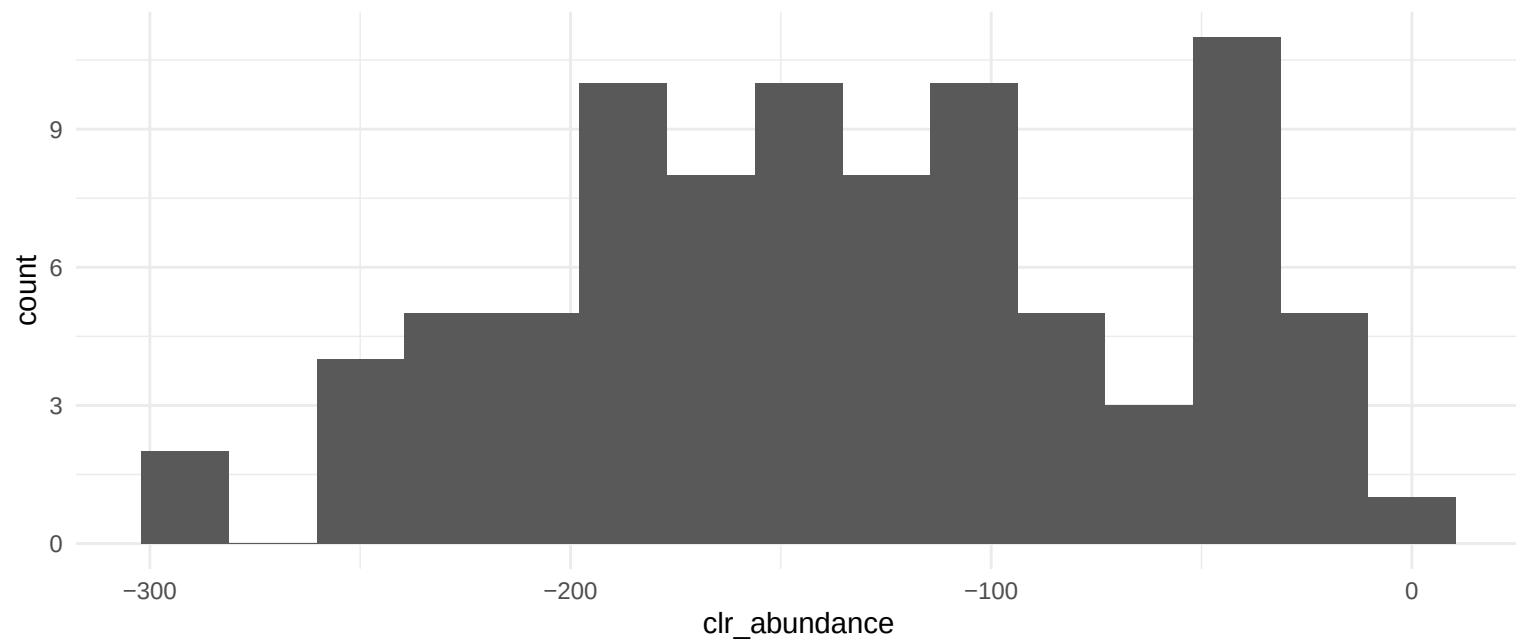

Distribution for 02040 Flagellar assembly

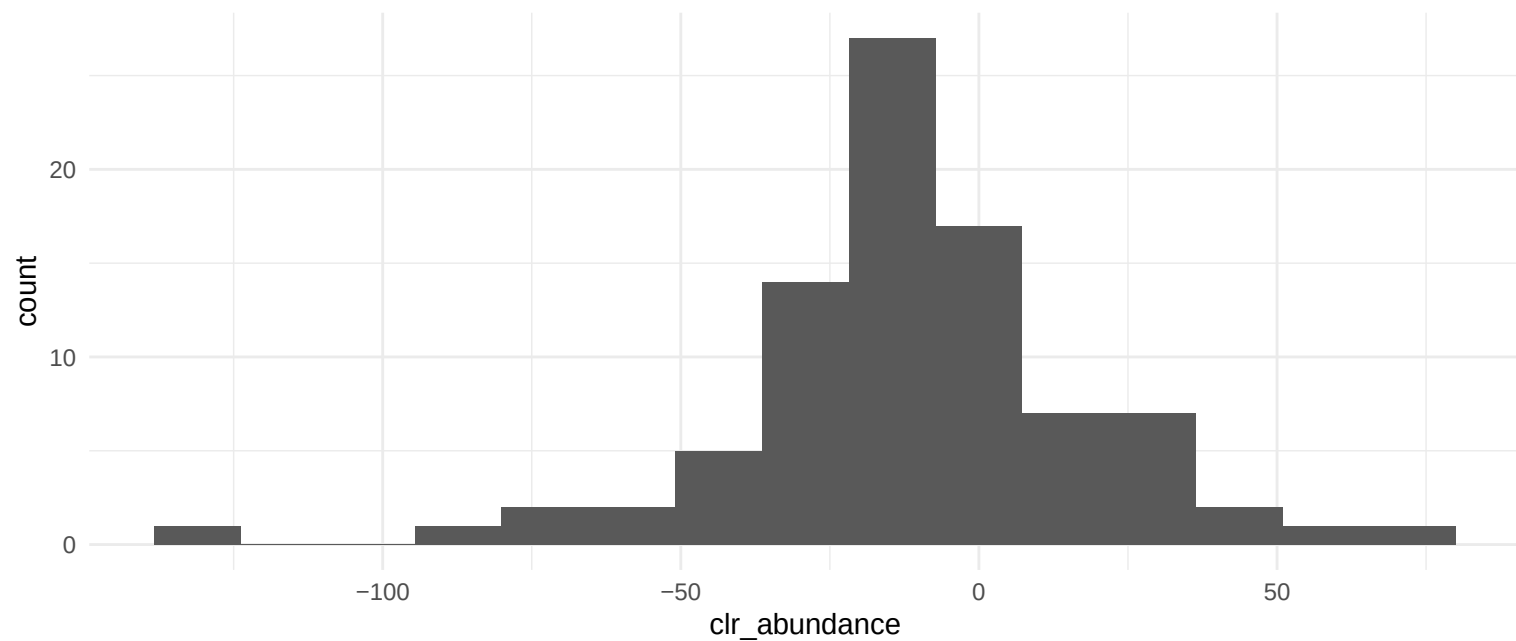

Distribution for 02042 Bacterial toxins

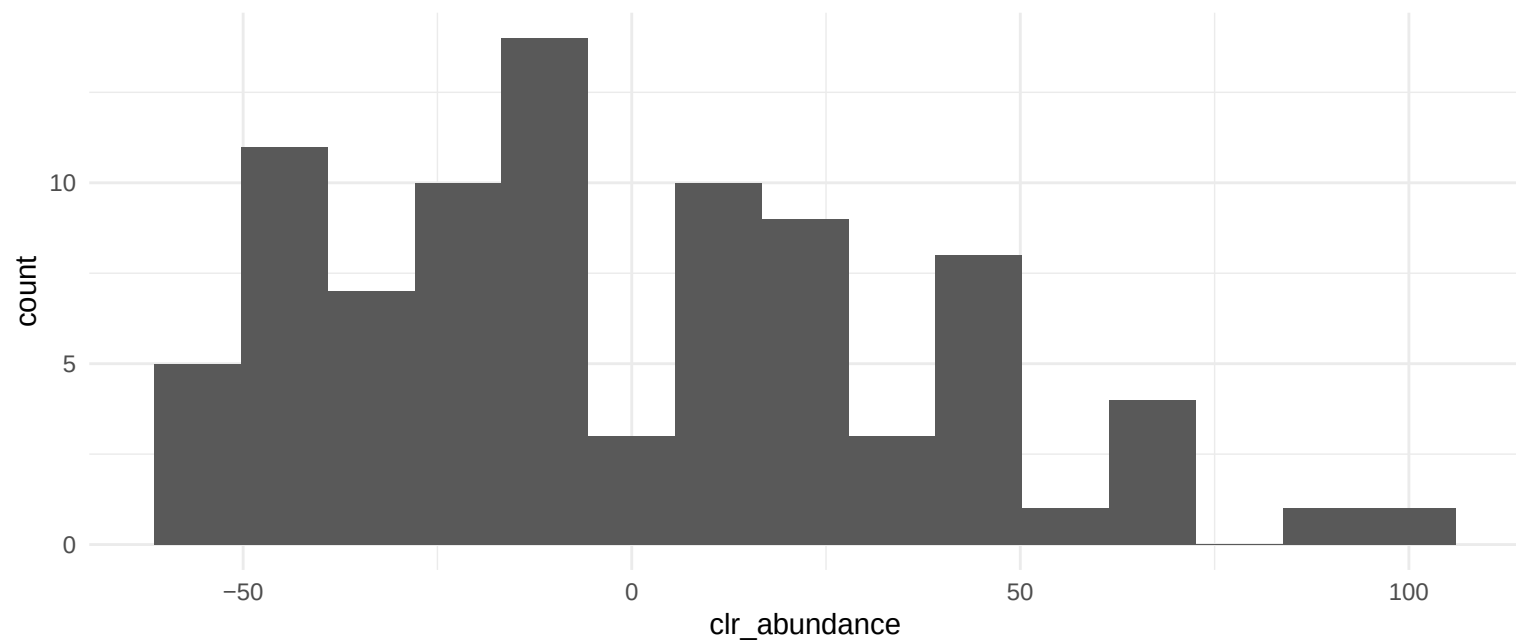

Distribution for 02044 Secretion system

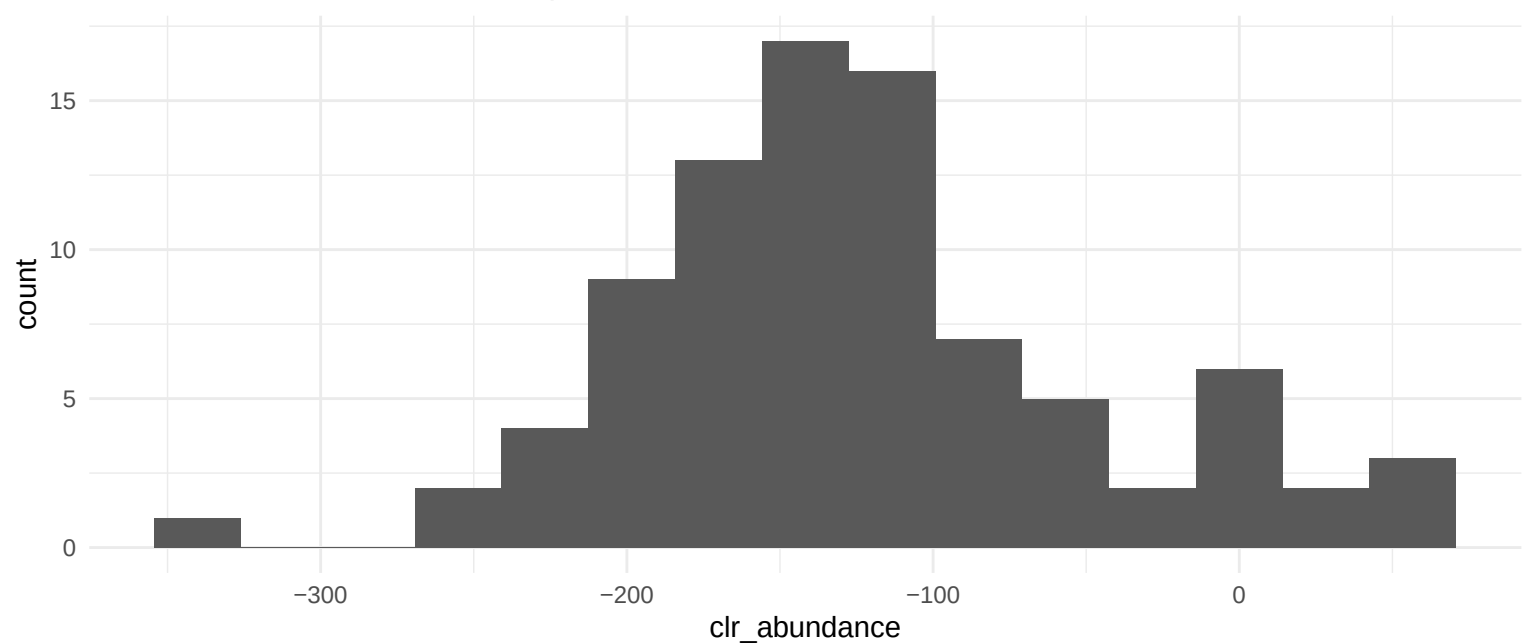

Distribution for 02048 Prokaryotic defense system

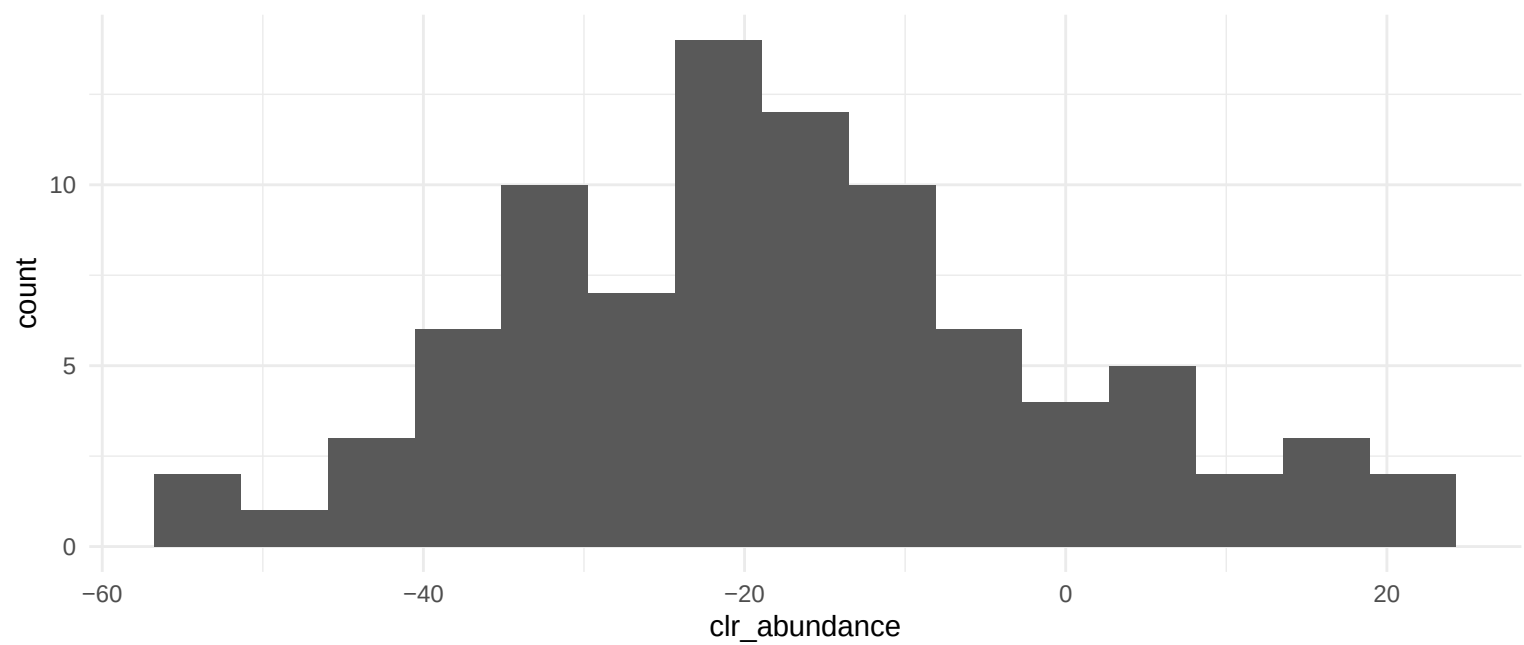

Distribution for 02060 Phosphotransferase system (PTS)

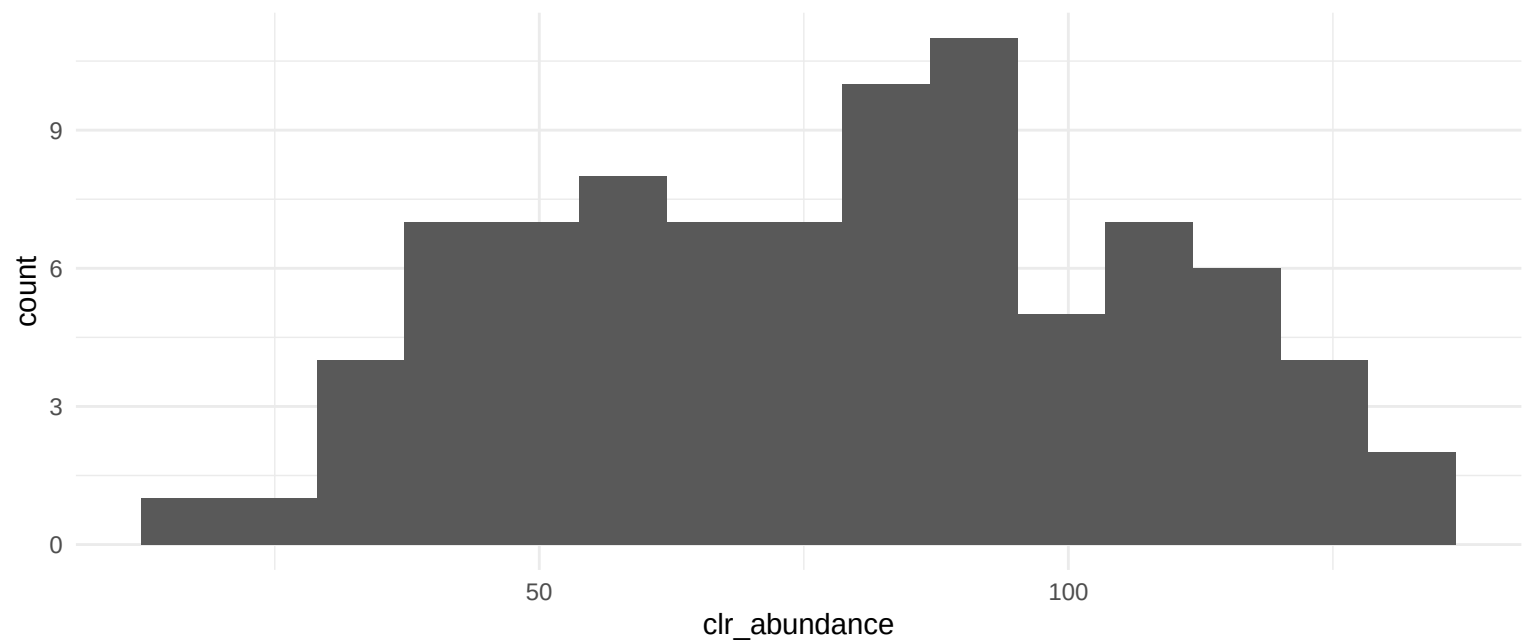

Distribution for 03000 Transcription factors

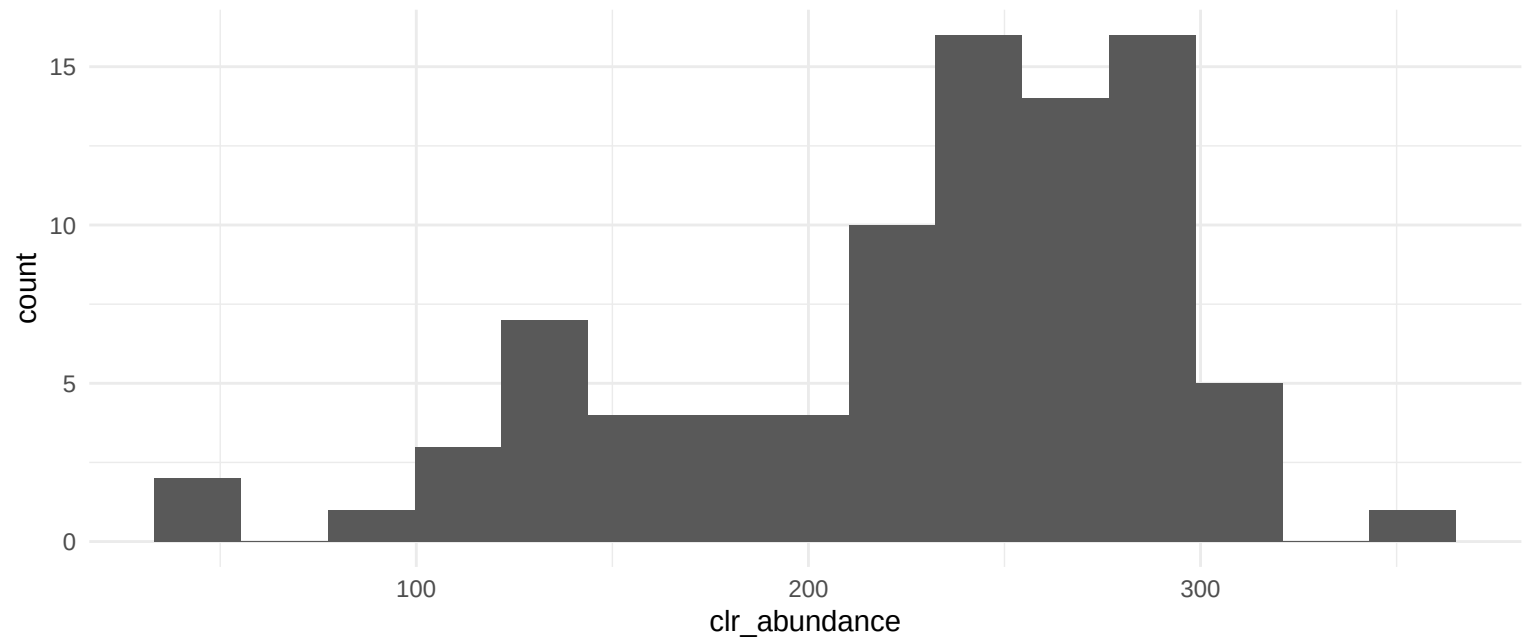

Distribution for 03008 Ribosome biogenesis in eukaryotes

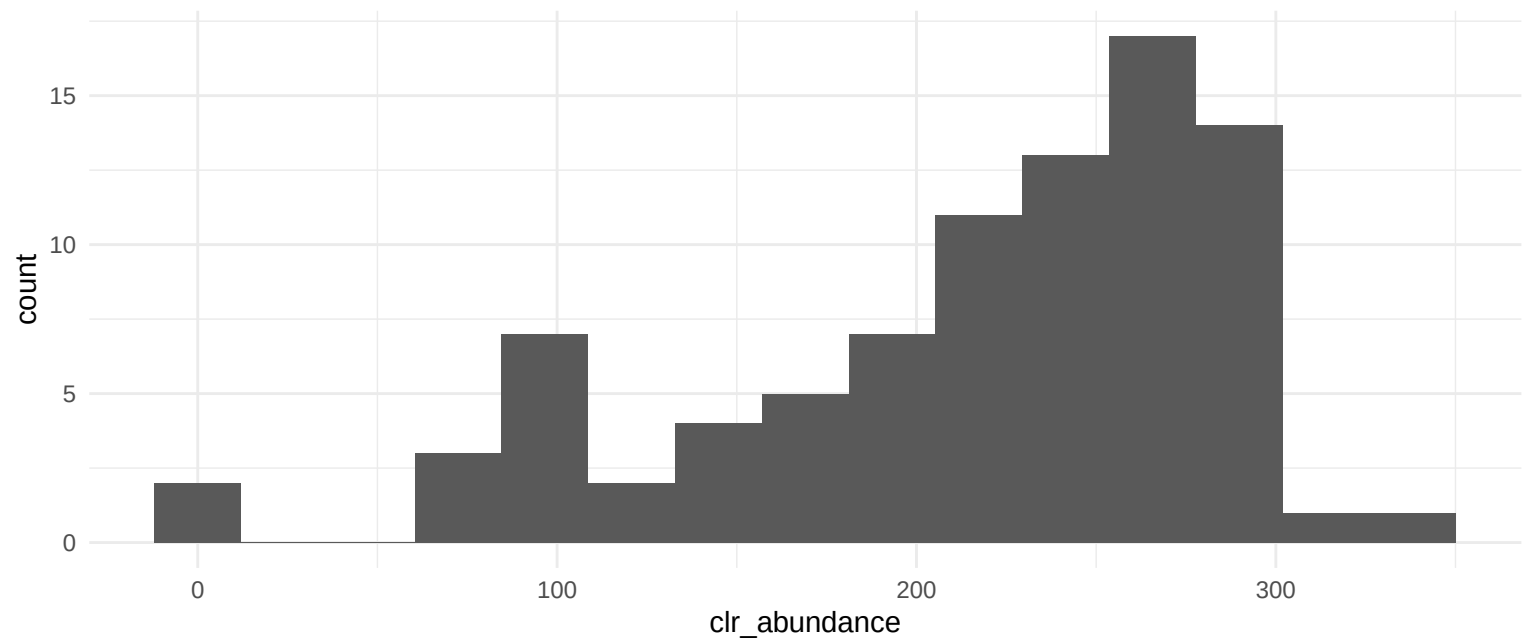

Distribution for 03009 Ribosome biogenesis

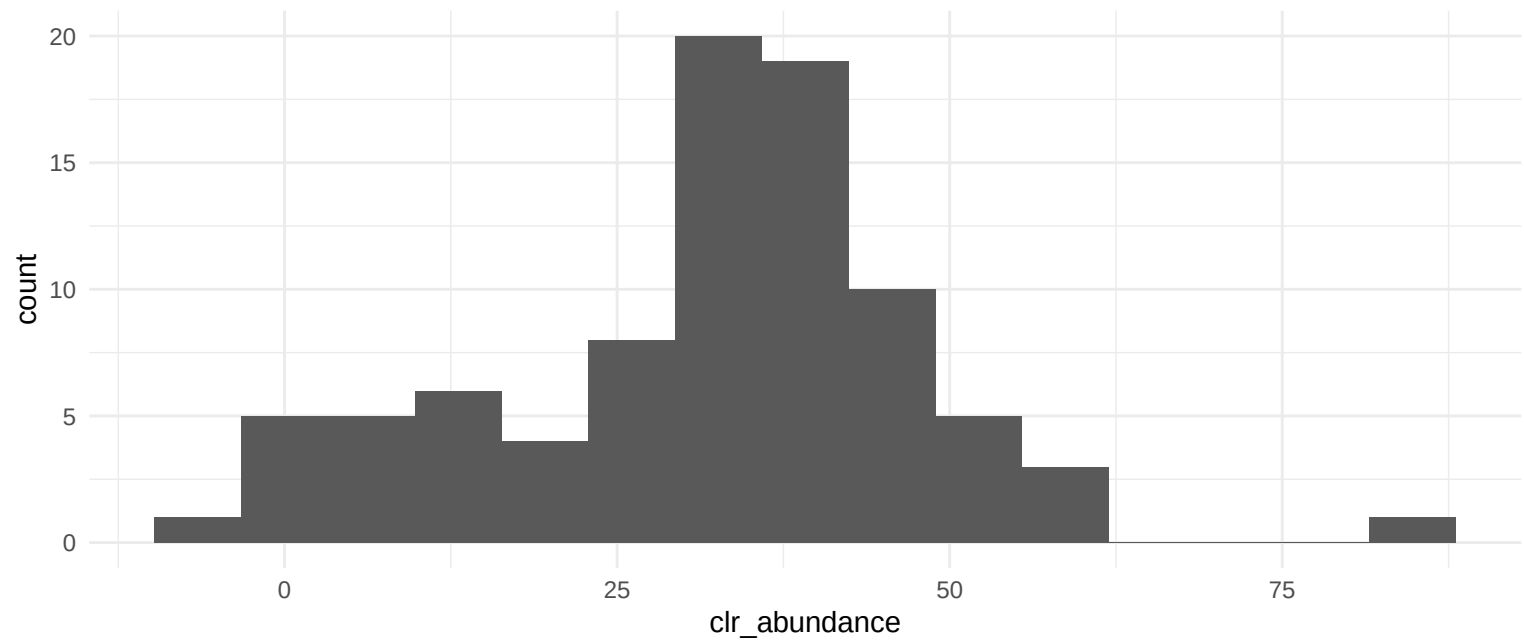

Distribution for 03010 Ribosome

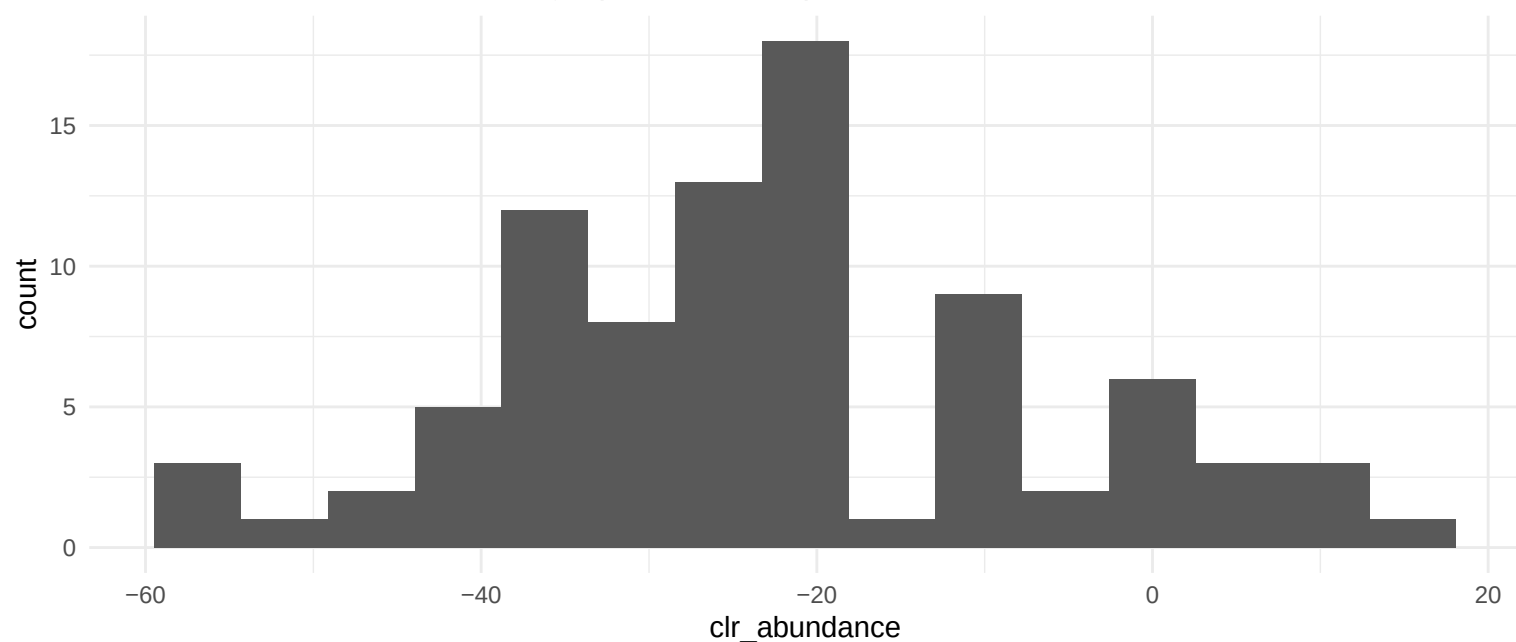

Distribution for 03011 Ribosome

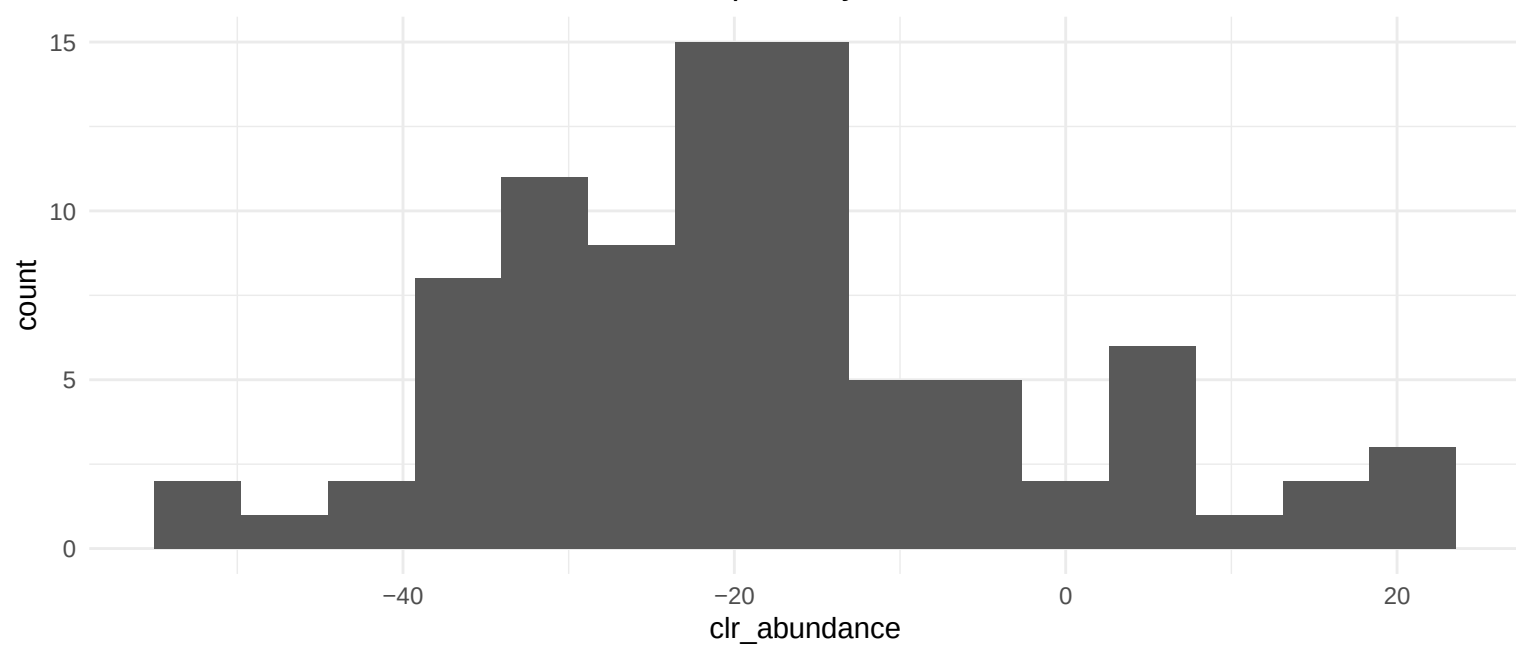

Distribution for 03012 Translation factors

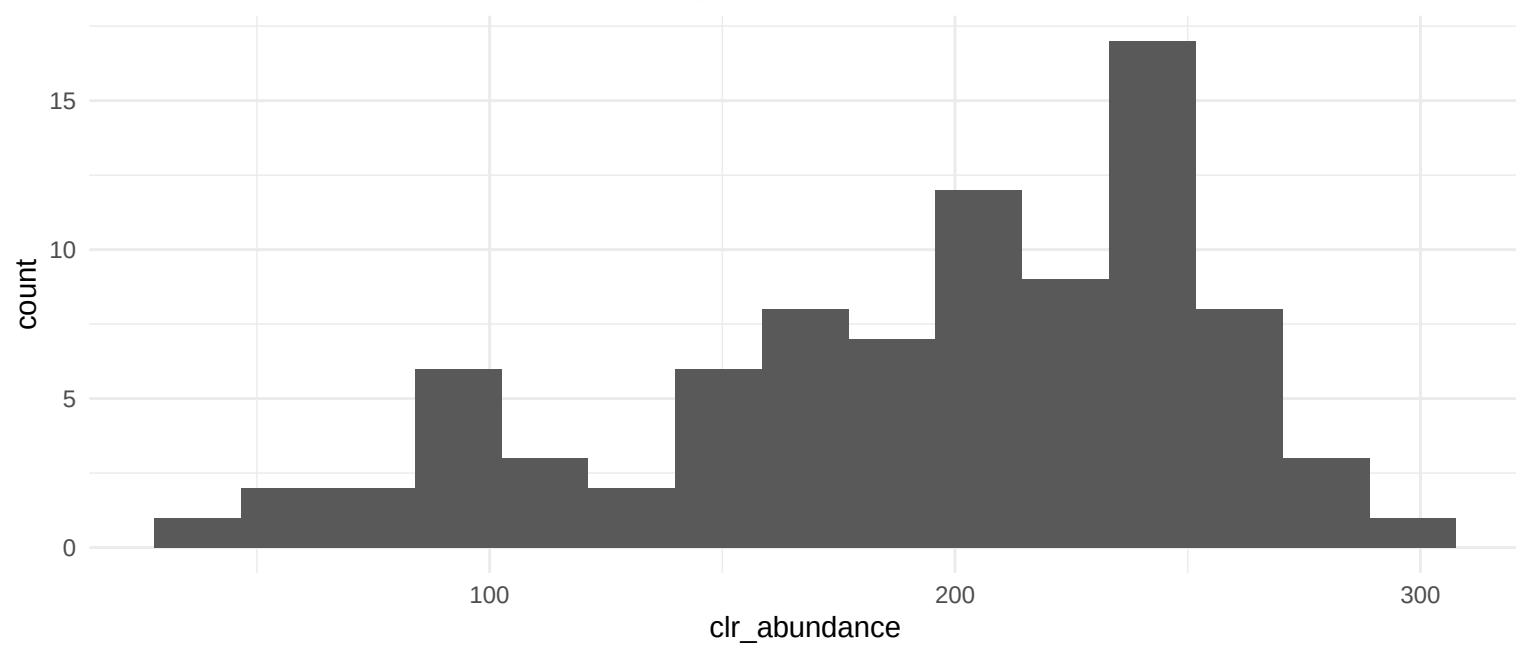

Distribution for 03013 Nucleocytoplasmic transport

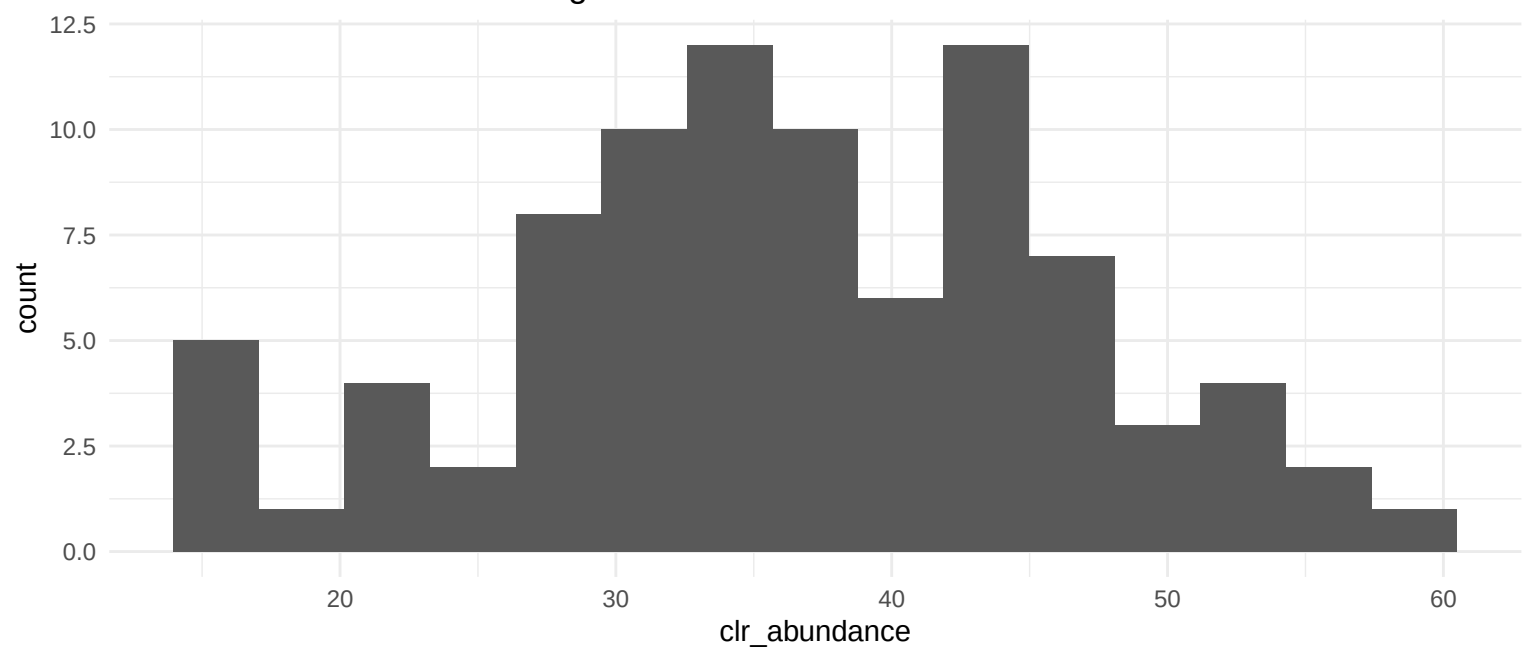

Distribution for 03015 mRNA surveillance pathway

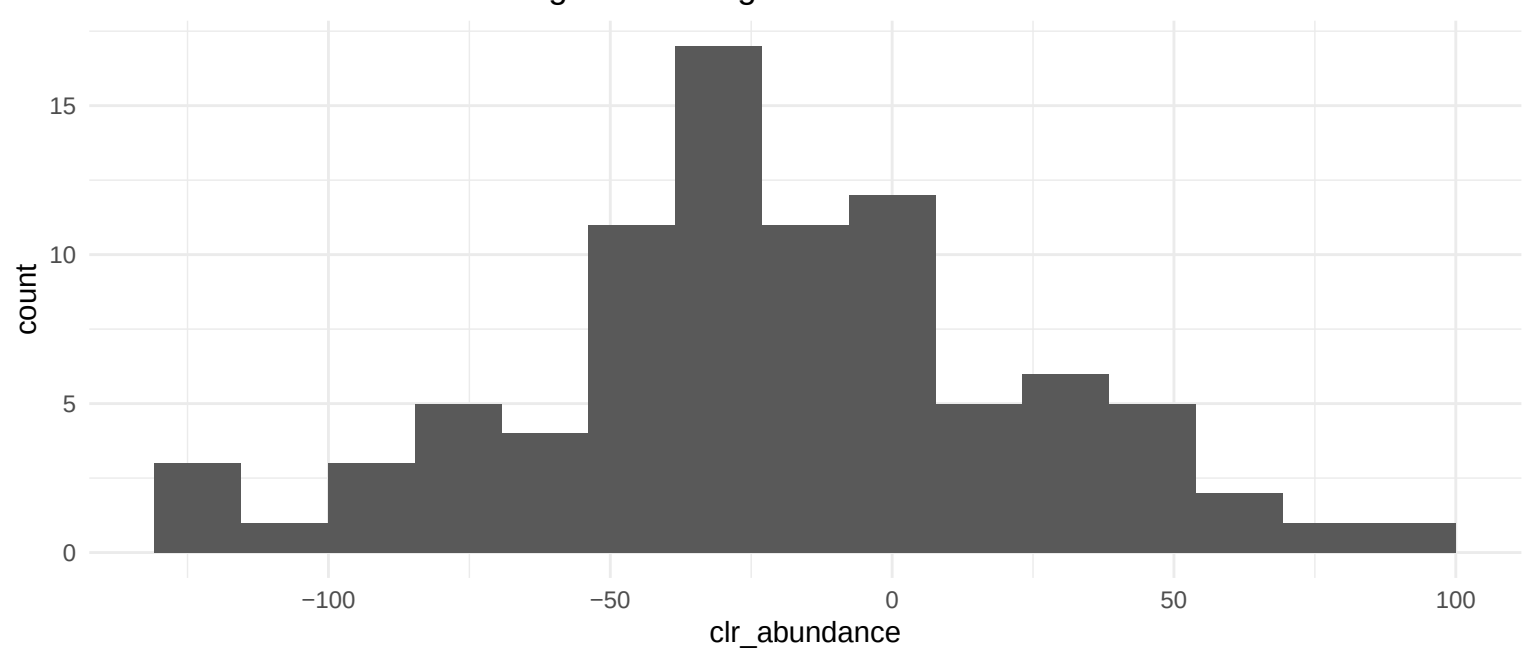

Distribution for 03016 Transfer RNA biogenesis

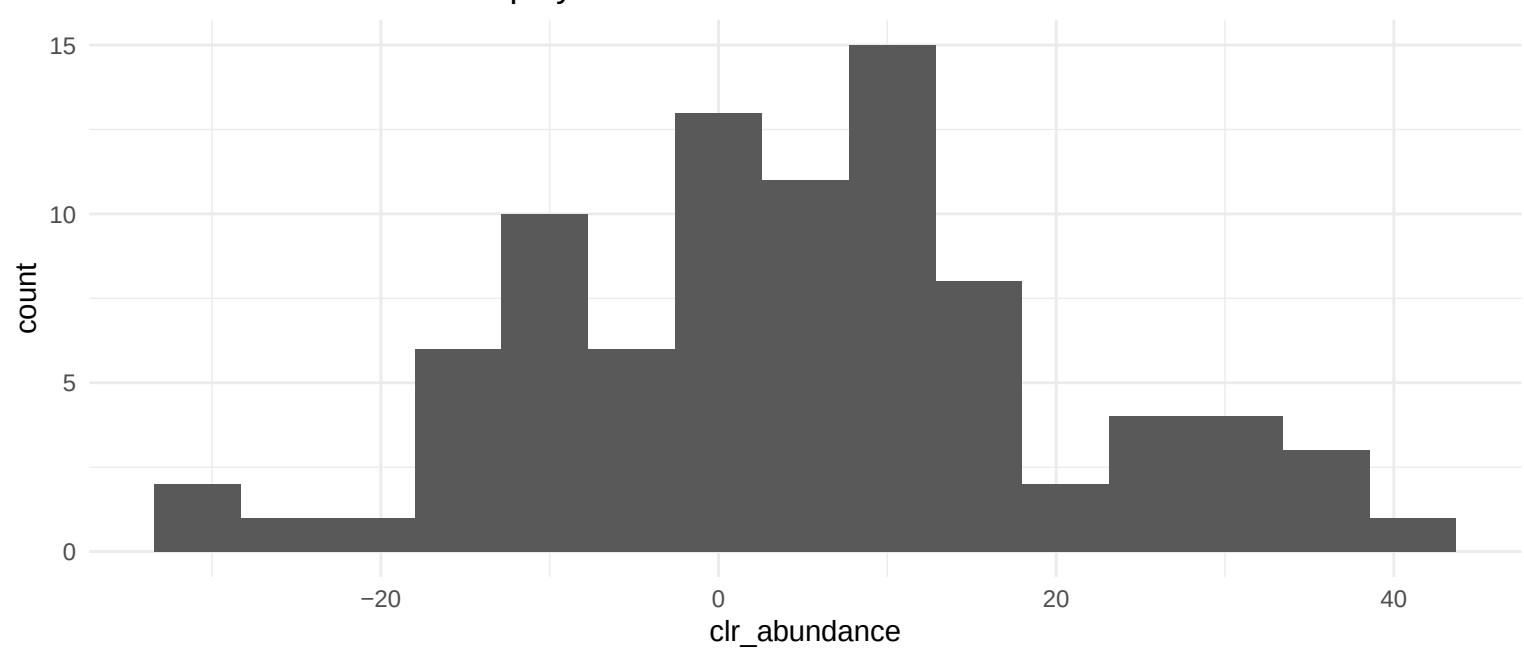

Distribution for 03018 RNA degradation

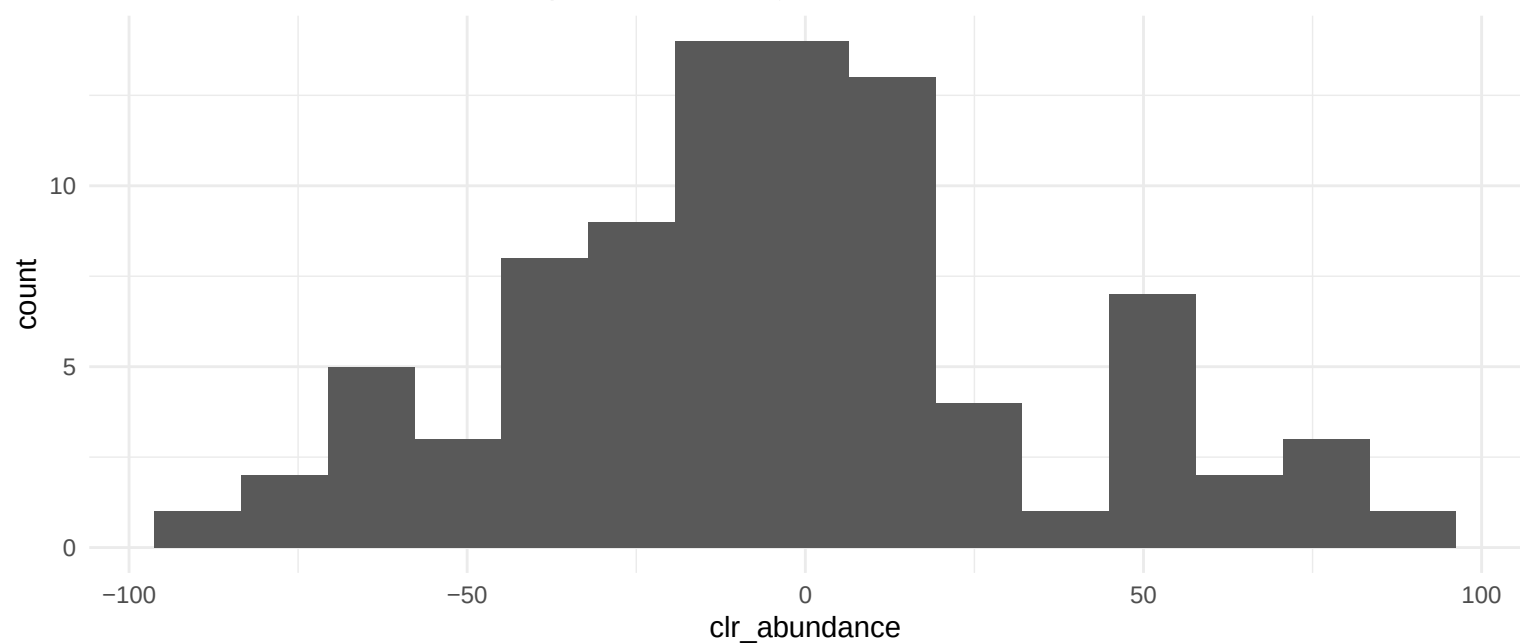

Distribution for 03019 Messenger RNA biogenesis

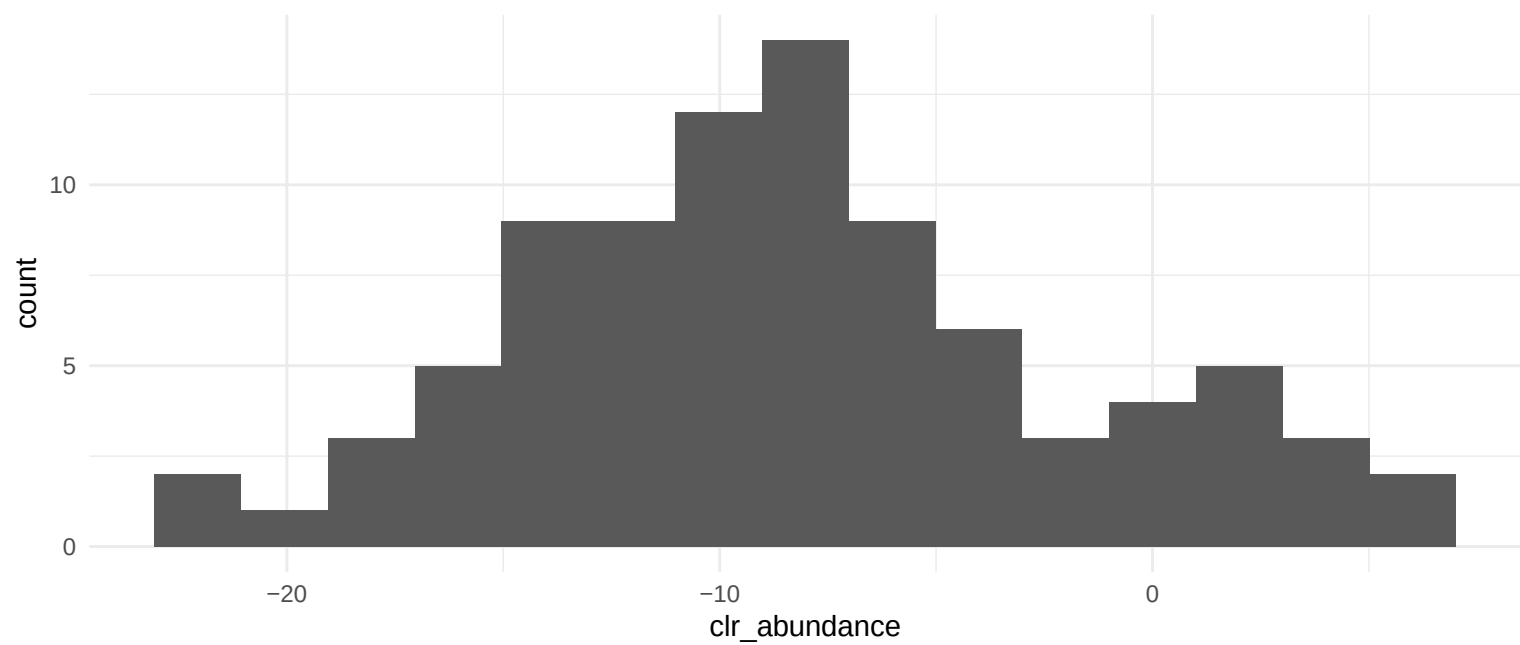

Distribution for 03020 RNA polymerase

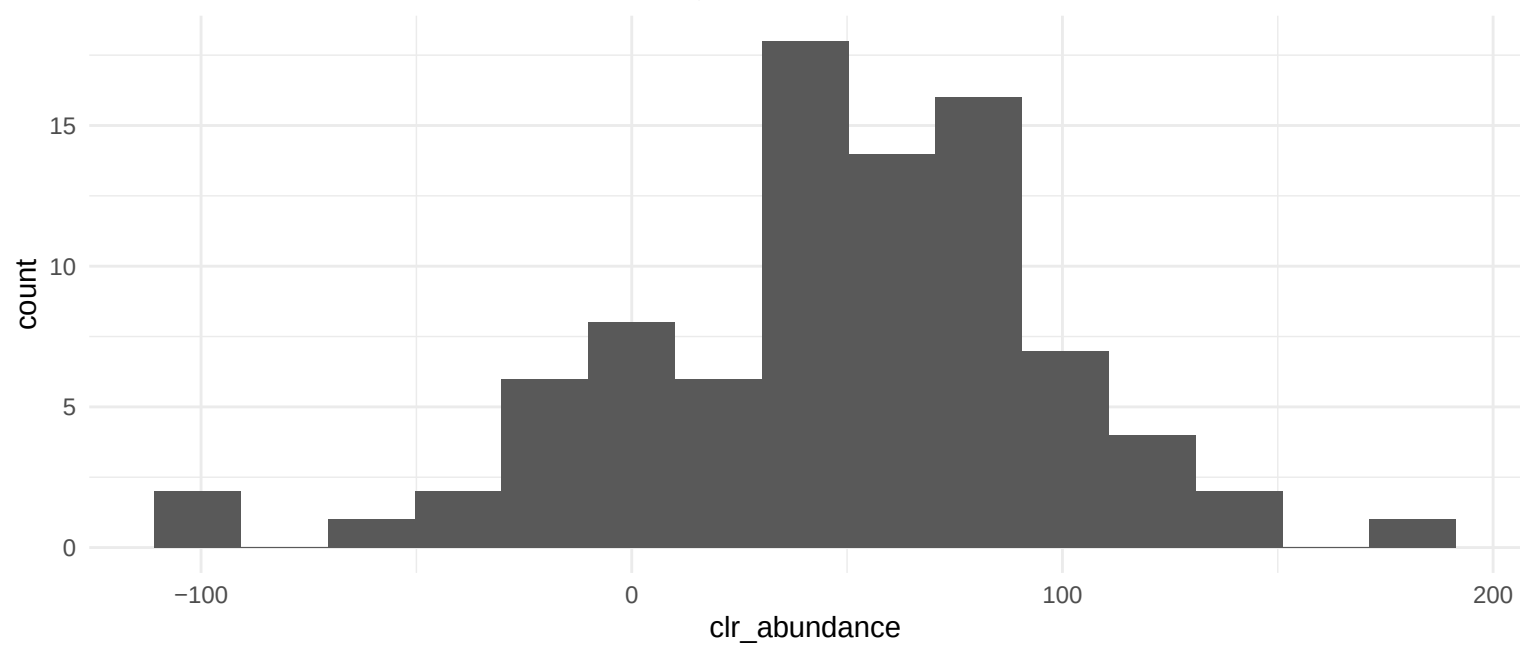

Distribution for 03021 Transcription machinery

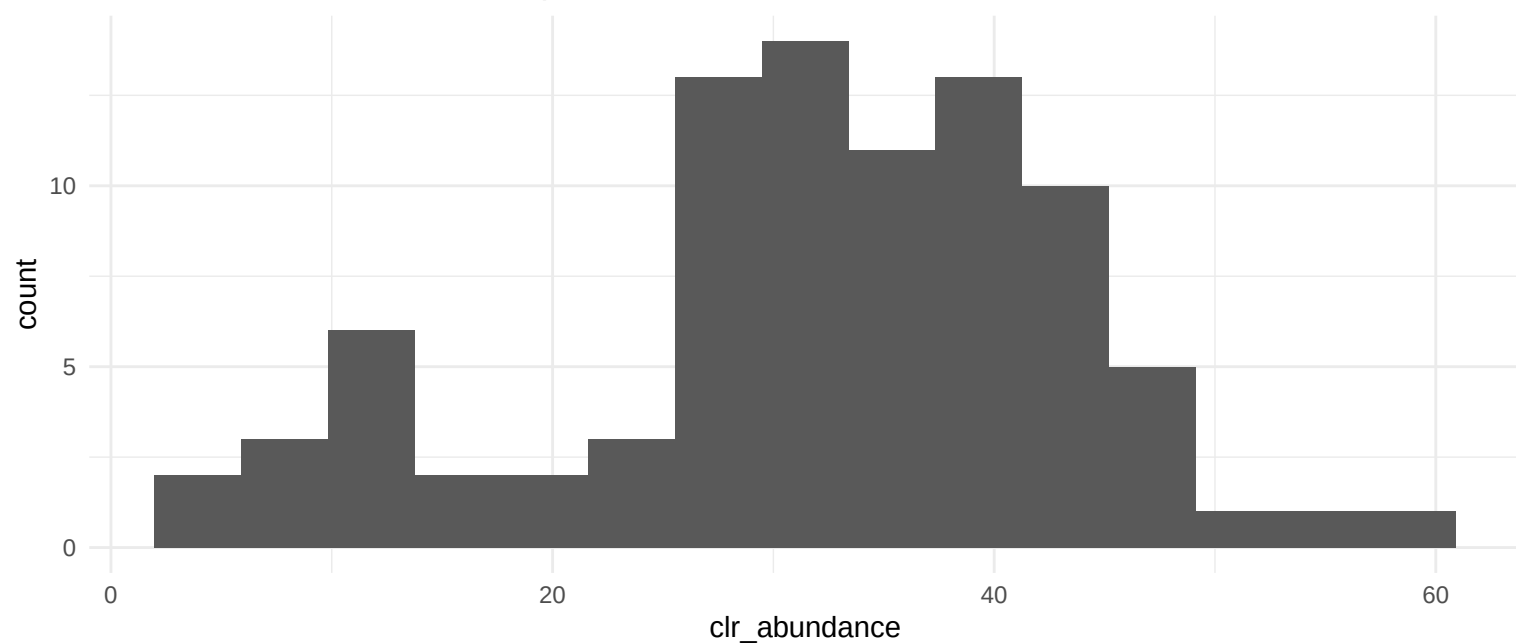

Distribution for 03022 Basal transcription factors

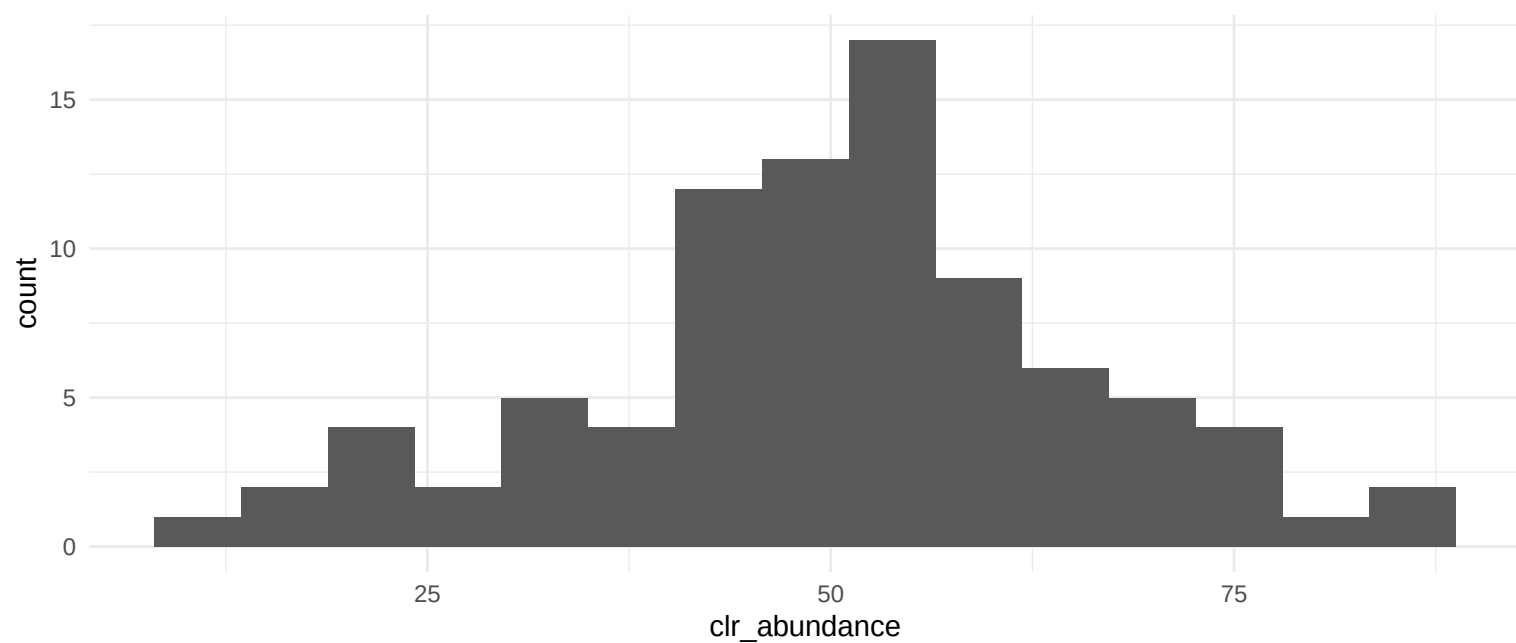

Distribution for 03029 Mitochondrial biogenesis

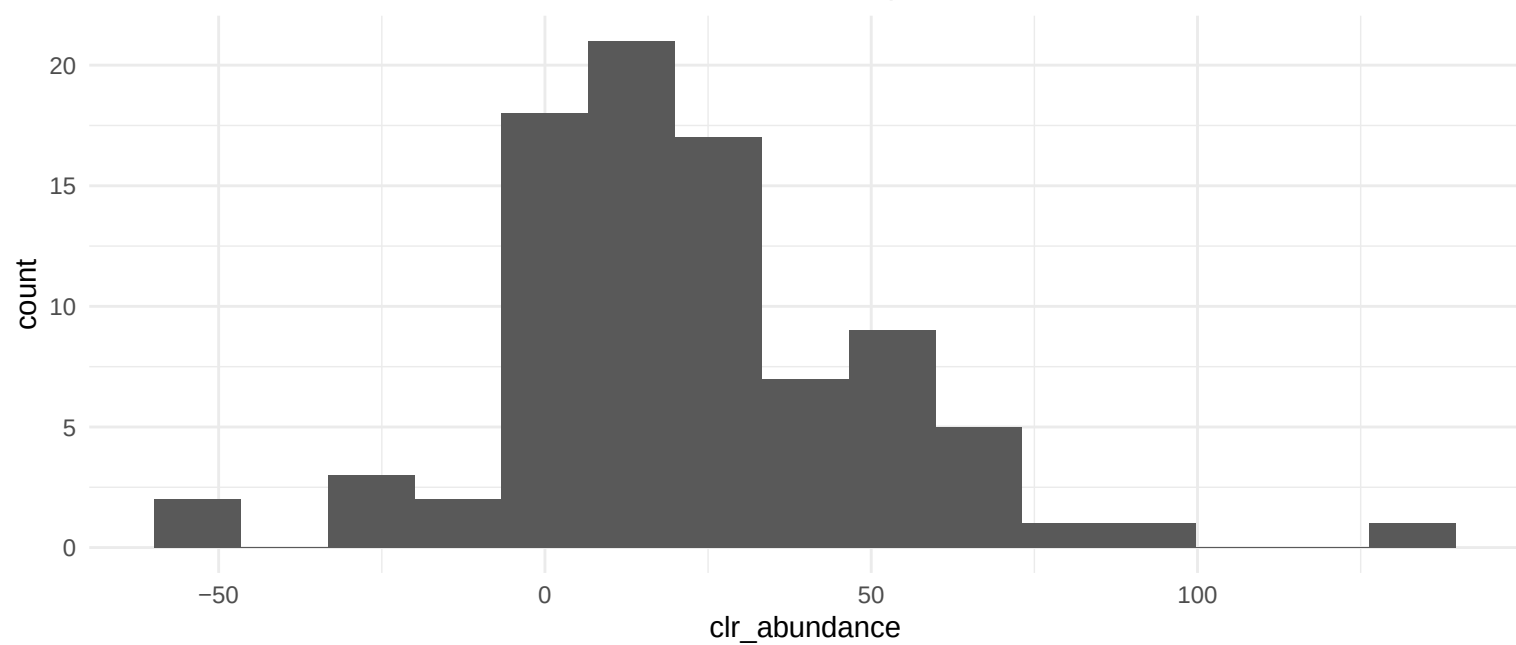

Distribution for 03030 DNA replication

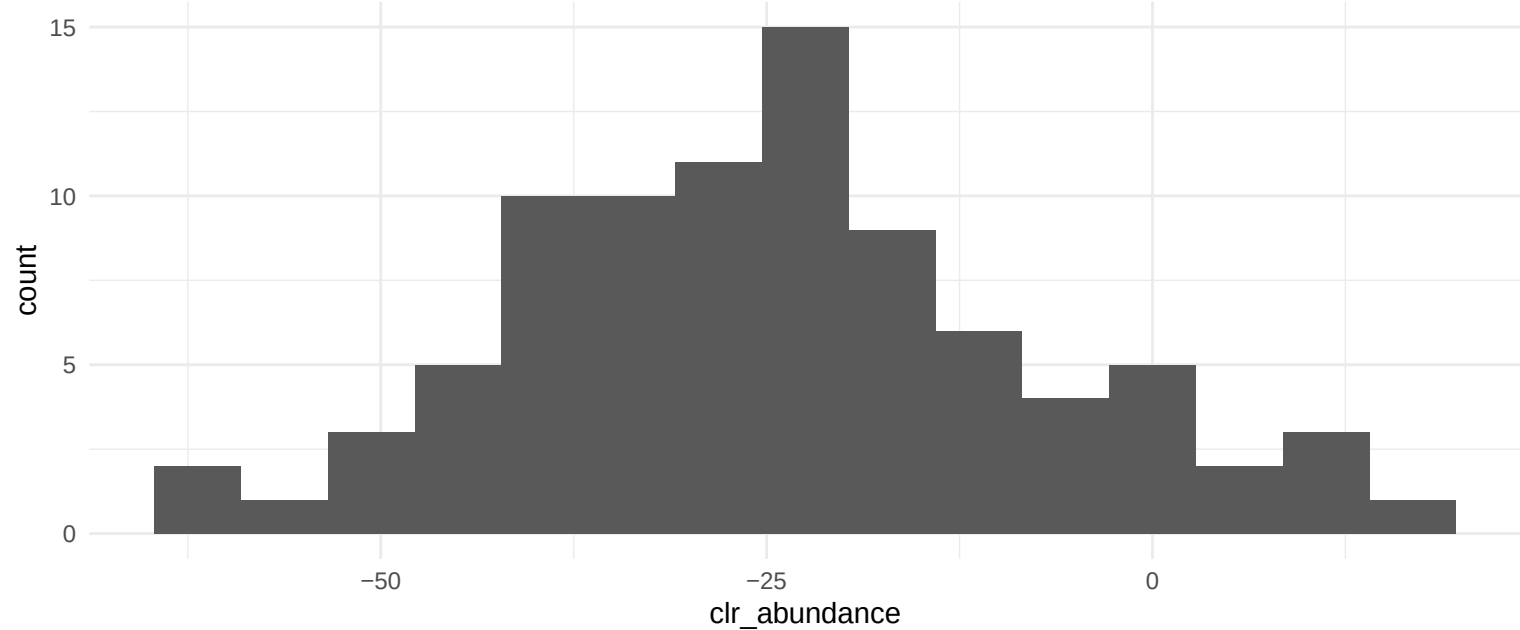

Distribution for 03032 DNA replication proteins

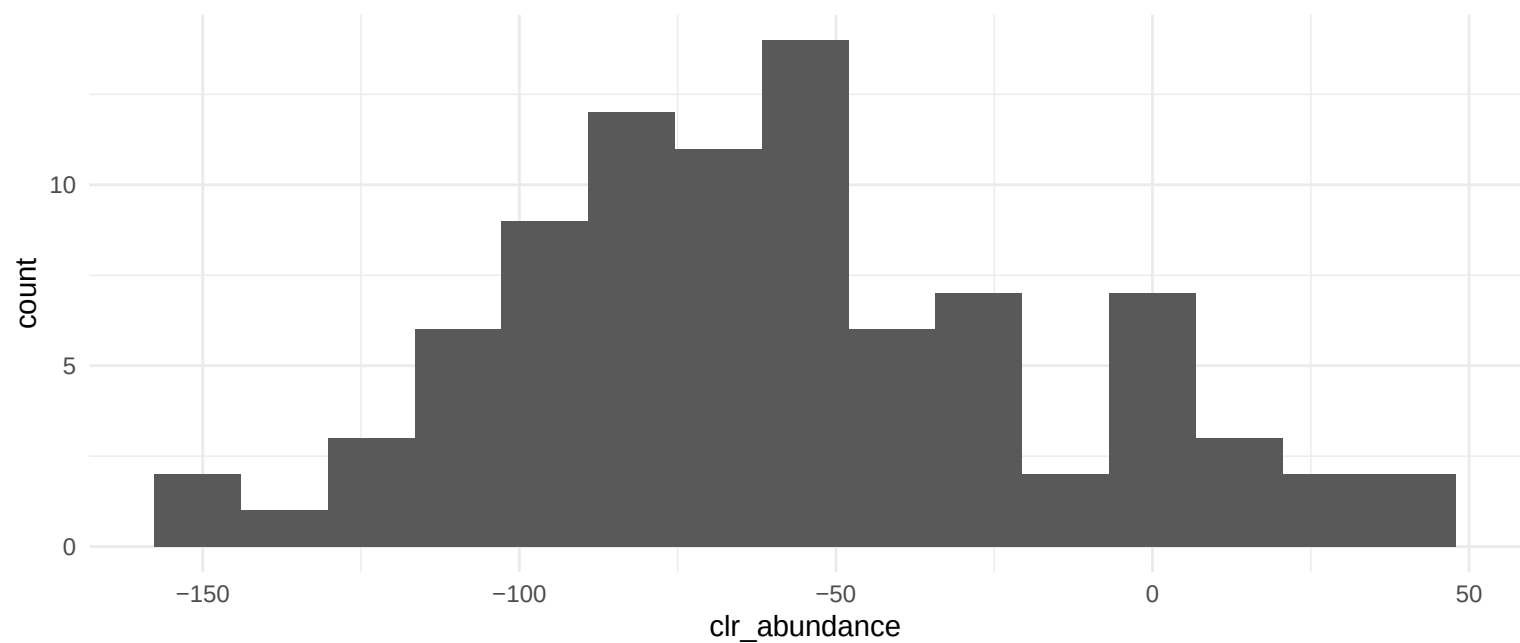

Distribution for 03036 Chromosome and associated proteins

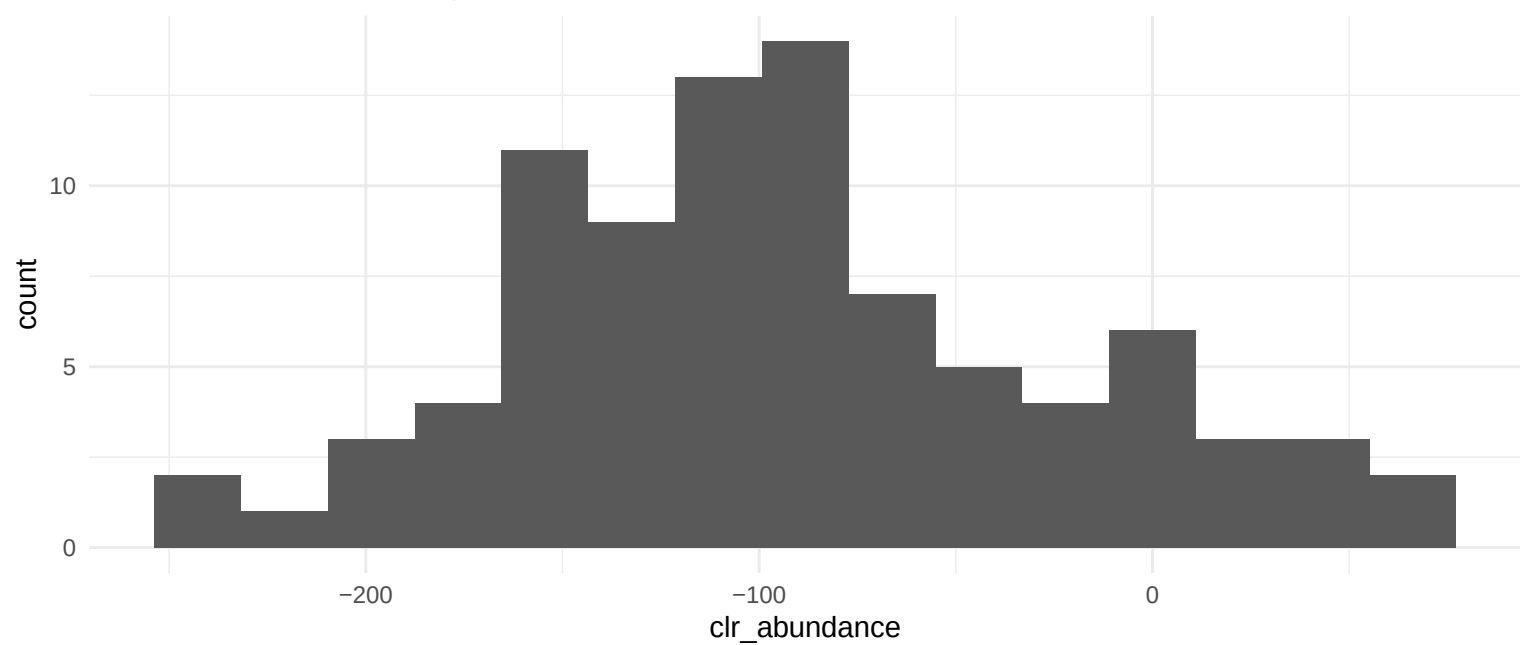

Distribution for 03037 Cilium and associated proteins

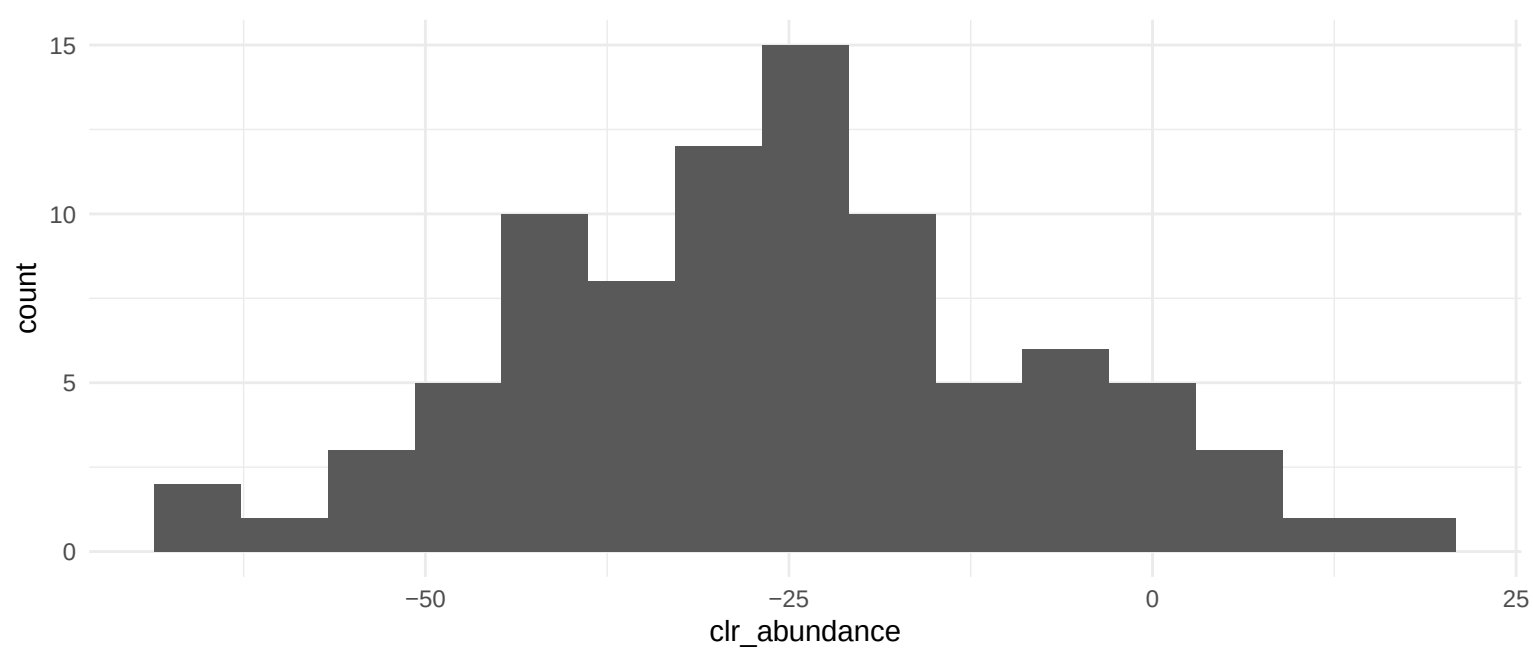

Distribution for 03040 Spliceosome

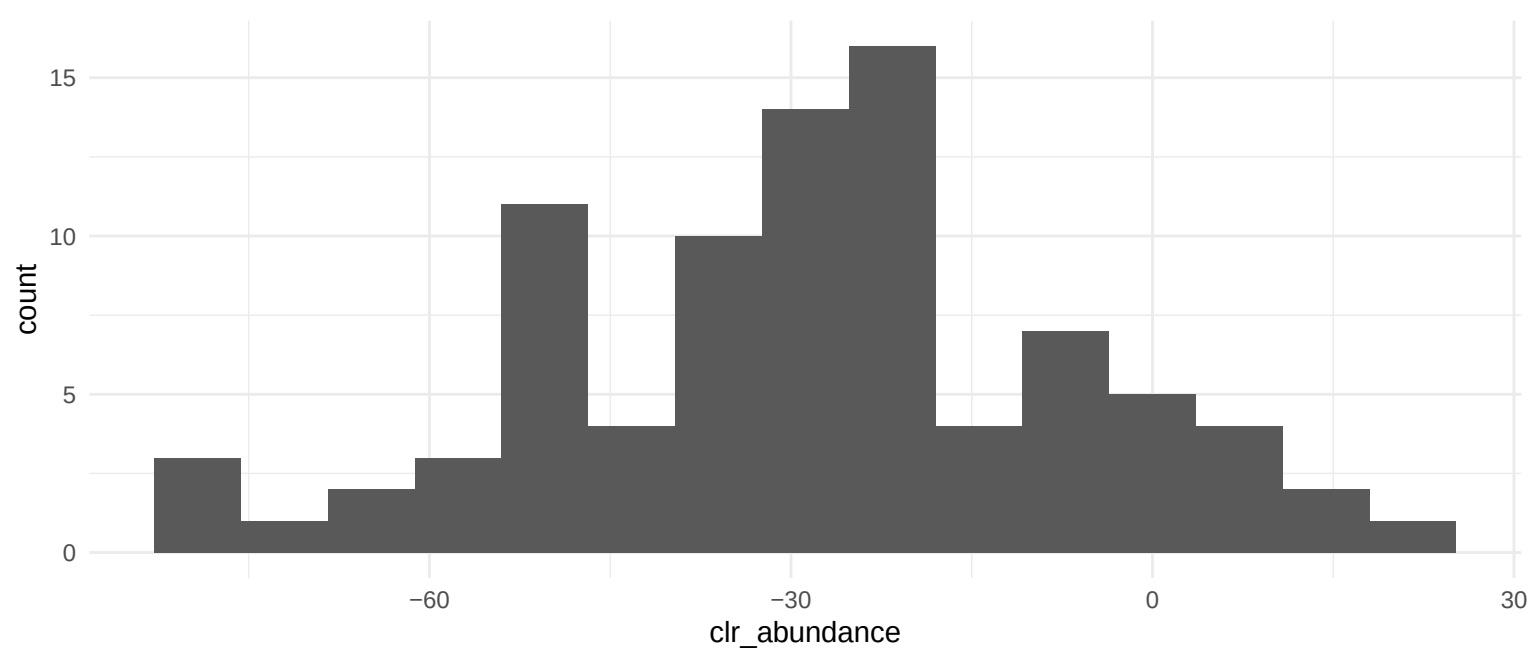

Distribution for 03041 Spliceosome

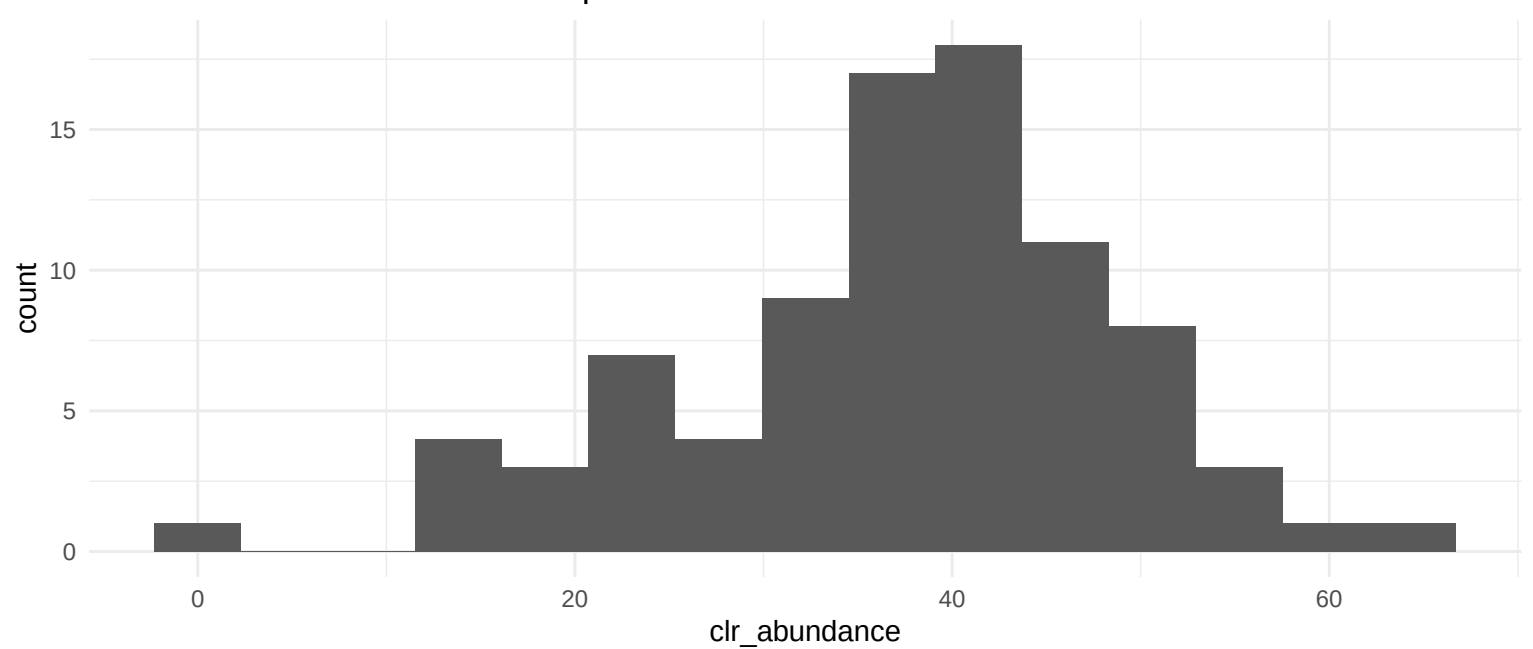

Distribution for 03050 Proteasome

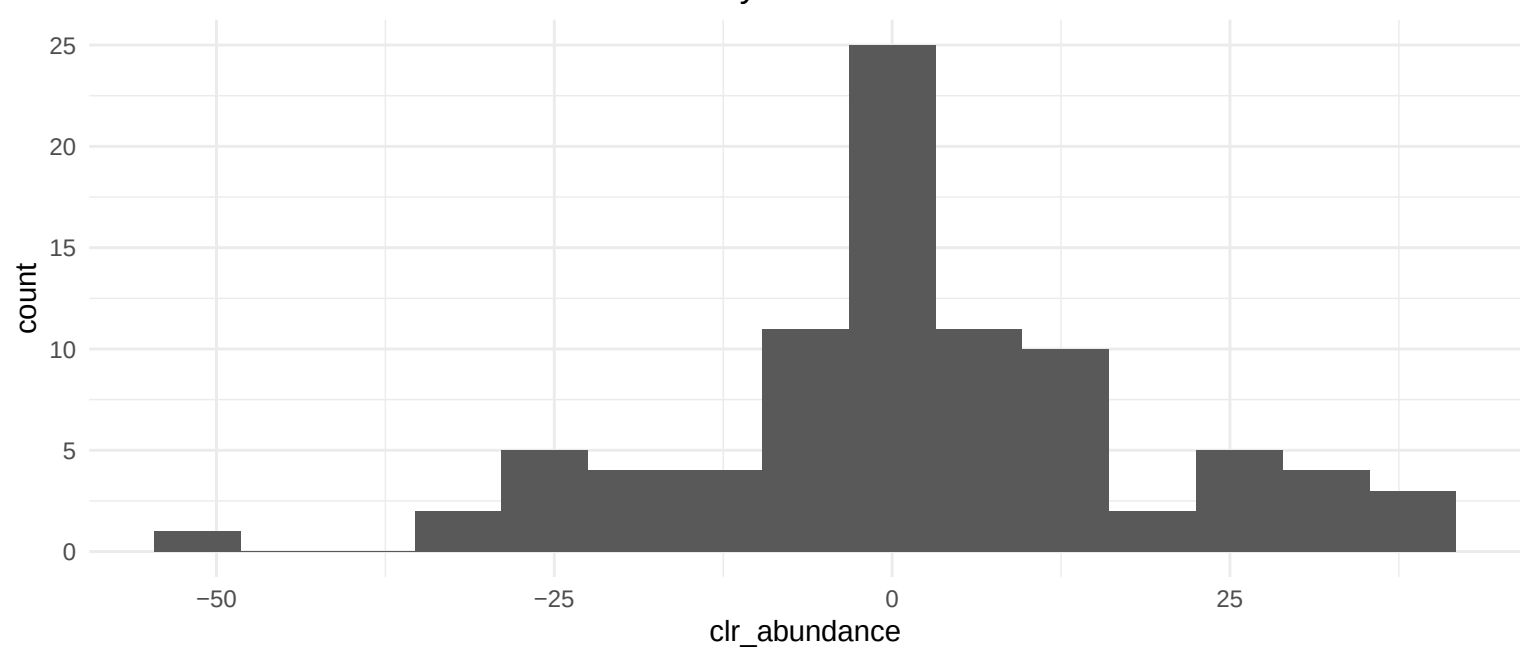

Distribution for 03051 Proteasome

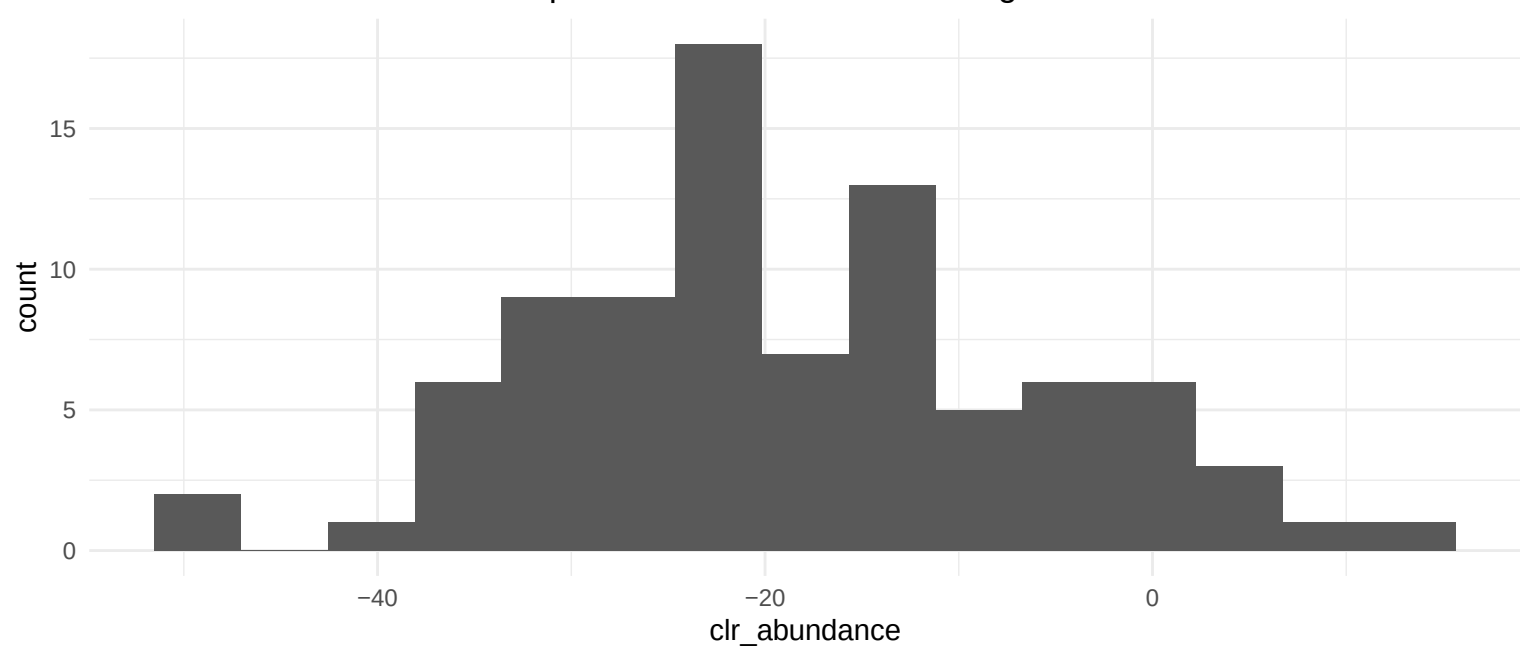

Distribution for 03060 Protein export

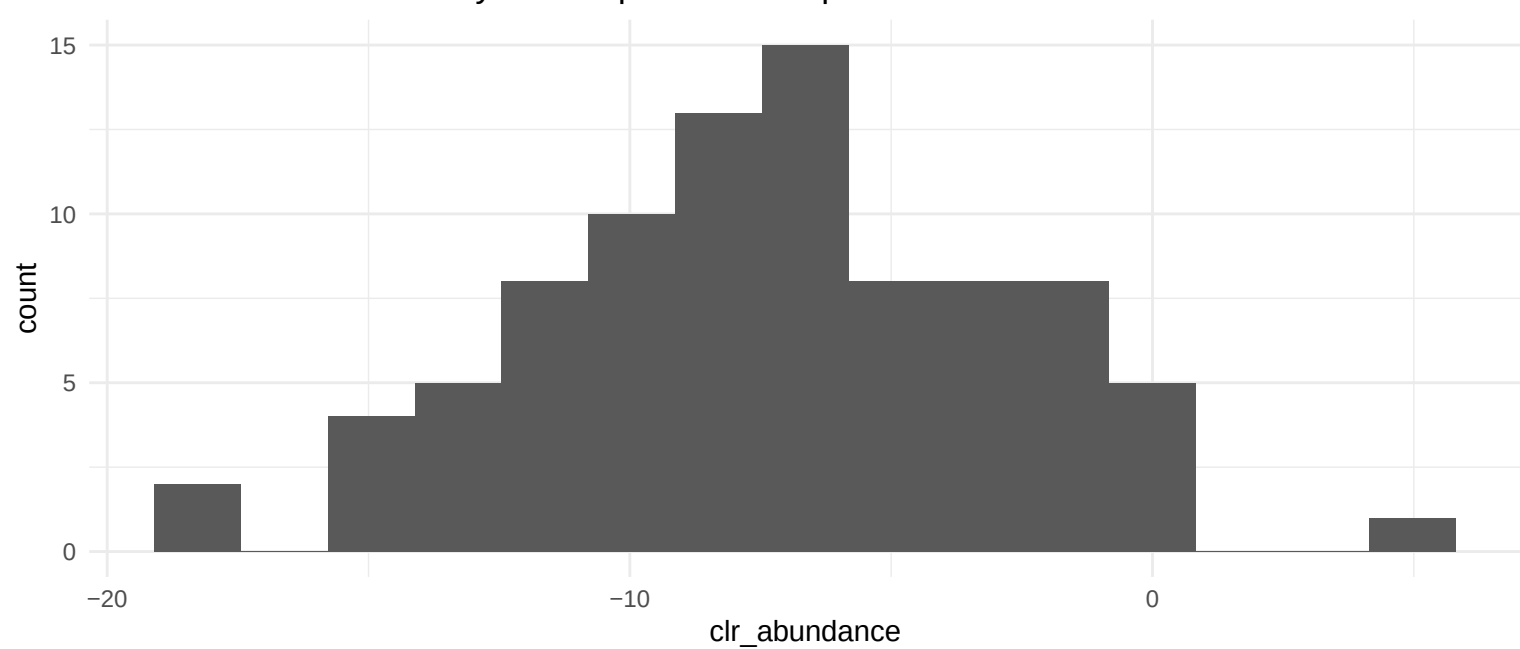

Distribution for 03070 Bacterial secretion system

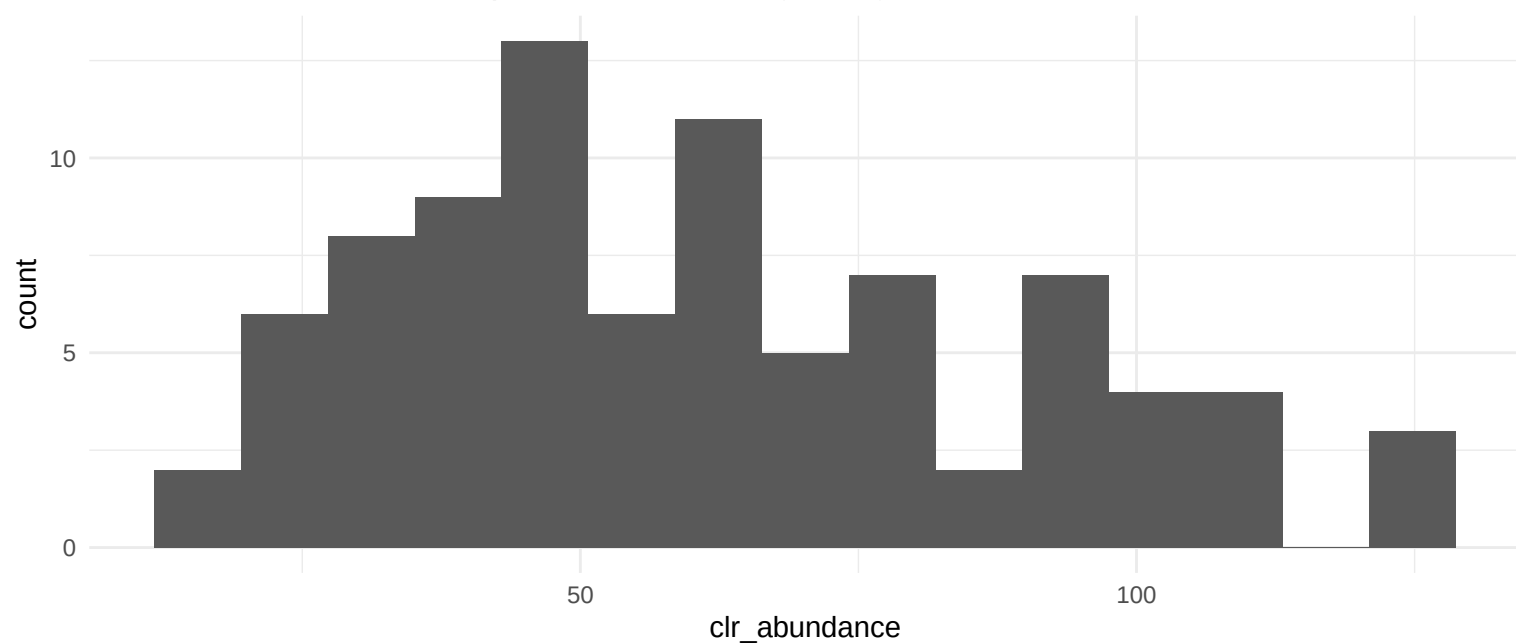

Distribution for 03082 ATP-dependent chromatin remodeling

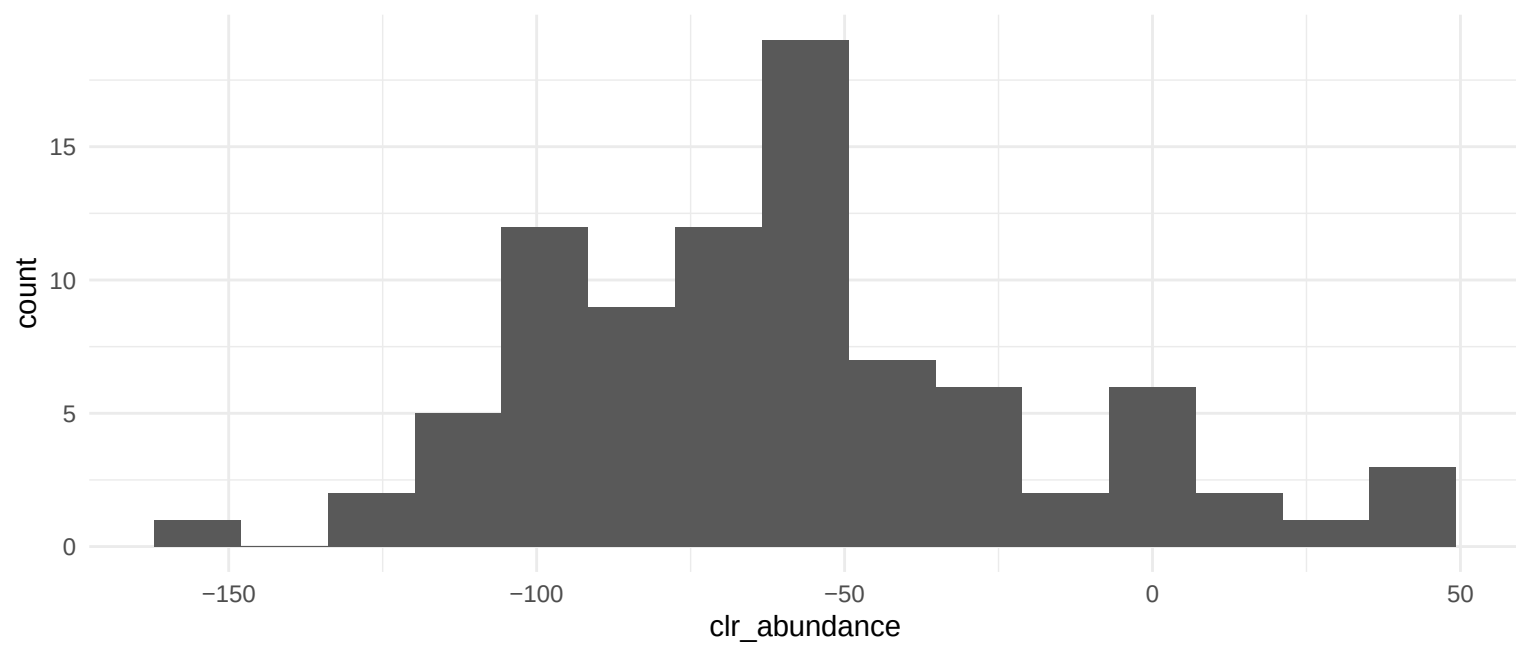

Distribution for 03083 Polycomb repressive complex

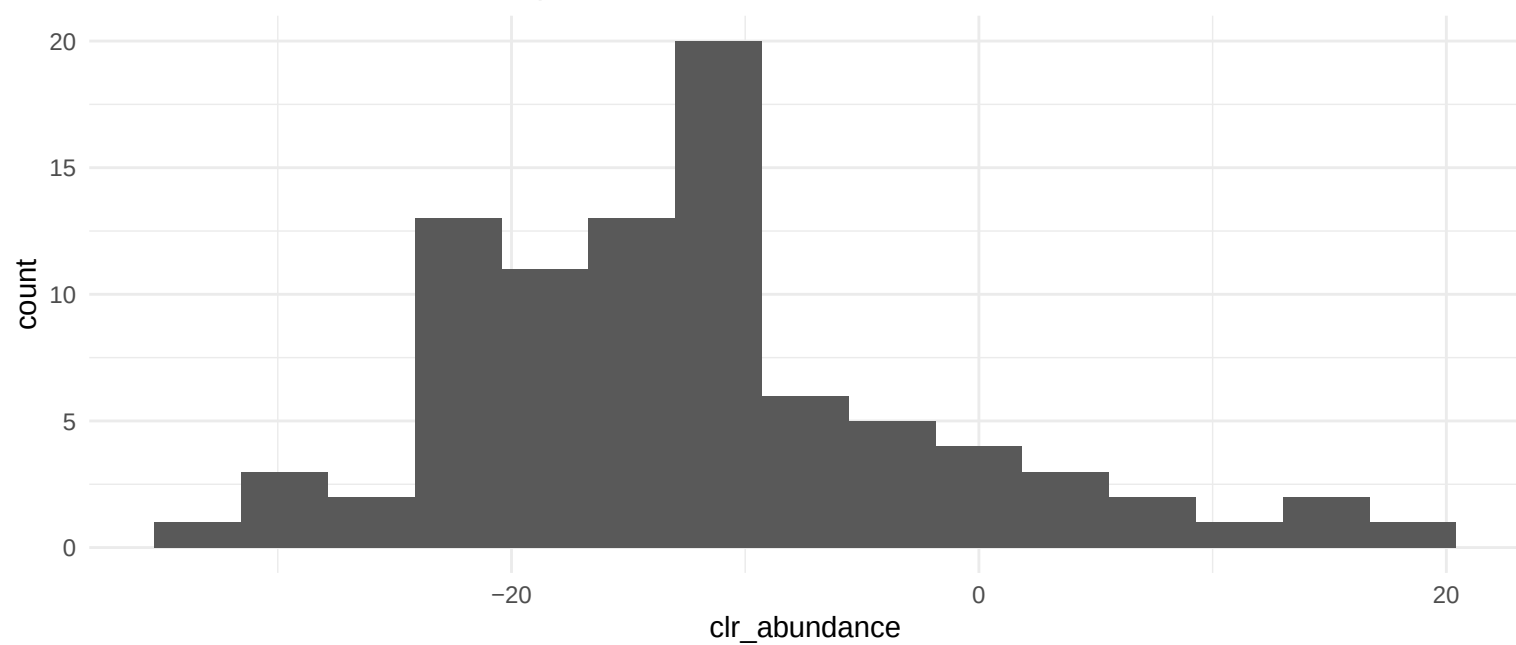

Distribution for 03110 Chaperones and folding catalysts

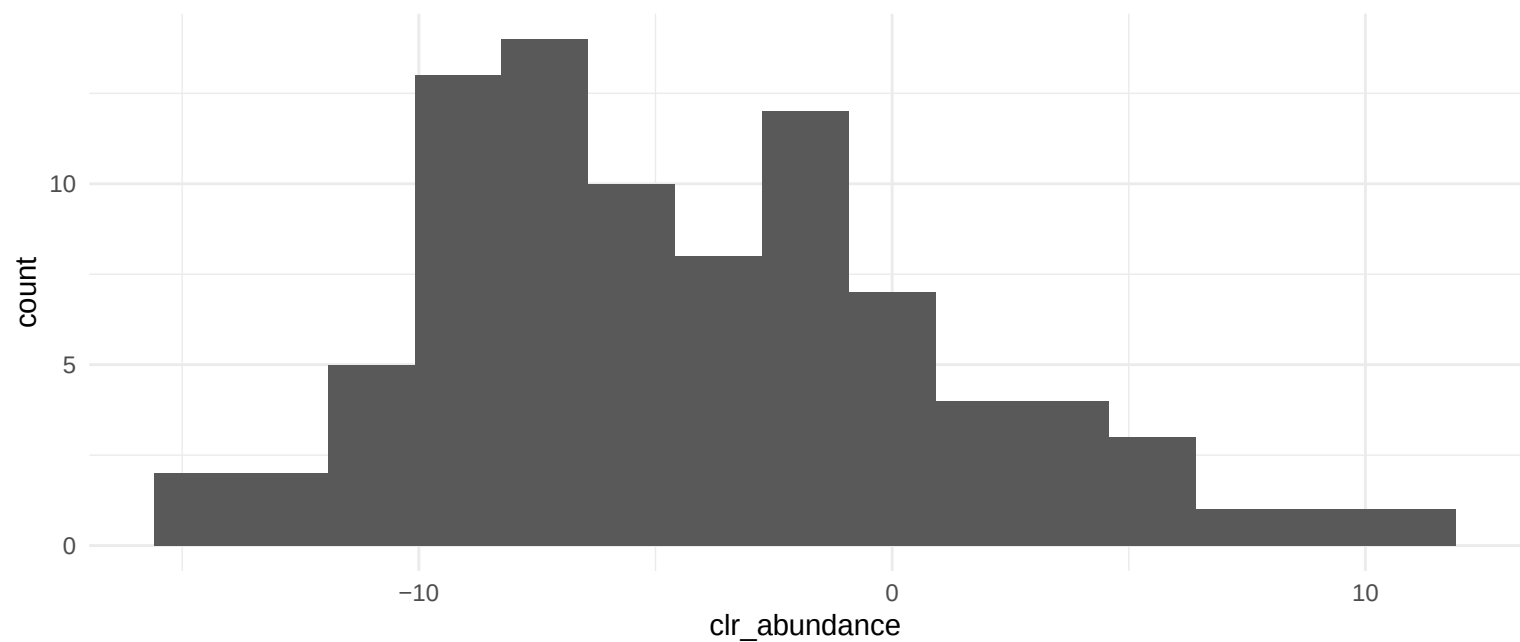

Distribution for 03200 Viral proteins

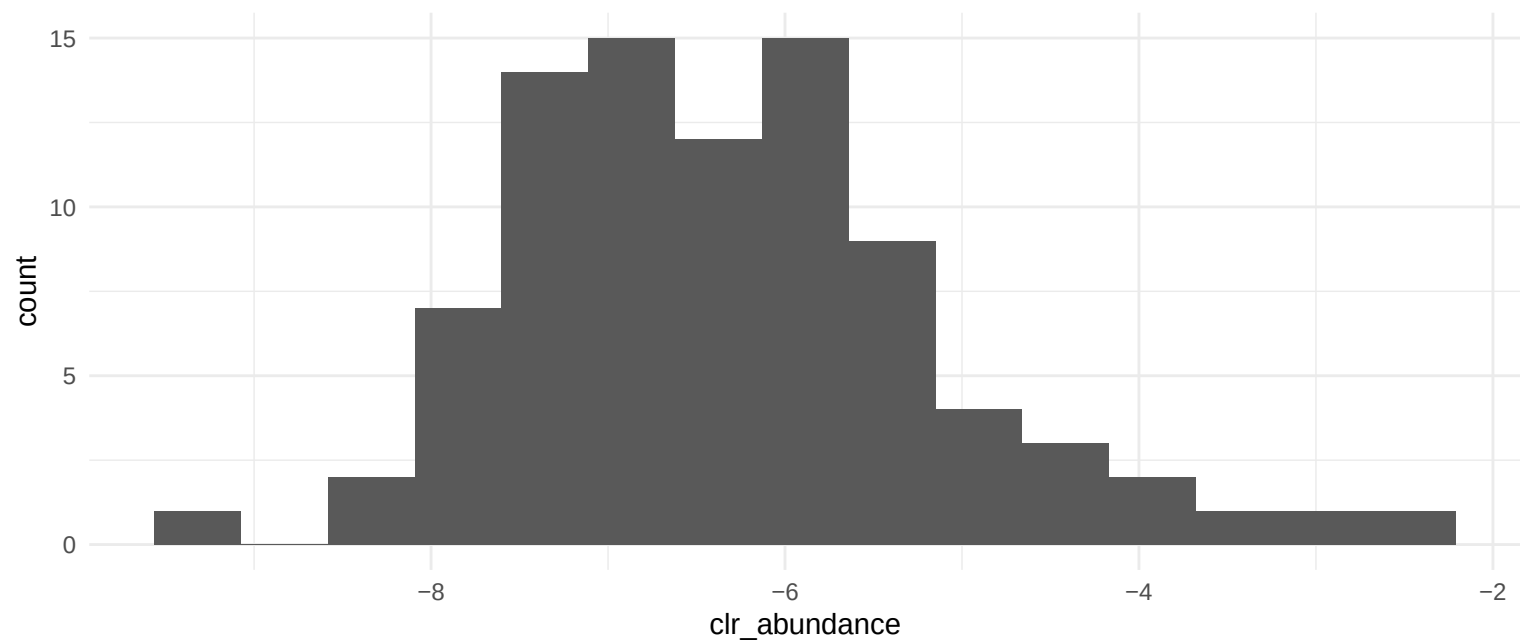

Distribution for 03240 Viral replication

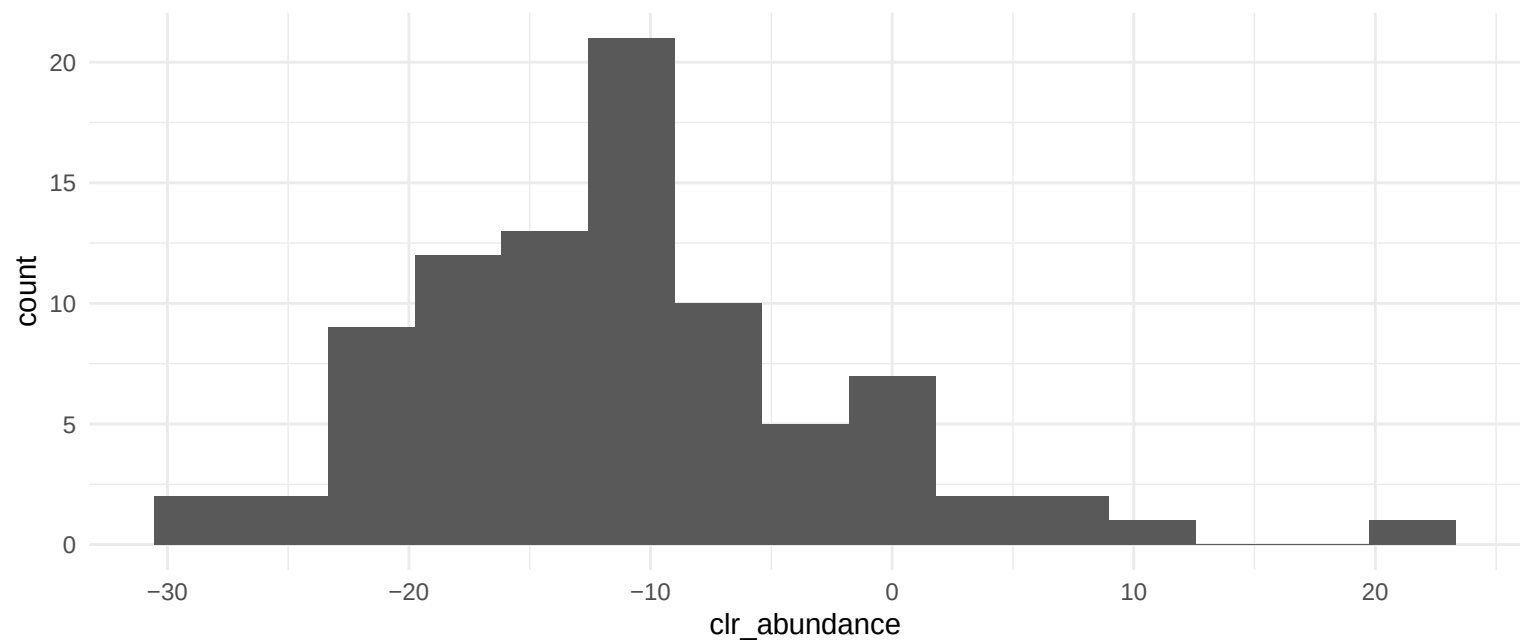

Distribution for 03250 Viral life cycle – HIV-1

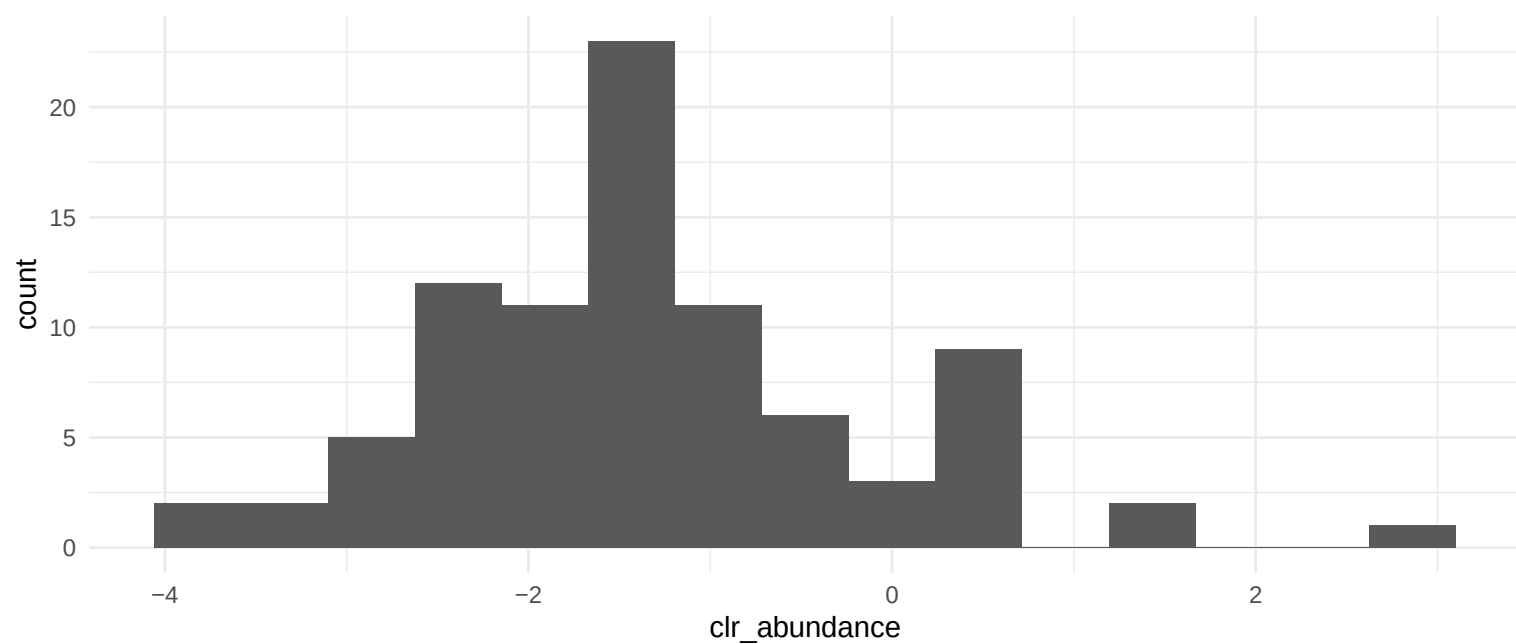

Distribution for 03258 Virion – Bacteriophage lambda

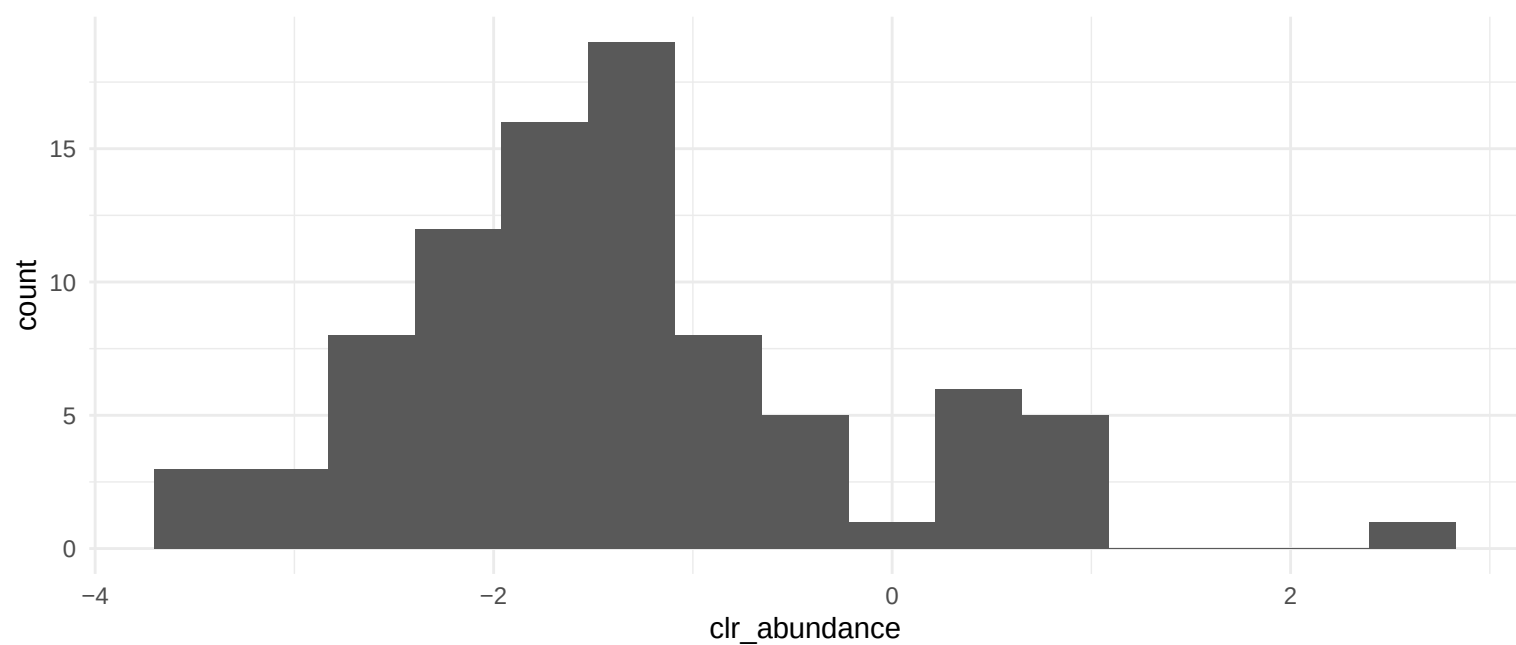

Distribution for 03259 Virion – Bacteriophages T4 and T7

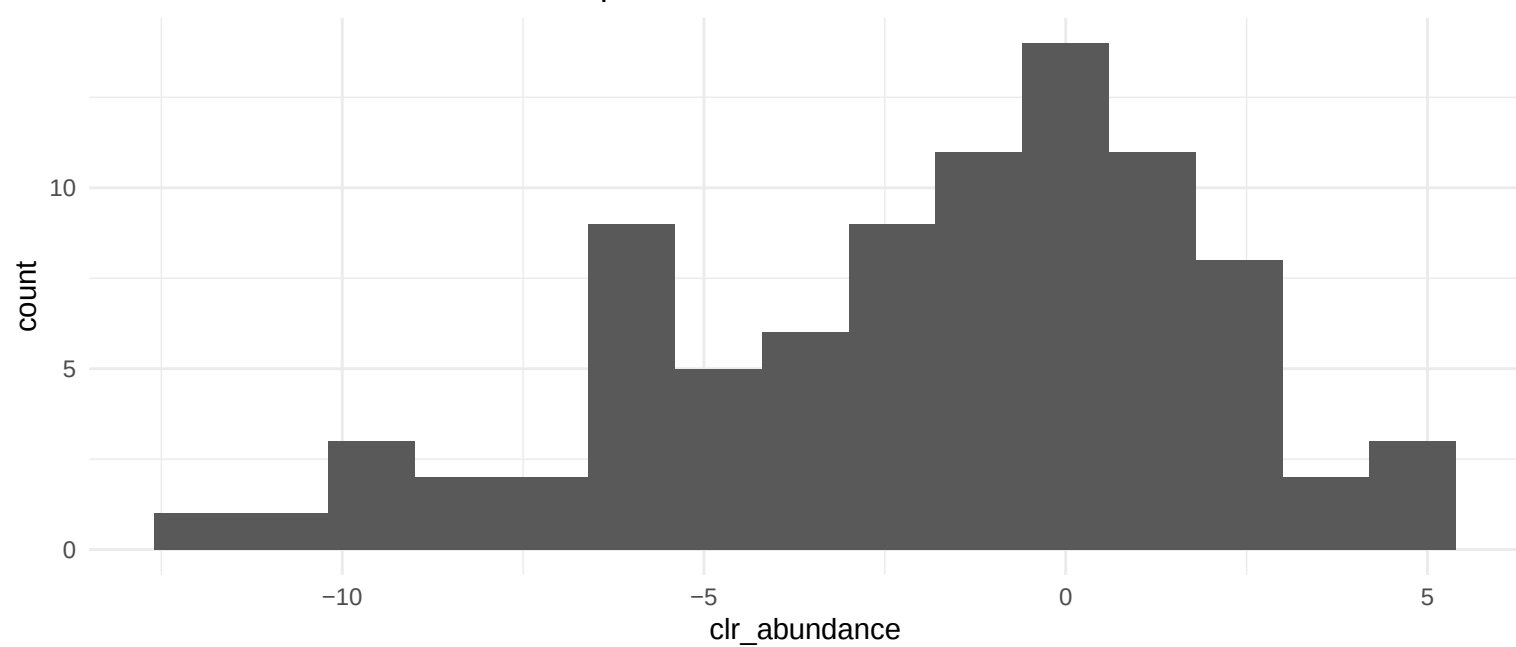

Distribution for 03264 Virion – Flavivirus and Alphavirus

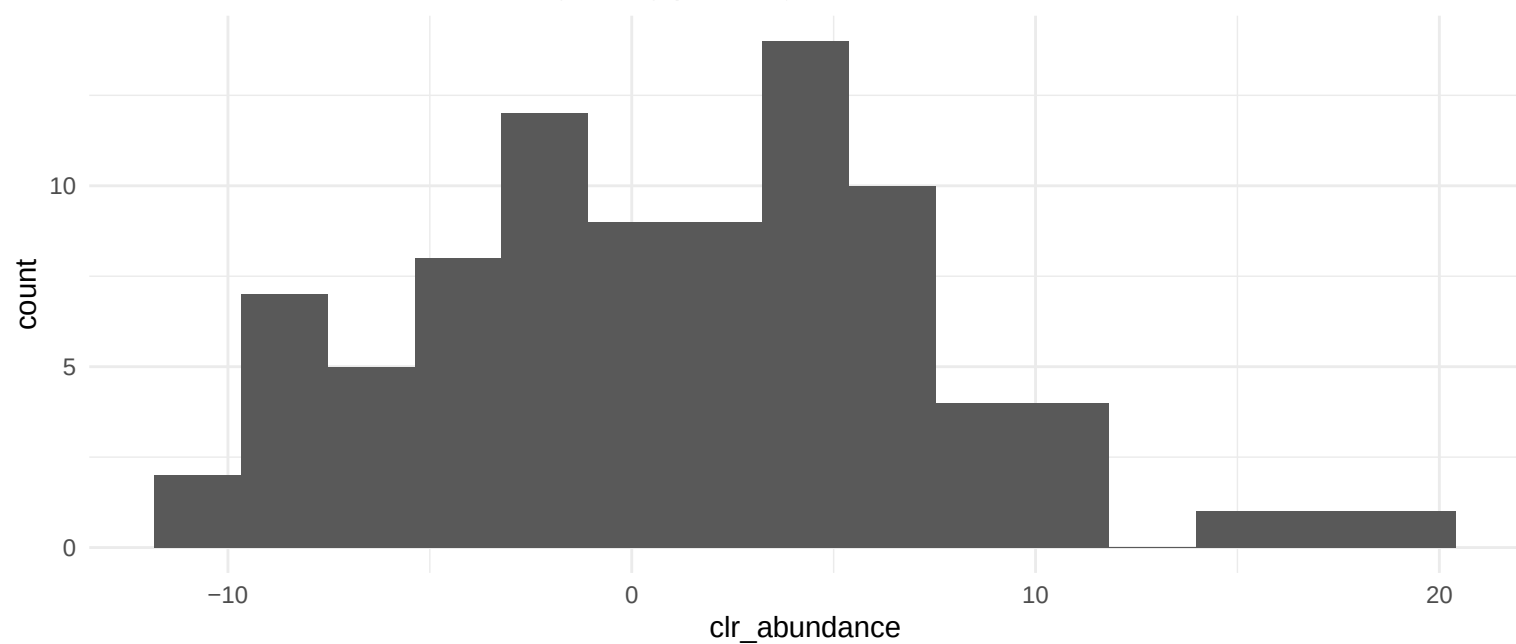

Distribution for 03267 Virion – Adenovirus

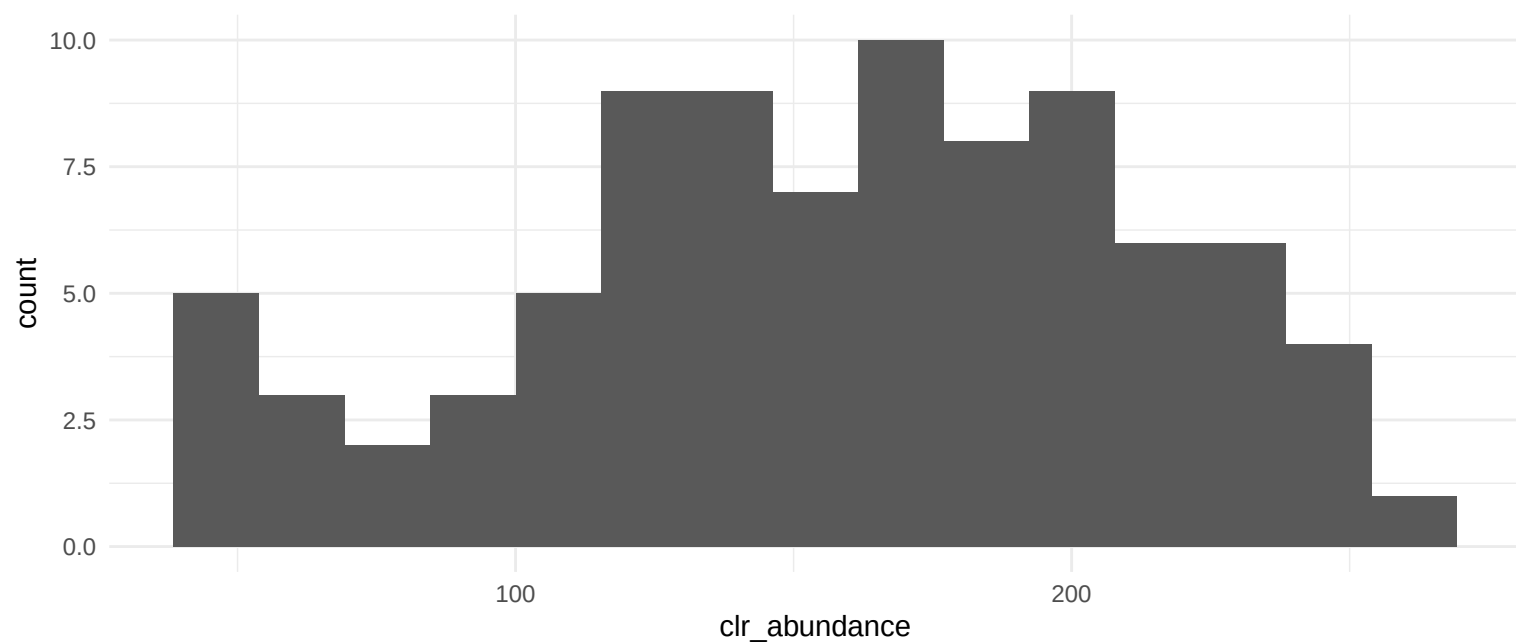

Distribution for 03272 Virion – Hepatitis viruses

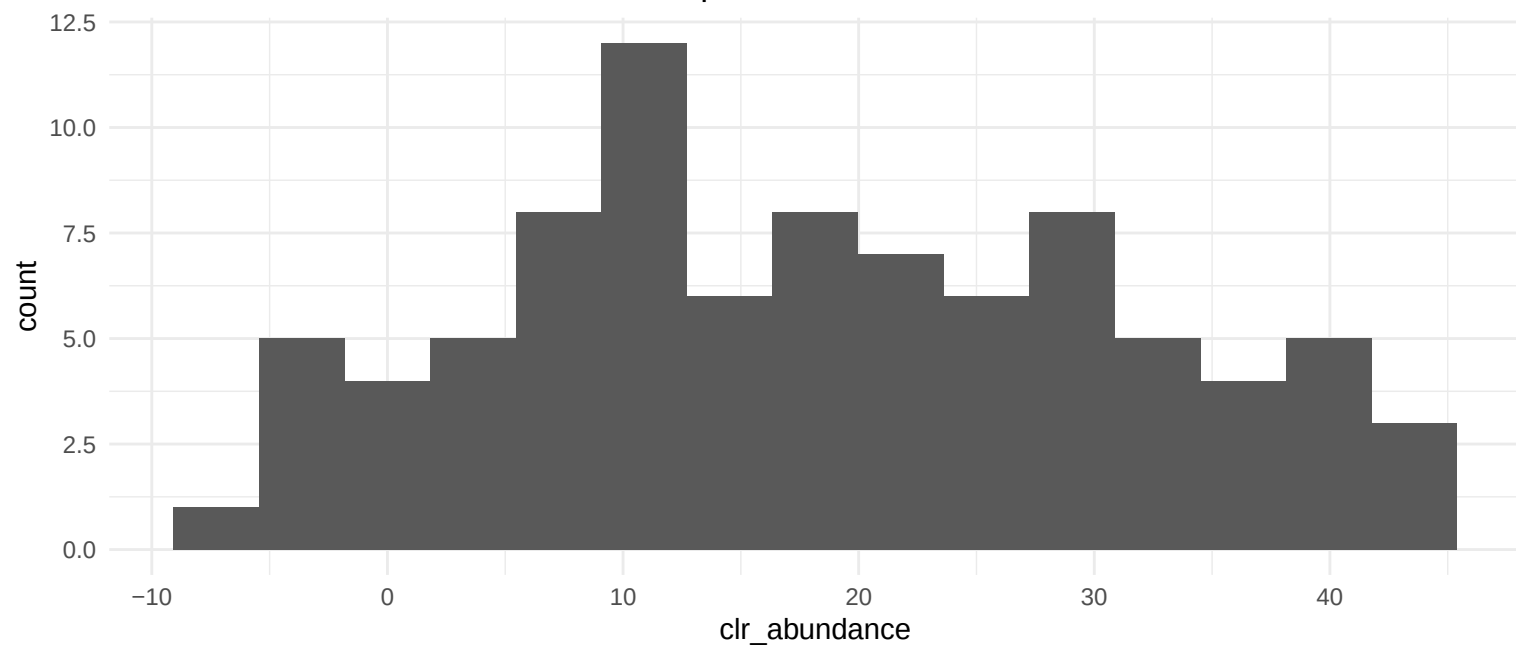

Distribution for 03320 PPAR signaling pathway

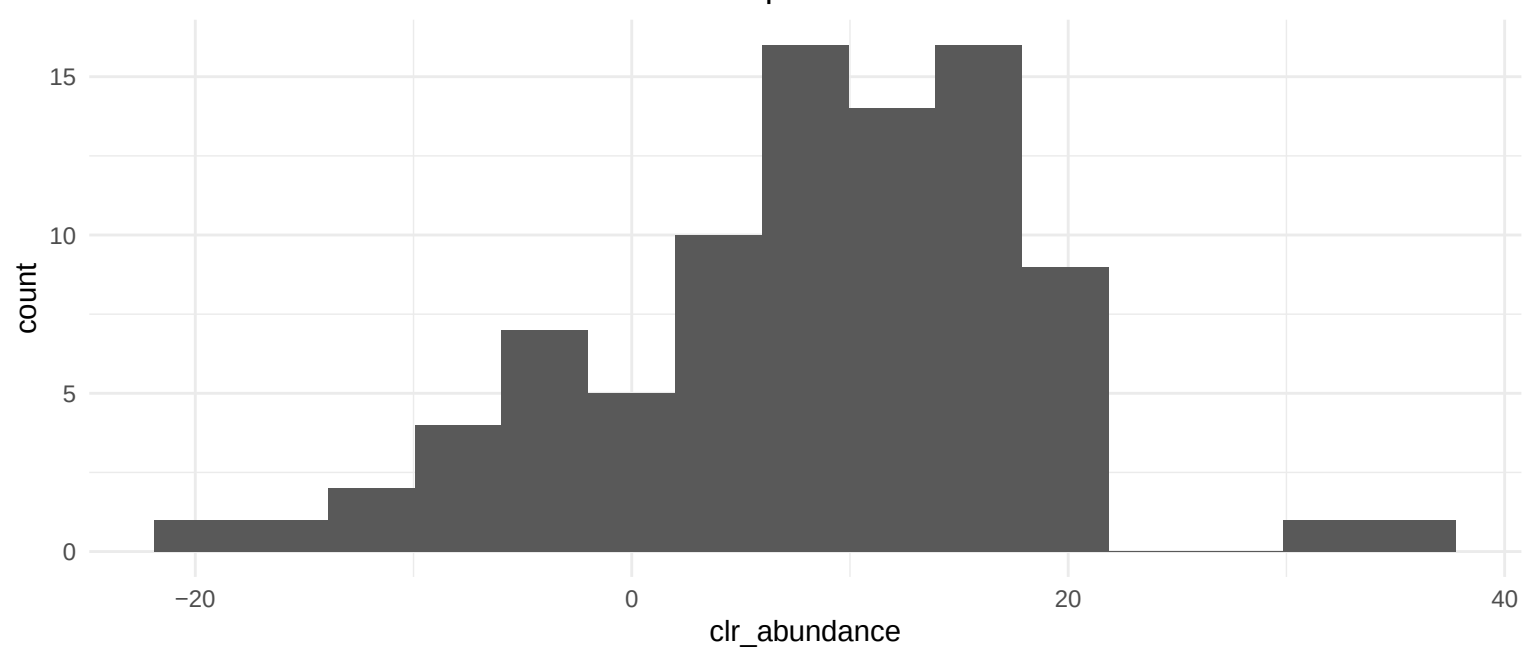

Distribution for 03400 DNA repair and recombination proteins

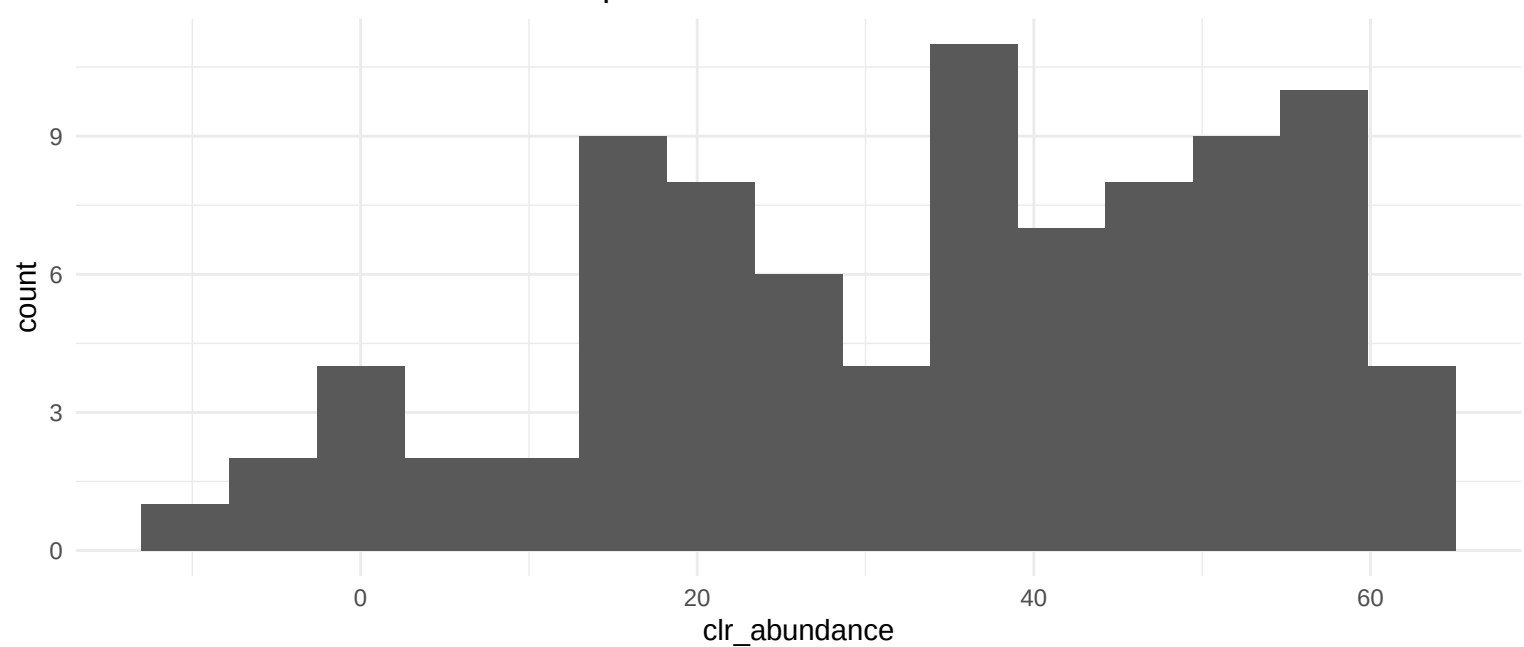

Distribution for 03410 Base excision repair

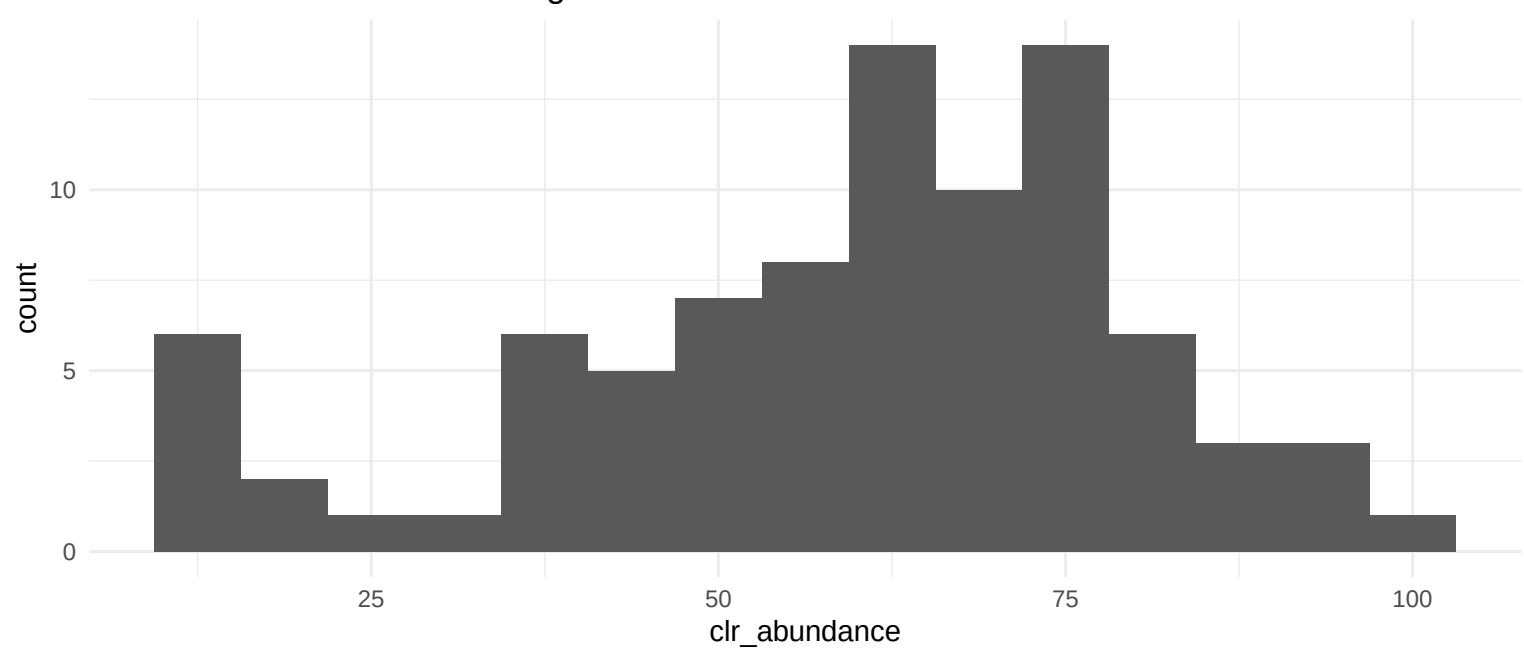

Distribution for 03420 Nucleotide excision repair

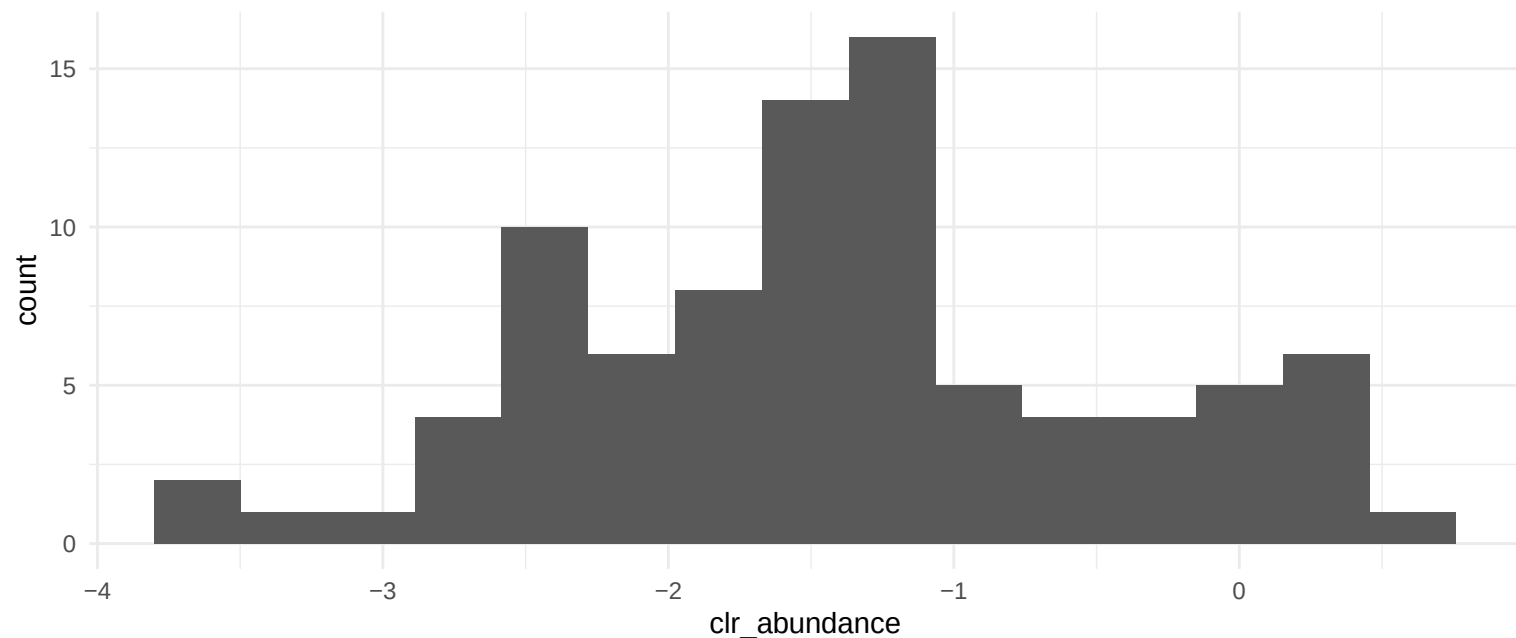

Distribution for 03430 Mismatch repair

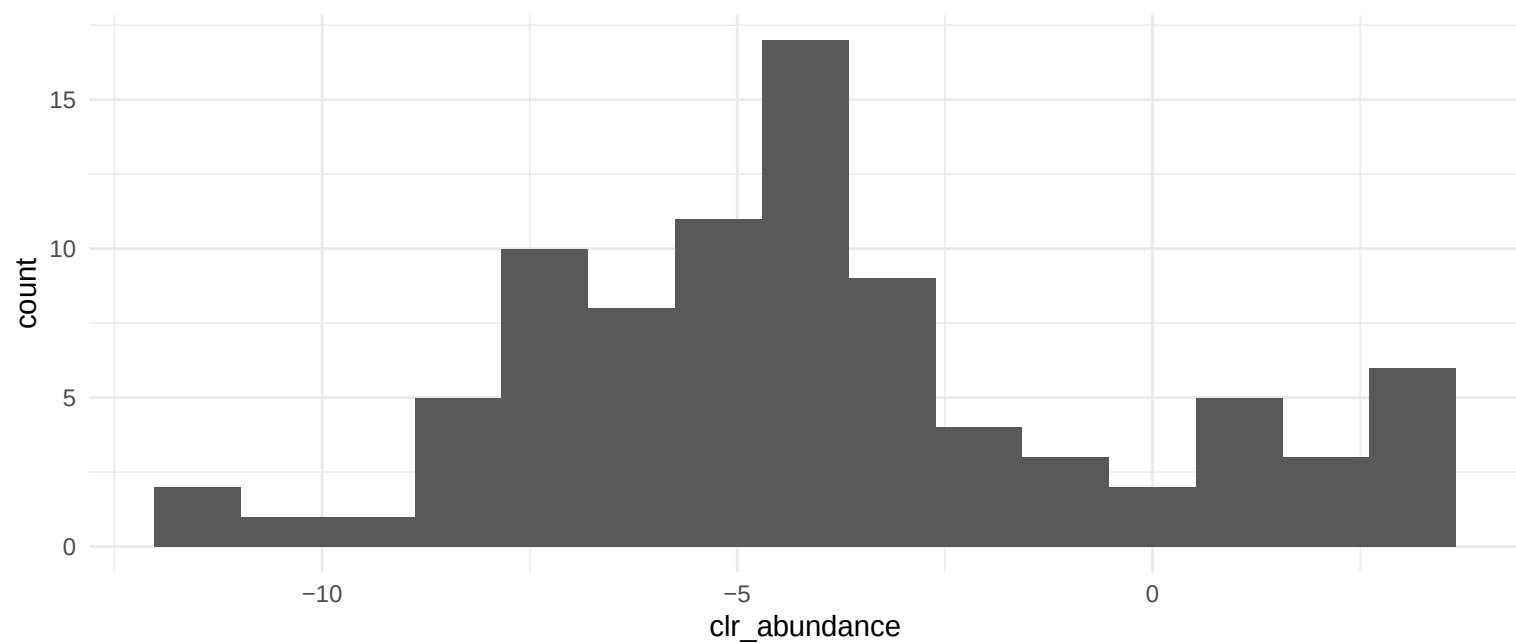

Distribution for 03440 Homologous recombination

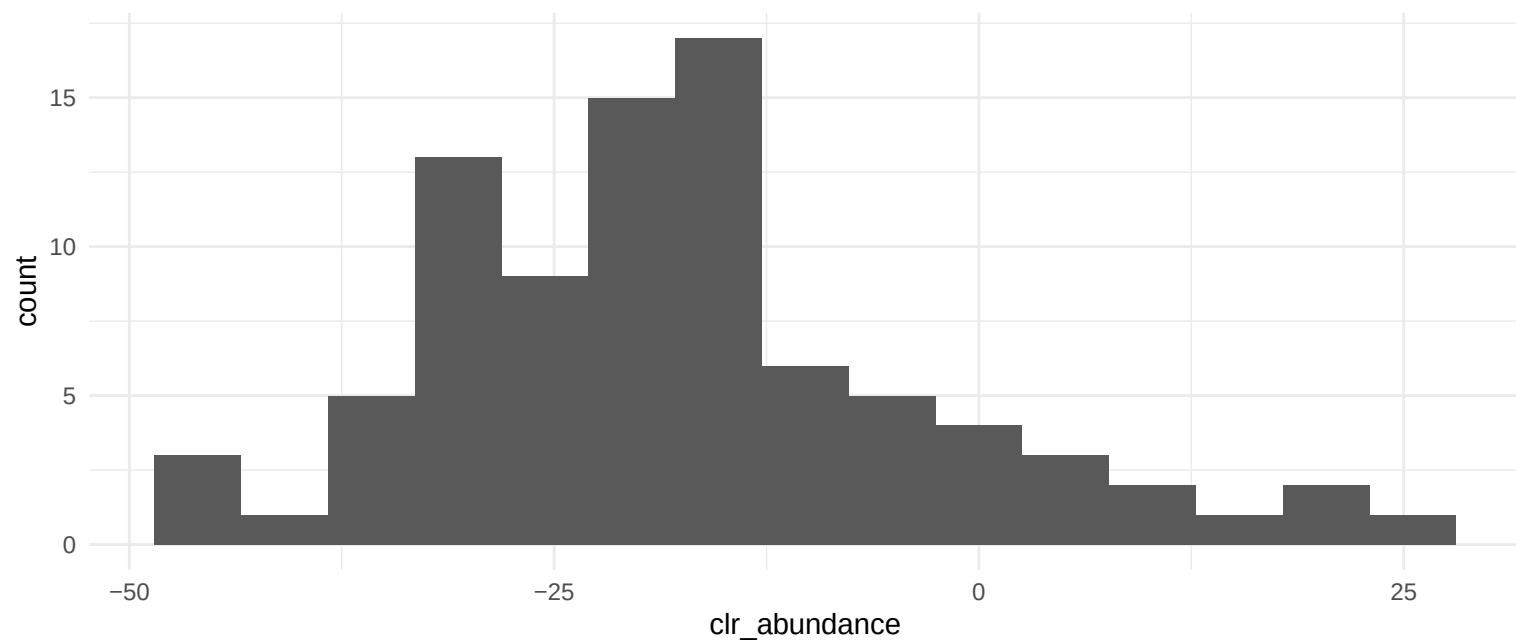

Distribution for 03450 Non-homologous end-joining

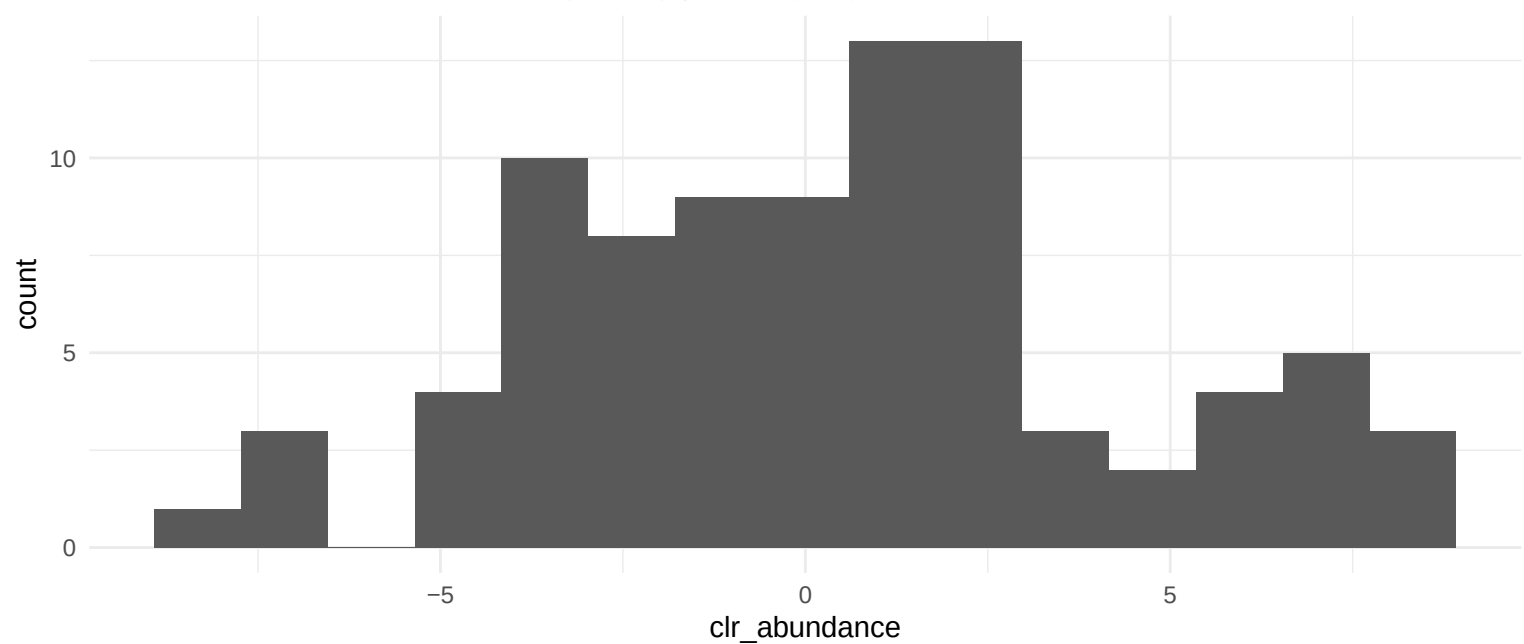

Distribution for 03460 Fanconi anemia pathway

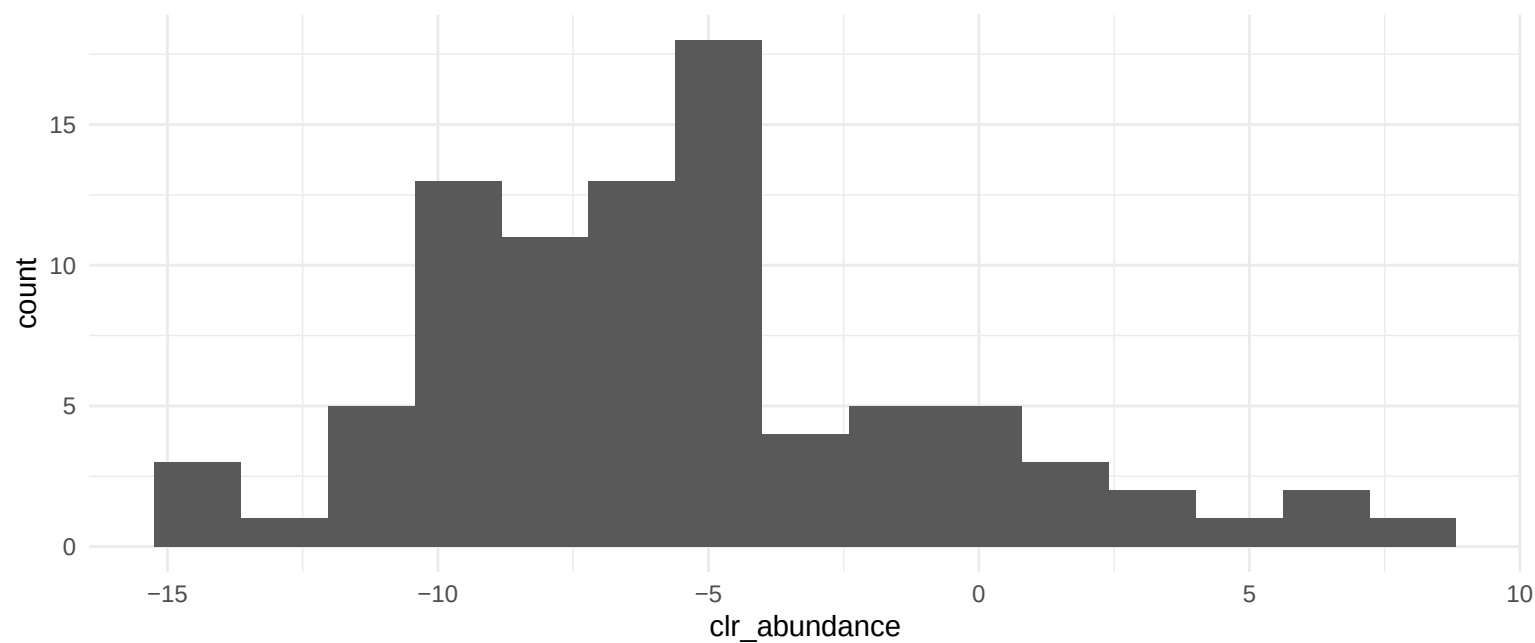

Distribution for 04010 MAPK signaling pathway

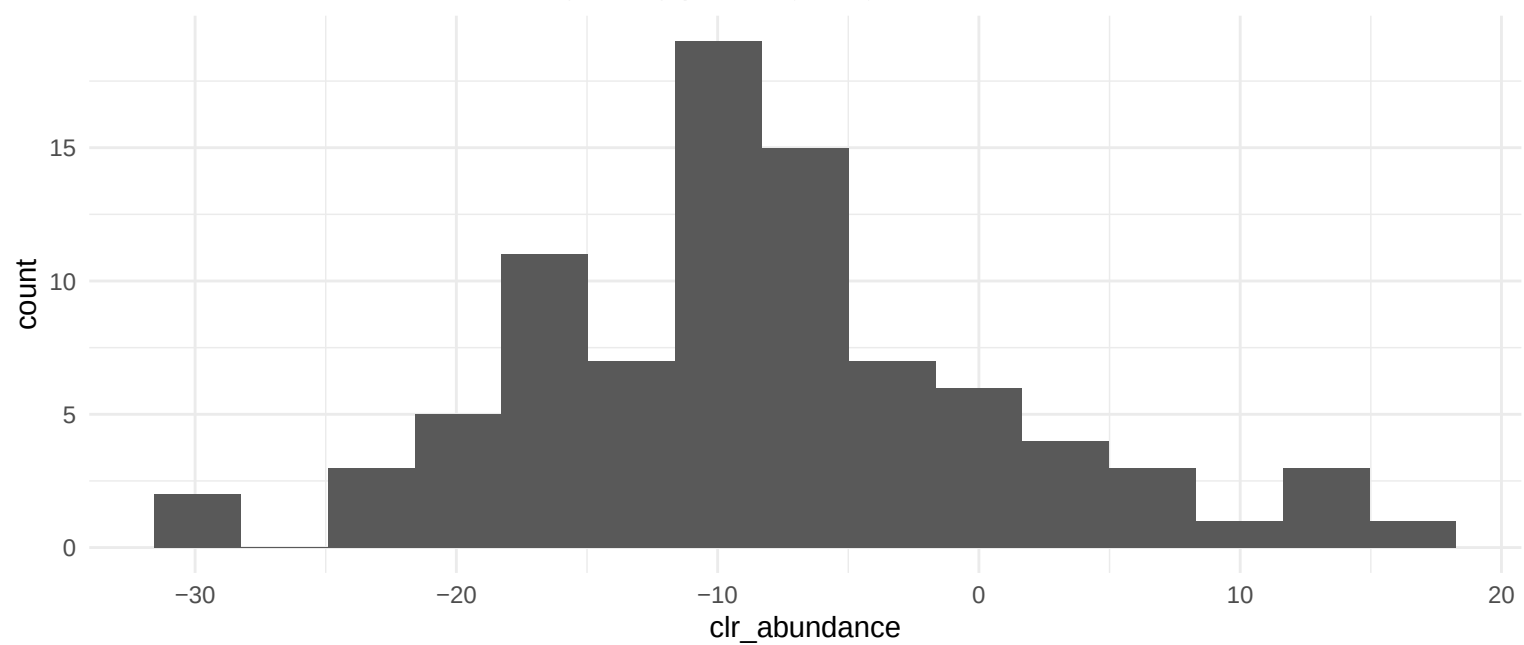

Distribution for 04011 MAPK signaling pathway – yeast

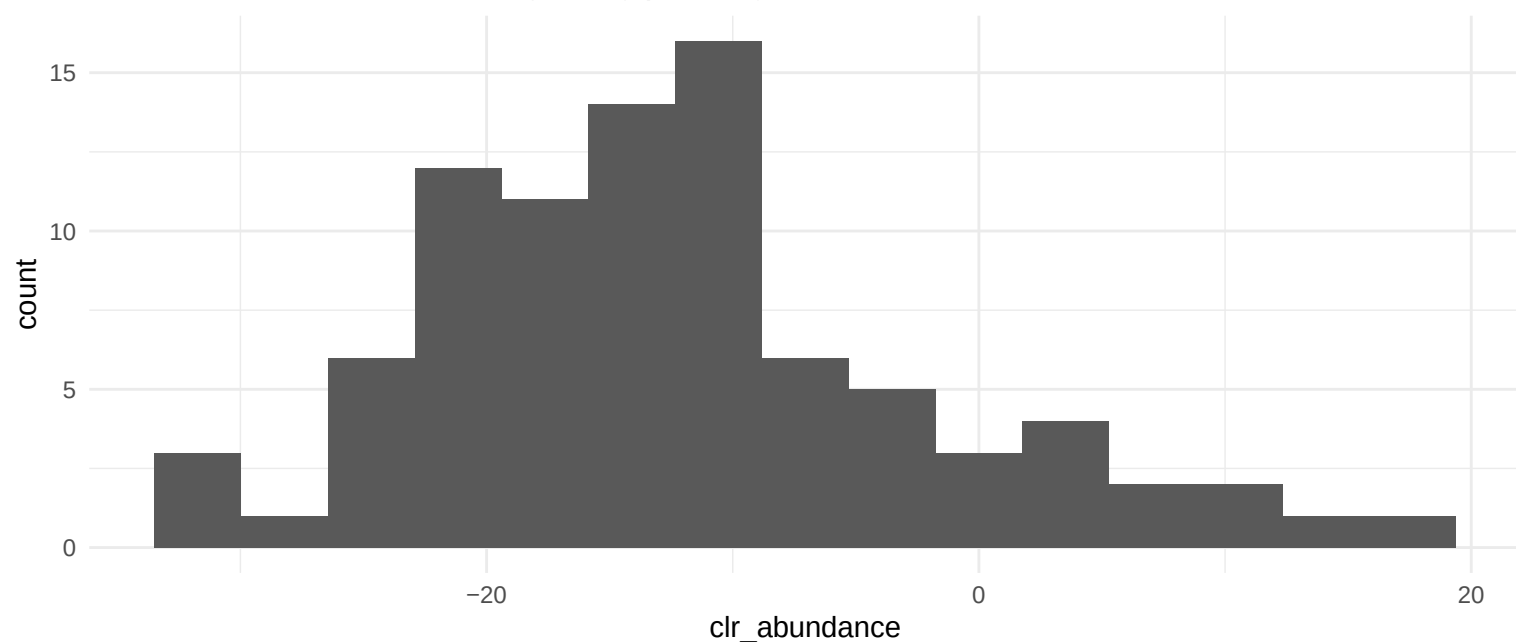

Distribution for 04012 ErbB signaling pathway

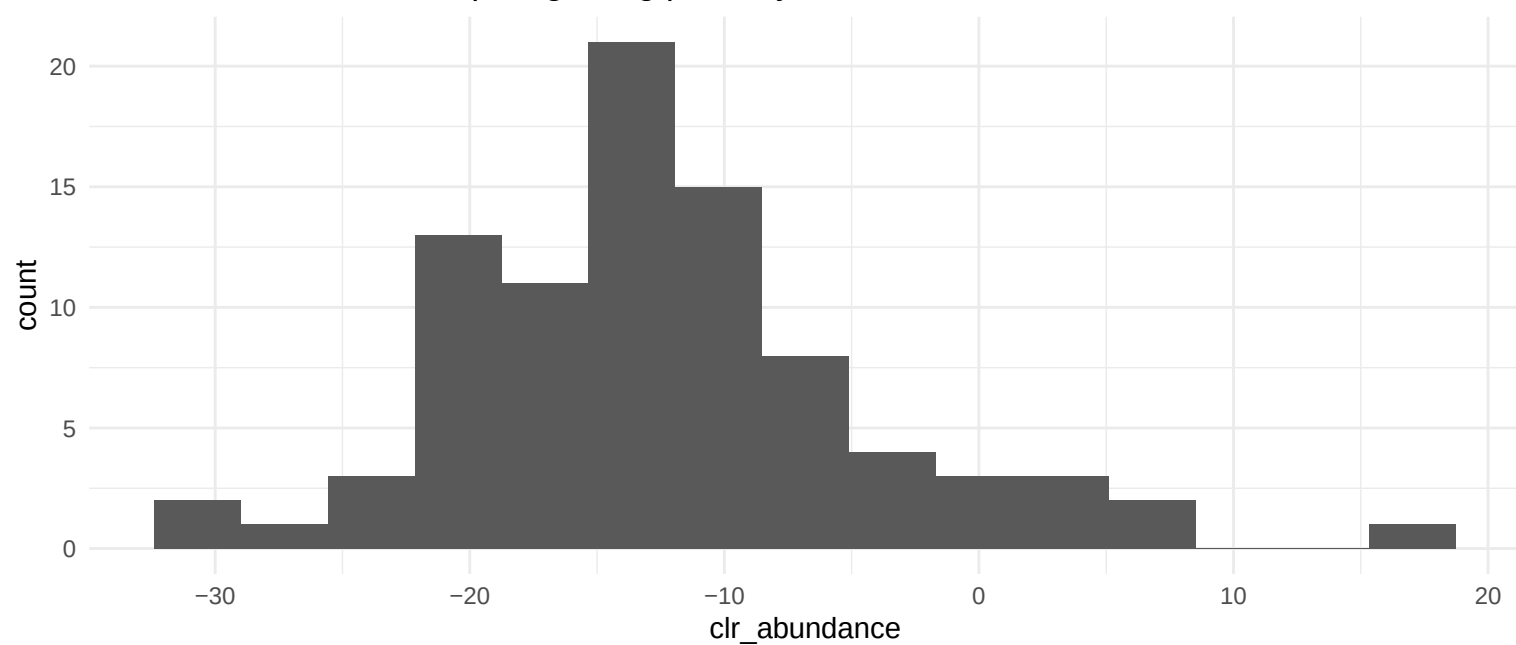

Distribution for 04013 MAPK signaling pathway – fly

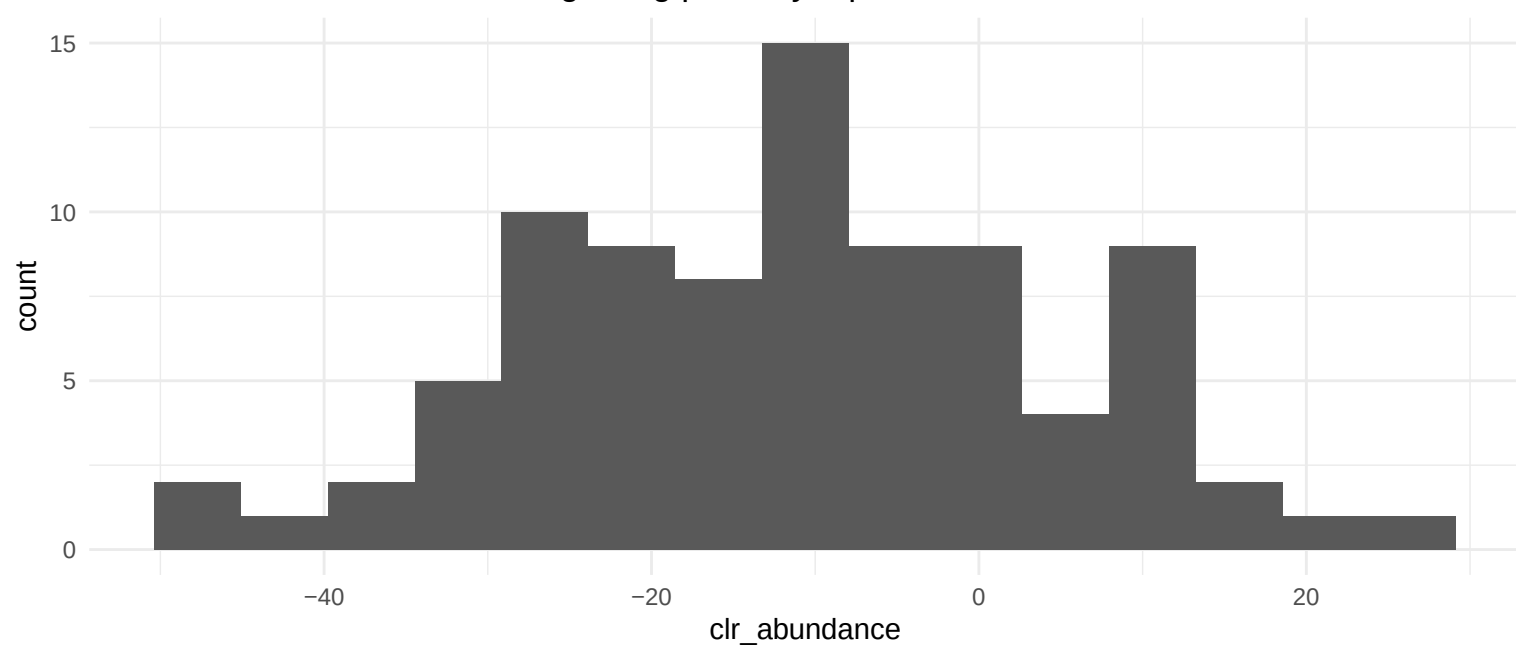

Distribution for 04014 Ras signaling pathway

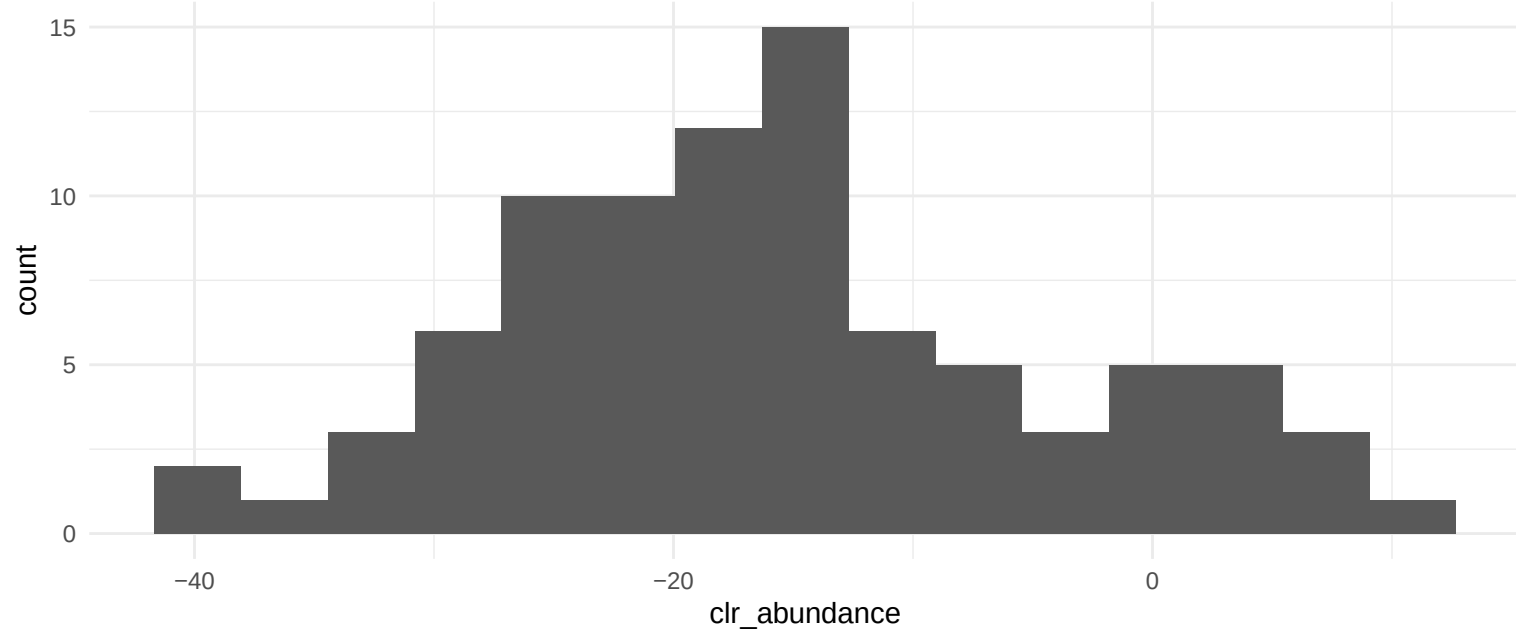

Distribution for 04015 Rap1 signaling pathway

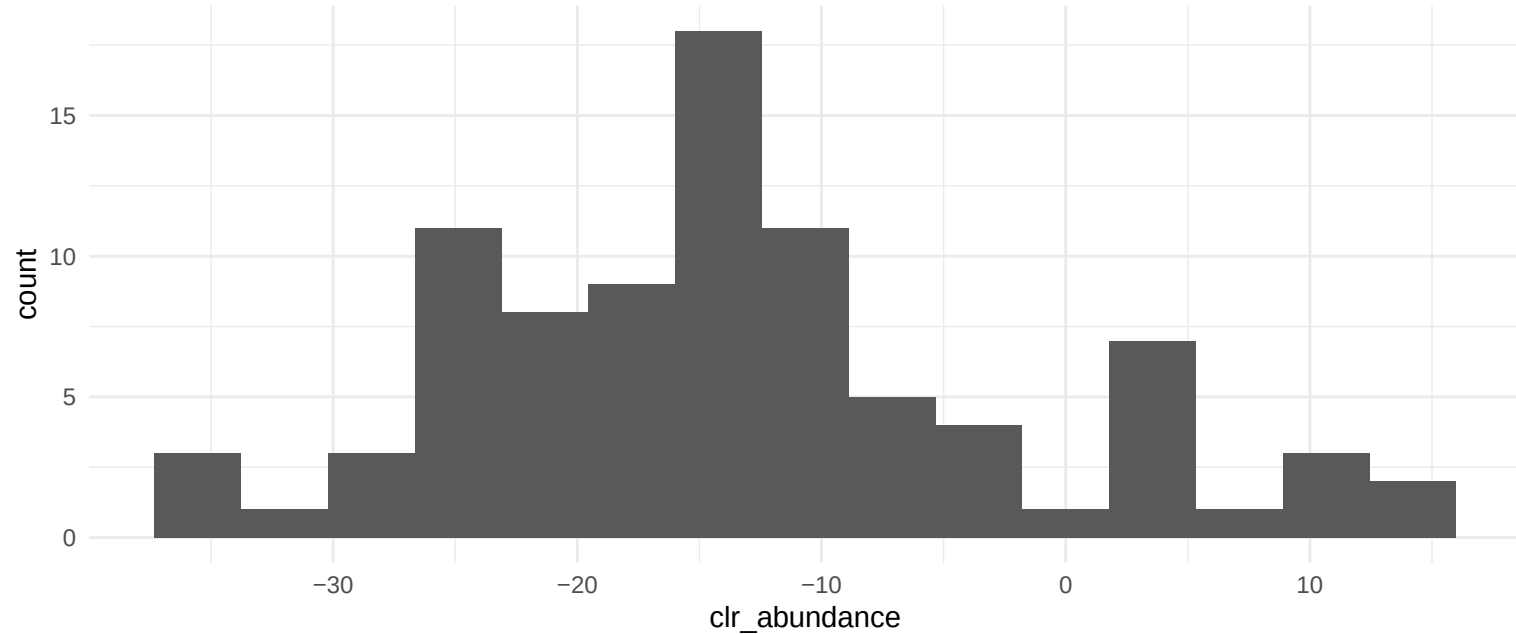

Distribution for 04016 MAPK signaling pathway – plant

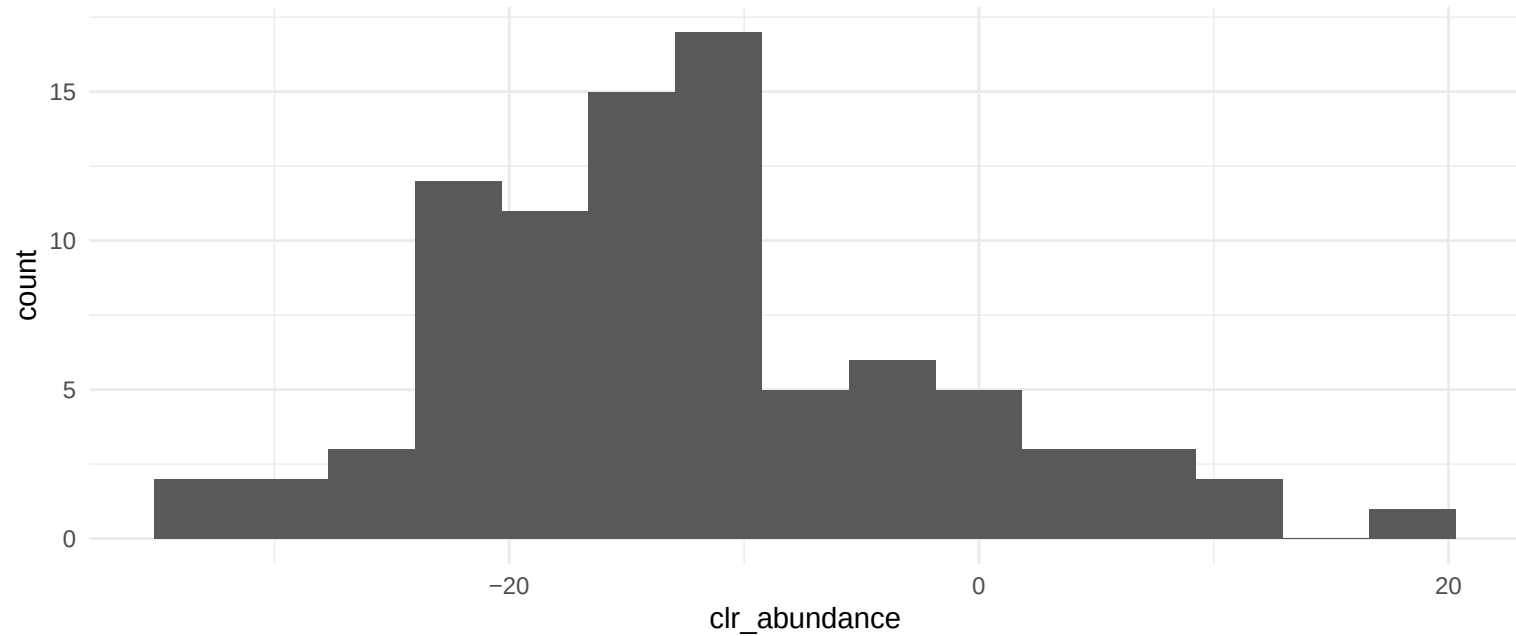

Distribution for 04020 Calcium signaling pathway

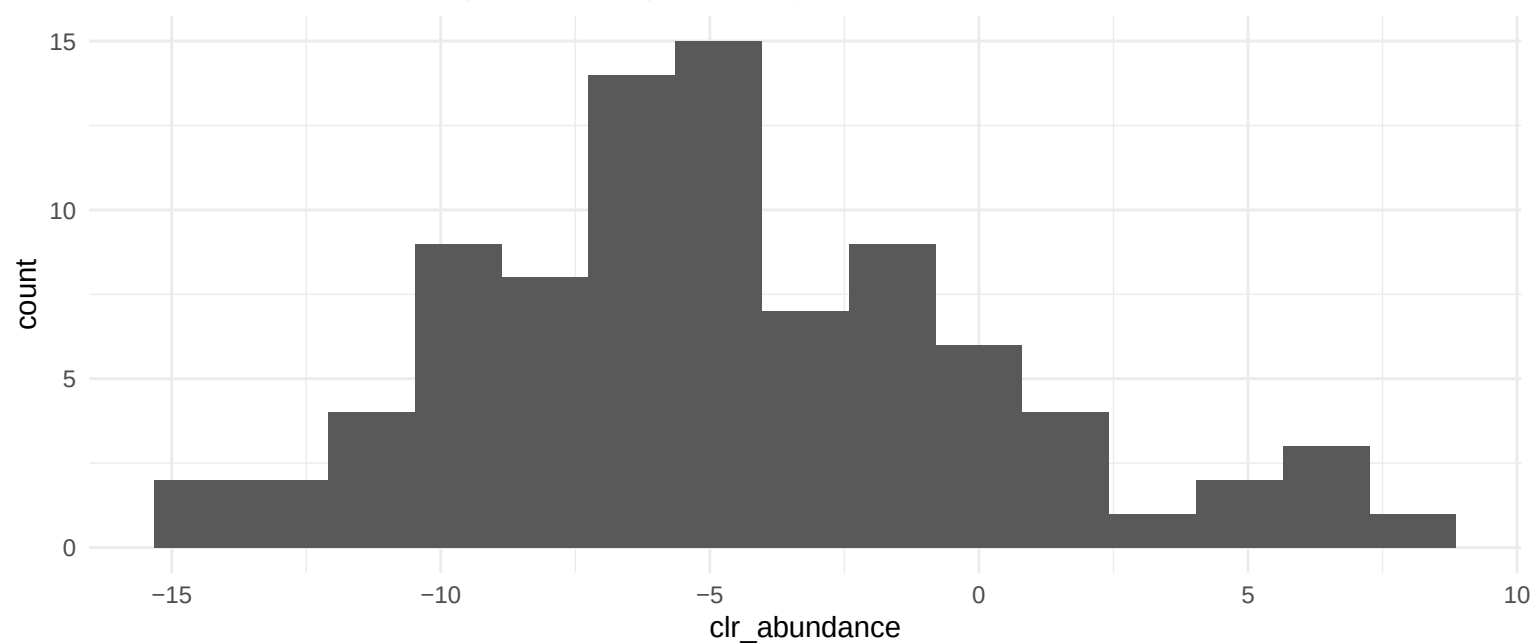

Distribution for 04022 cGMP-PKG signaling pathway

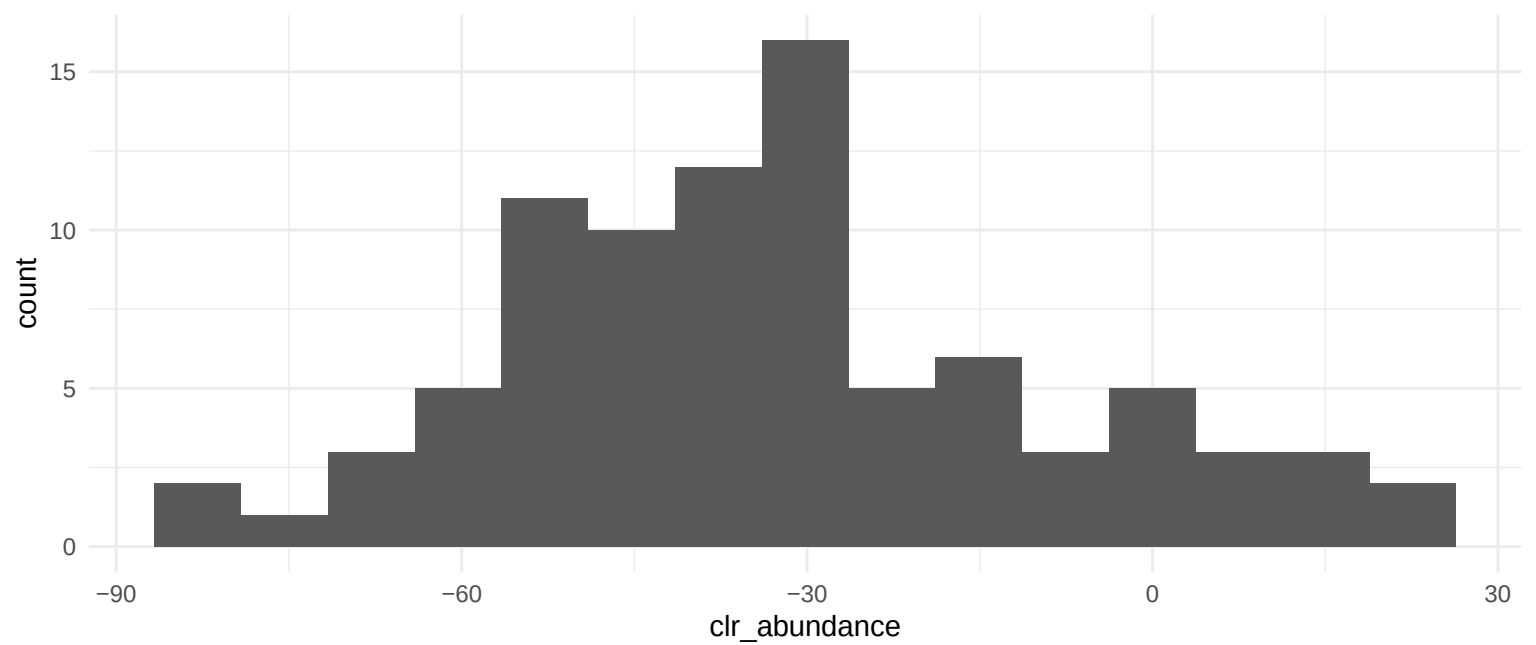

Distribution for 04024 cAMP signaling pathway

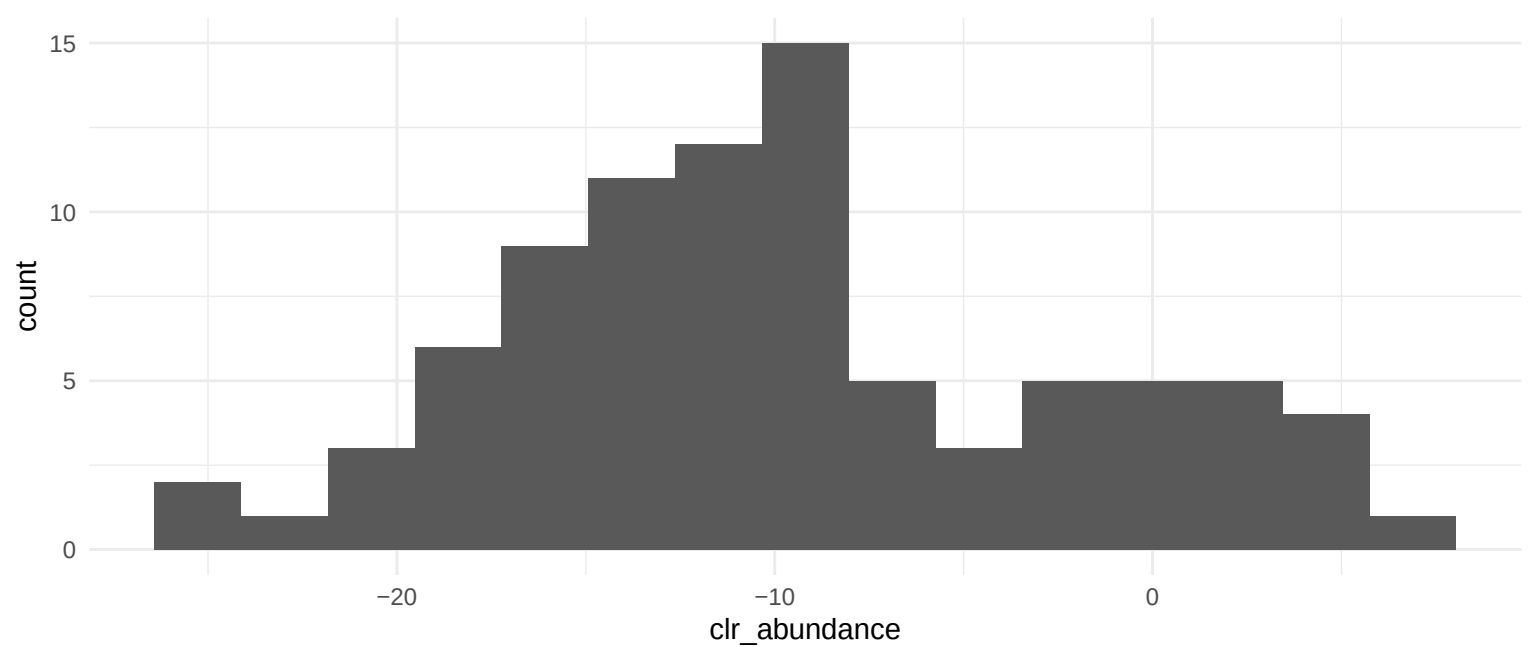

Distribution for 04030 G protein-coupled receptors

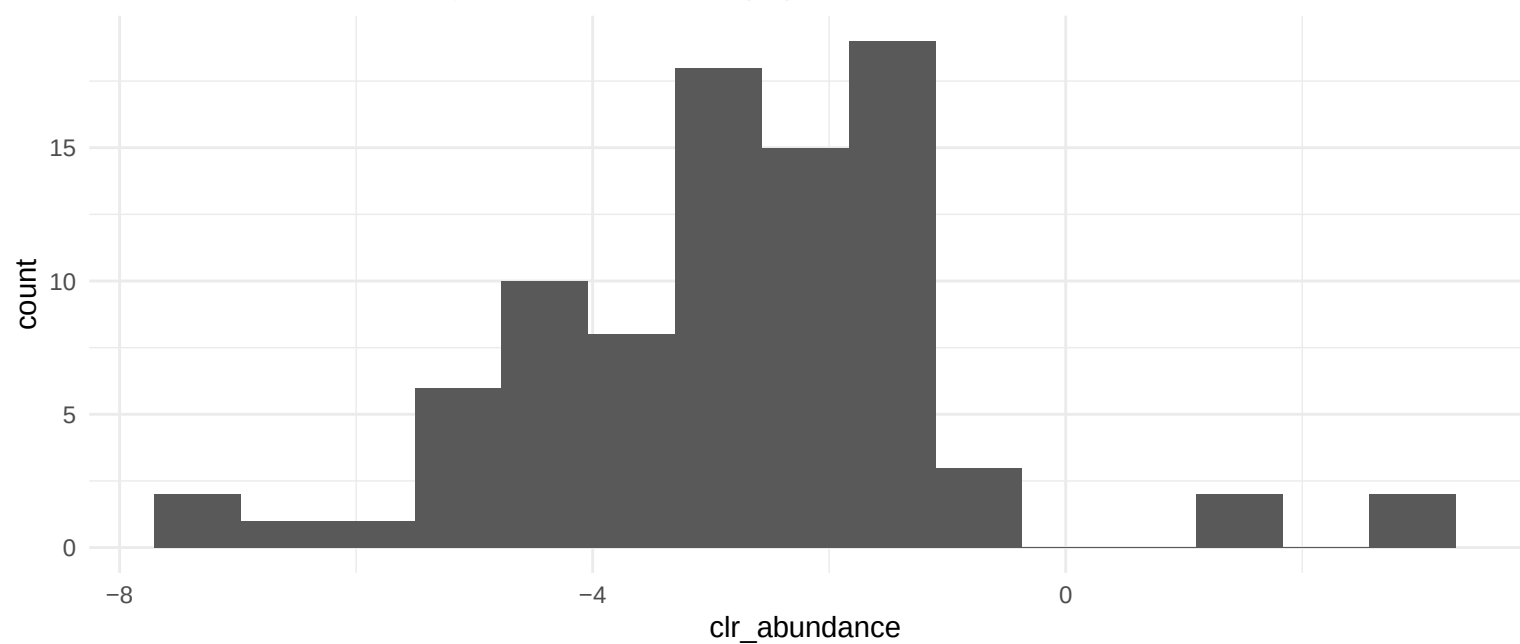

Distribution for 04031 GTP-binding proteins

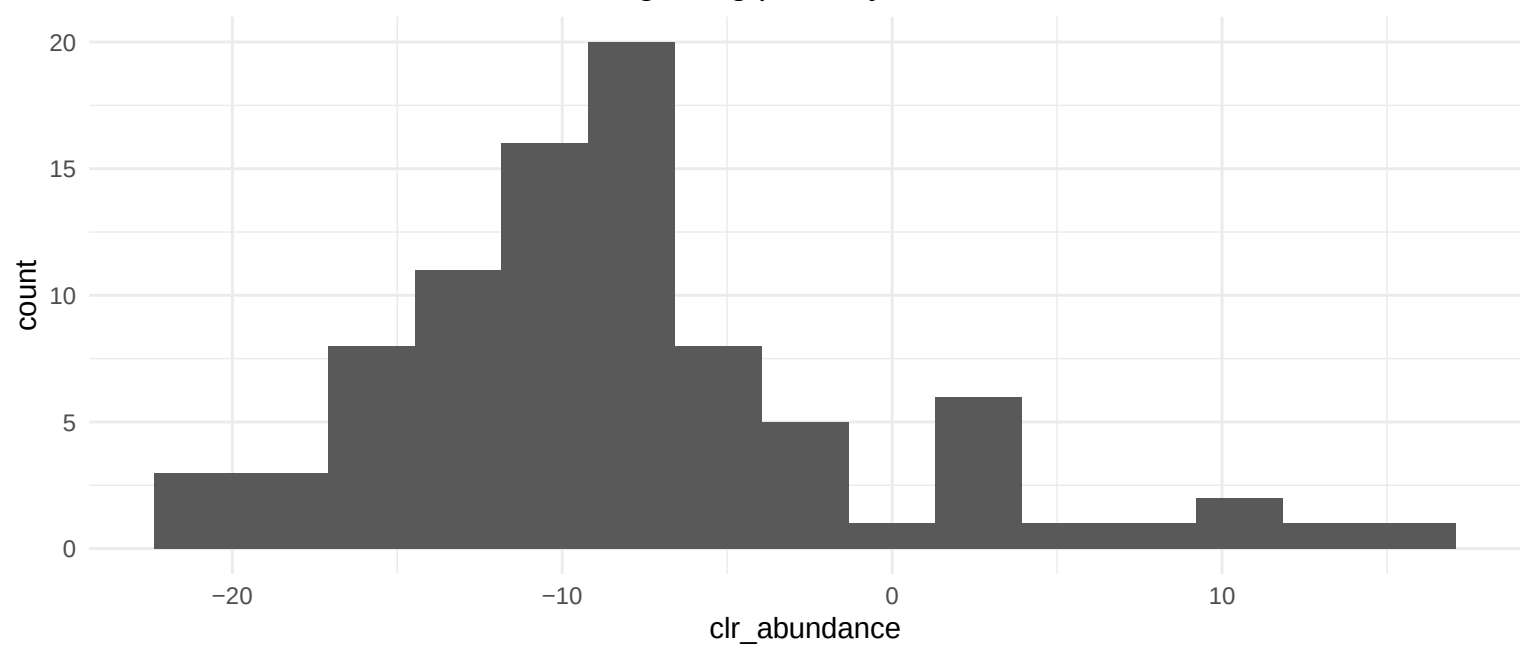

Distribution for 04040 Ion channels

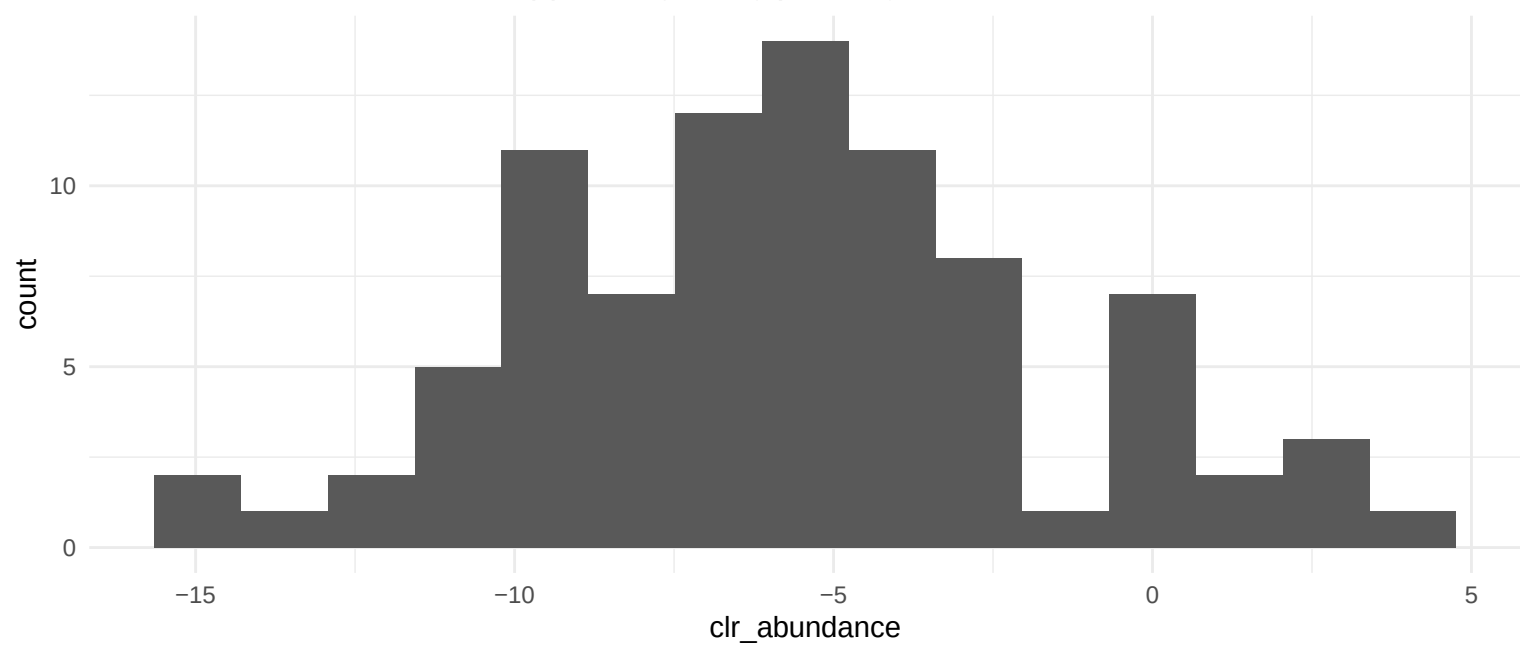

Distribution for 04052 Cytokines and neuropeptides

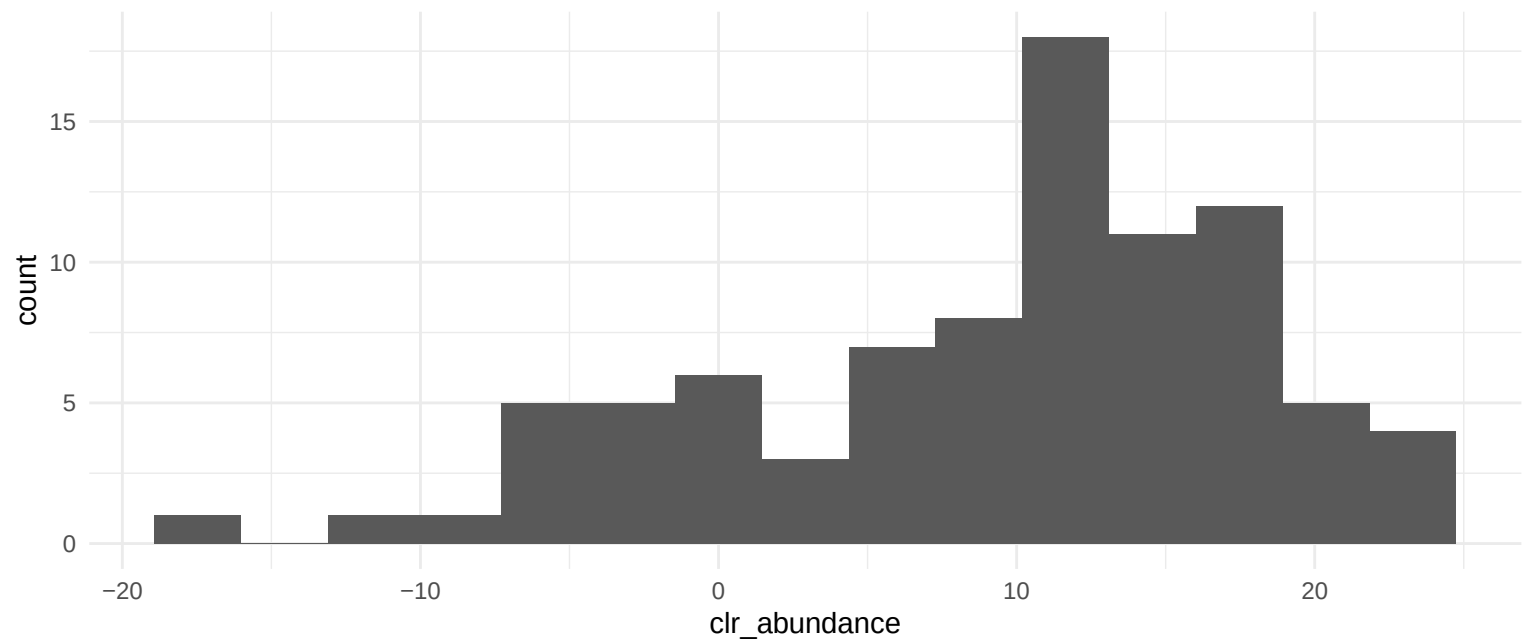

Distribution for 04062 Chemokine signaling pathway

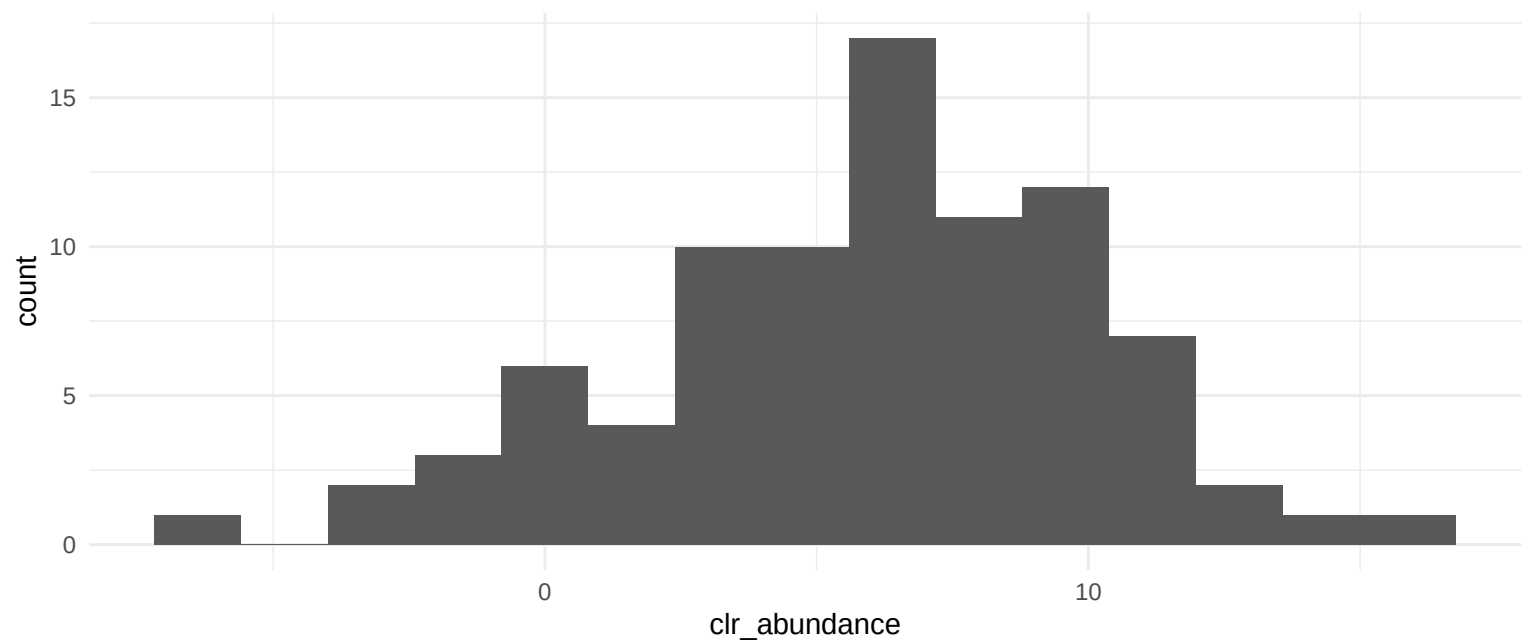

Distribution for 04064 NF-kappa B signaling pathway

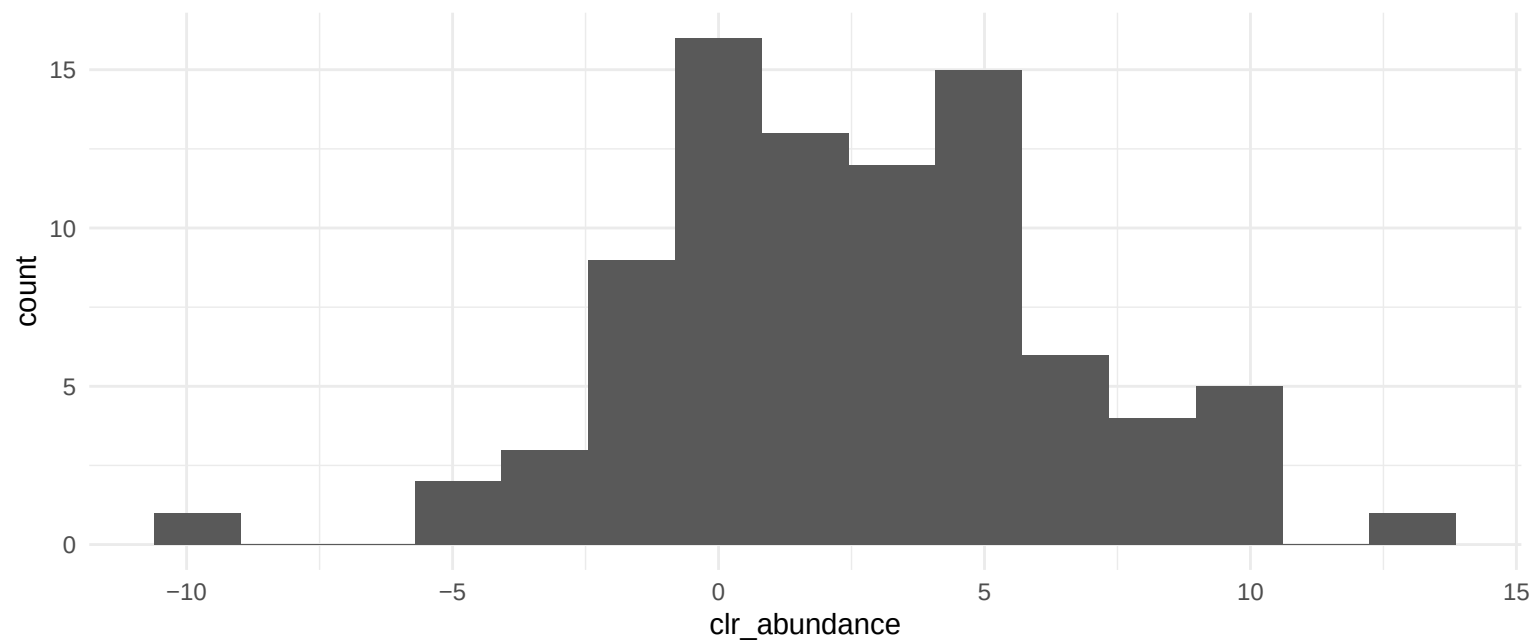

Distribution for 04066 HIF-1 signaling pathway

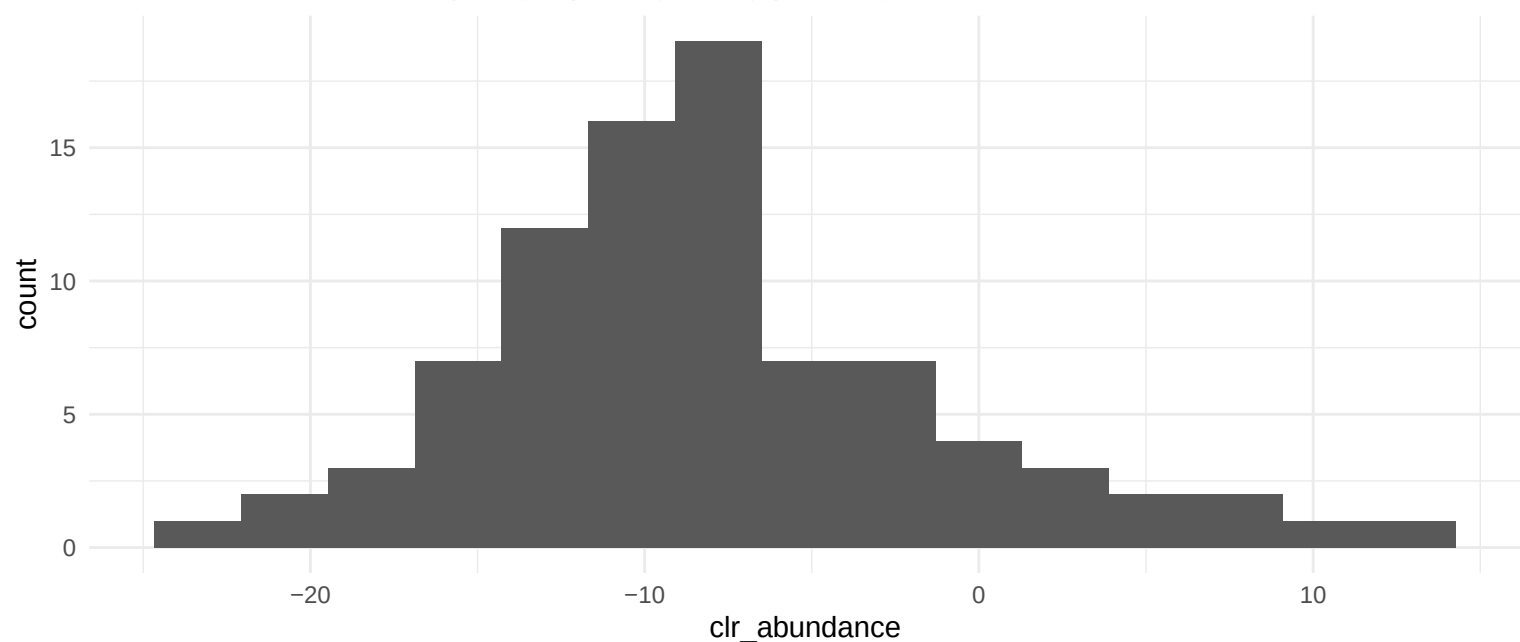

Distribution for 04068 FoxO signaling pathway

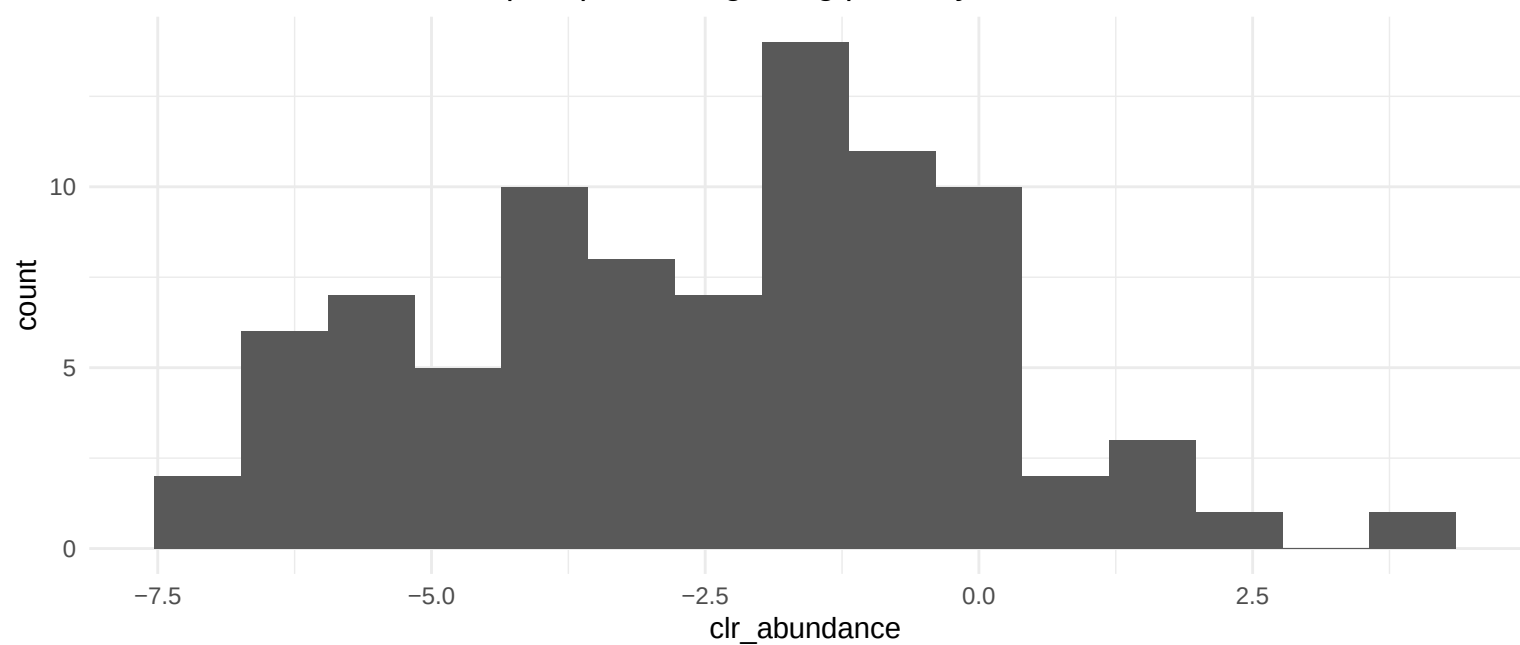

Distribution for 04070 Phosphatidylinositol signaling system

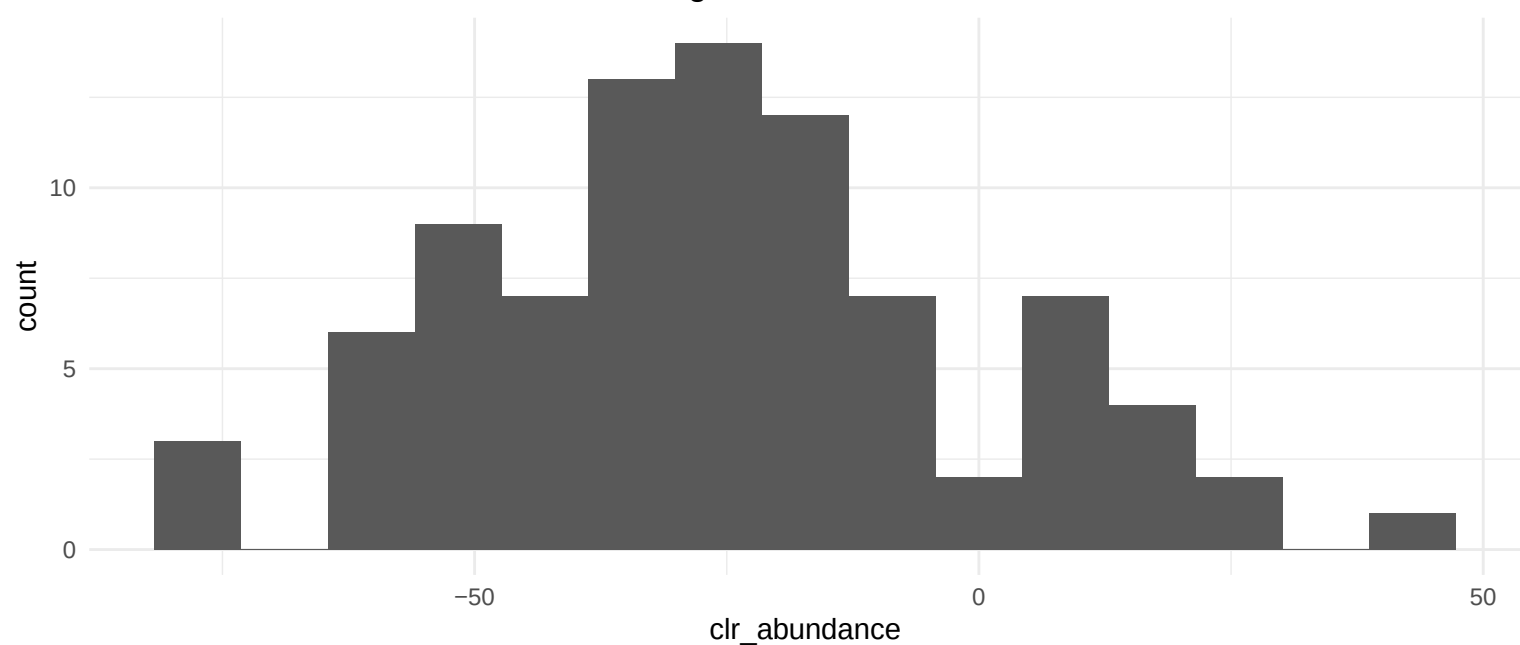

Distribution for 04071 Sphingolipid signaling pathway

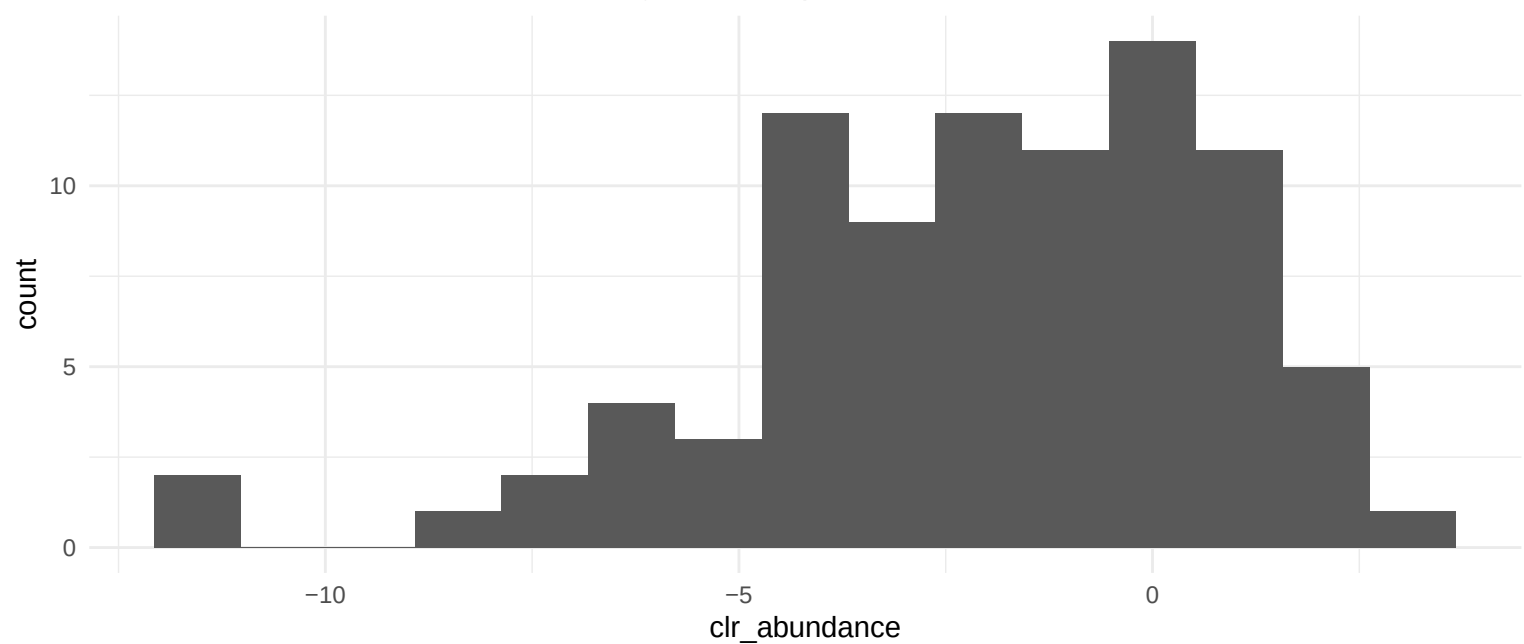

Distribution for 04072 Phospholipase D signaling pathway

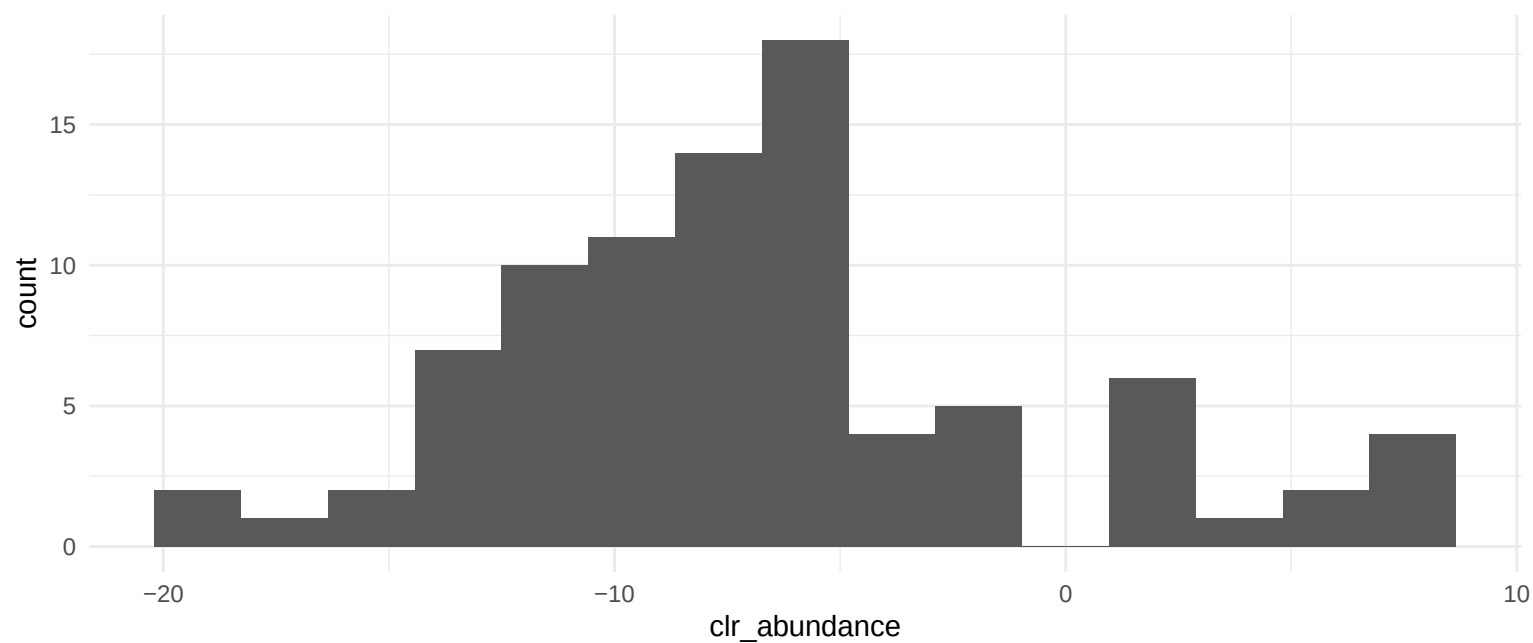

Distribution for 04075 Plant hormone signal transduction

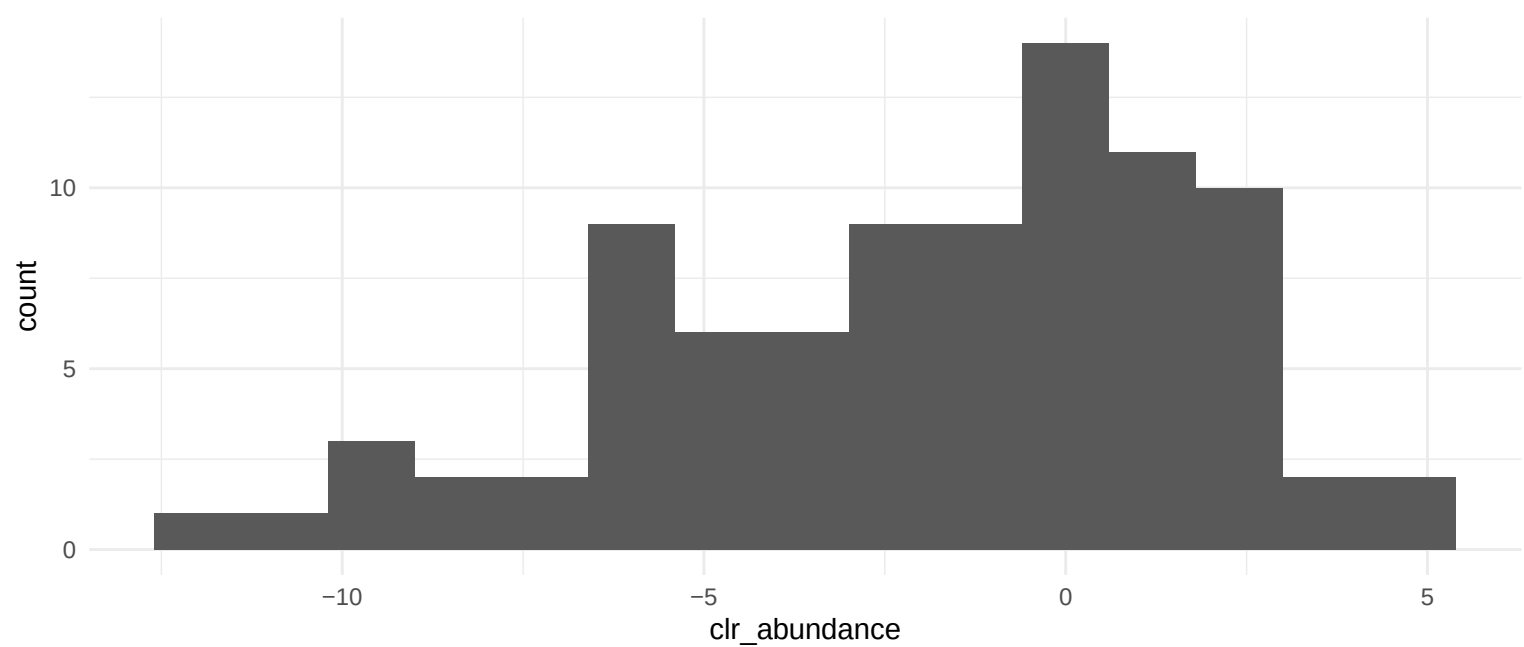

Distribution for 04080 Neuroactive ligand–receptor interaction

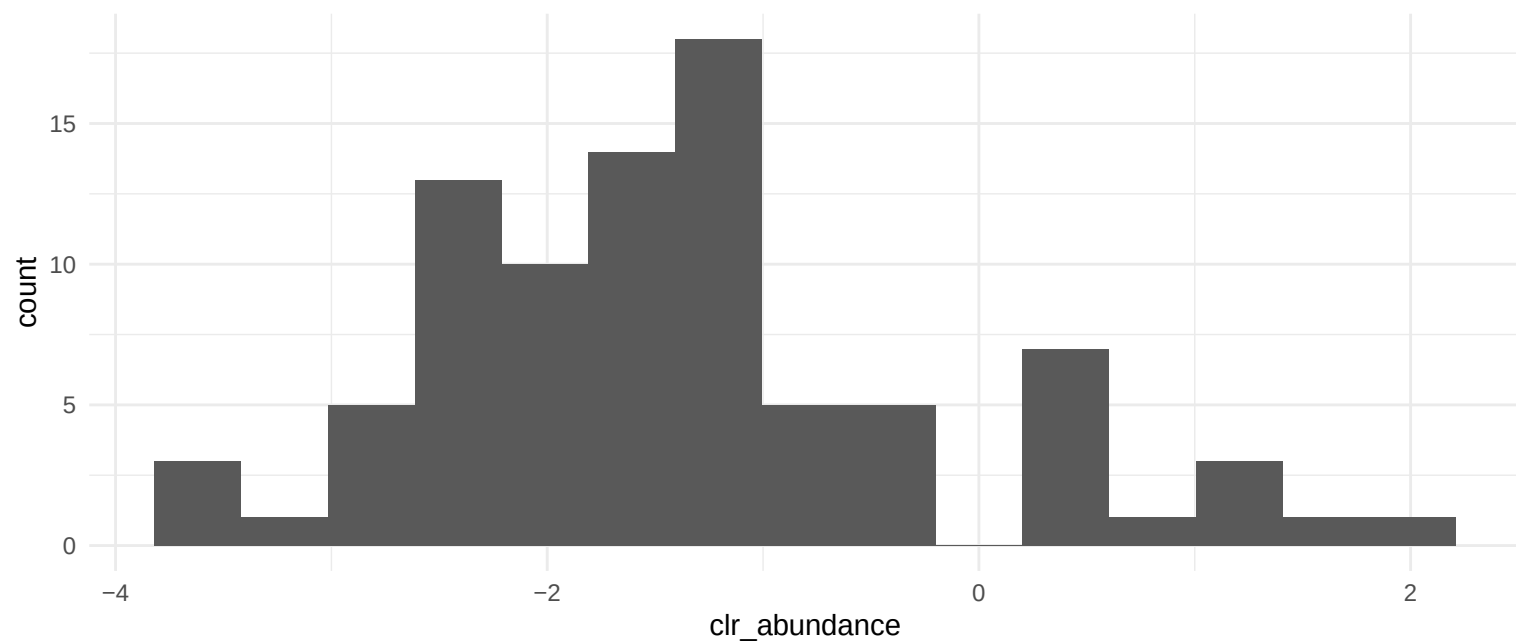

Distribution for 04081 Hormone signaling

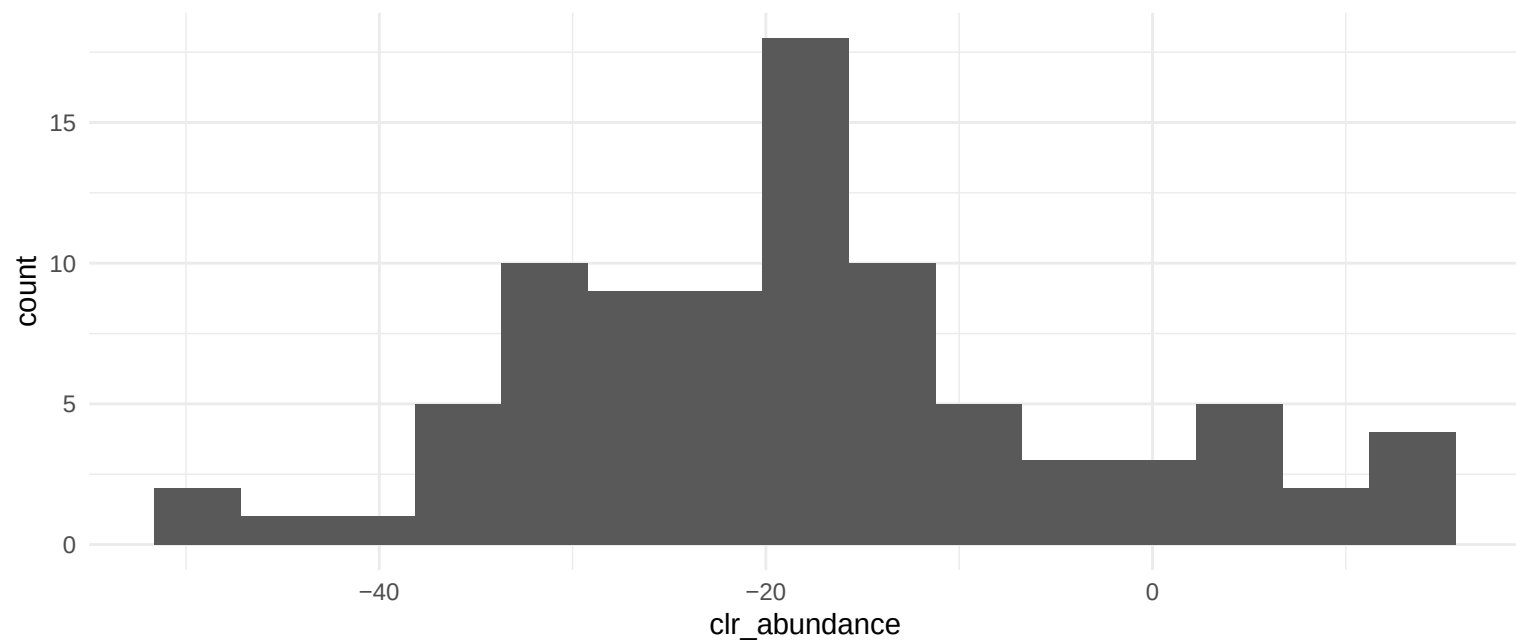

Distribution for 04090 CD molecules

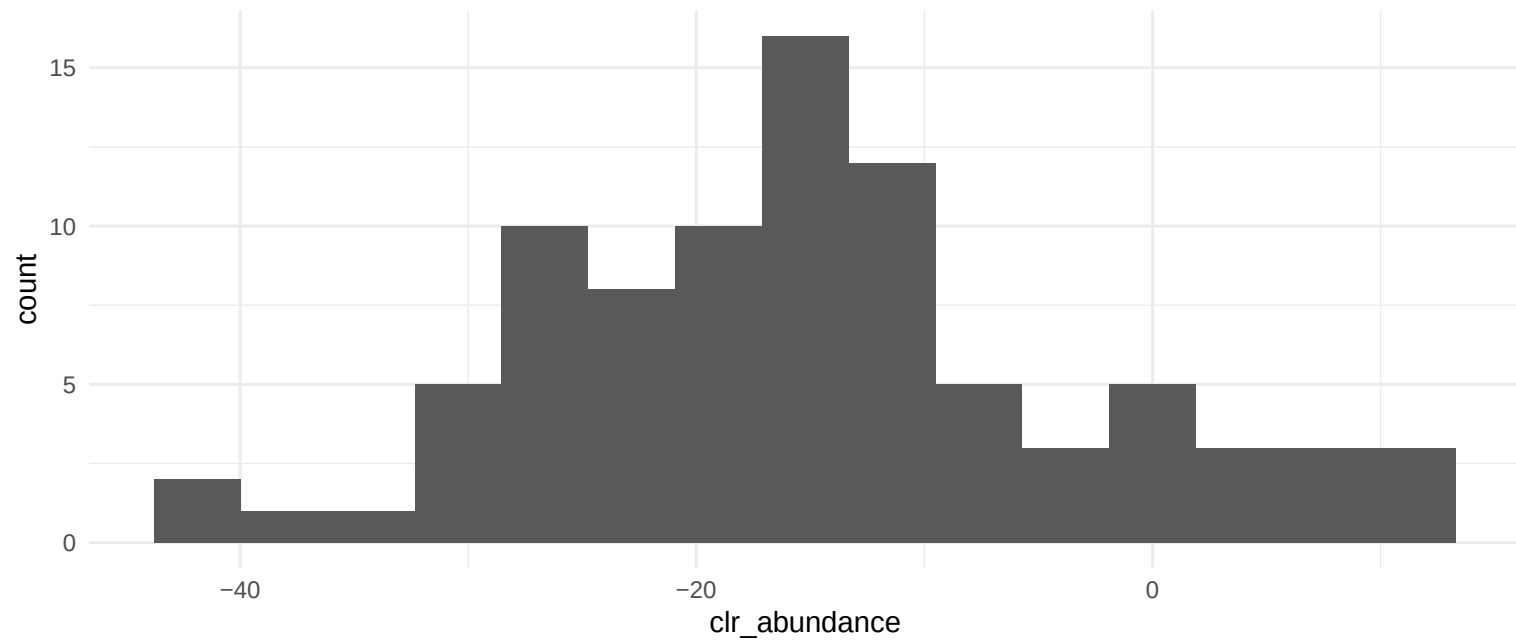

Distribution for 04091 Lectins

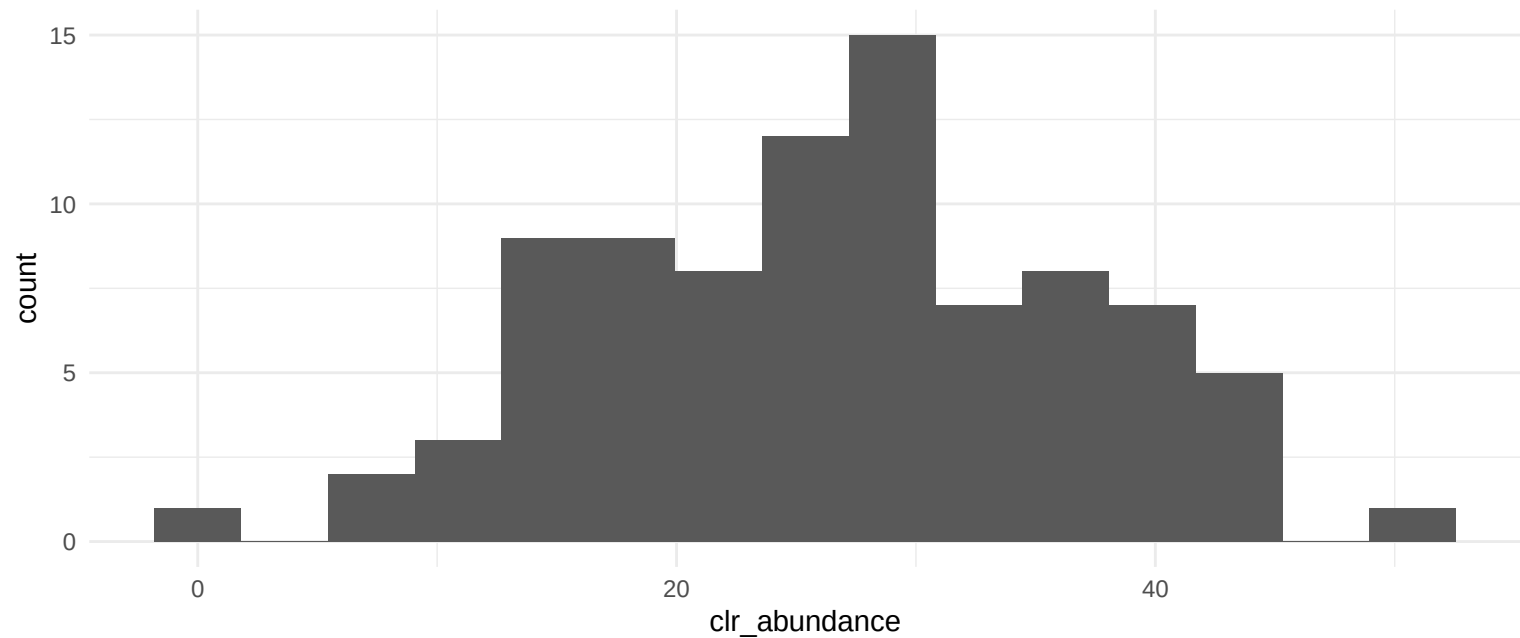

Distribution for 04110 Cell cycle

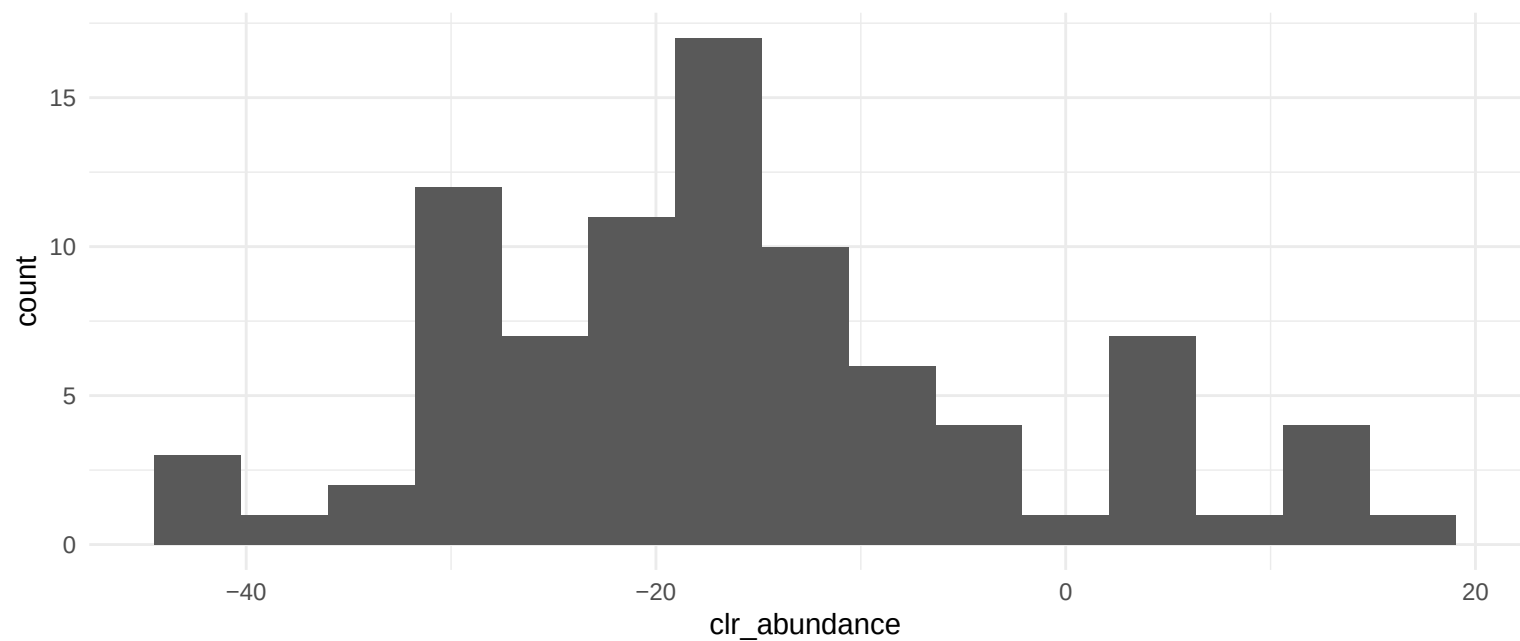

Distribution for 04111 Cell cycle – yeast

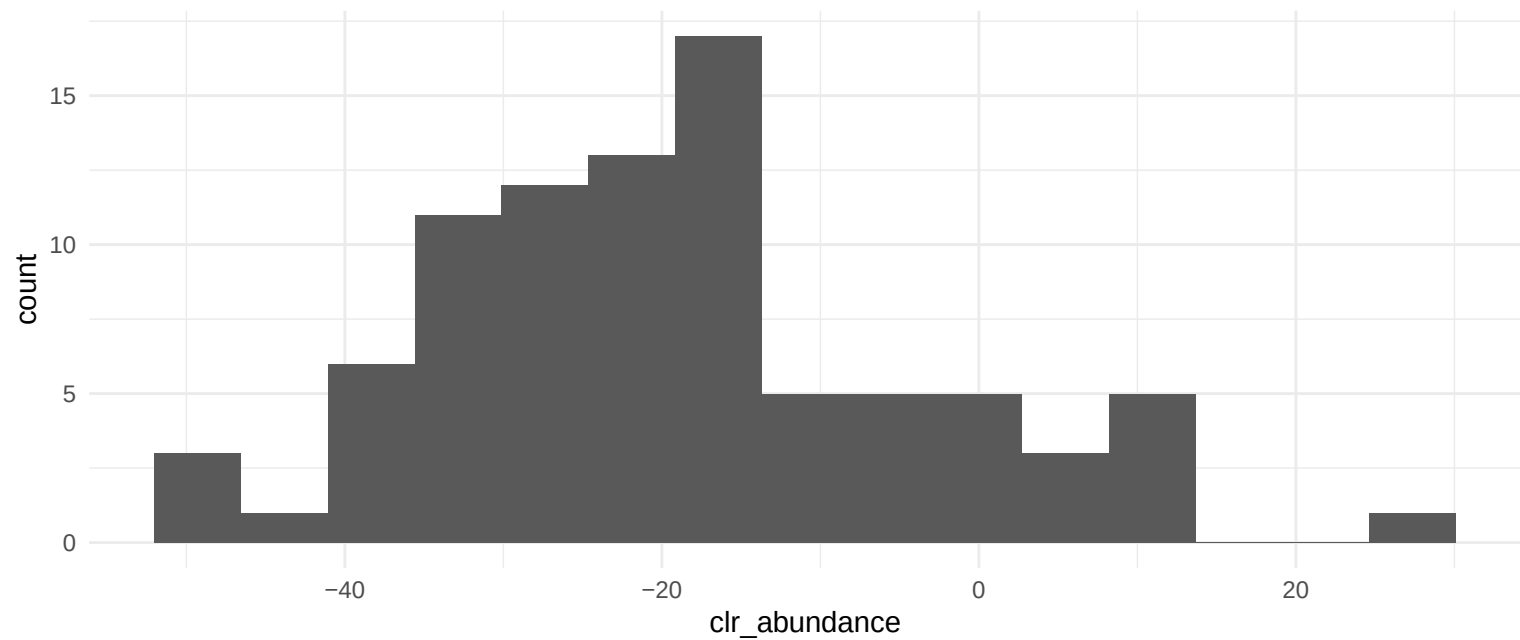

Distribution for 04112 Cell cycle – Caulobacter

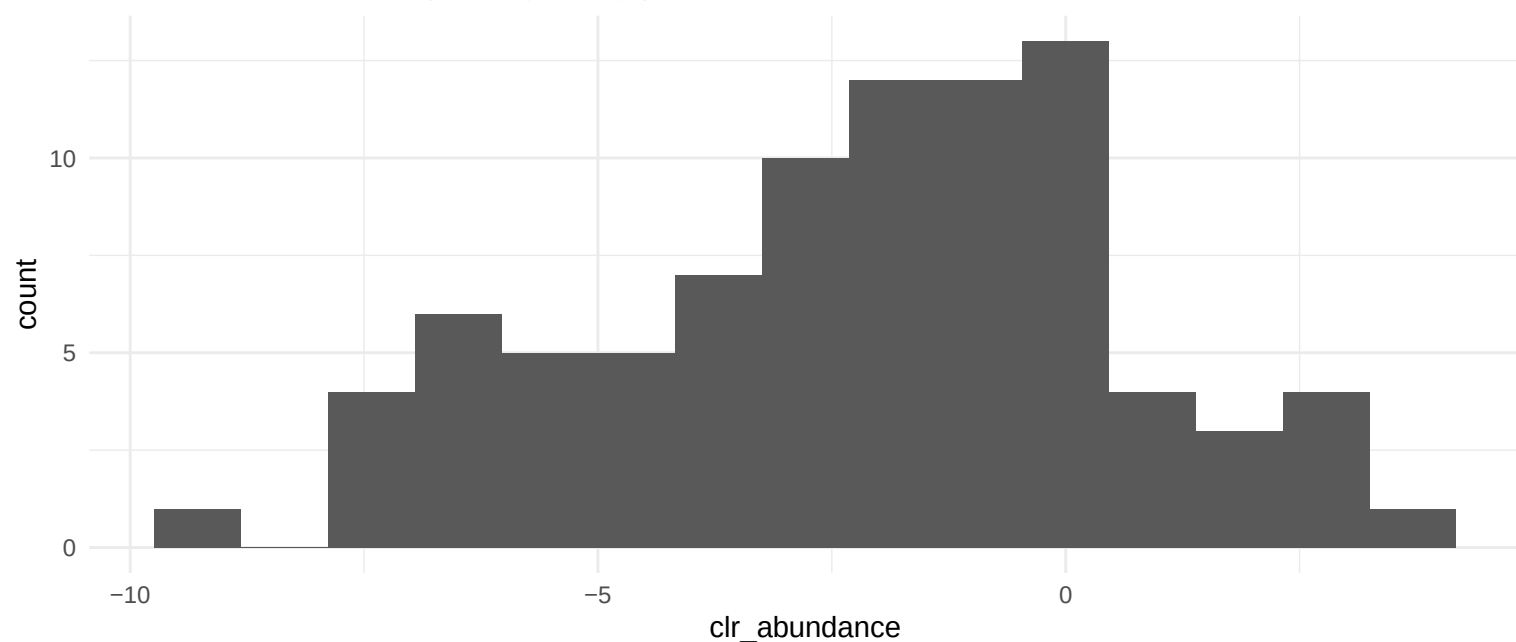

Distribution for 04113 Meiosis – yeast

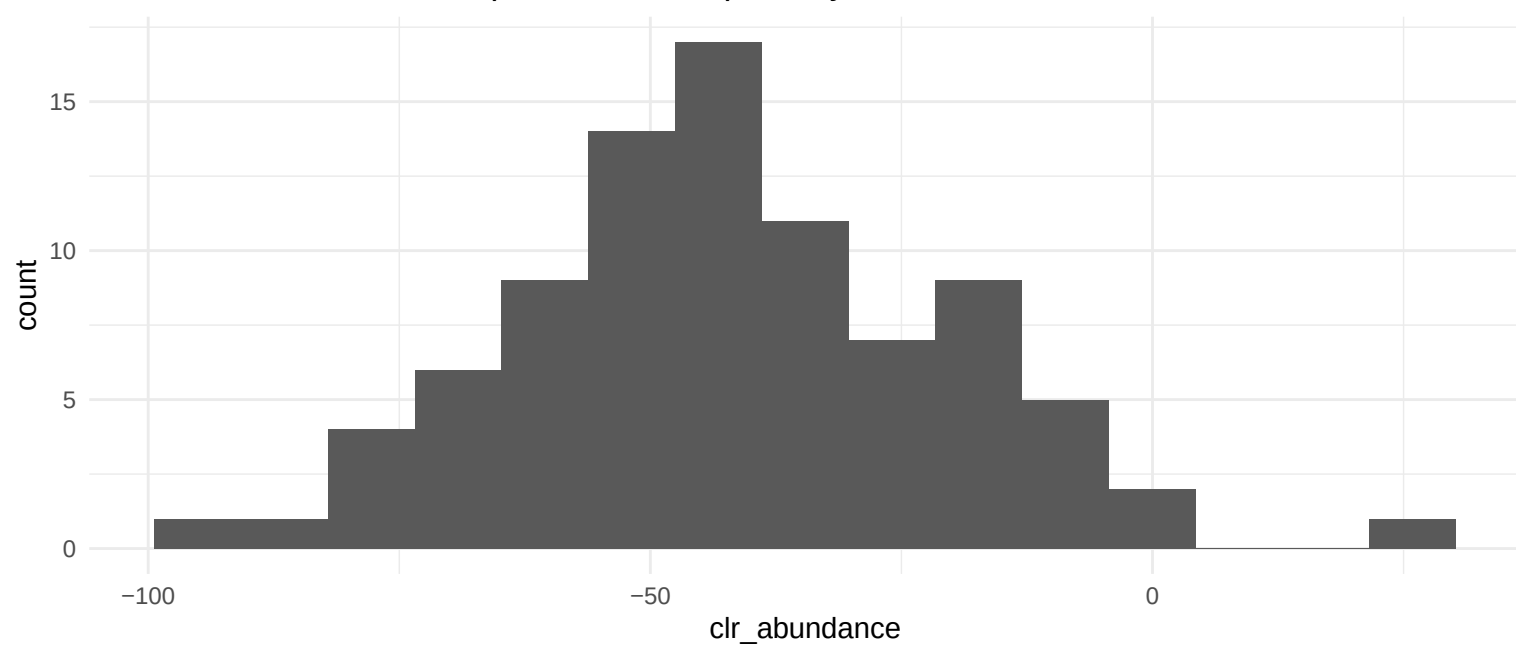

Distribution for 04114 Oocyte meiosis

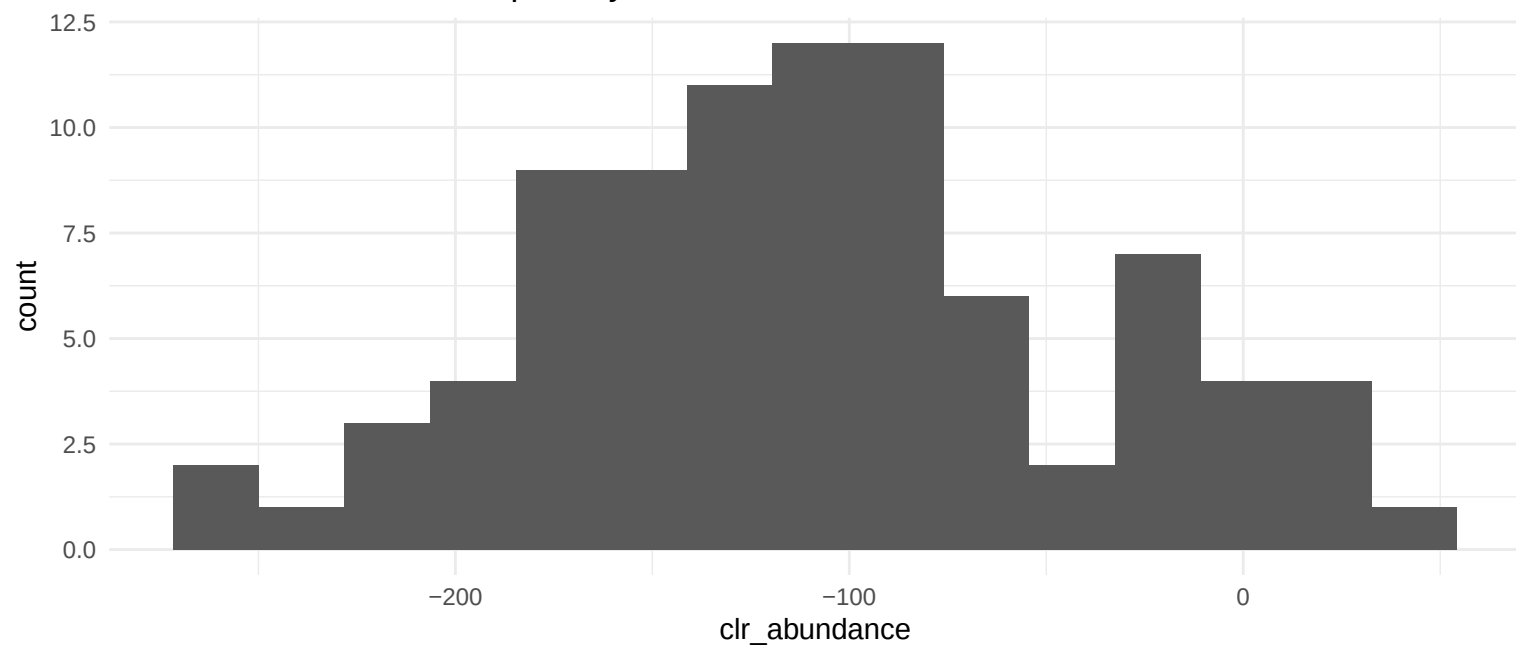

Distribution for 04115 p53 signaling pathway

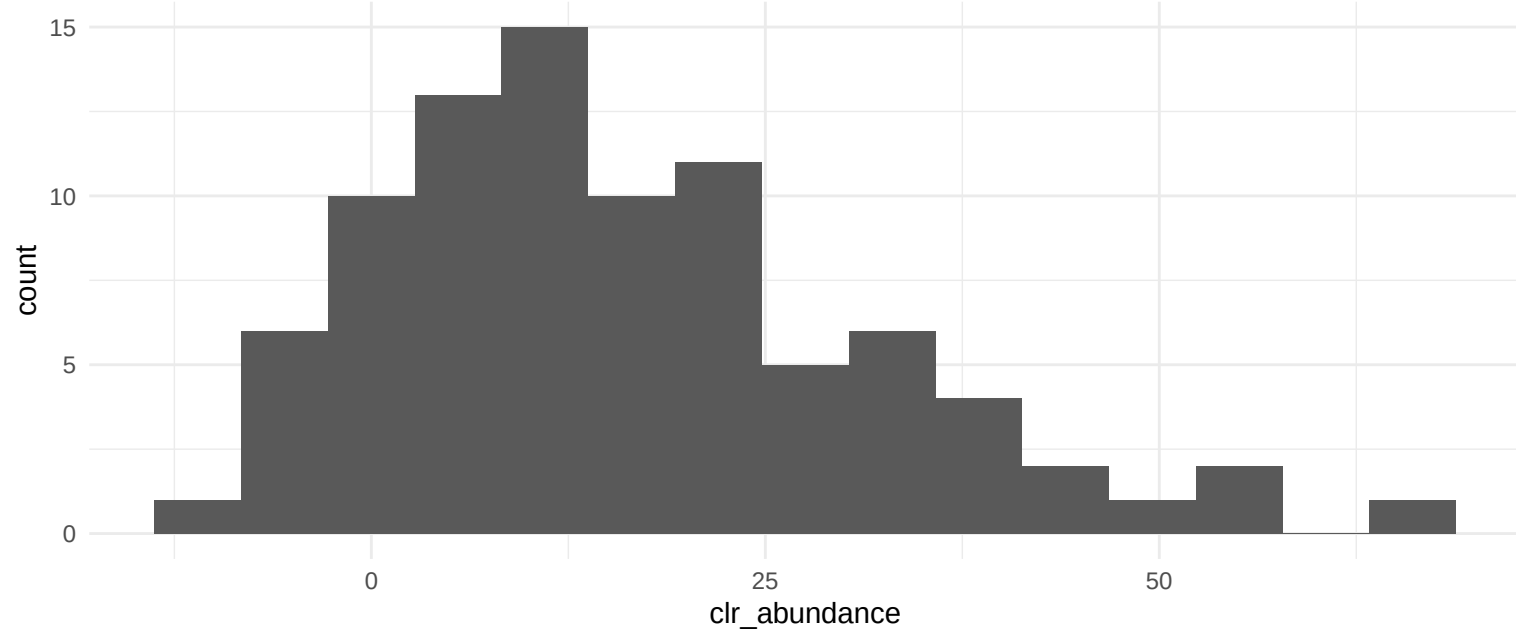

Distribution for 04120 Ubiquitin mediated proteolysis

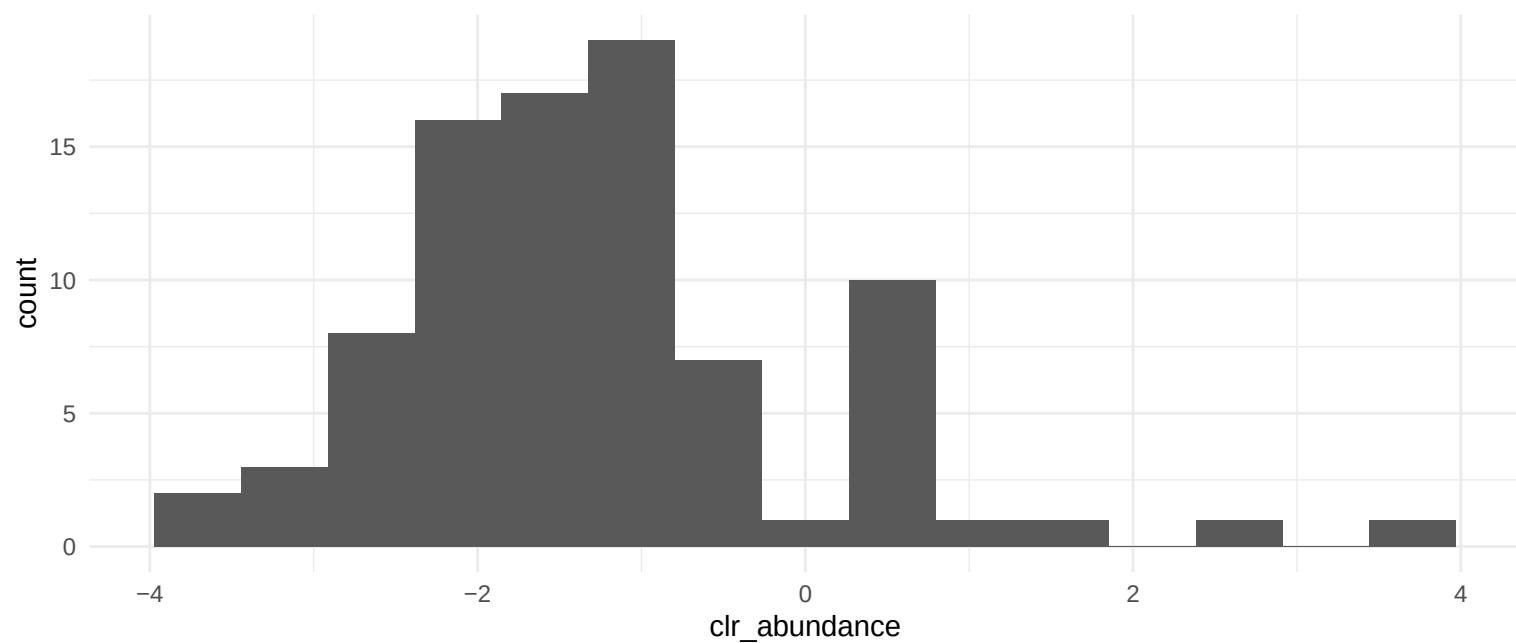

Distribution for 04121 Ubiquitin system

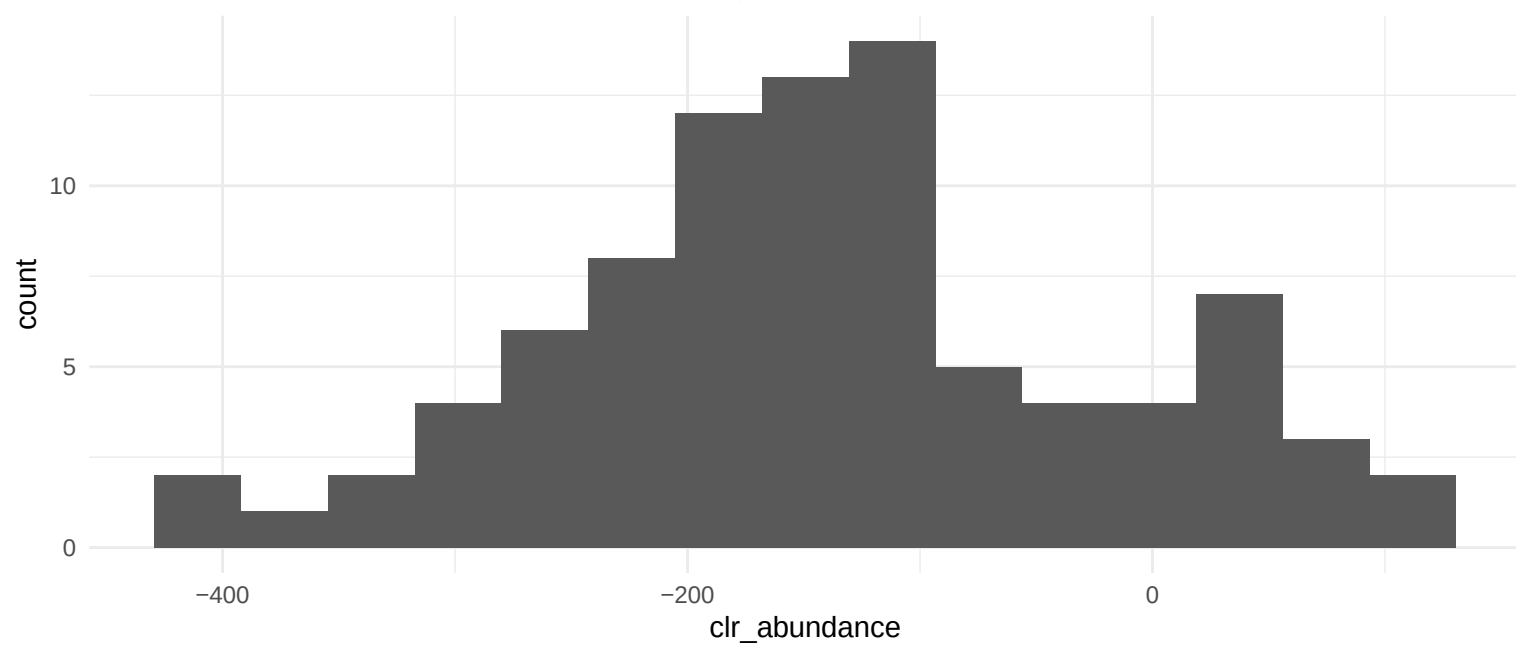

Distribution for 04122 Sulfur relay system

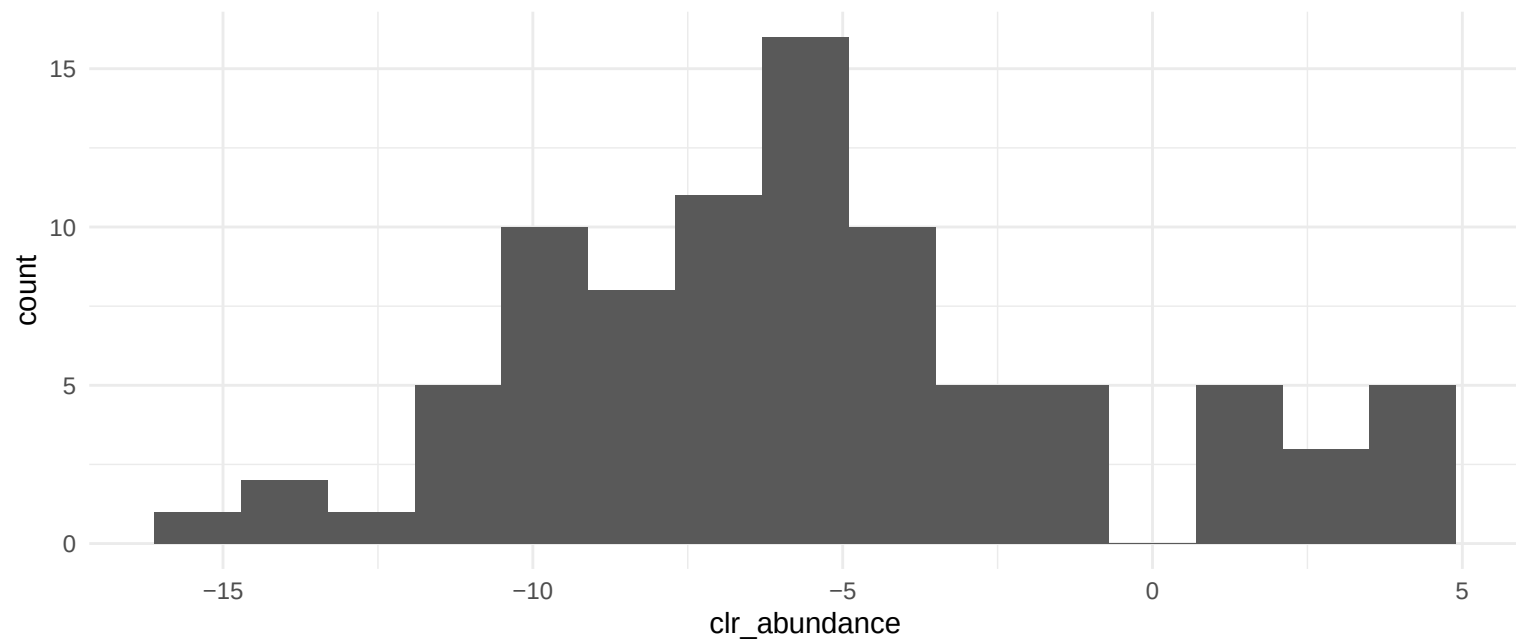

Distribution for 04130 SNARE interactions in vesicular transport

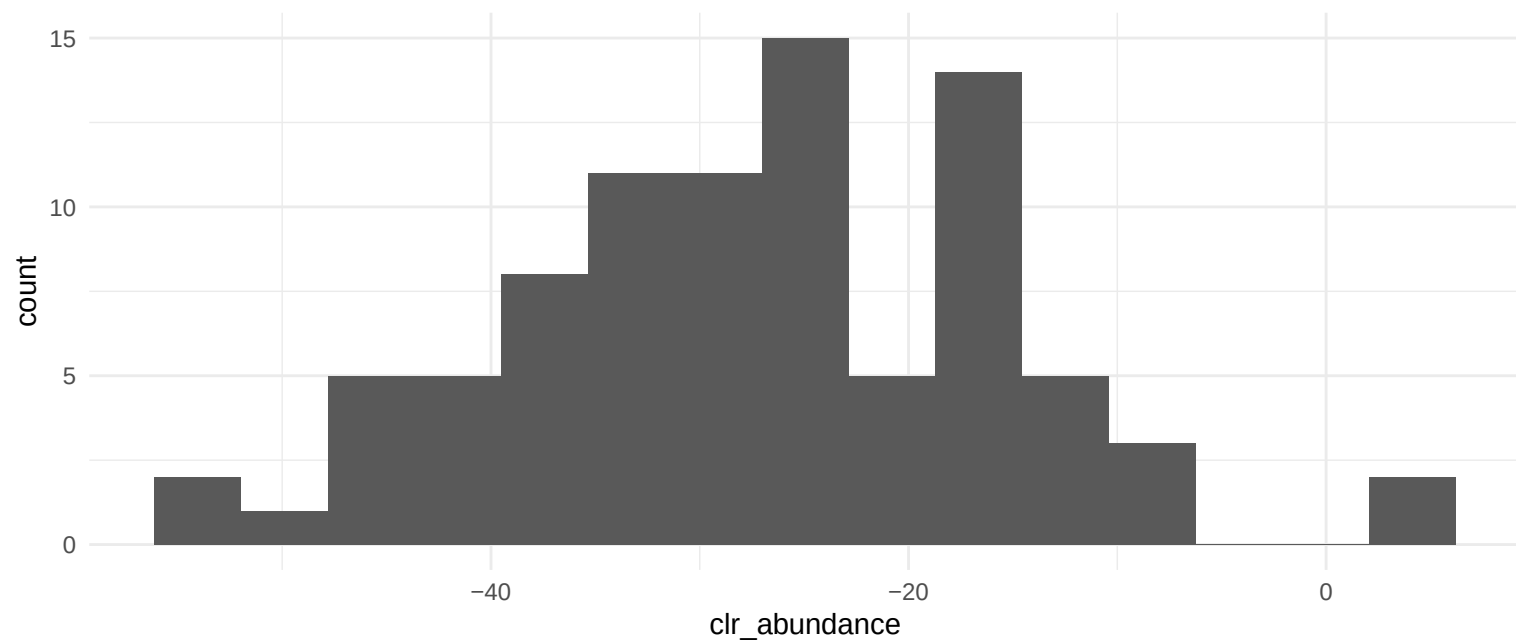

Distribution for 04131 Membrane trafficking

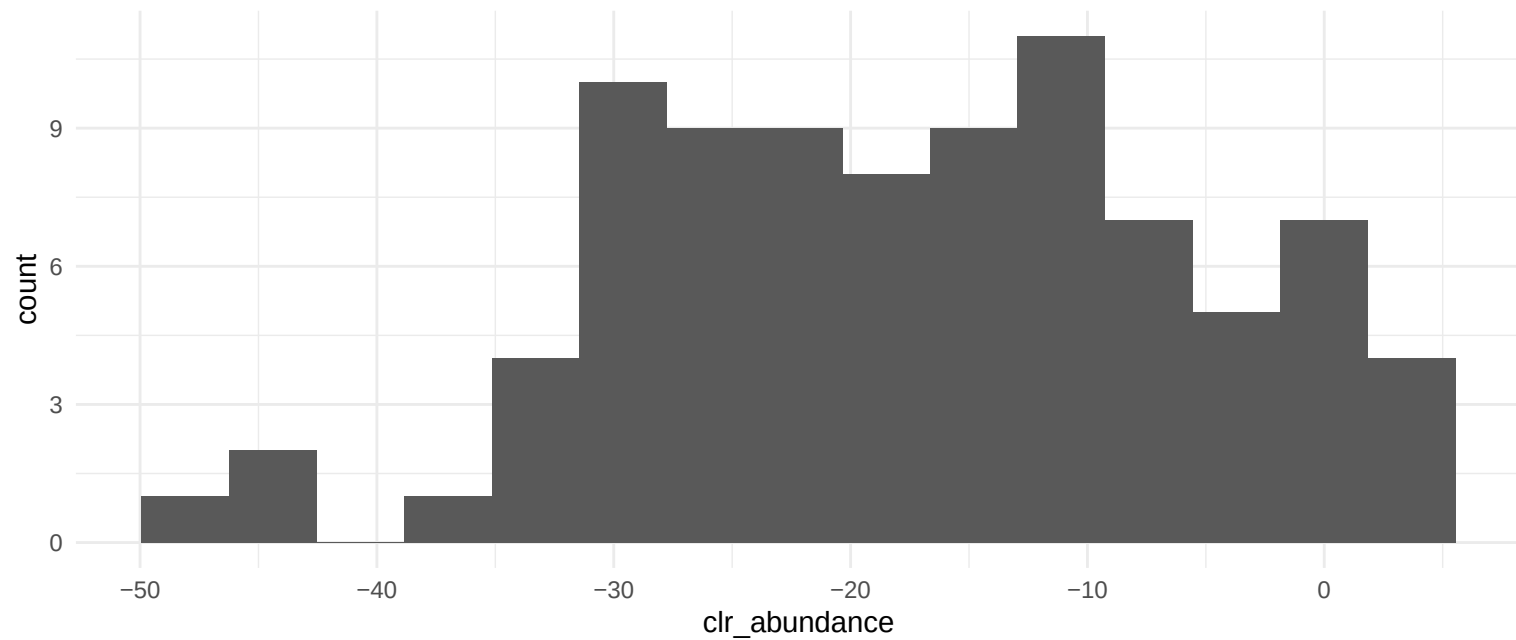

Distribution for 04136 Autophagy – other

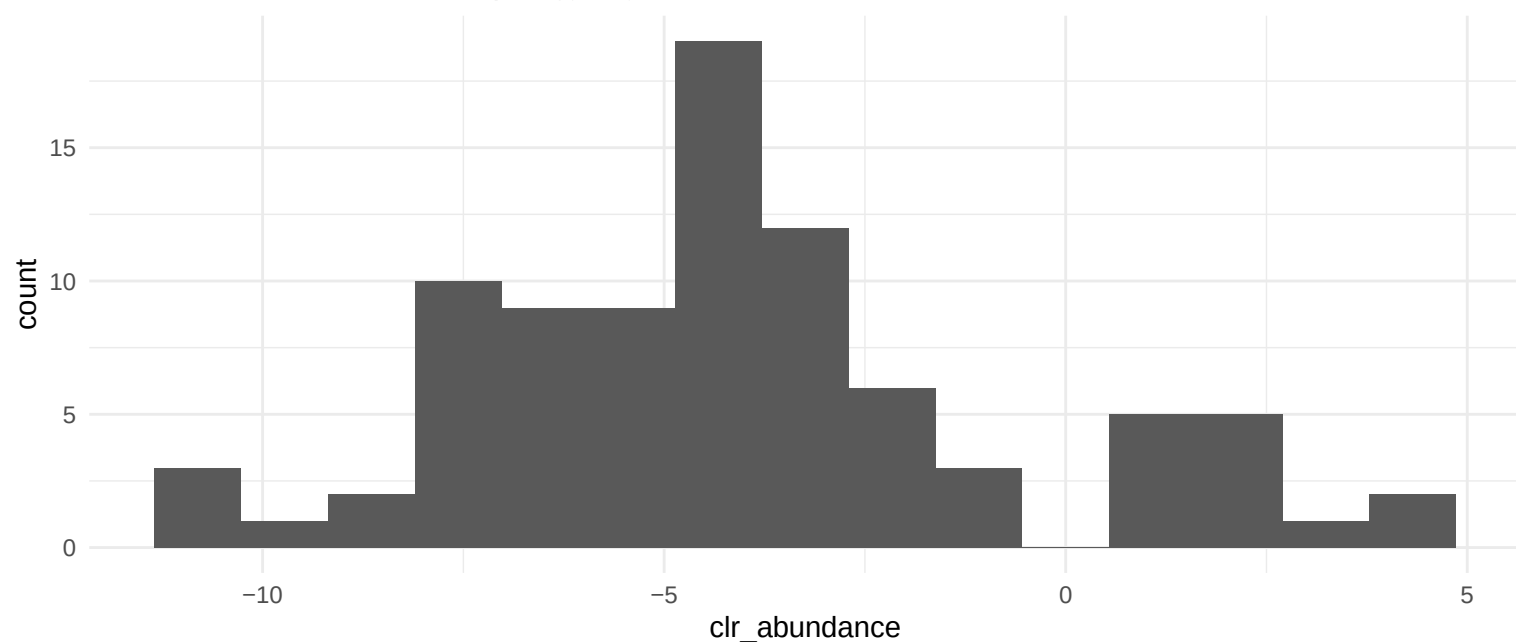

Distribution for 04137 Mitophagy – animal

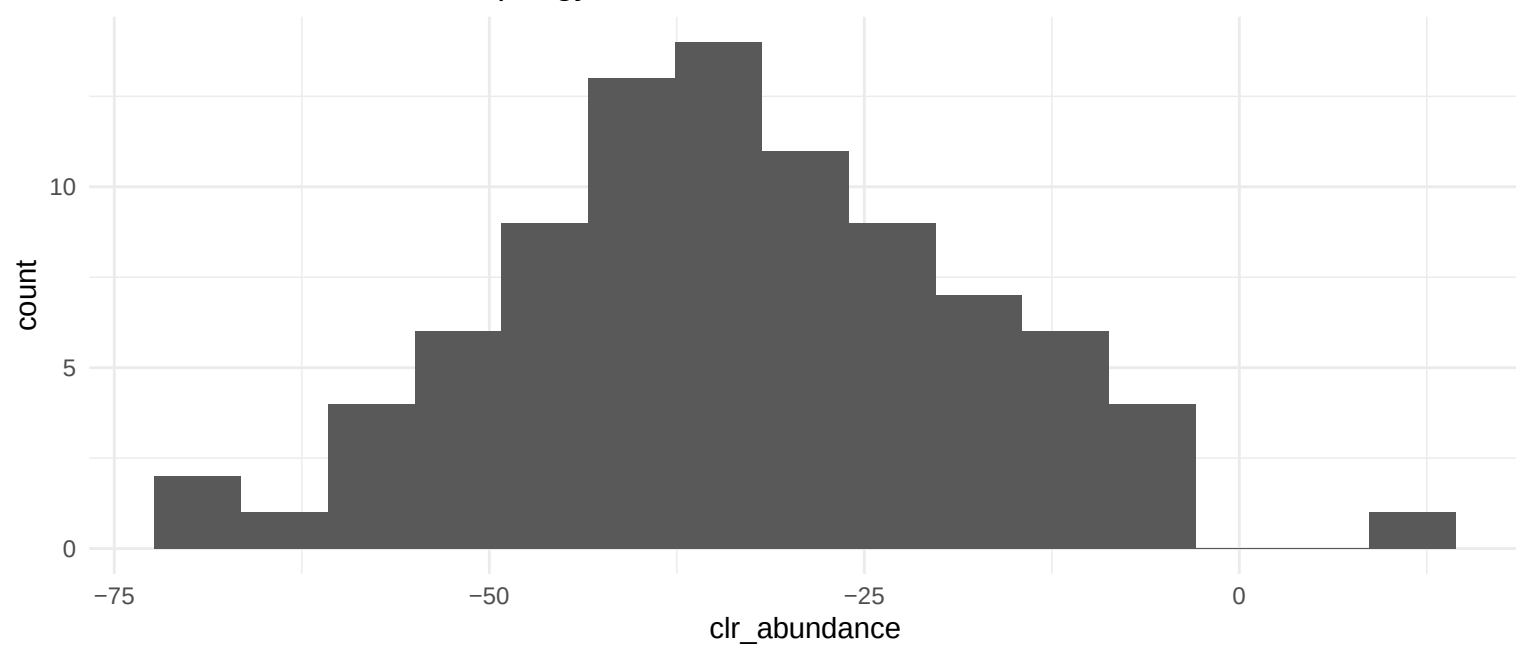

Distribution for 04138 Autophagy – yeast

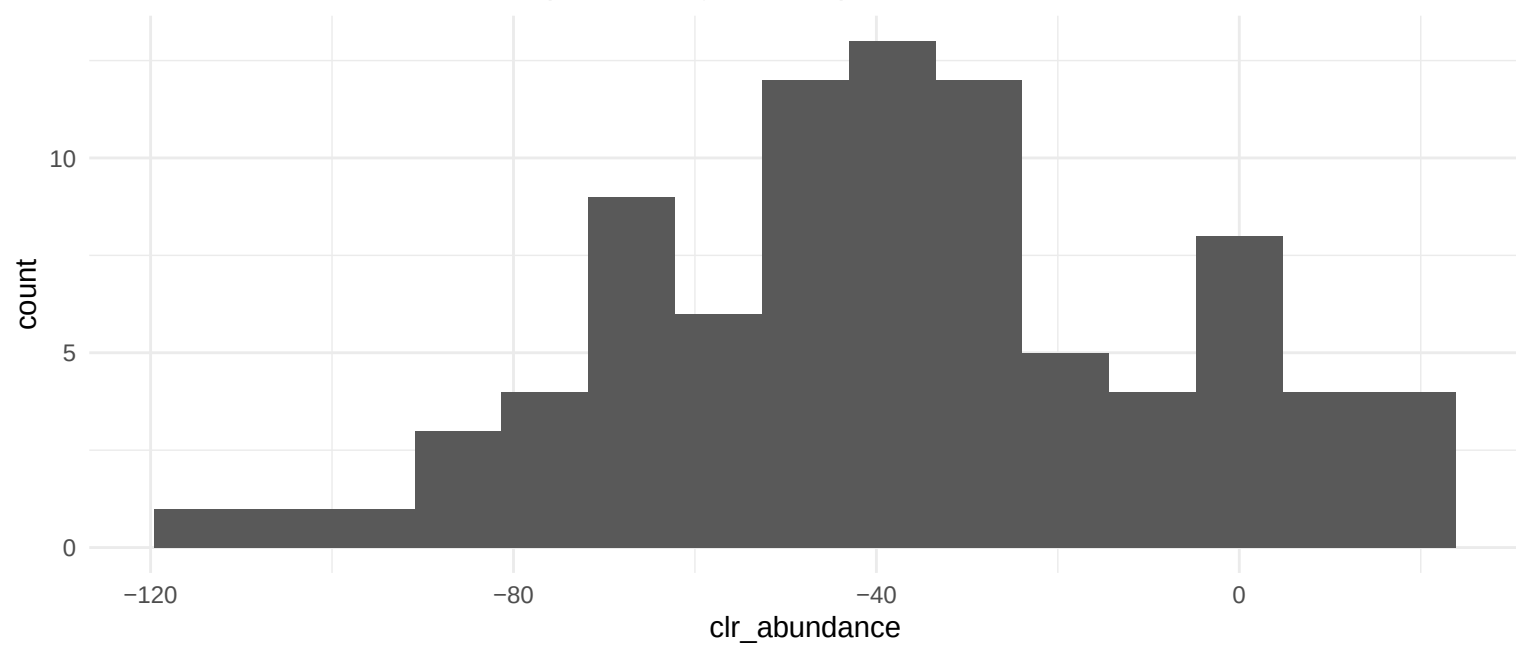

Distribution for 04139 Mitophagy – yeast

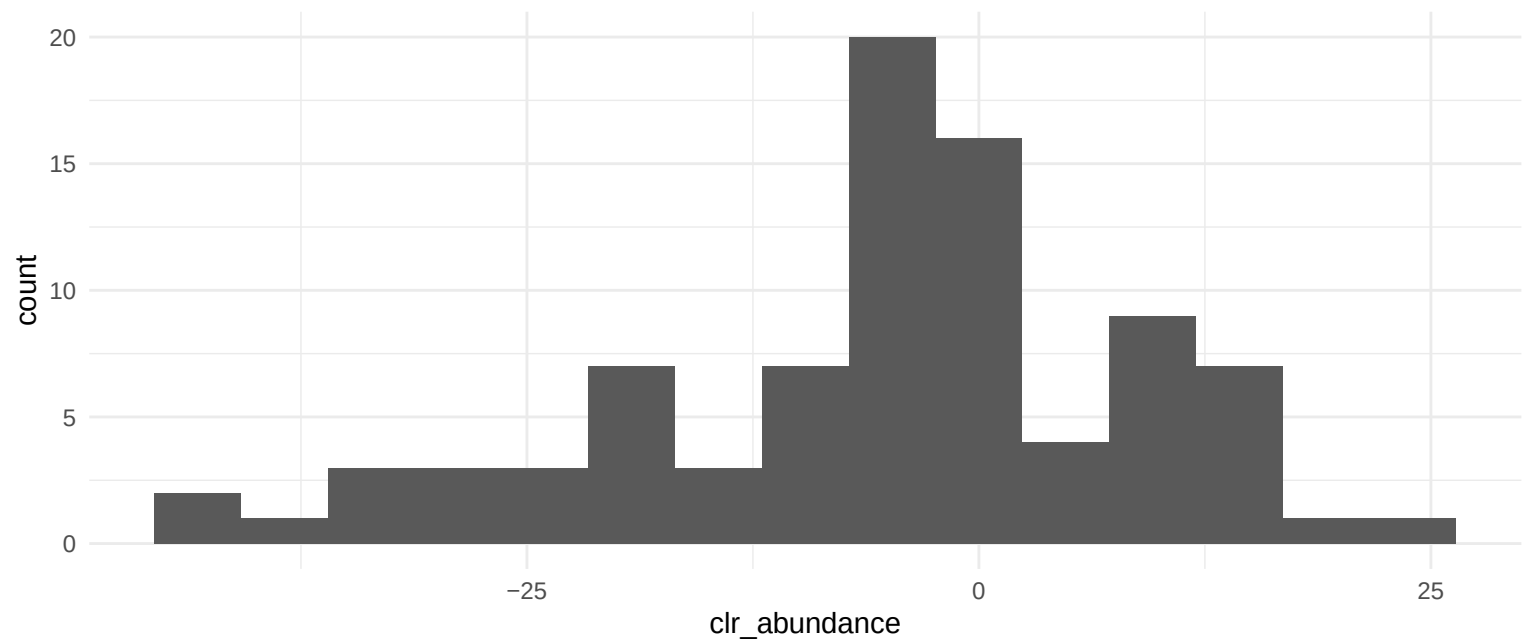

Distribution for 04140 Autophagy – animal

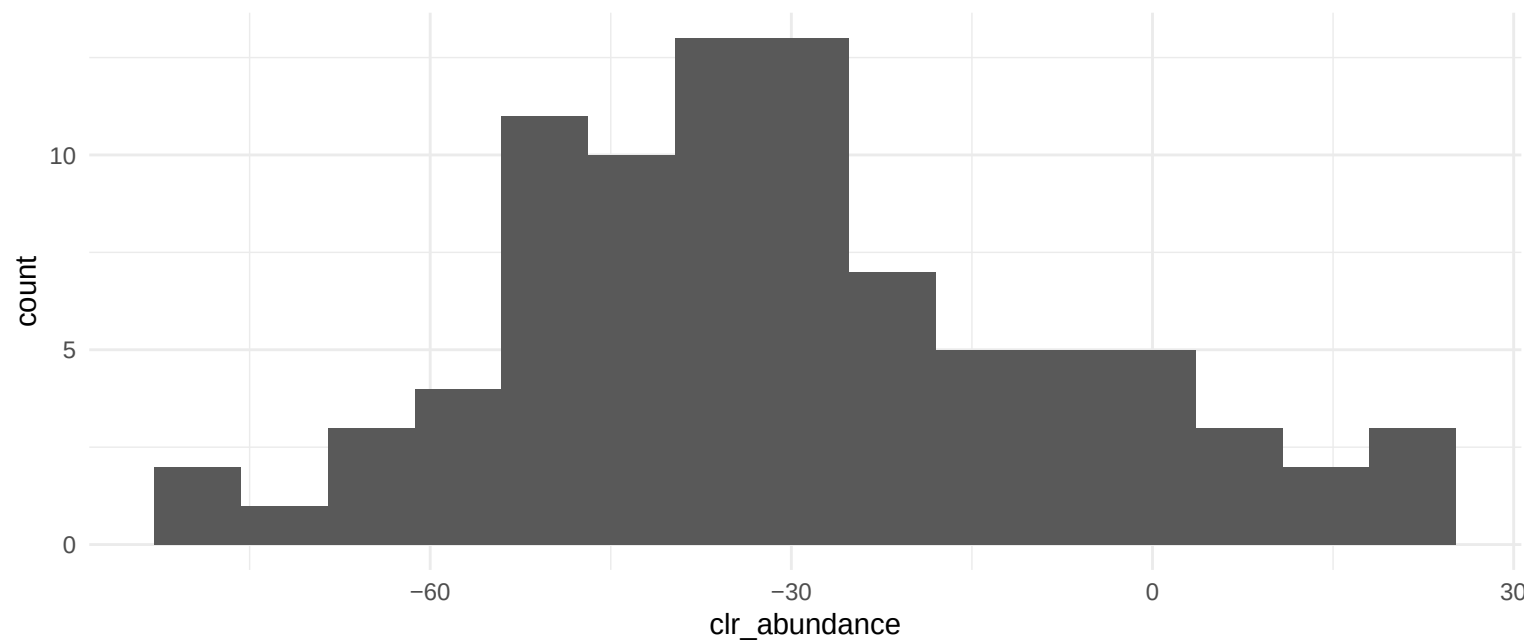

Distribution for 04141 Protein processing in endoplasmic reticulum

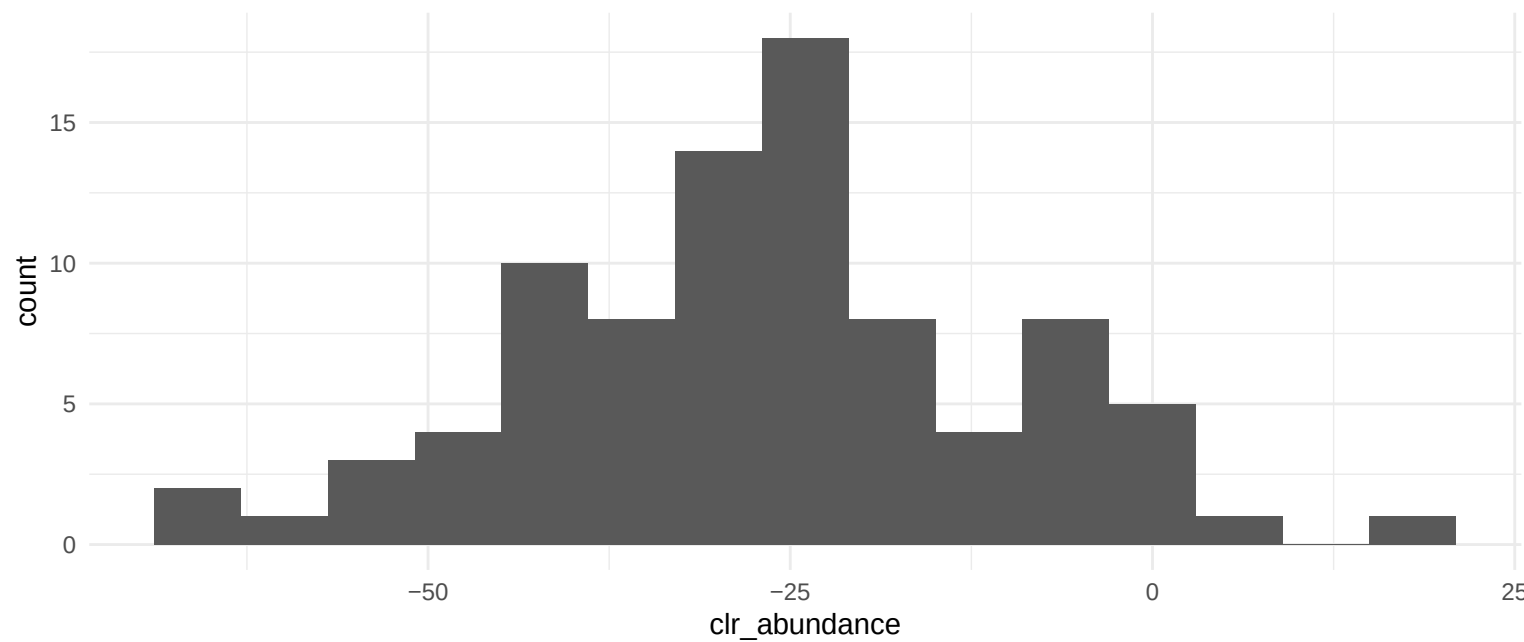

Distribution for 04142 Lysosome

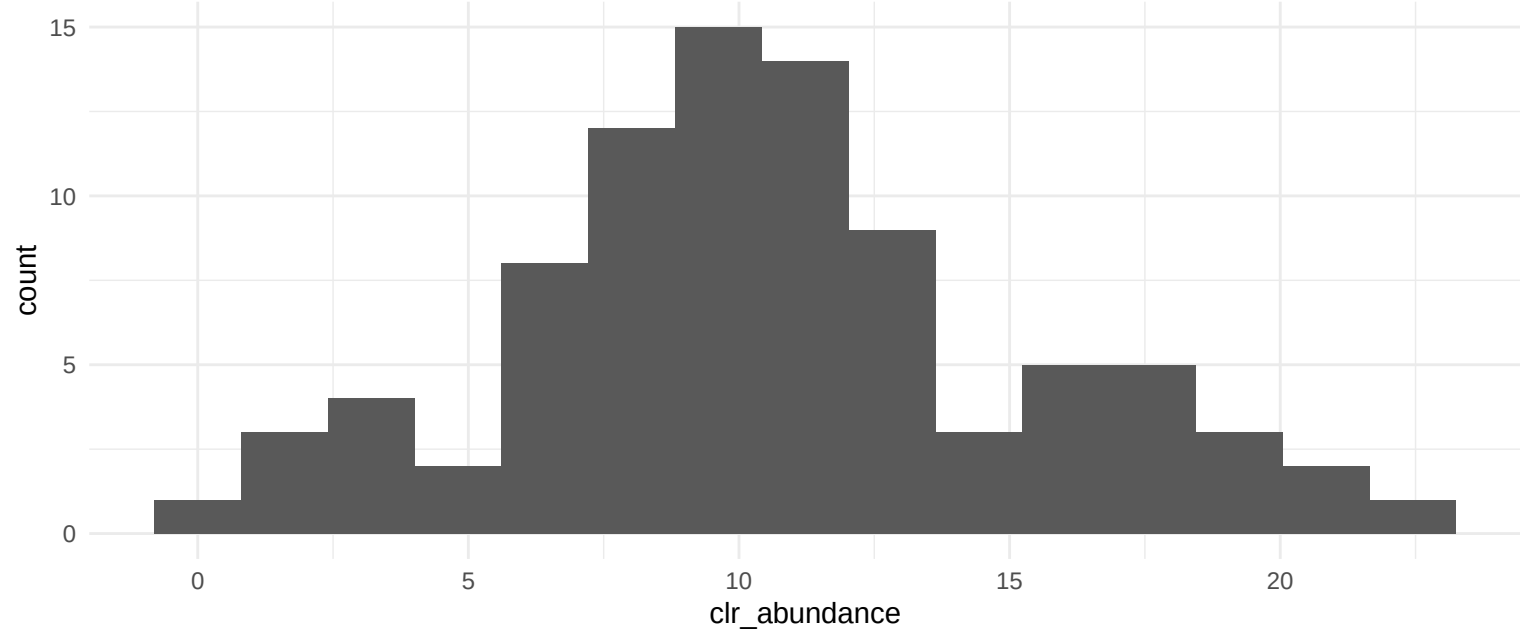

Distribution for 04144 Endocytosis

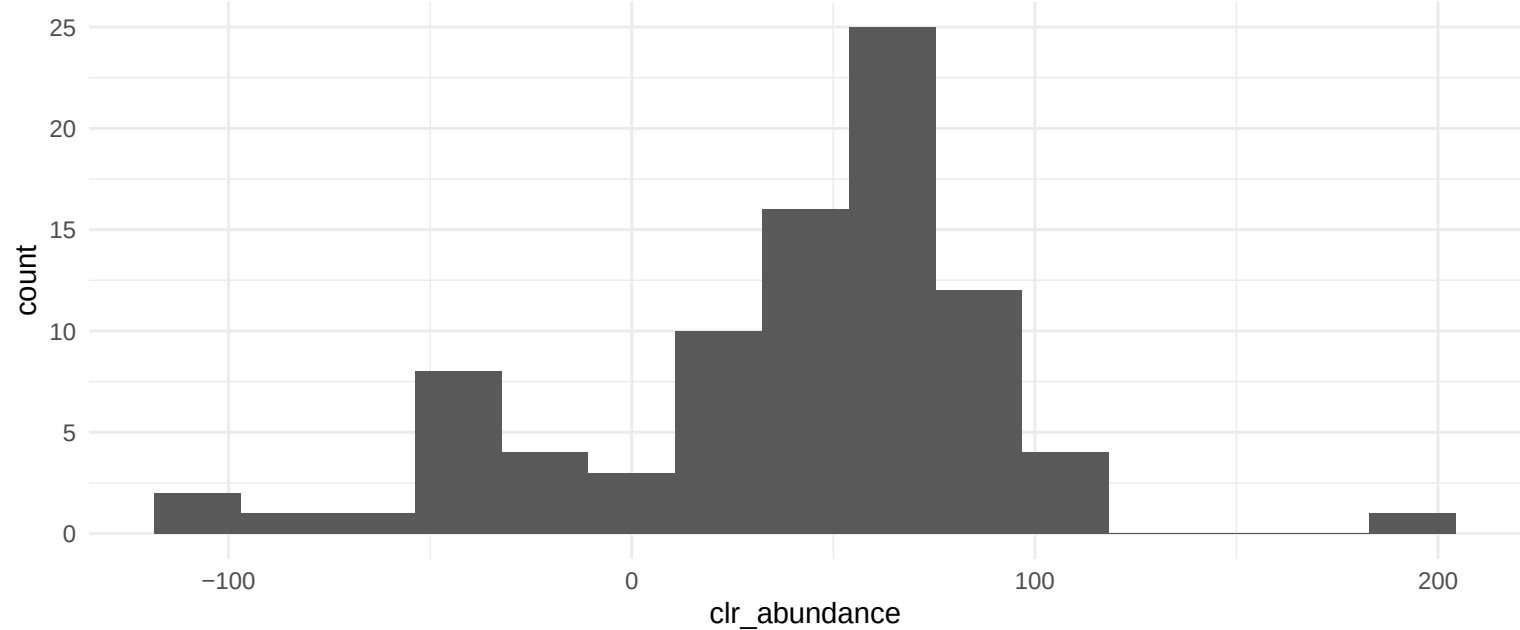

Distribution for 04145 Phagosome

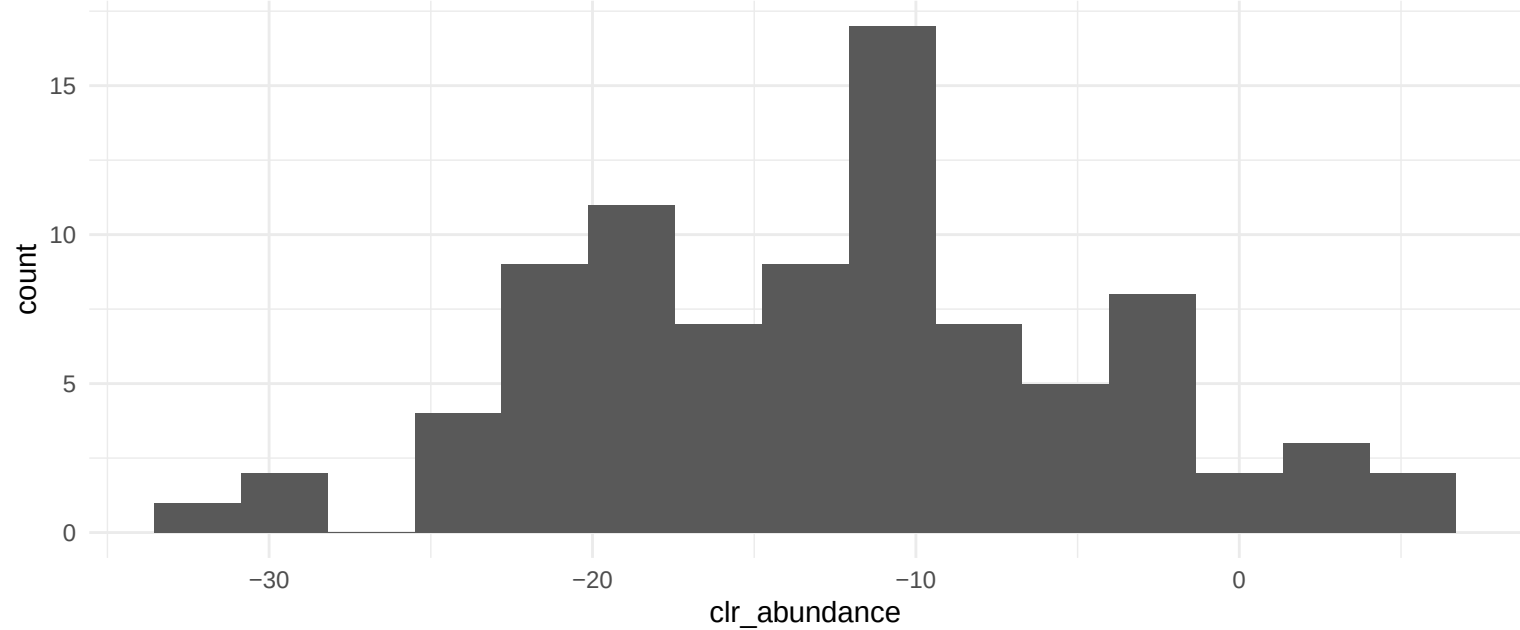

Distribution for 04146 Peroxisome

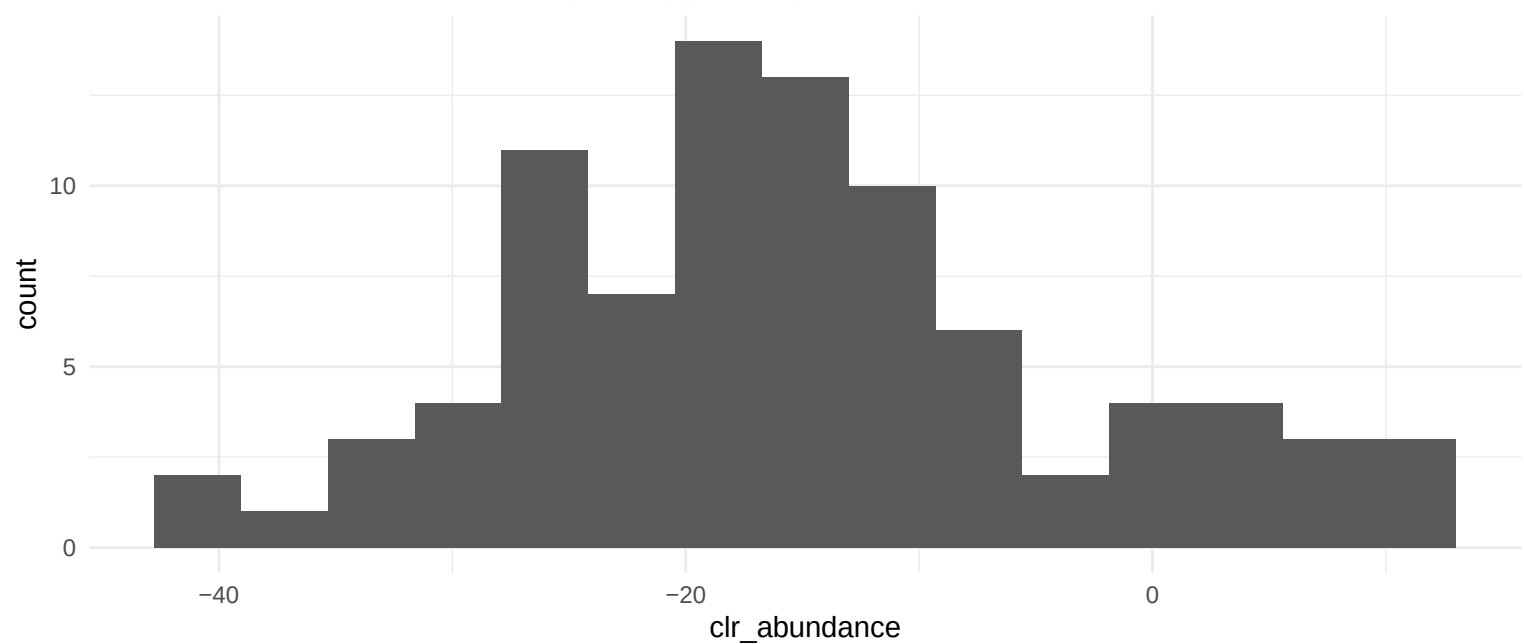

Distribution for 04147 Exosome

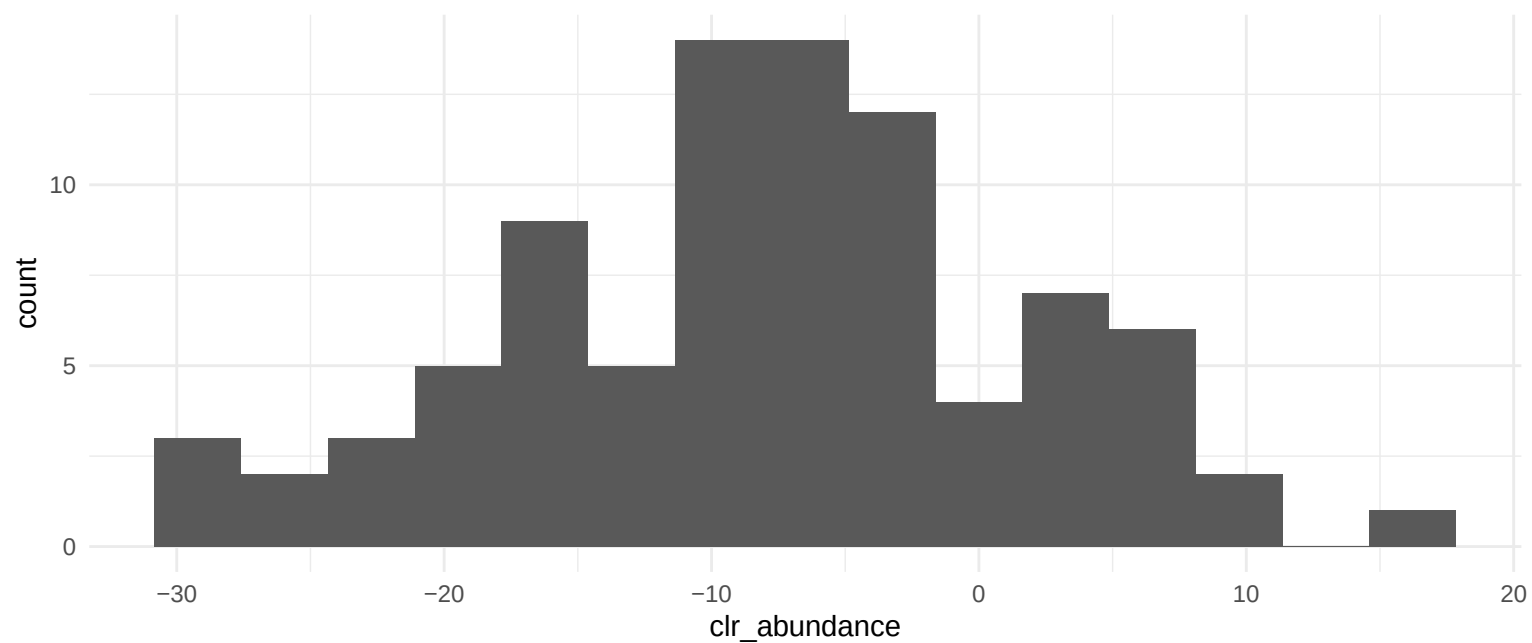

Distribution for 04148 Efferocytosis

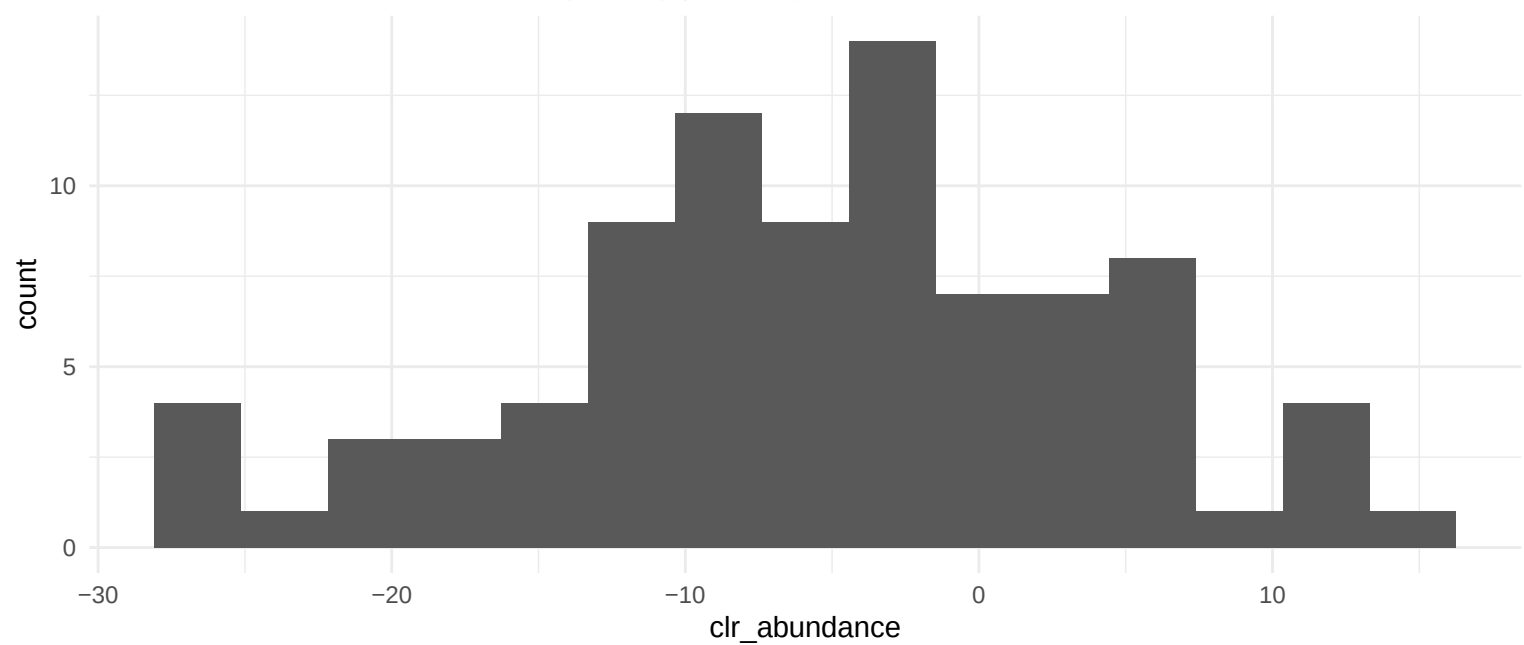

Distribution for 04150 mTOR signaling pathway

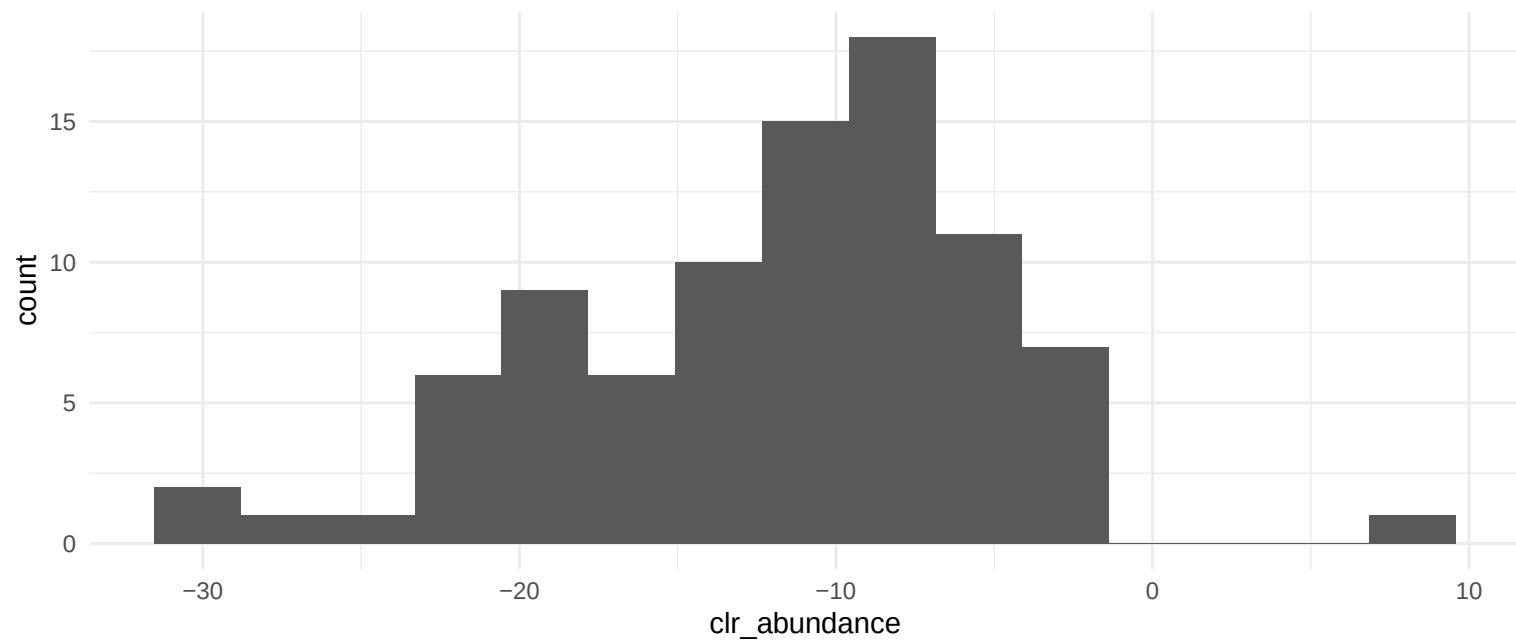

Distribution for 04151 PI3K–Akt signaling pathway

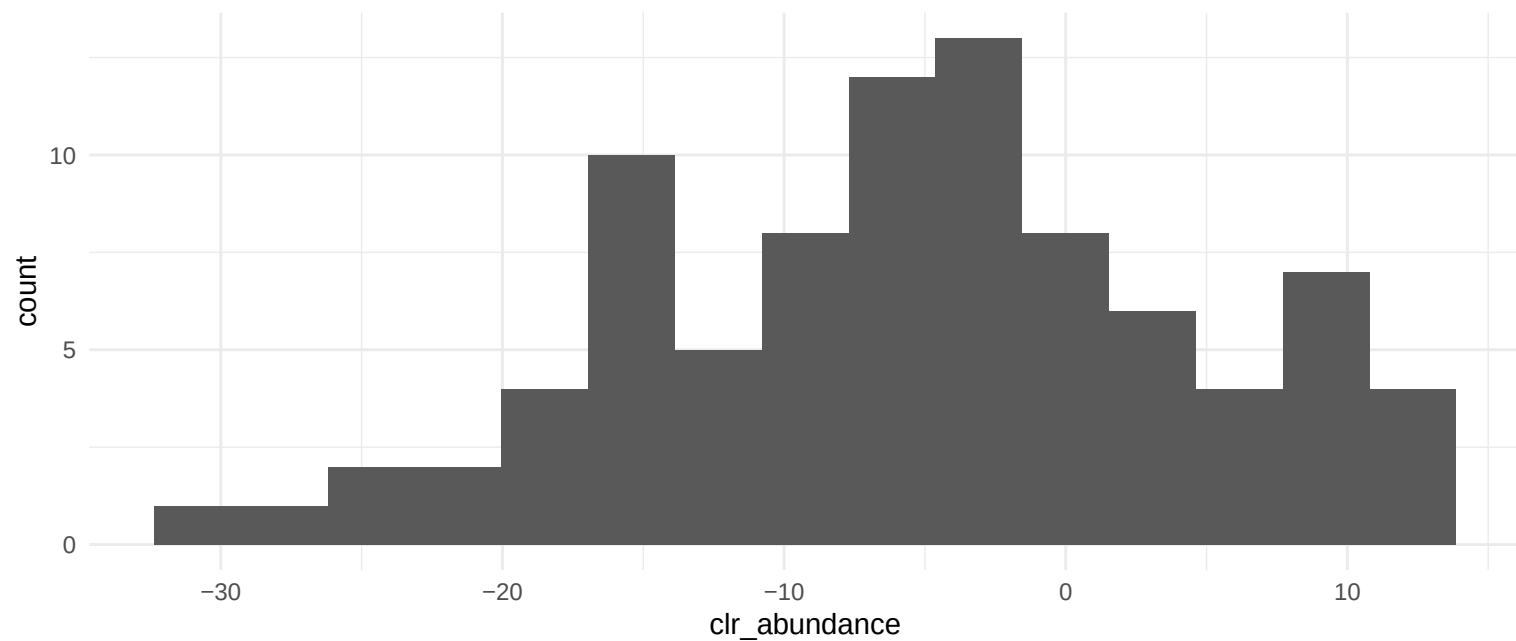

Distribution for 04152 AMPK signaling pathway

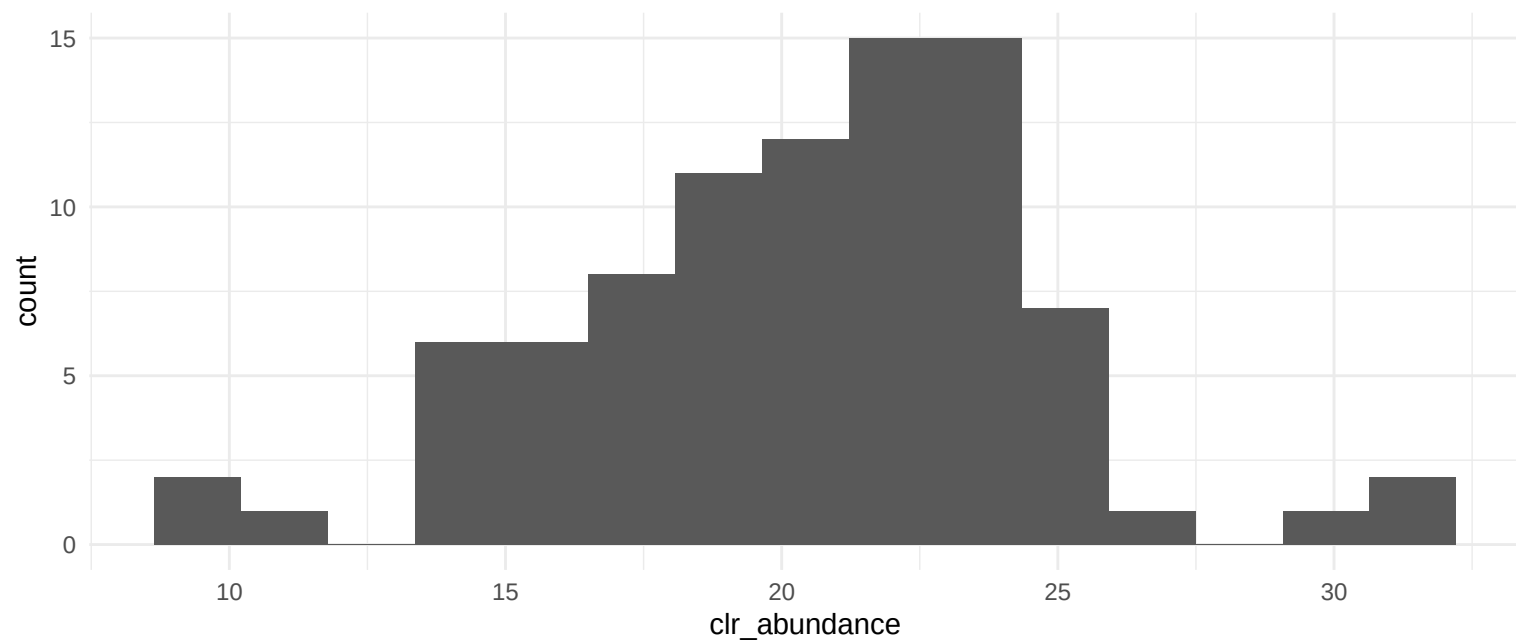

Distribution for 04210 Apoptosis

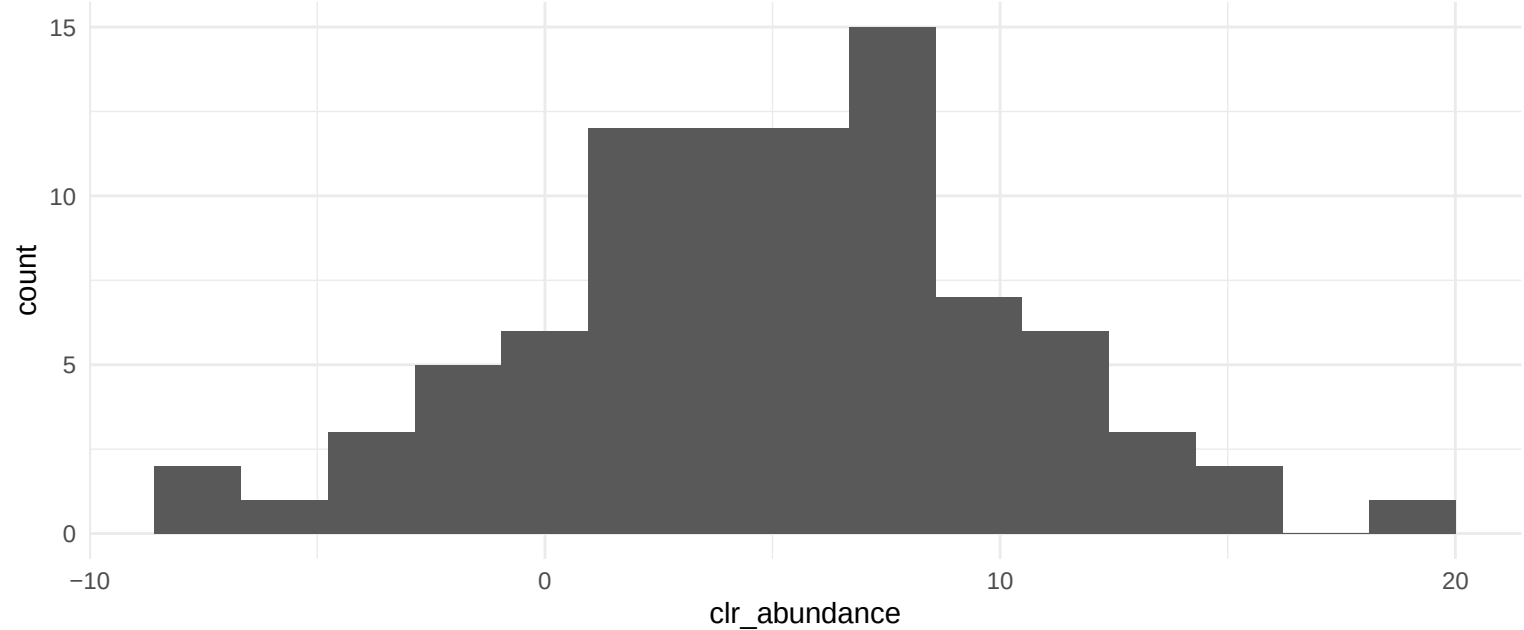

Distribution for 04211 Longevity regulating pathway

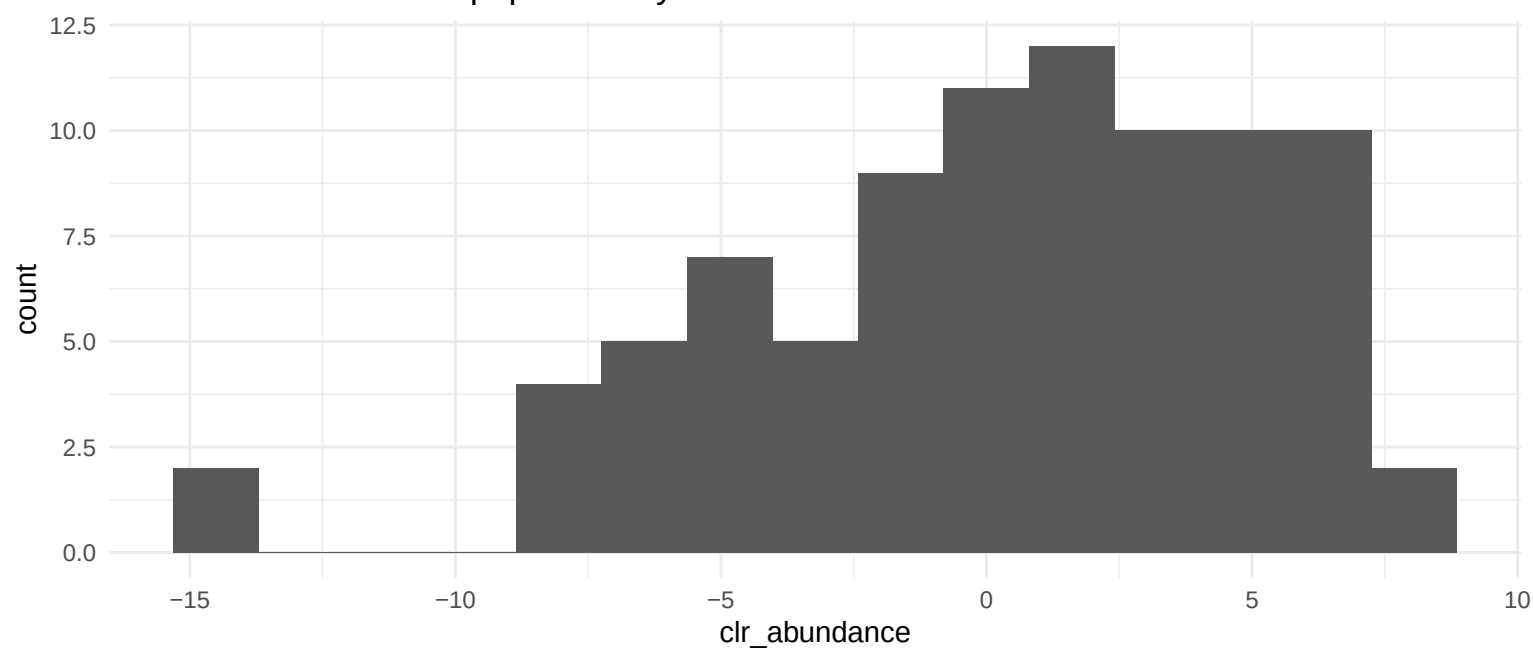

Distribution for 04212 Longevity regulating pathway – worm

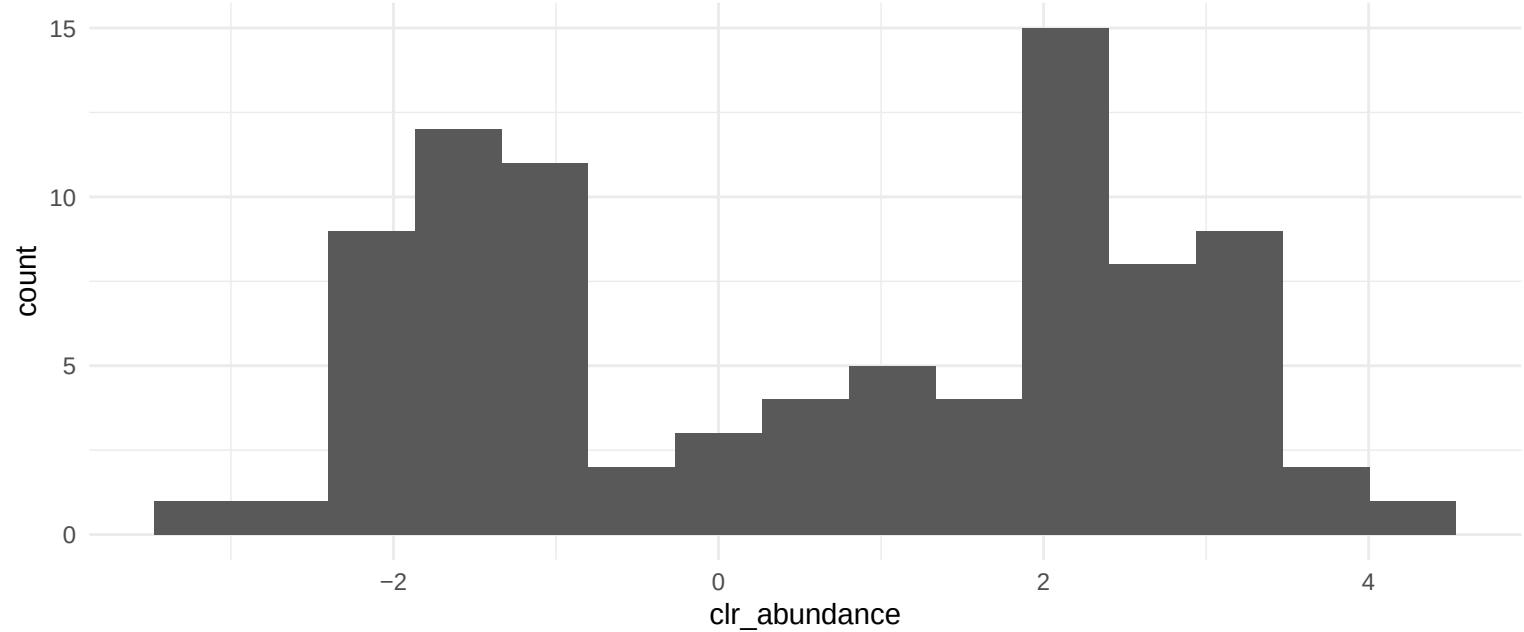

Distribution for 04213 Longevity regulating pathway – multiple species

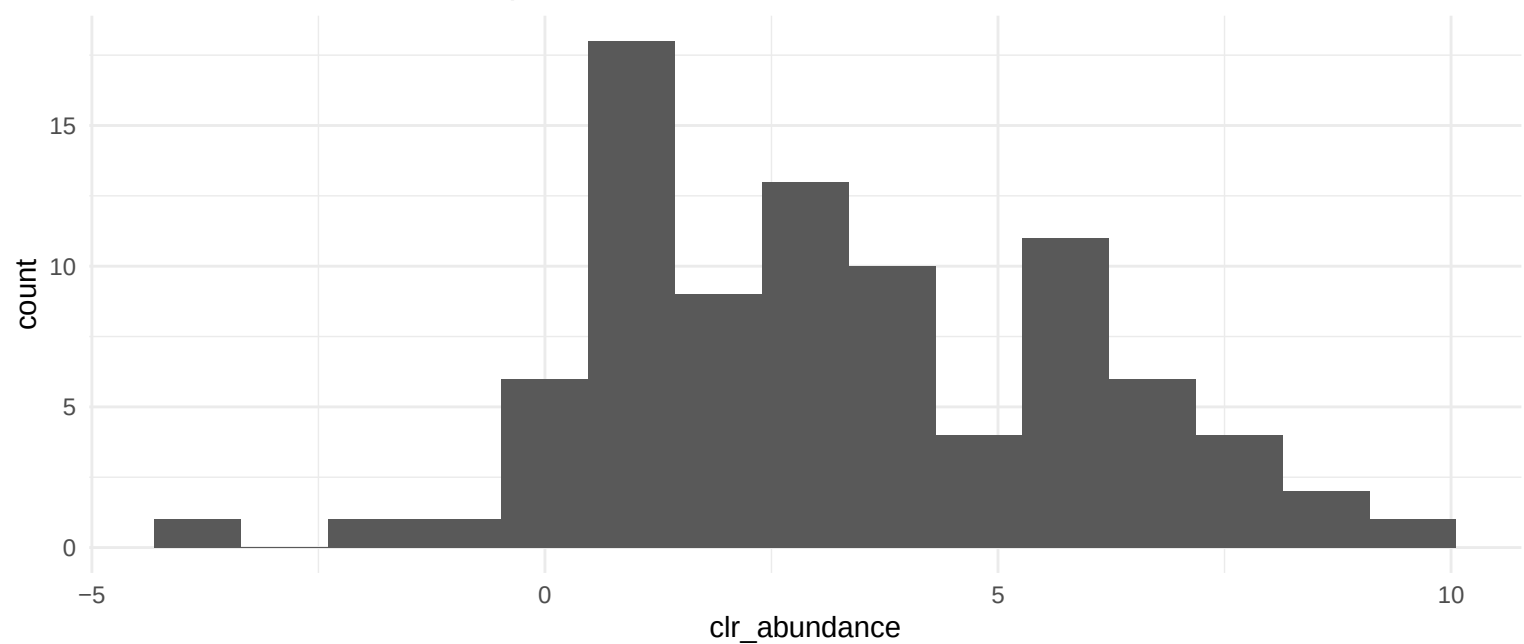

Distribution for 04214 Apoptosis – fly

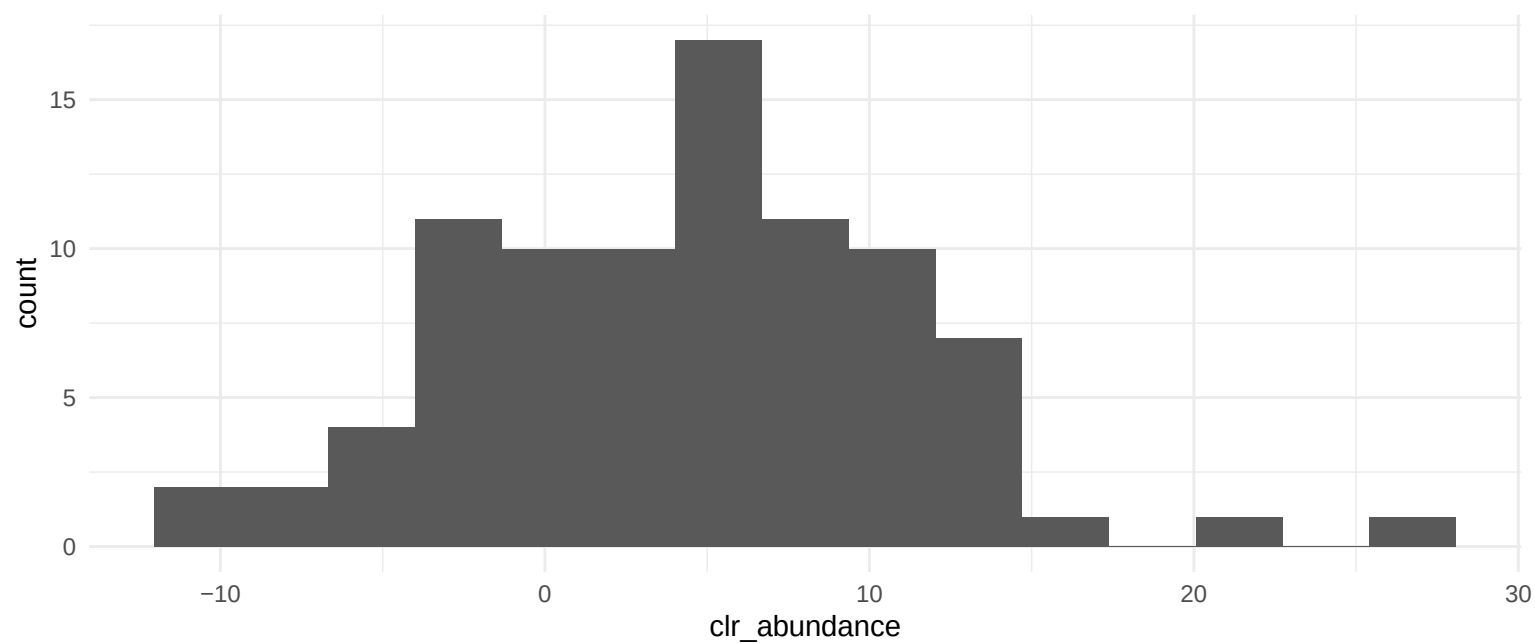

Distribution for 04215 Apoptosis – multiple species

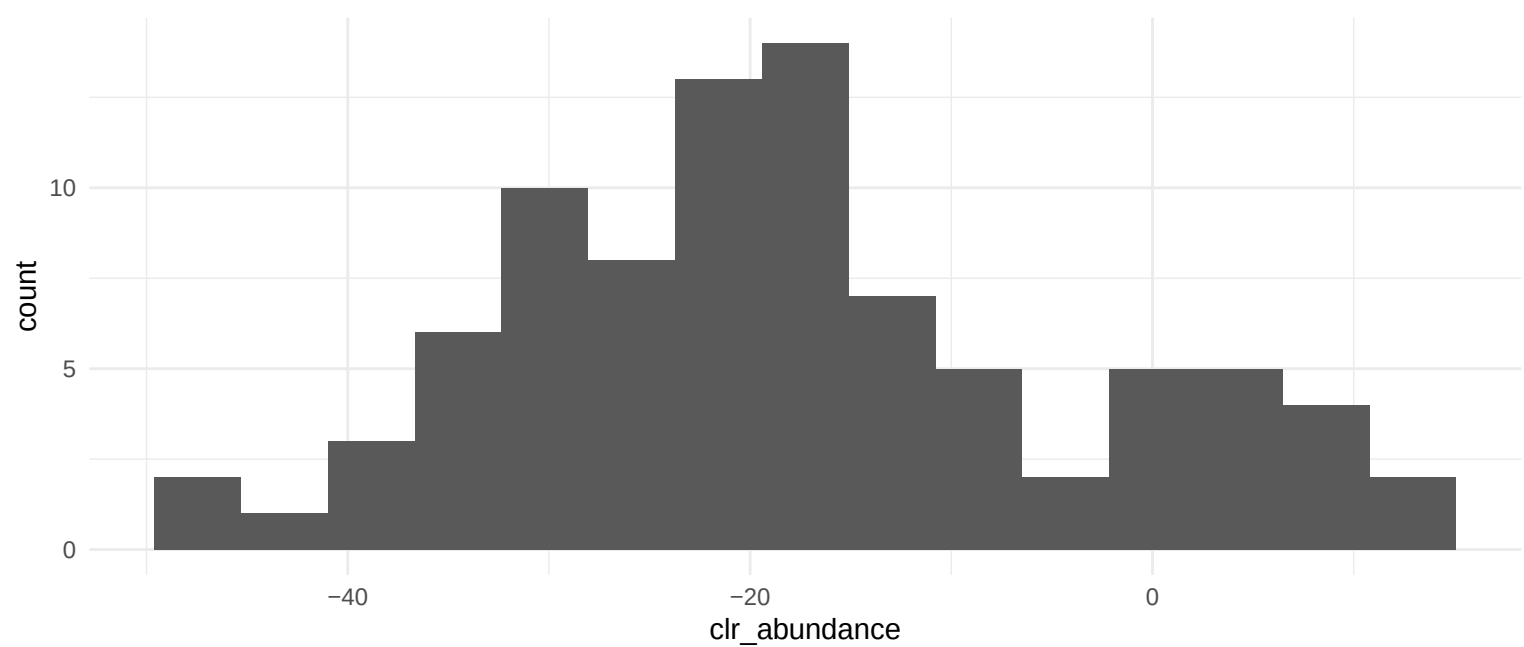

Distribution for 04216 Ferroptosis

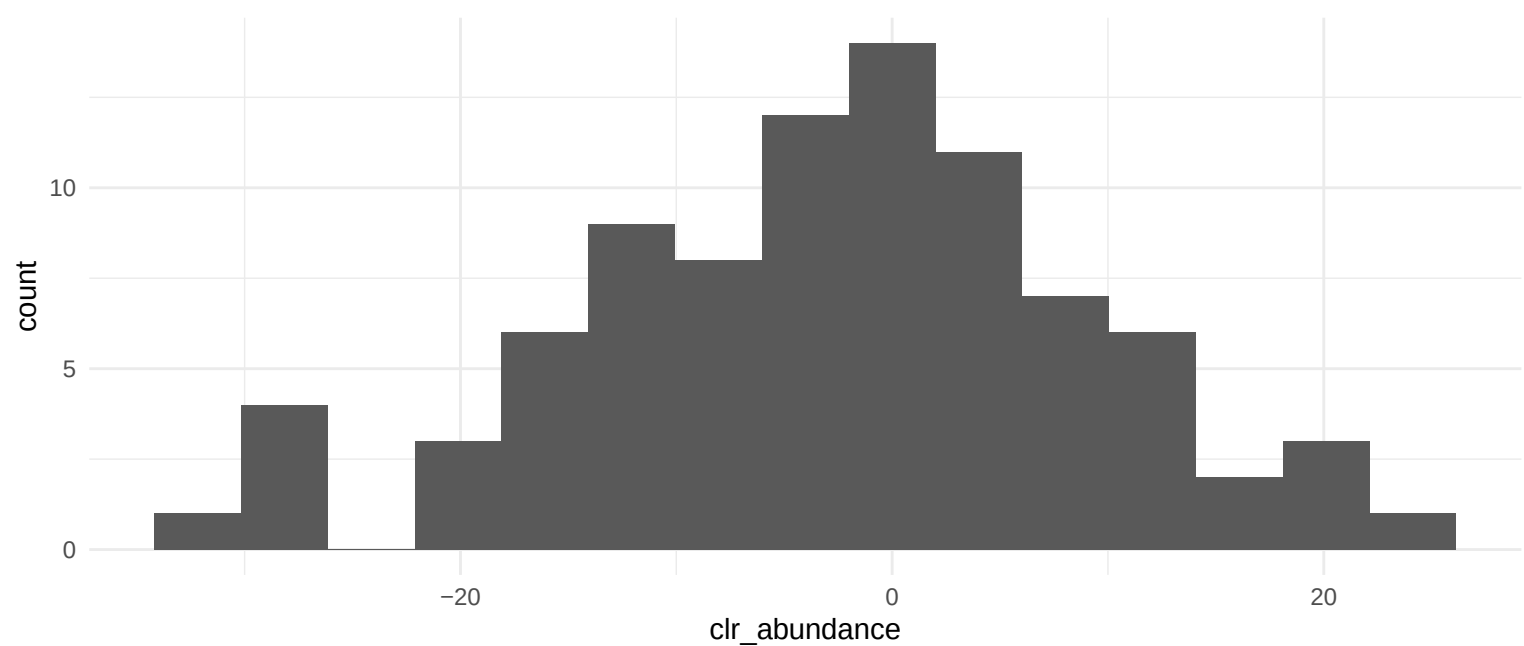

Distribution for 04217 Necroptosis

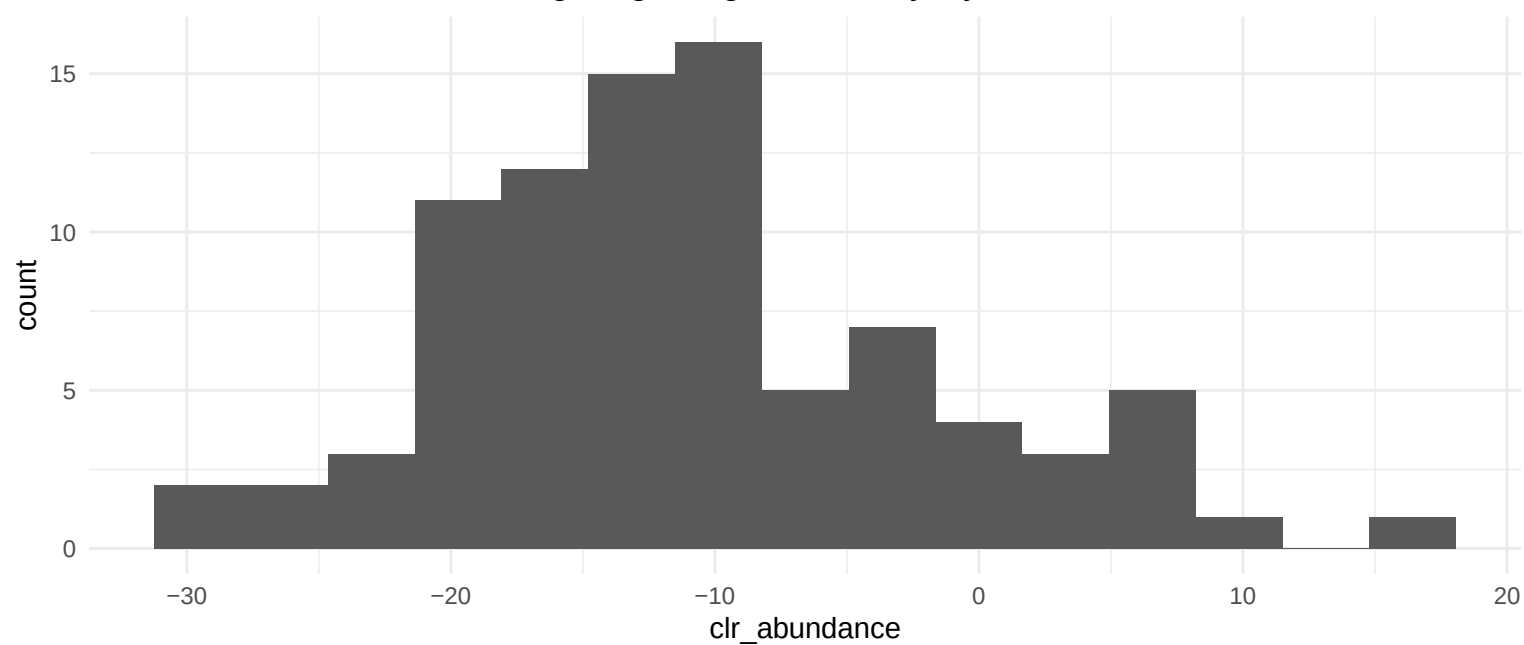

Distribution for 04218 Cellular senescence

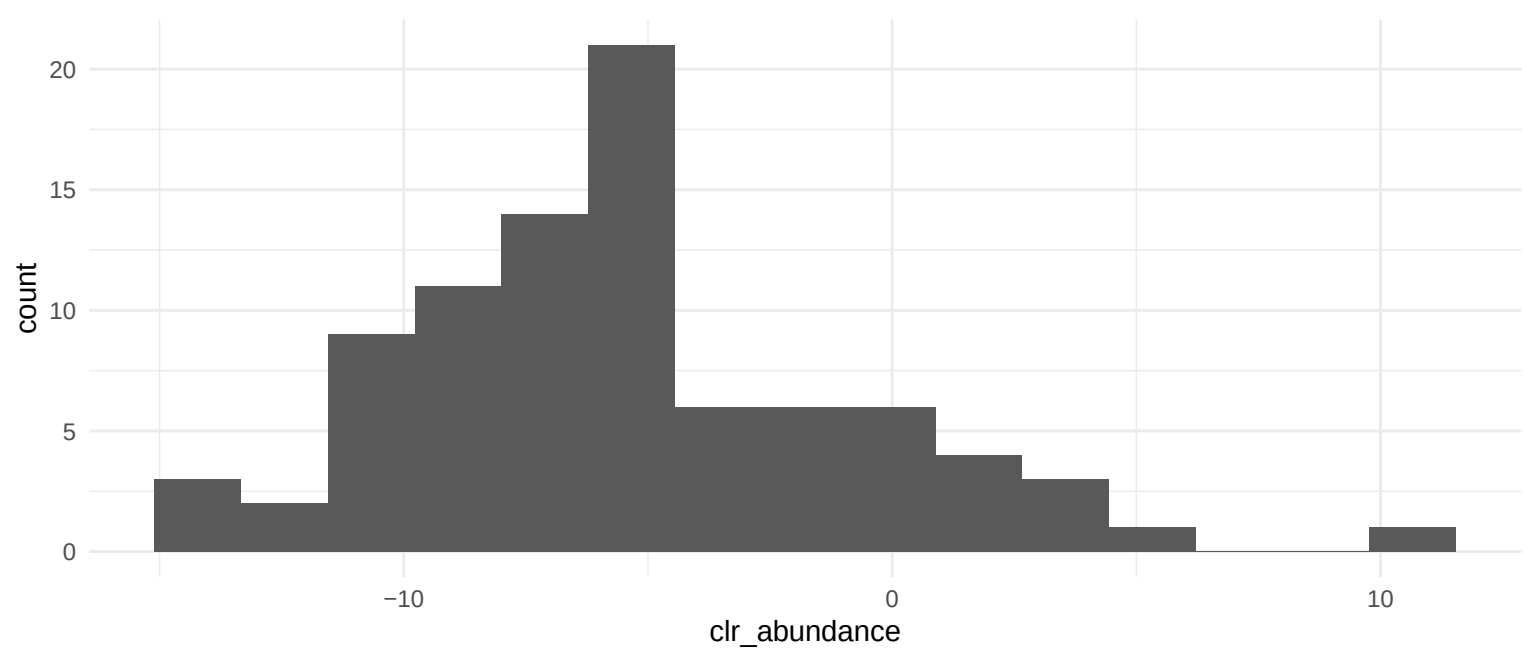

Distribution for 04260 Cardiac muscle contraction

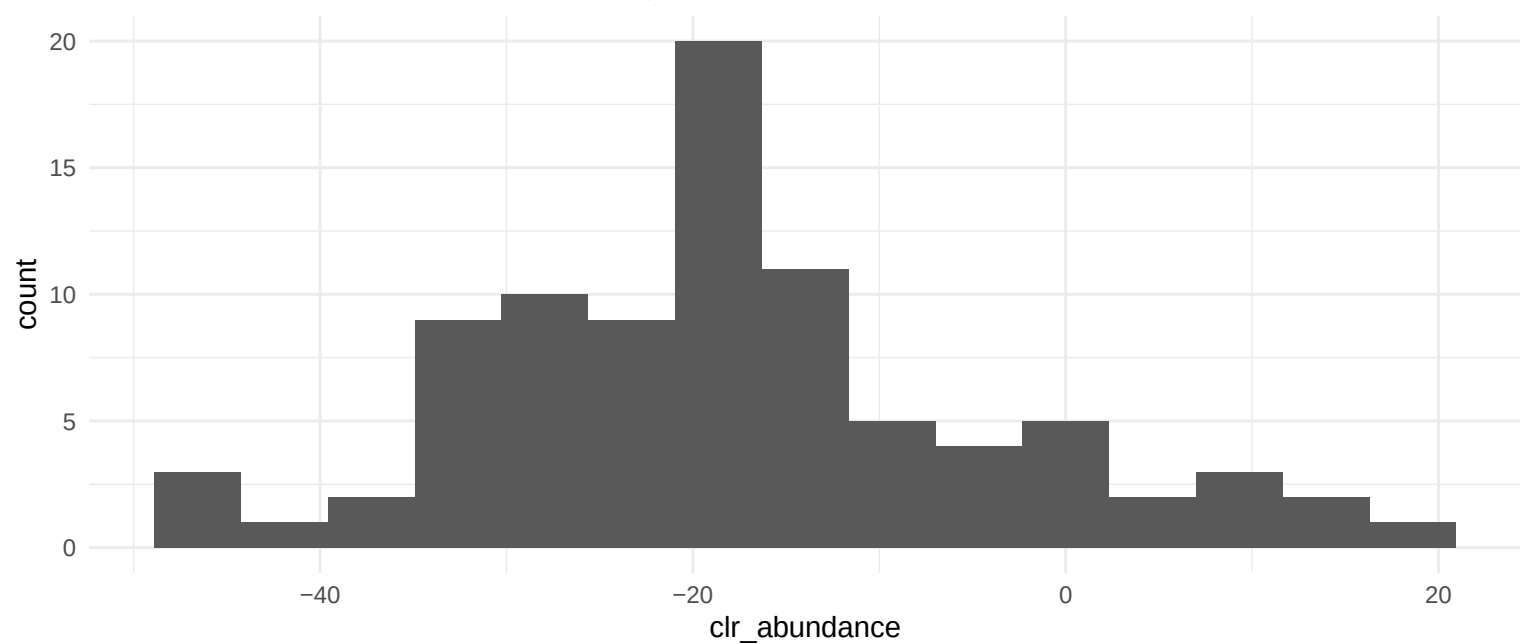

Distribution for 04261 Adrenergic signaling in cardiomyocytes

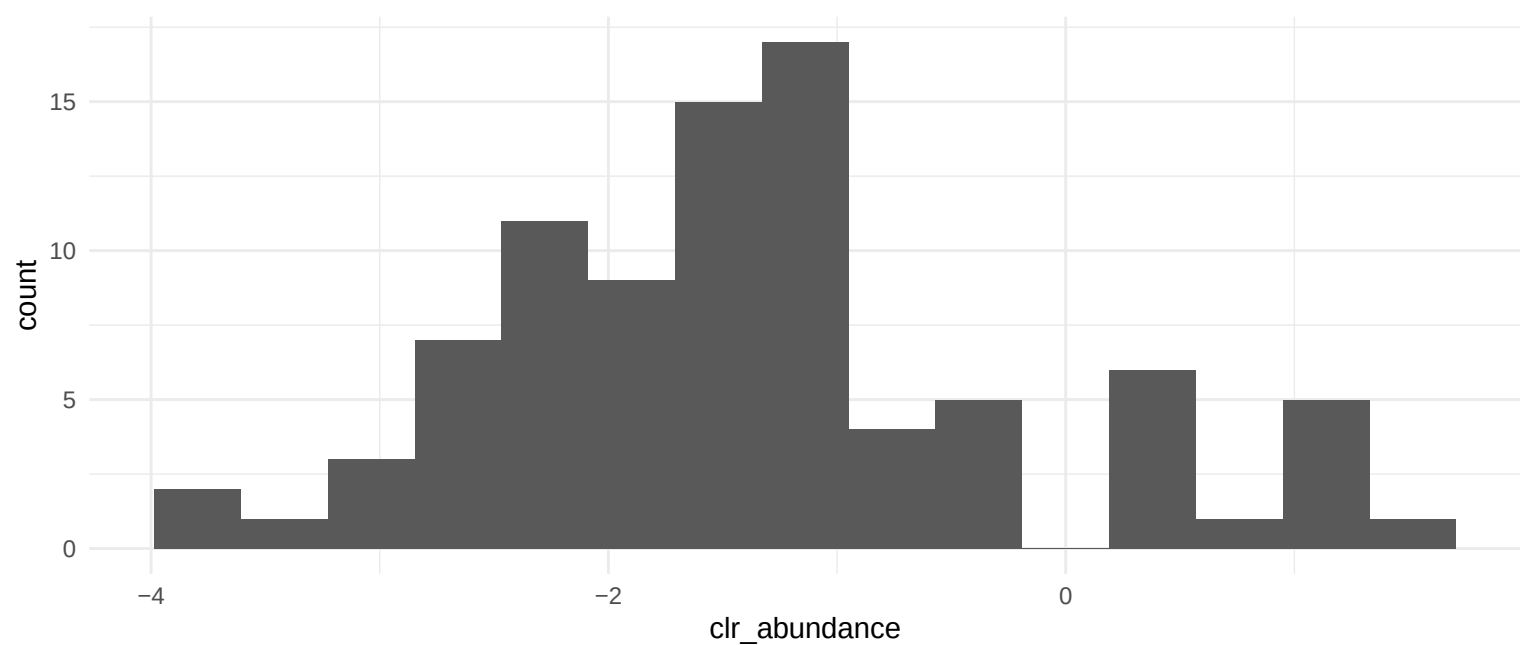

Distribution for 04270 Vascular smooth muscle contraction

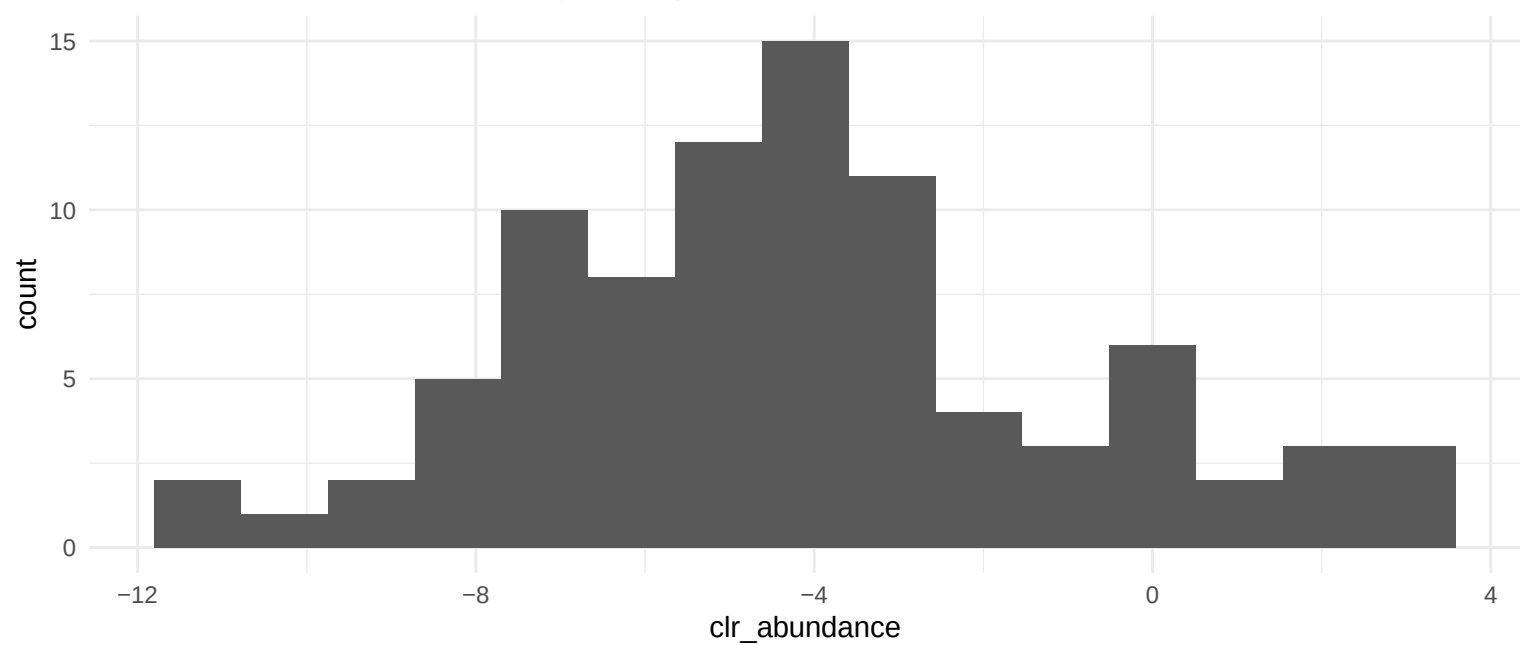

Distribution for 04310 Wnt signaling pathway

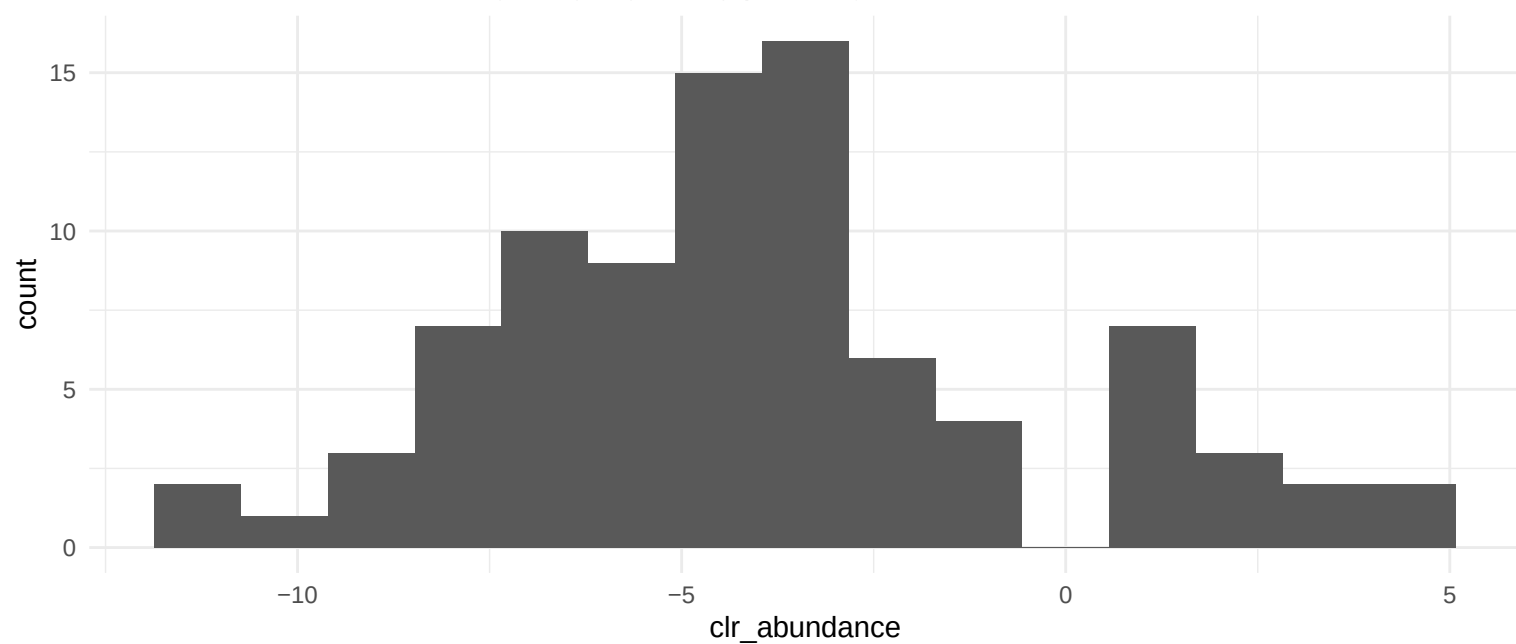

Distribution for 04320 Dorso-ventral axis formation

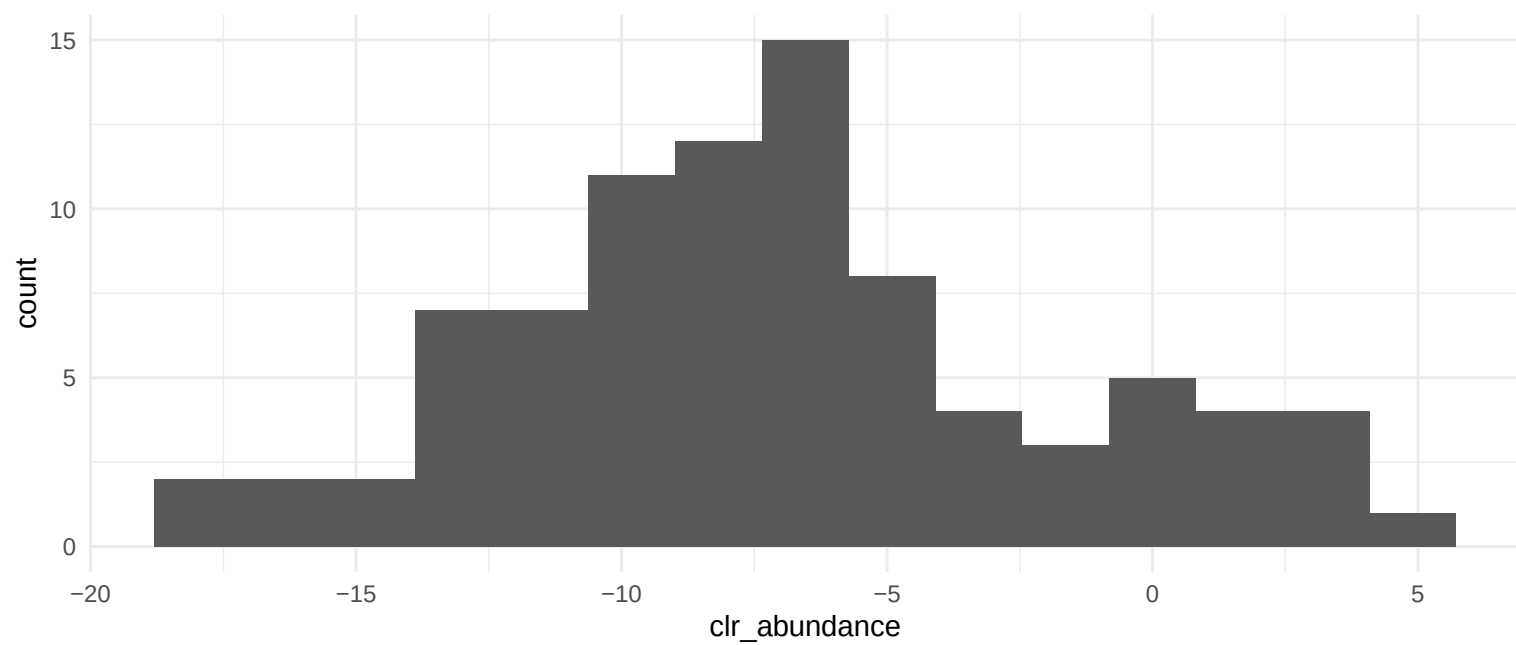

Distribution for 04330 Notch signaling pathway

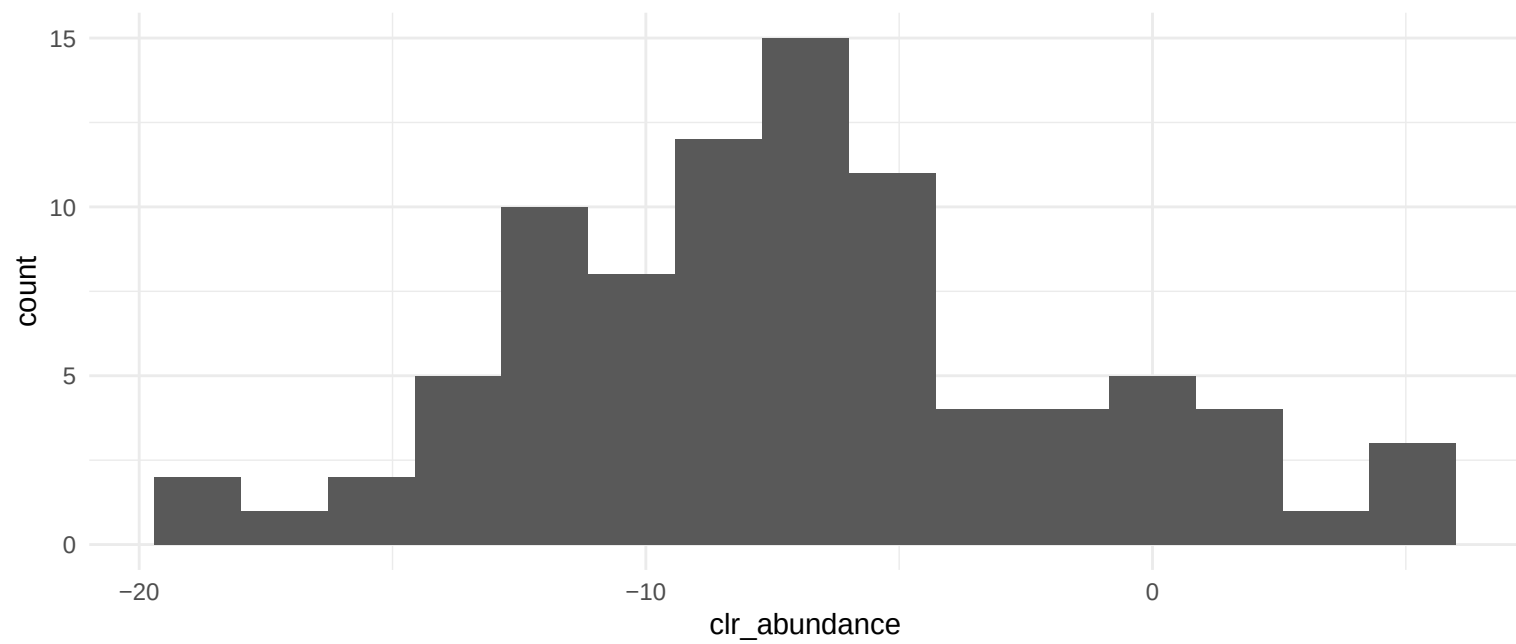

Distribution for 04340 Hedgehog signaling pathway

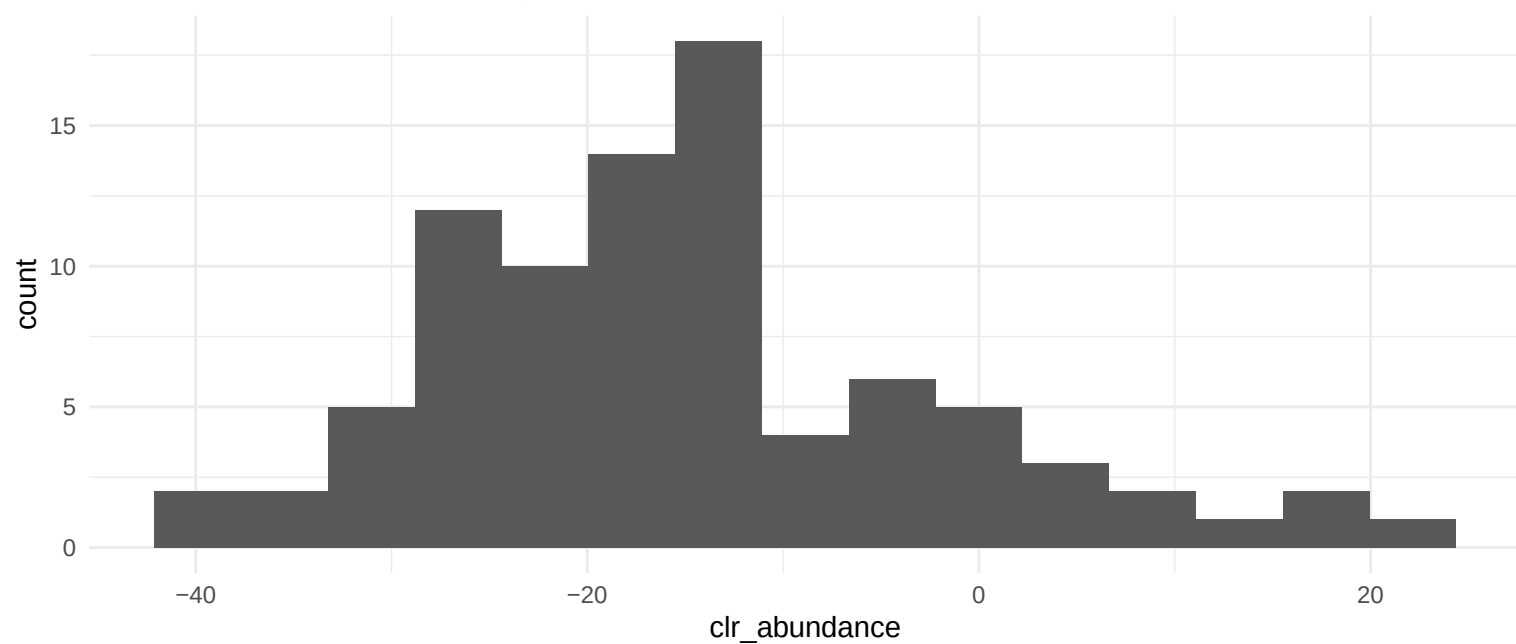

Distribution for 04341 Hedgehog signaling pathway – fly

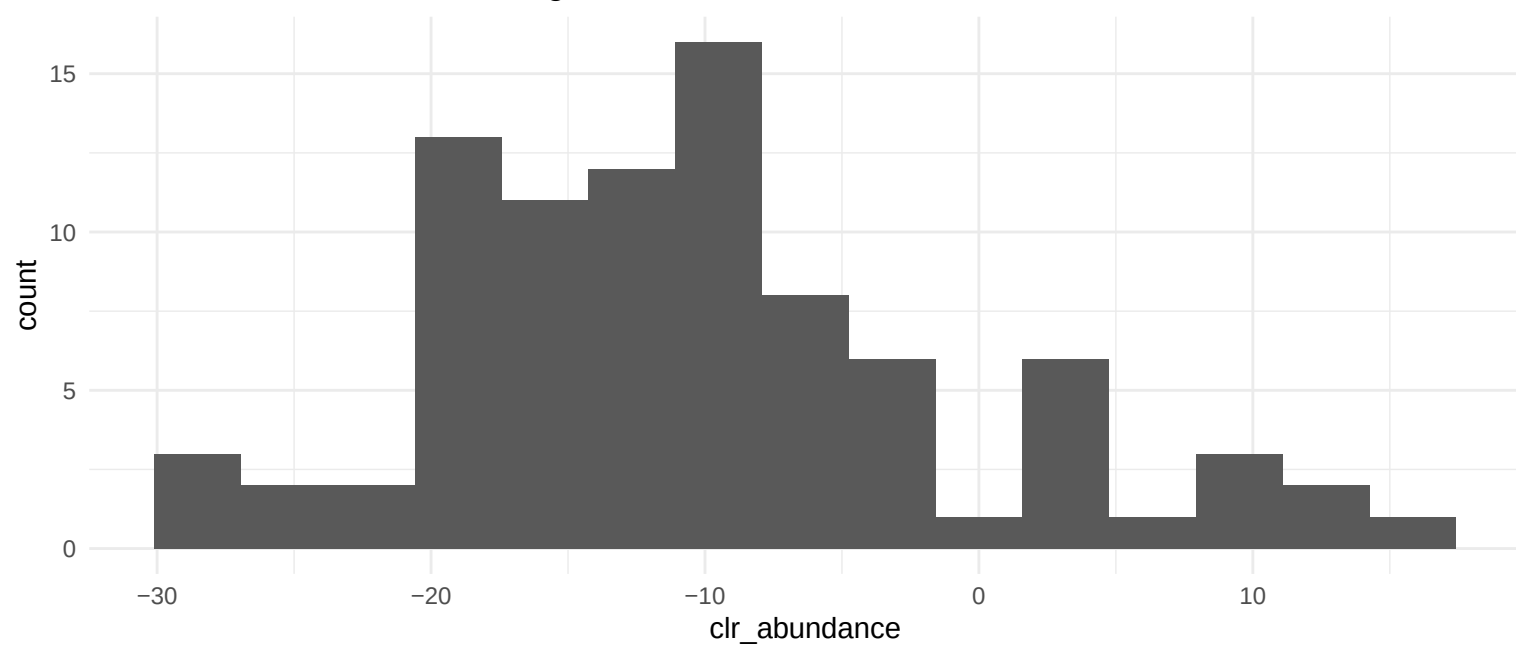

Distribution for 04350 TGF-beta signaling pathway

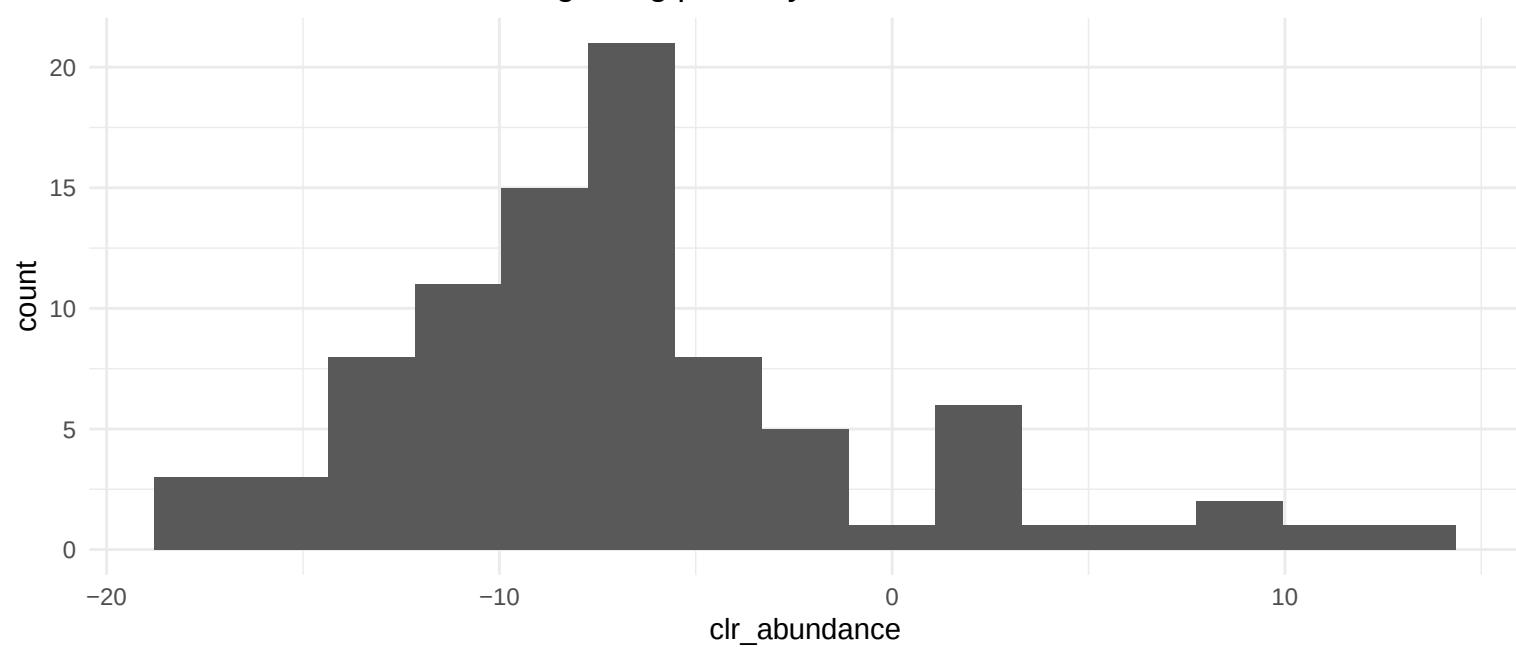

Distribution for 04360 Axon guidance

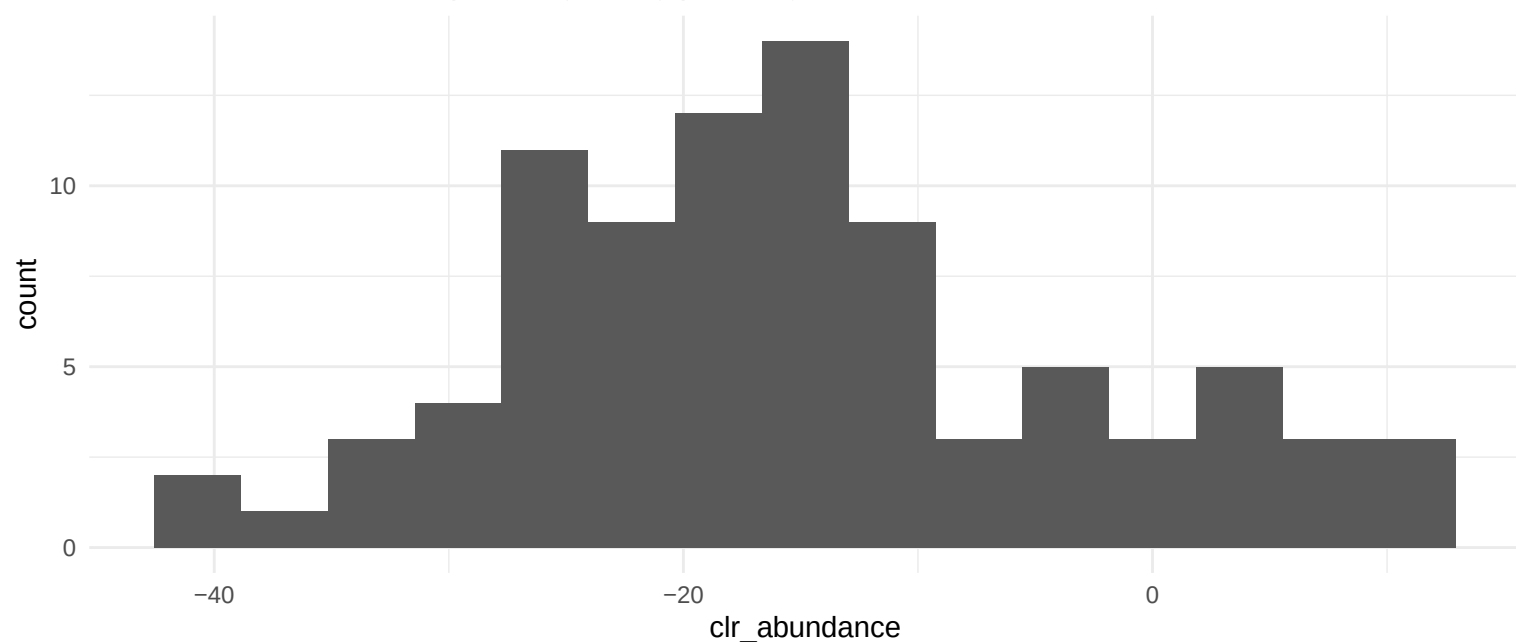

Distribution for 04361 Axon regeneration

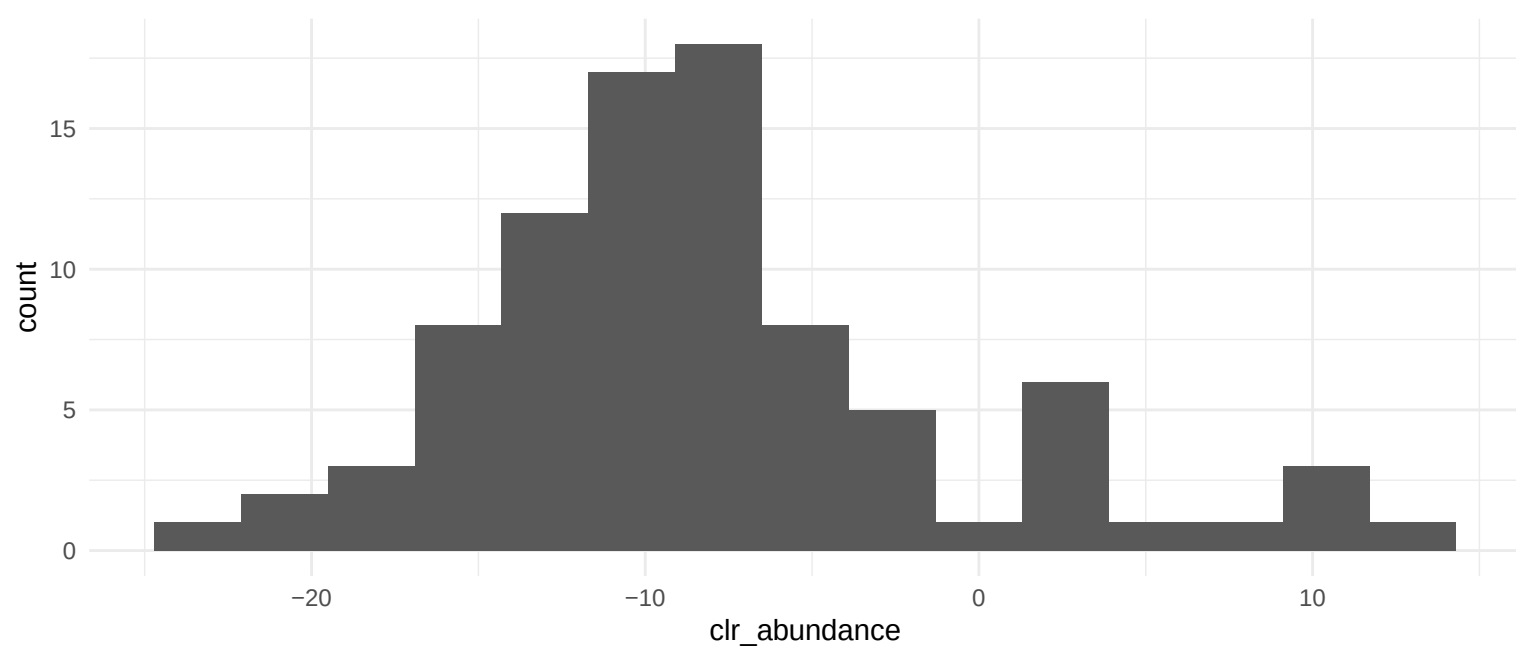

Distribution for 04370 VEGF signaling pathway

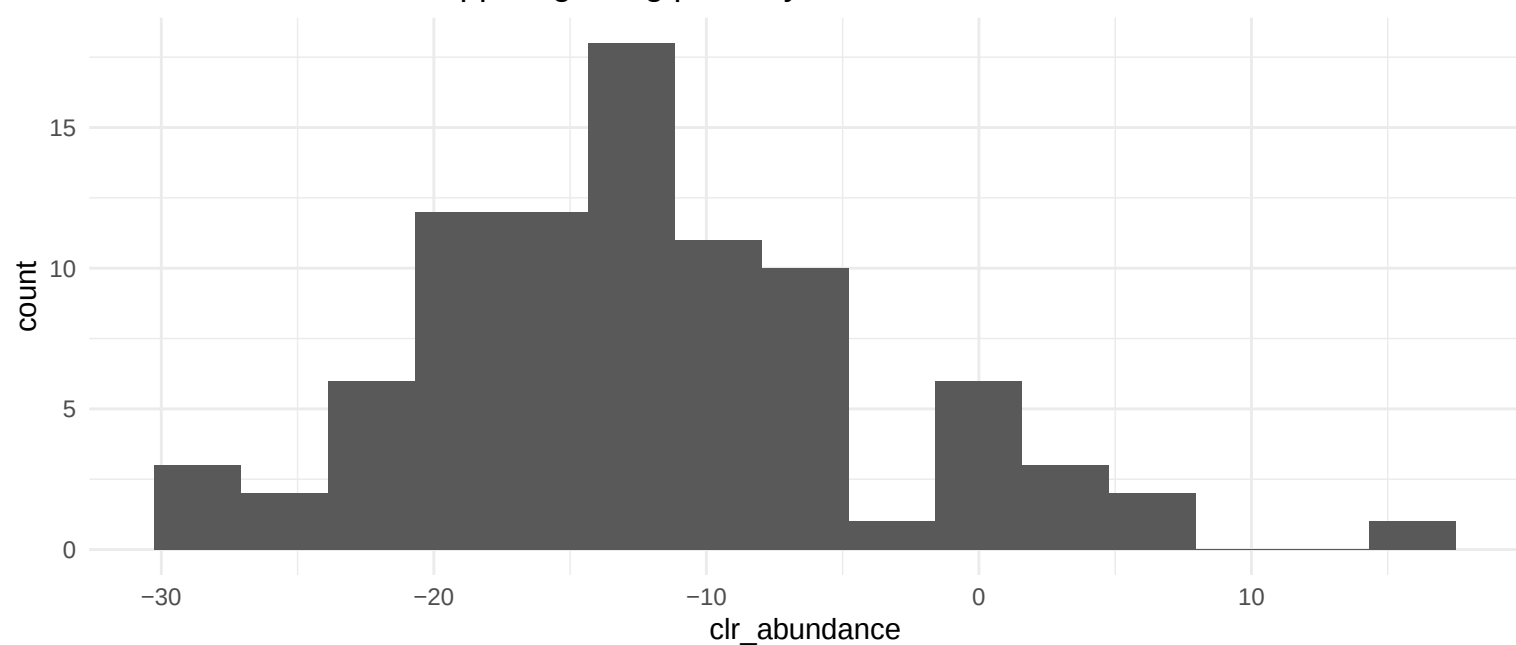

Distribution for 04371 Apelin signaling pathway

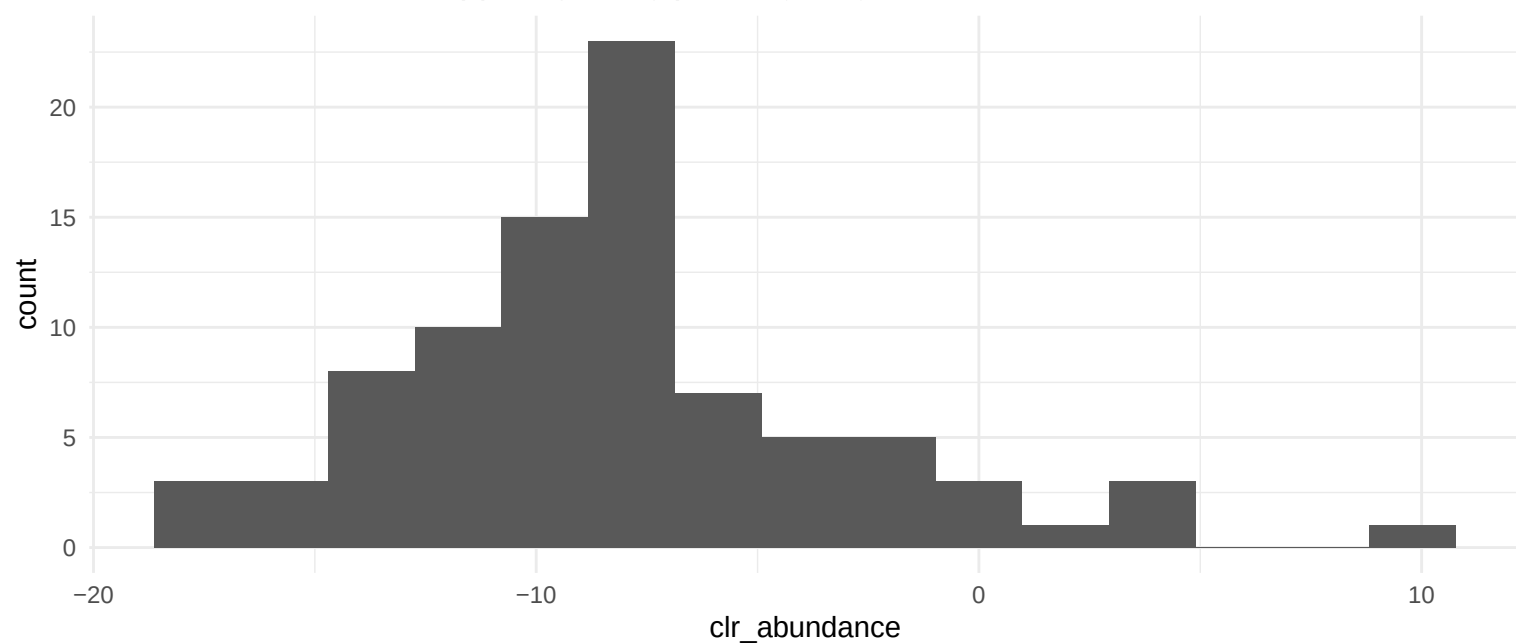

Distribution for 04380 Osteoclast differentiation

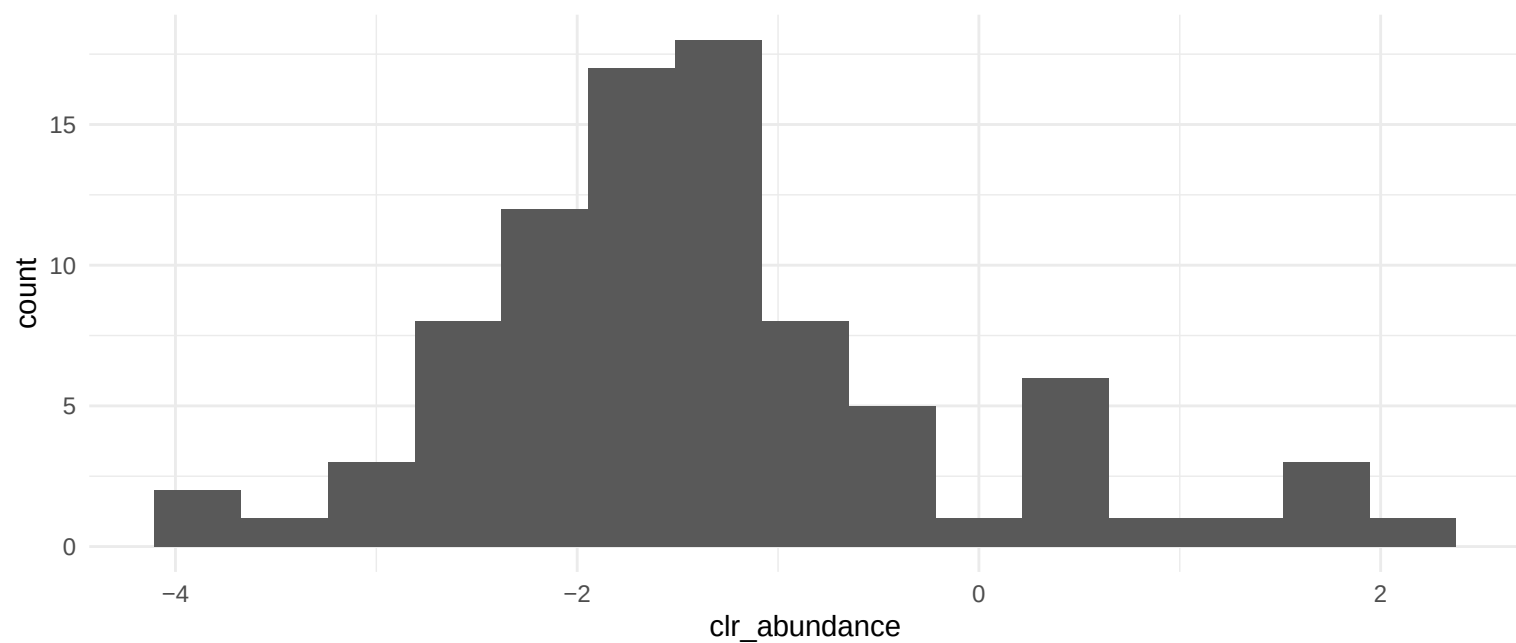

Distribution for 04390 Hippo signaling pathway

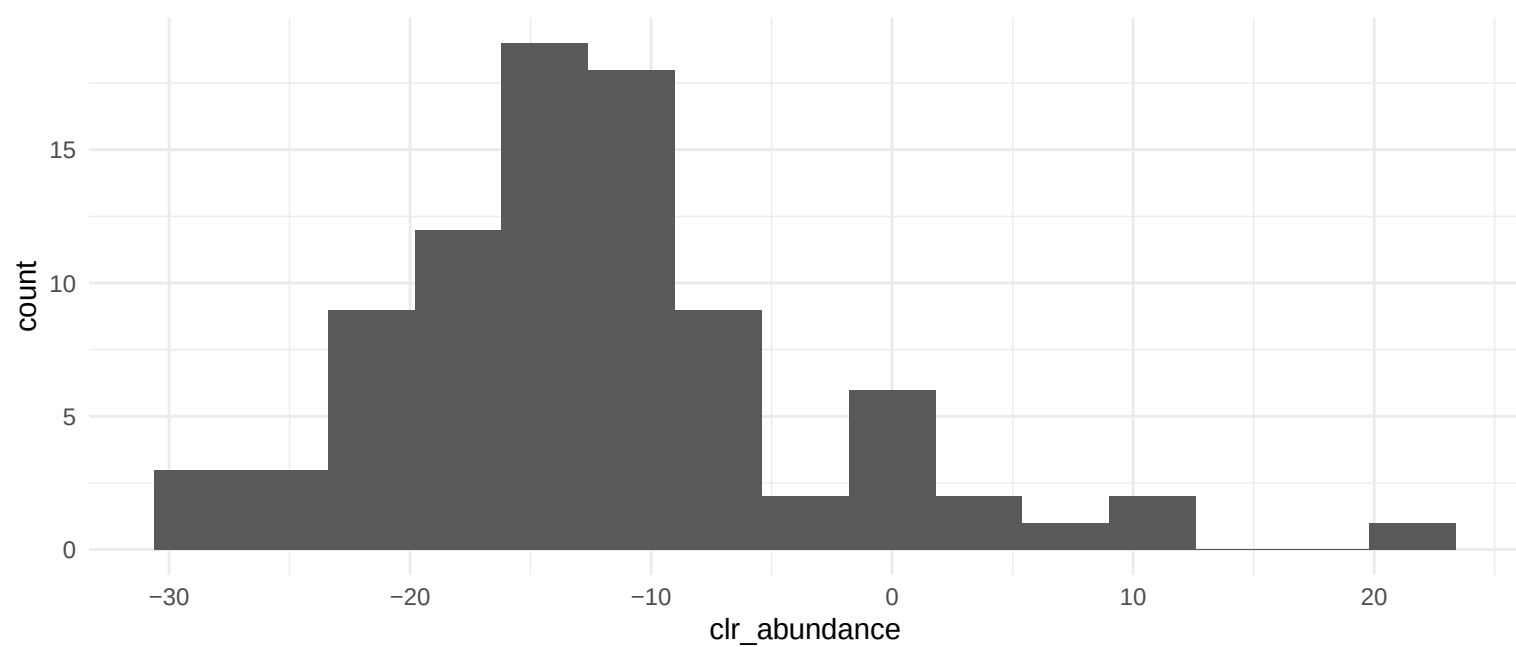

Distribution for 04391 Hippo signaling pathway – fly

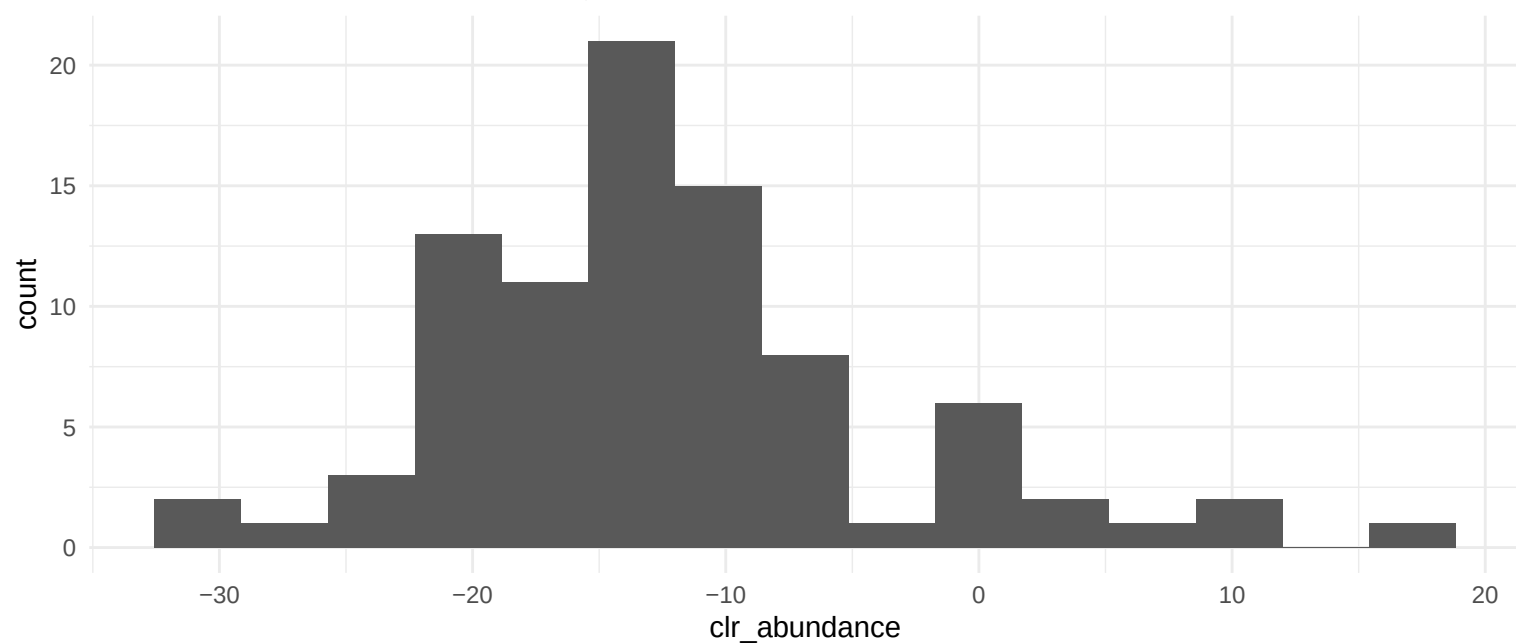

Distribution for 04392 Hippo signaling pathway – multiple species

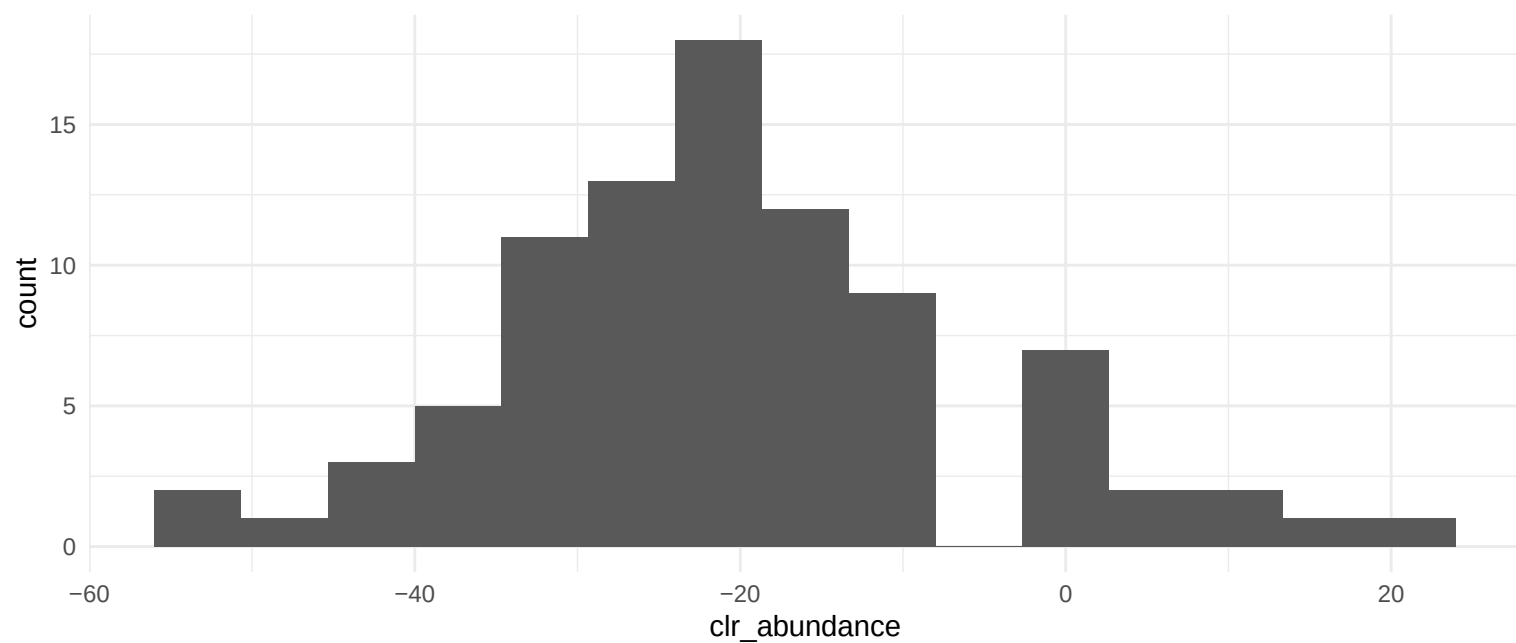

Distribution for 04510 Focal adhesion

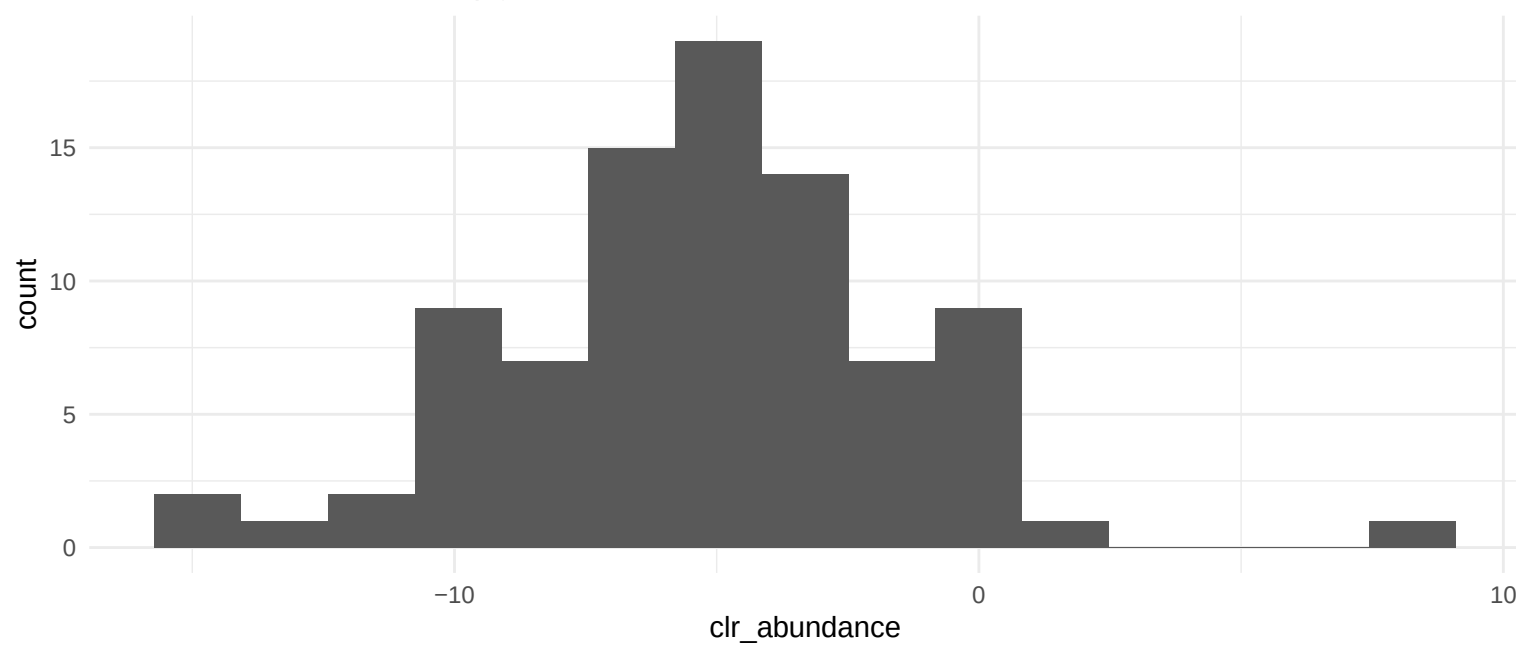

Distribution for 04520 Adherens junction

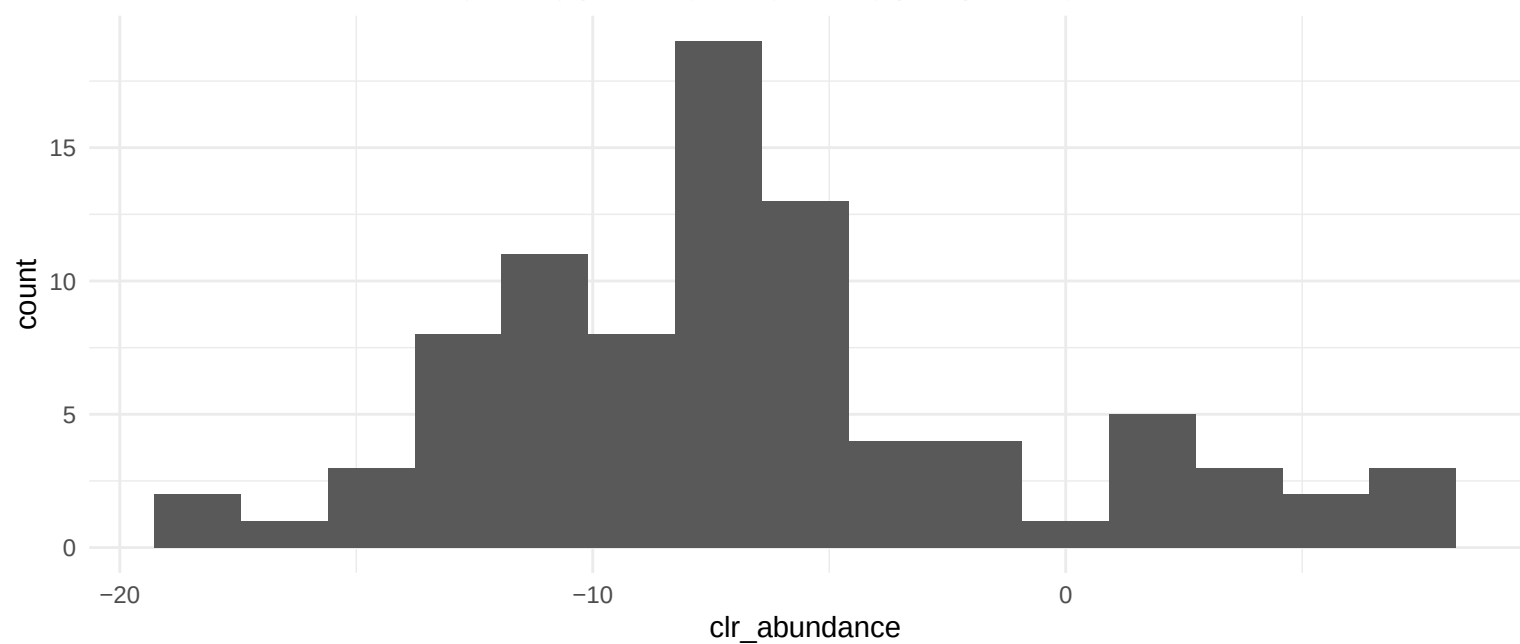

Distribution for 04530 Tight junction

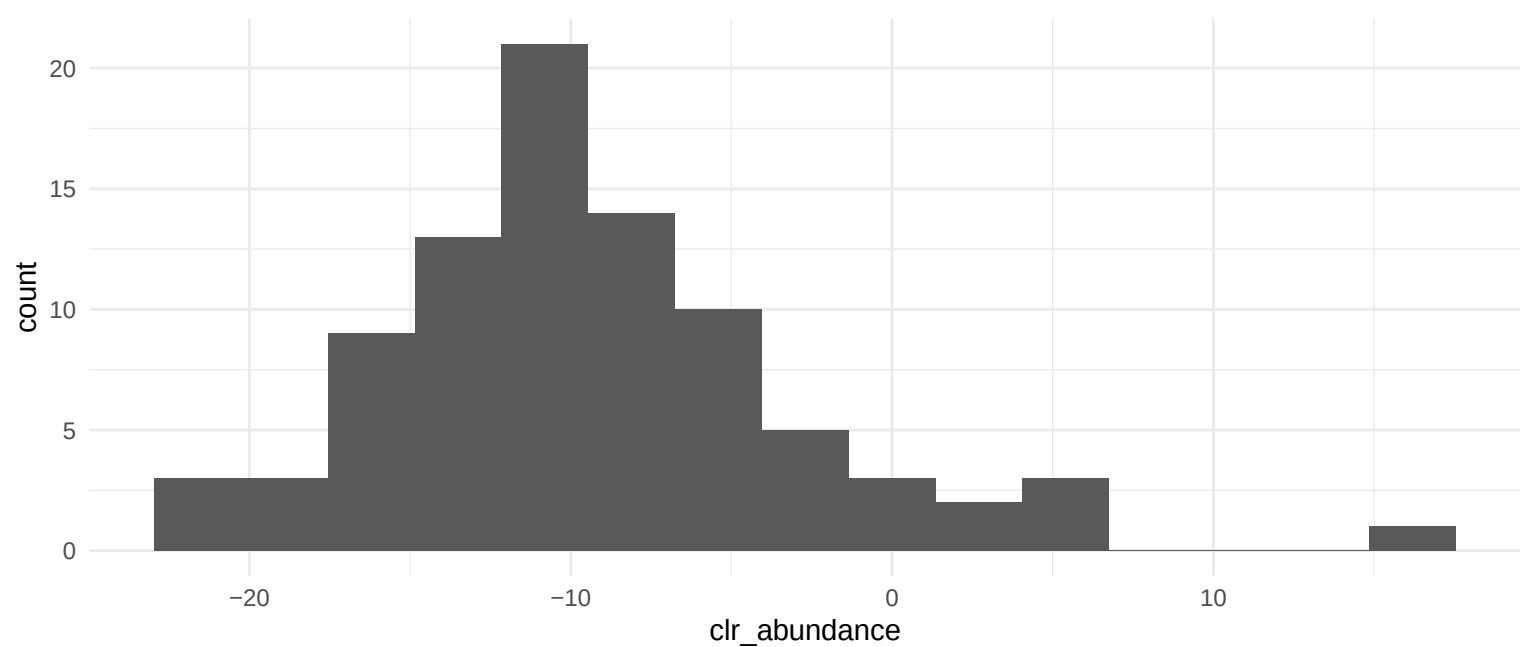

Distribution for 04540 Gap junction

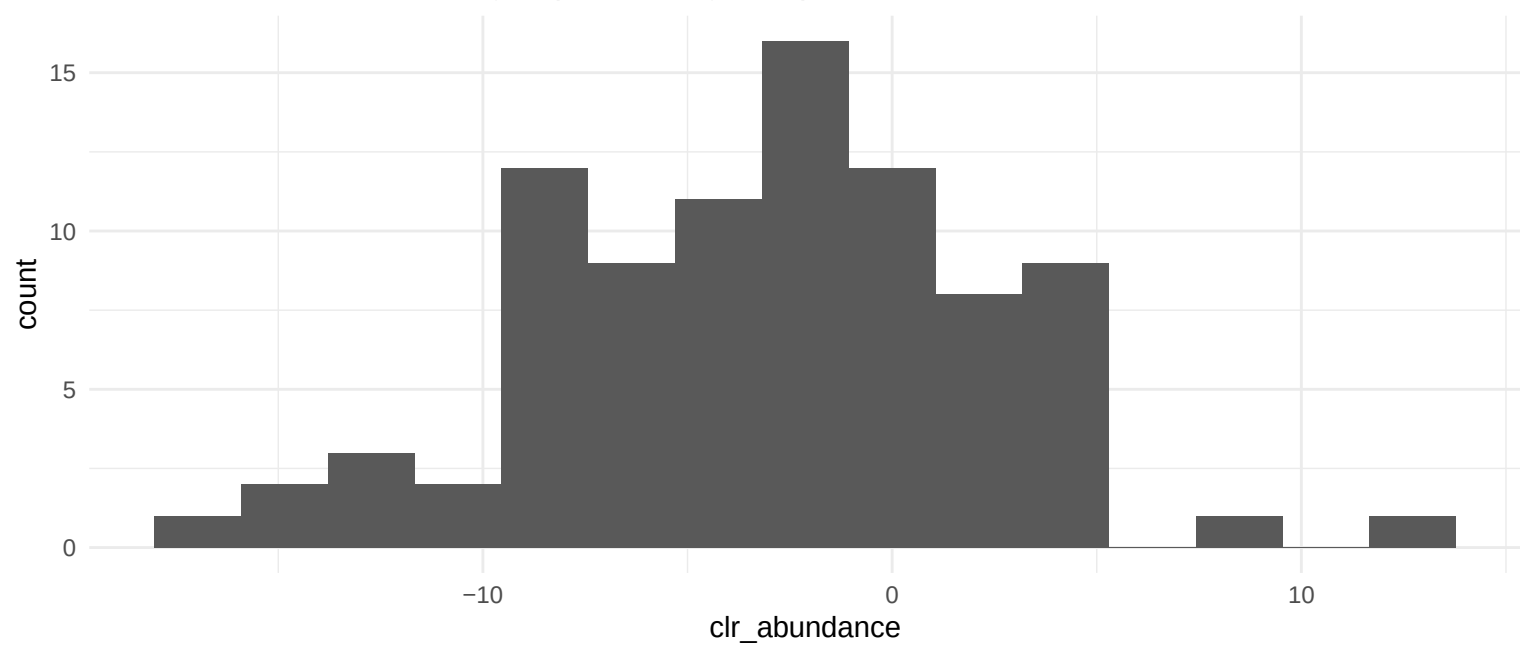

Distribution for 04550 Signaling pathways regulating pluripotency of stem cells

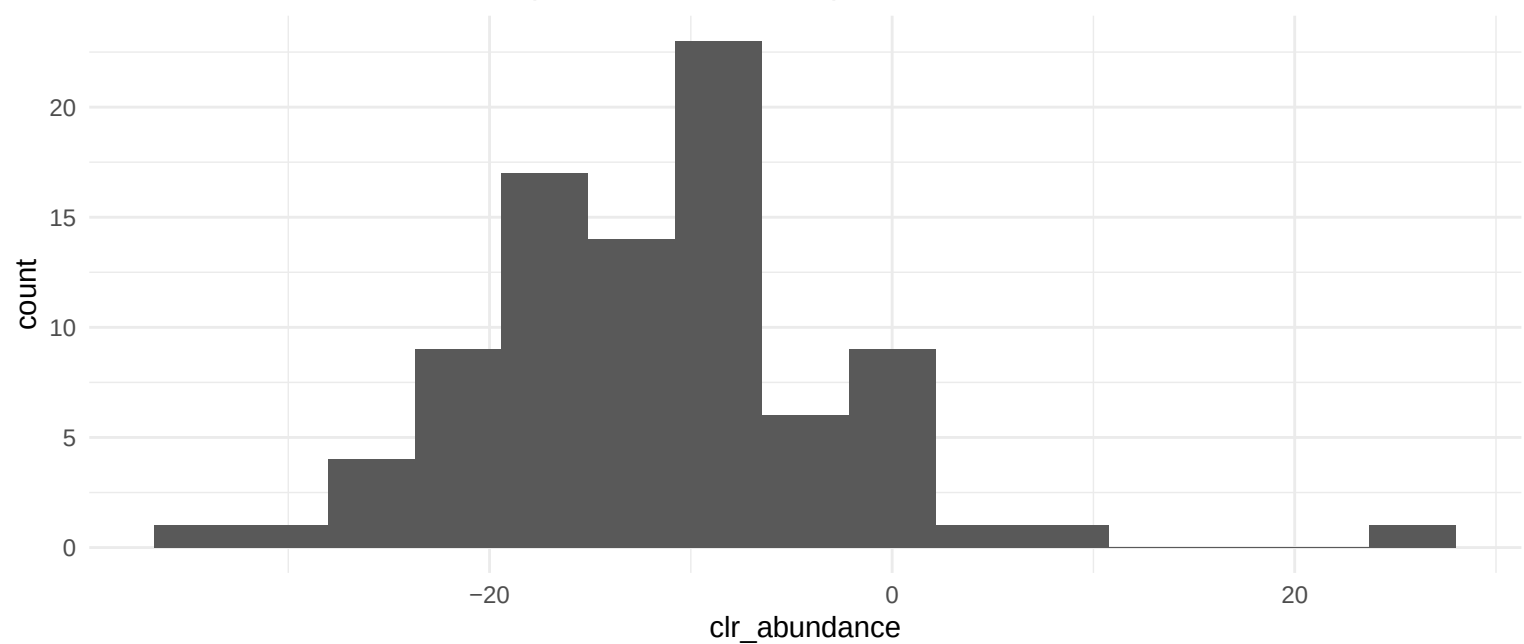

Distribution for 04611 Platelet activation

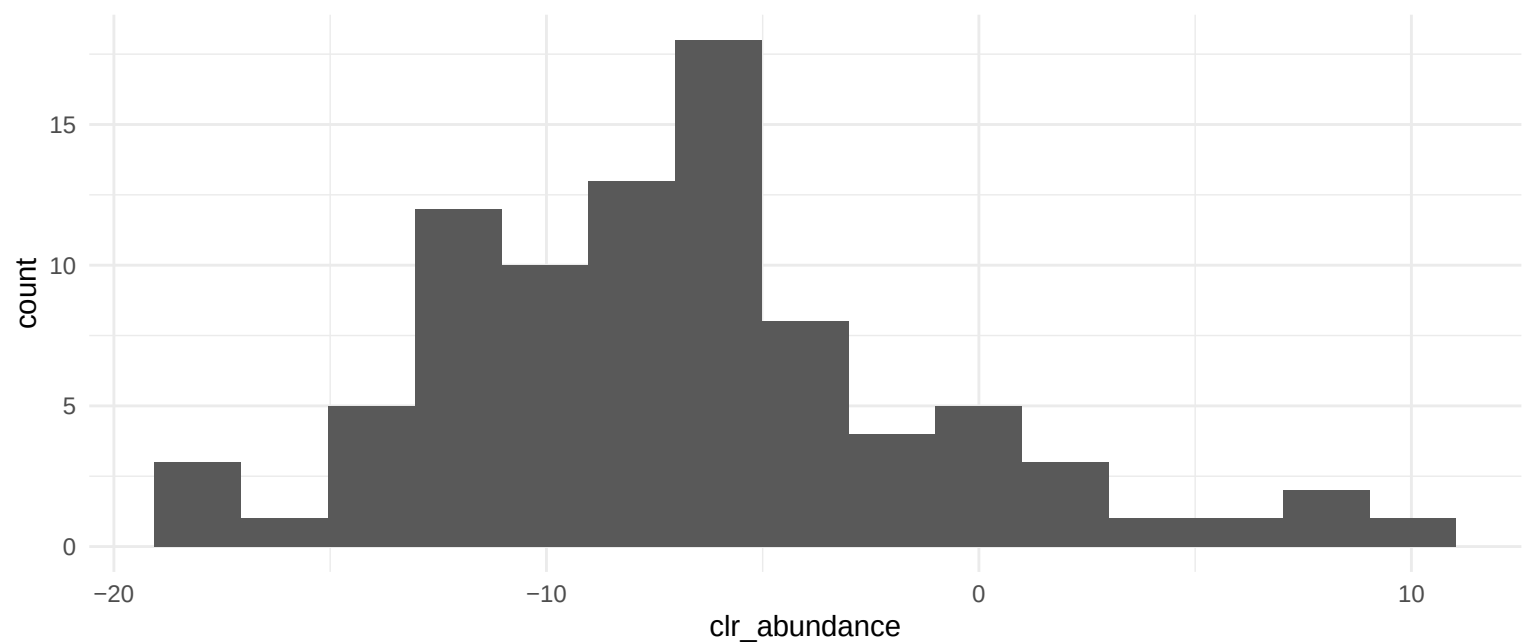

Distribution for 04612 Antigen processing and presentation

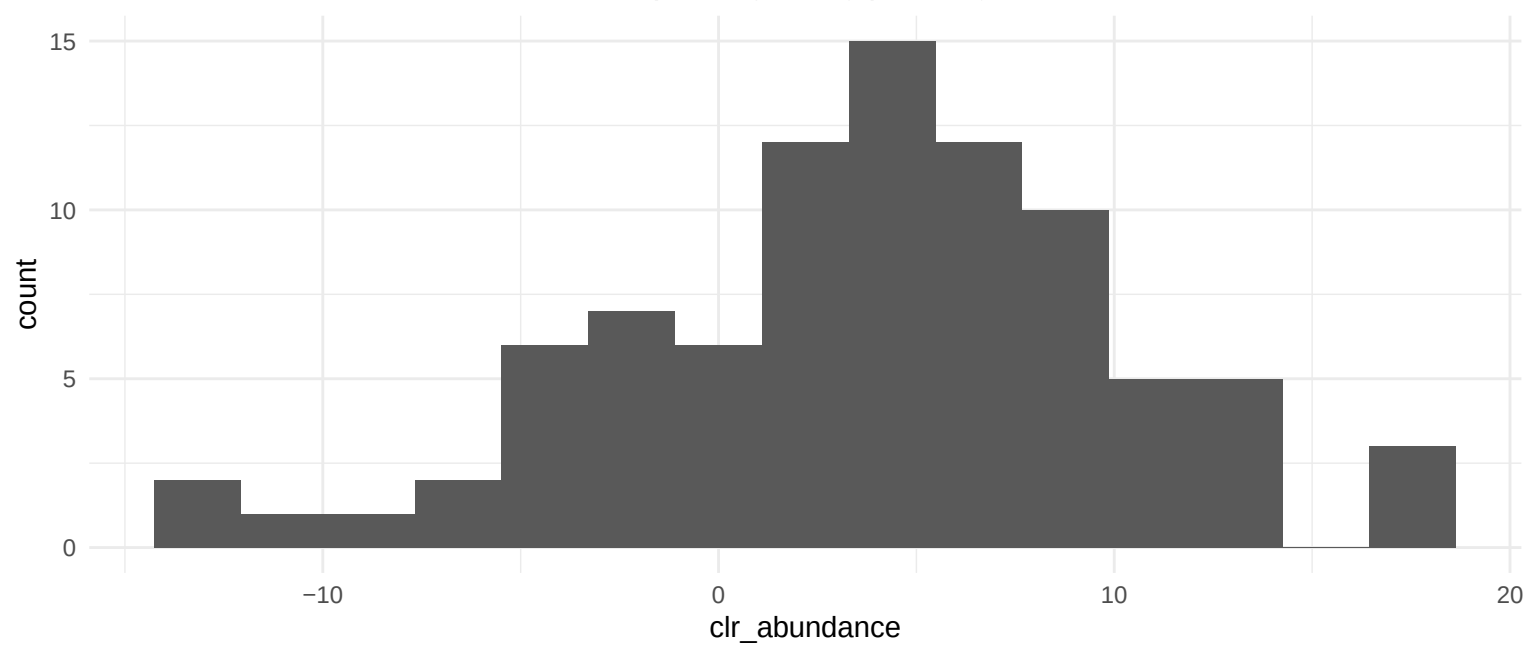

Distribution for 04613 Neutrophil extracellular trap formation

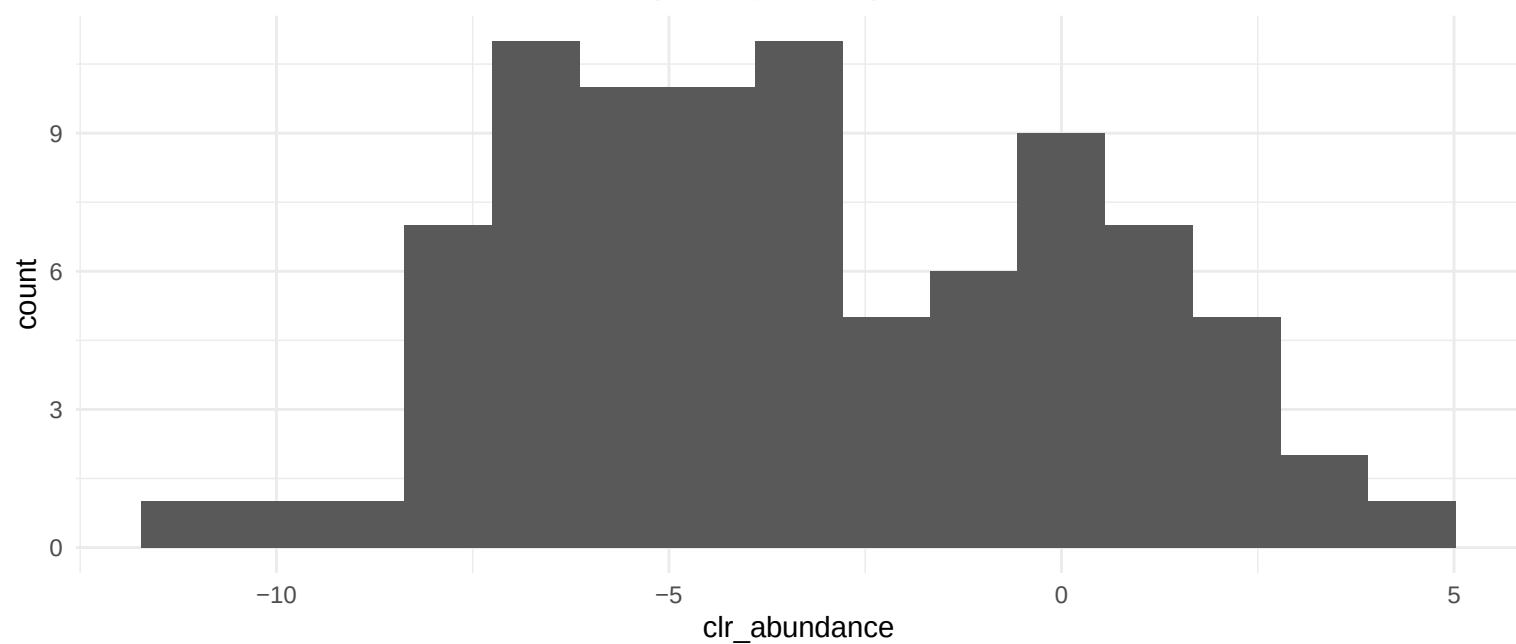

Distribution for 04620 Toll-like receptor signaling pathway

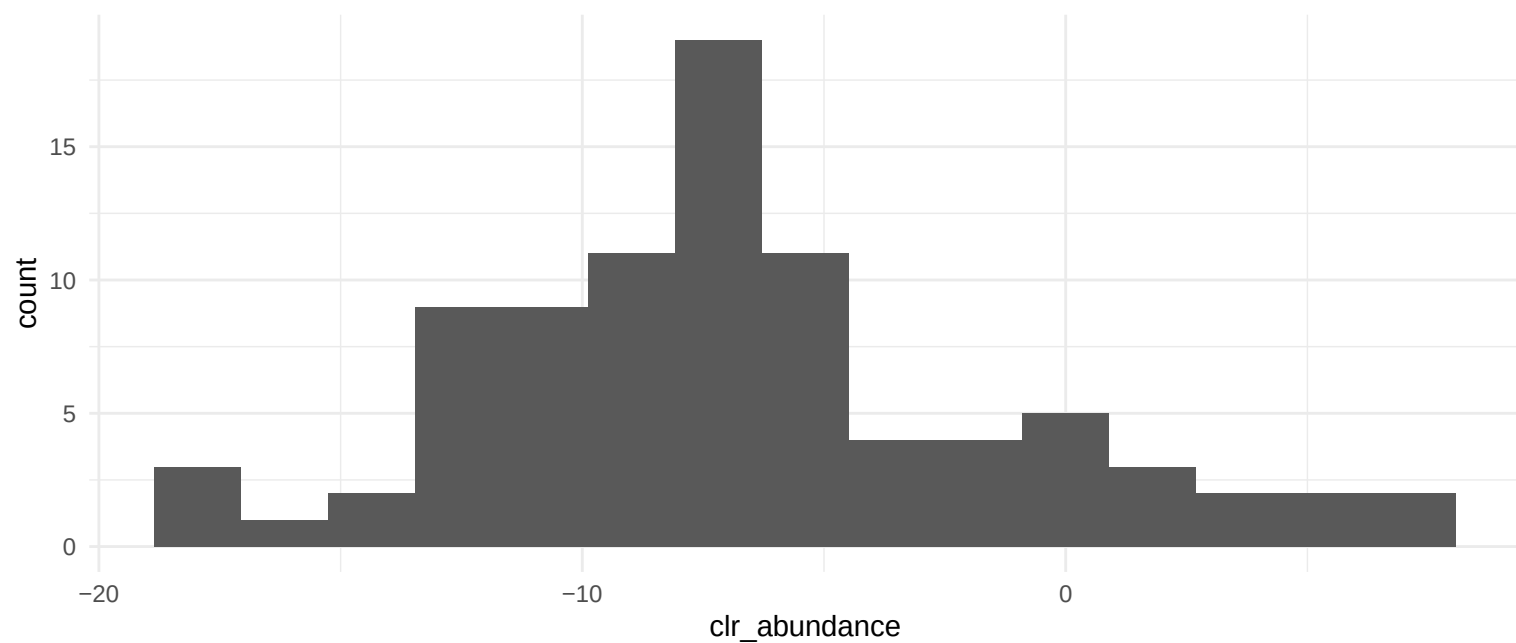

Distribution for 04621 NOD-like receptor signaling pathway

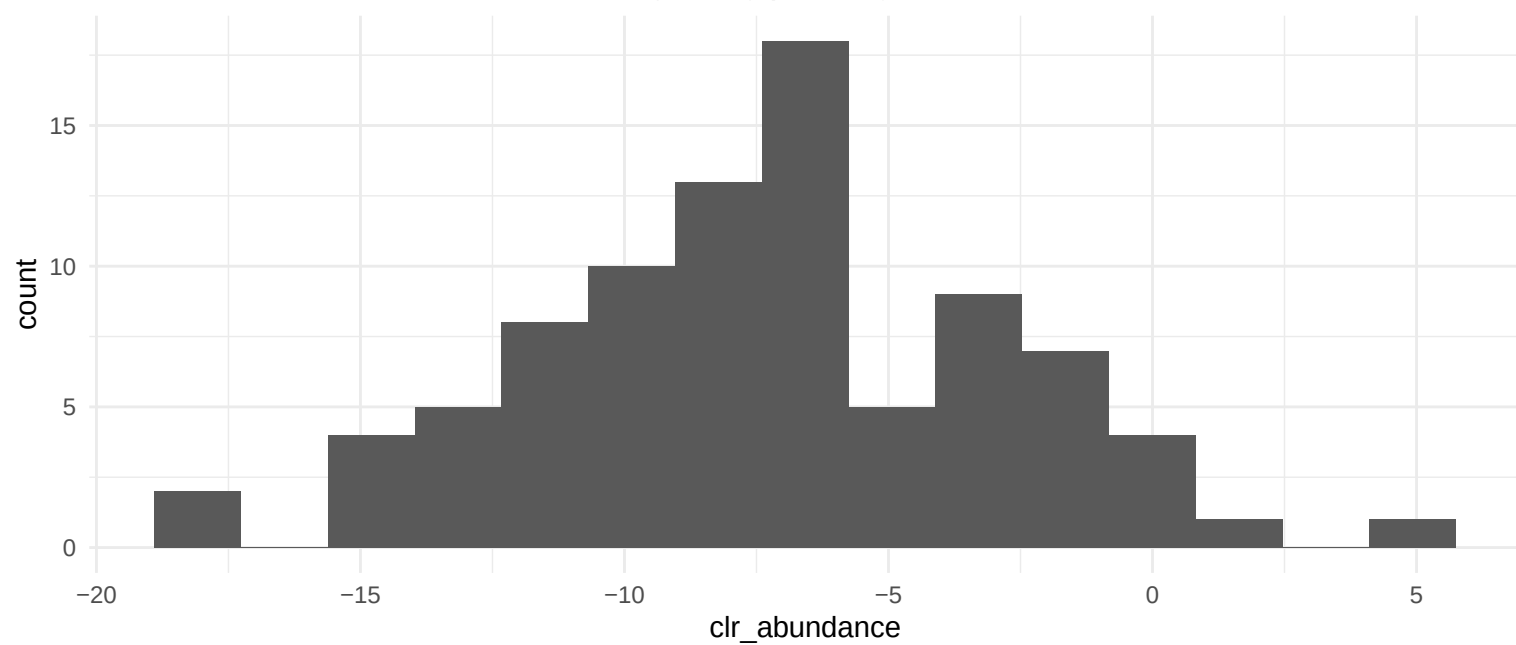

Distribution for 04622 RIG-I-like receptor signaling pathway

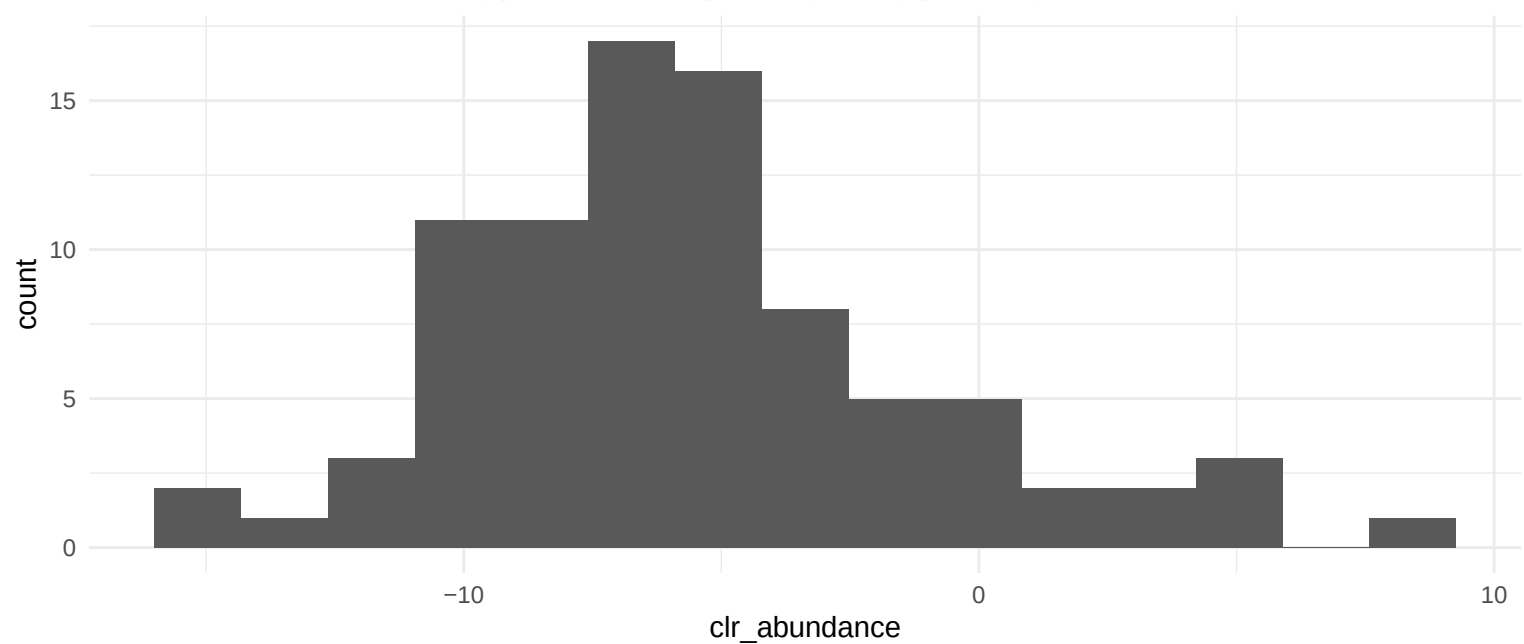

Distribution for 04623 Cytosolic DNA-sensing pathway

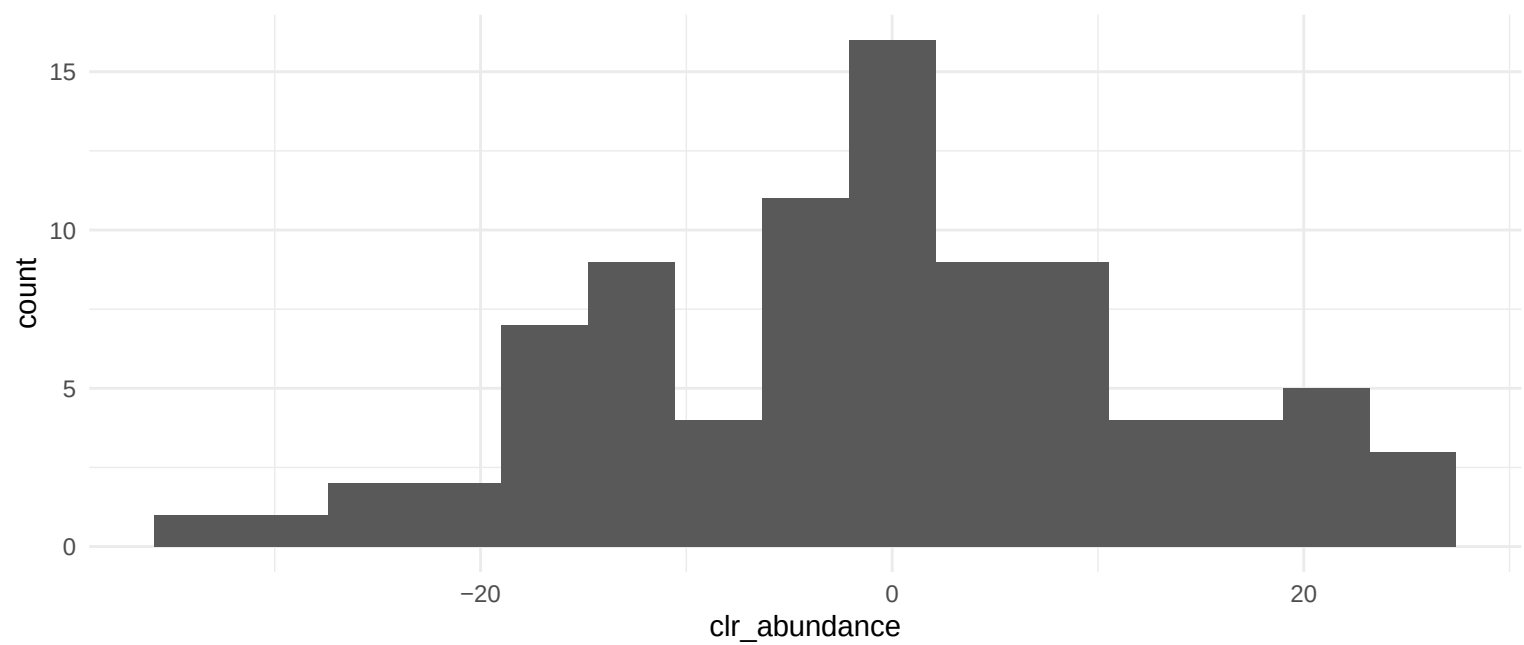

Distribution for 04624 Toll and Imd signaling pathway

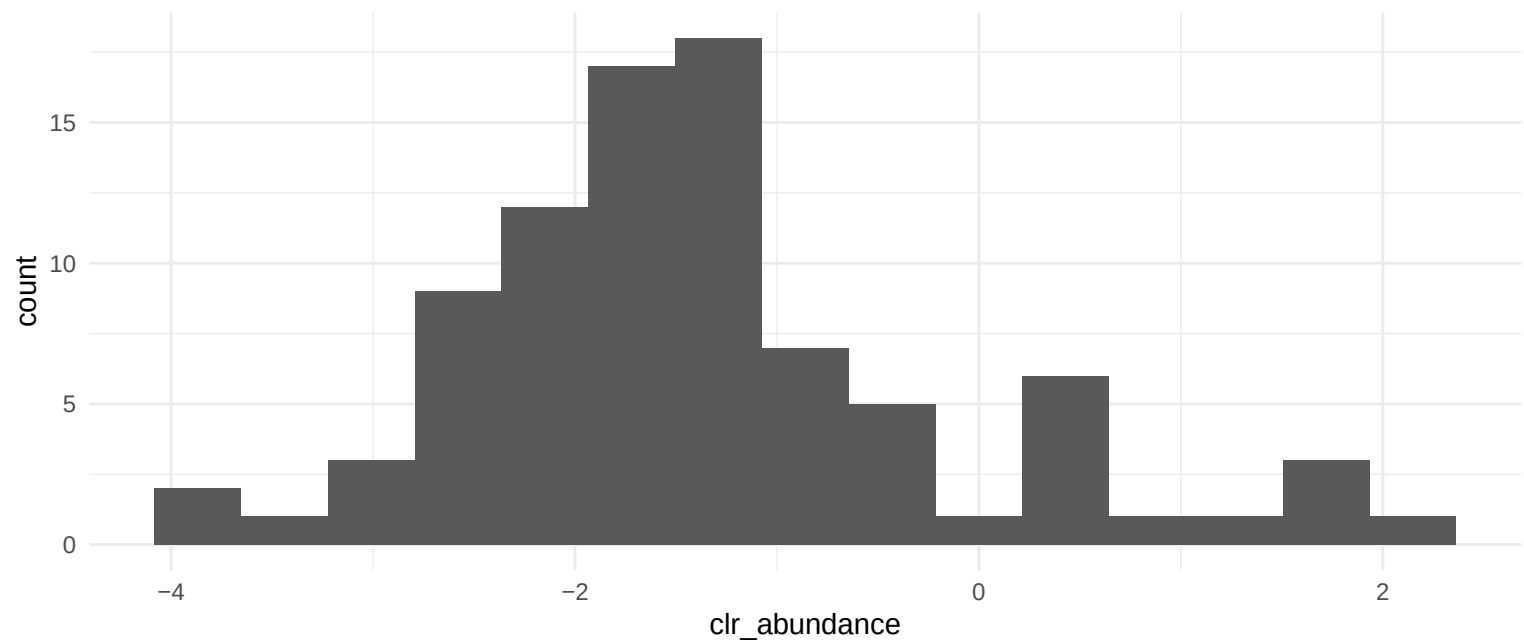

Distribution for 04625 C-type lectin receptor signaling pathway

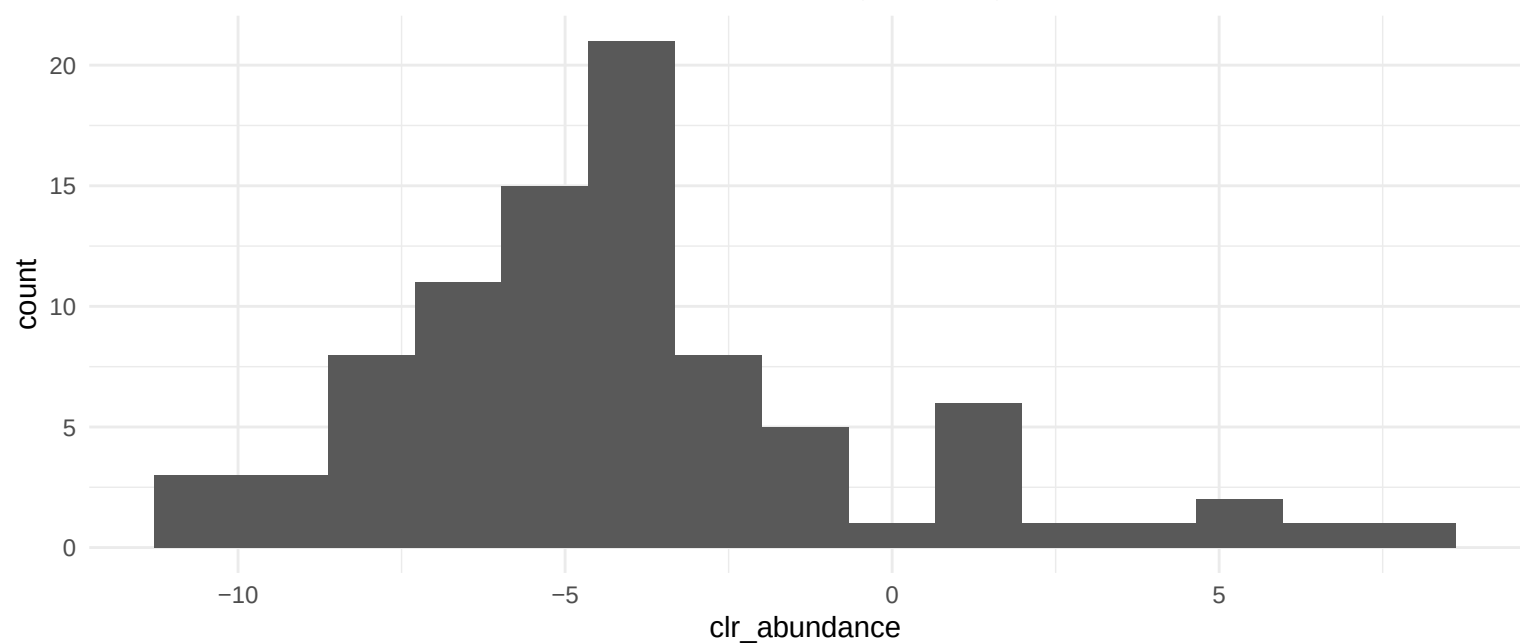

Distribution for 04626 Plant-pathogen interaction

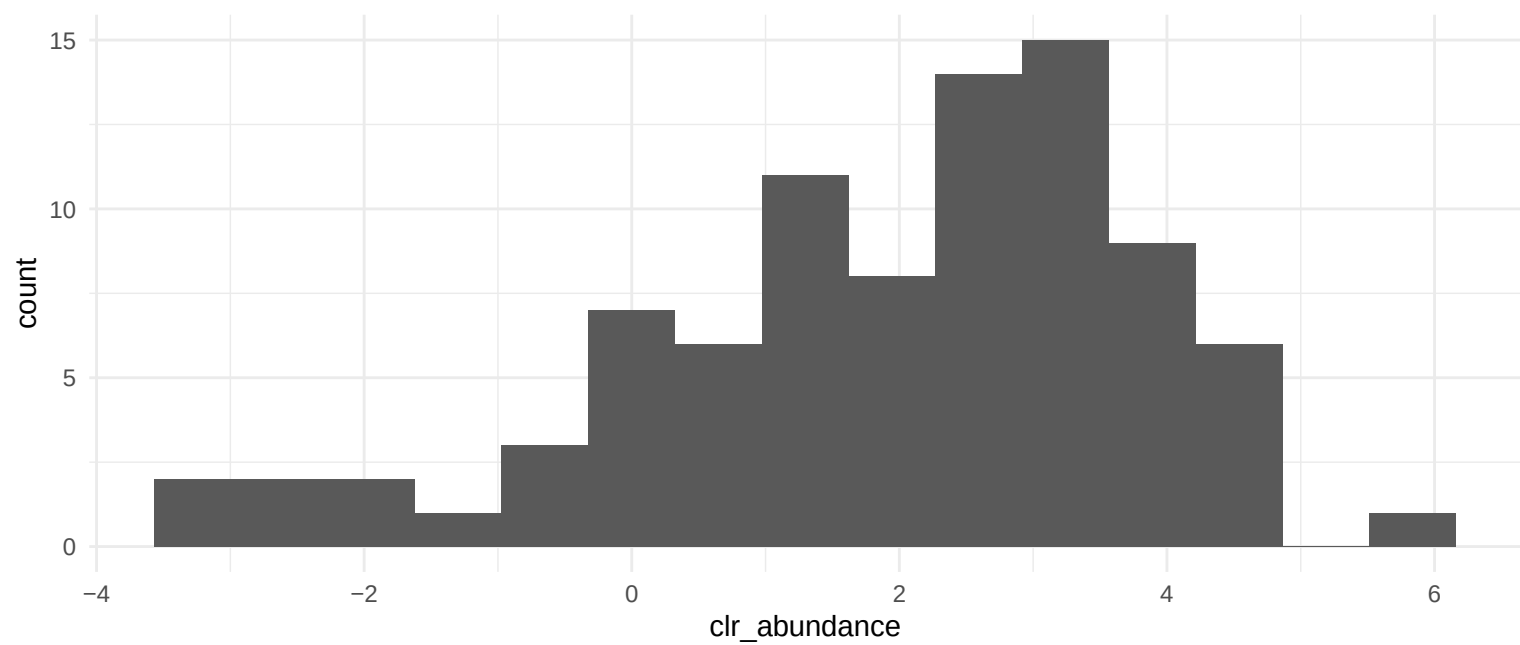

Distribution for 04630 JAK-STAT signaling pathway

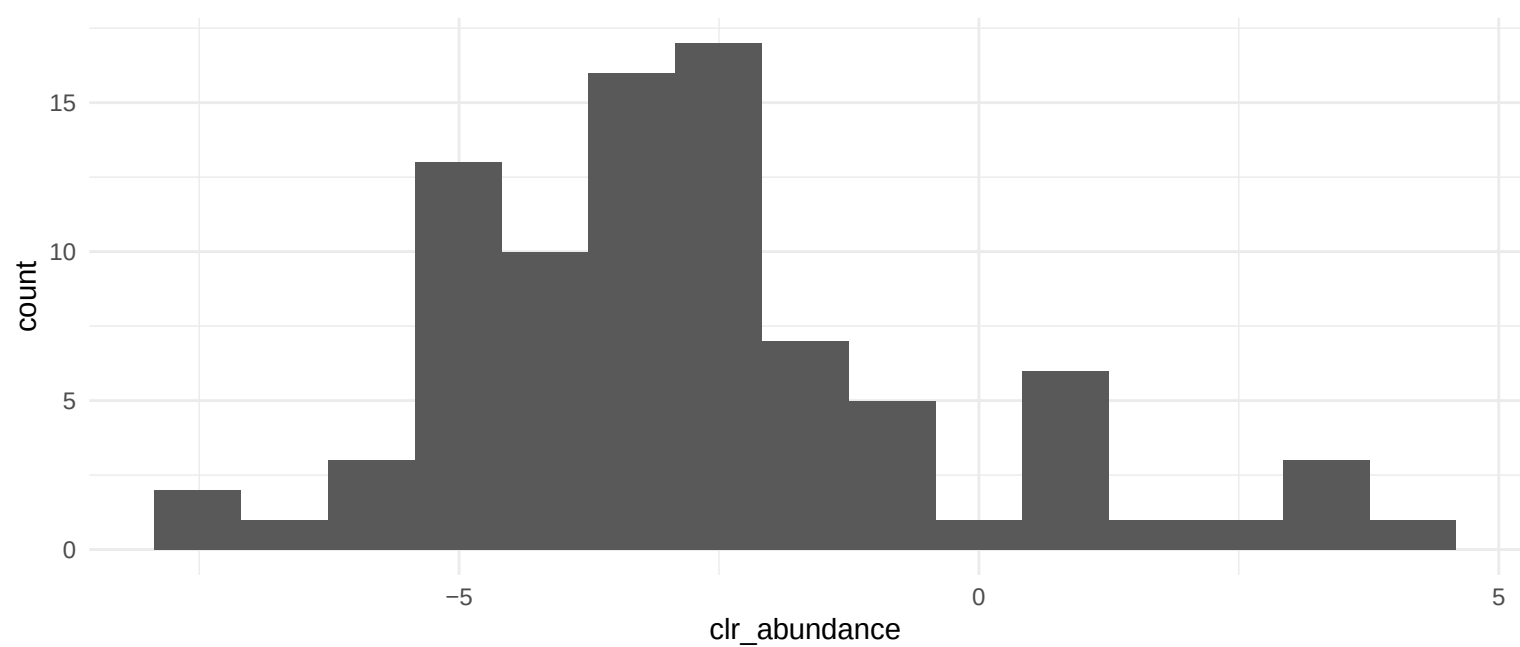

Distribution for 04650 Natural killer cell mediated cytotoxicity

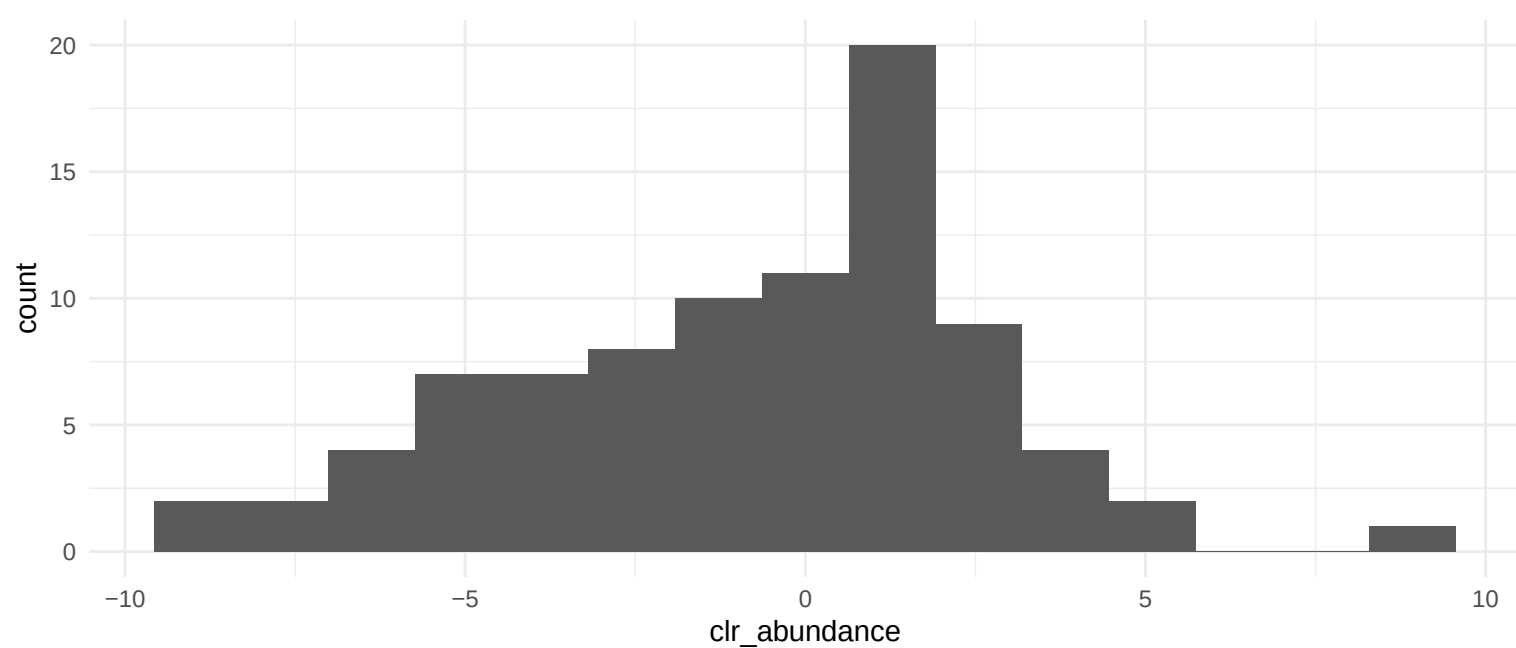

Distribution for 04657 IL-17 signaling pathway

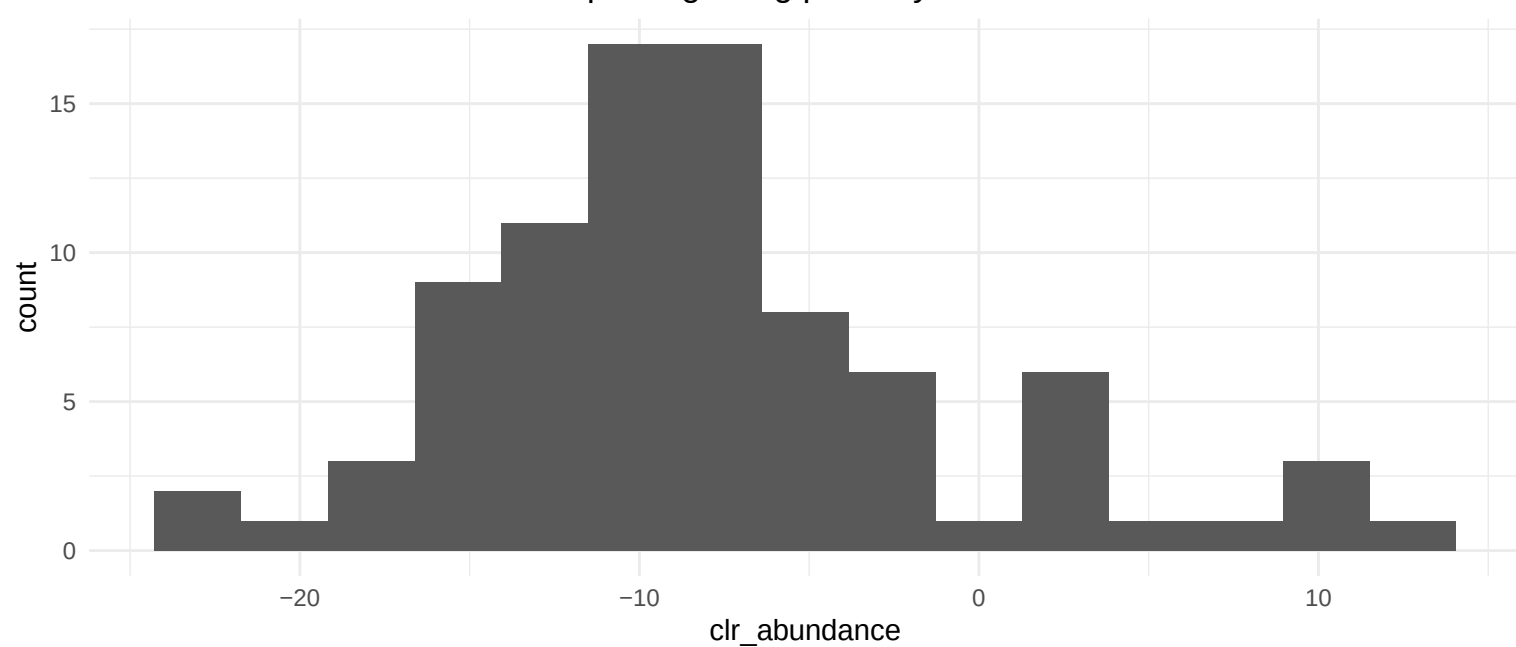

Distribution for 04658 Th1 and Th2 cell differentiation

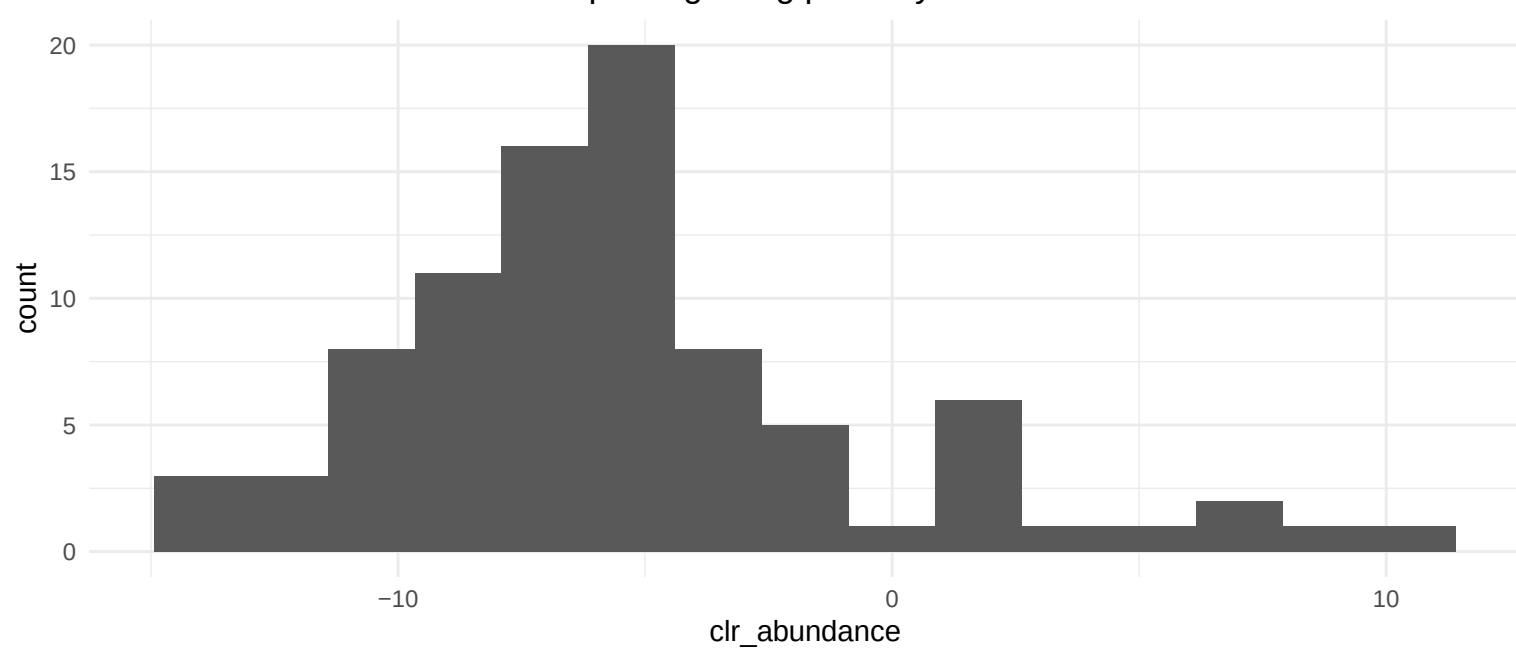

Distribution for 04659 Th17 cell differentiation

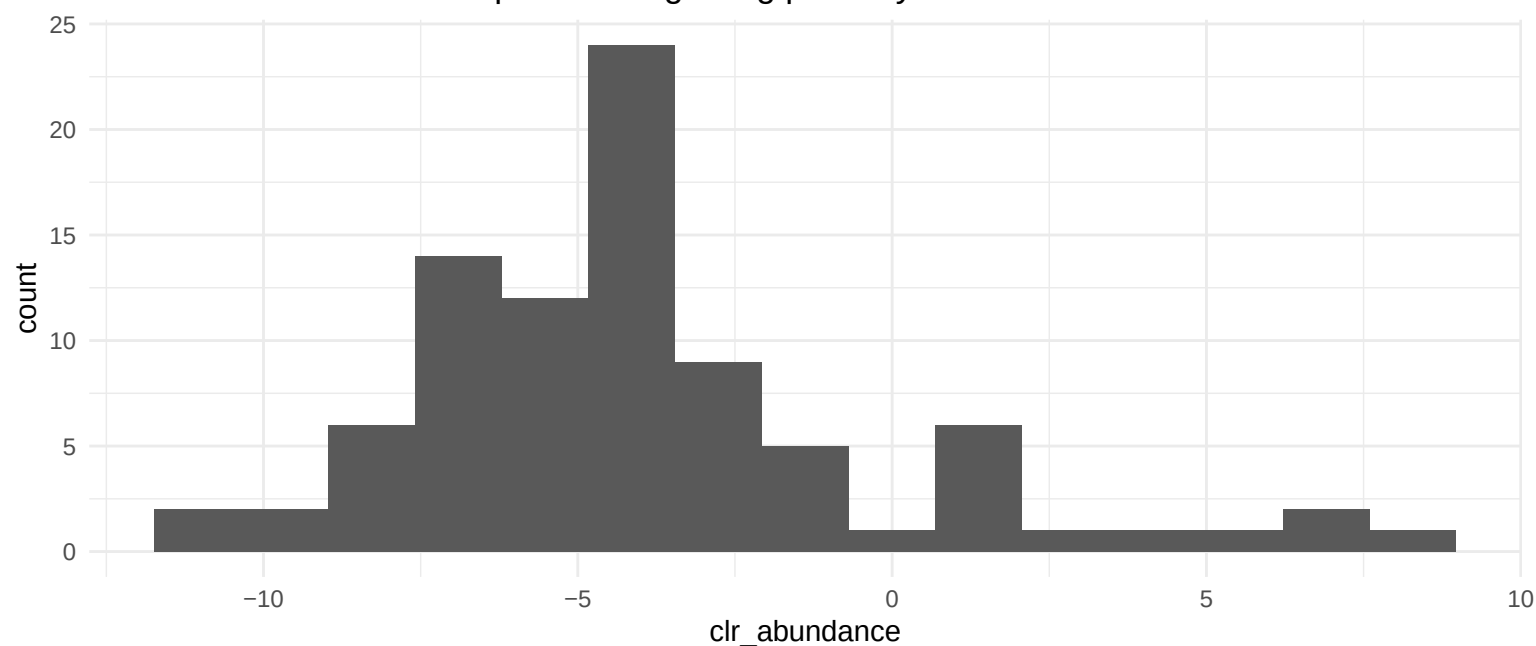

Distribution for 04660 T cell receptor signaling pathway

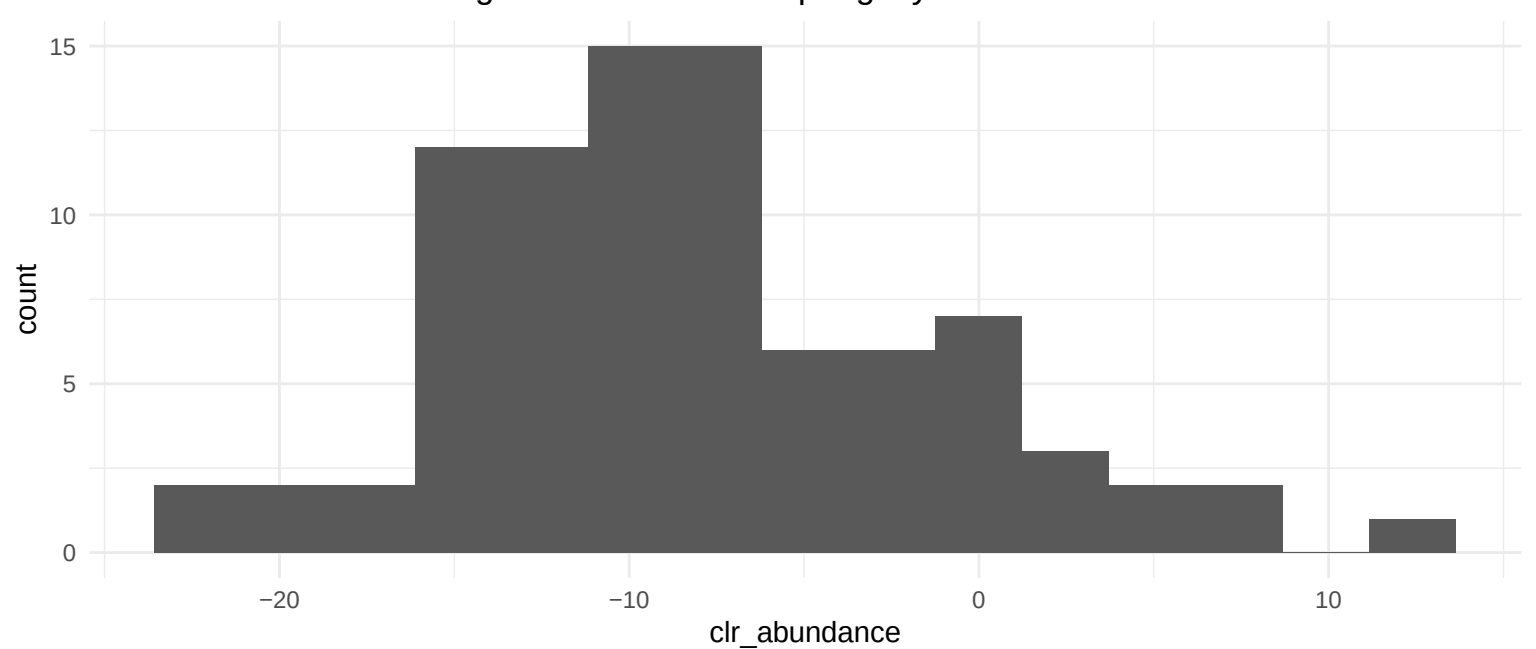

Distribution for 04662 B cell receptor signaling pathway

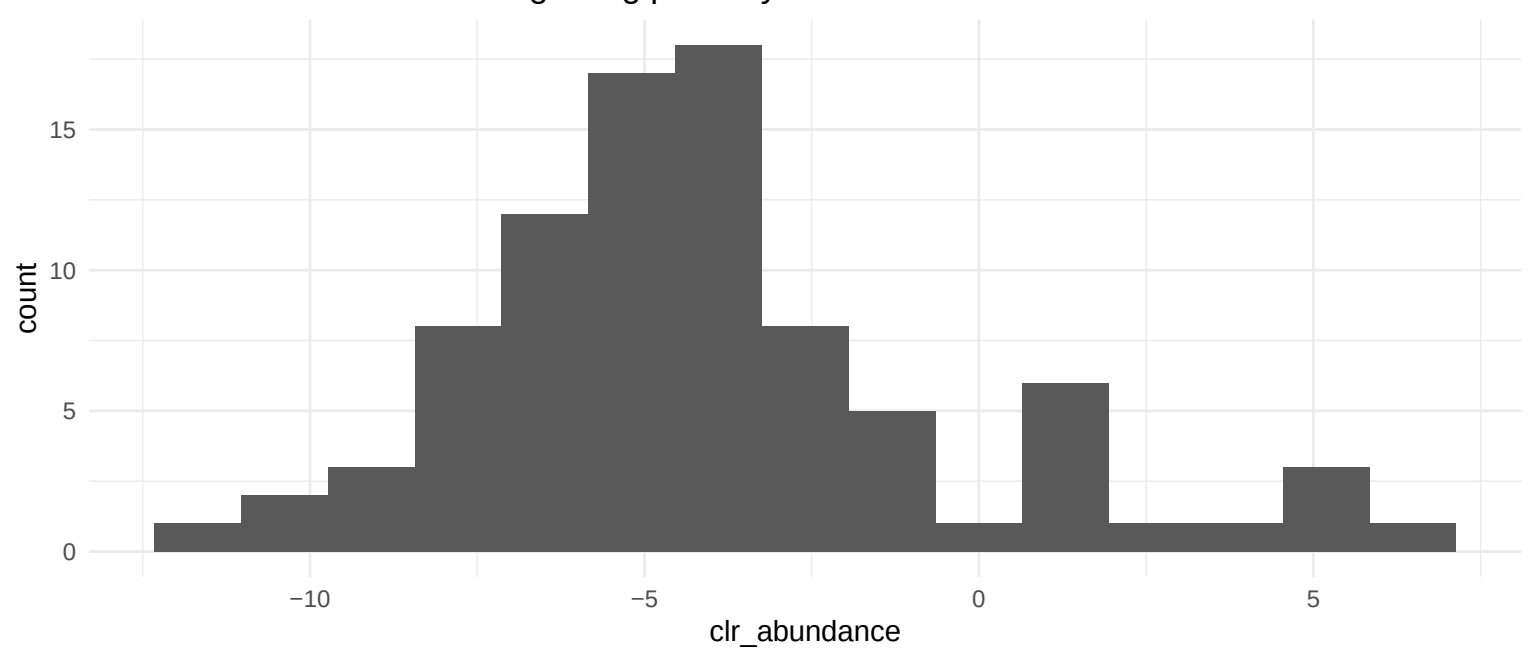

Distribution for 04664 Fc epsilon RI signaling pathway

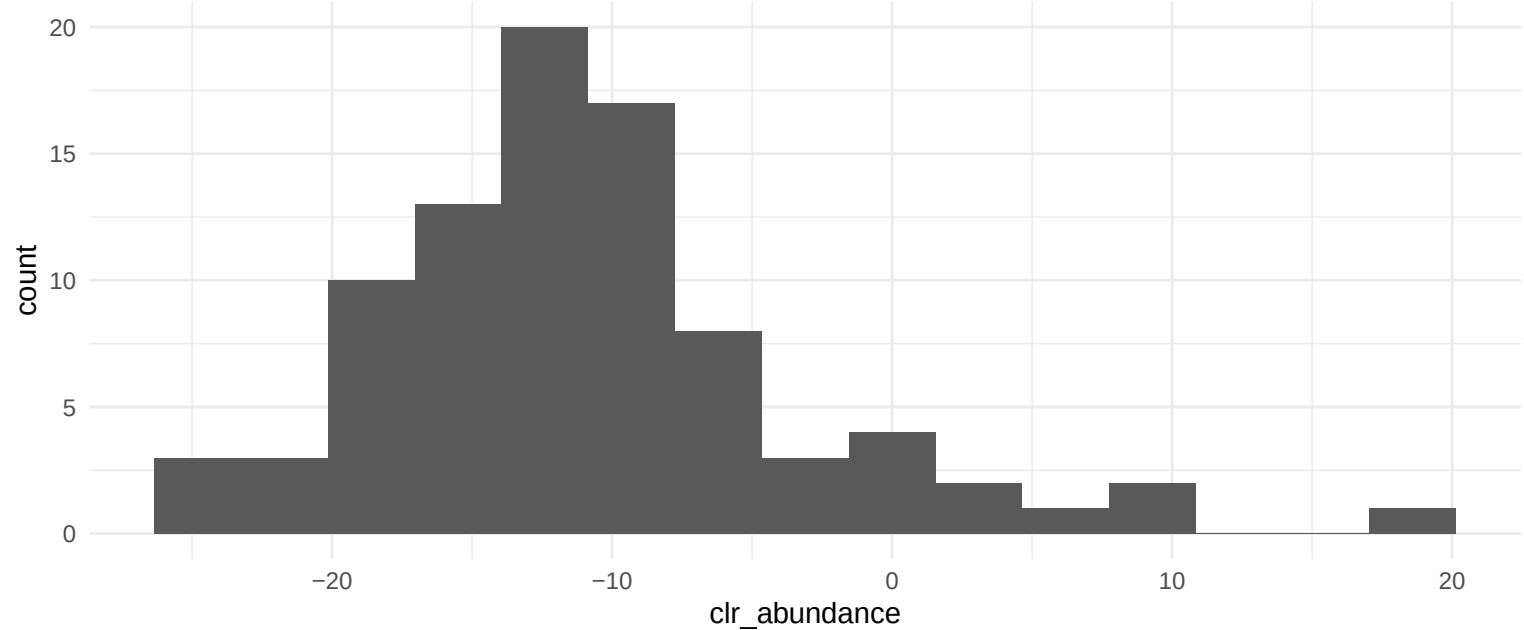

Distribution for 04666 Fc gamma R-mediated phagocytosis

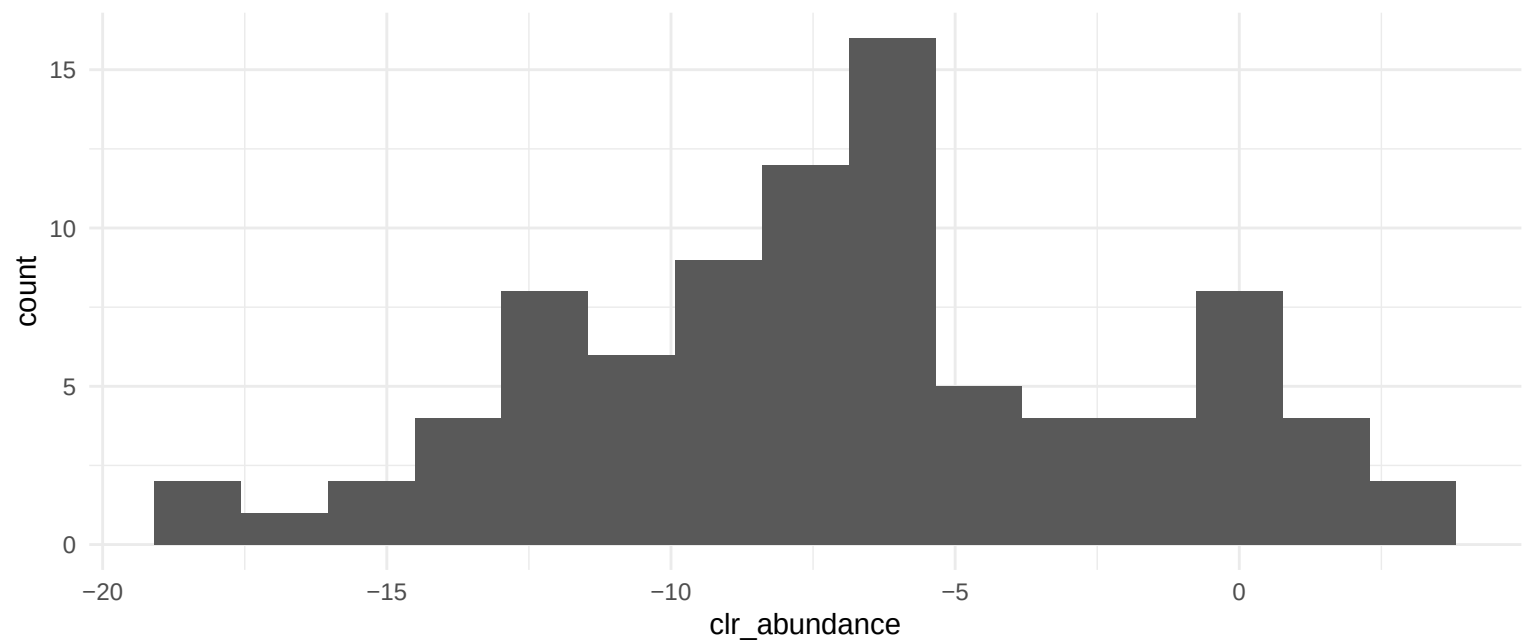

Distribution for 04668 TNF signaling pathway

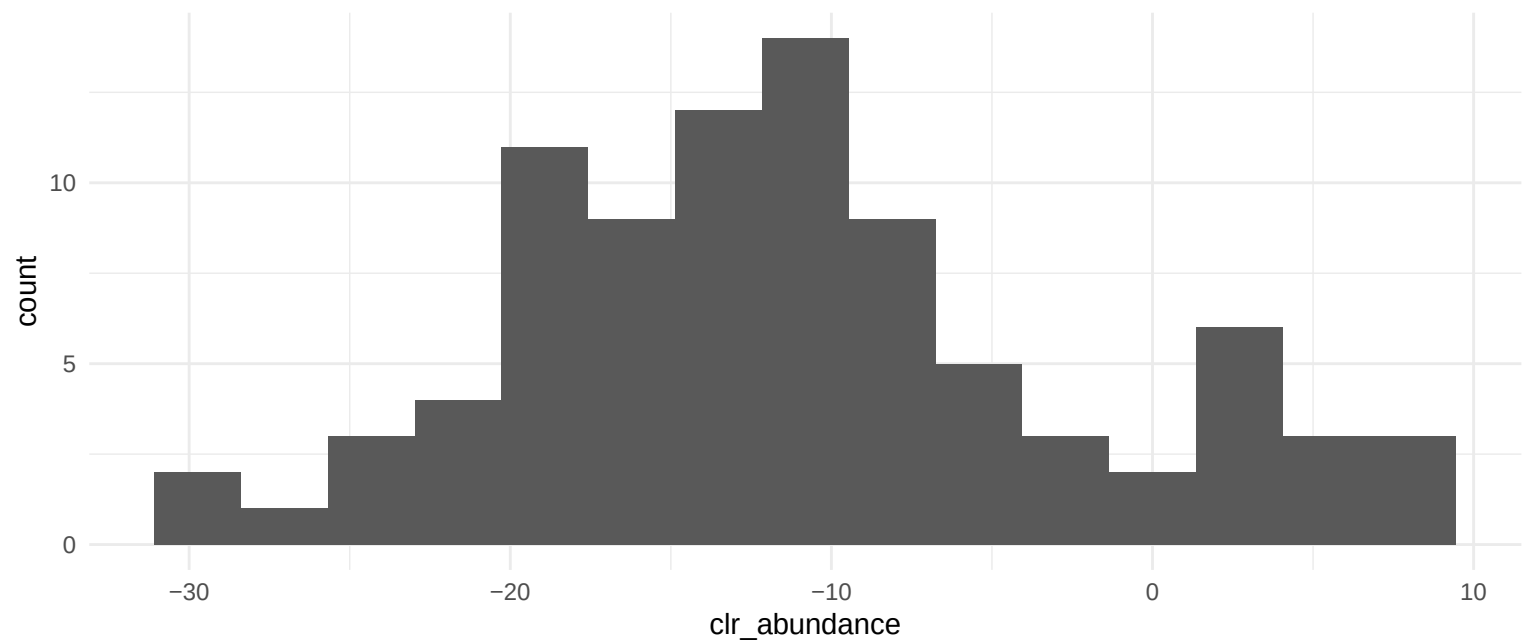

Distribution for 04670 Leukocyte transendothelial migration

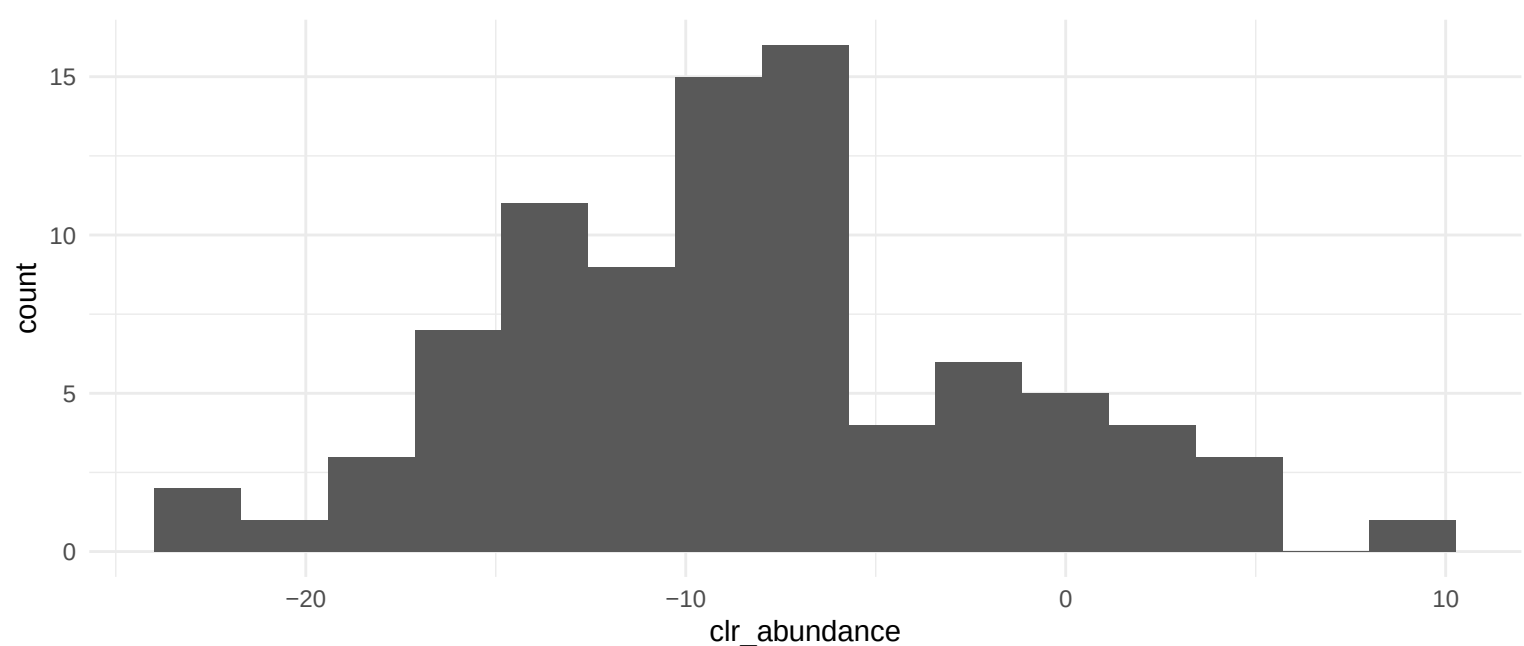

Distribution for 04710 Circadian rhythm

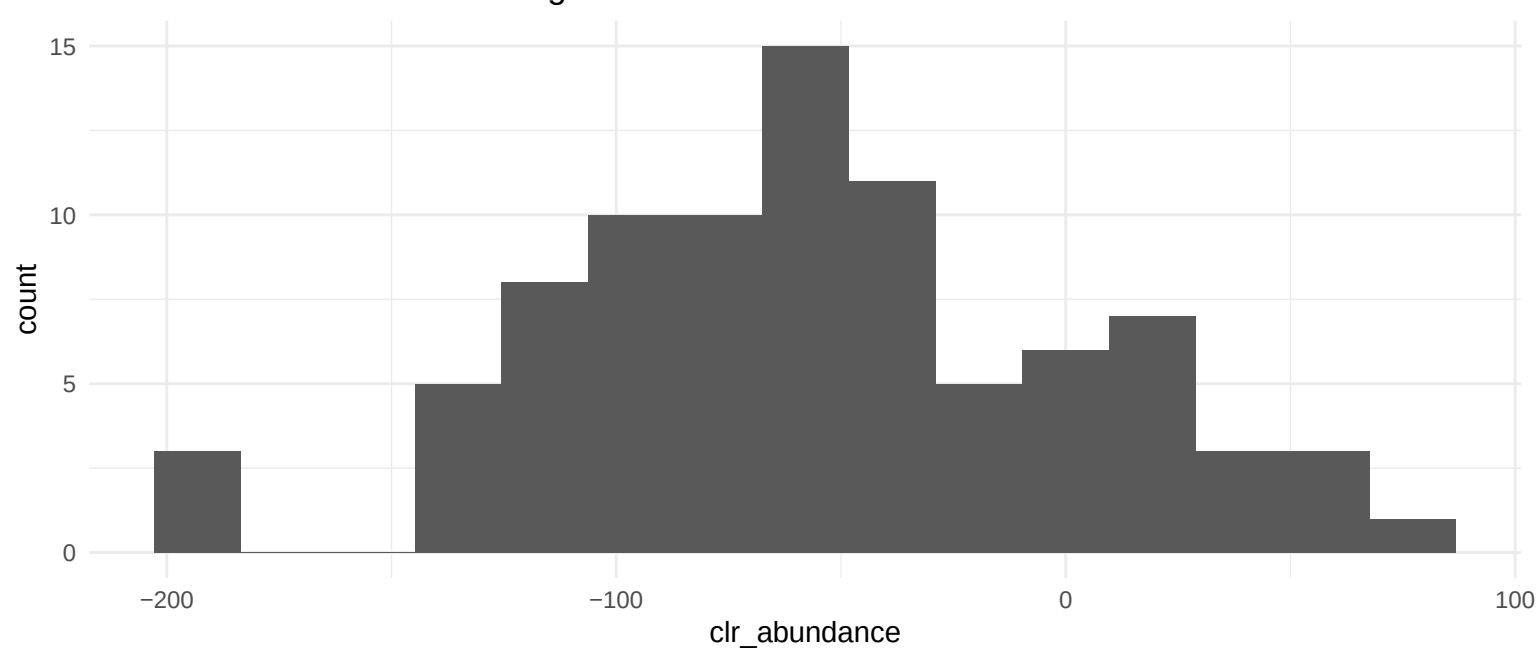

Distribution for 04712 Circadian rhythm – plant

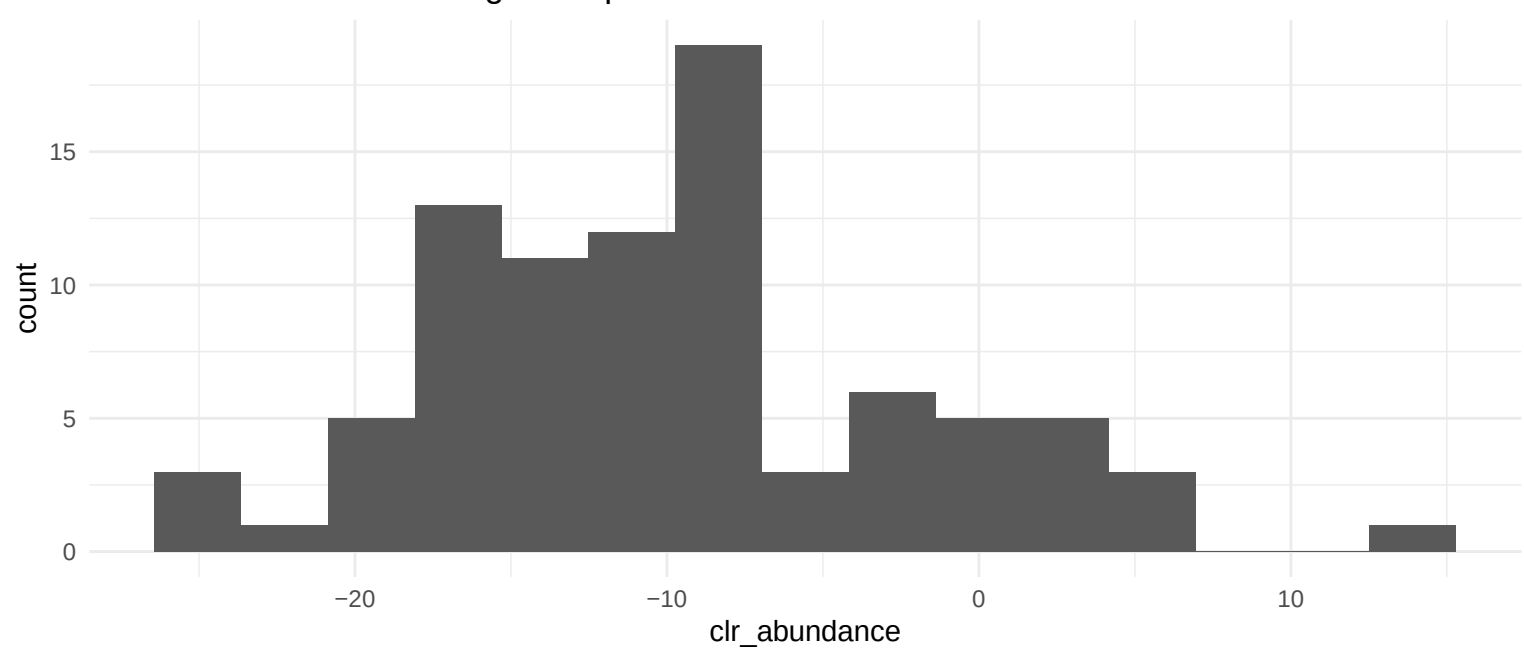

Distribution for 04713 Circadian entrainment

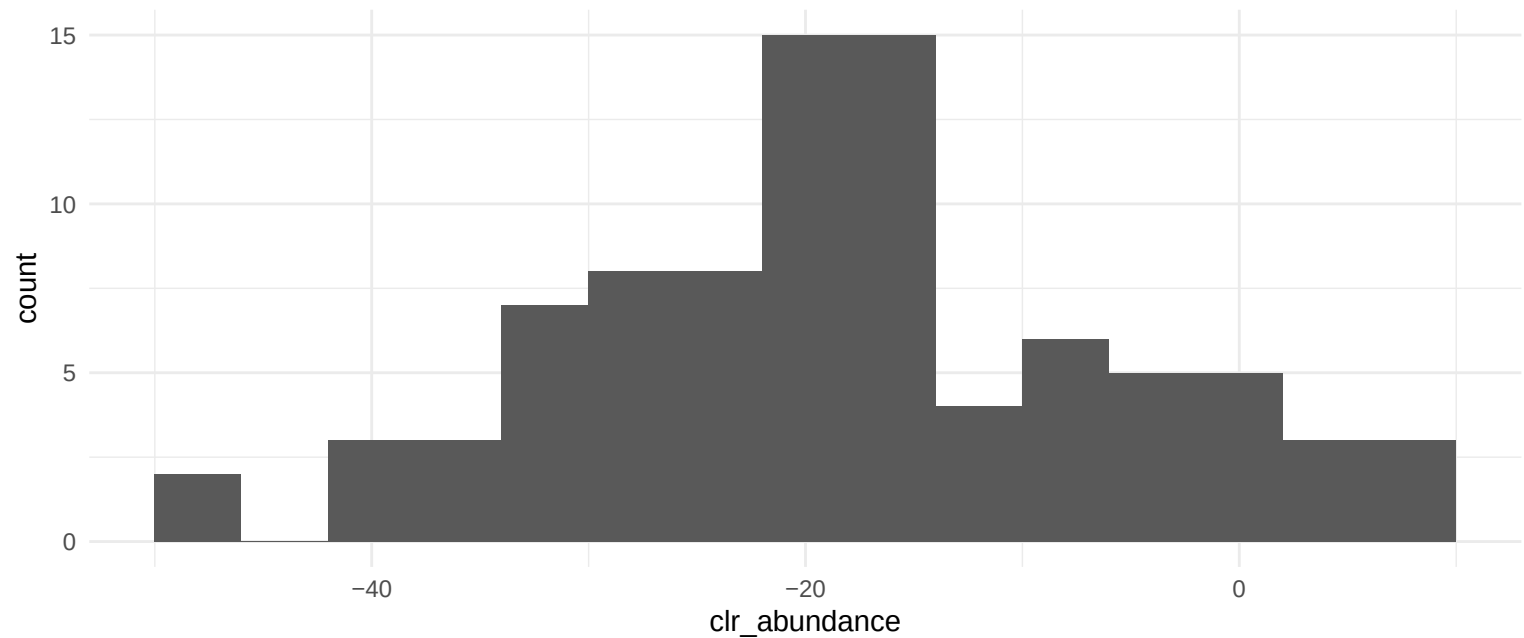

Distribution for 04714 Thermogenesis

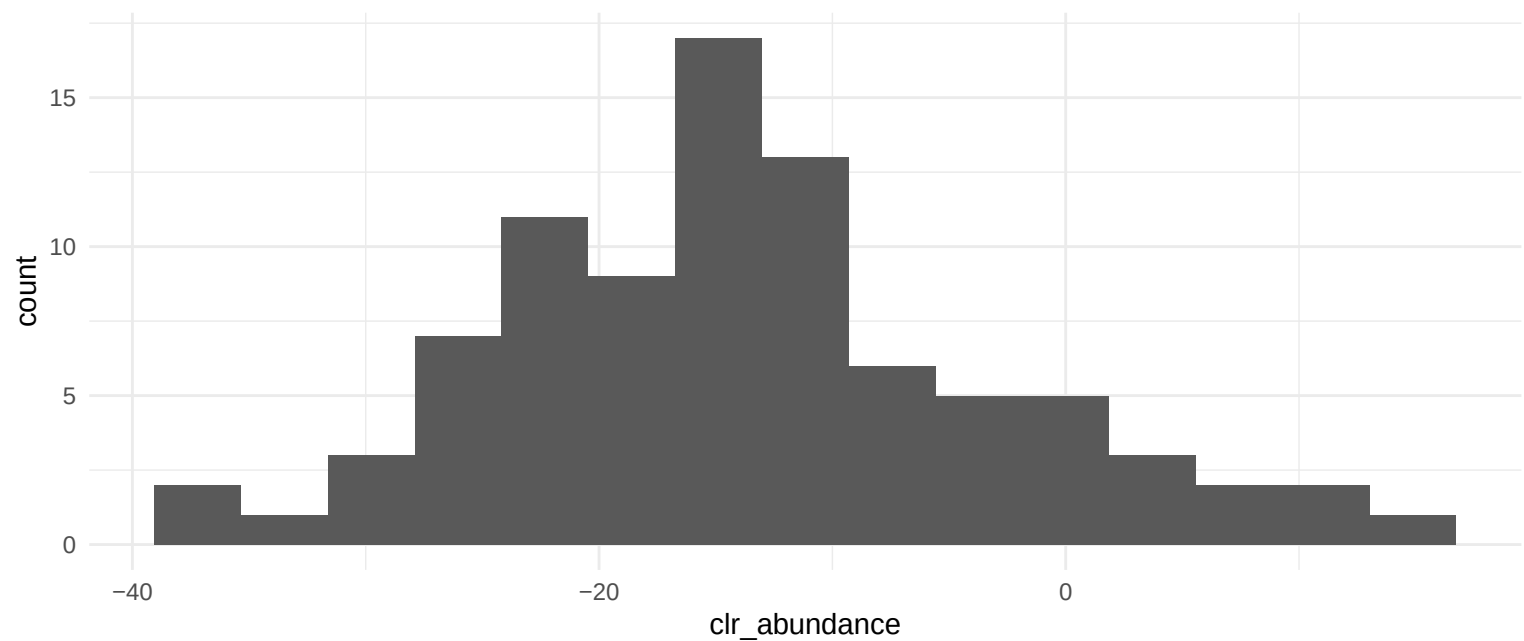

Distribution for 04720 Long-term potentiation

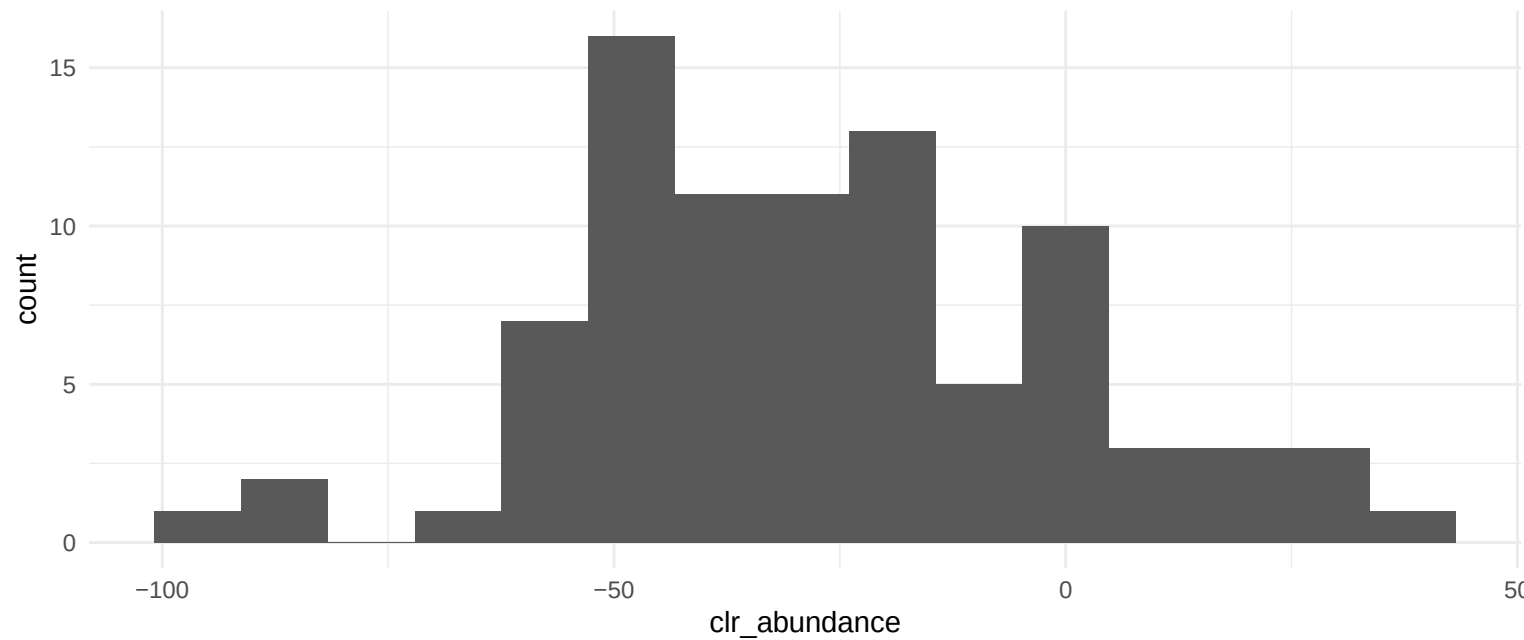

Distribution for 04721 Synaptic vesicle cycle

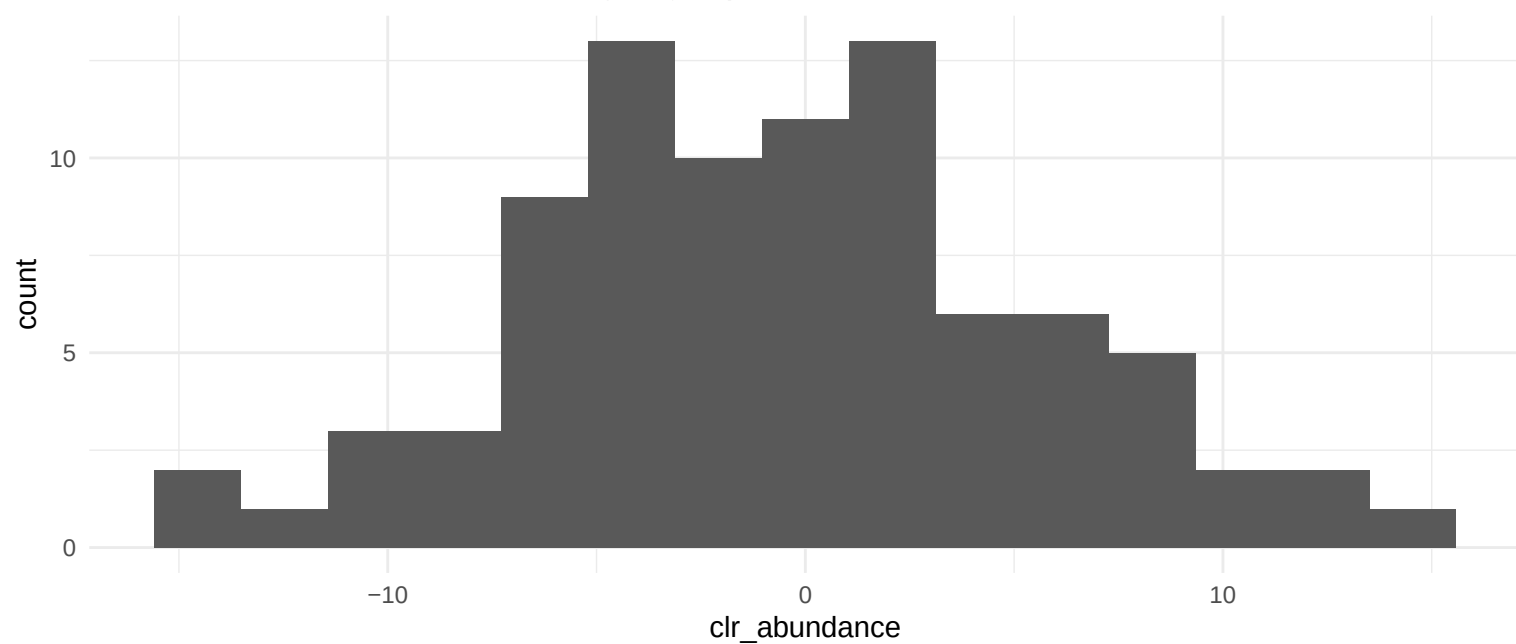

Distribution for 04722 Neurotrophin signaling pathway

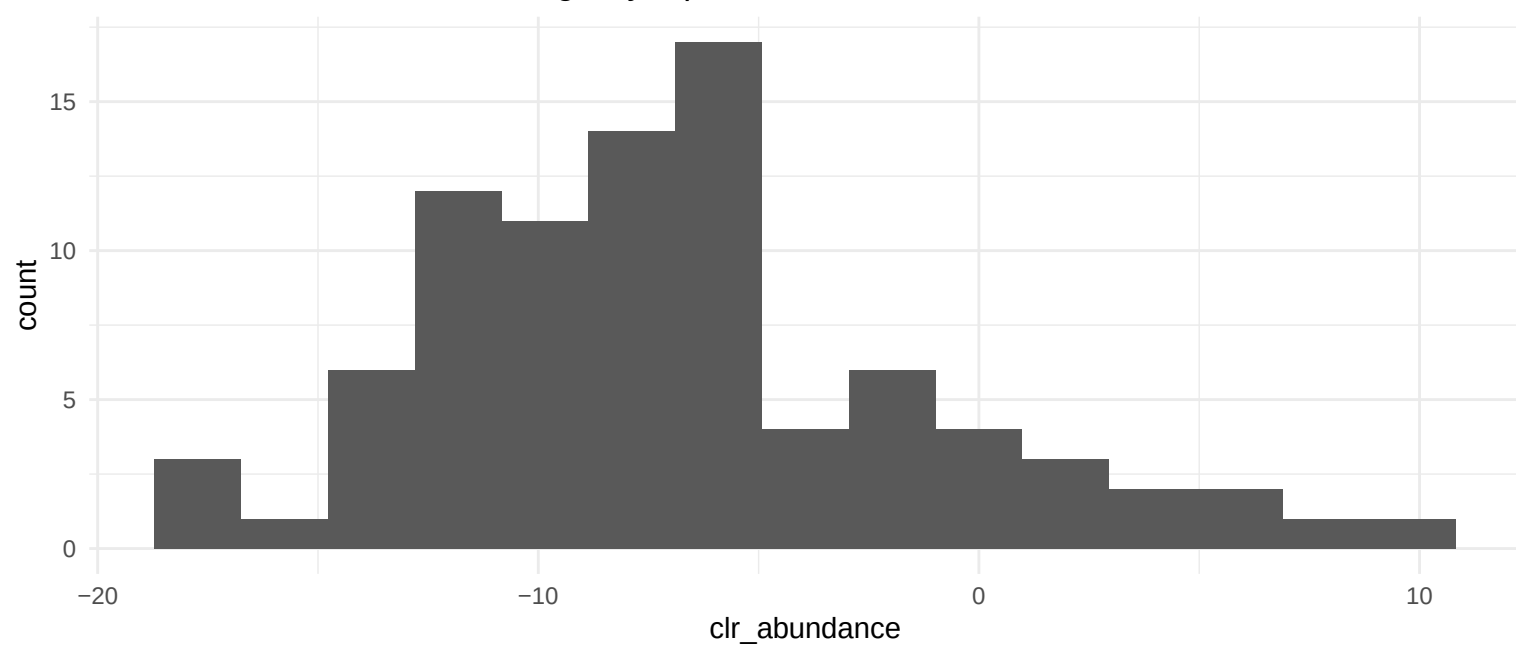

Distribution for 04723 Retrograde endocannabinoid signaling

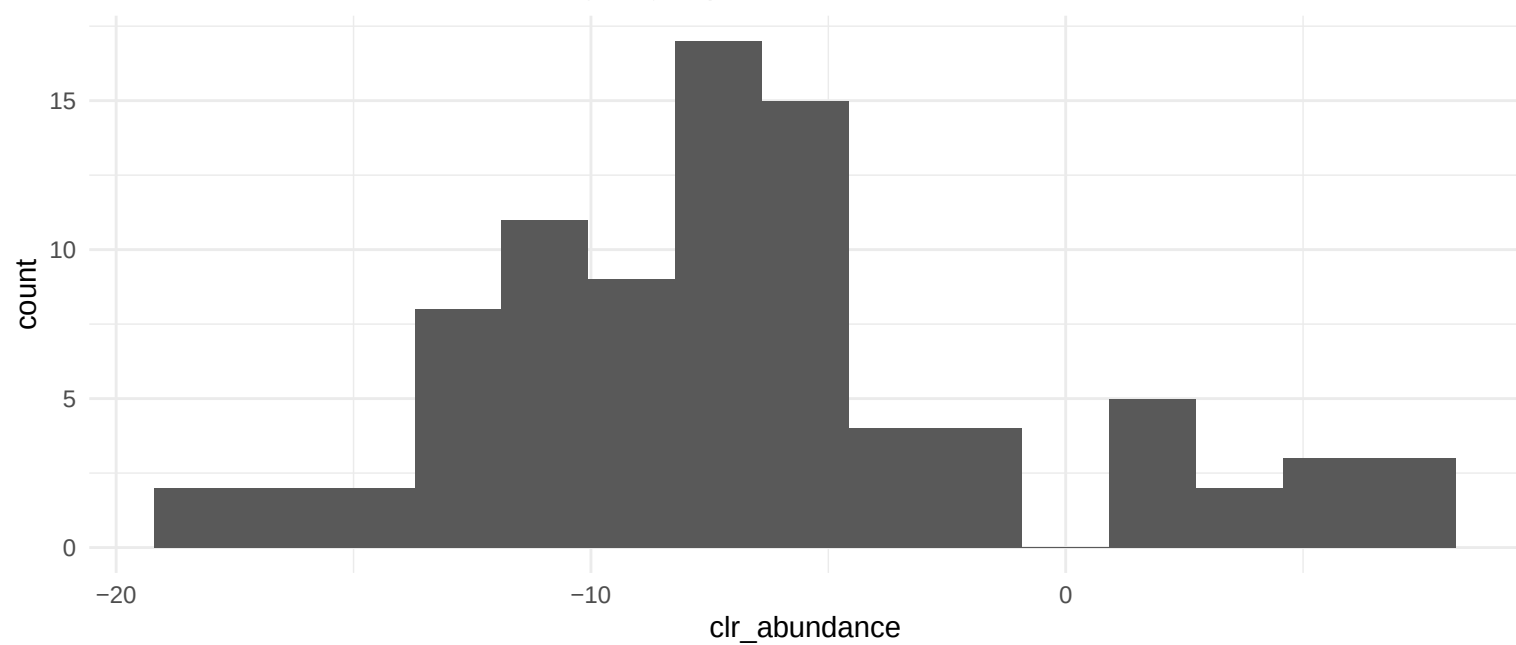

Distribution for 04724 Glutamatergic synapse

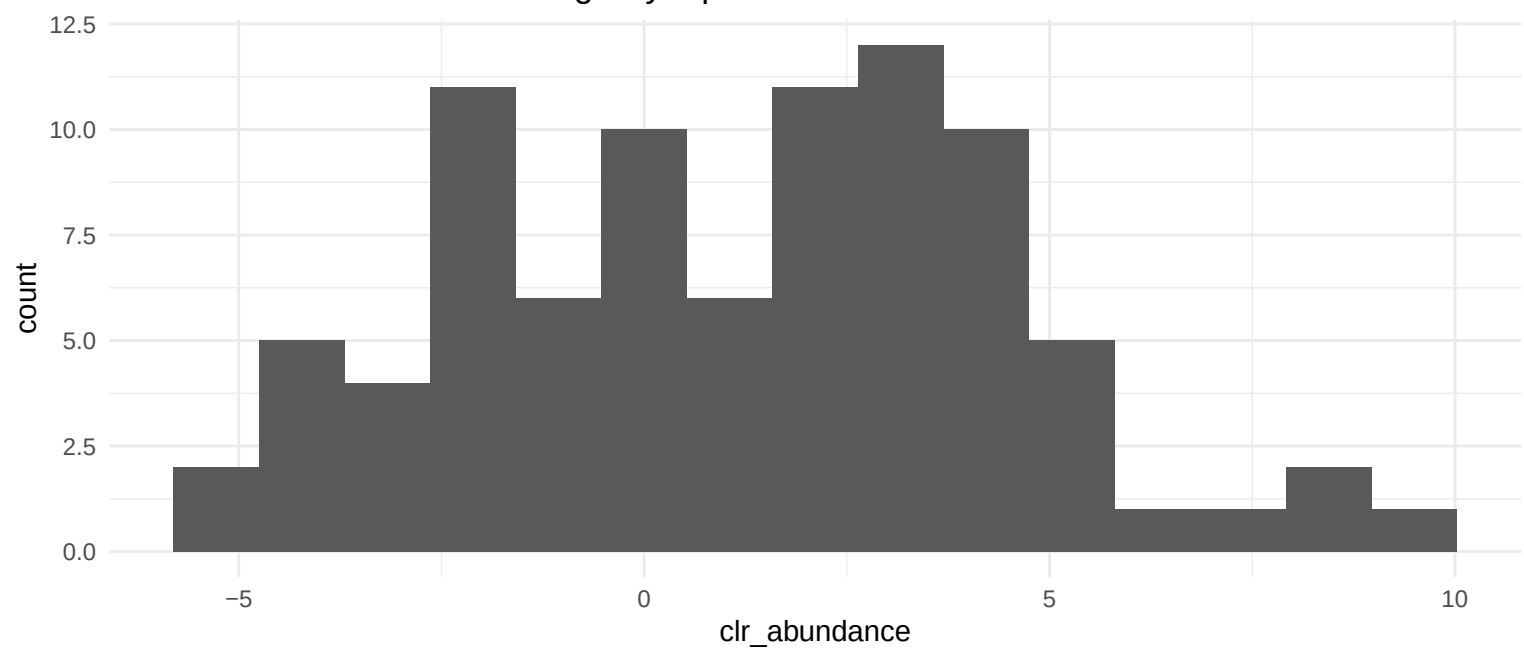

Distribution for 04725 Cholinergic synapse

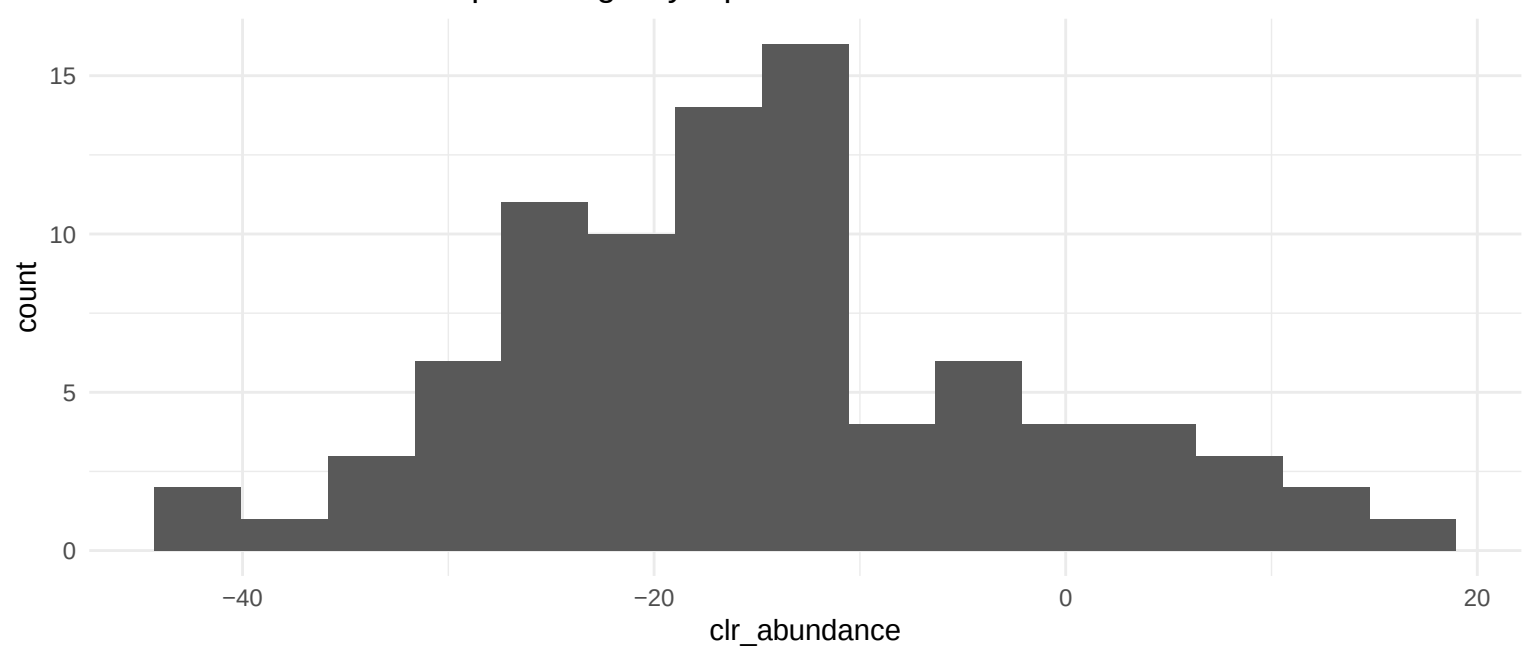

Distribution for 04726 Serotonergic synapse

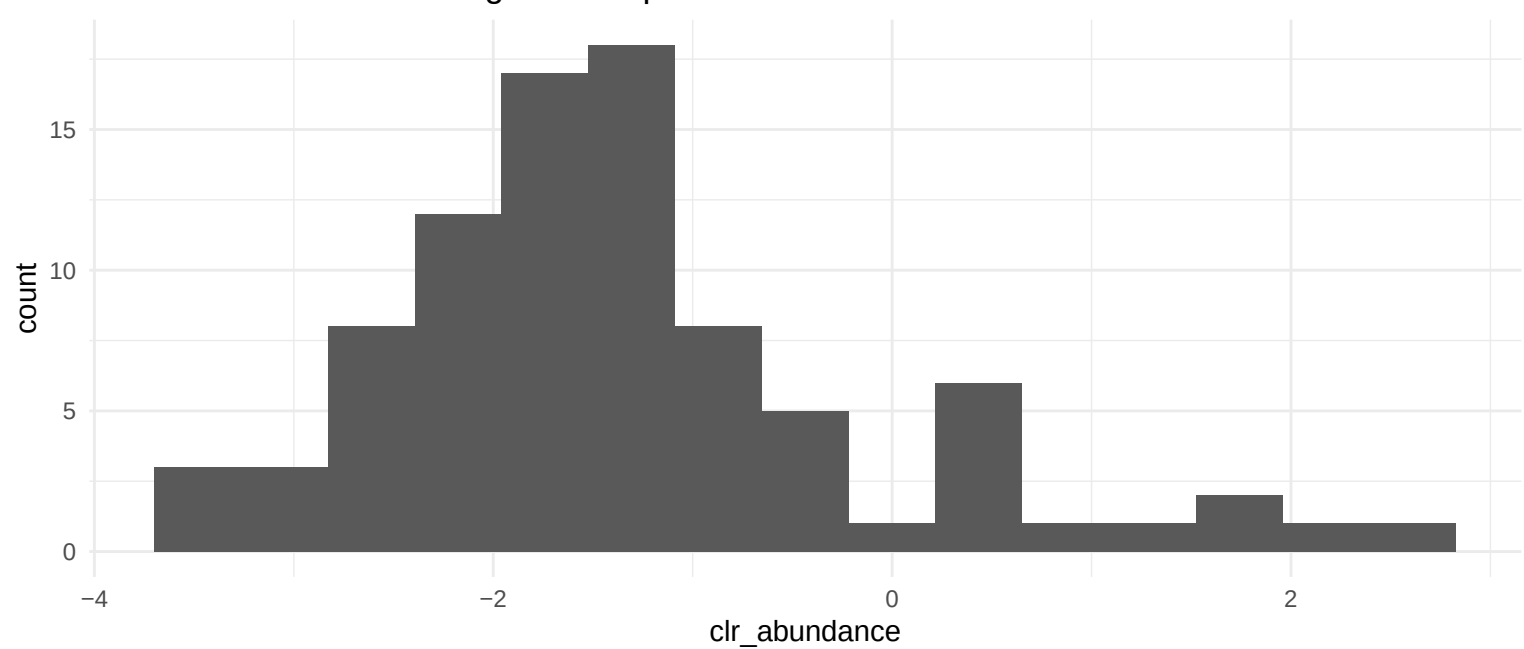

Distribution for 04727 GABAergic synapse

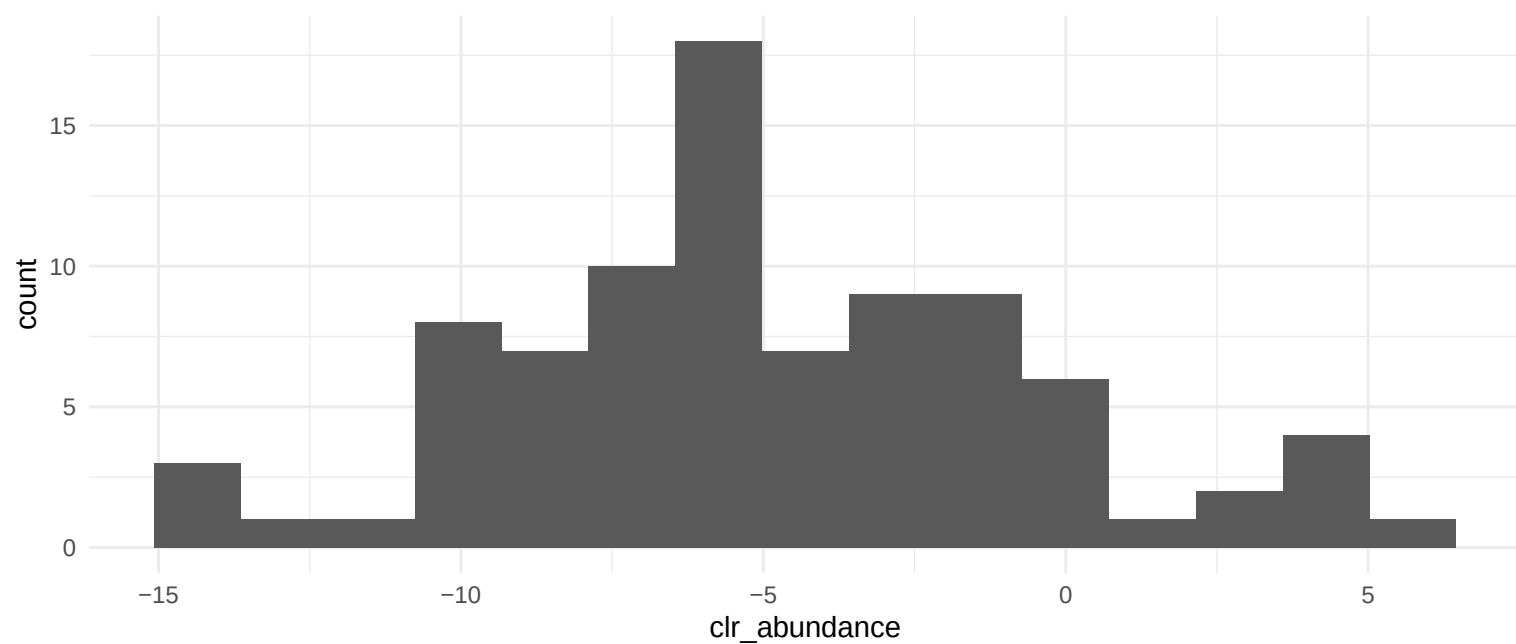

Distribution for 04728 Dopaminergic synapse

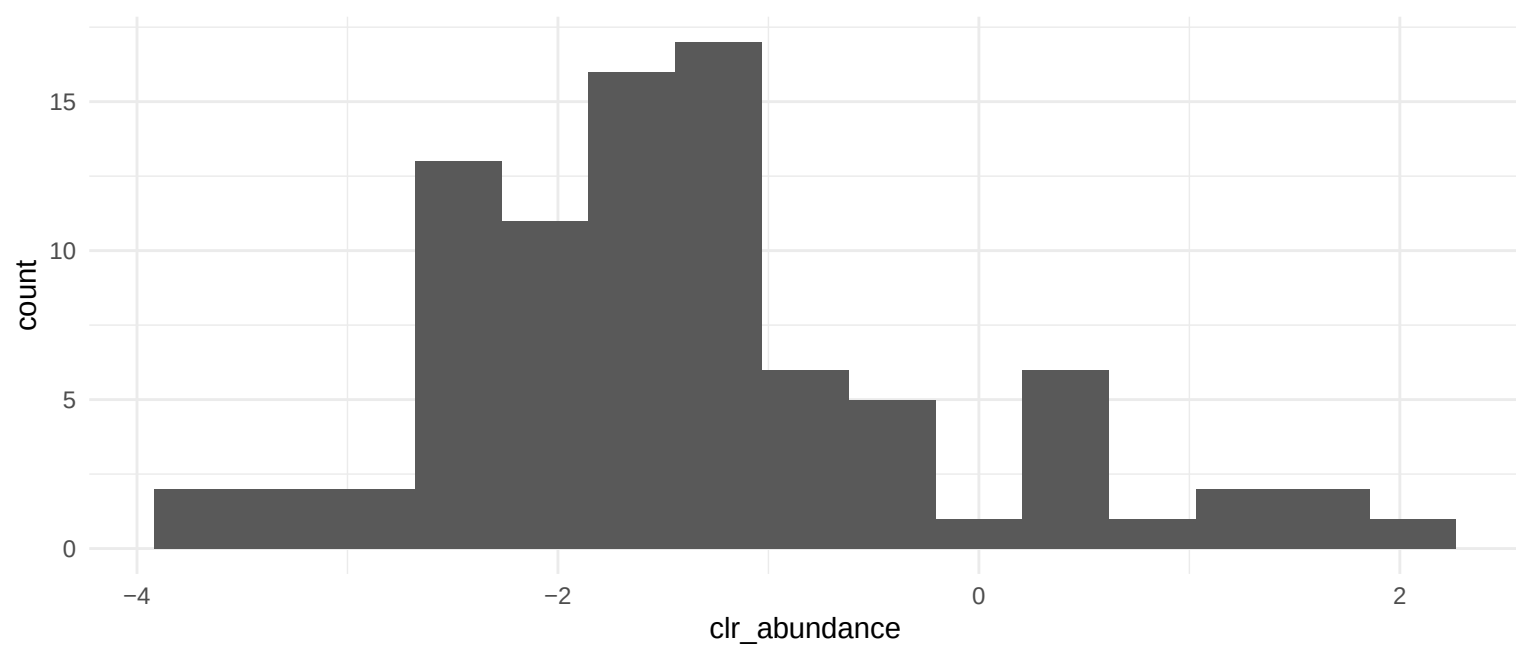

Distribution for 04730 Long-term depression

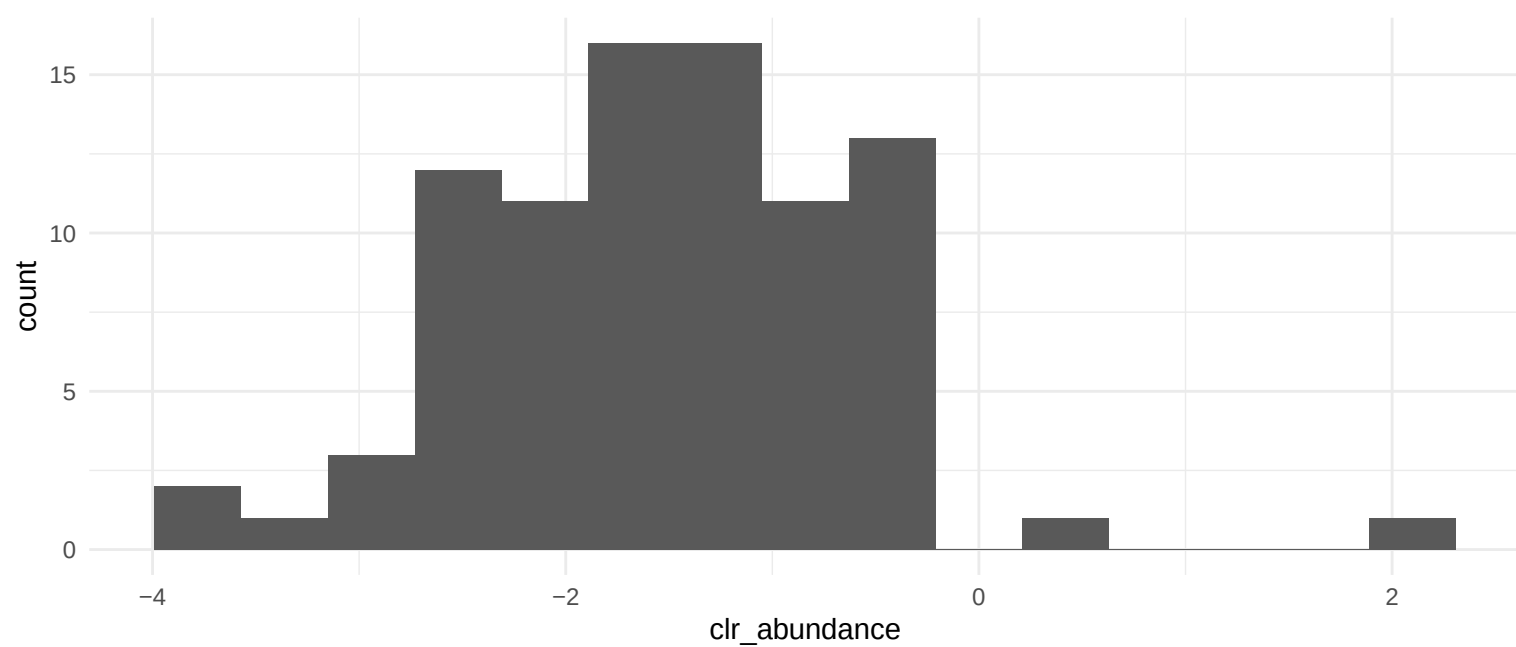

Distribution for 04740 Olfactory transduction

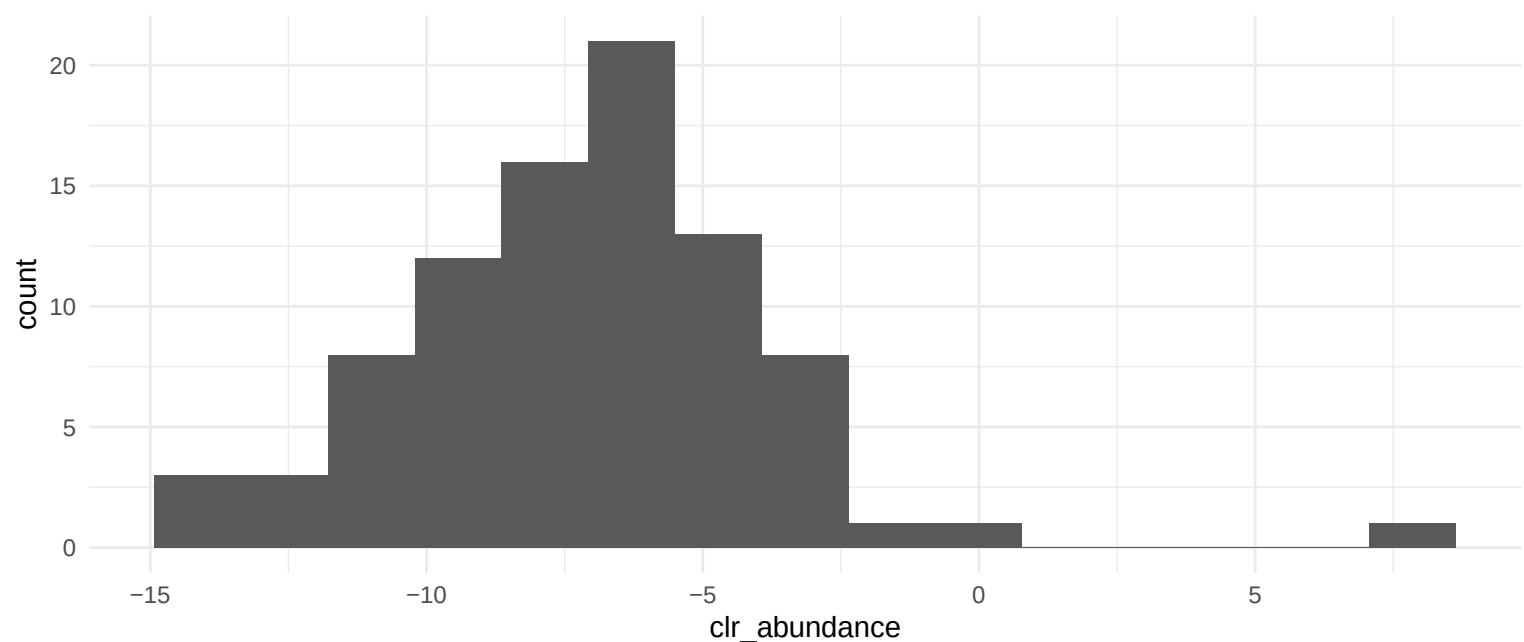

Distribution for 04742 Taste transduction

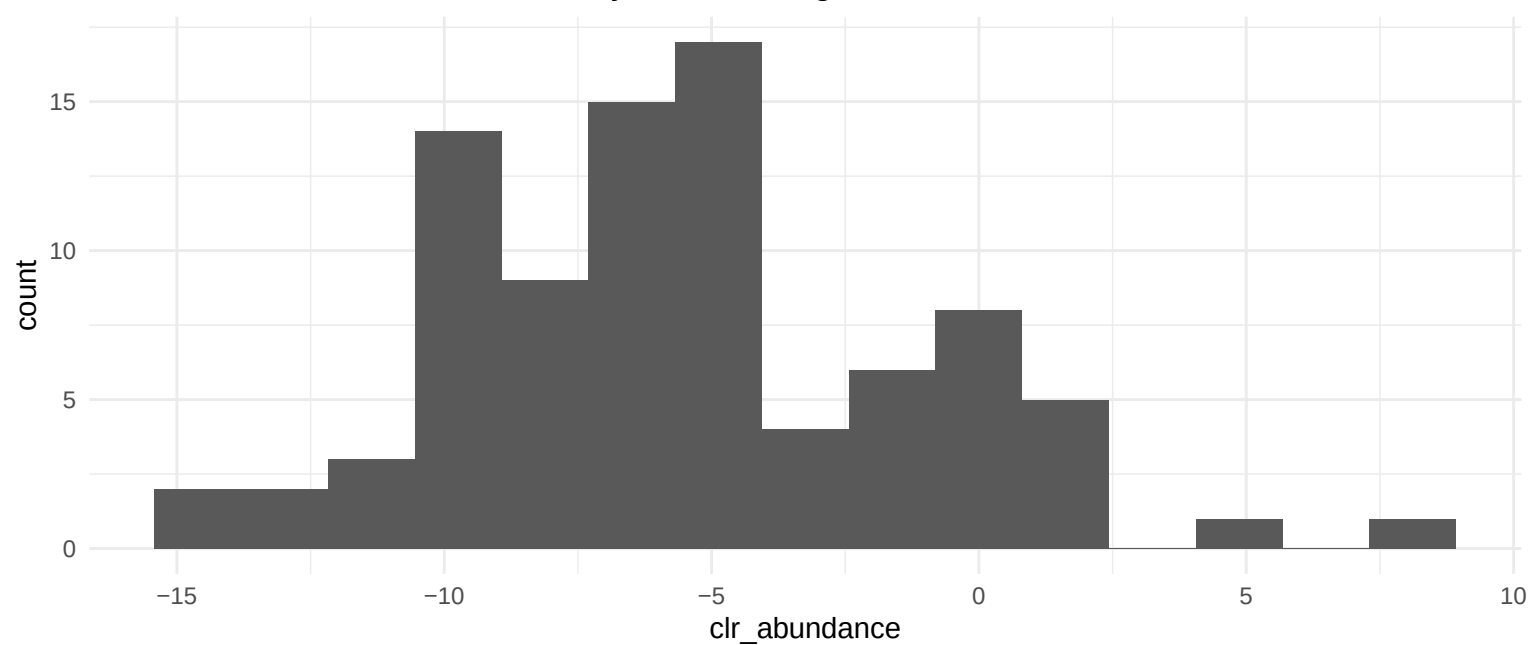

Distribution for 04744 Phototransduction

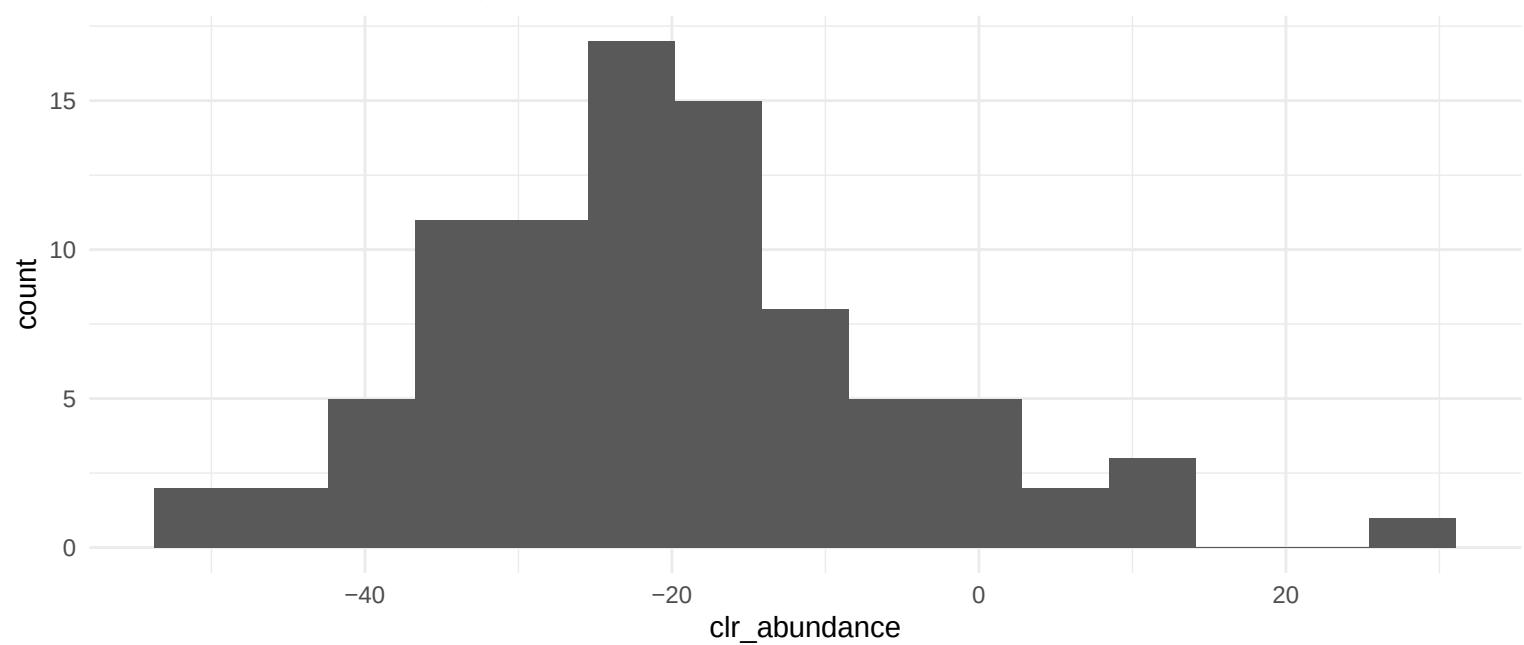

Distribution for 04745 Phototransduction – fly

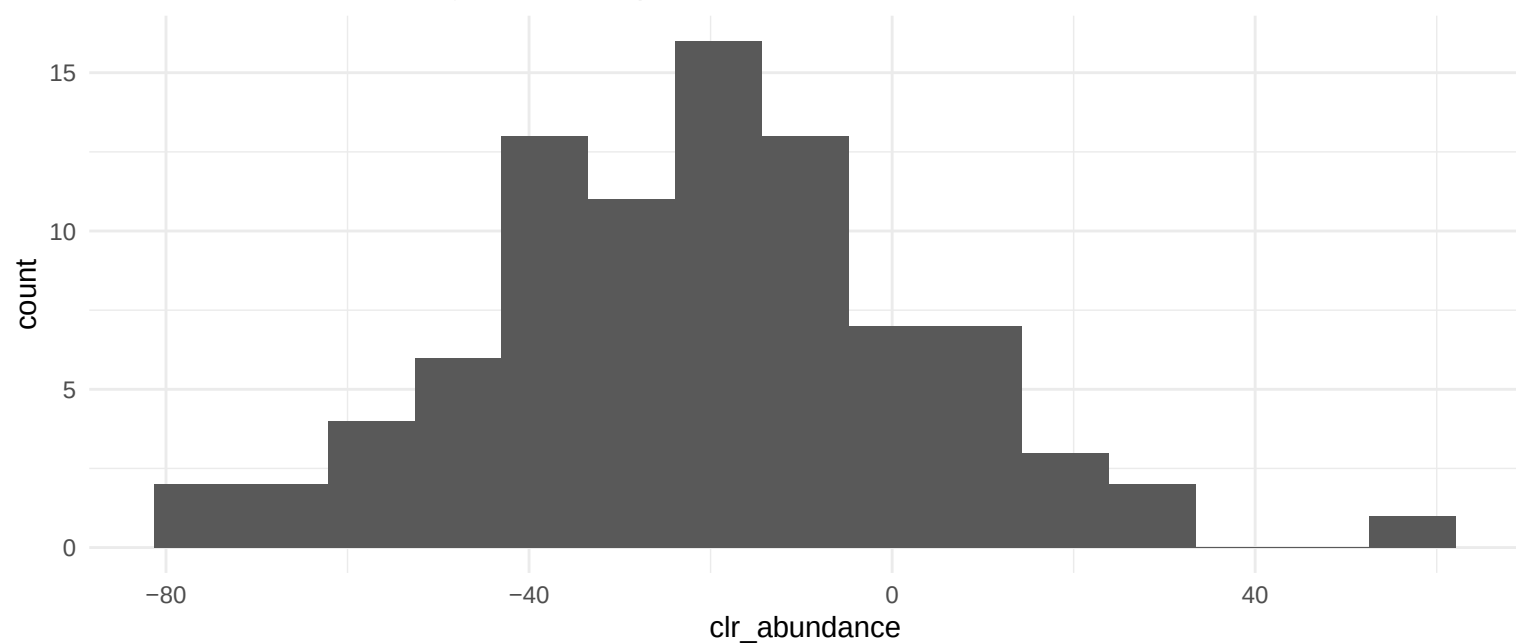

Distribution for 04750 Inflammatory mediator regulation of TRP channels

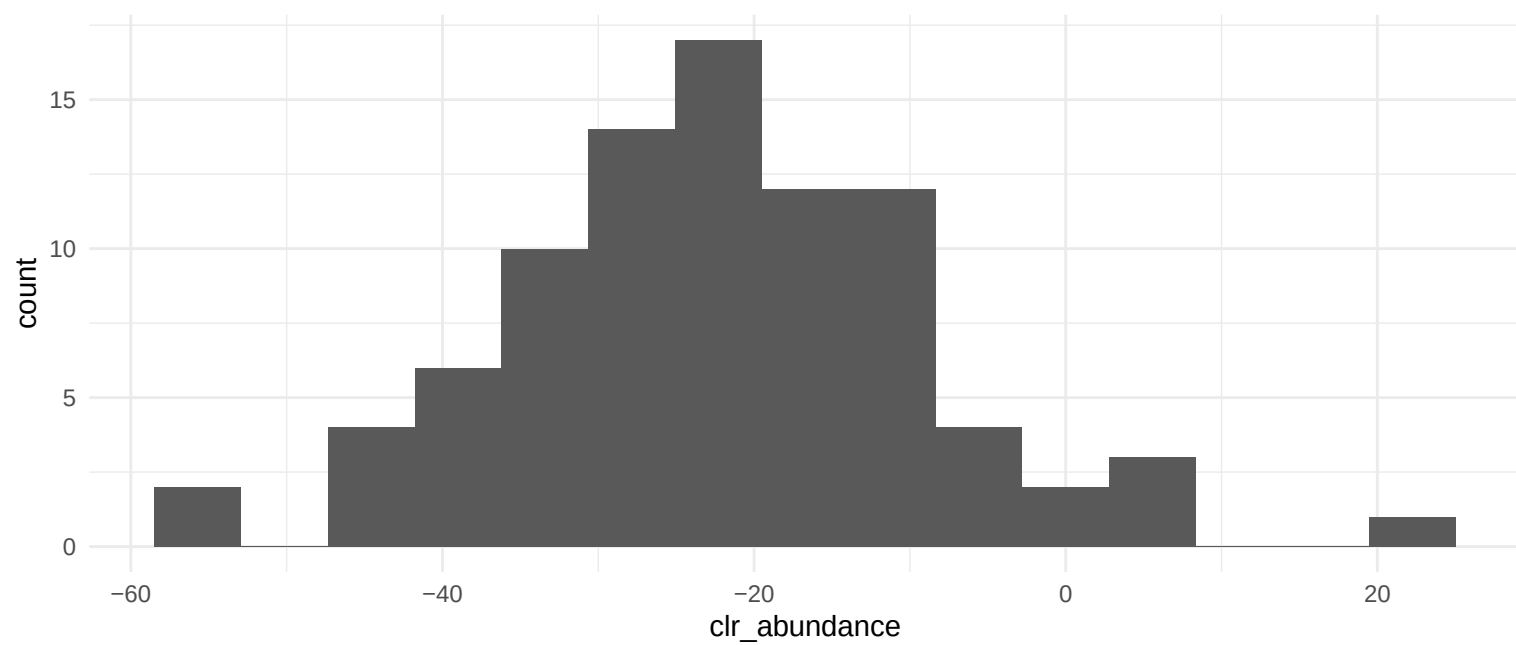

Distribution for 04810 Regulation of actin cytoskeleton

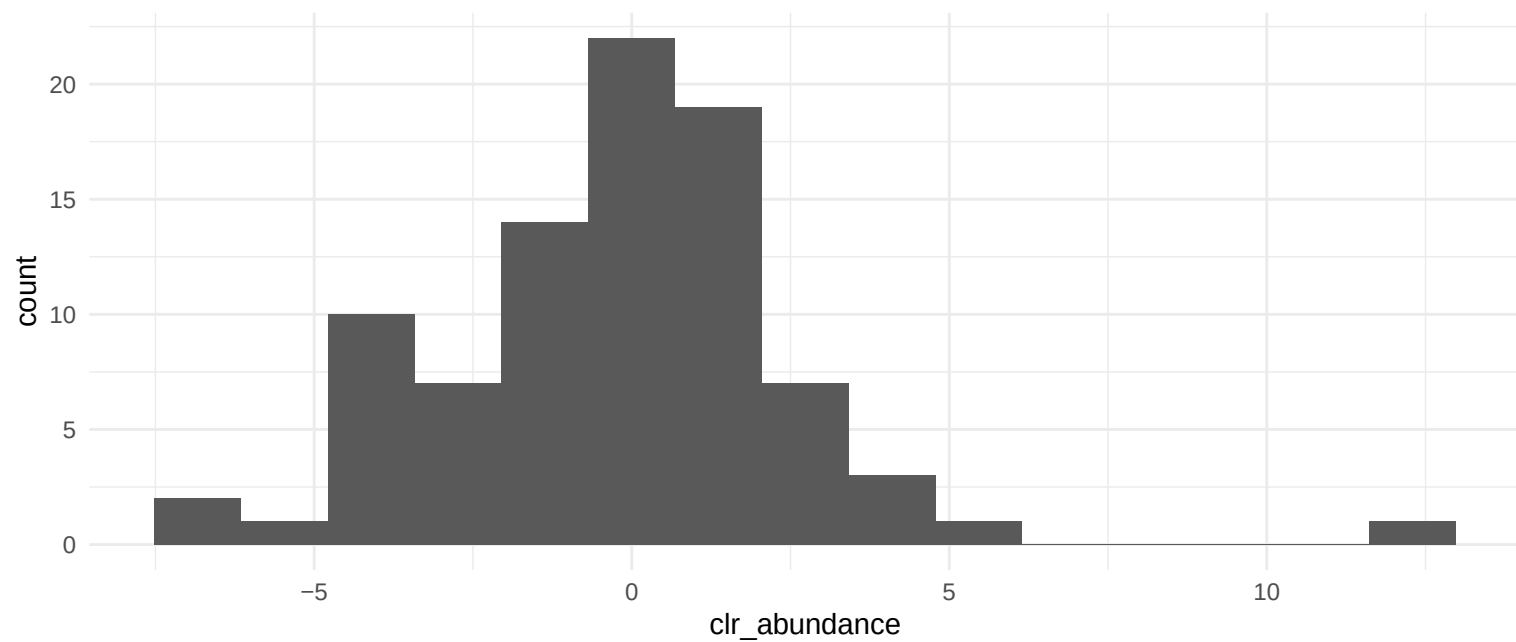

Distribution for 04812 Cytoskeleton proteins

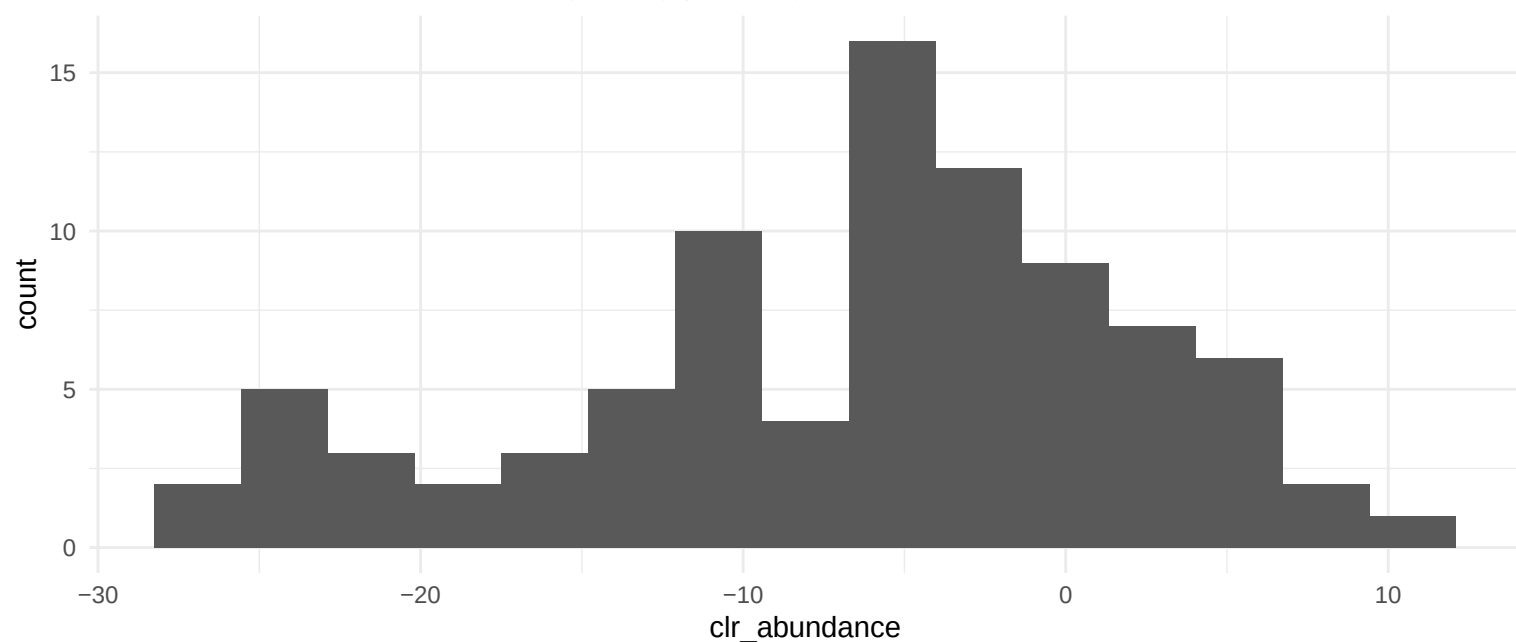

Distribution for 04814 Motor proteins

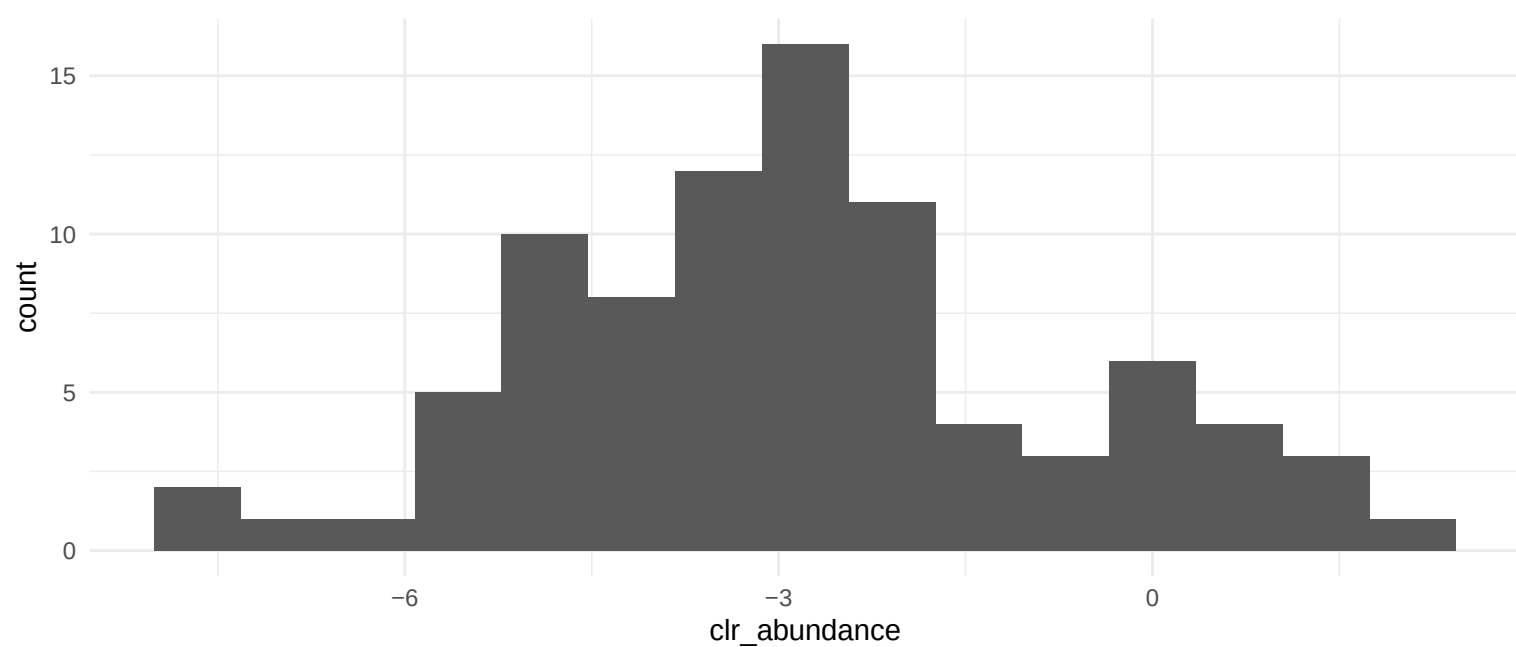

Distribution for 04820 Cytoskeleton in muscle cells

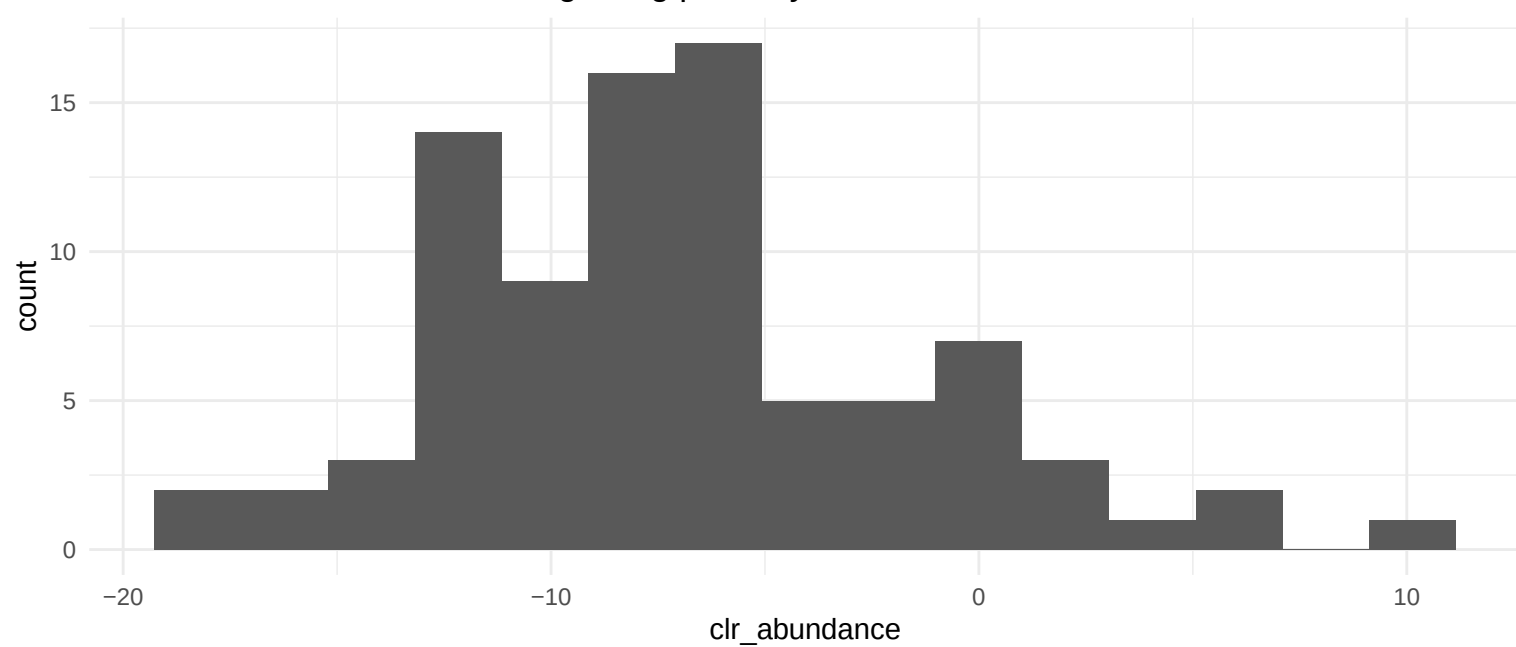

Distribution for 04910 Insulin signaling pathway

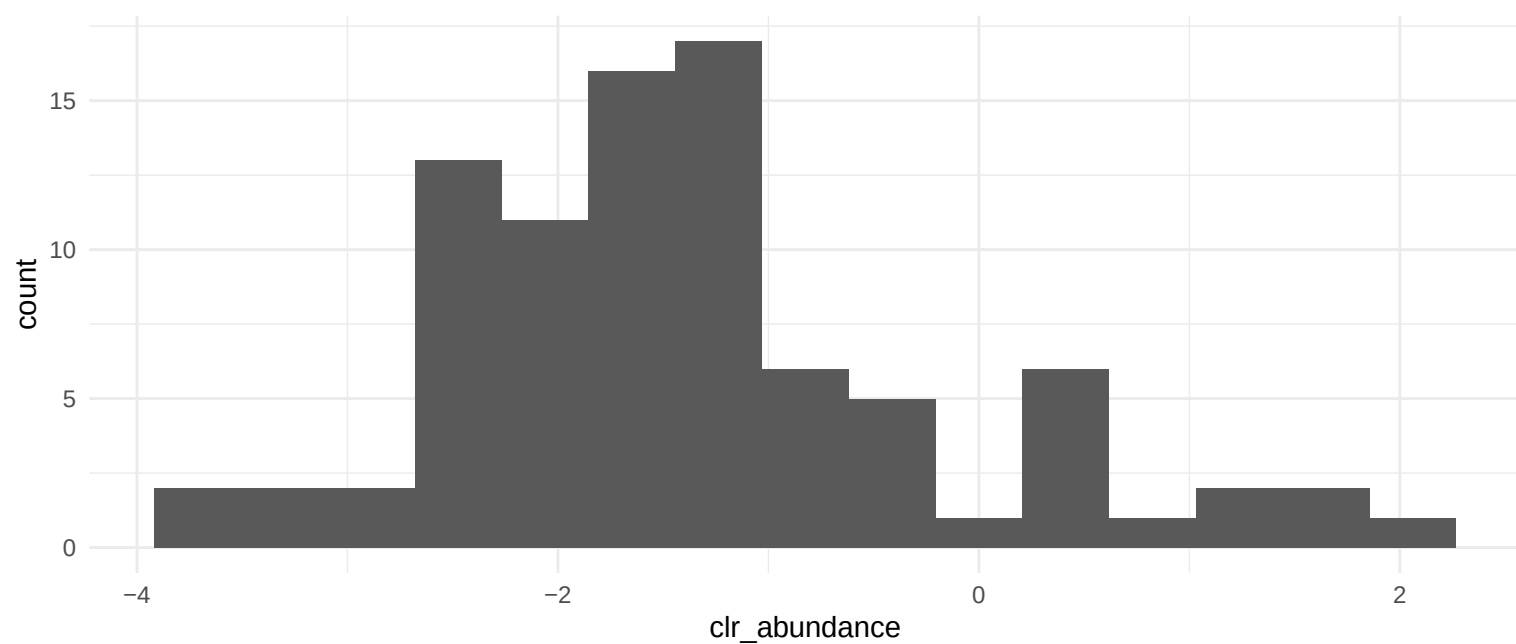

Distribution for 04911 Insulin secretion

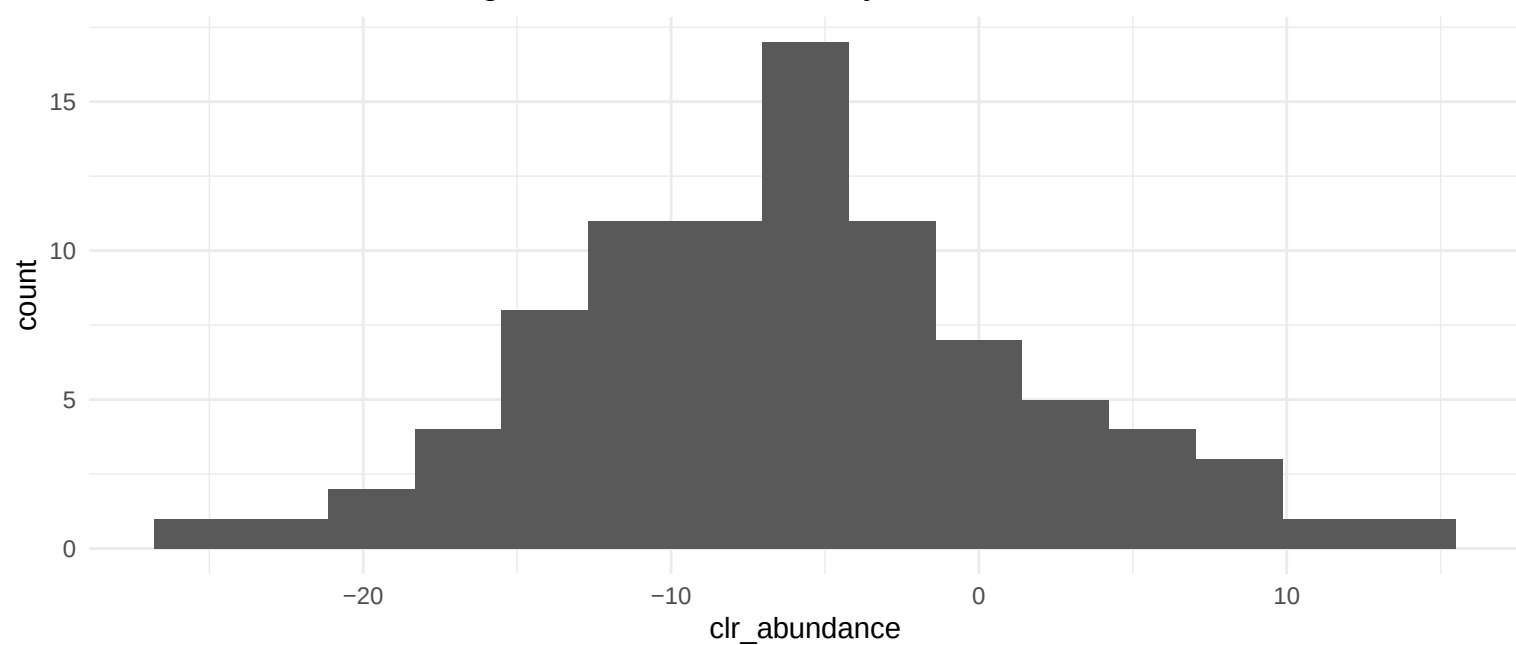

Distribution for 04912 GnRH signaling pathway

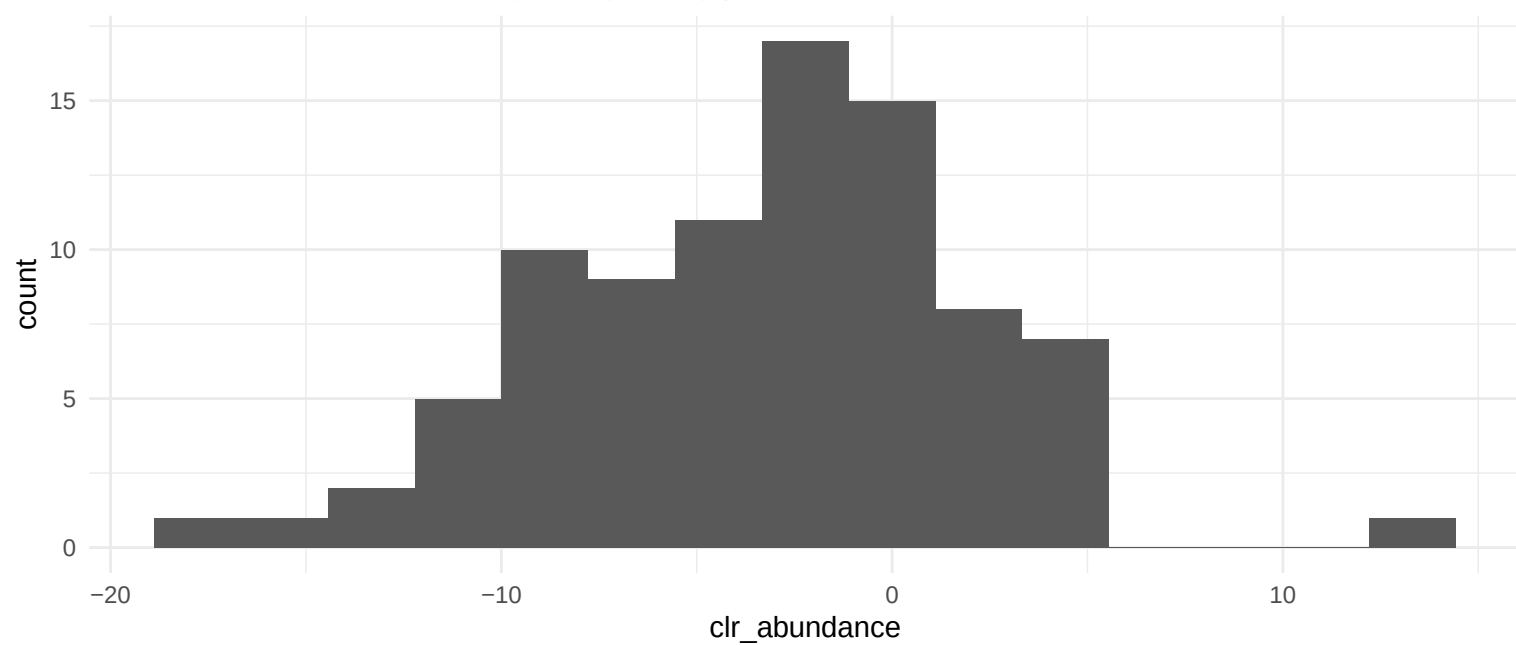

Distribution for 04913 Ovarian steroidogenesis

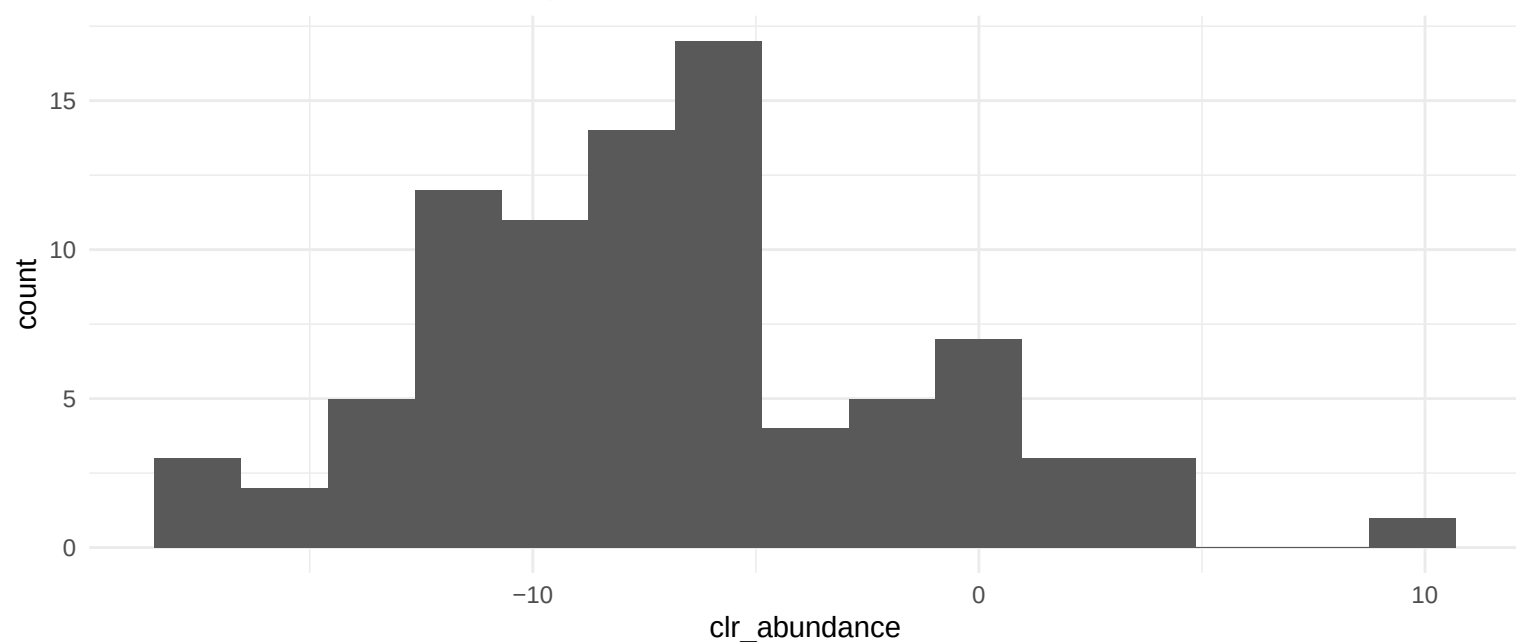

Distribution for 04914 Progesterone-mediated oocyte maturation

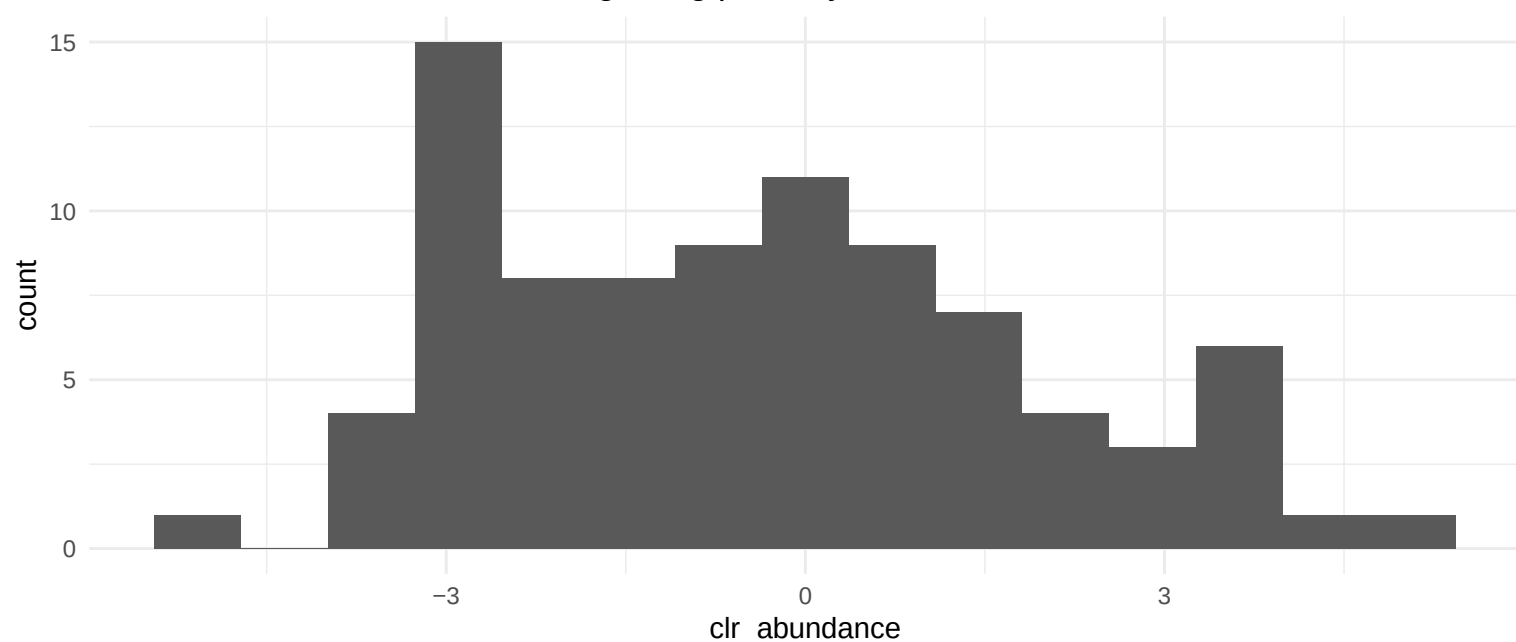

Distribution for 04915 Estrogen signaling pathway

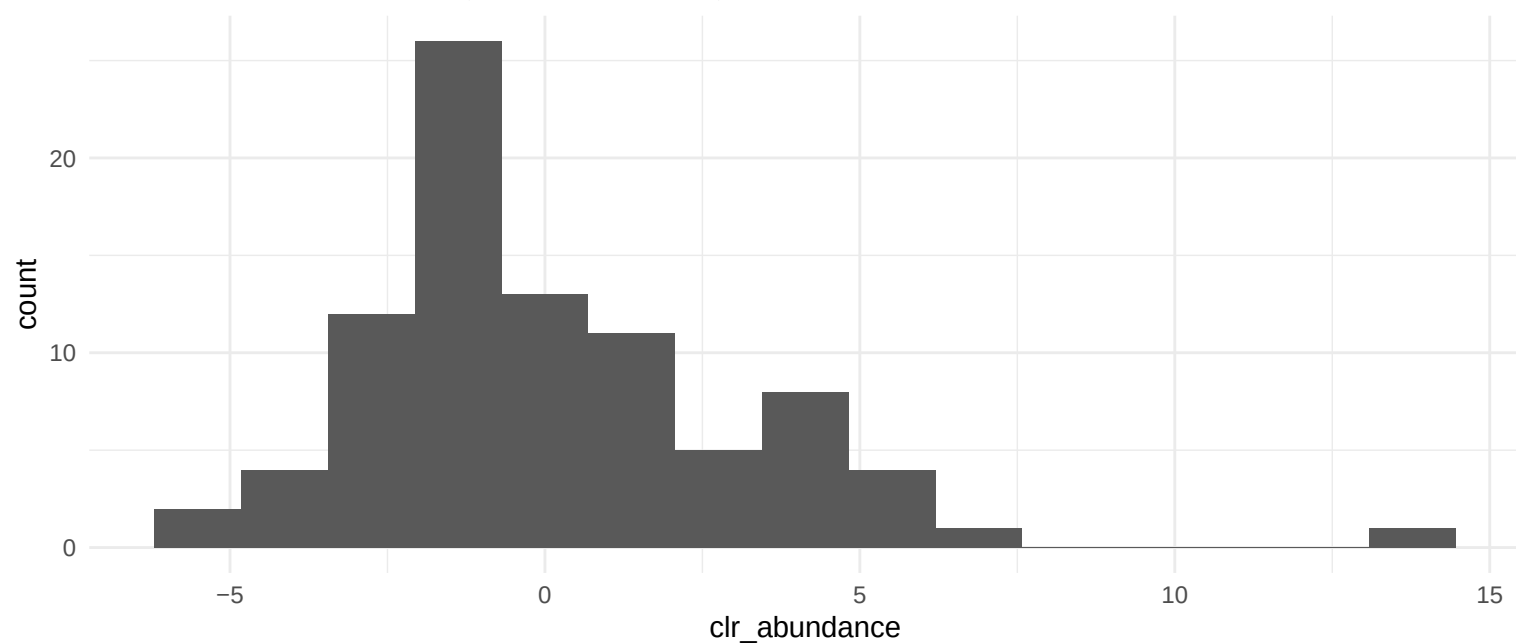

Distribution for 04916 Melanogenesis

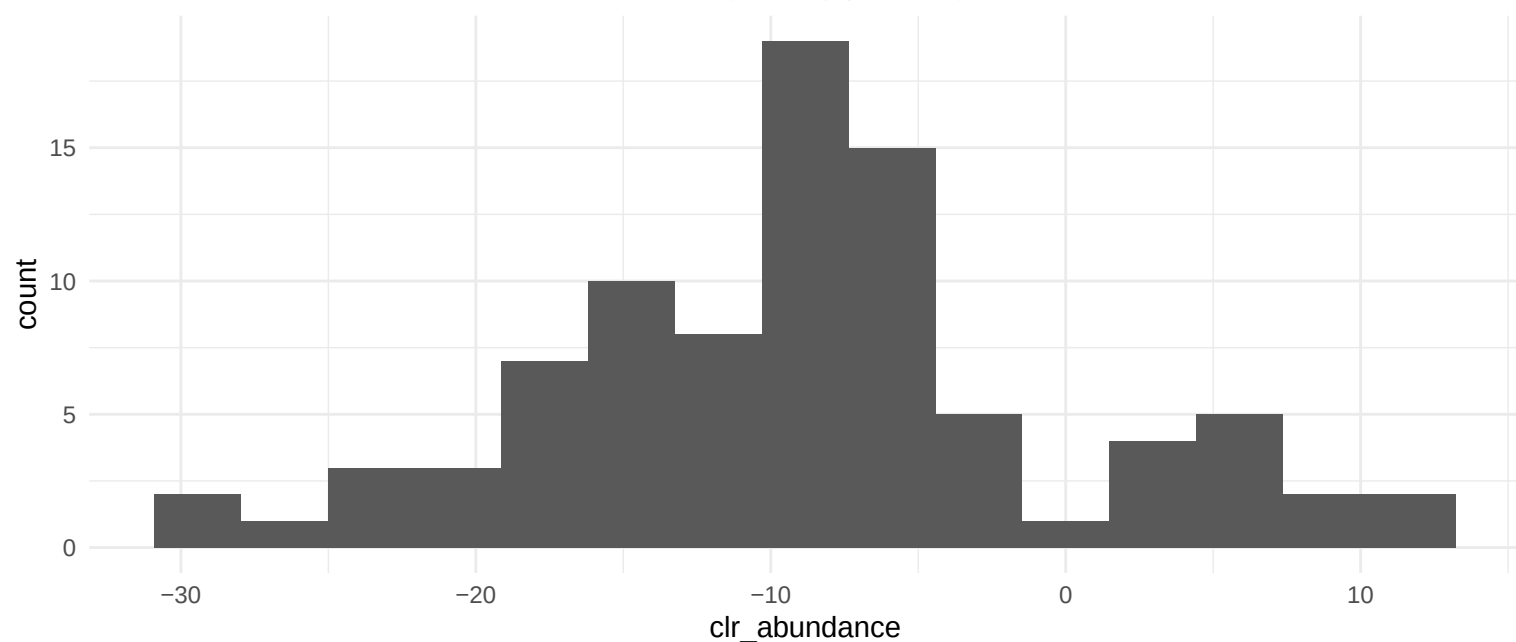

Distribution for 04917 Prolactin signaling pathway

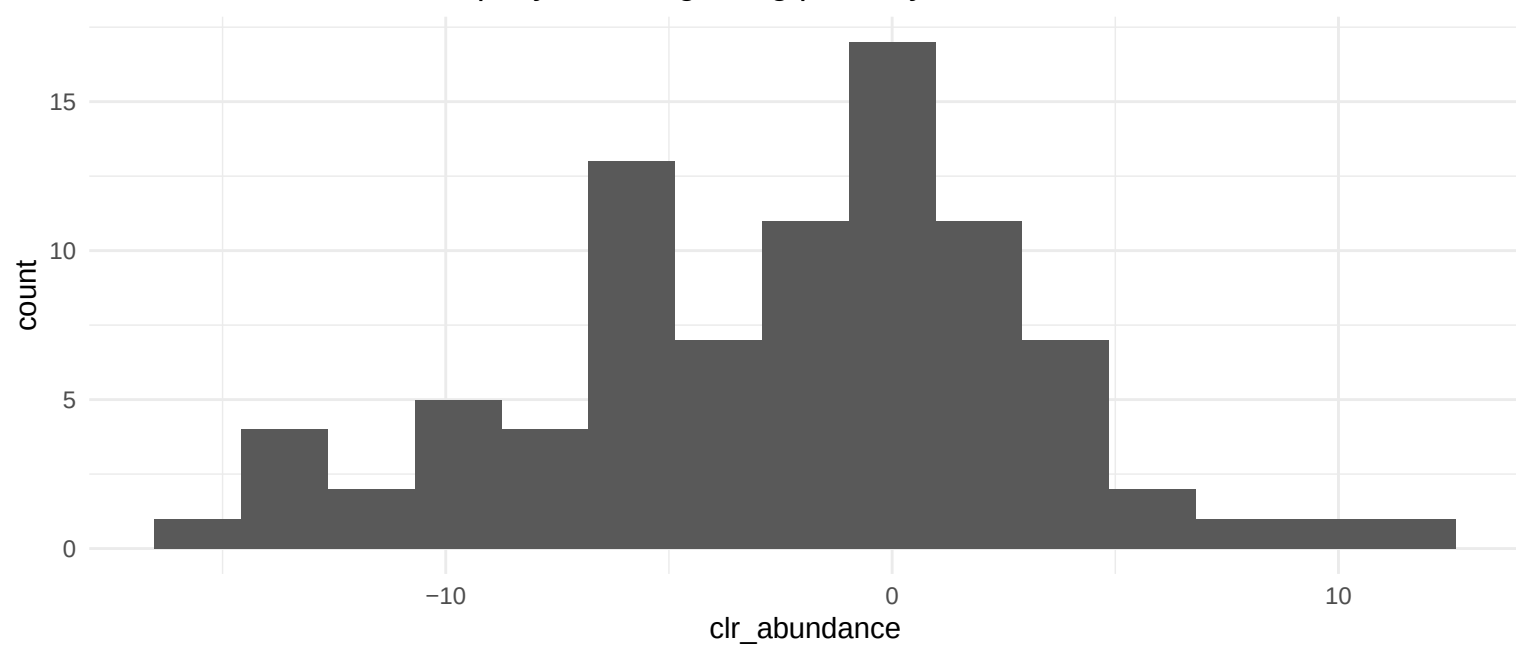

Distribution for 04918 Thyroid hormone synthesis

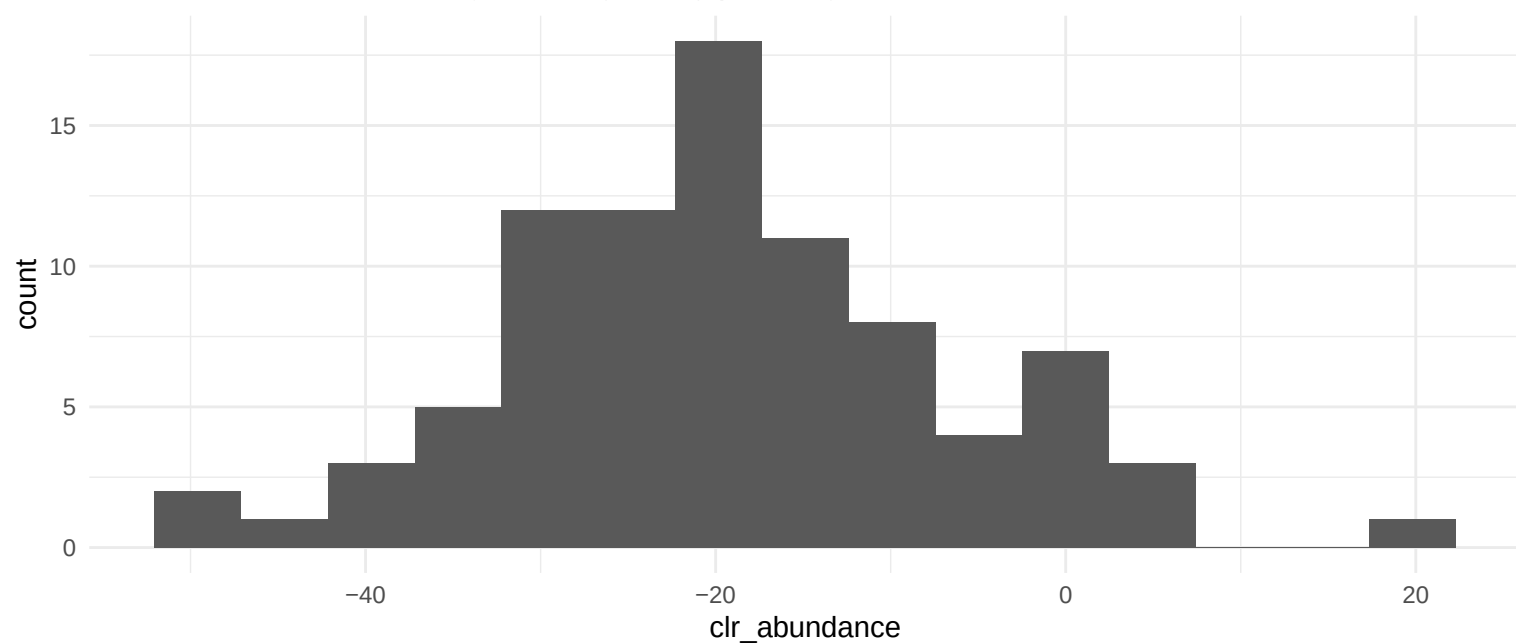

Distribution for 04919 Thyroid hormone signaling pathway

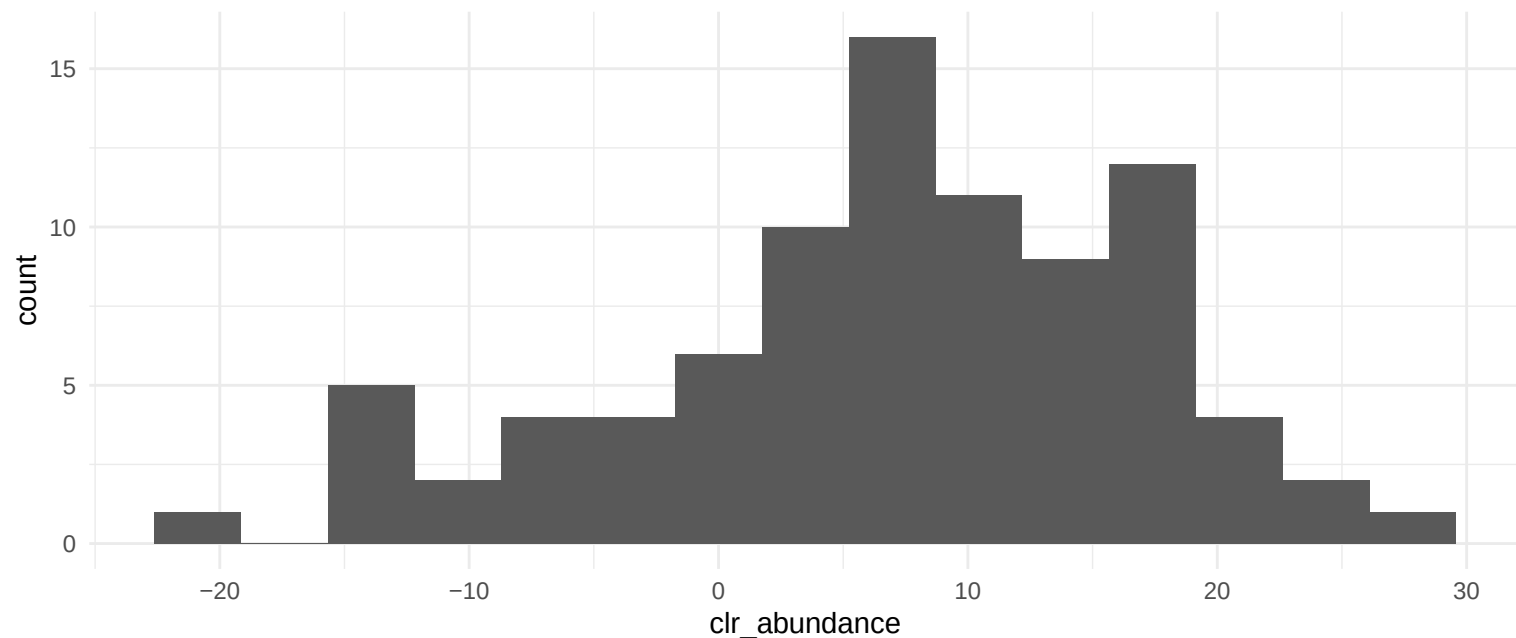

Distribution for 04920 Adipocytokine signaling pathway

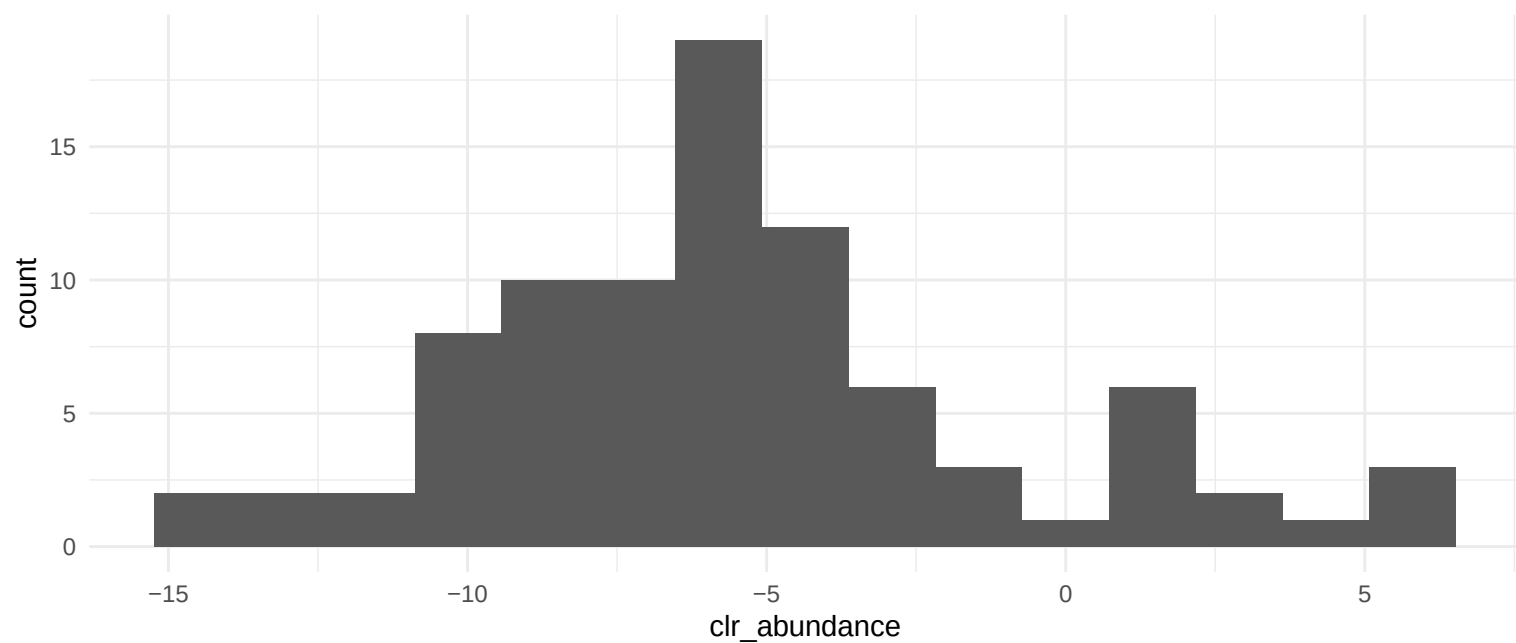

Distribution for 04921 Oxytocin signaling pathway

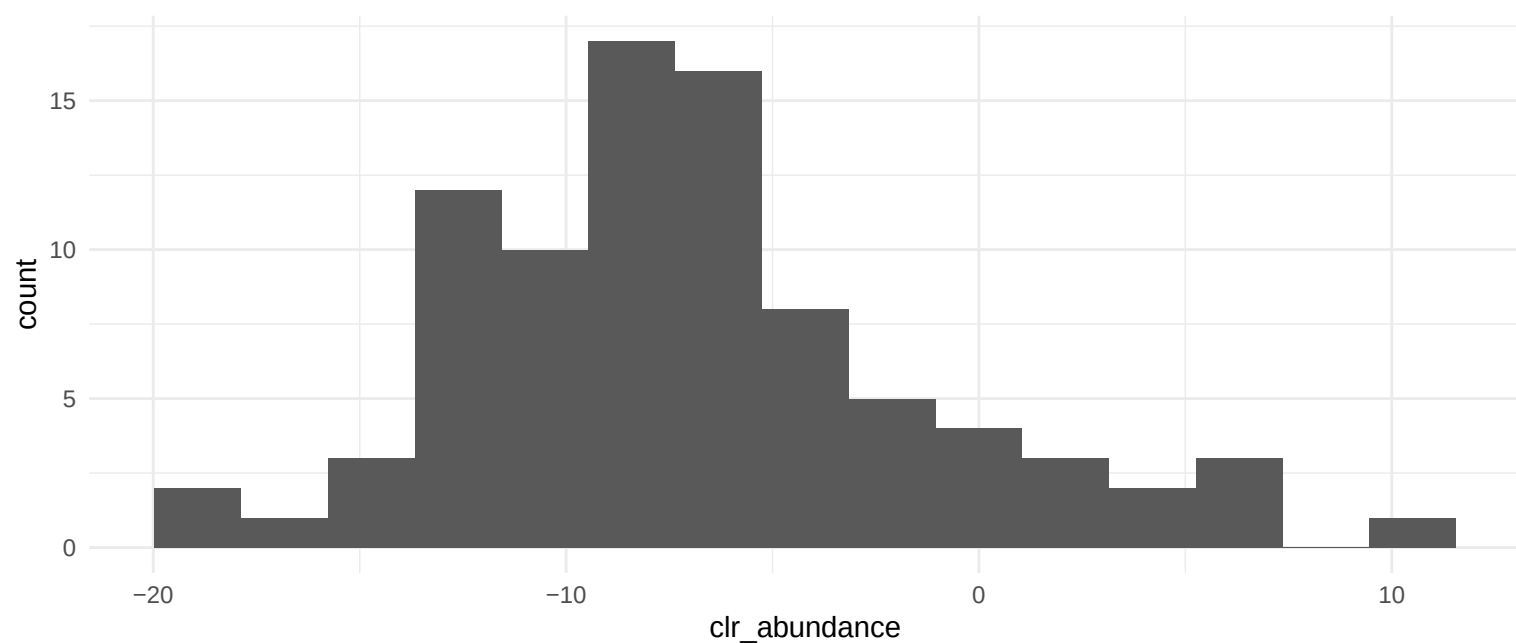

Distribution for 04922 Glucagon signaling pathway

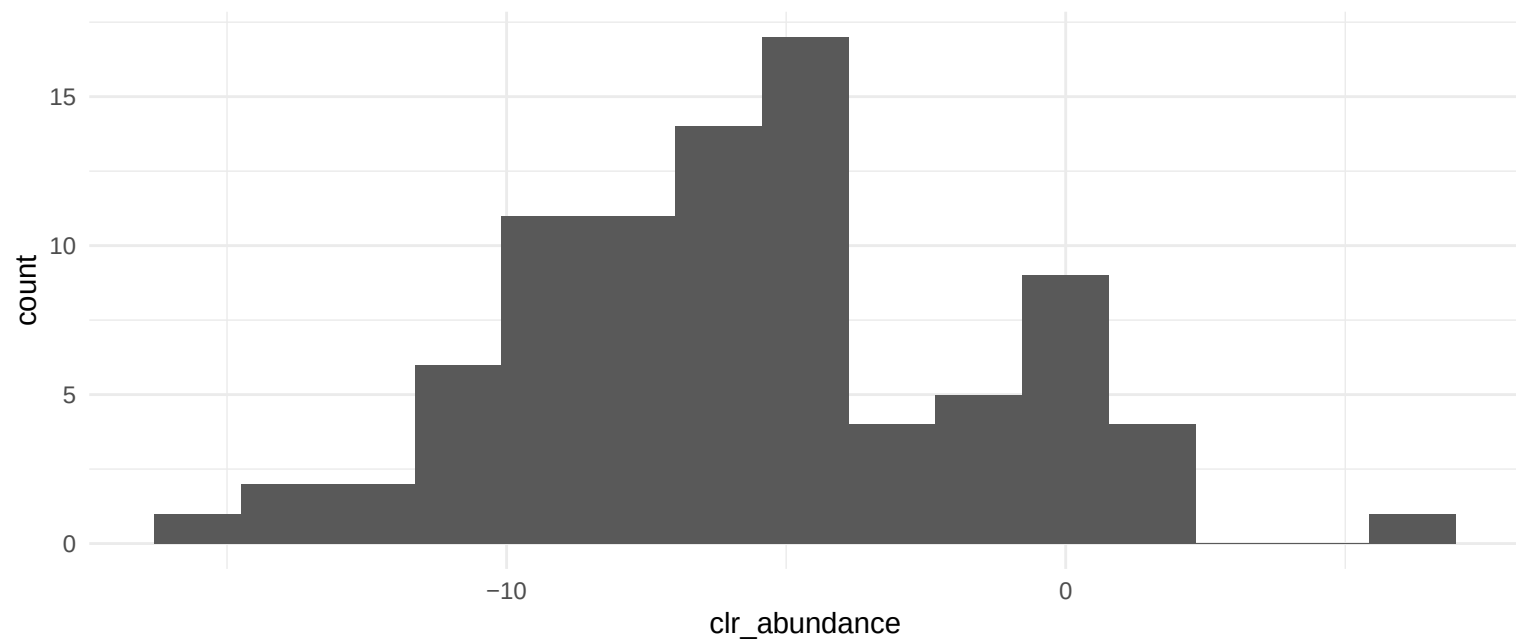

Distribution for 04923 Regulation of lipolysis in adipocytes

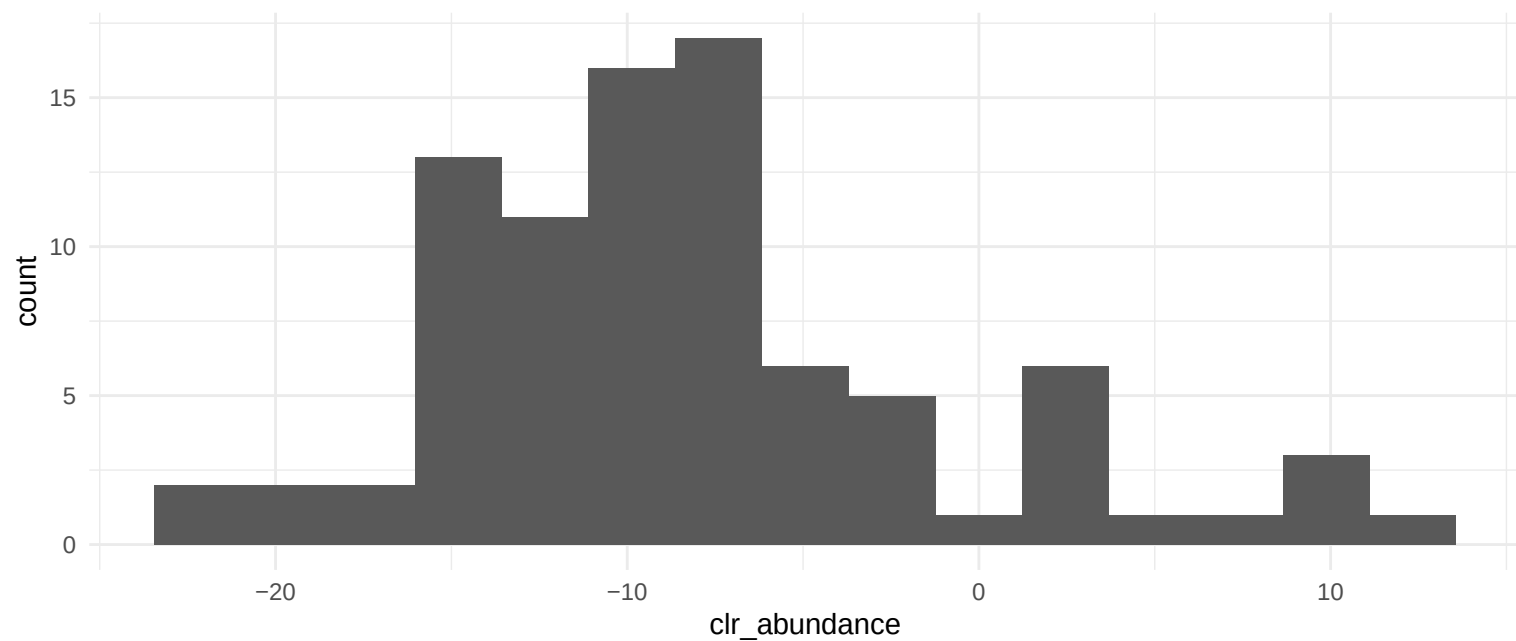

Distribution for 04924 Renin secretion

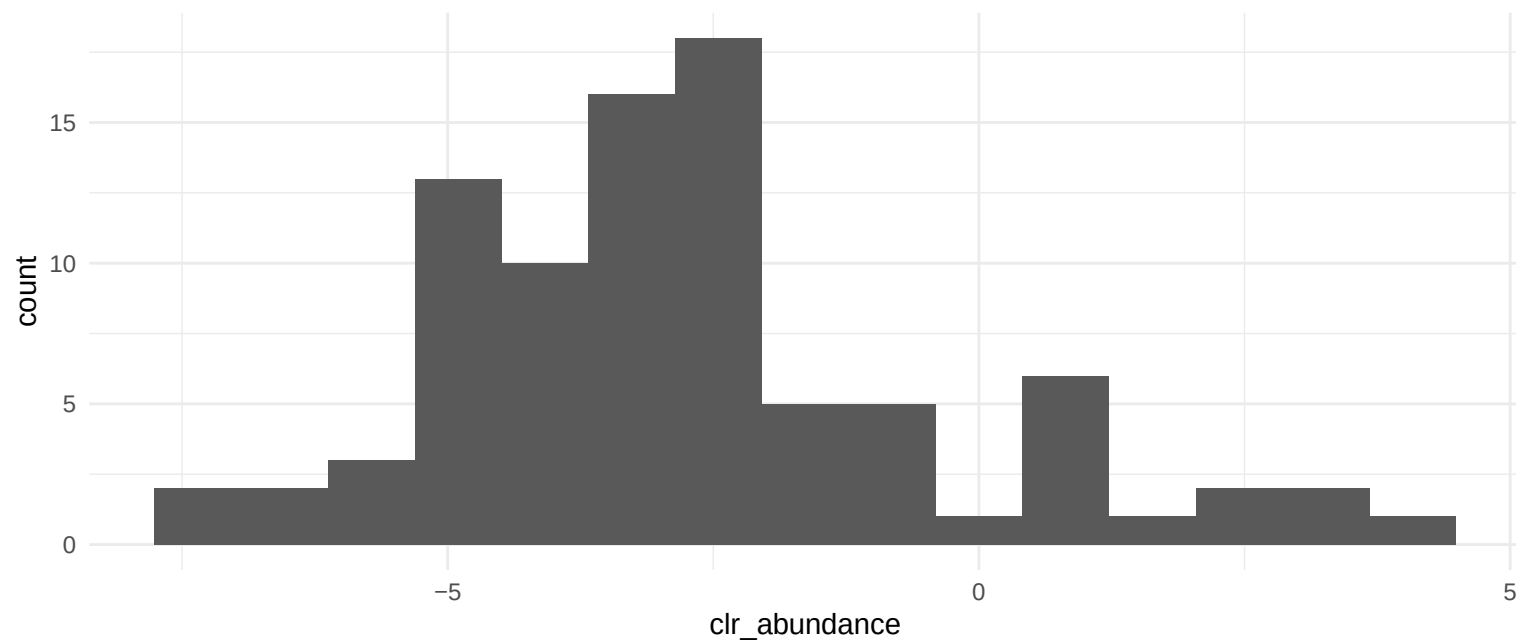

Distribution for 04925 Aldosterone synthesis and secretion

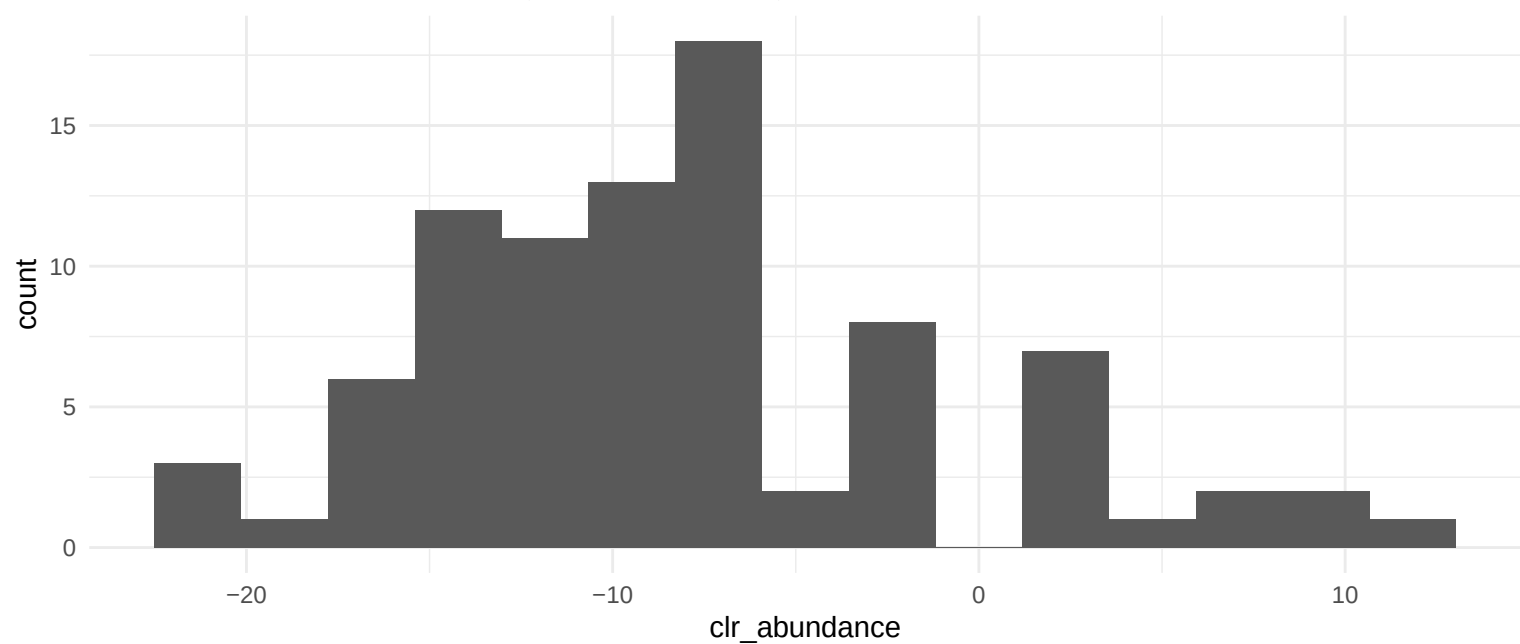

Distribution for 04926 Relaxin signaling pathway

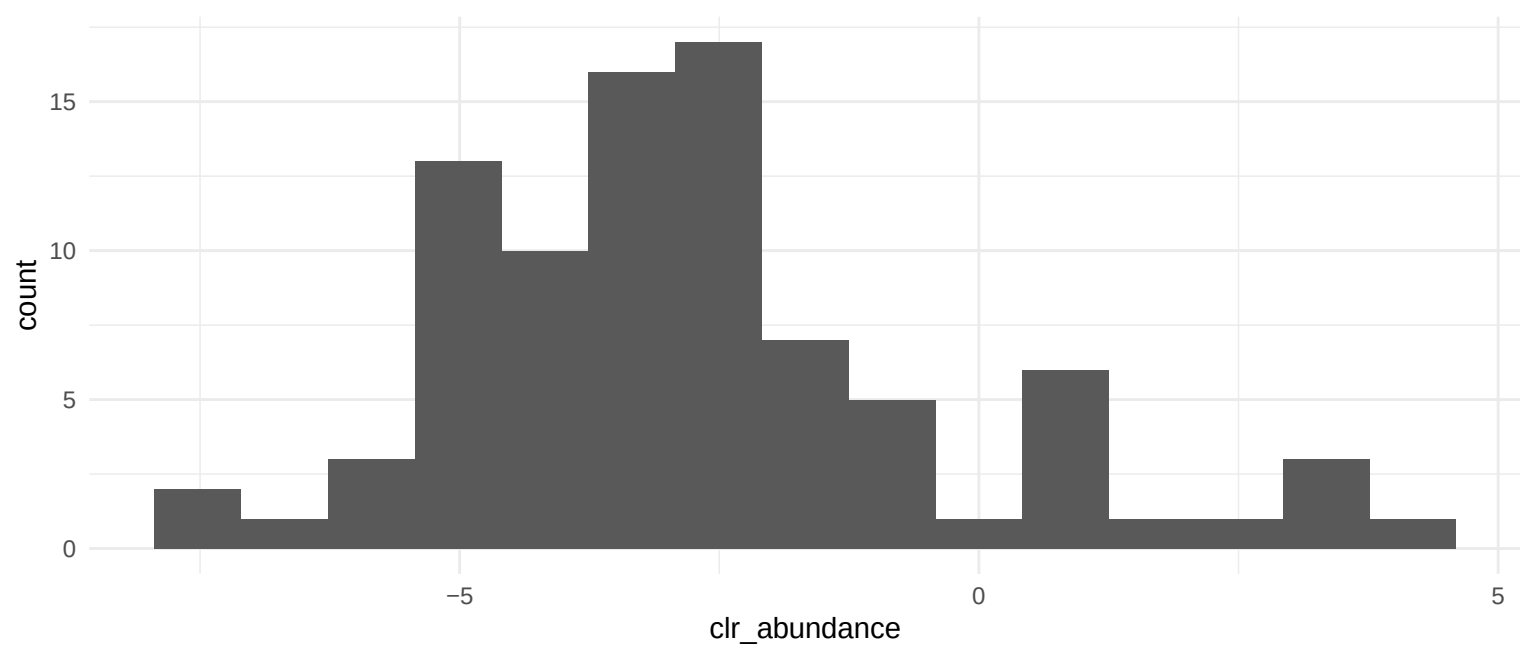

Distribution for 04927 Cortisol synthesis and secretion

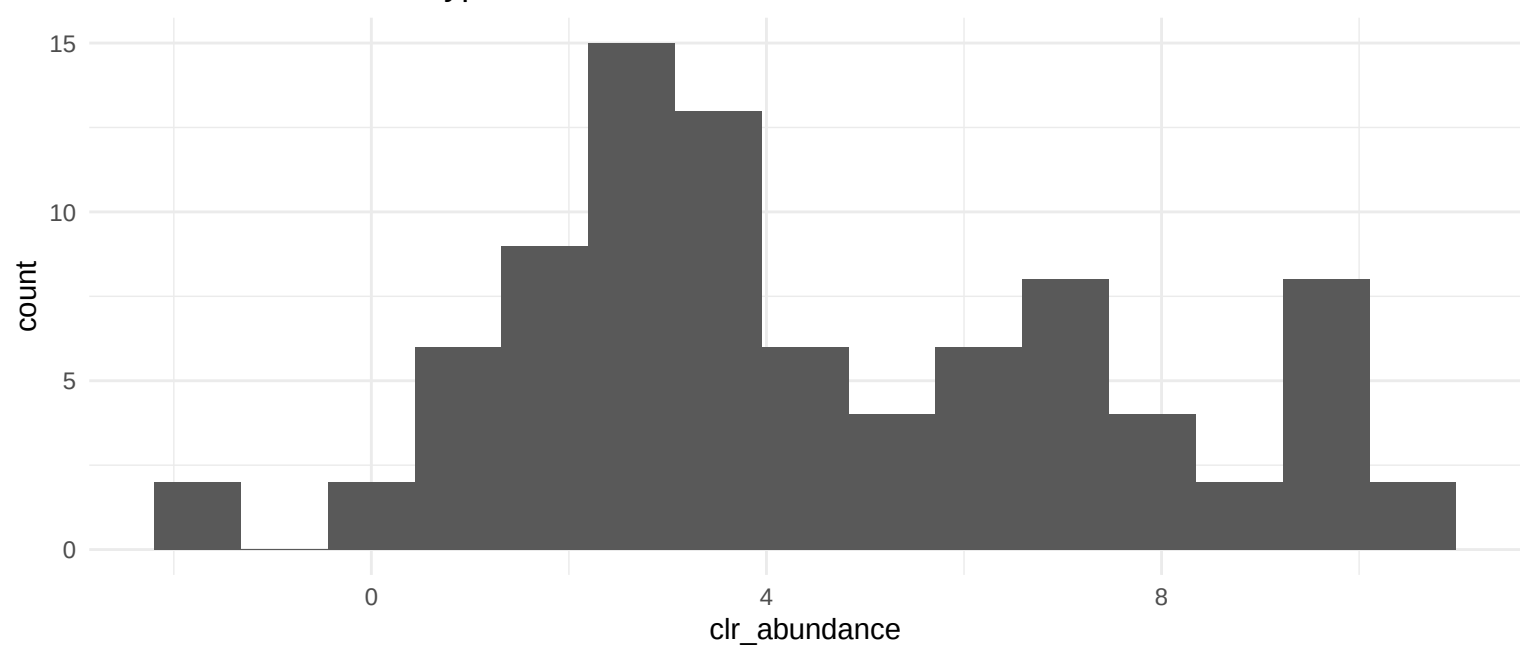

Distribution for 04928 Parathyroid hormone synthesis, secretion and action

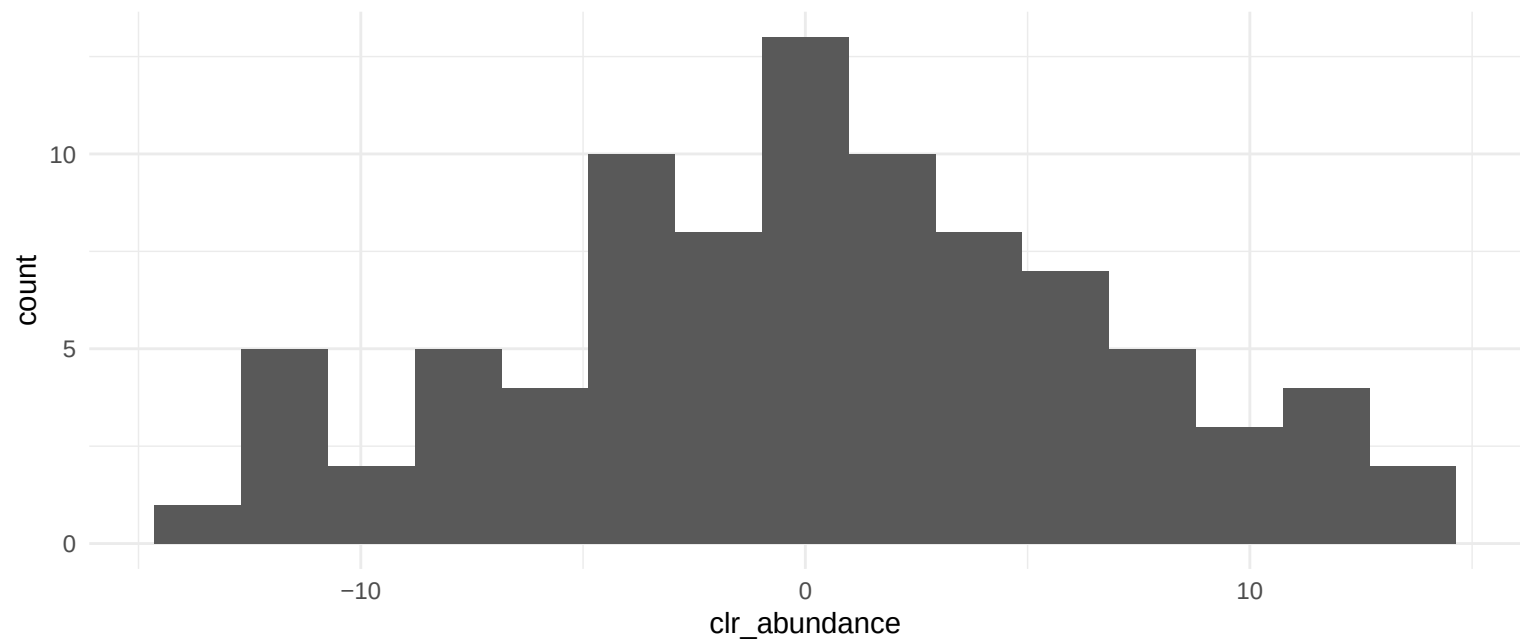

Distribution for 04929 GnRH secretion

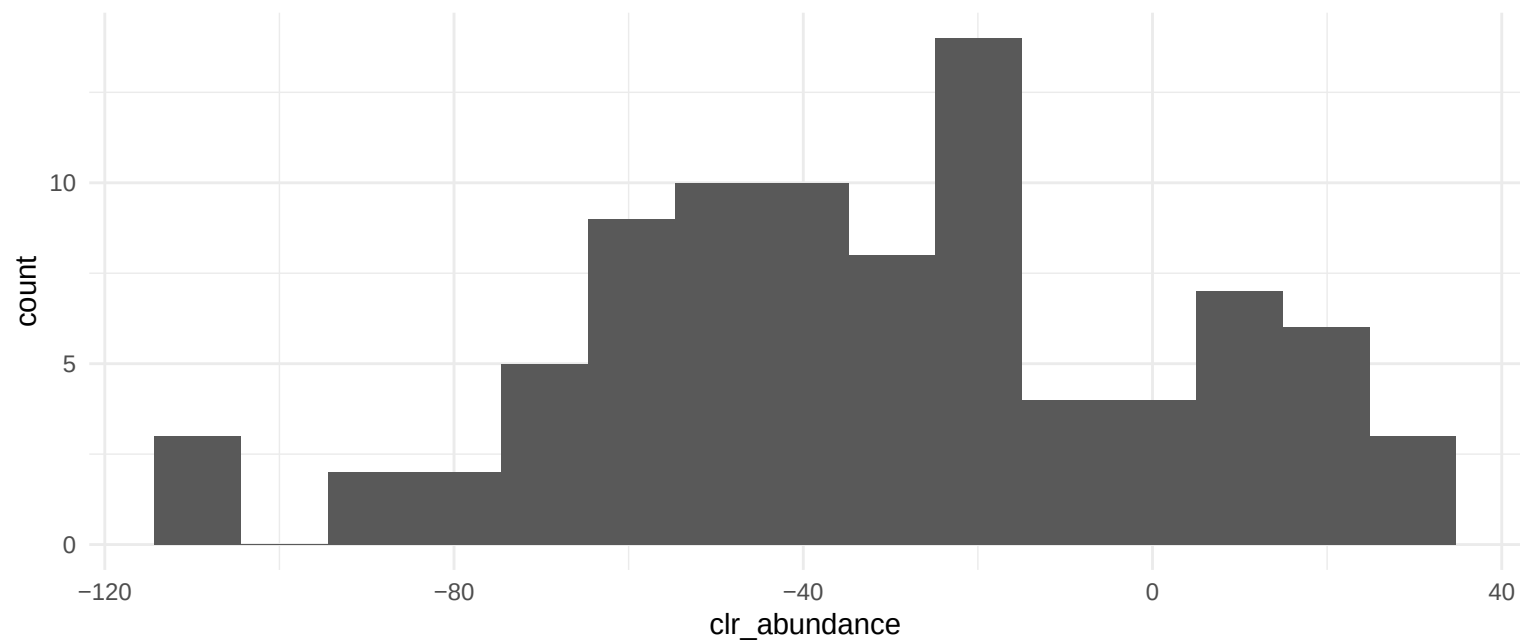

Distribution for 04930 Type II diabetes mellitus

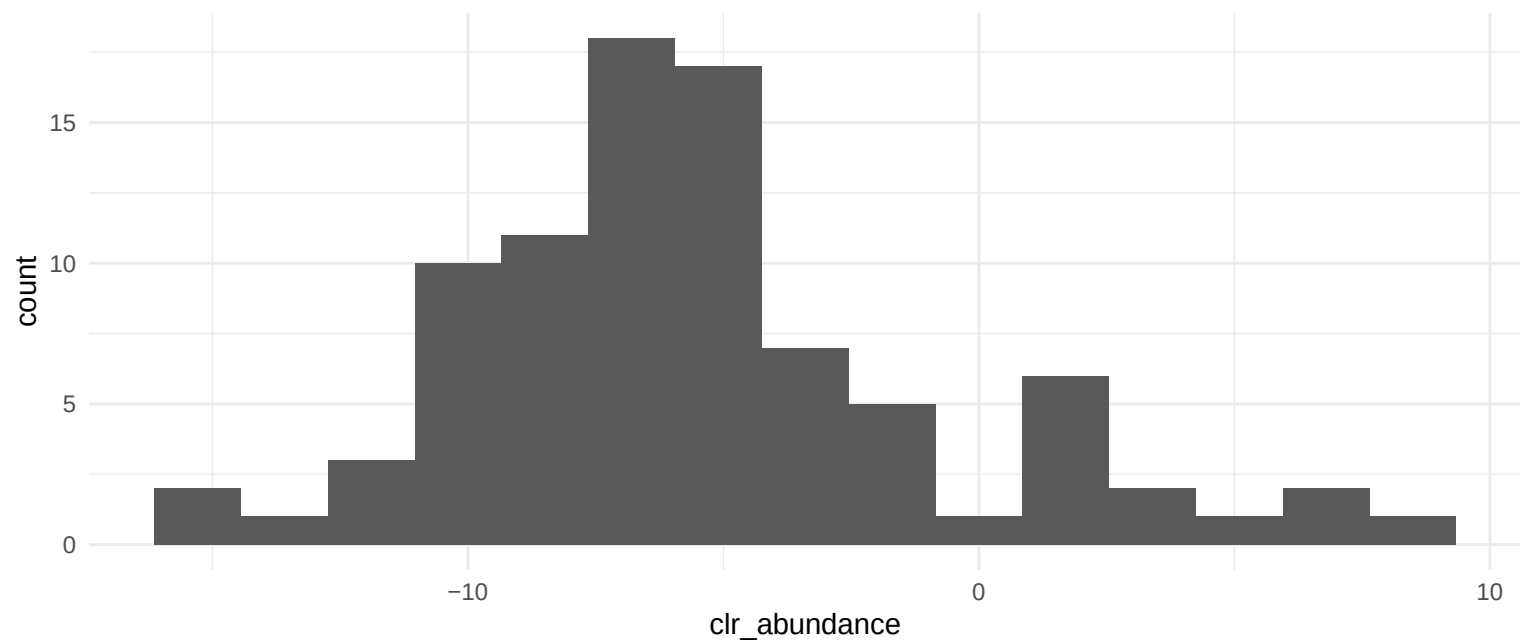

Distribution for 04931 Insulin resistance

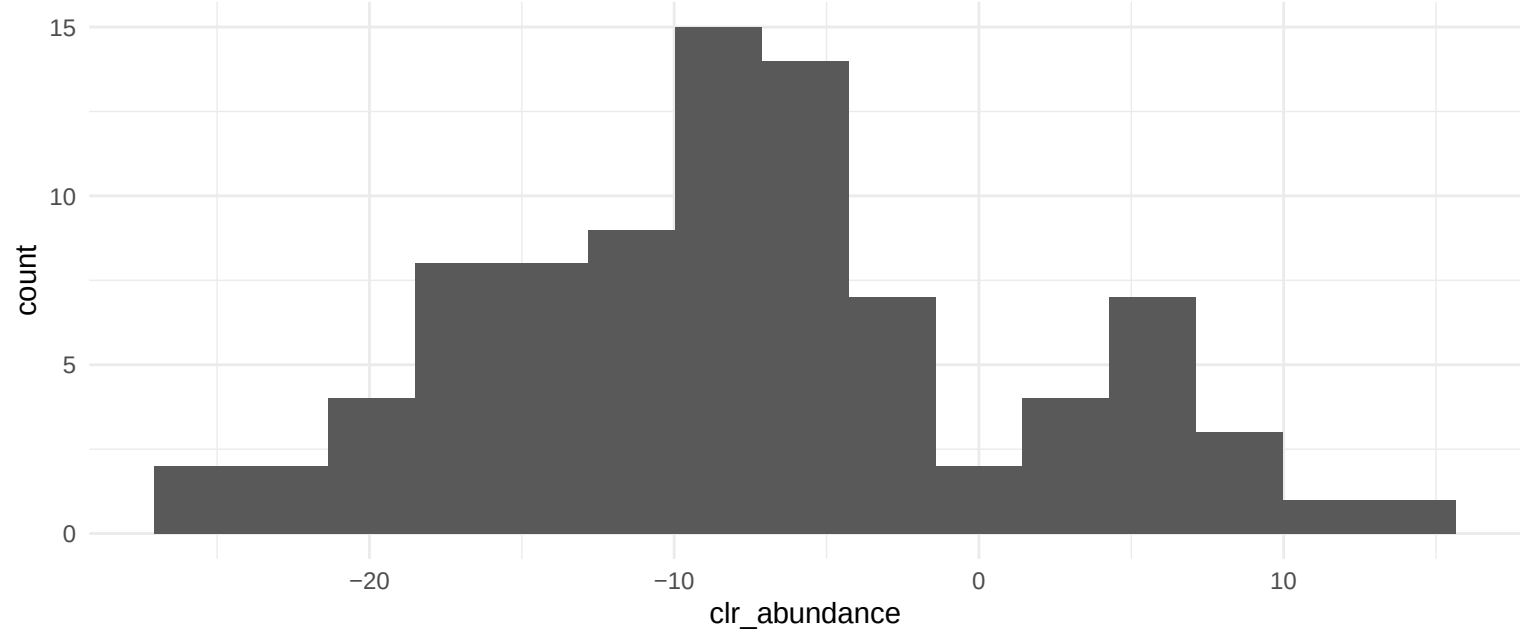

Distribution for 04932 Non-alcoholic fatty liver disease

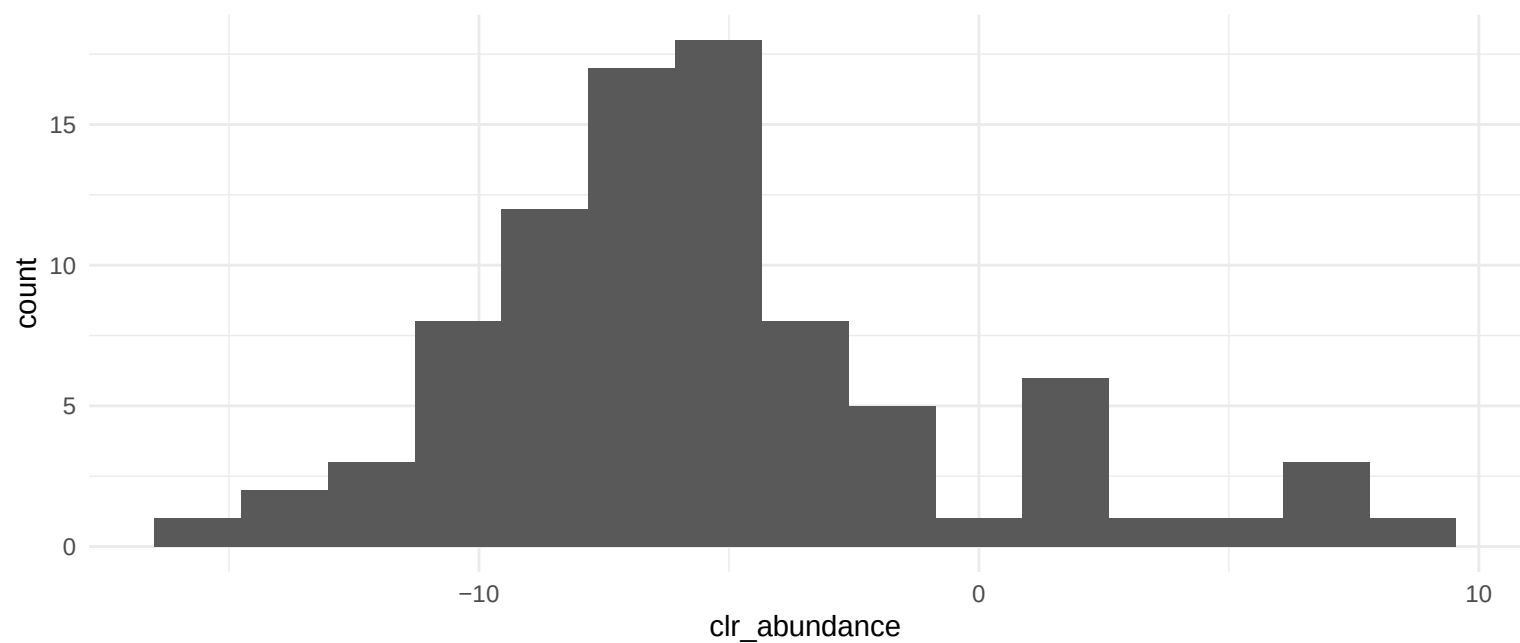

Distribution for 04933 AGE-RAGE signaling pathway in diabetic complications

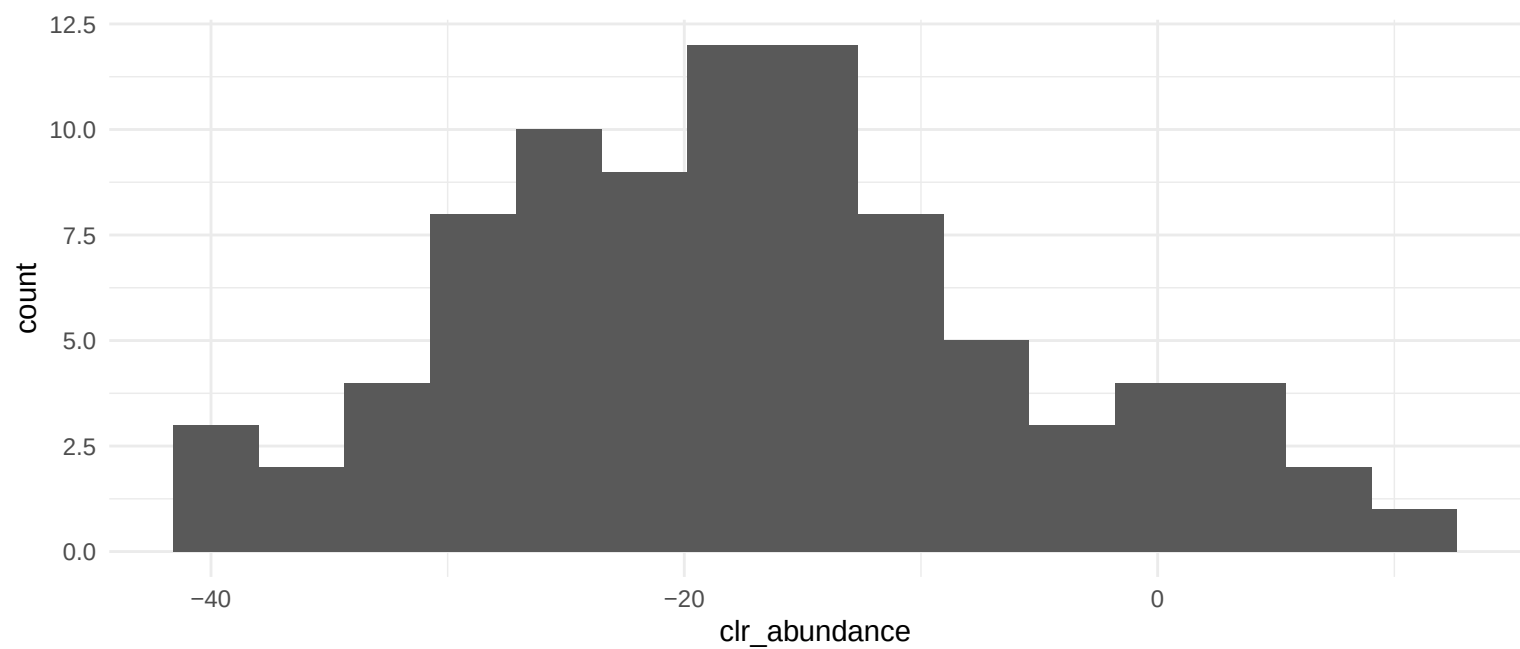

Distribution for 04934 Cushing syndrome

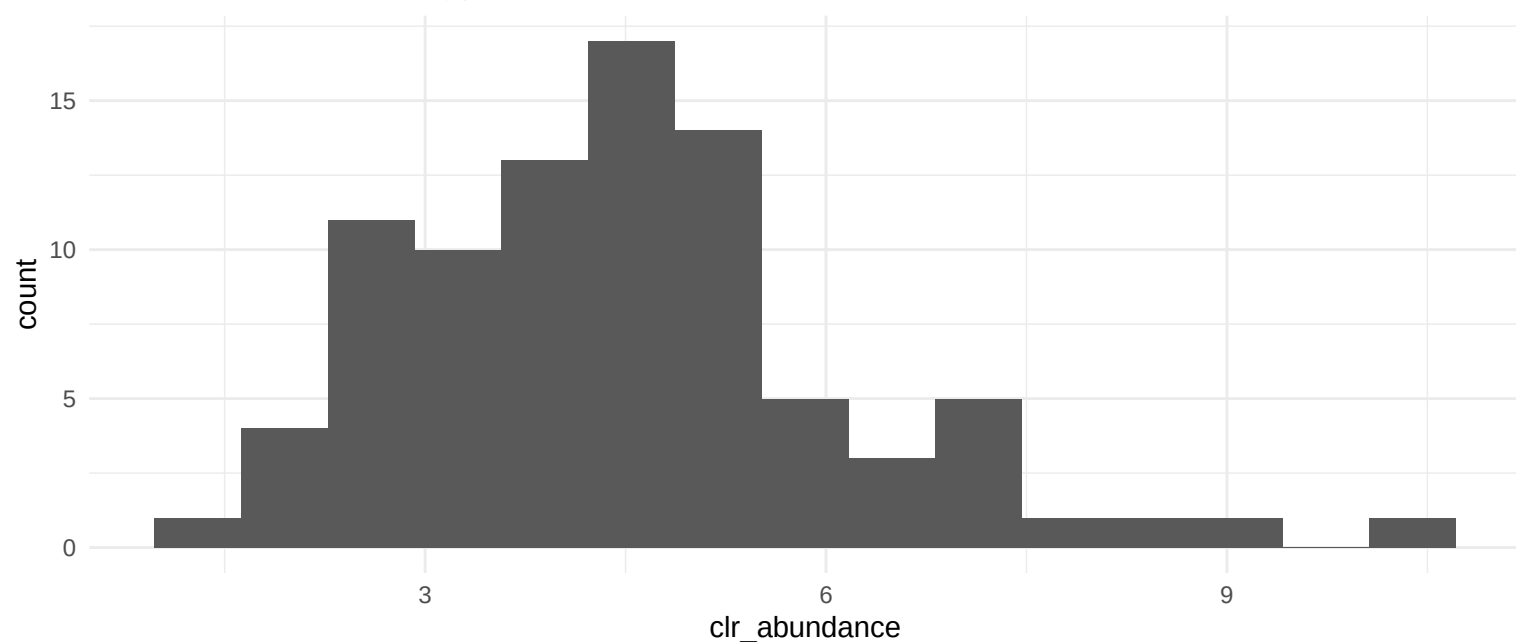

Distribution for 04935 Growth hormone synthesis, secretion and action

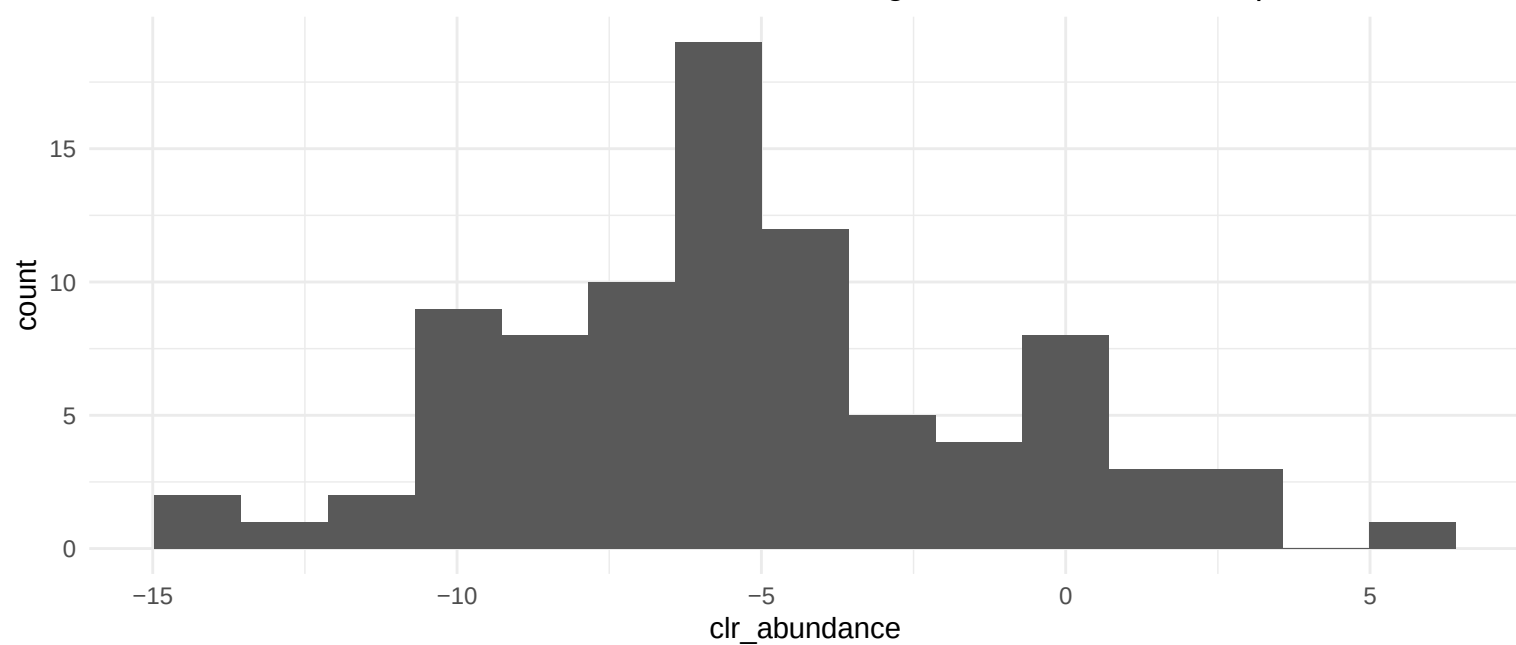

Distribution for 04936 Alcoholic liver disease

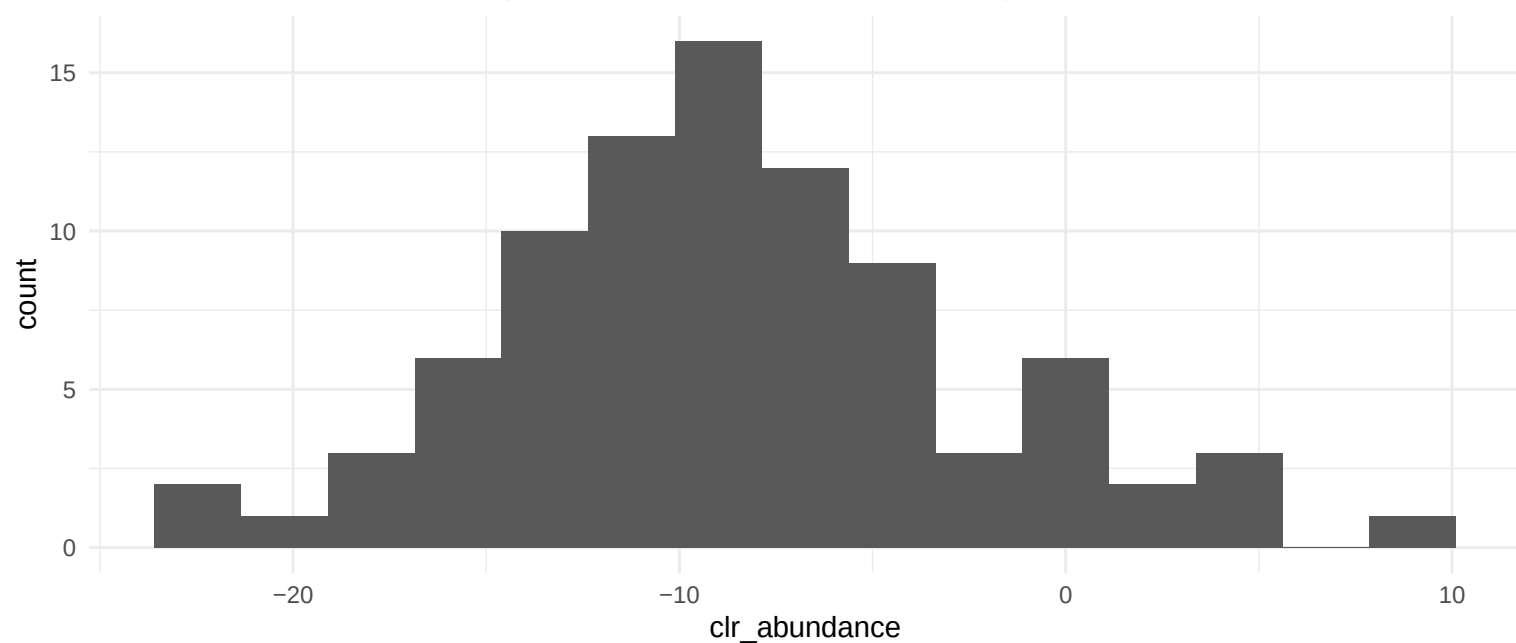

Distribution for 04940 Type I diabetes mellitus

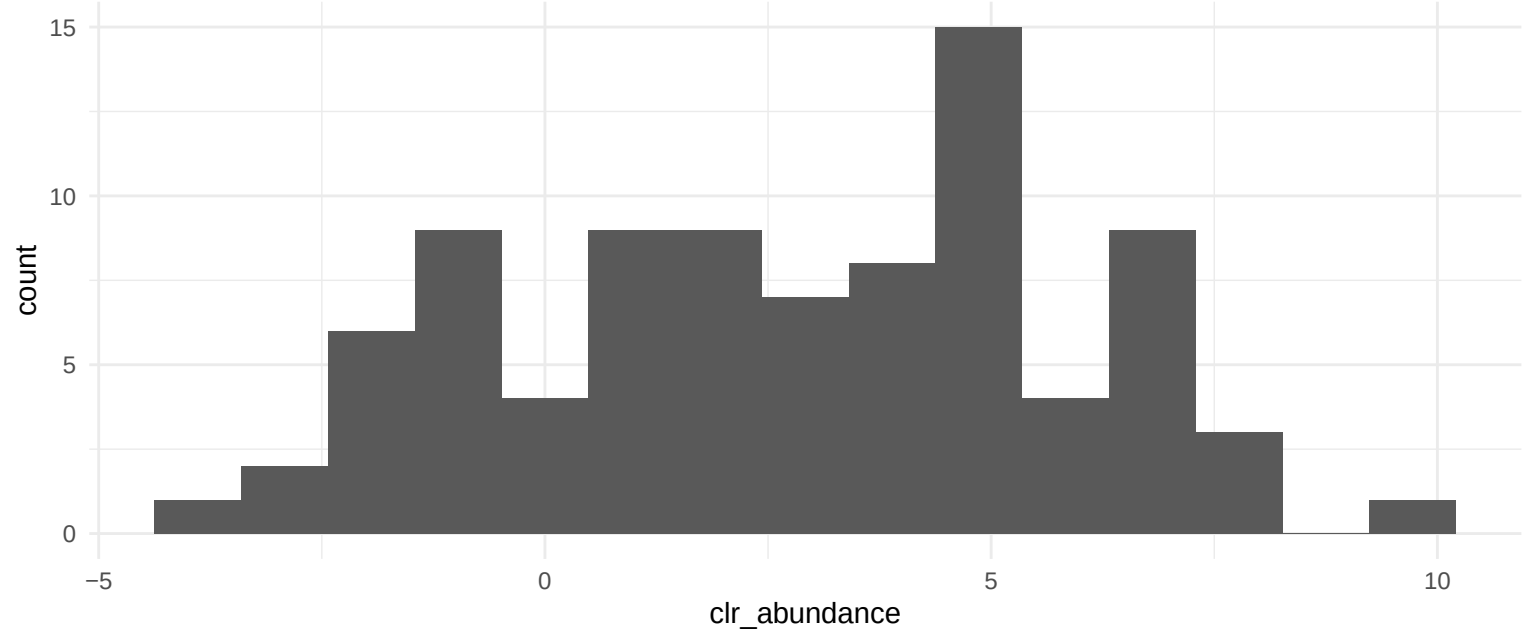

Distribution for 04961 Endocrine and other factor-regulated calcium reabsorption

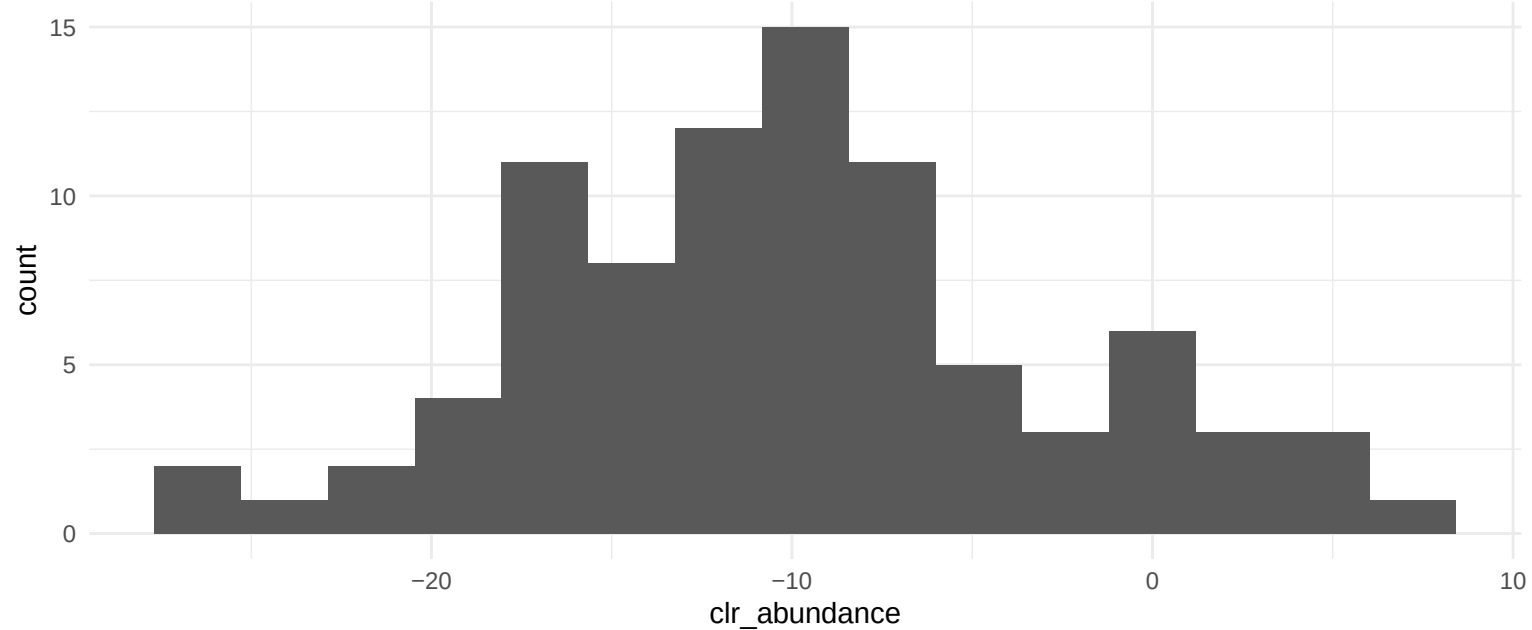

Distribution for 04962 Vasopressin-regulated water reabsorption

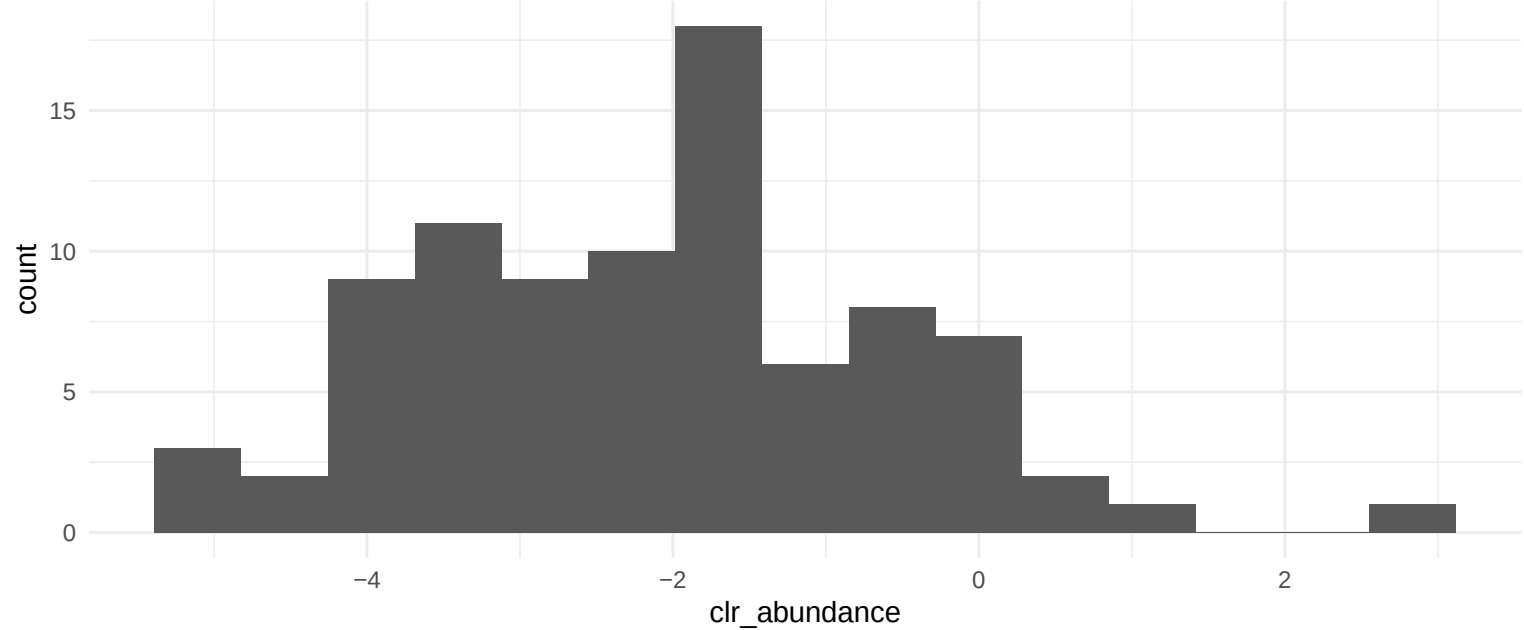

Distribution for 04964 Proximal tubule bicarbonate reclamation

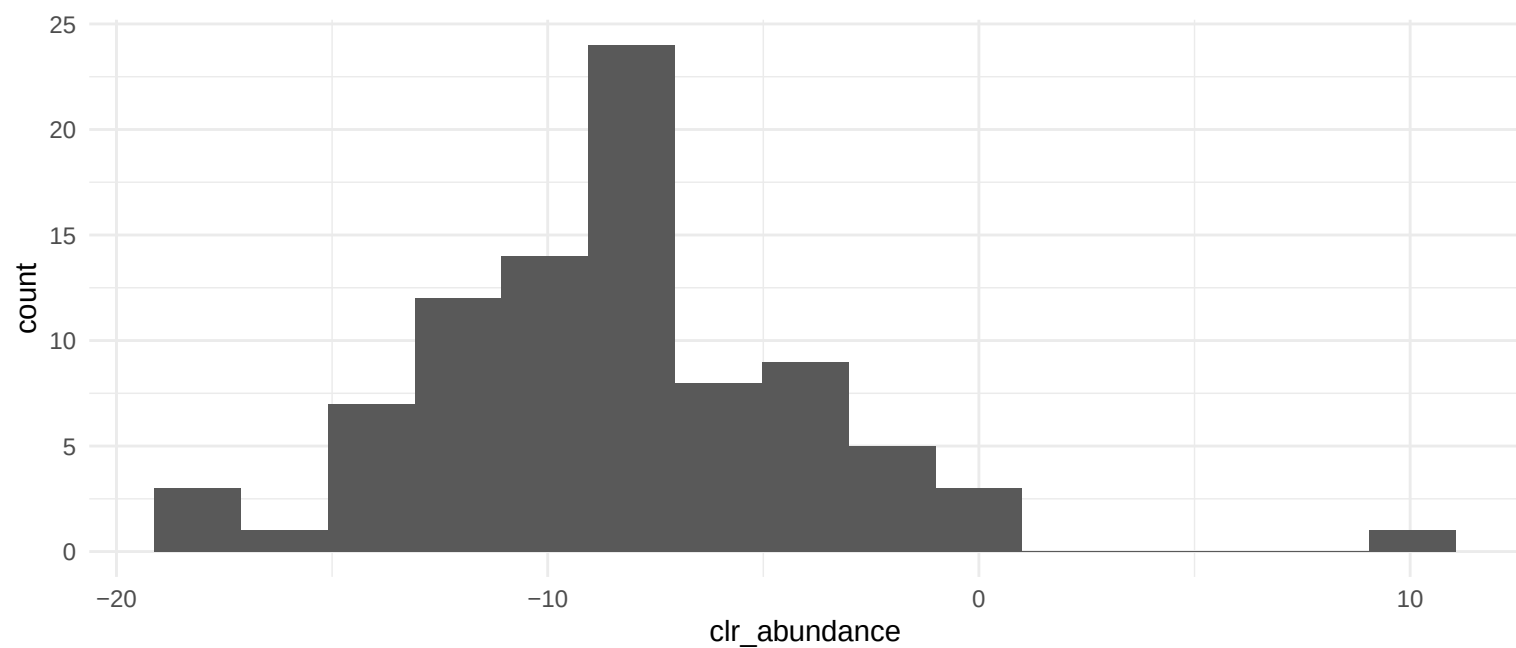

Distribution for 04966 Collecting duct acid secretion

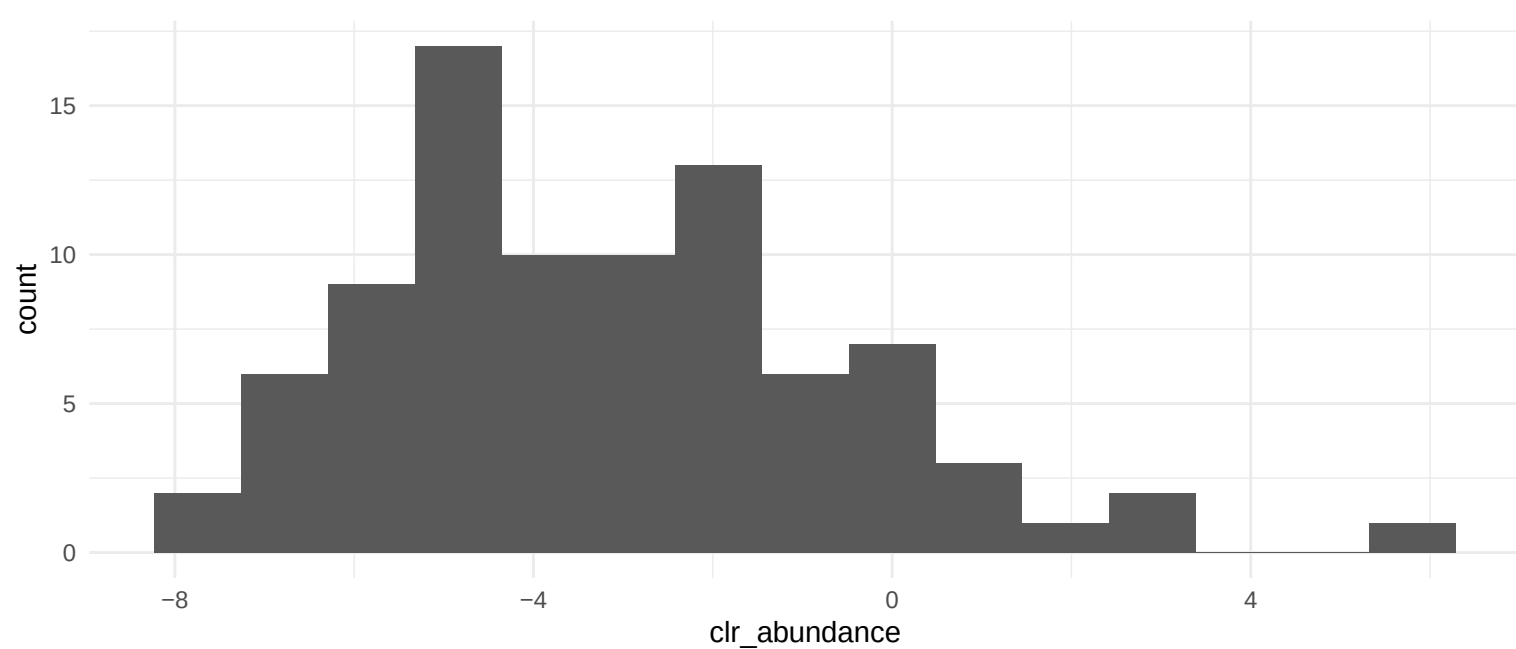

Distribution for 04970 Salivary secretion

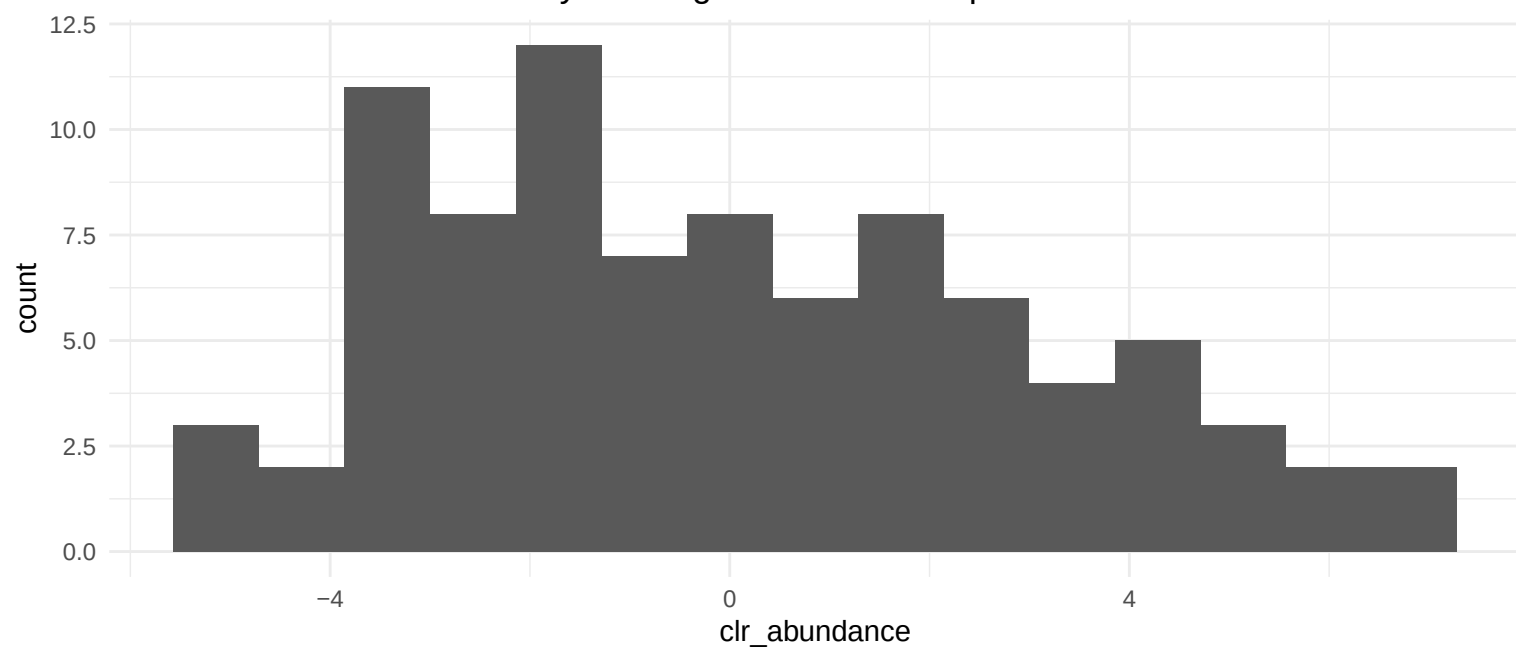

Distribution for 04971 Gastric acid secretion

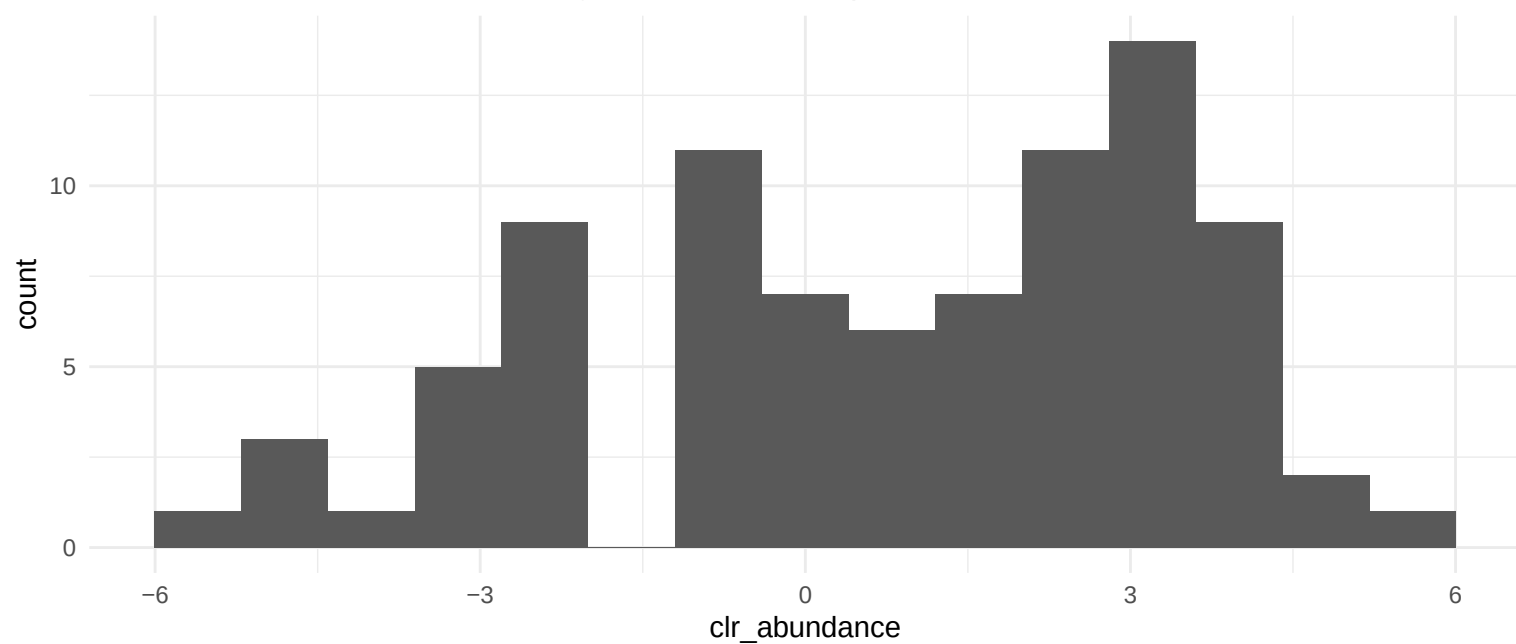

Distribution for 04972 Pancreatic secretion

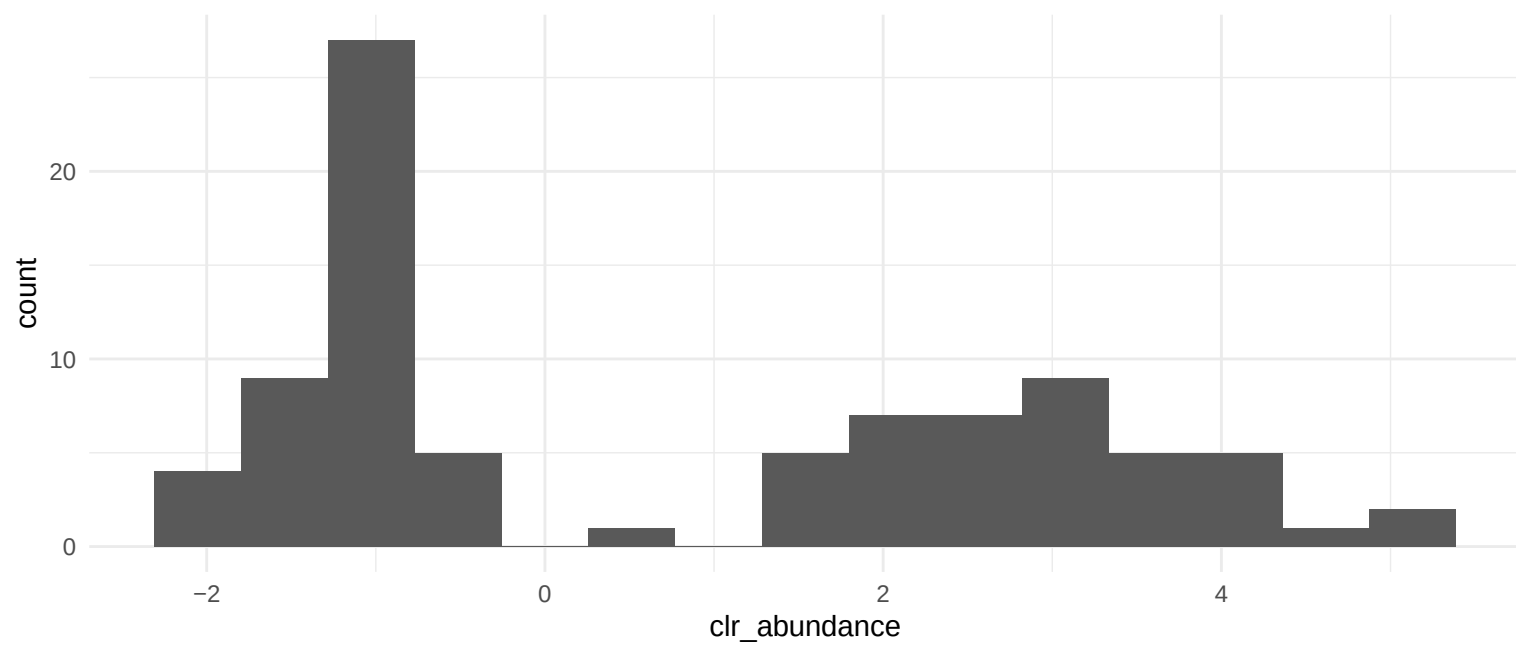

Distribution for 04973 Carbohydrate digestion and absorption

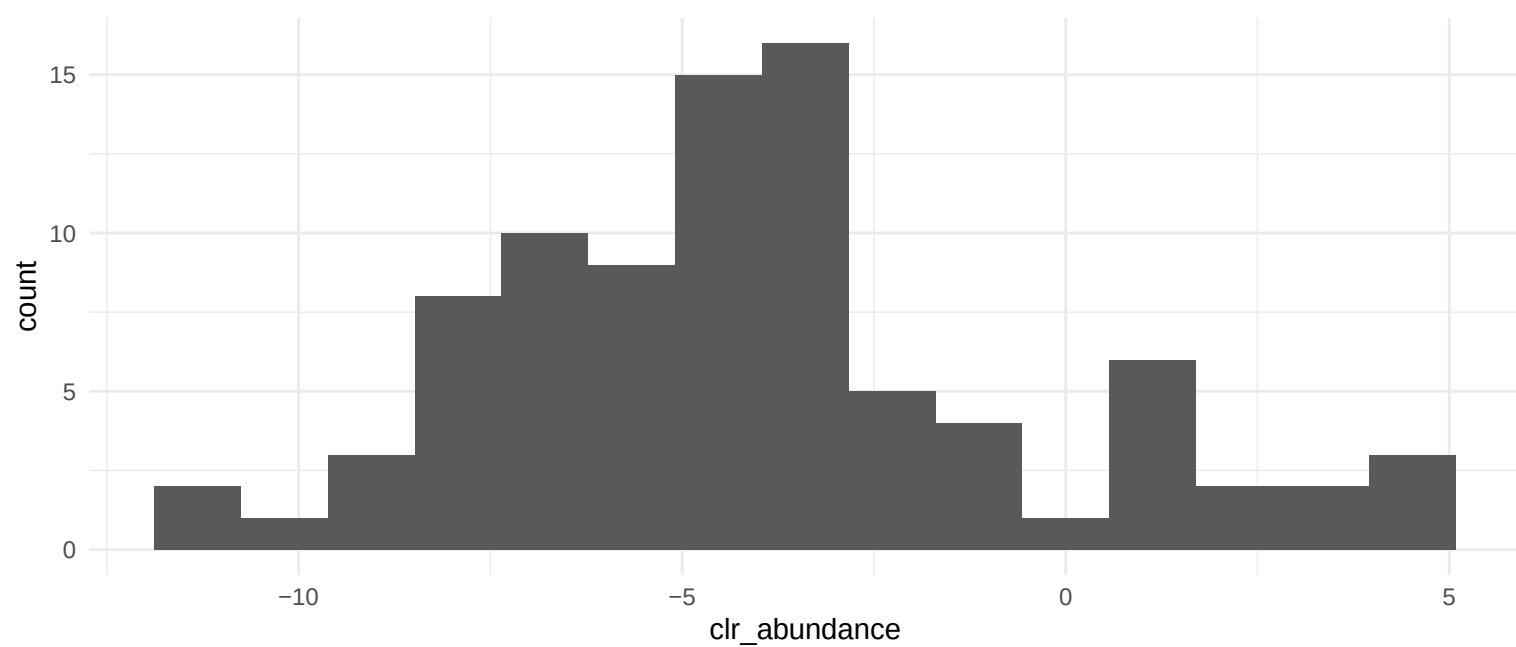

Distribution for 04974 Protein digestion and absorption

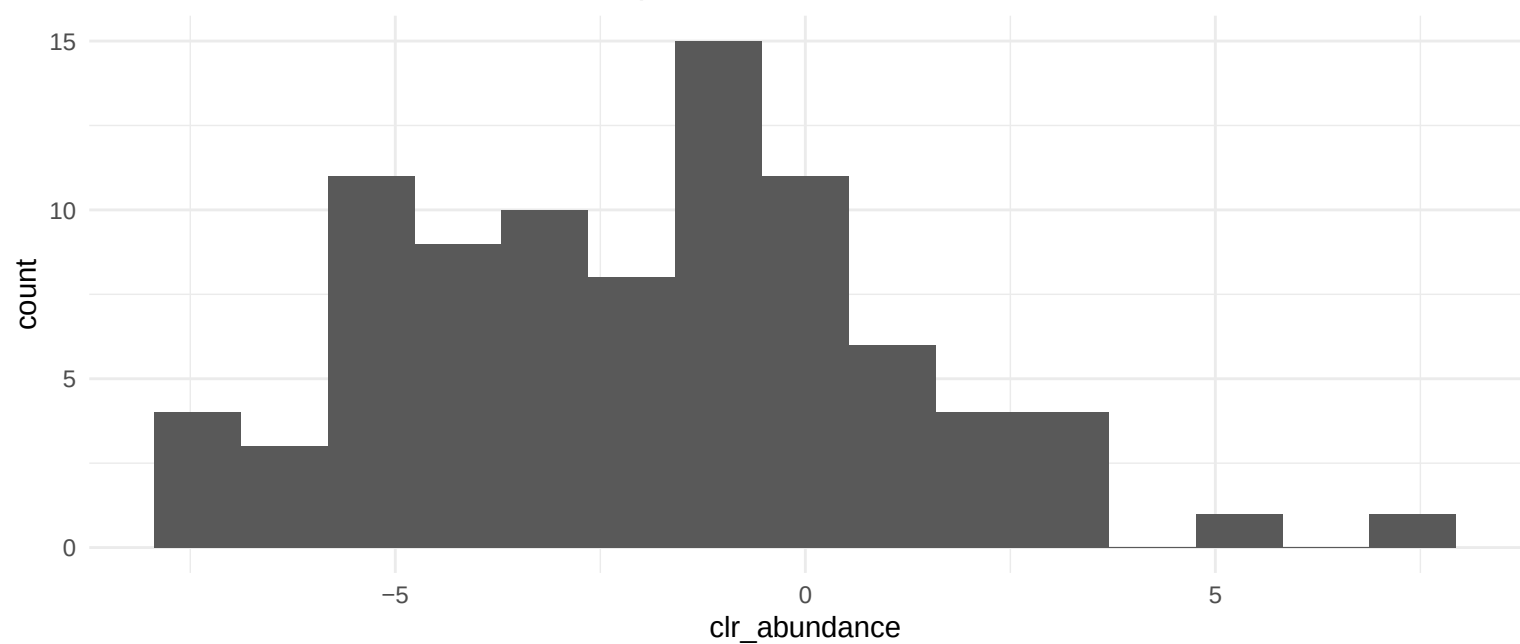

Distribution for 04975 Fat digestion and absorption

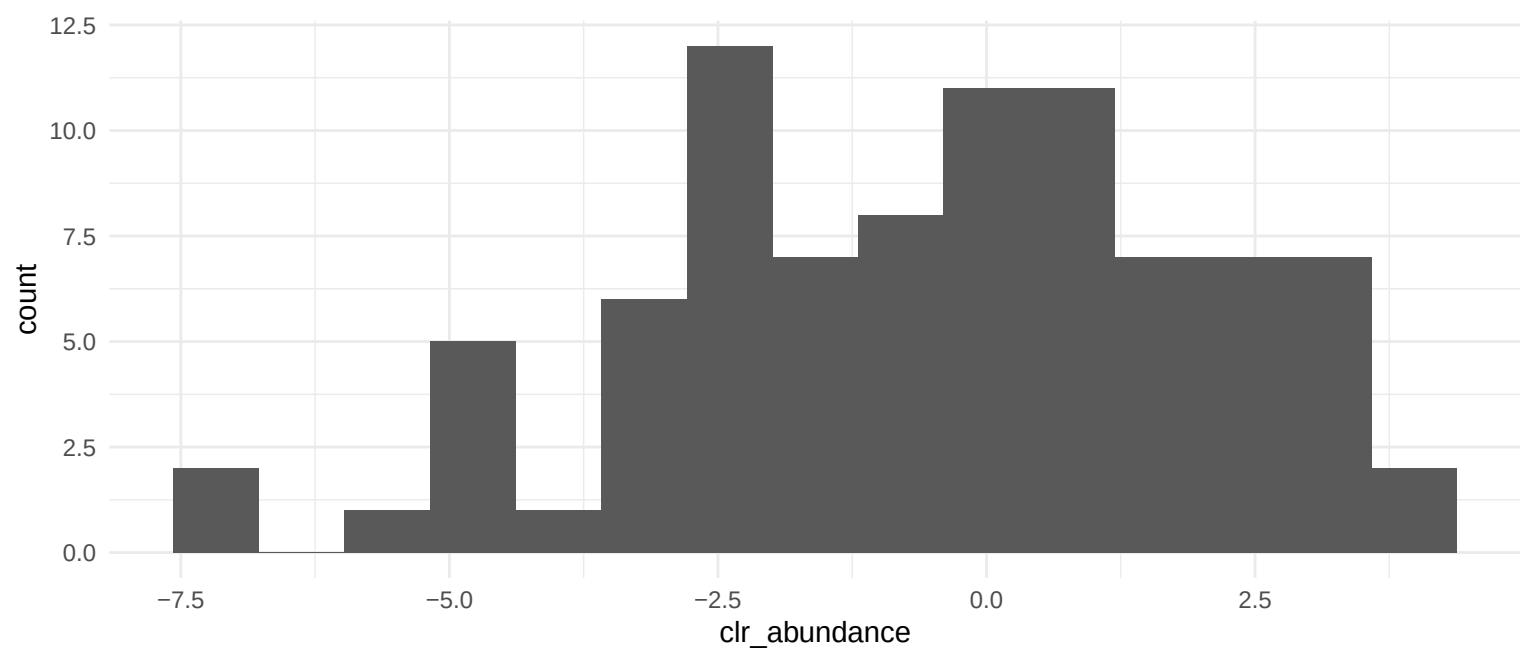

Distribution for 04976 Bile secretion

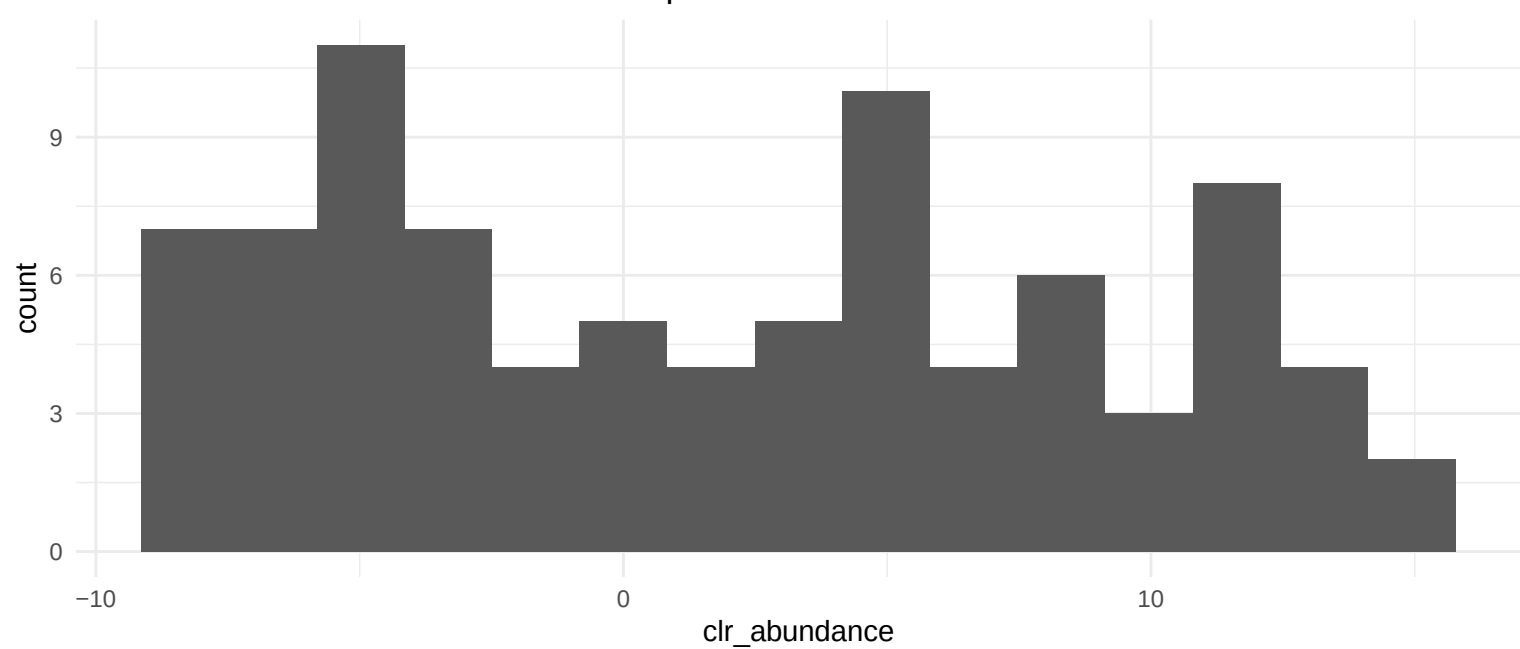

Distribution for 04978 Mineral absorption

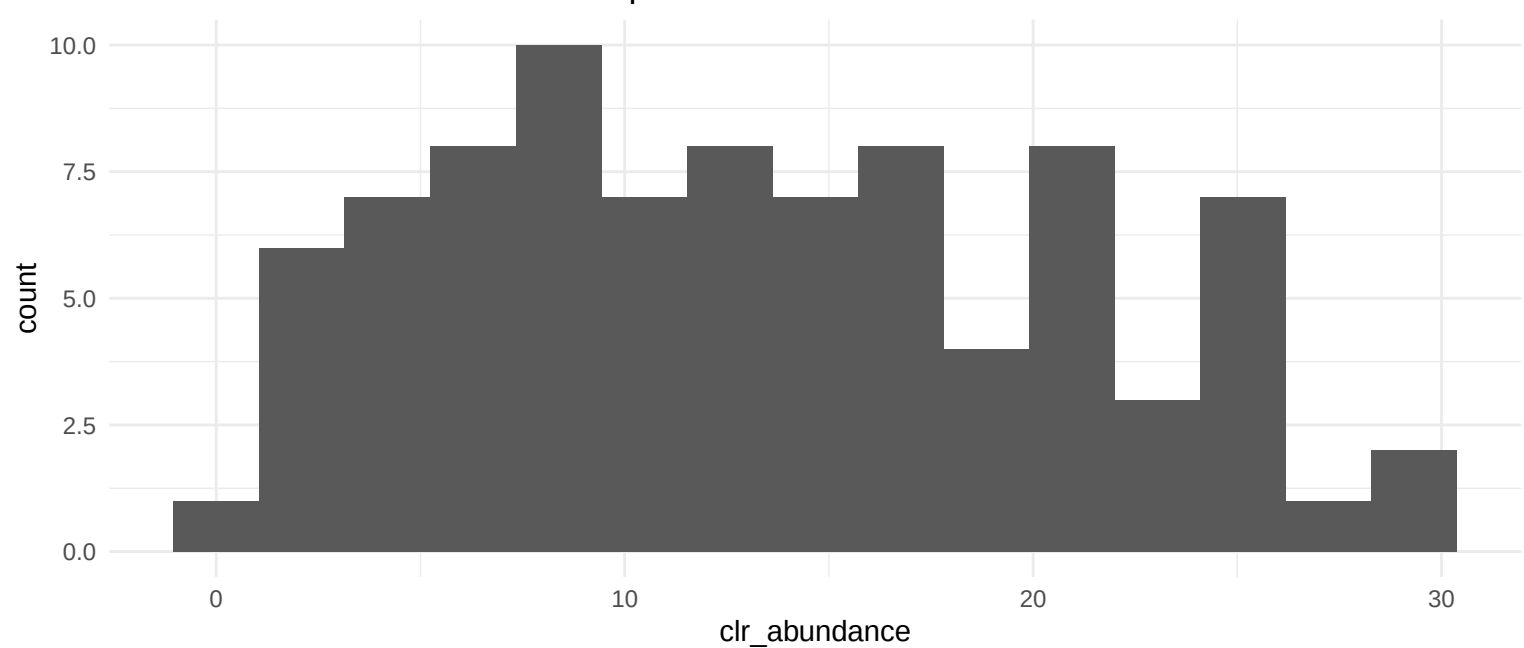

Distribution for 04979 Cholesterol metabolism

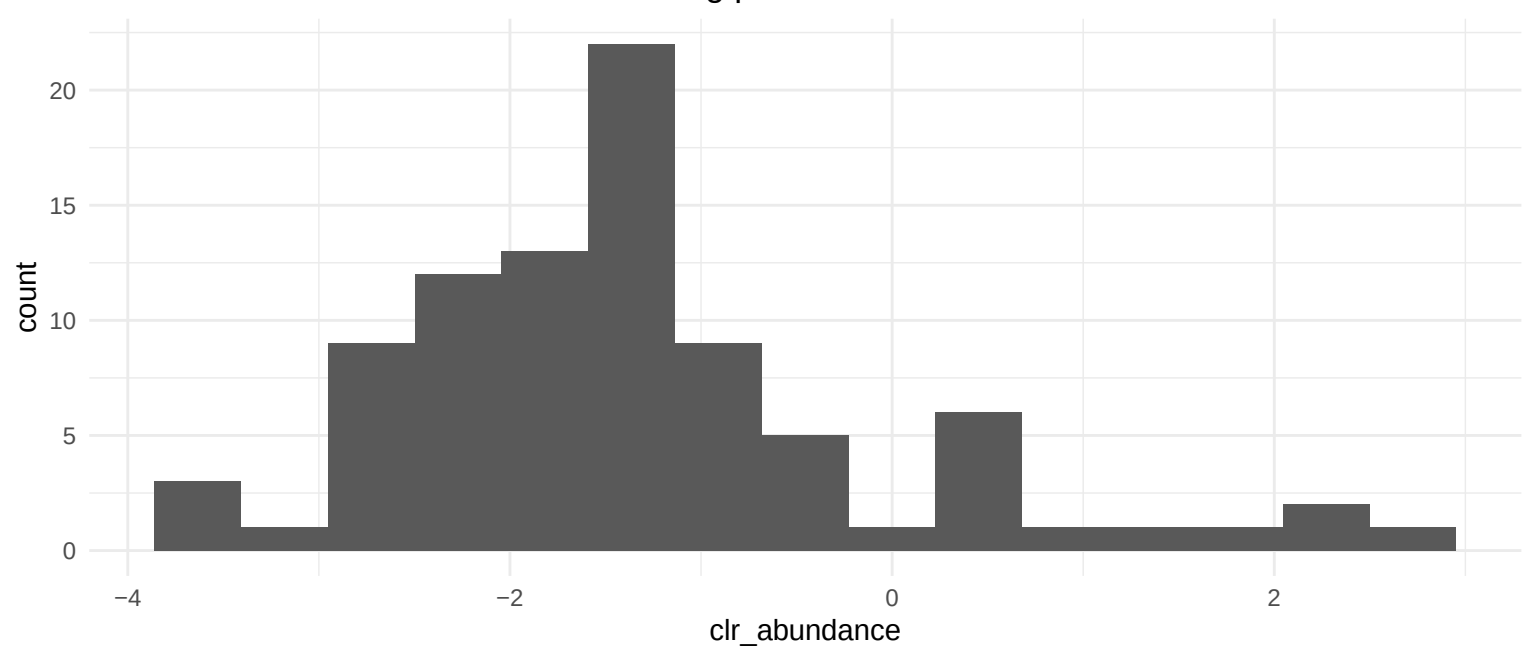

Distribution for 04980 Cobalamin transport and metabolism

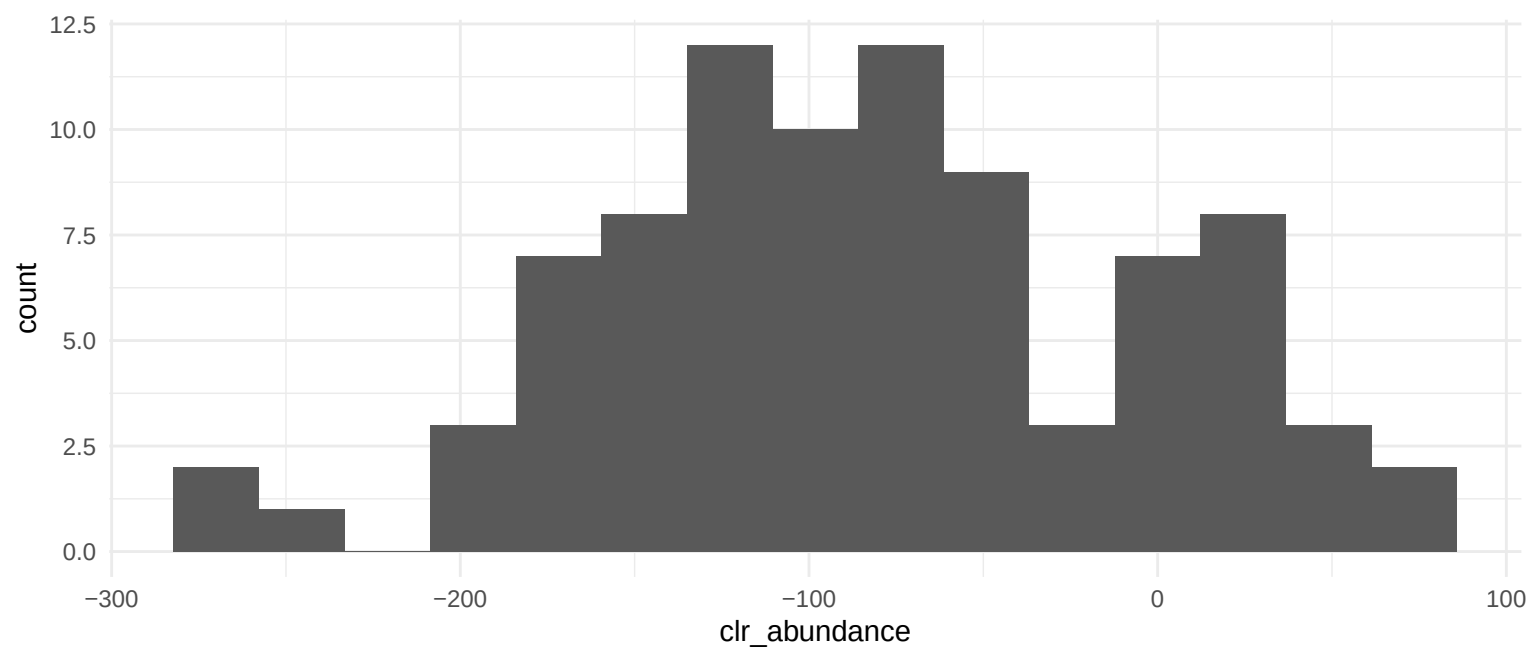

Distribution for 04981 Folate transport and metabolism

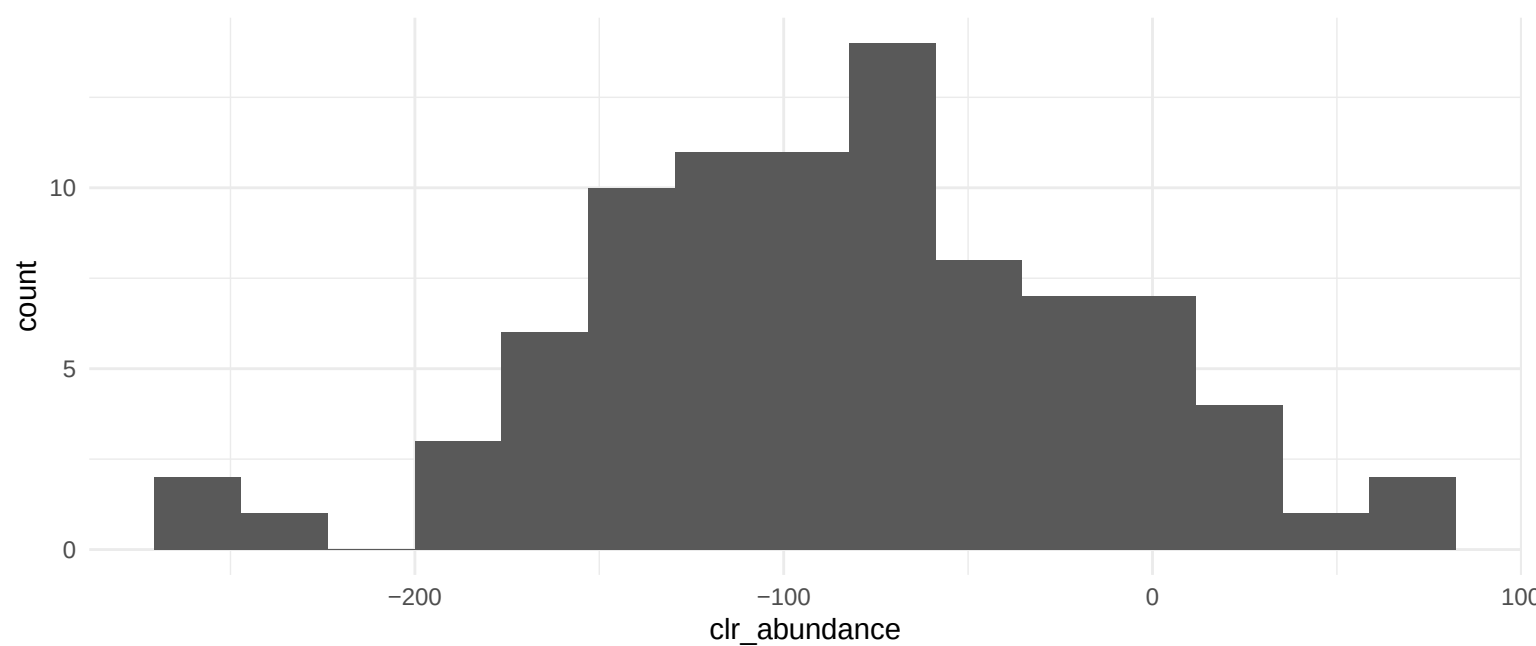

Distribution for 04990 Domain-containing proteins not elsewhere classified

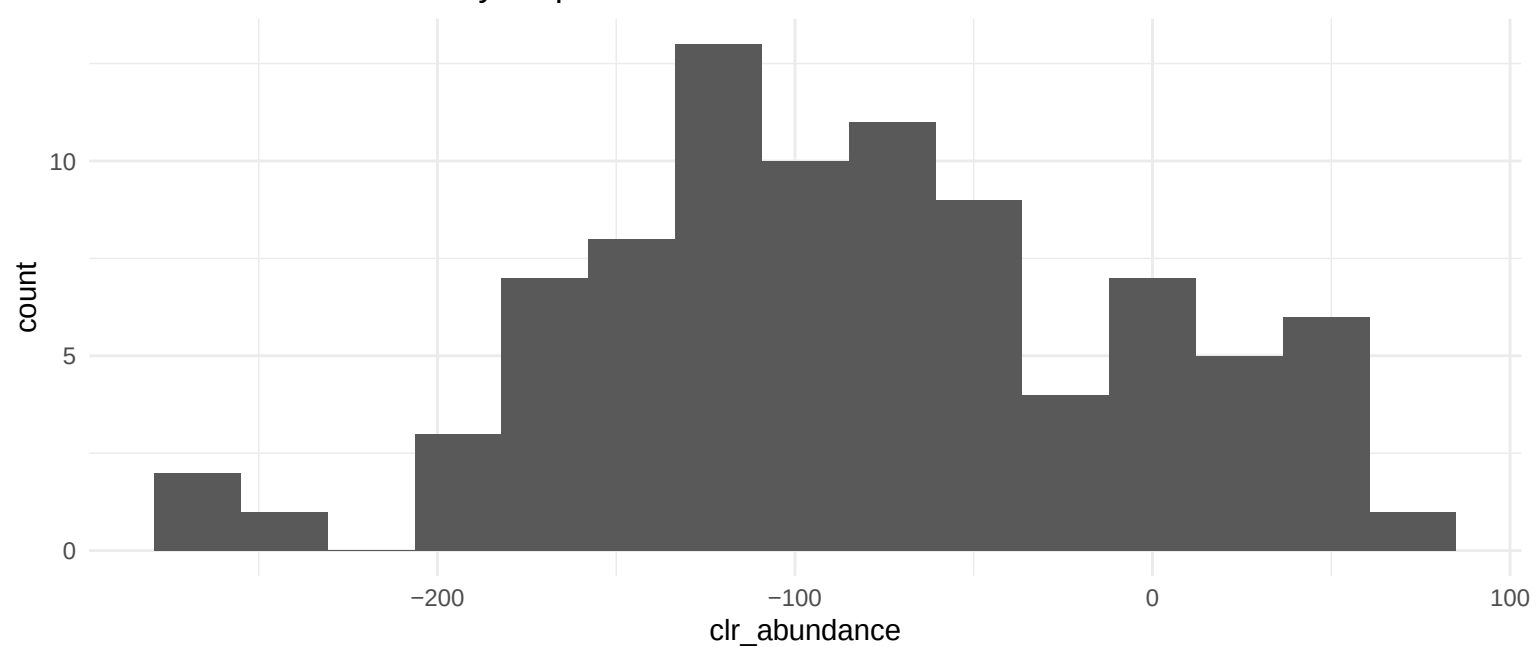

Distribution for 05010 Alzheimer disease

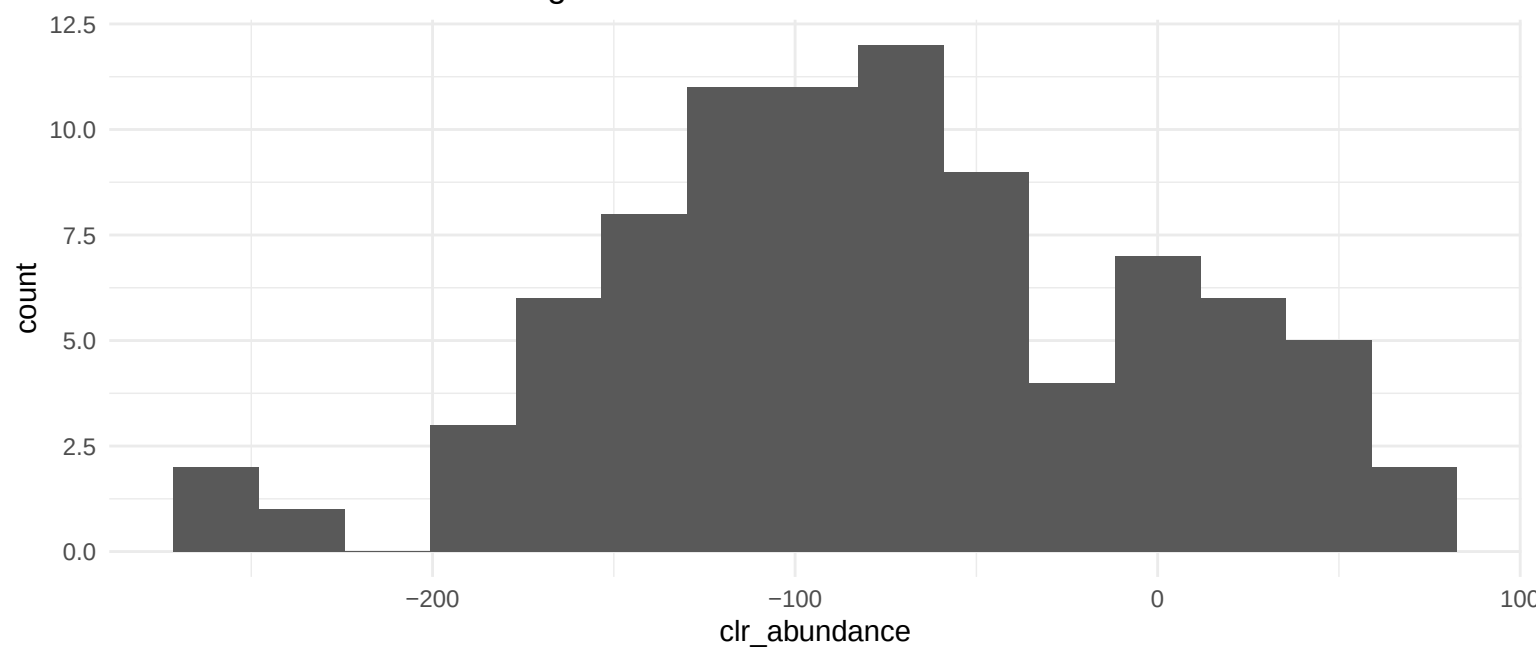

Distribution for 05012 Parkinson disease

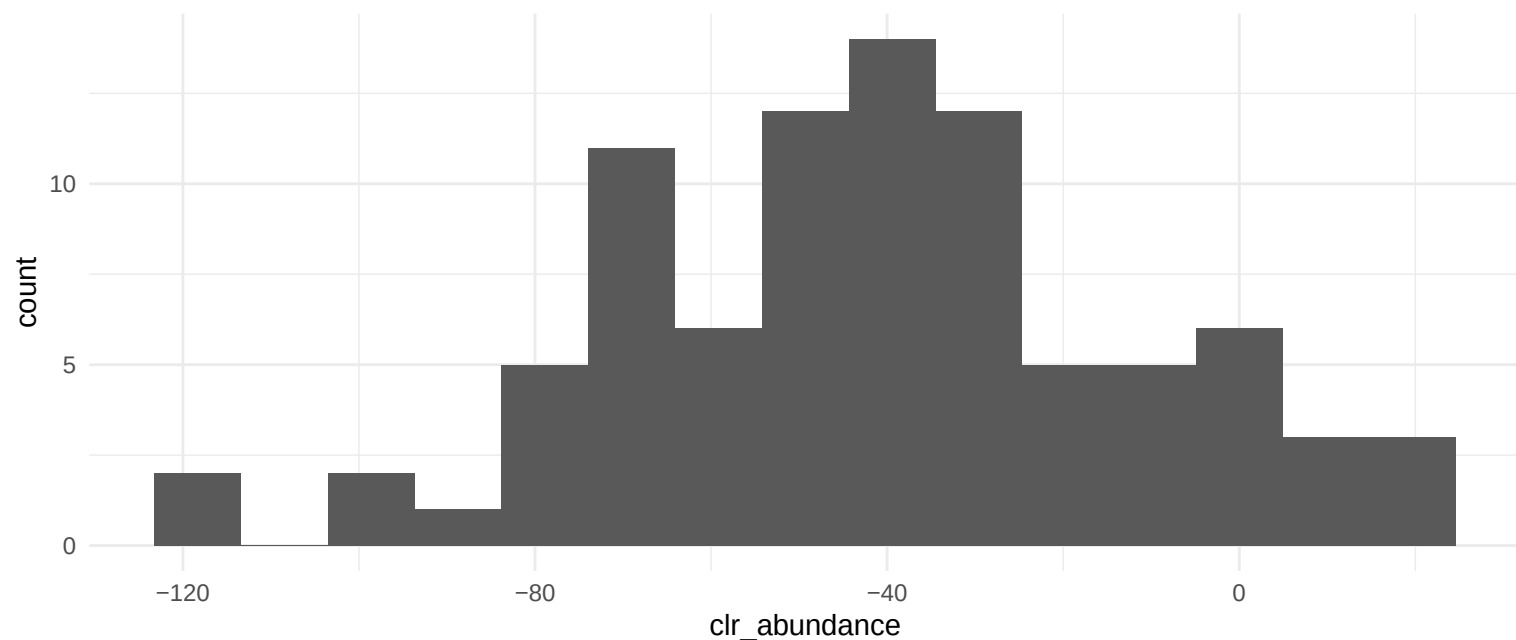

Distribution for 05014 Amyotrophic lateral sclerosis

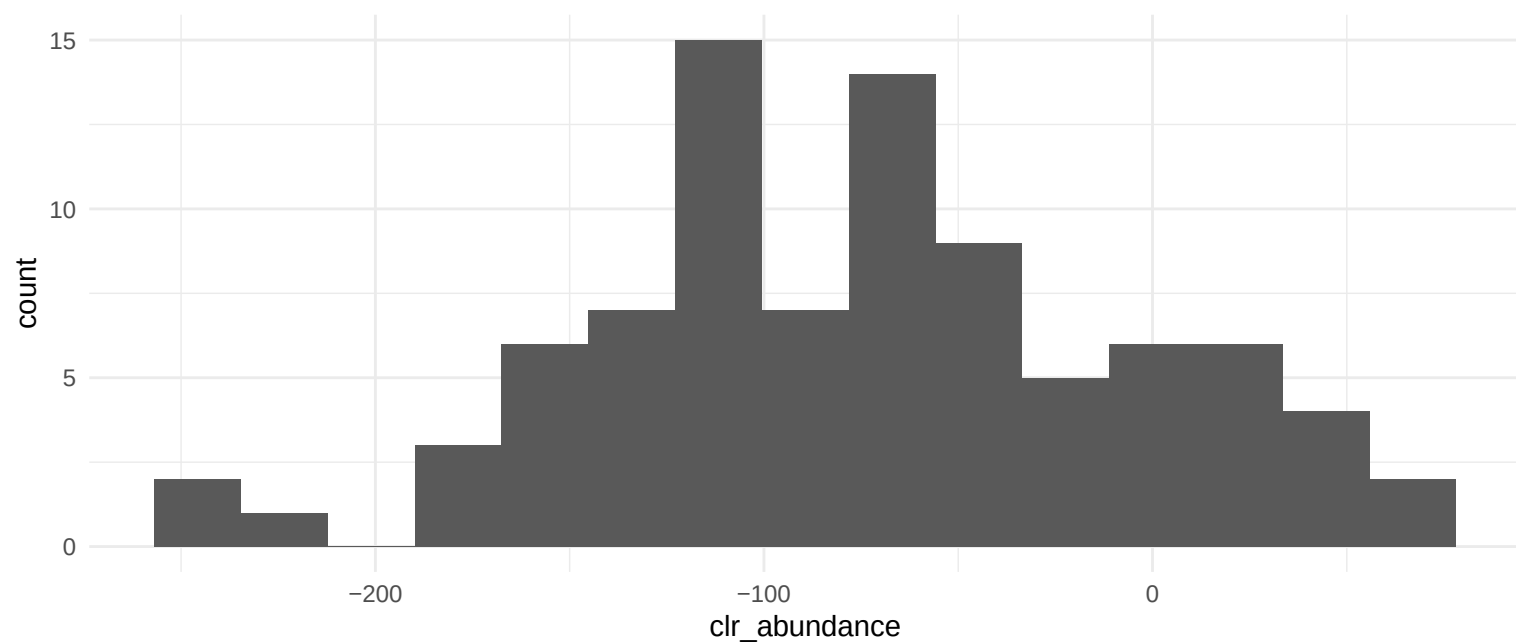

Distribution for 05016 Huntington disease

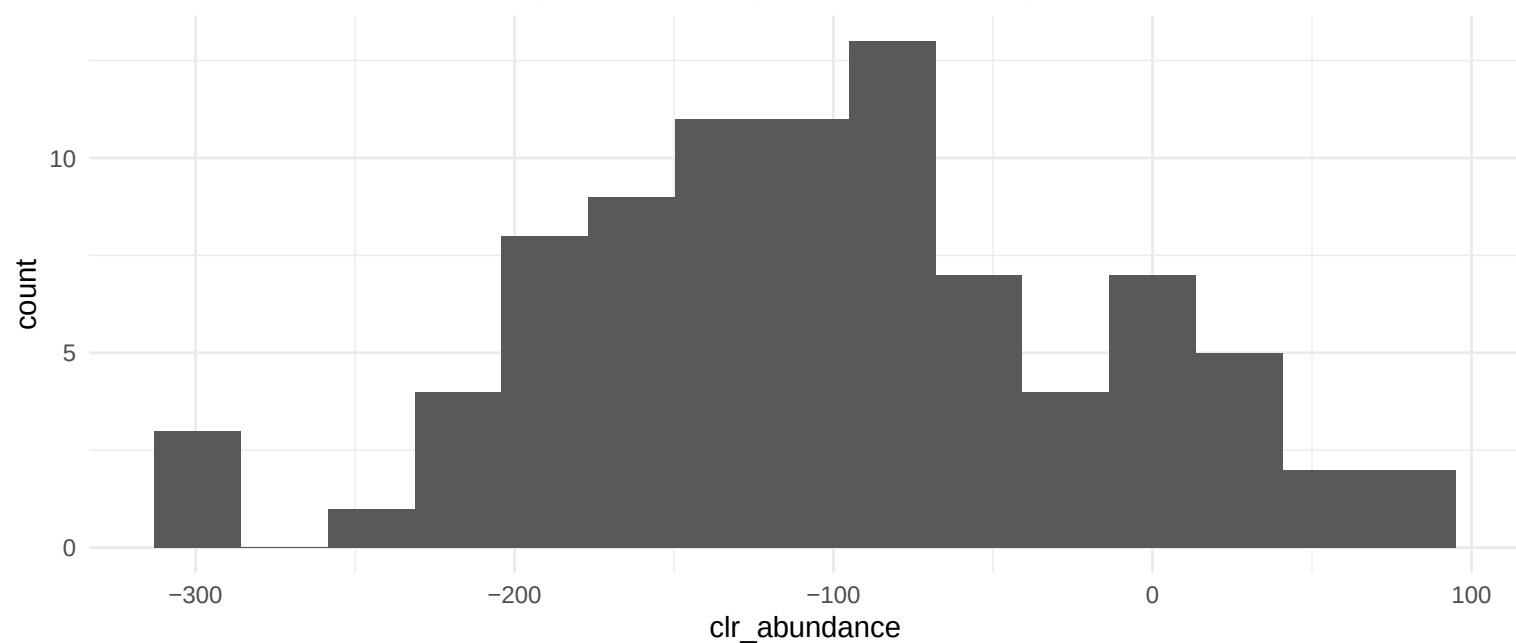

Distribution for 05017 Spinocerebellar ataxia

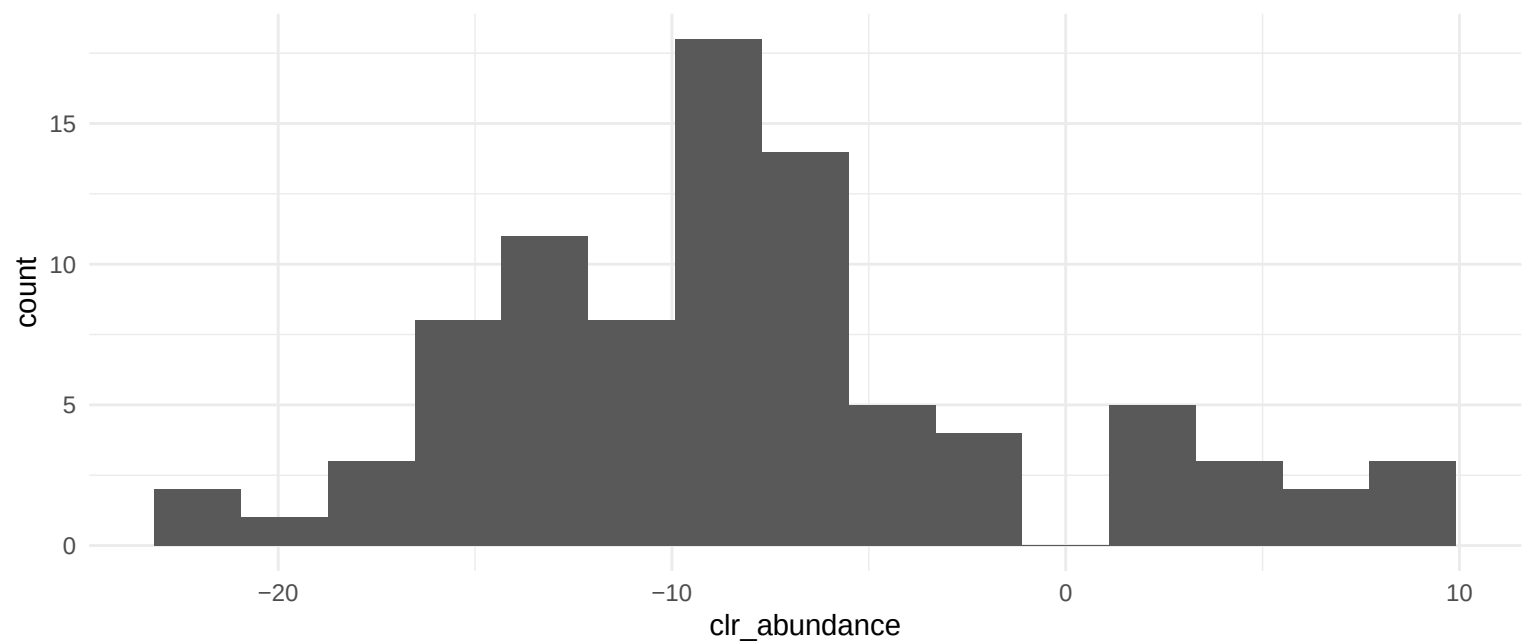

Distribution for 05020 Prion disease

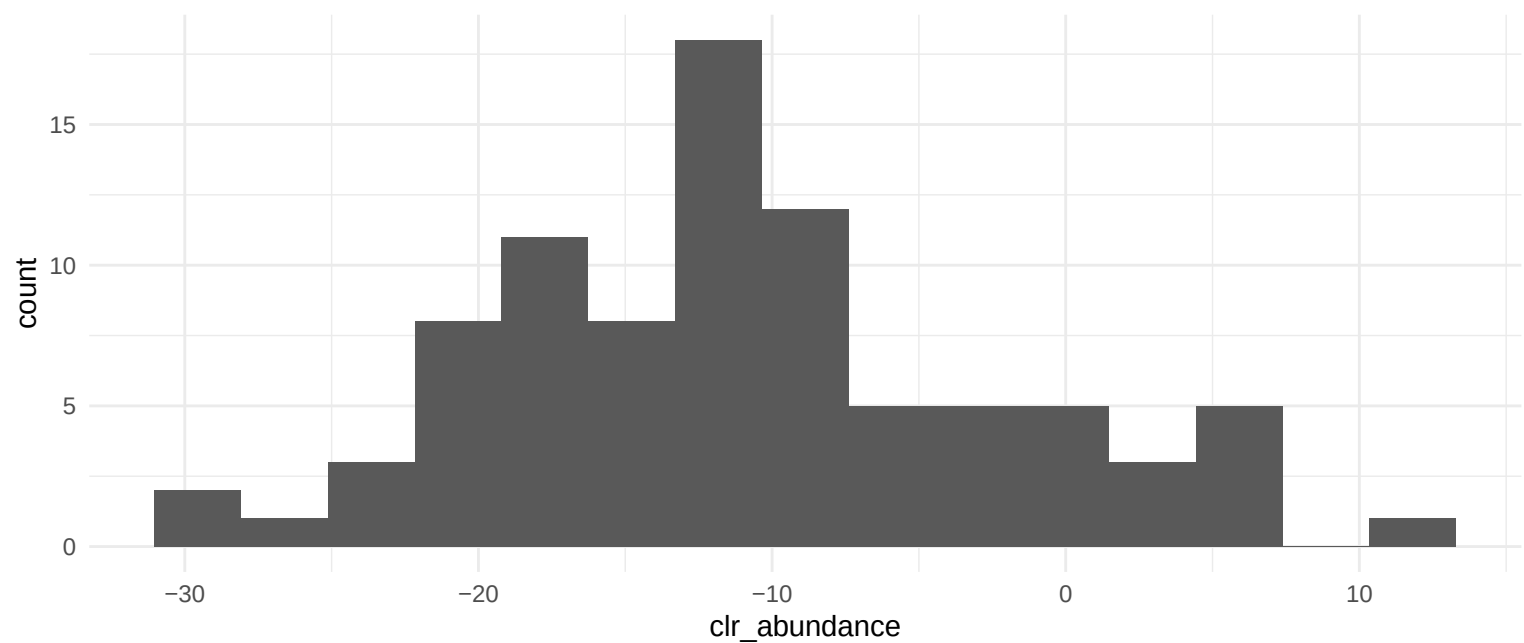

Distribution for 05022 Pathways of neurodegeneration – multiple diseases

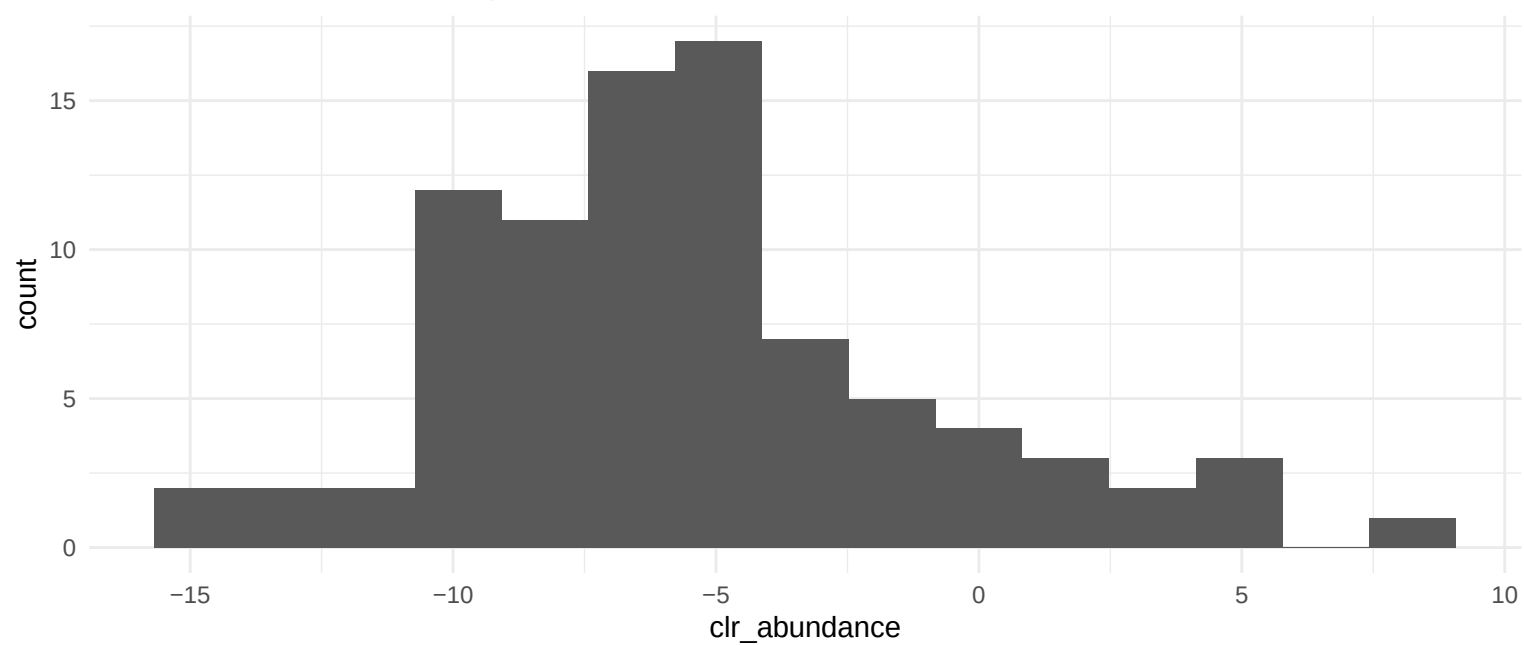

Distribution for 05030 Cocaine addiction

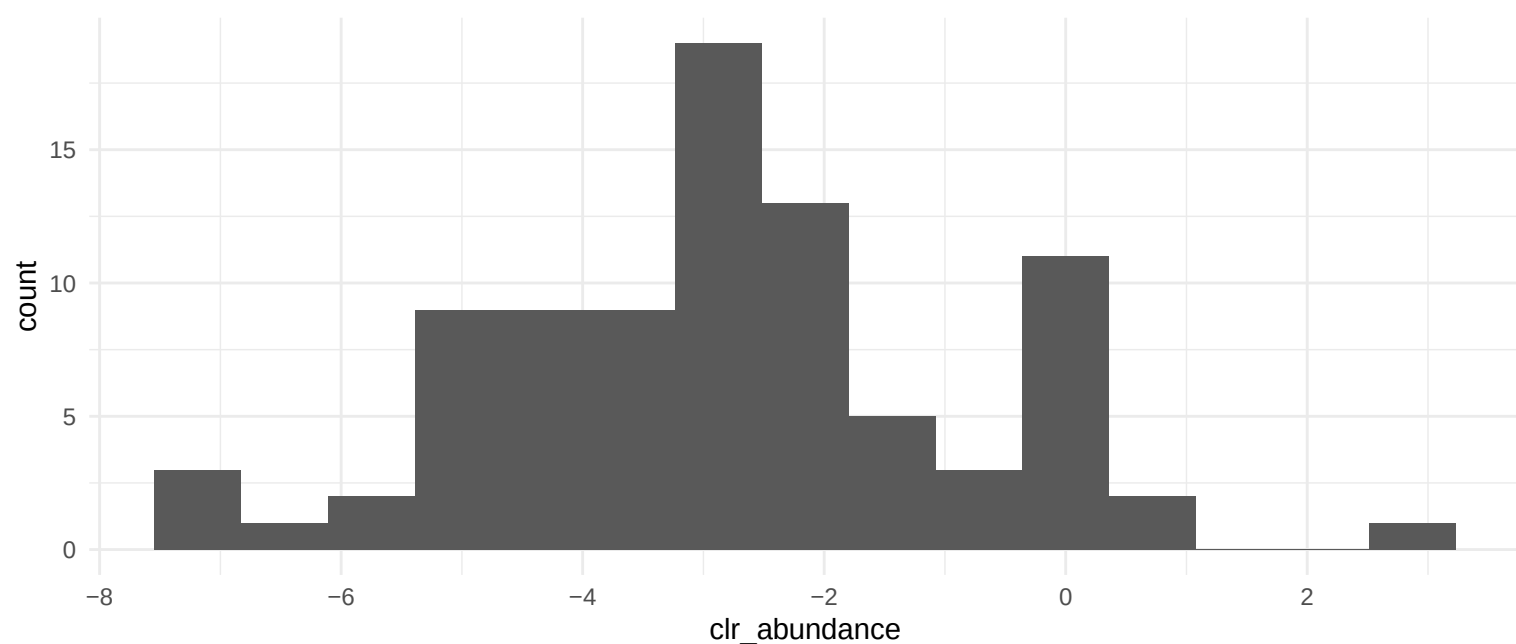

Distribution for 05031 Amphetamine addiction

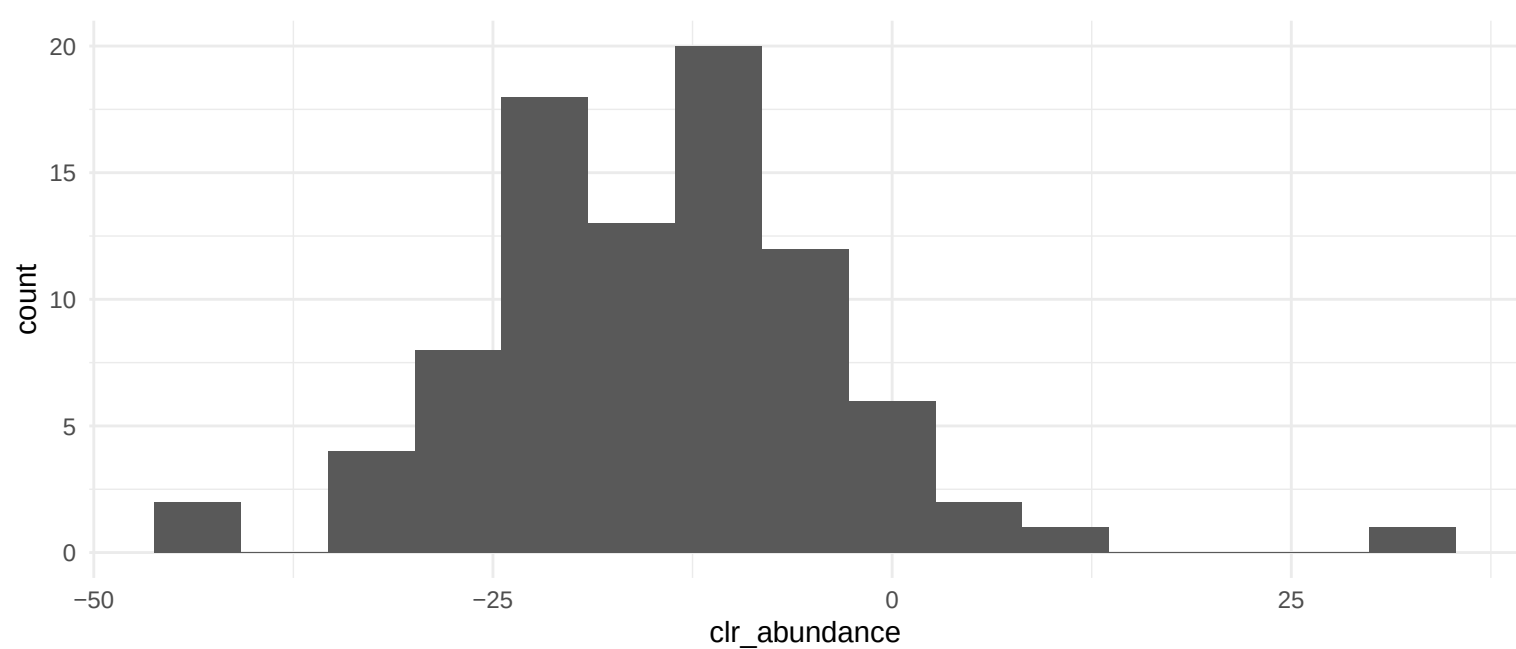

Distribution for 05032 Morphine addiction

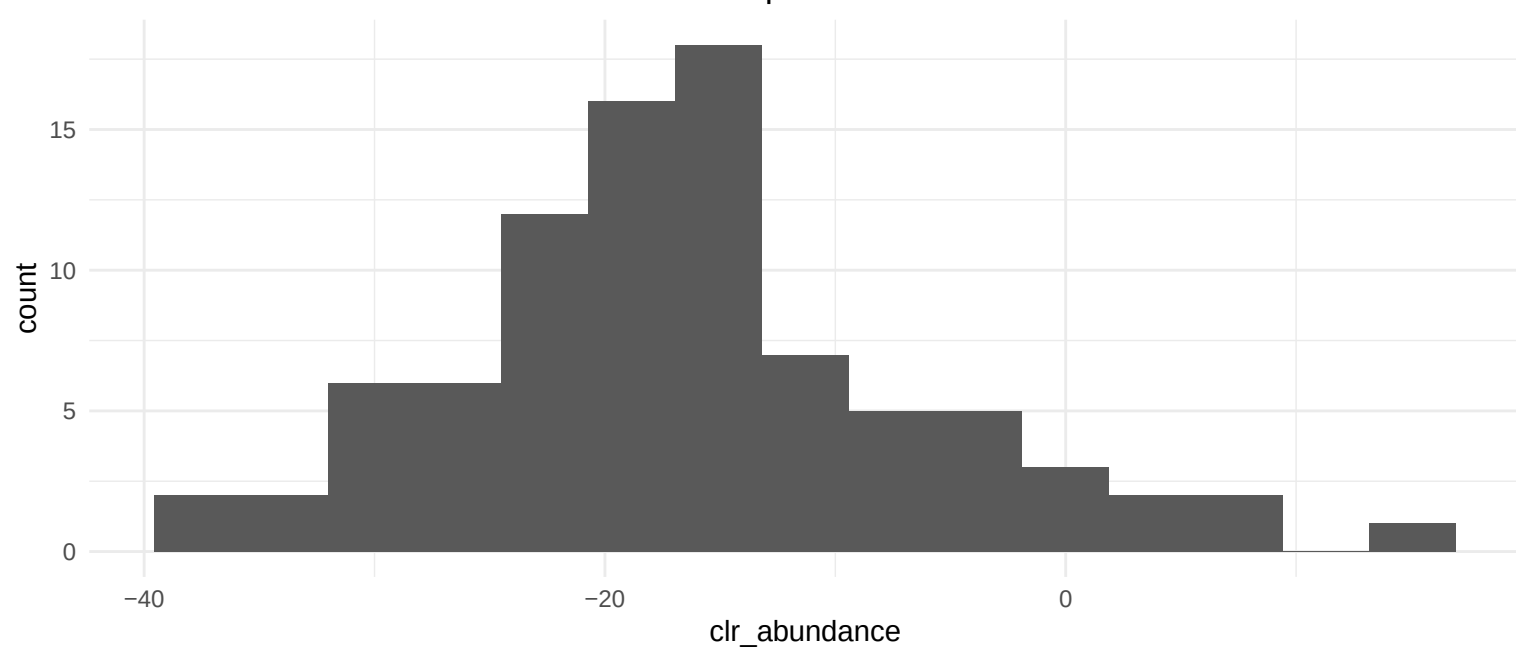

Distribution for 05033 Nicotine addiction

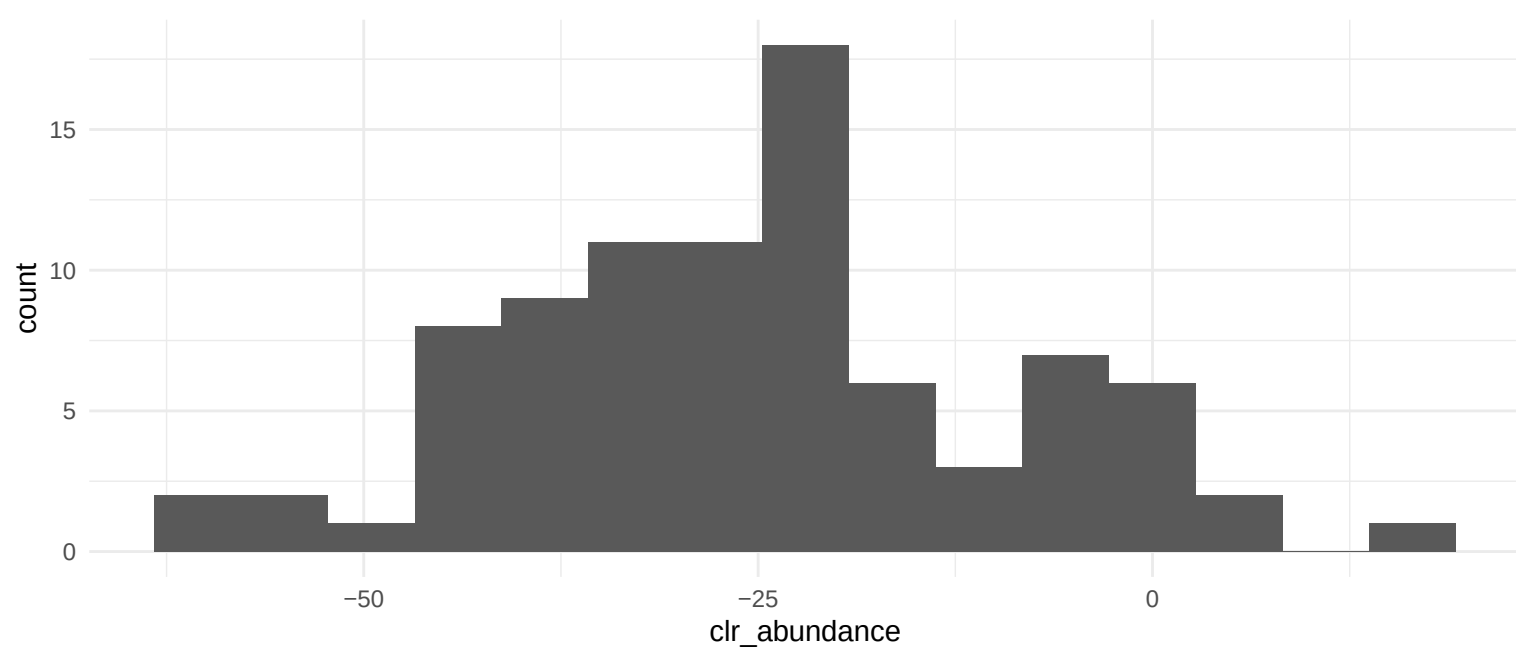

Distribution for 05034 Alcoholism

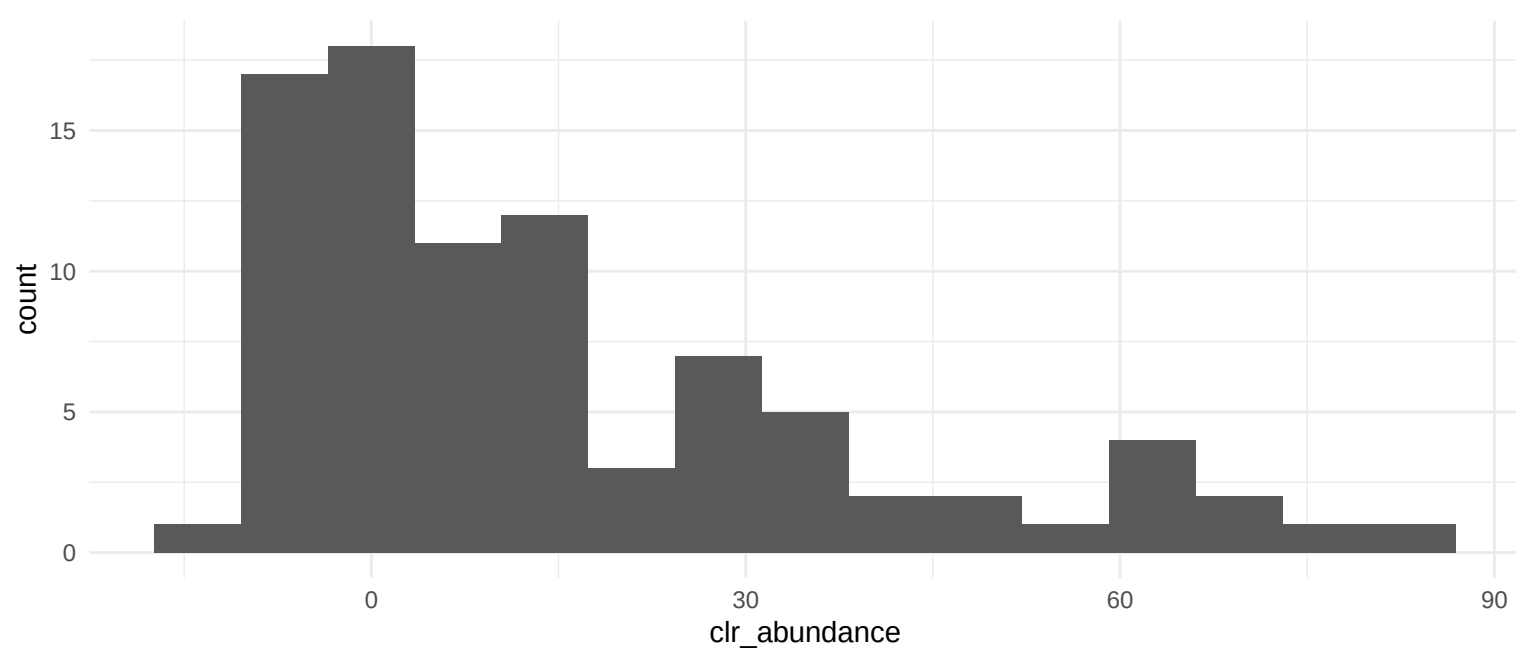

Distribution for 05100 Bacterial invasion of epithelial cells

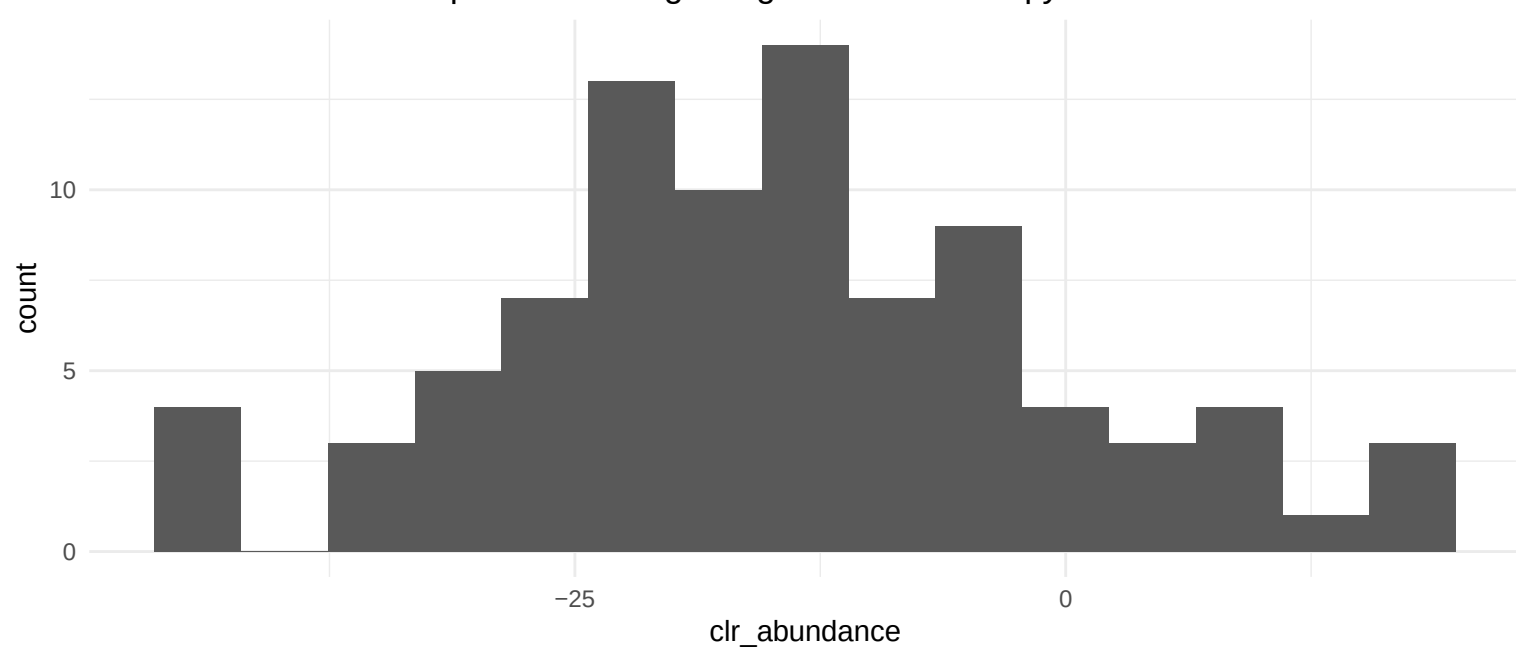

Distribution for 05110 *Vibrio cholerae* infection

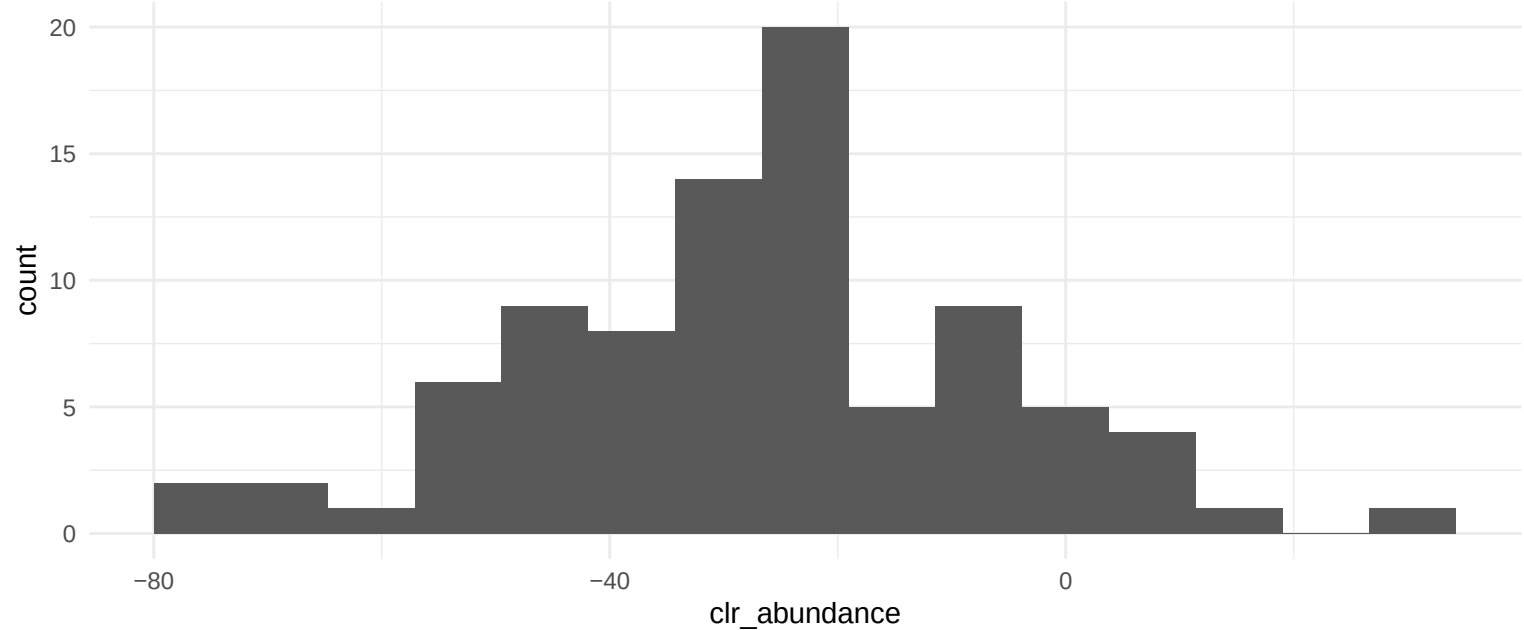

Distribution for 05111 Biofilm formation – *Vibrio cholerae*

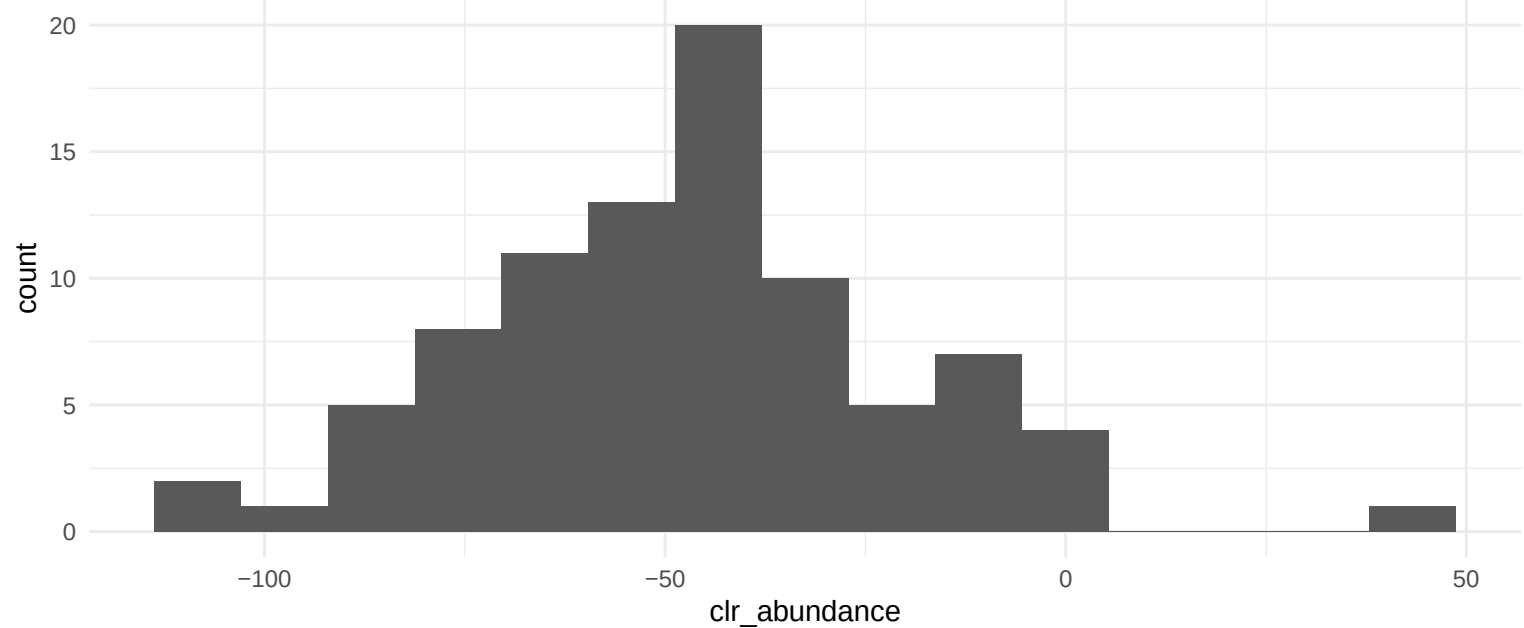

Distribution for 05120 Epithelial cell signaling in *Helicobacter pylori* infection

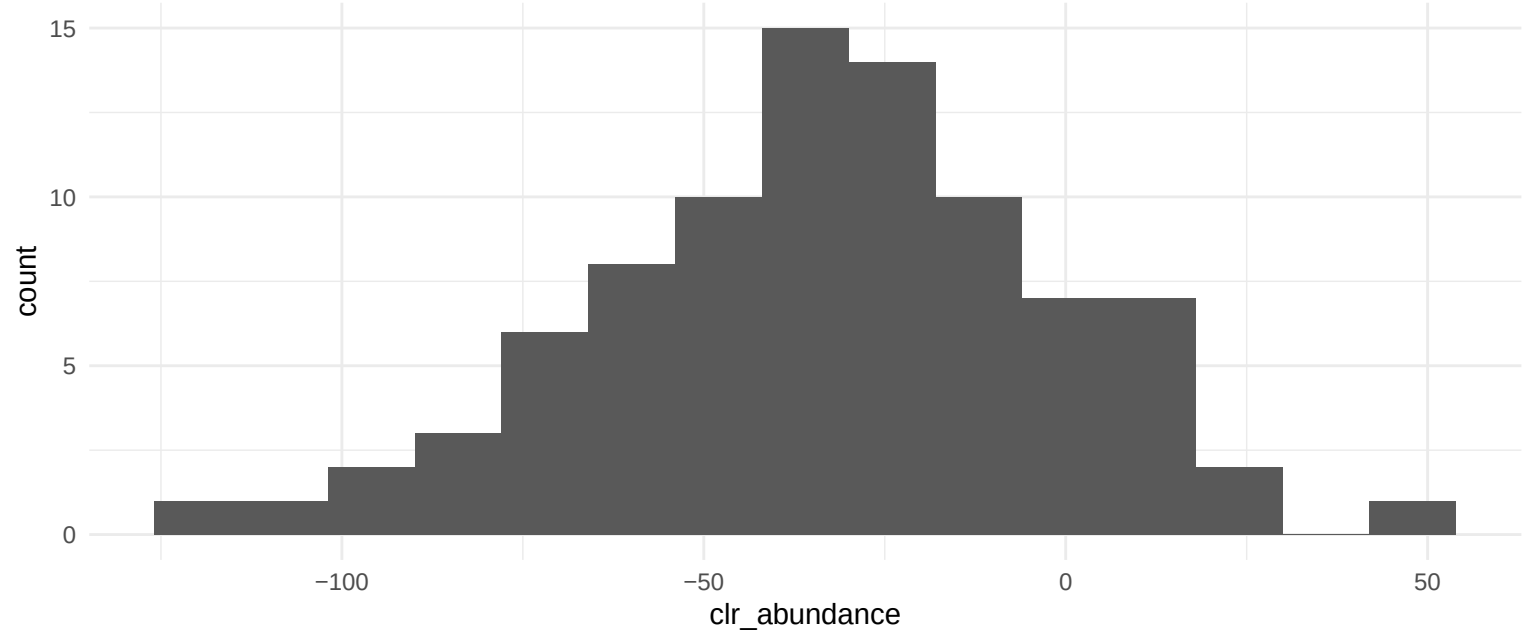

Distribution for 05130 Pathogenic Escherichia coli infection

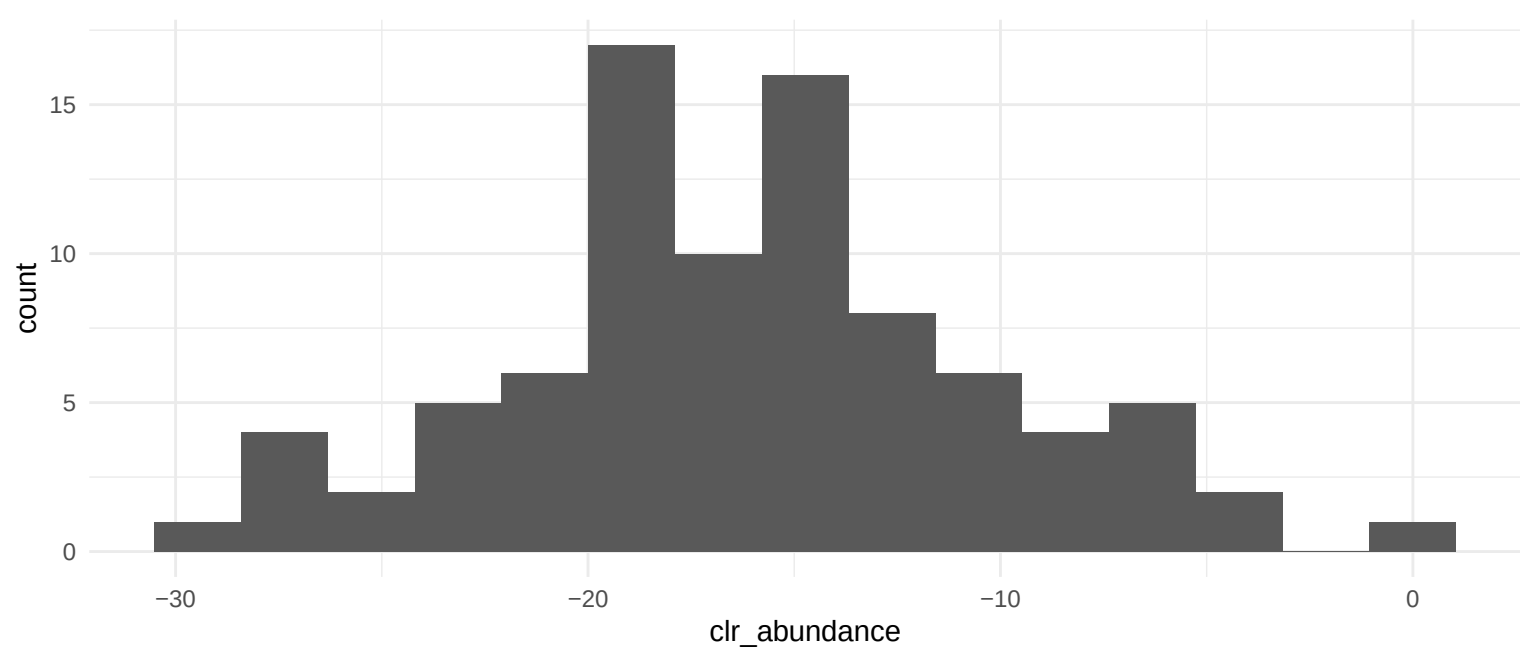

Distribution for 05131 Shigellosis

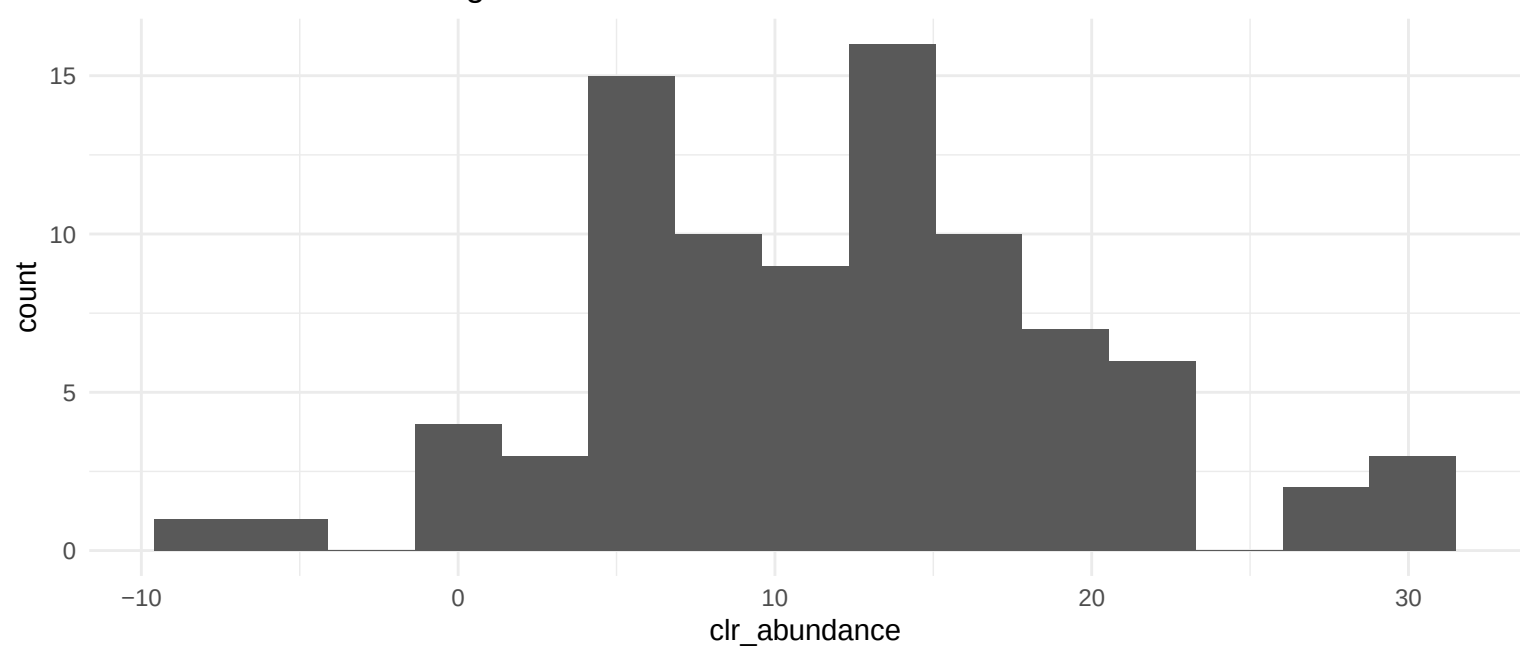

Distribution for 05132 Salmonella infection

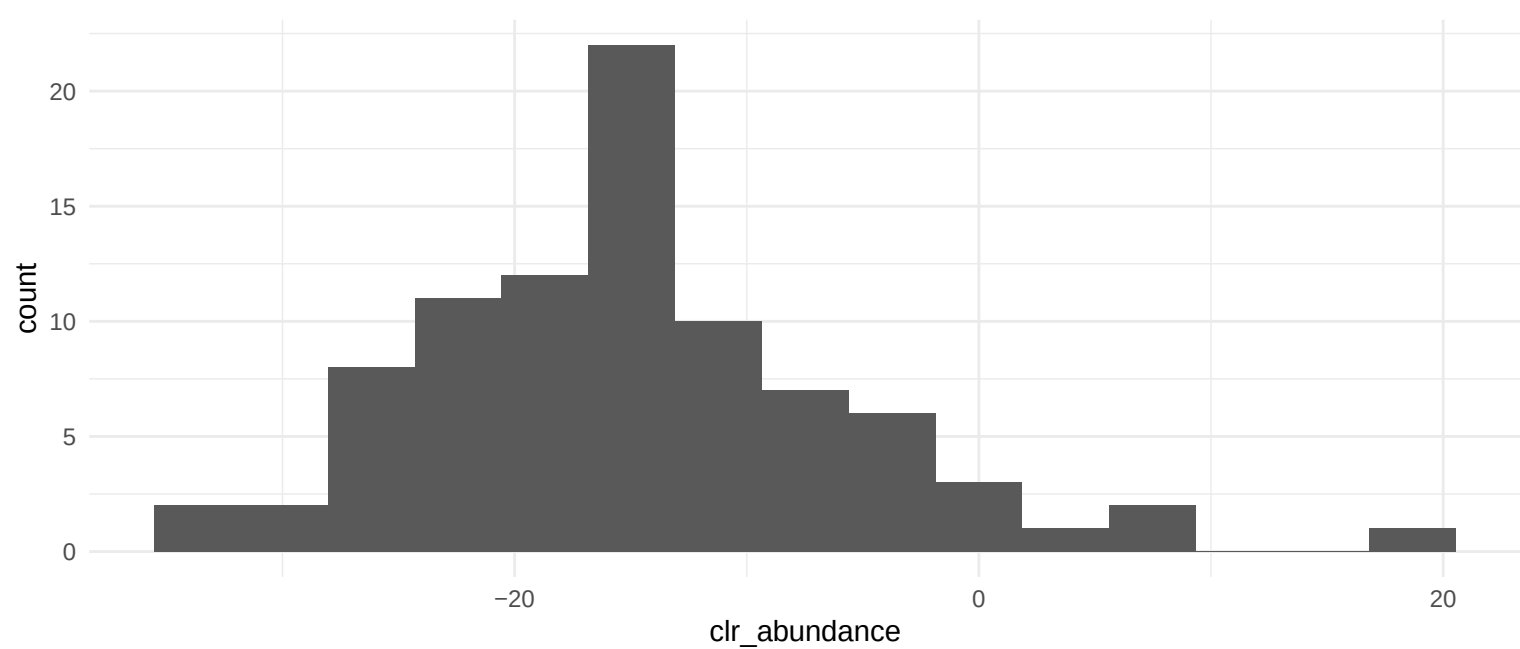

Distribution for 05133 Pertussis

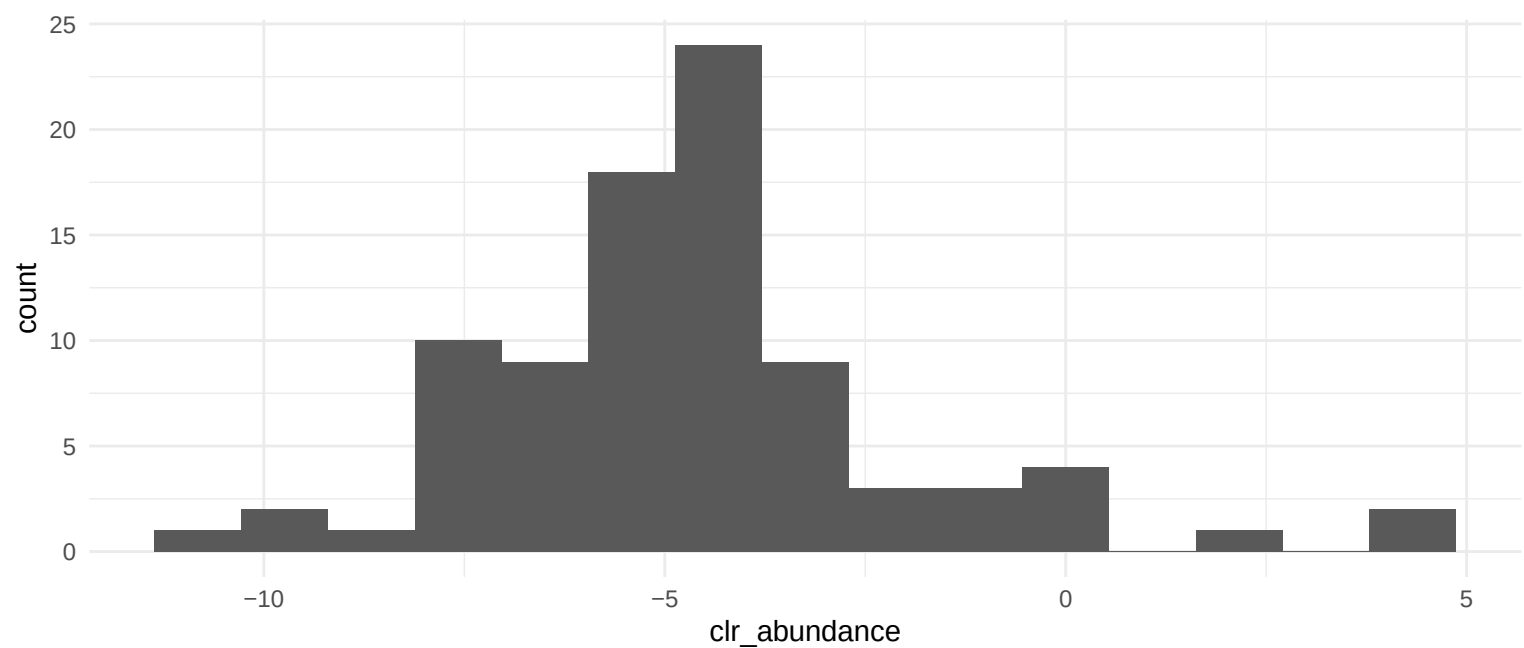

Distribution for 05134 Legionellosis

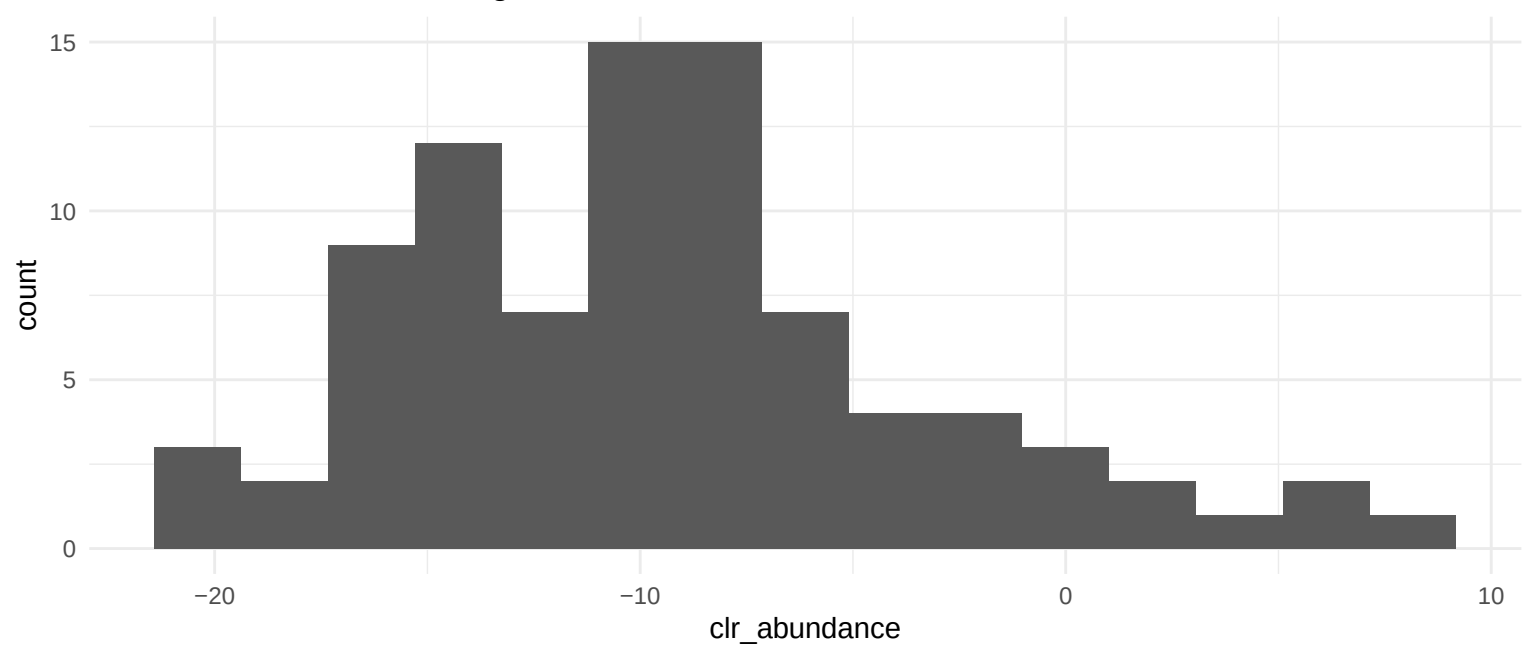

Distribution for 05135 Yersinia infection

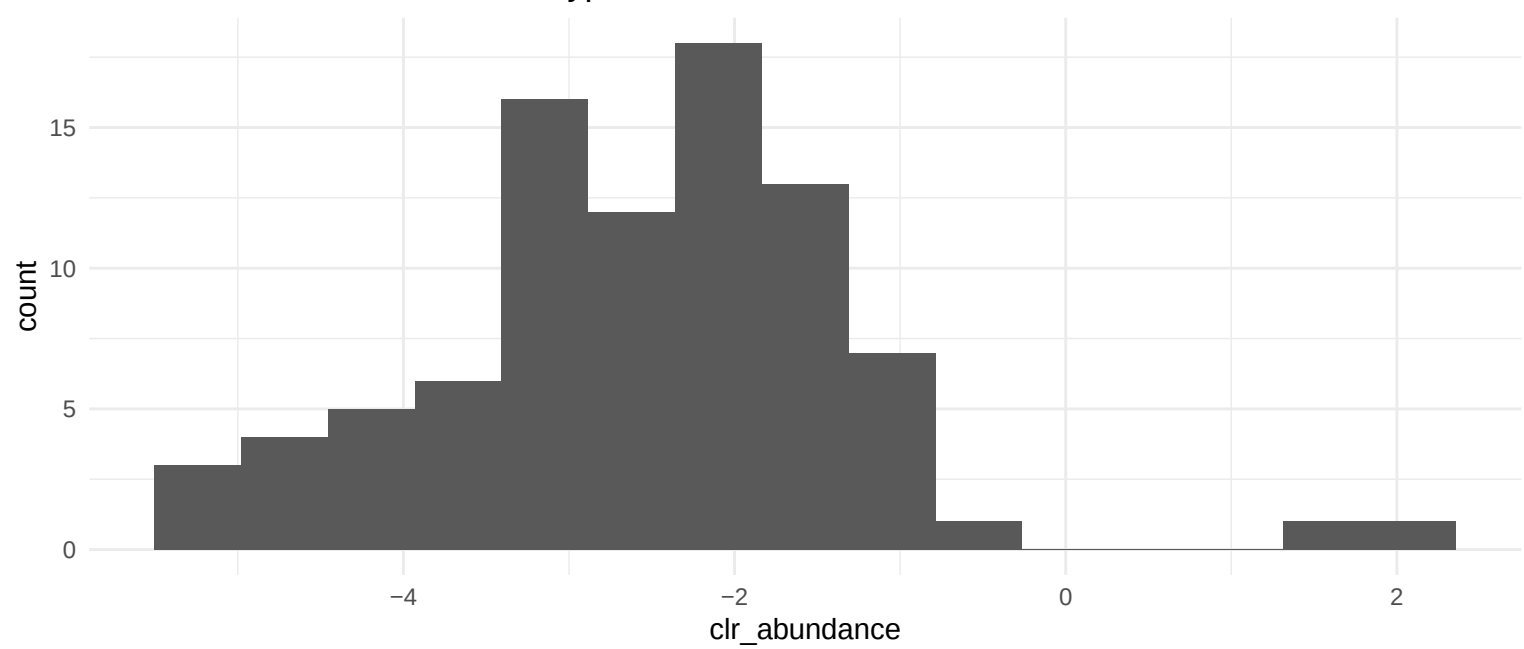

Distribution for 05140 Leishmaniasis

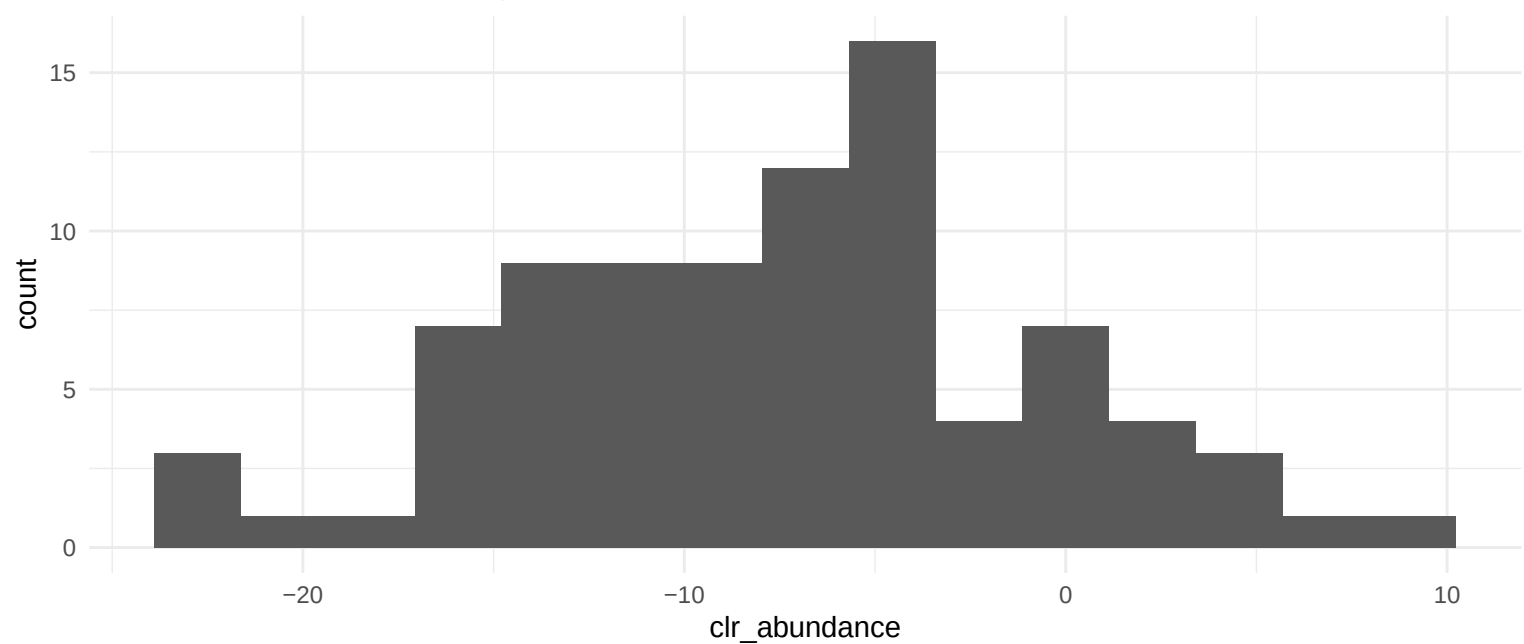

Distribution for 05142 Chagas disease

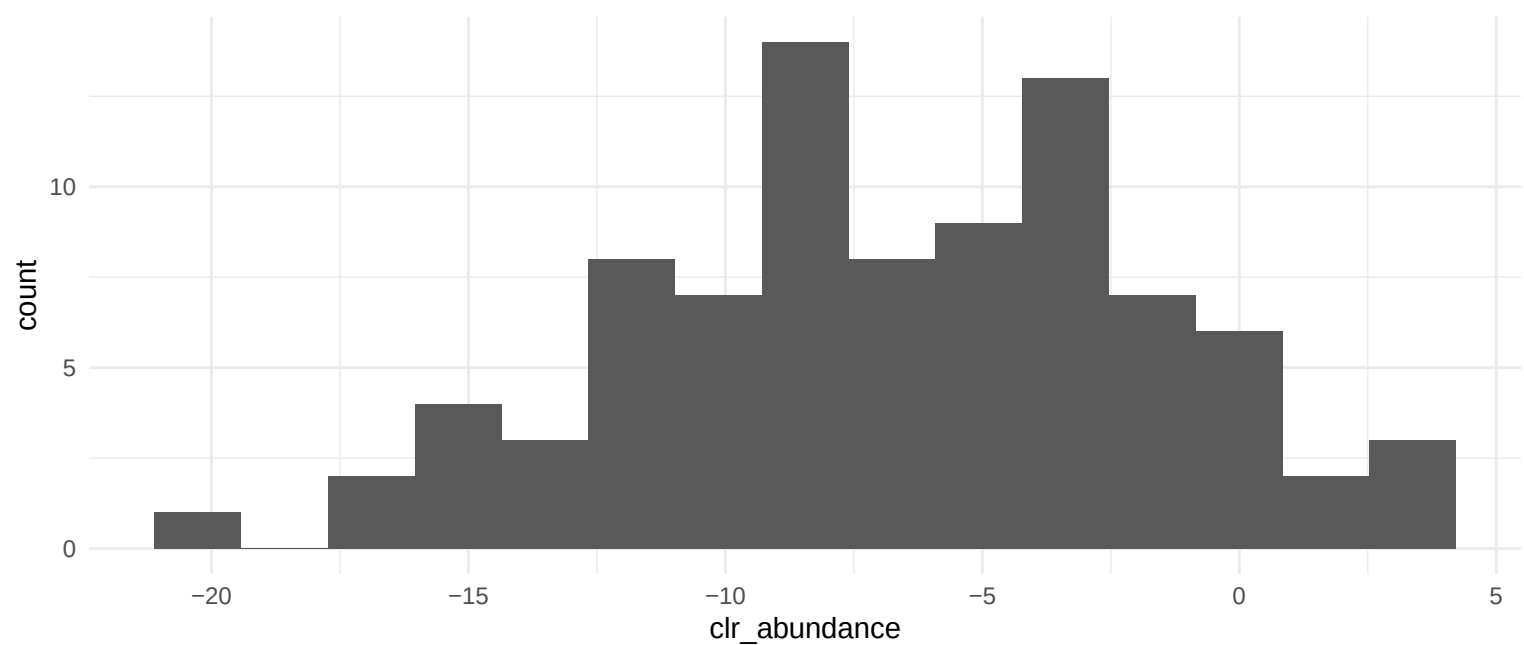

Distribution for 05143 African trypanosomiasis

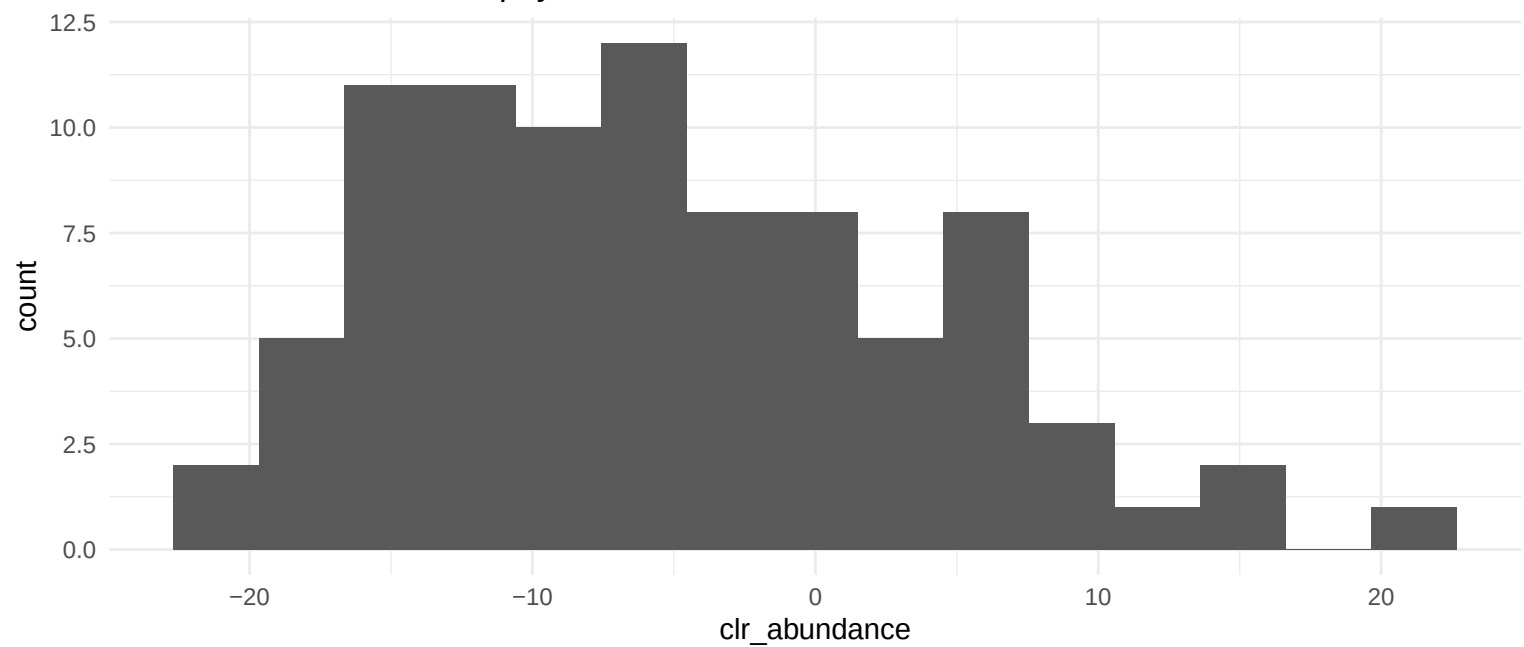

Distribution for 05145 Toxoplasmosis

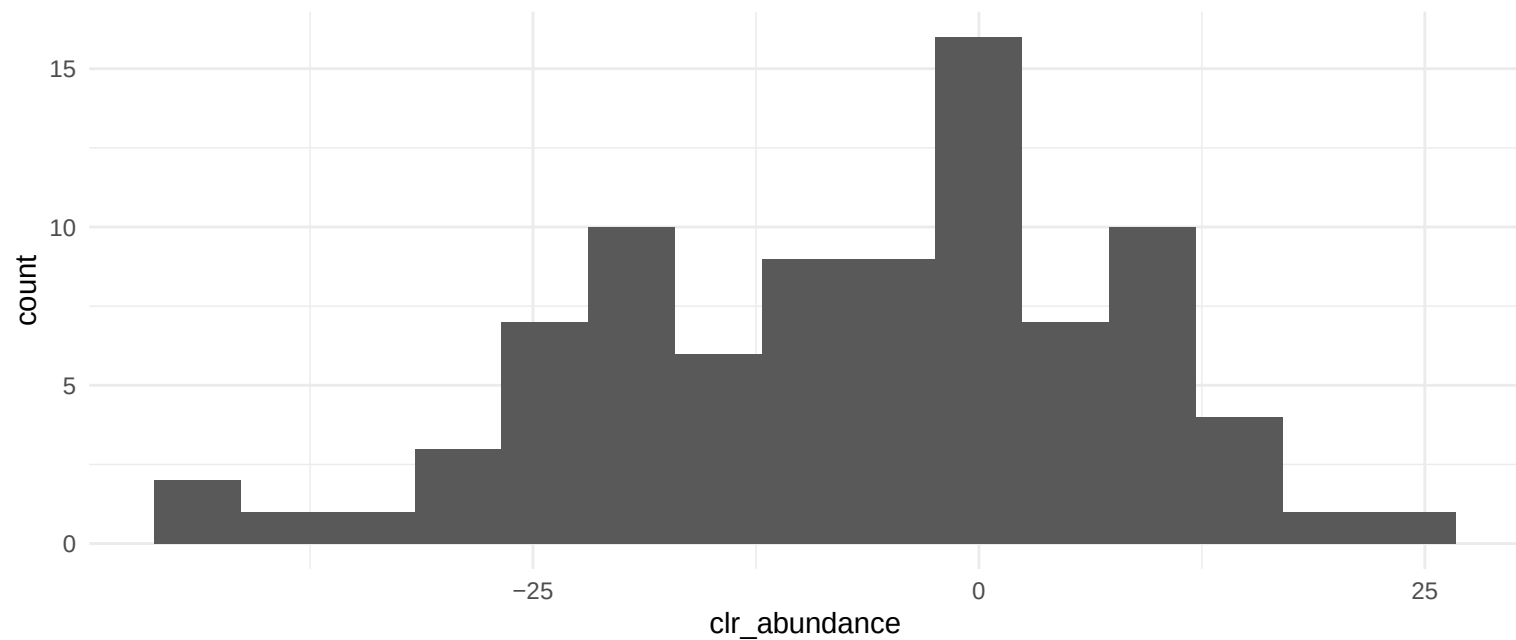

Distribution for 05146 Amoebiasis

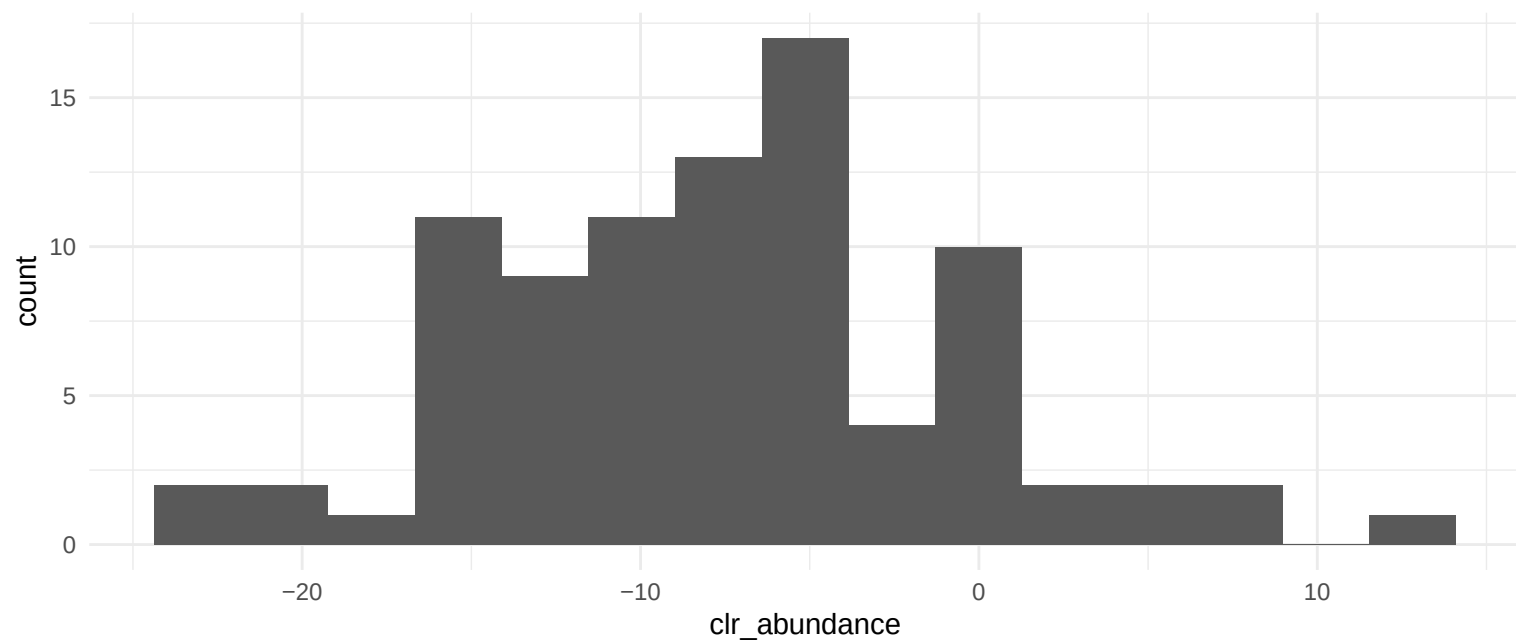

Distribution for 05150 Staphylococcus aureus infection

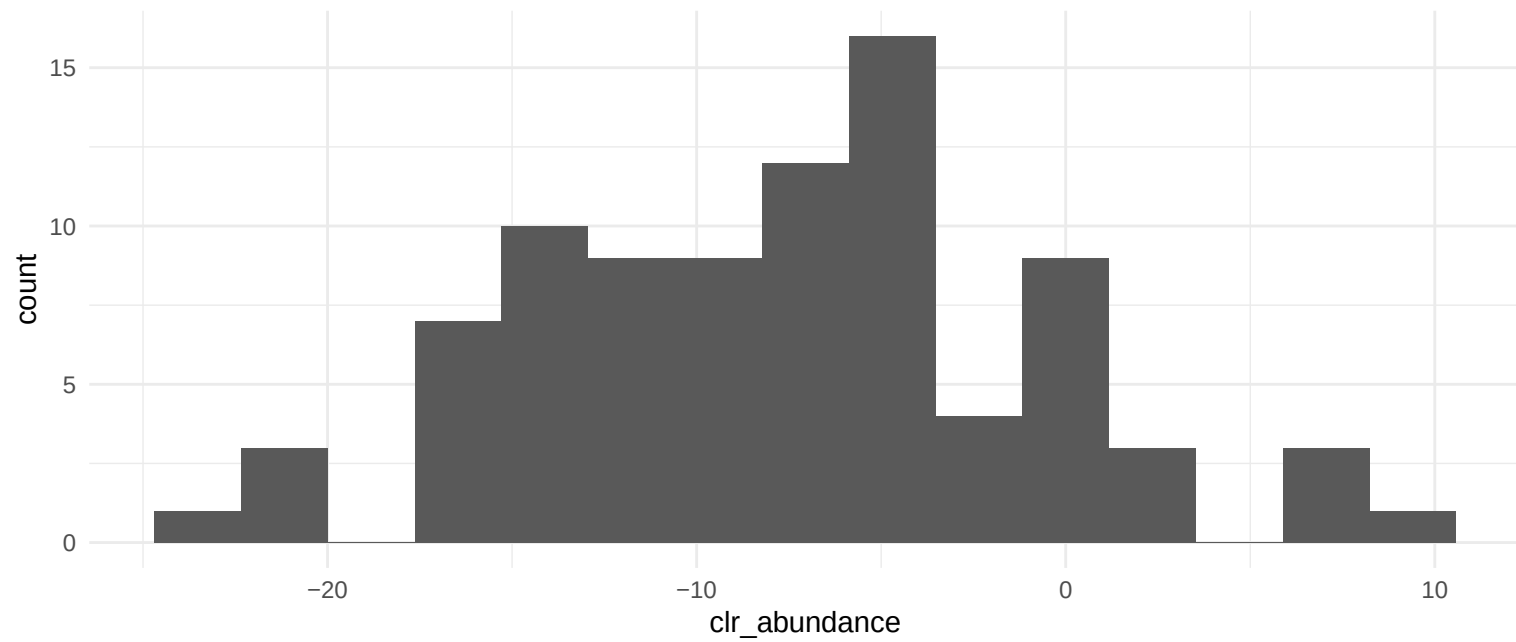

Distribution for 05152 Tuberculosis

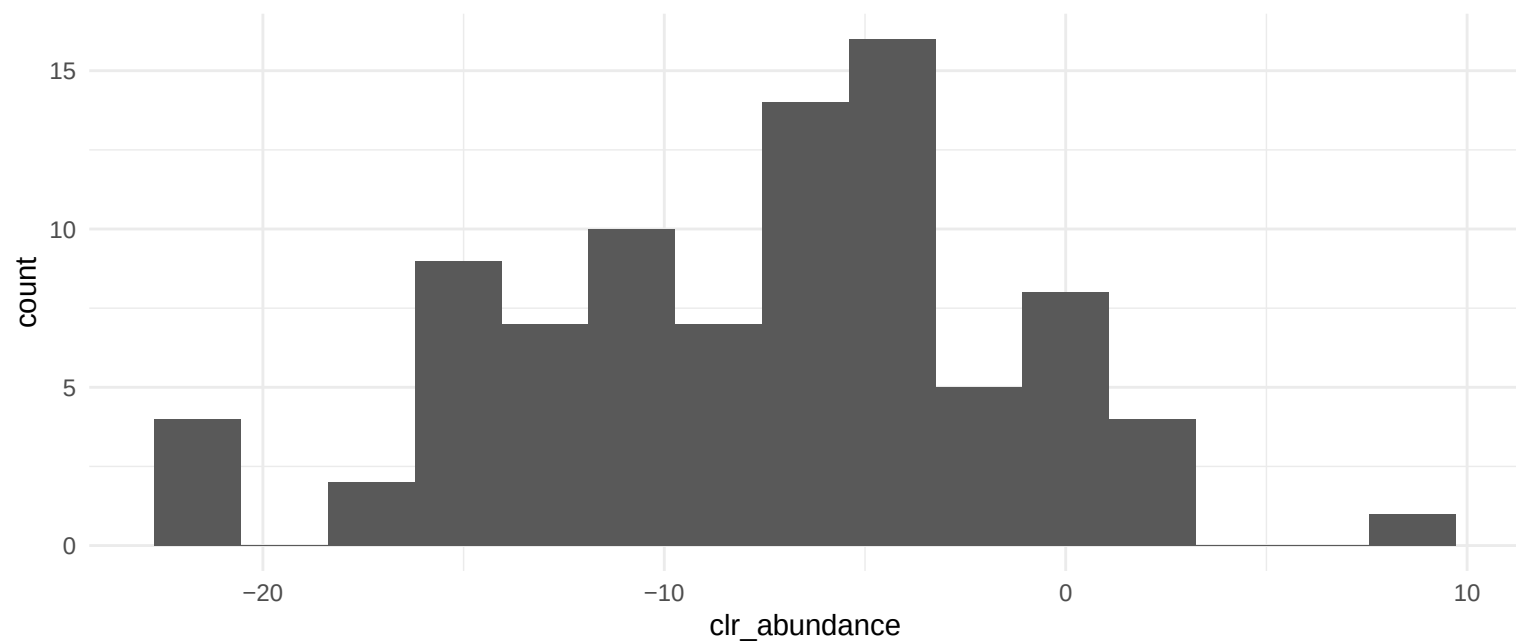

Distribution for 05160 Hepatitis C

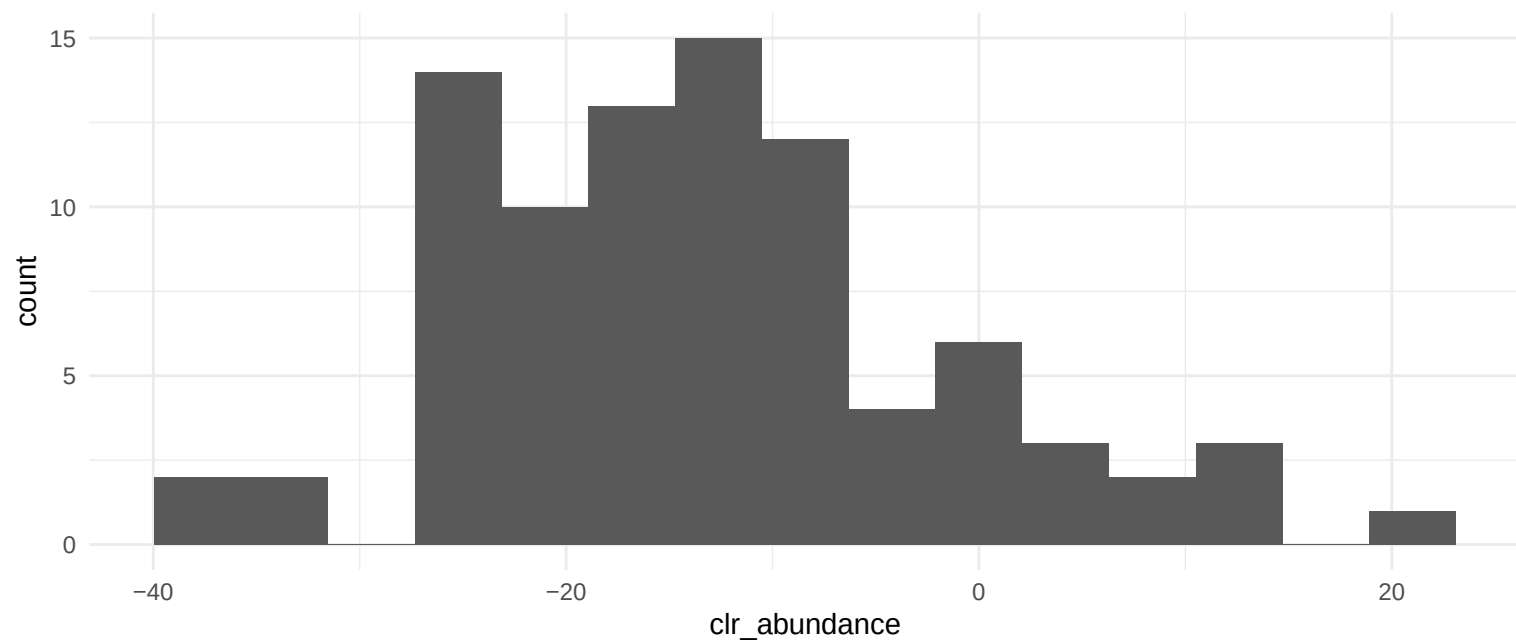

Distribution for 05161 Hepatitis B

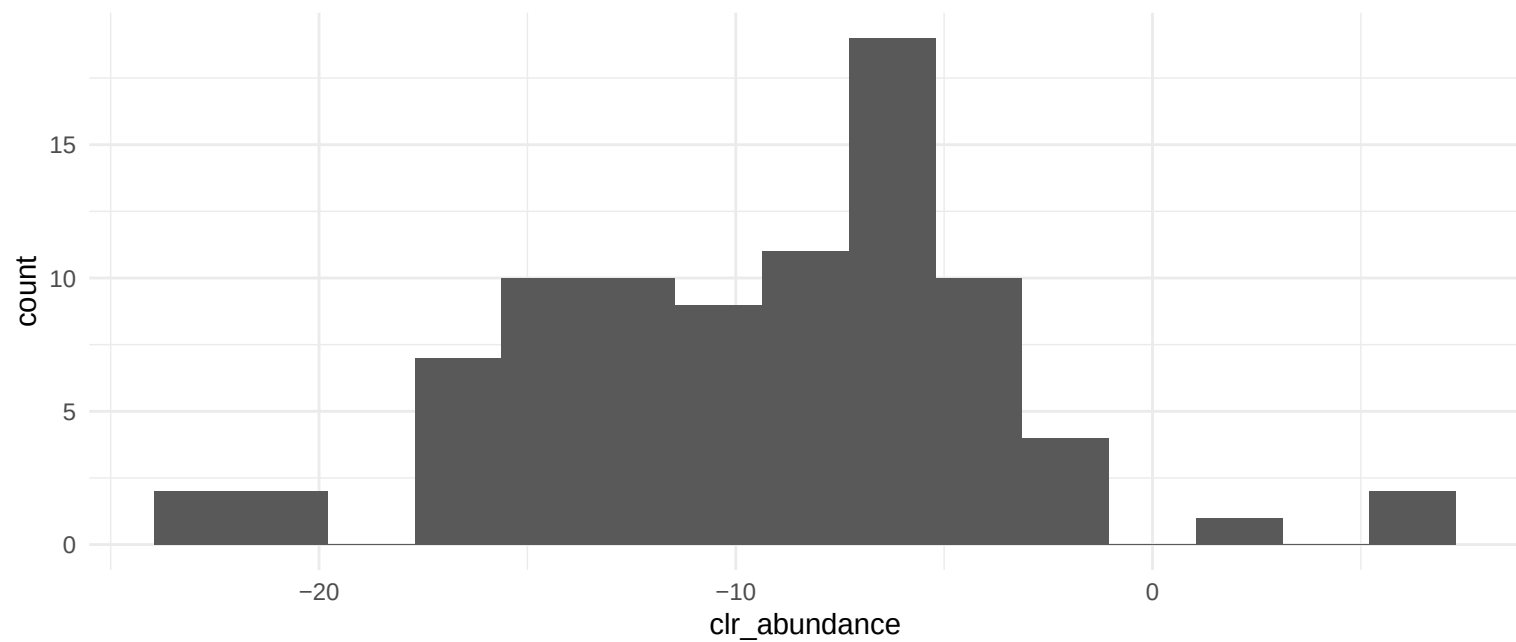

Distribution for 05162 Measles

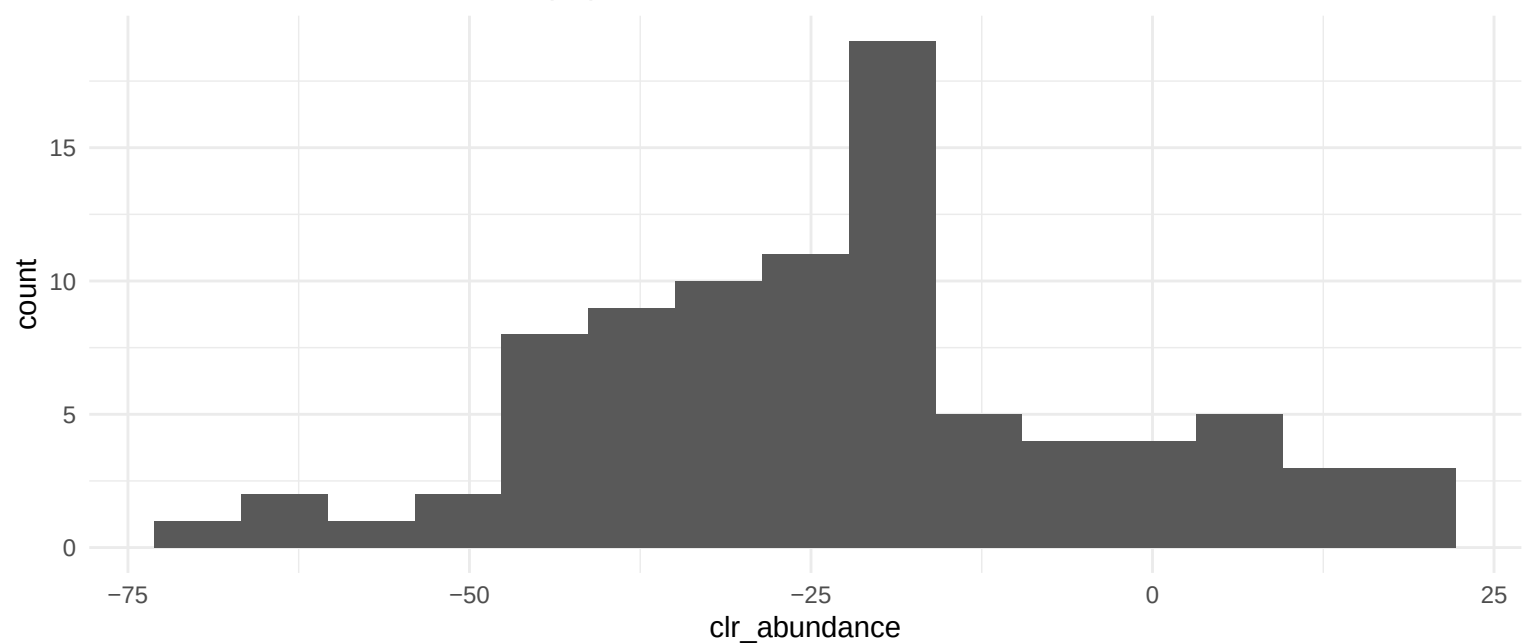

Distribution for 05163 Human cytomegalovirus infection

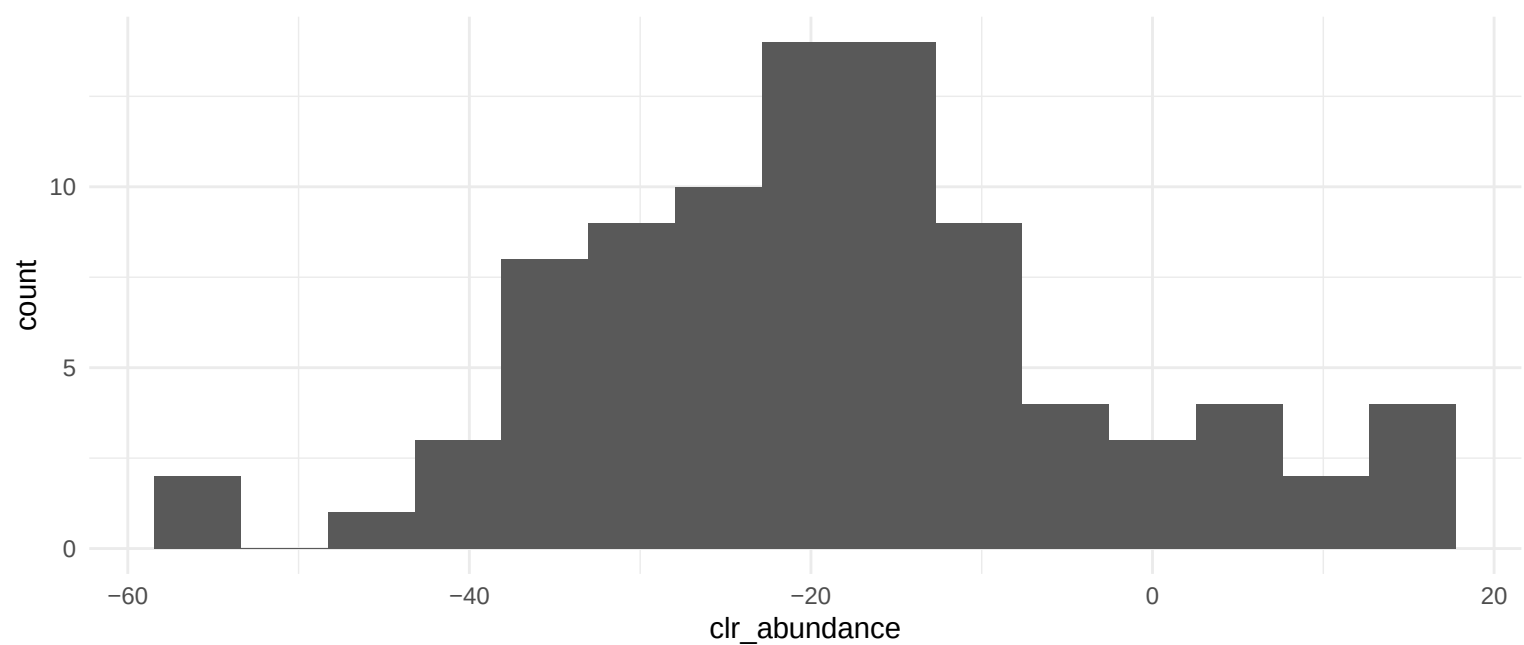

Distribution for 05164 Influenza A

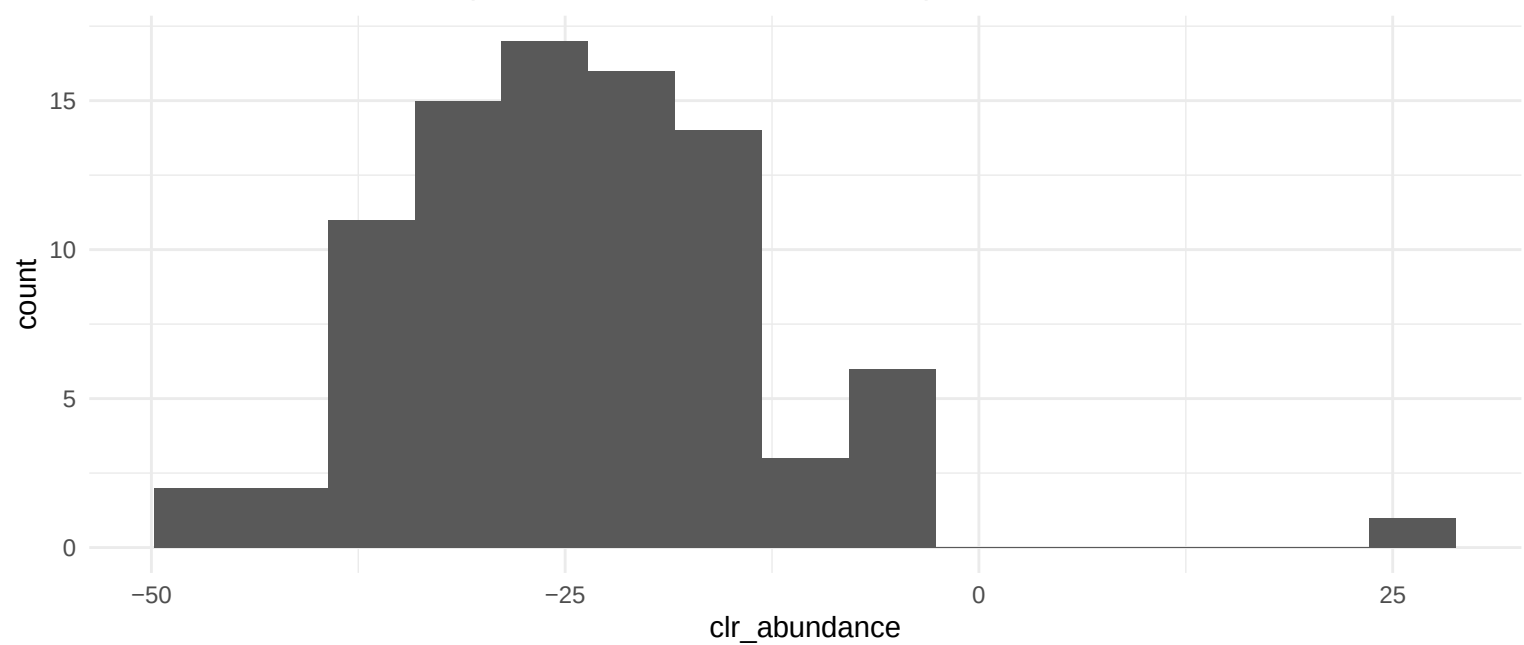

Distribution for 05165 Human papillomavirus infection

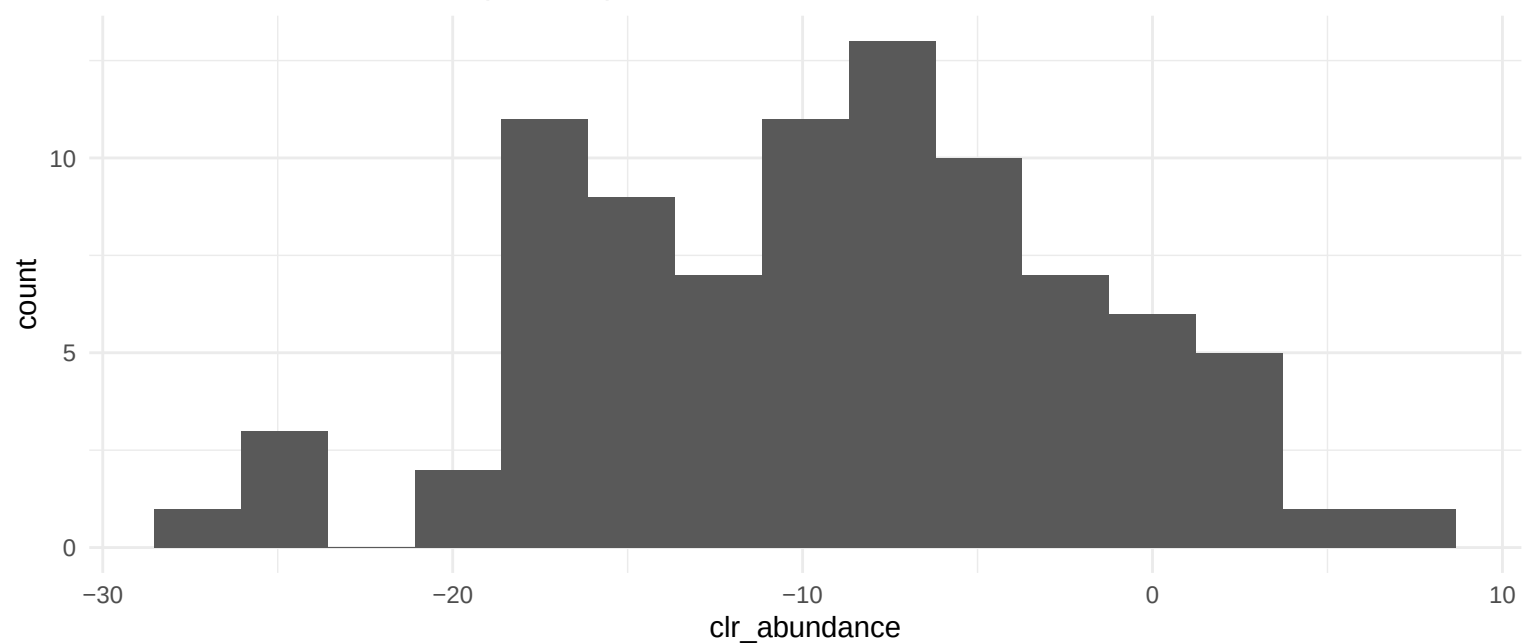

Distribution for 05166 Human T-cell leukemia virus 1 infection

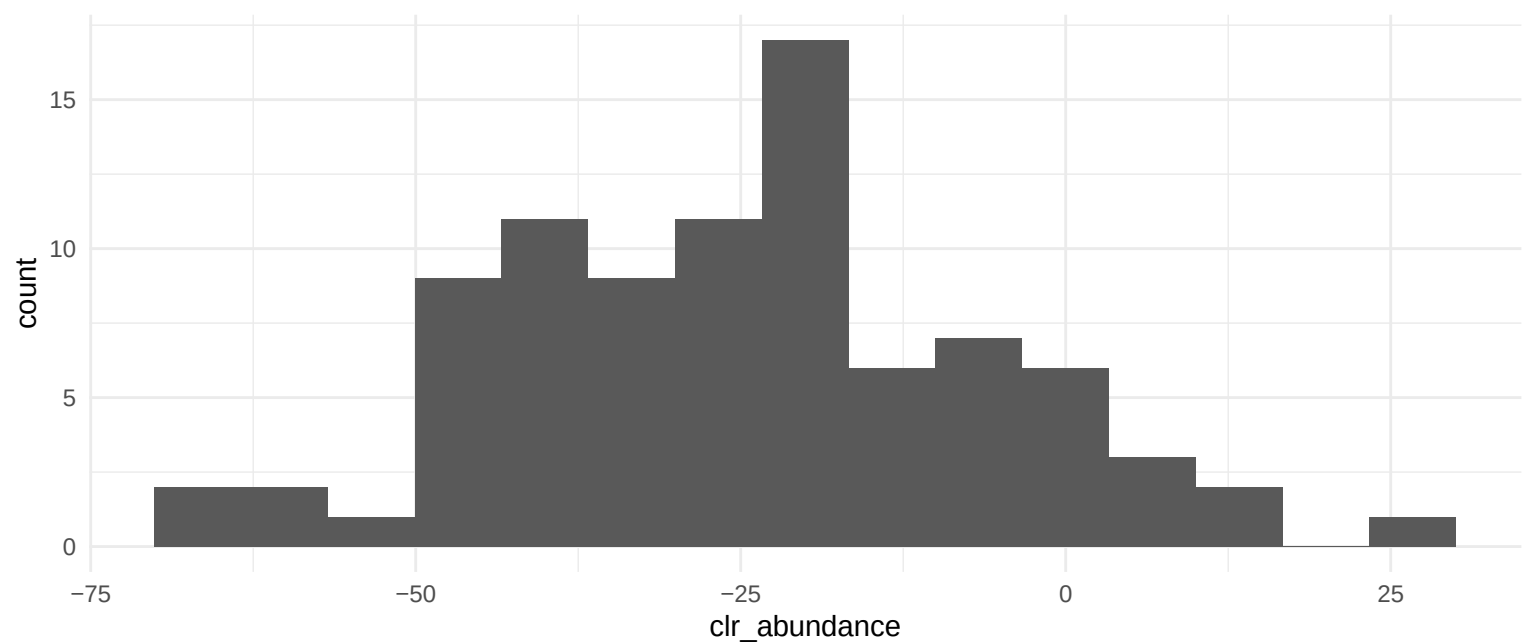

Distribution for 05167 Kaposi sarcoma-associated herpesvirus infection

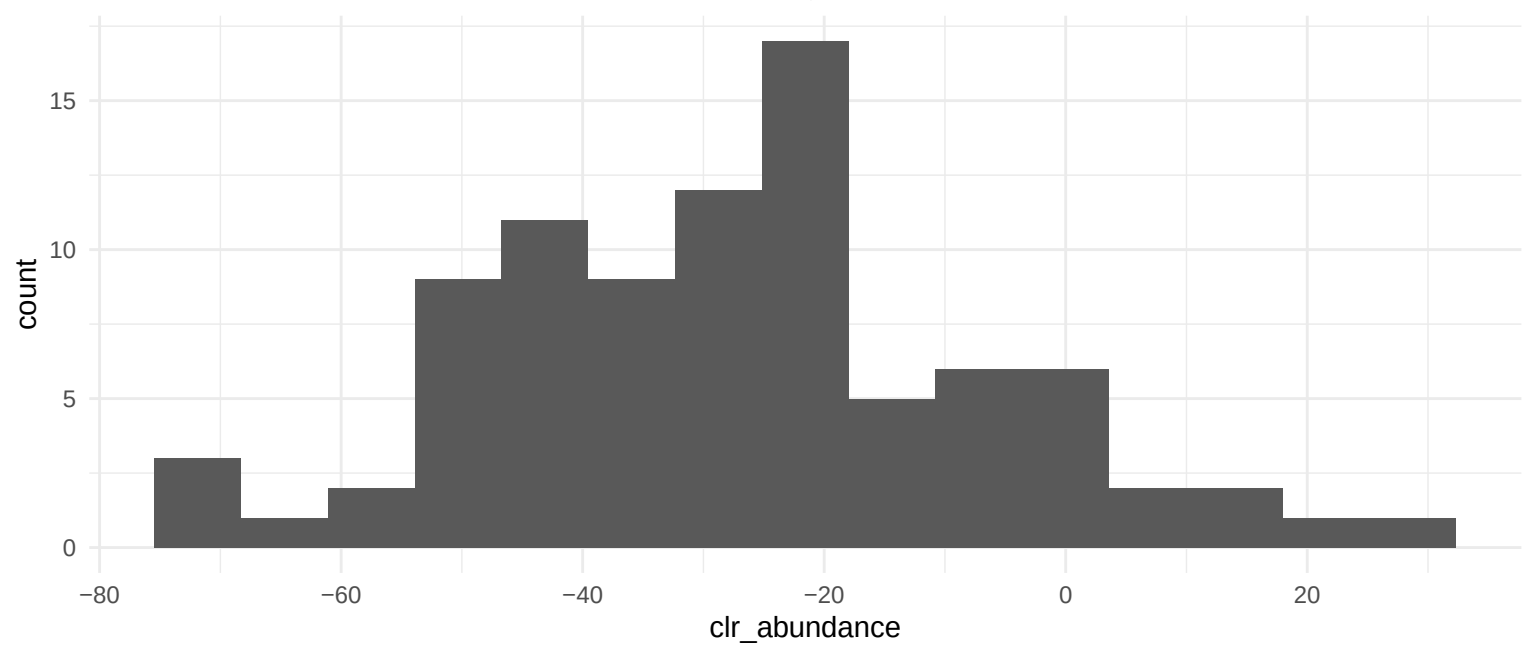

Distribution for 05168 Herpes simplex virus 1 infection

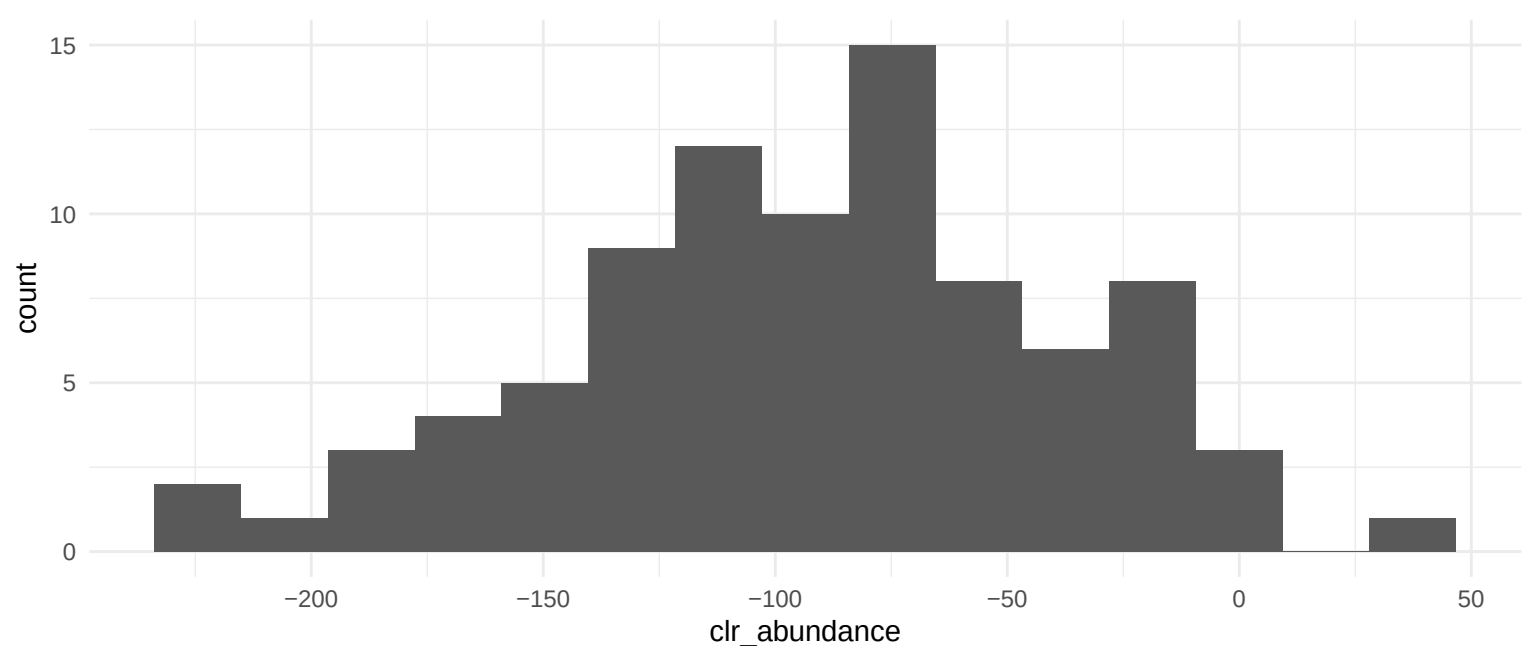

Distribution for 05169 Epstein-Barr virus infection

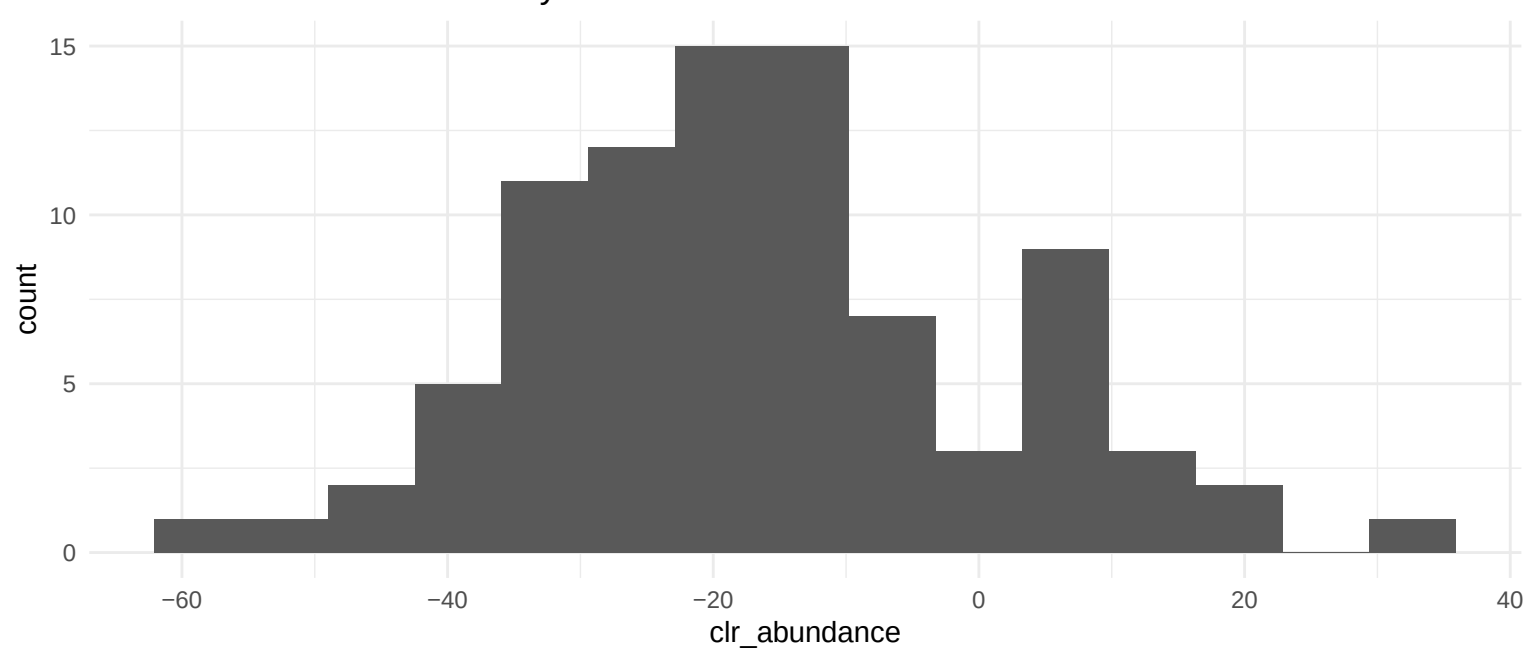

Distribution for 05170 Human immunodeficiency virus 1 infection

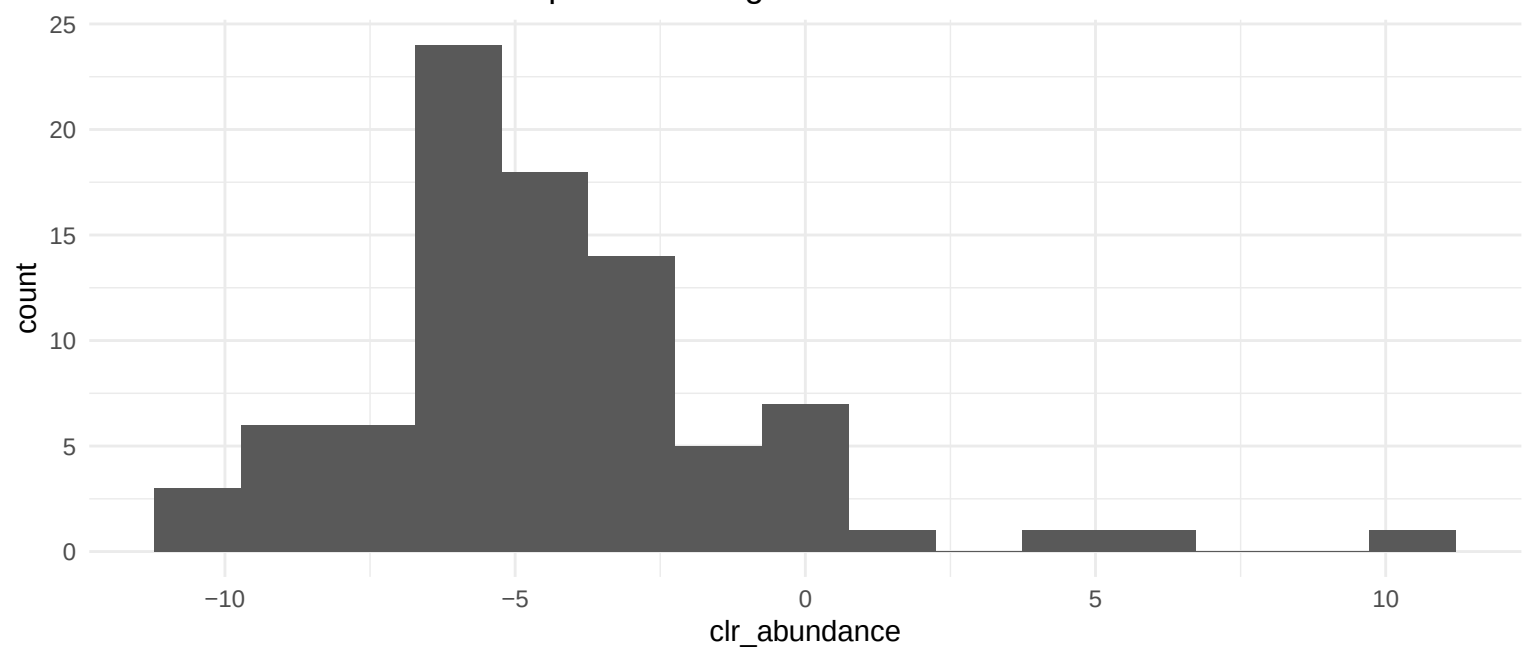

Distribution for 05171 Coronavirus disease – COVID-19

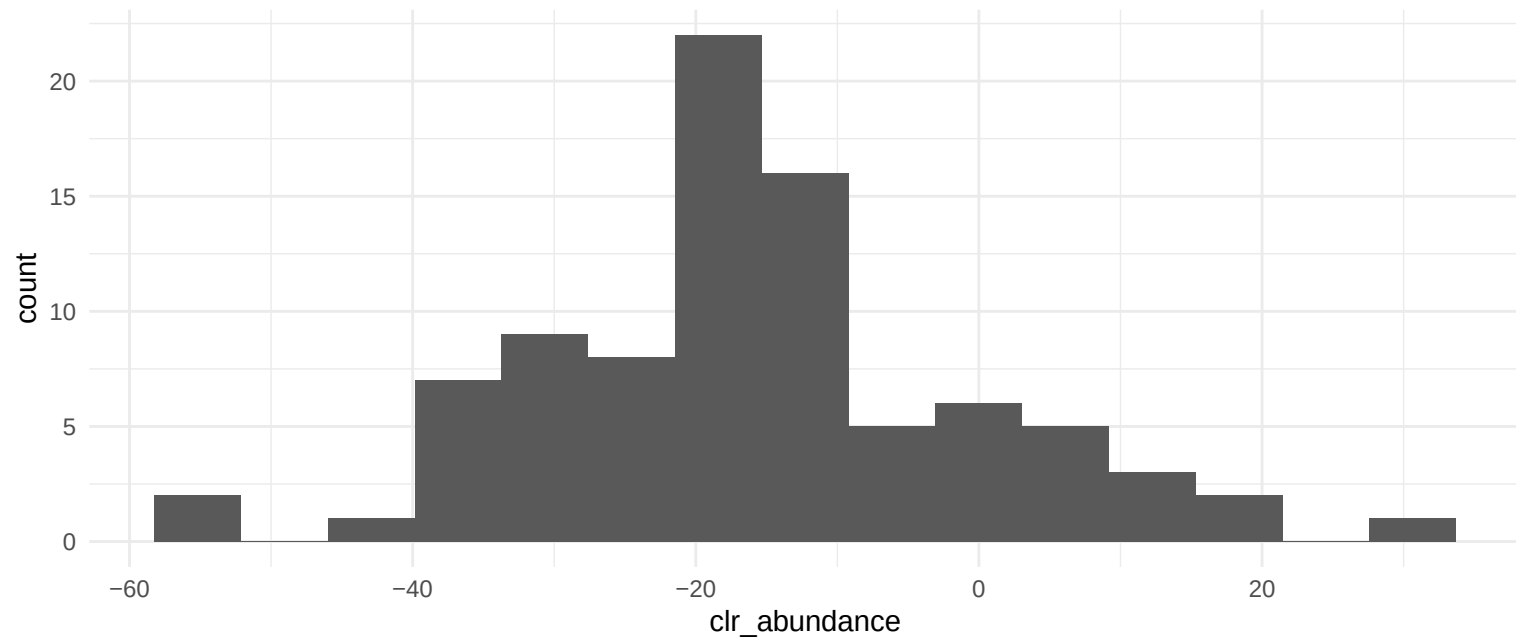

Distribution for 05200 Pathways in cancer

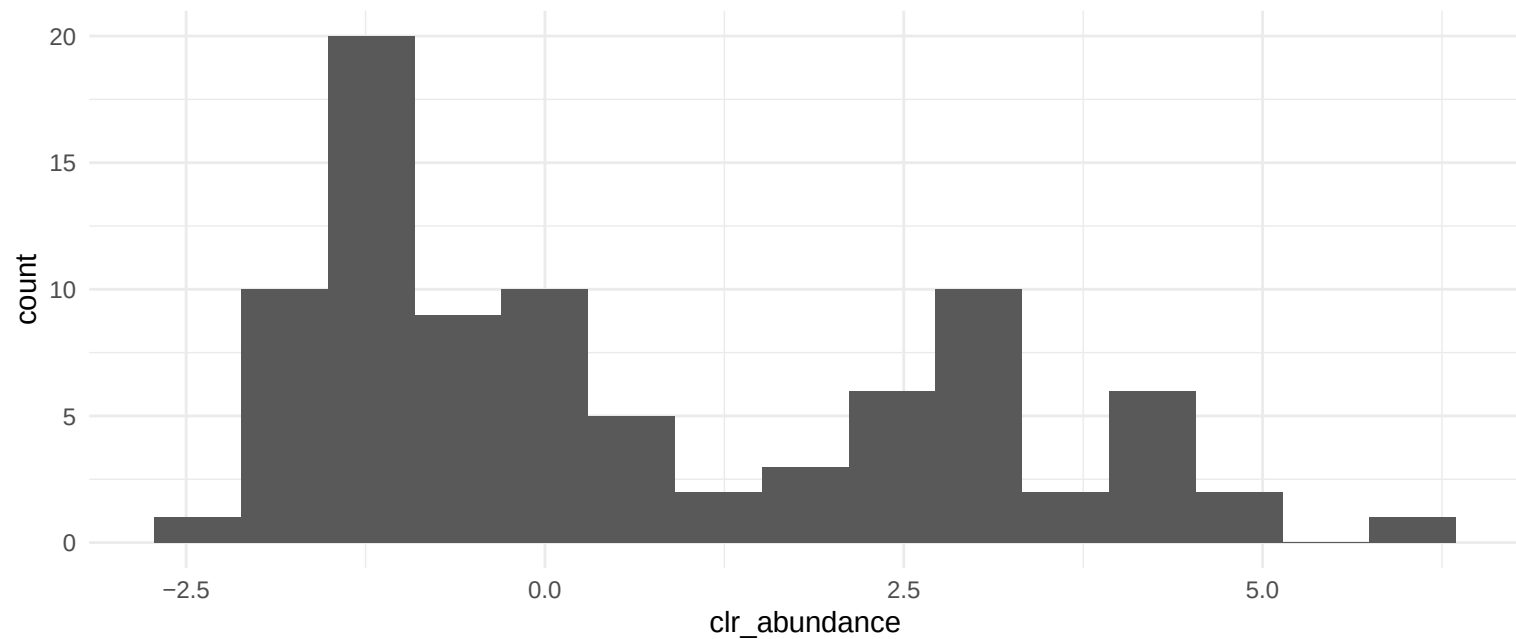

Distribution for 05202 Transcriptional misregulation in cancer

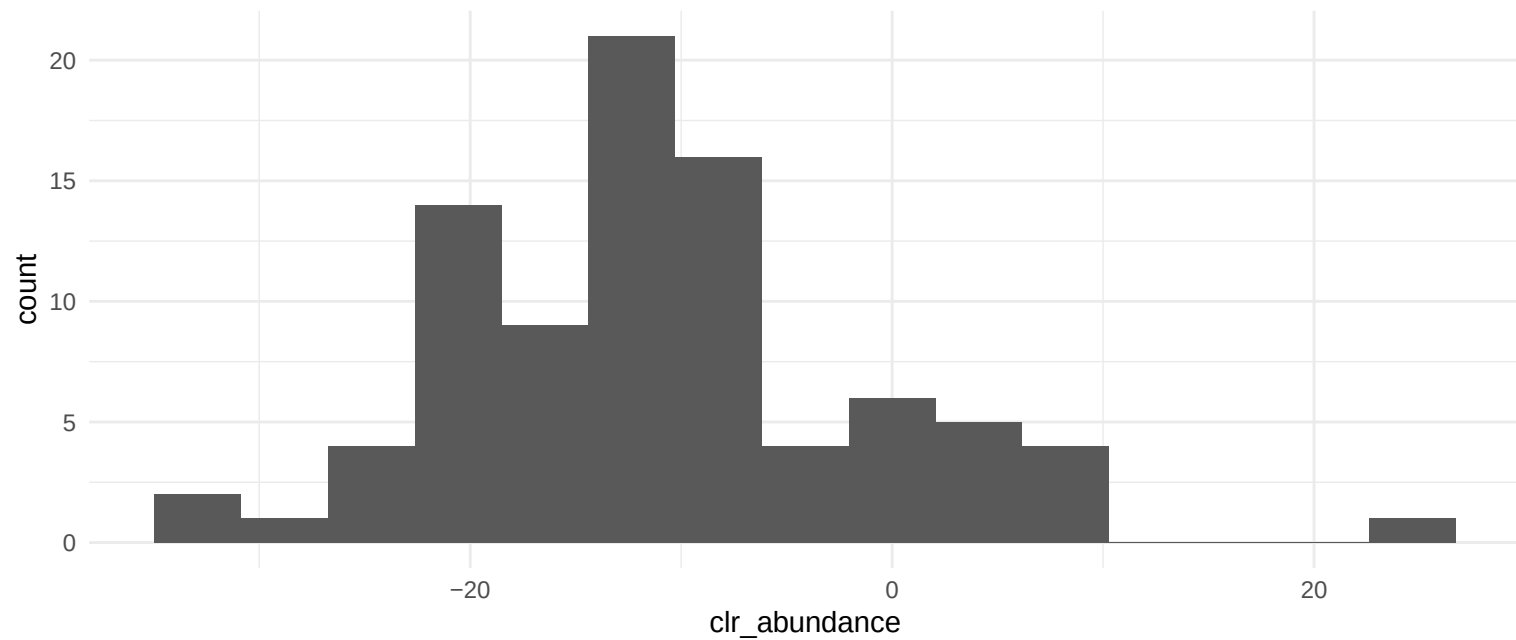

Distribution for 05203 Viral carcinogenesis

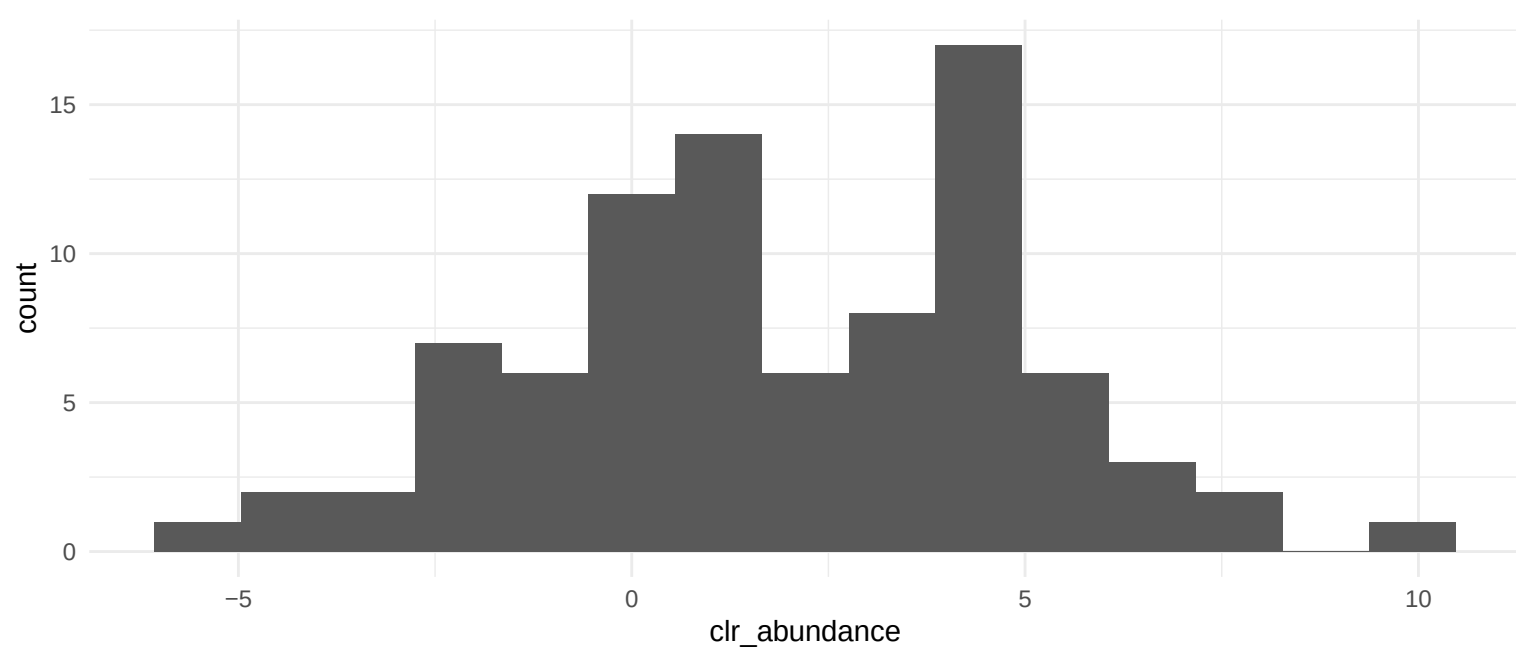

Distribution for 05204 Chemical carcinogenesis – DNA adducts

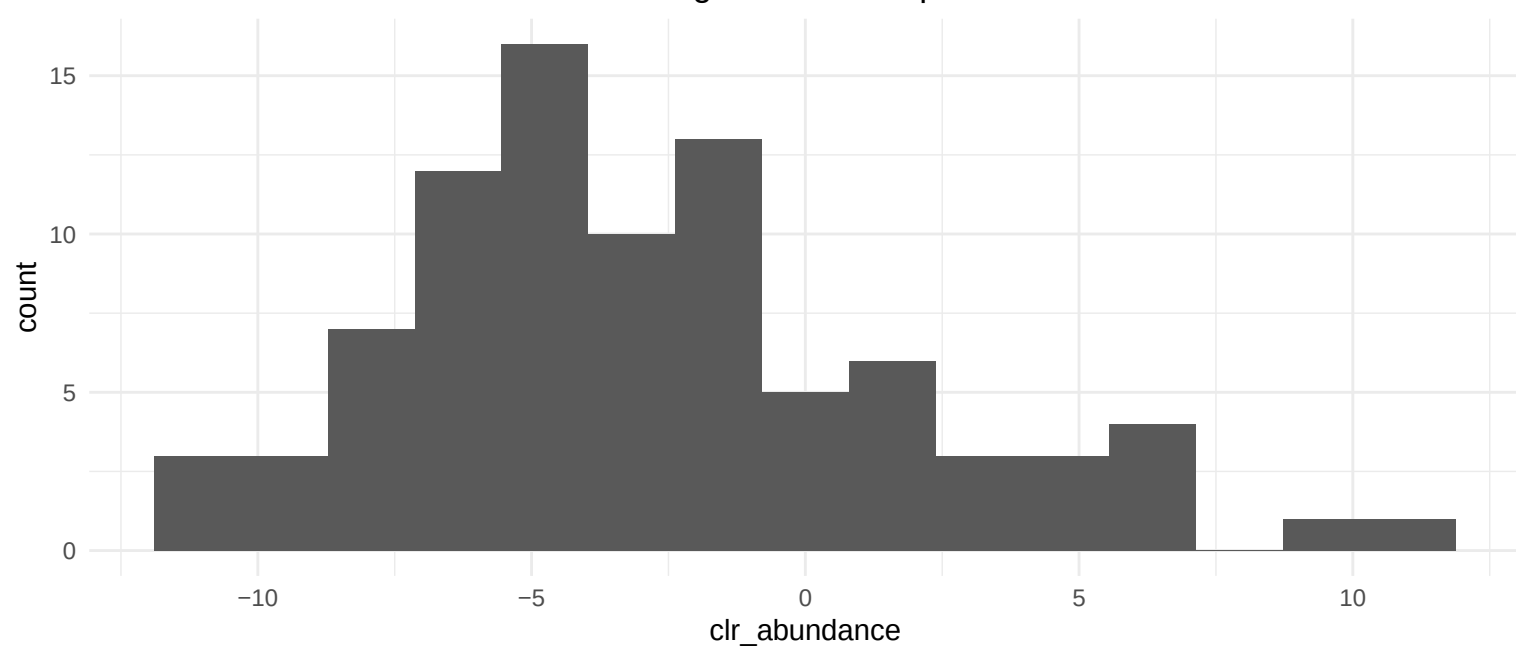

Distribution for 05205 Proteoglycans in cancer

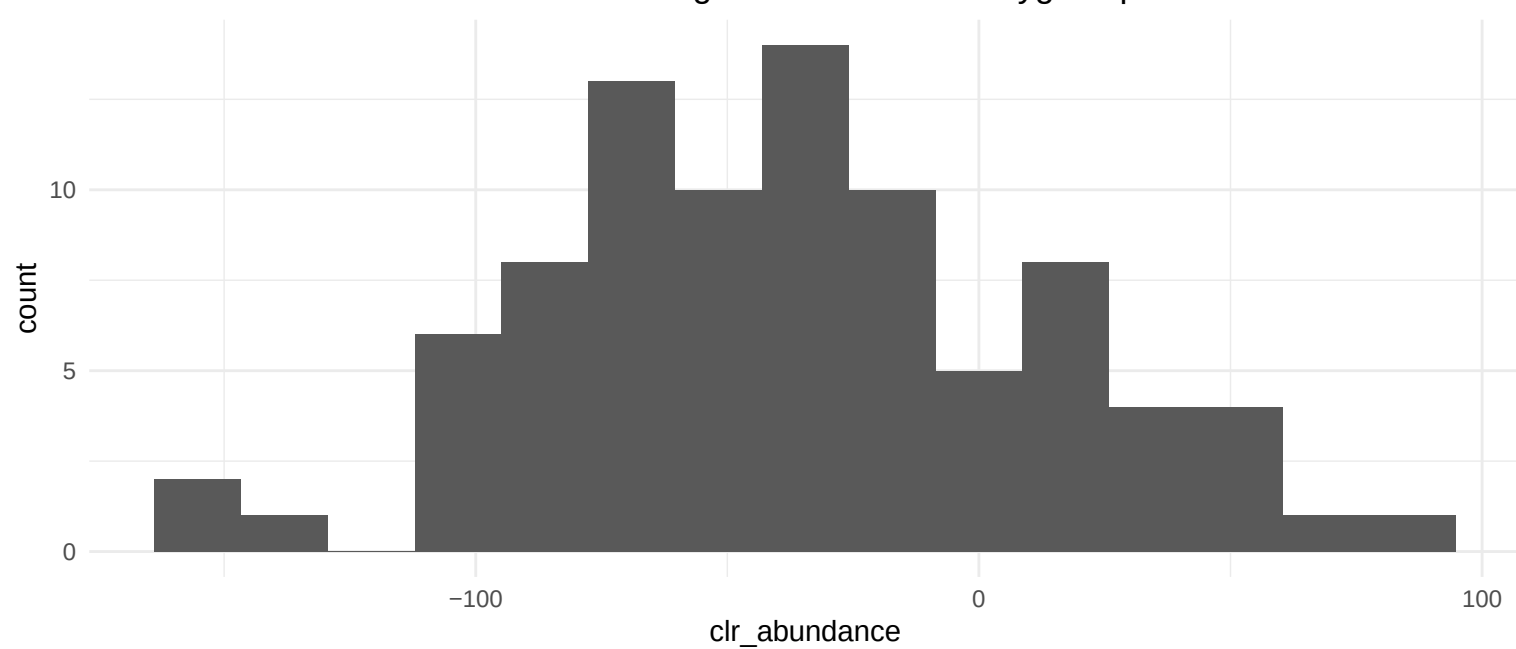

Distribution for 05206 MicroRNAs in cancer

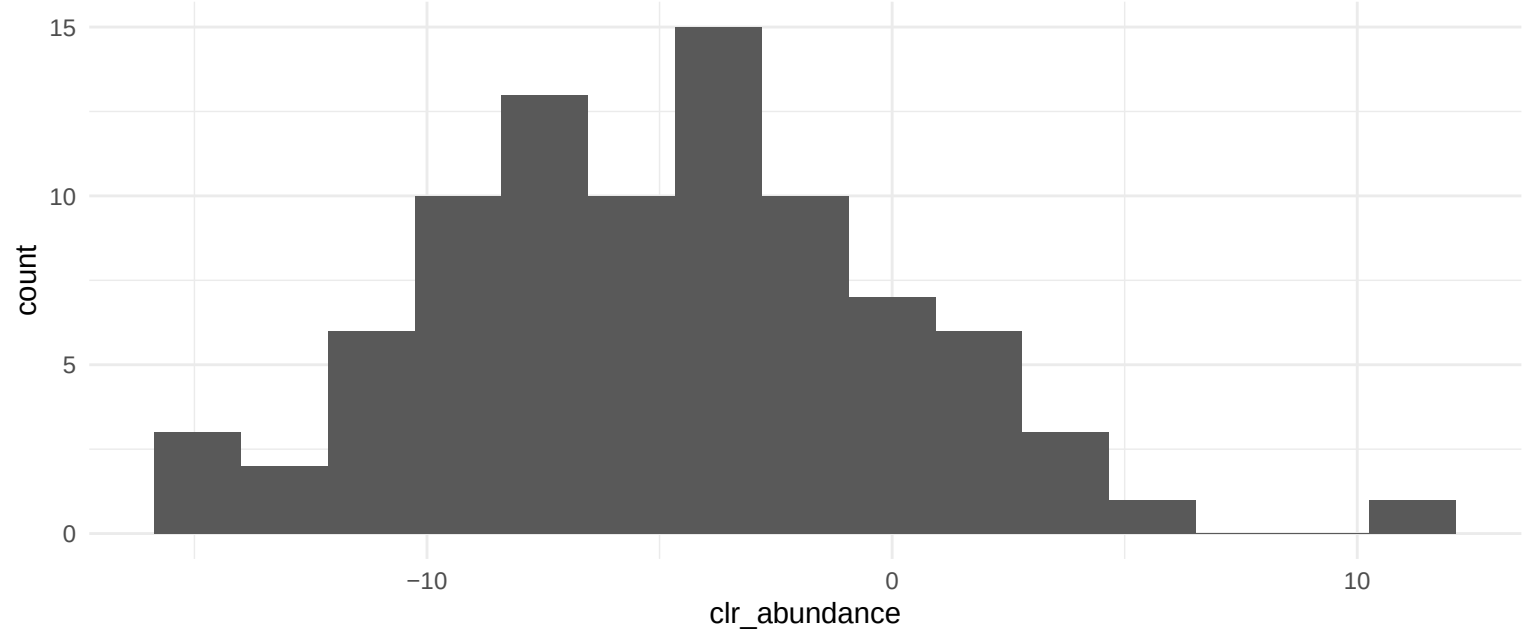

Distribution for 05207 Chemical carcinogenesis – receptor activation

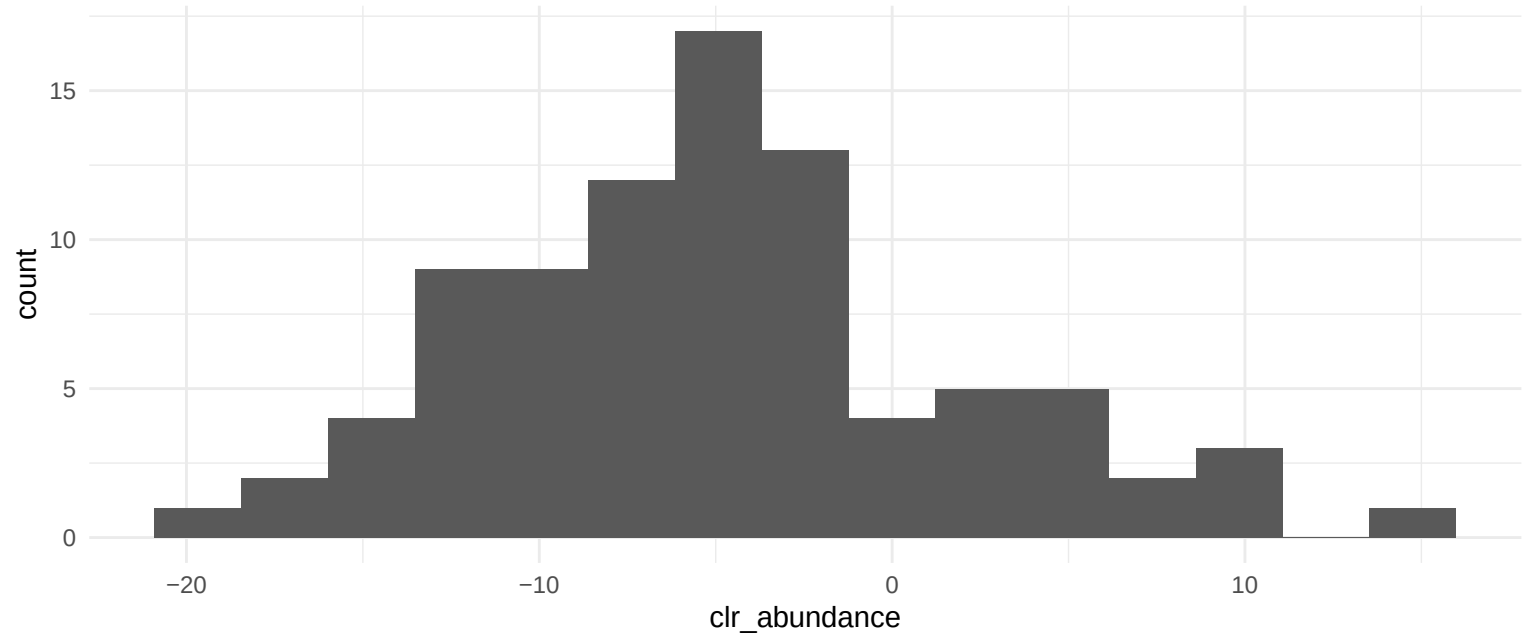

Distribution for 05208 Chemical carcinogenesis – reactive oxygen species

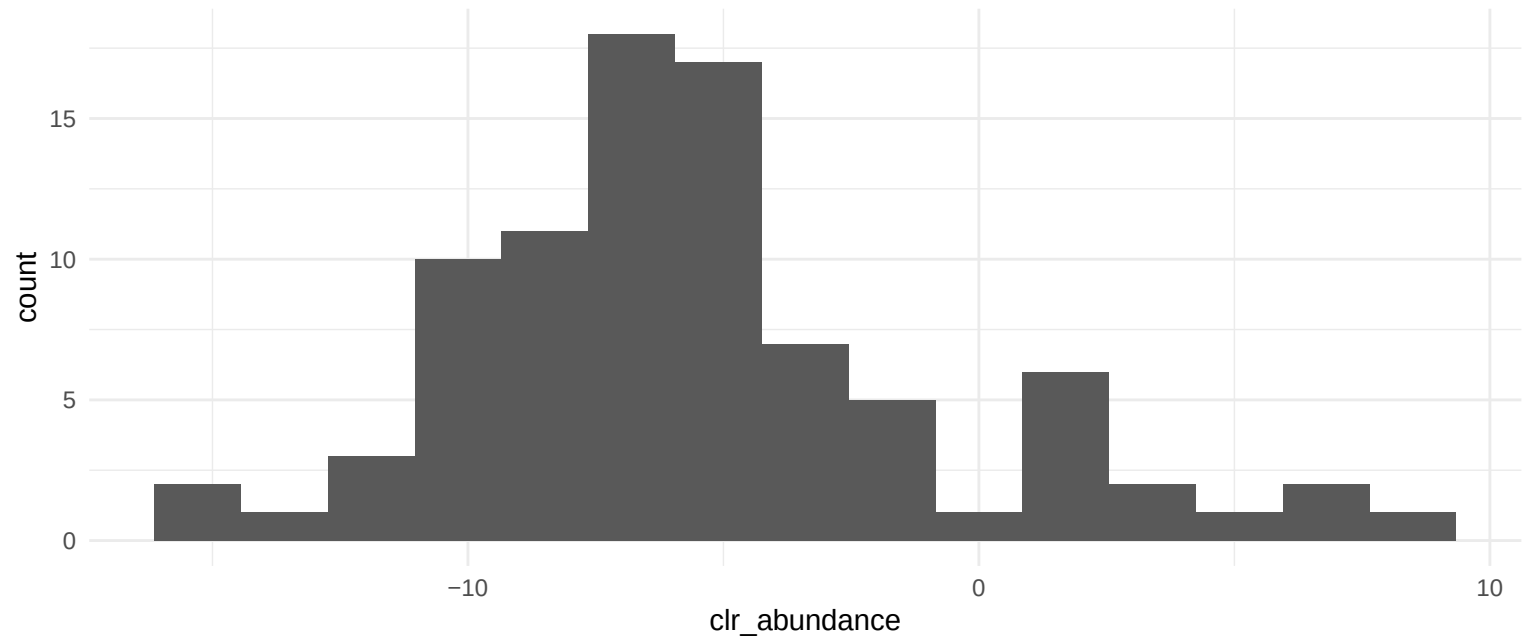

Distribution for 05210 Colorectal cancer

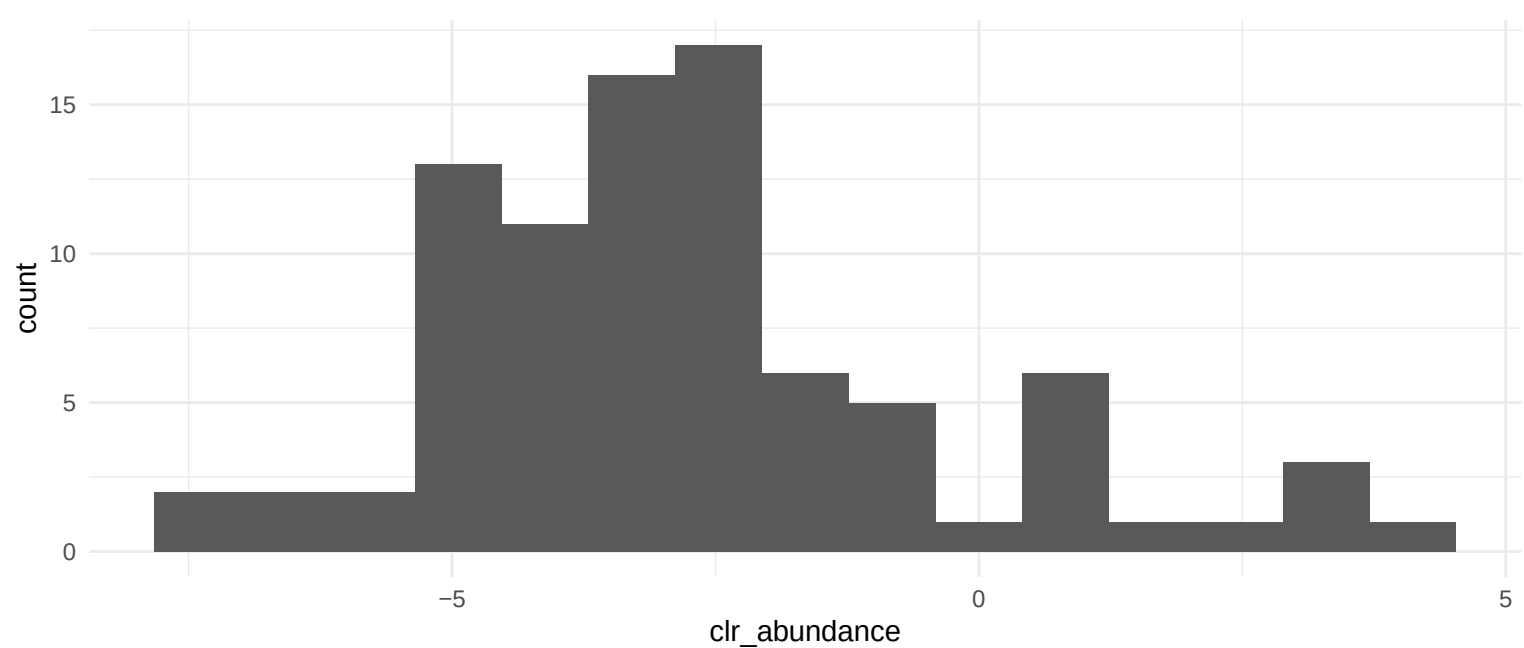

Distribution for 05211 Renal cell carcinoma

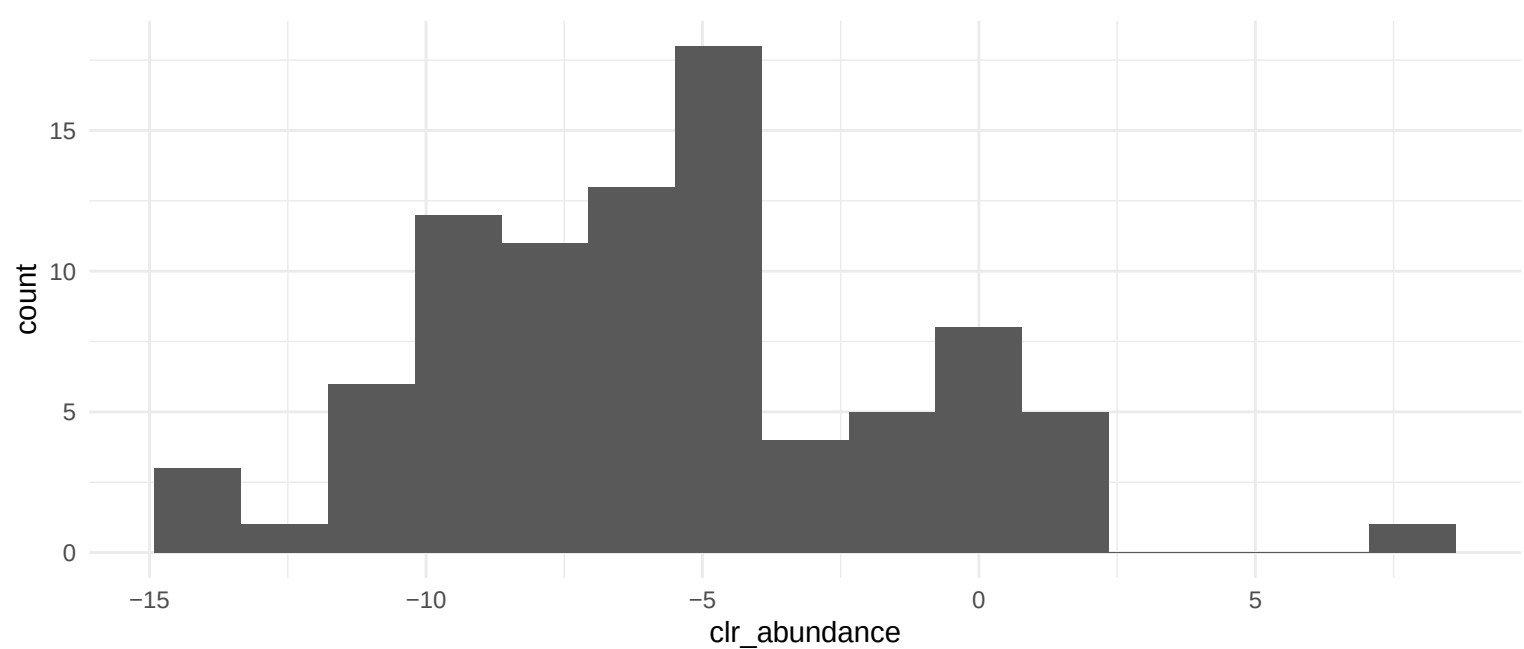

Distribution for 05212 Pancreatic cancer

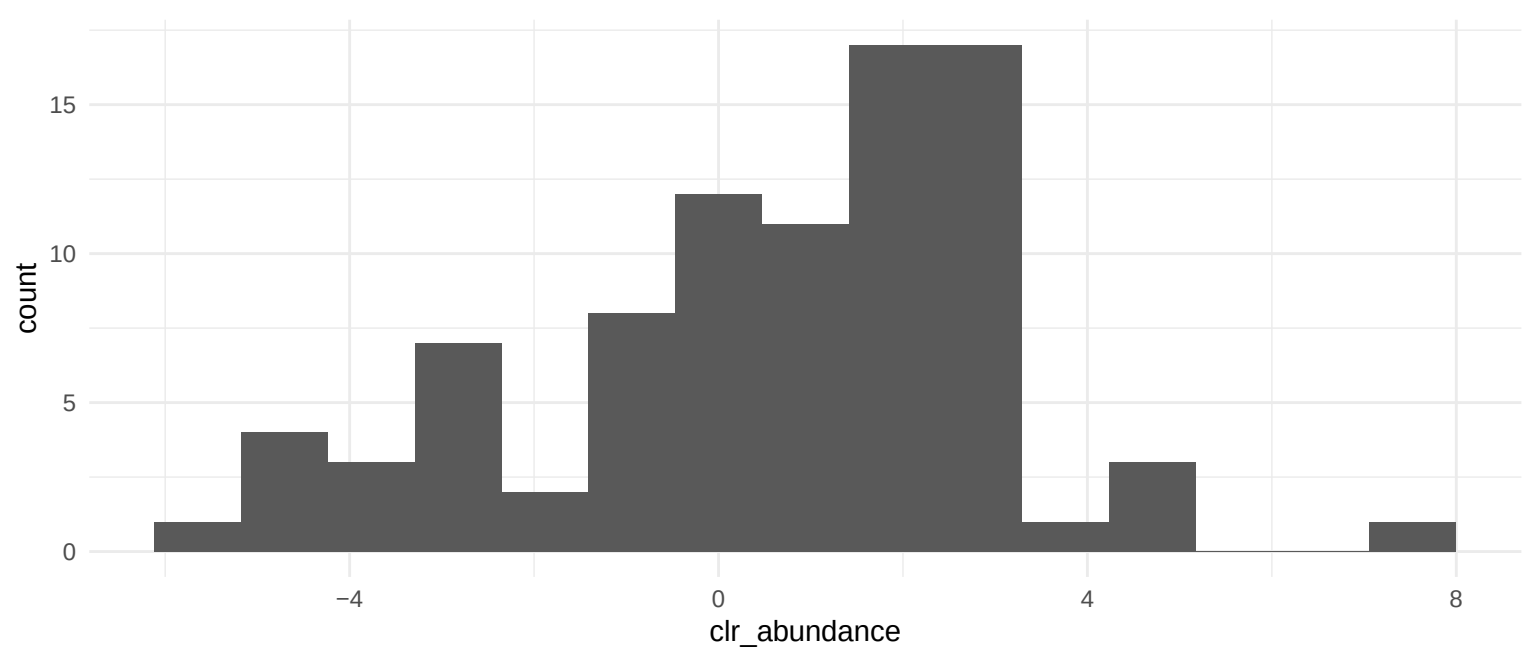

Distribution for 05213 Endometrial cancer

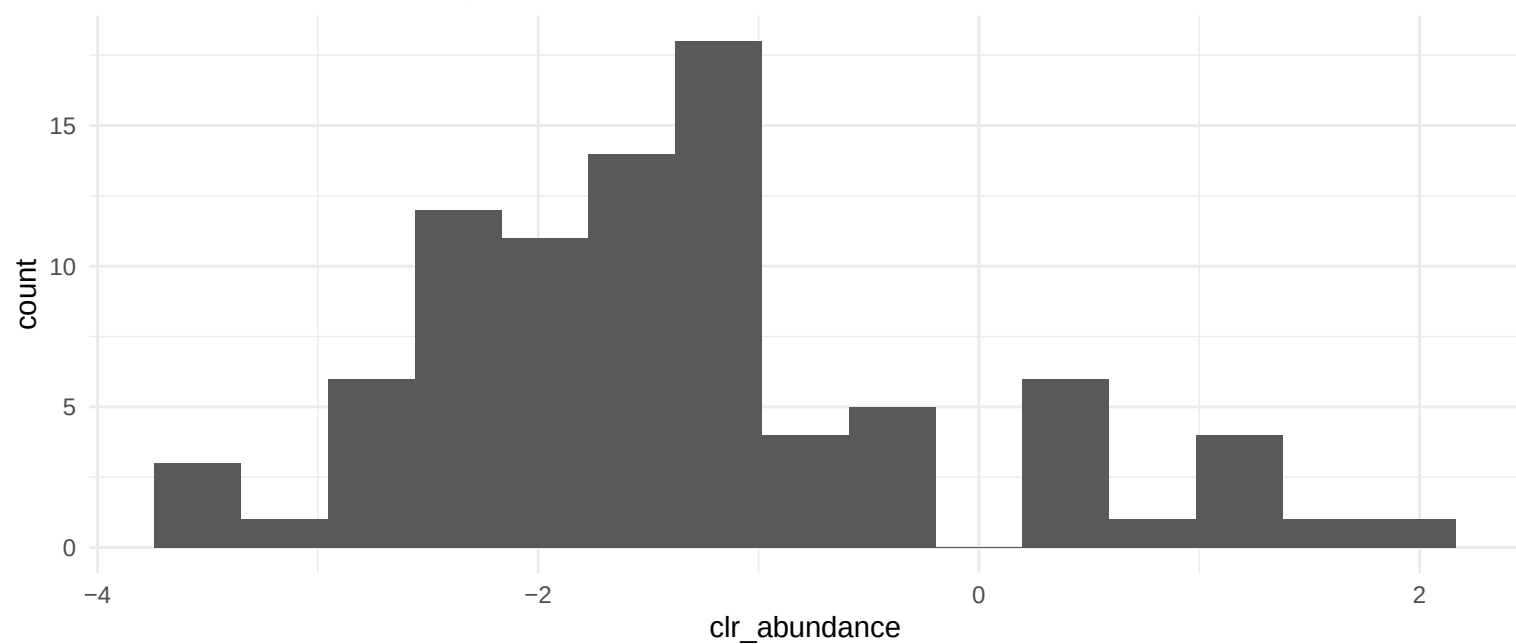

Distribution for 05214 Glioma

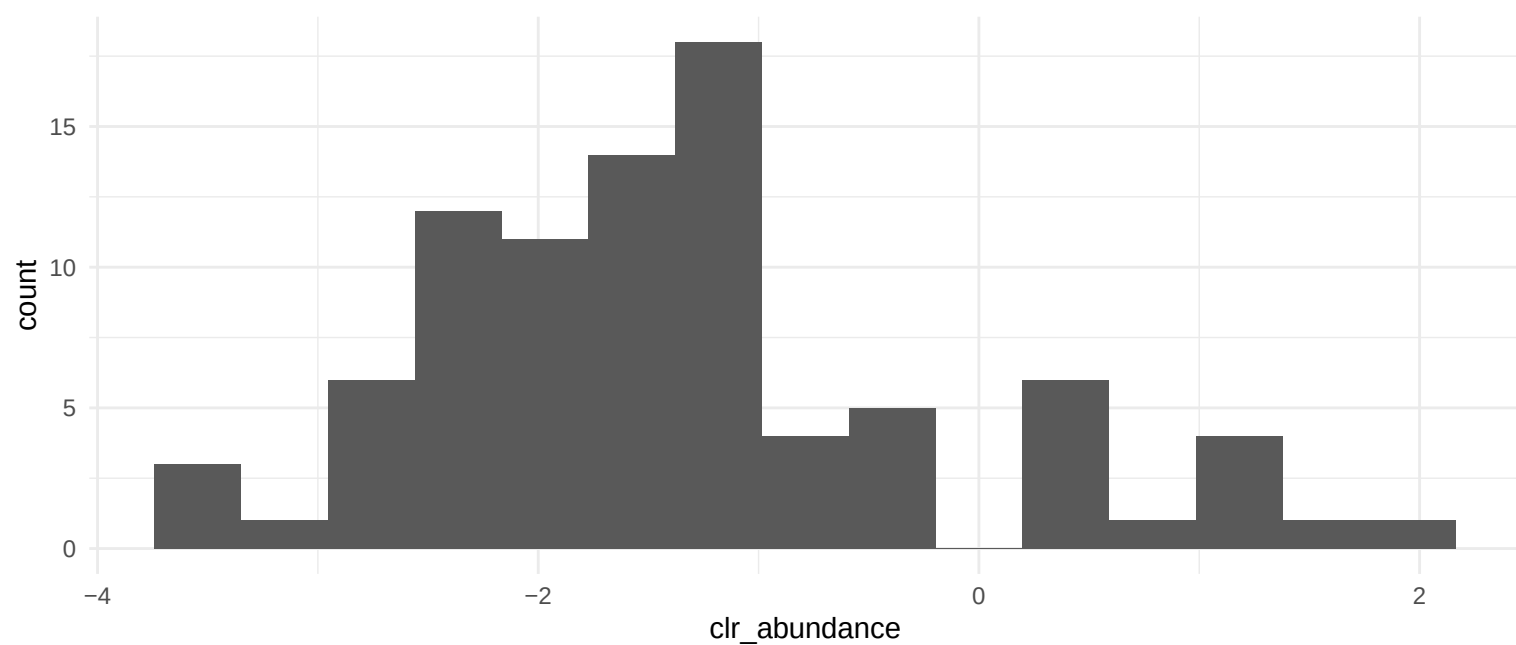

Distribution for 05215 Prostate cancer

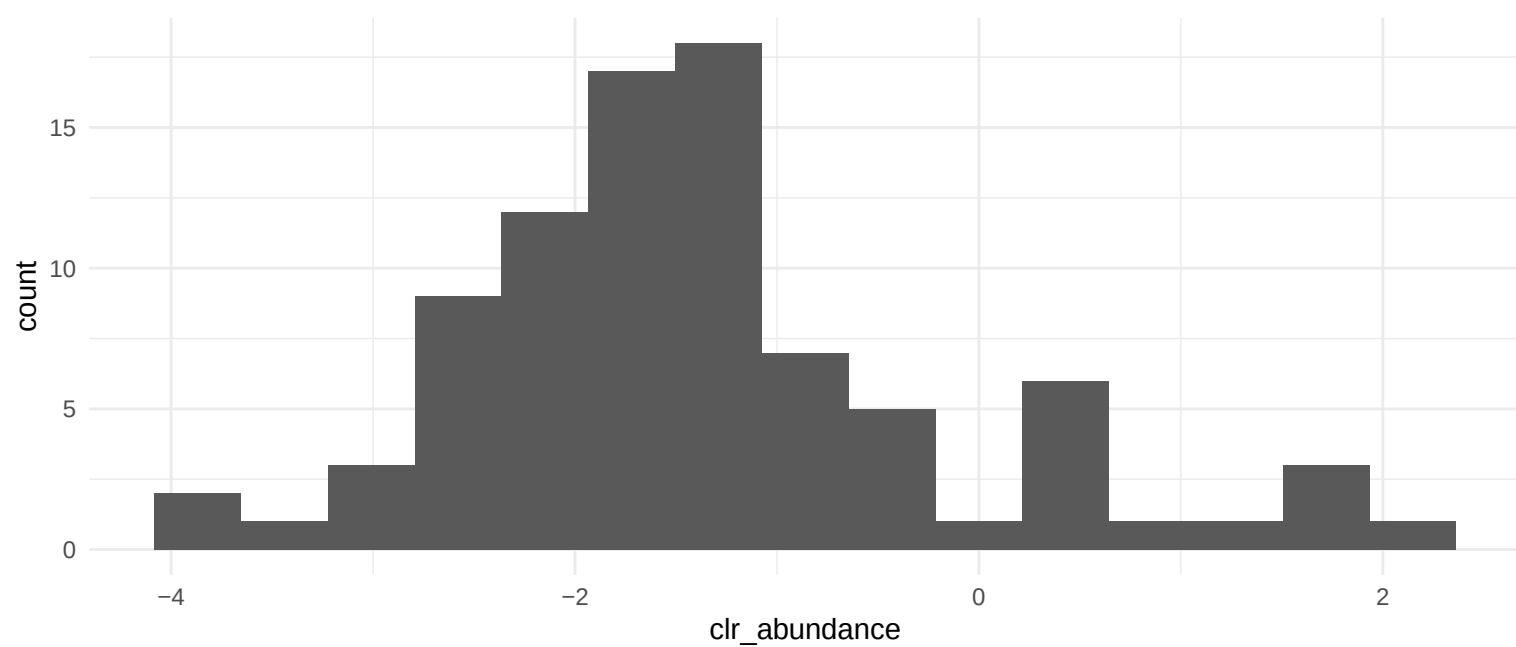

Distribution for 05216 Thyroid cancer

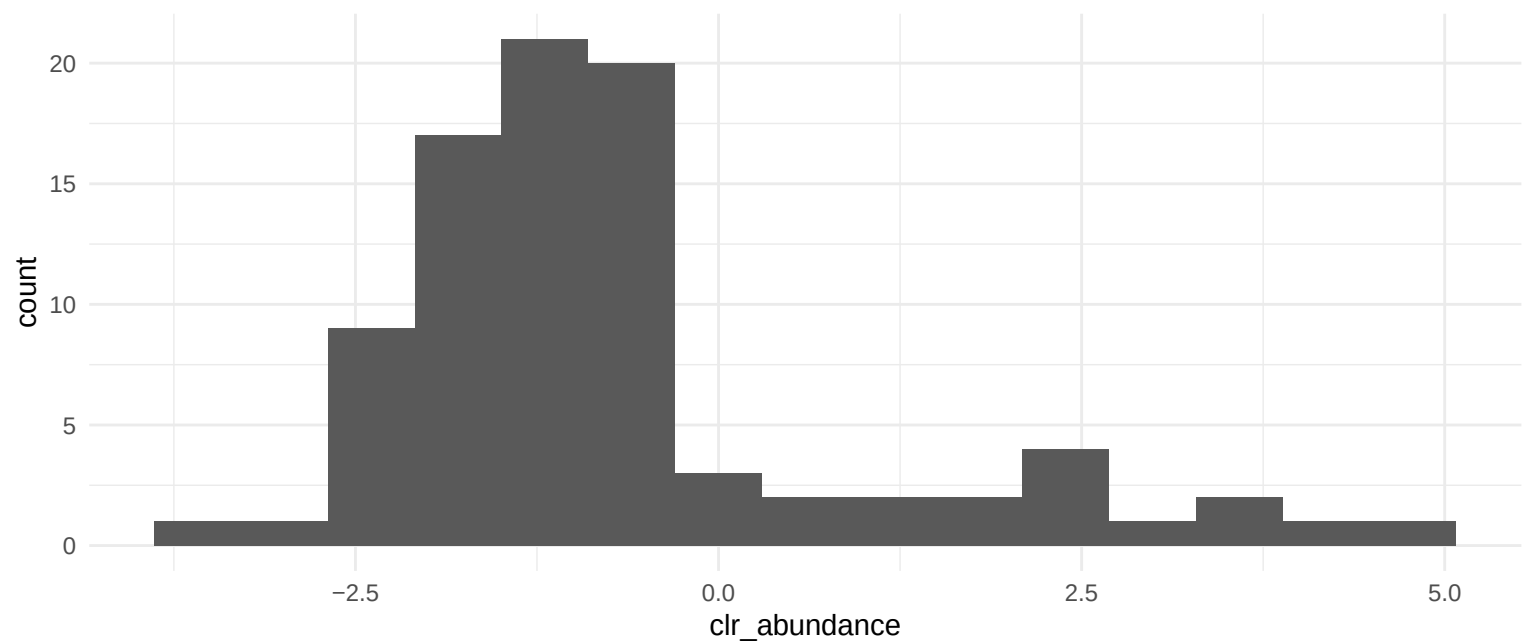

Distribution for 05217 Basal cell carcinoma

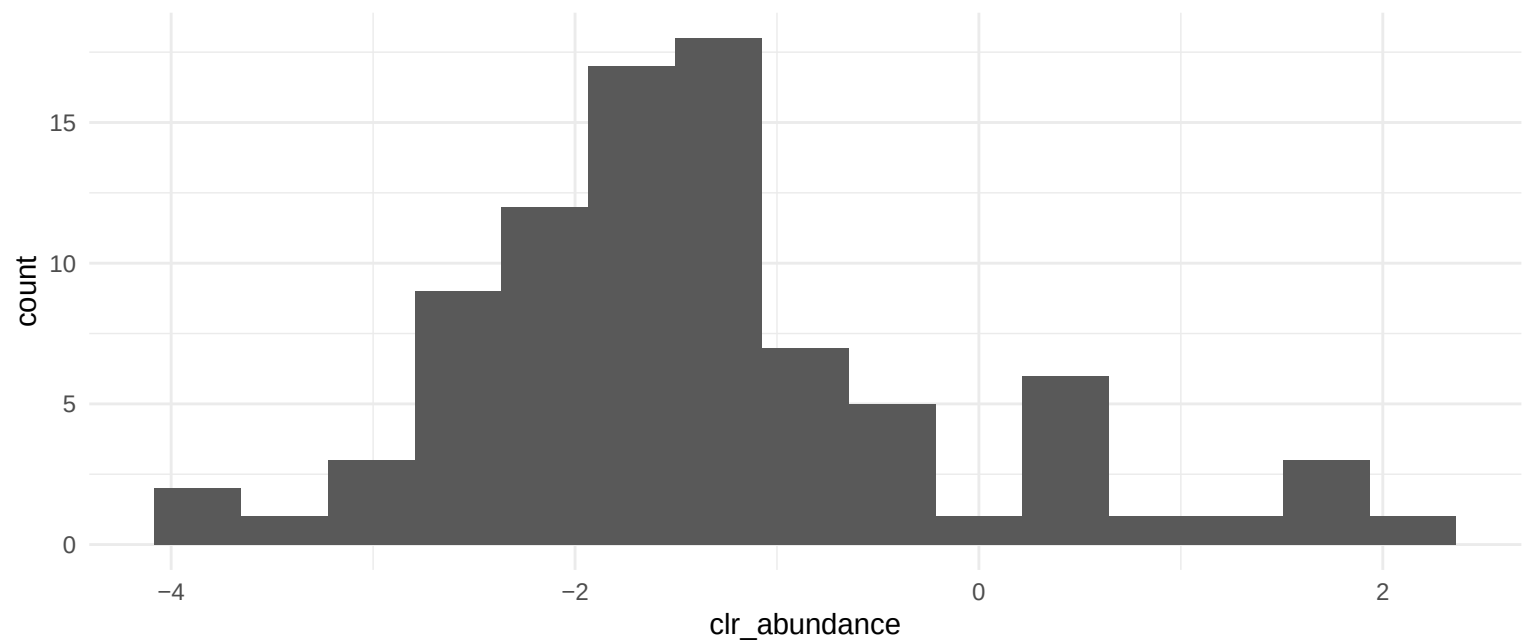

Distribution for 05218 Melanoma

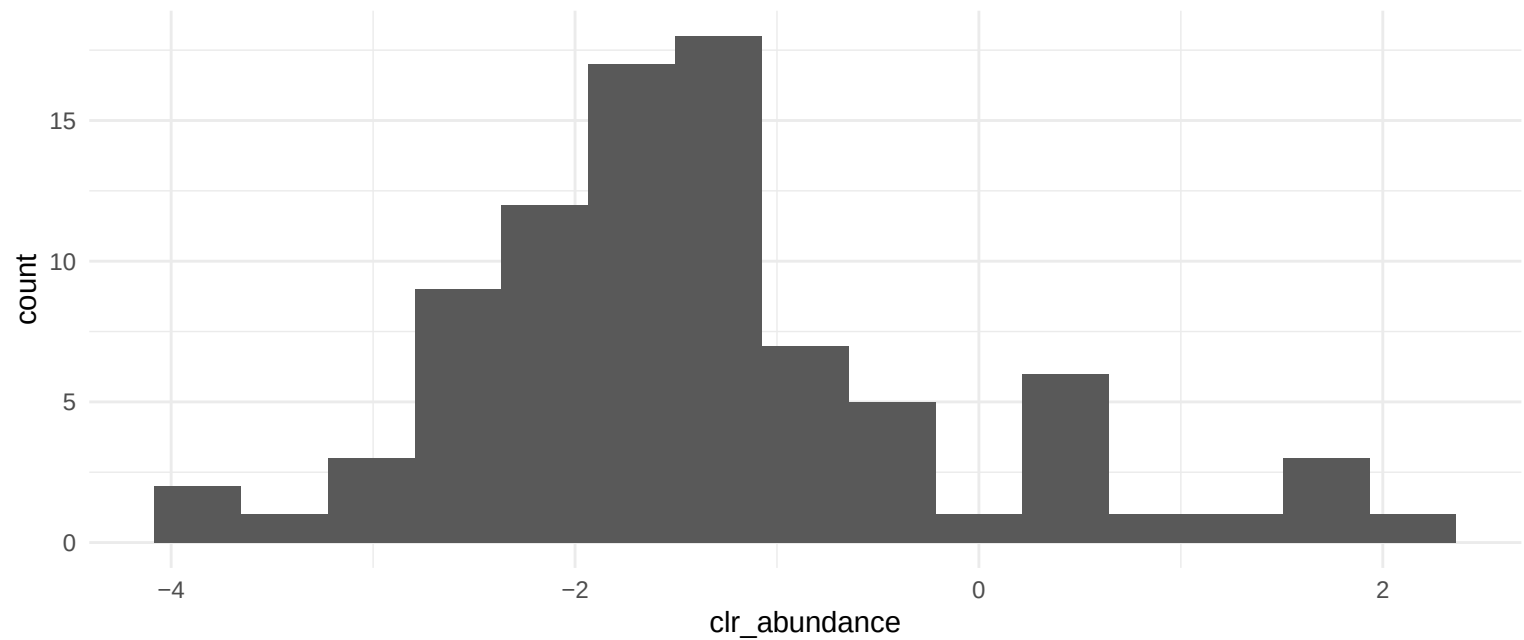

Distribution for 05219 Bladder cancer

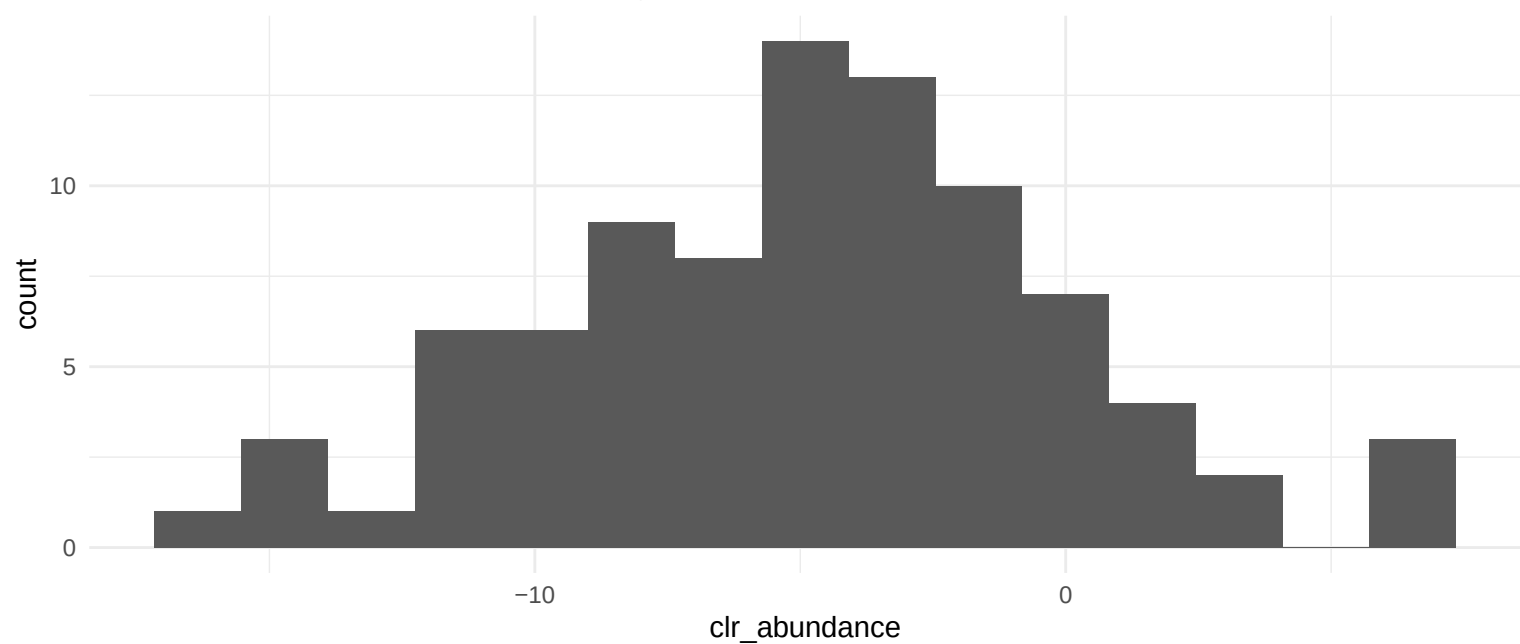

Distribution for 05220 Chronic myeloid leukemia

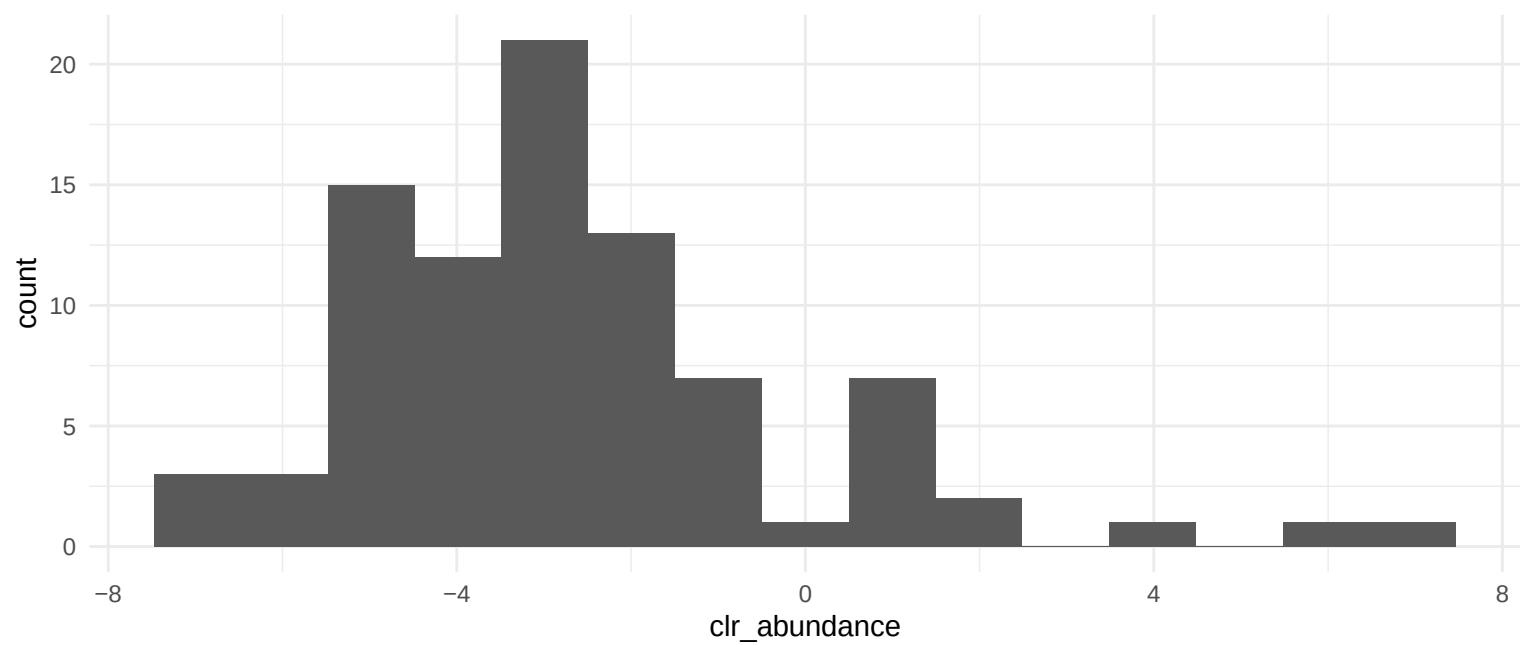

Distribution for 05221 Acute myeloid leukemia

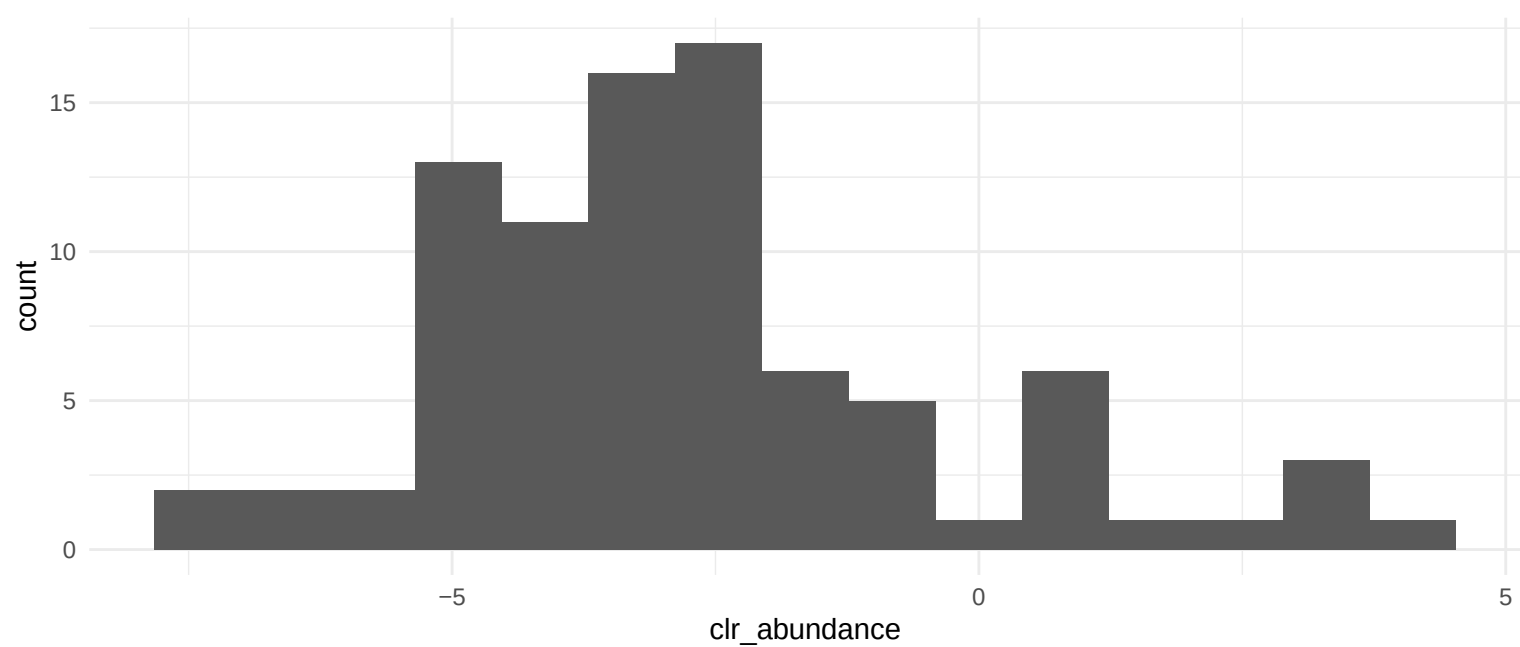

Distribution for 05222 Small cell lung cancer

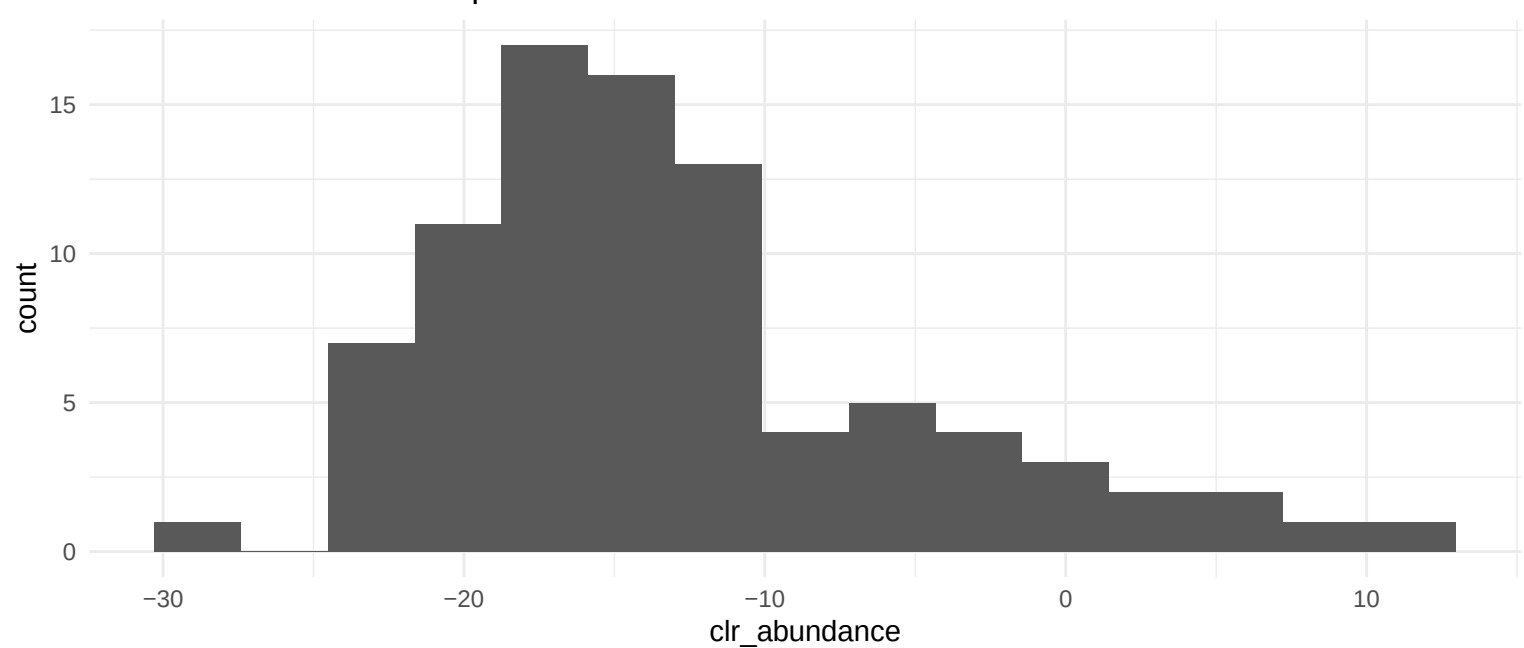

Distribution for 05223 Non-small cell lung cancer

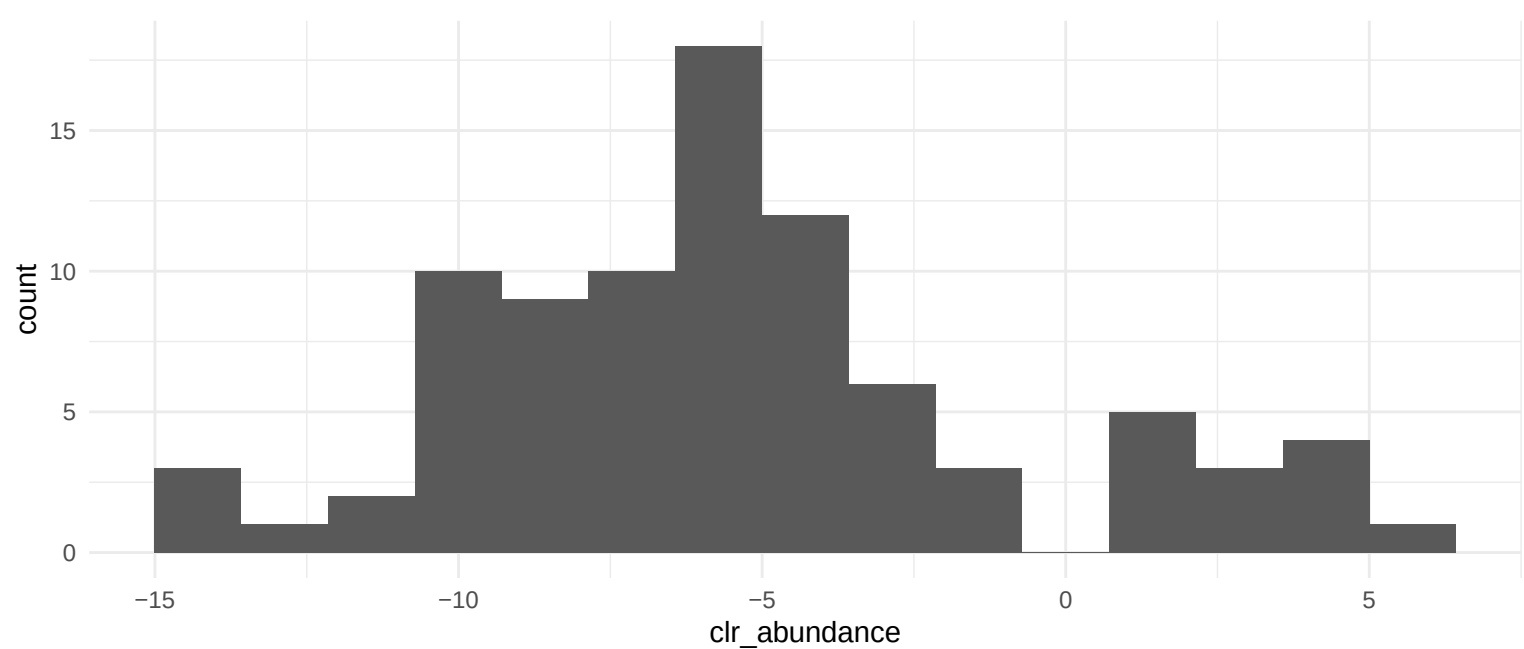

Distribution for 05224 Breast cancer

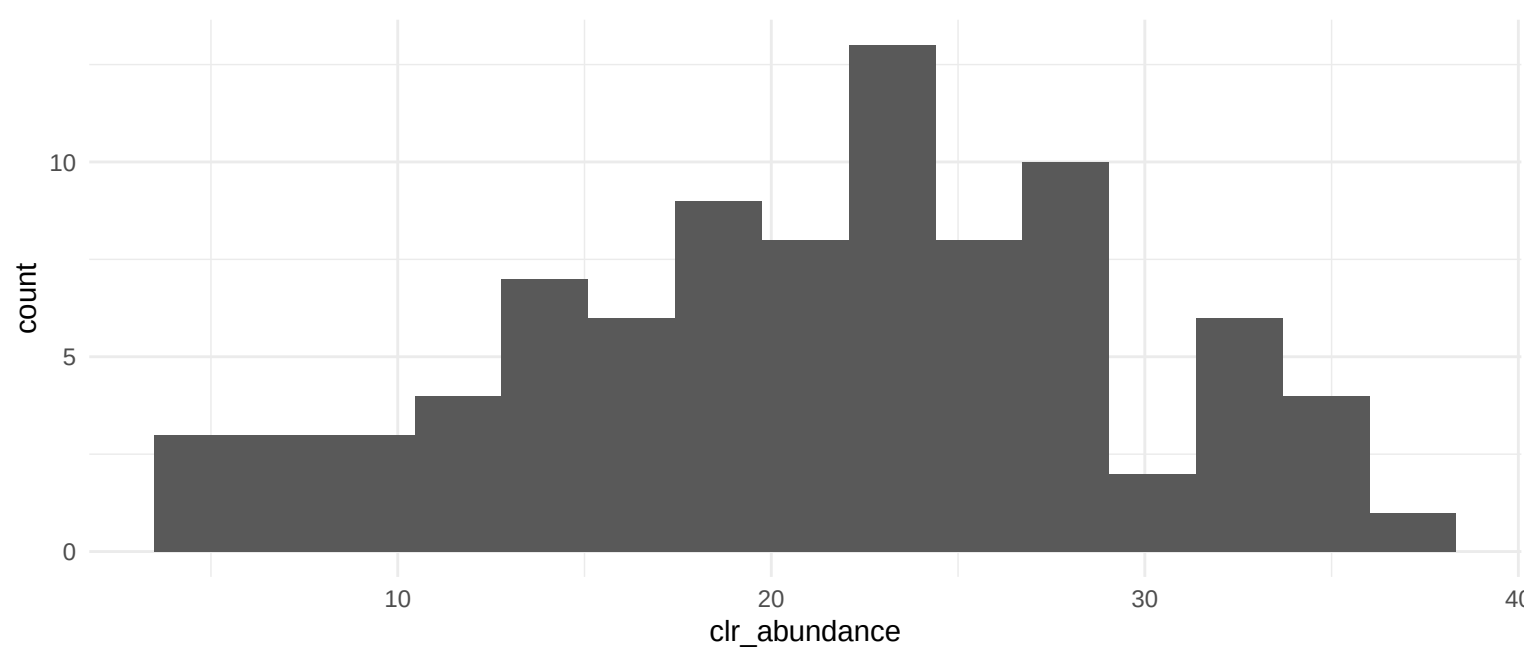

Distribution for 05225 Hepatocellular carcinoma

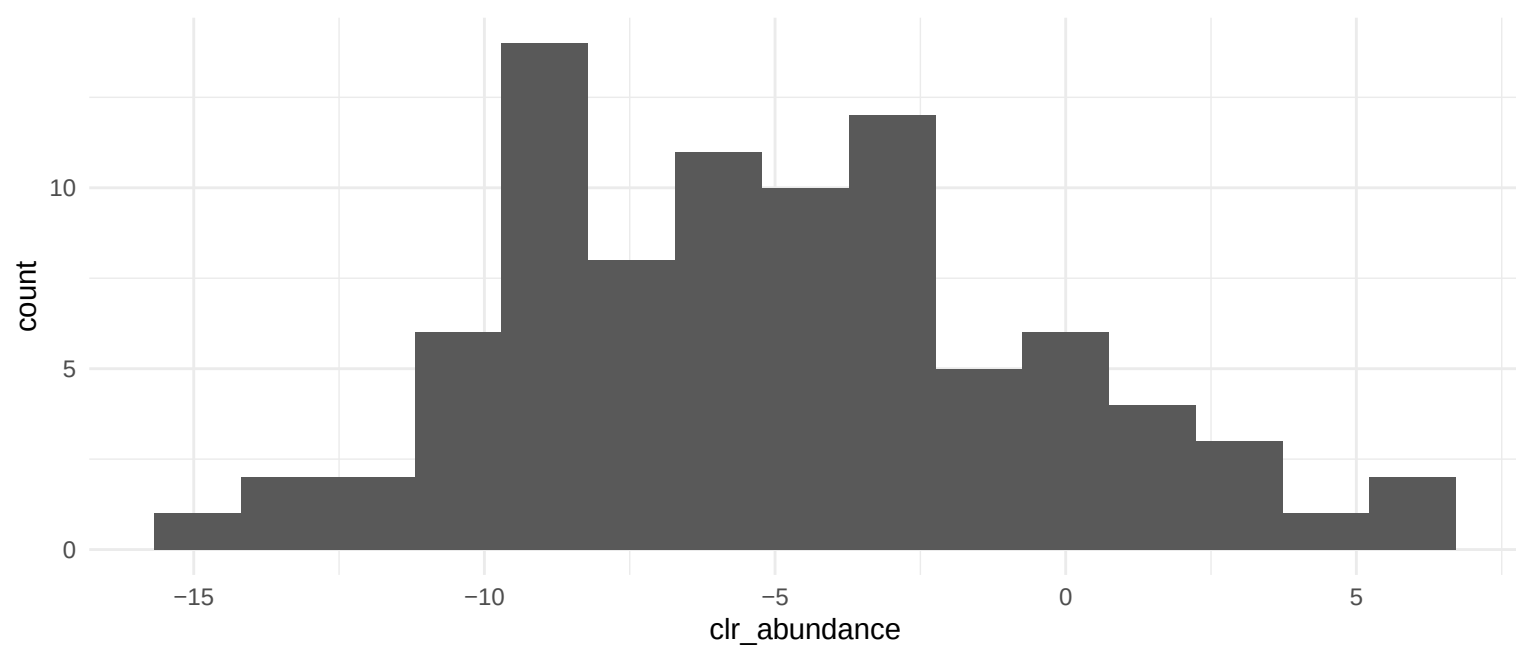

Distribution for 05226 Gastric cancer

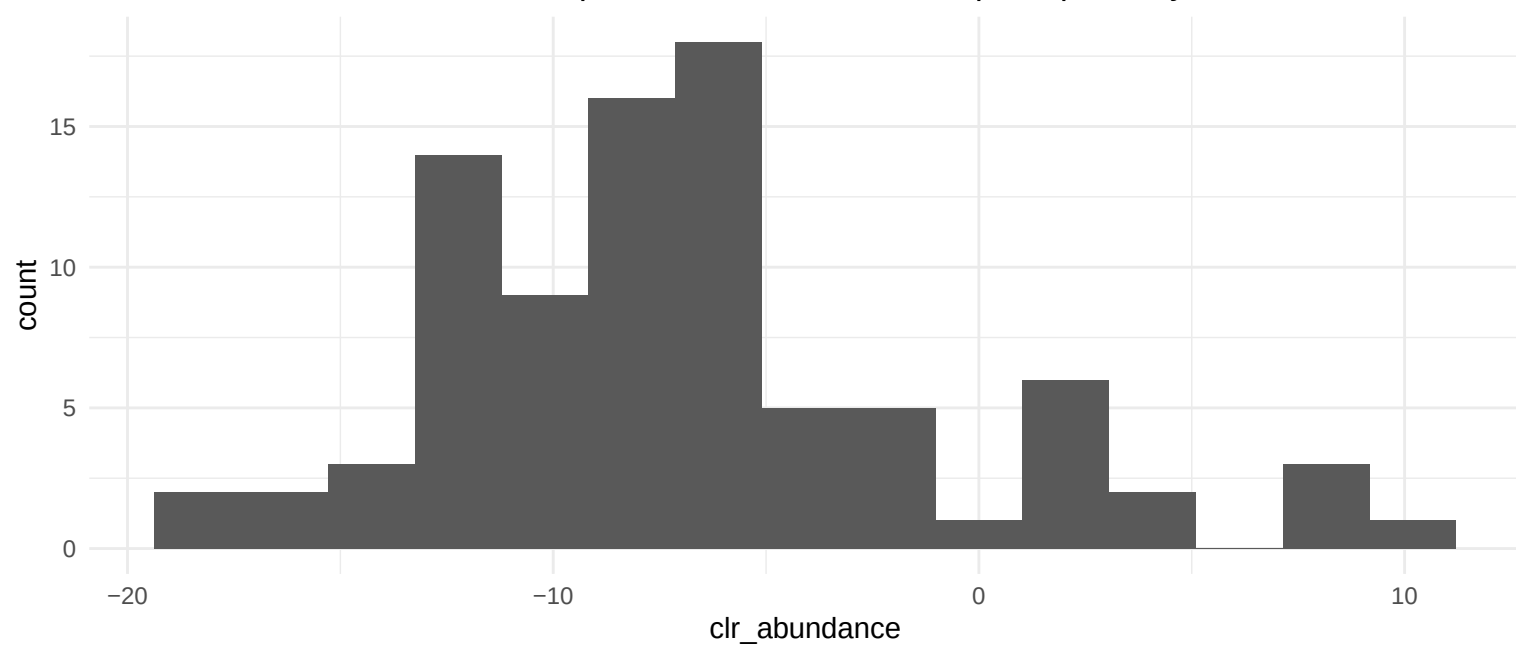

Distribution for 05230 Central carbon metabolism in cancer

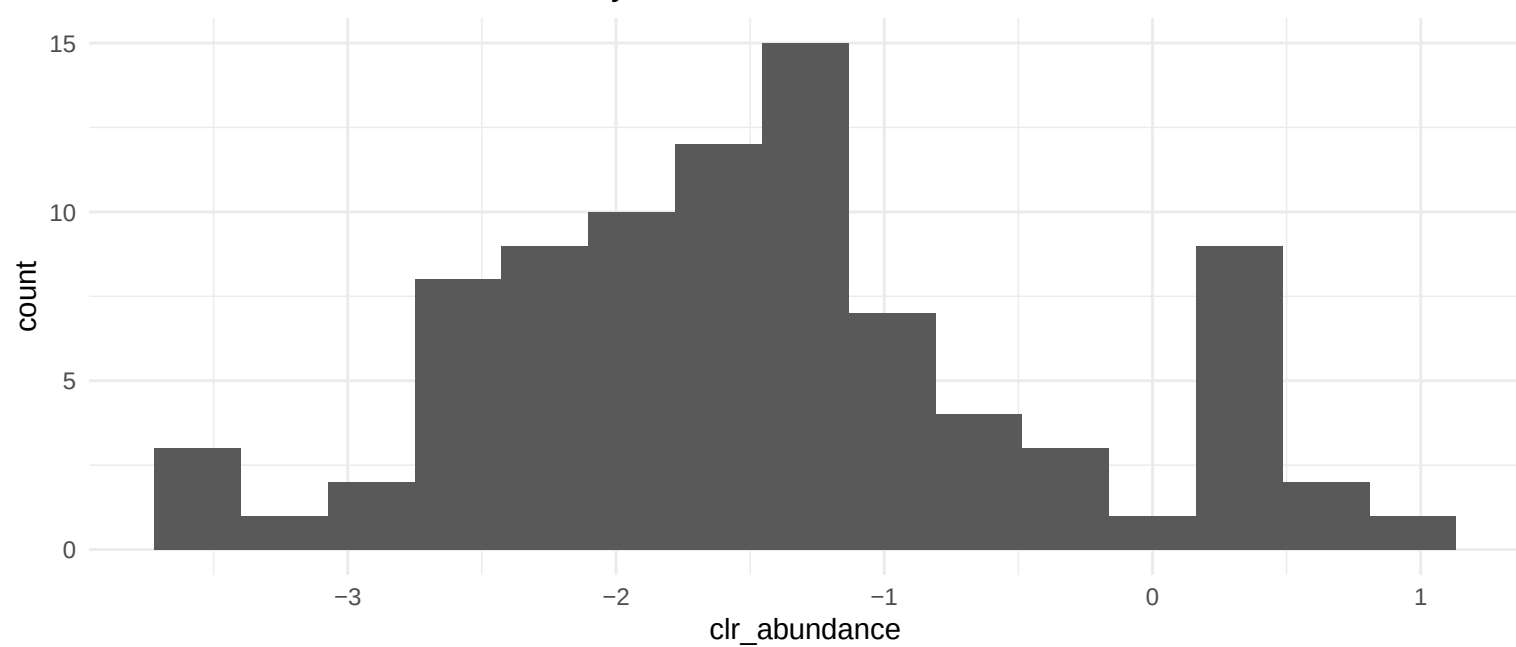

Distribution for 05231 Choline metabolism in cancer

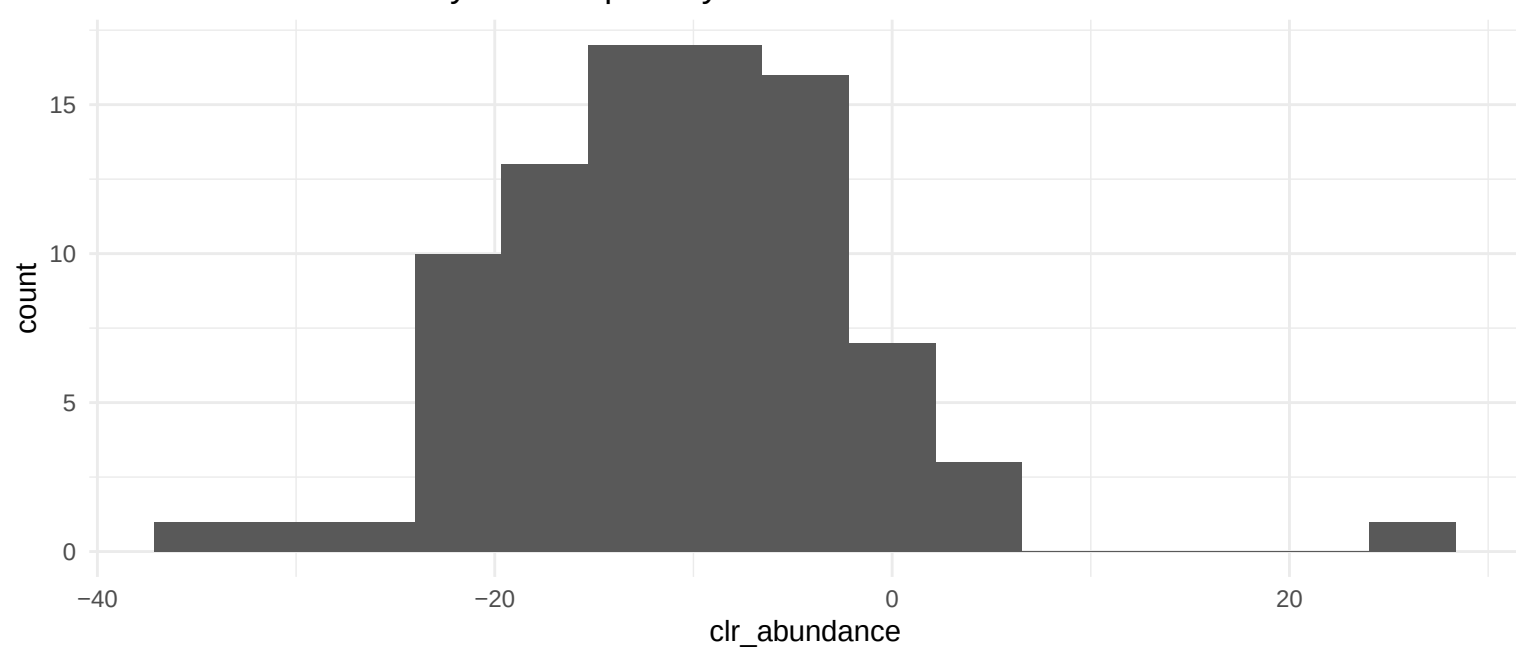

Distribution for 05235 PD-L1 expression and PD-1 checkpoint pathway in cancer

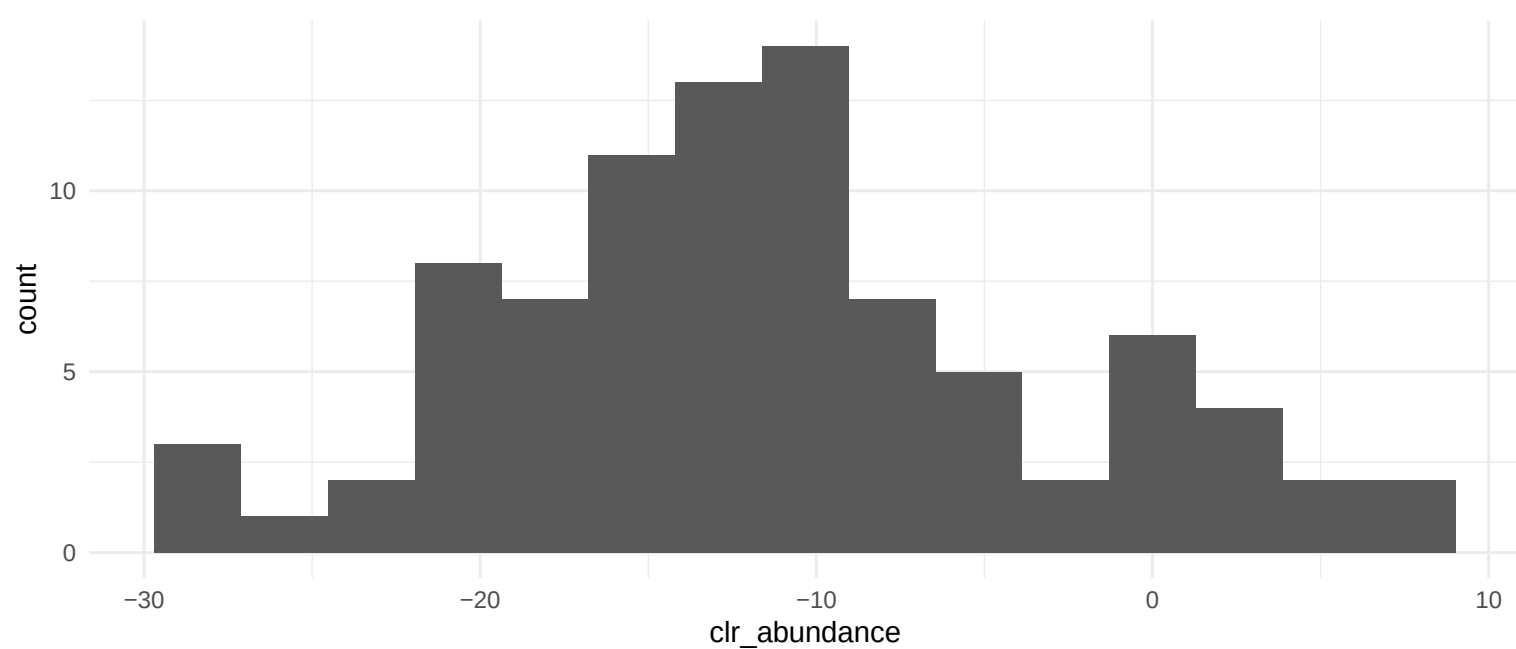

Distribution for 05321 Inflammatory bowel disease

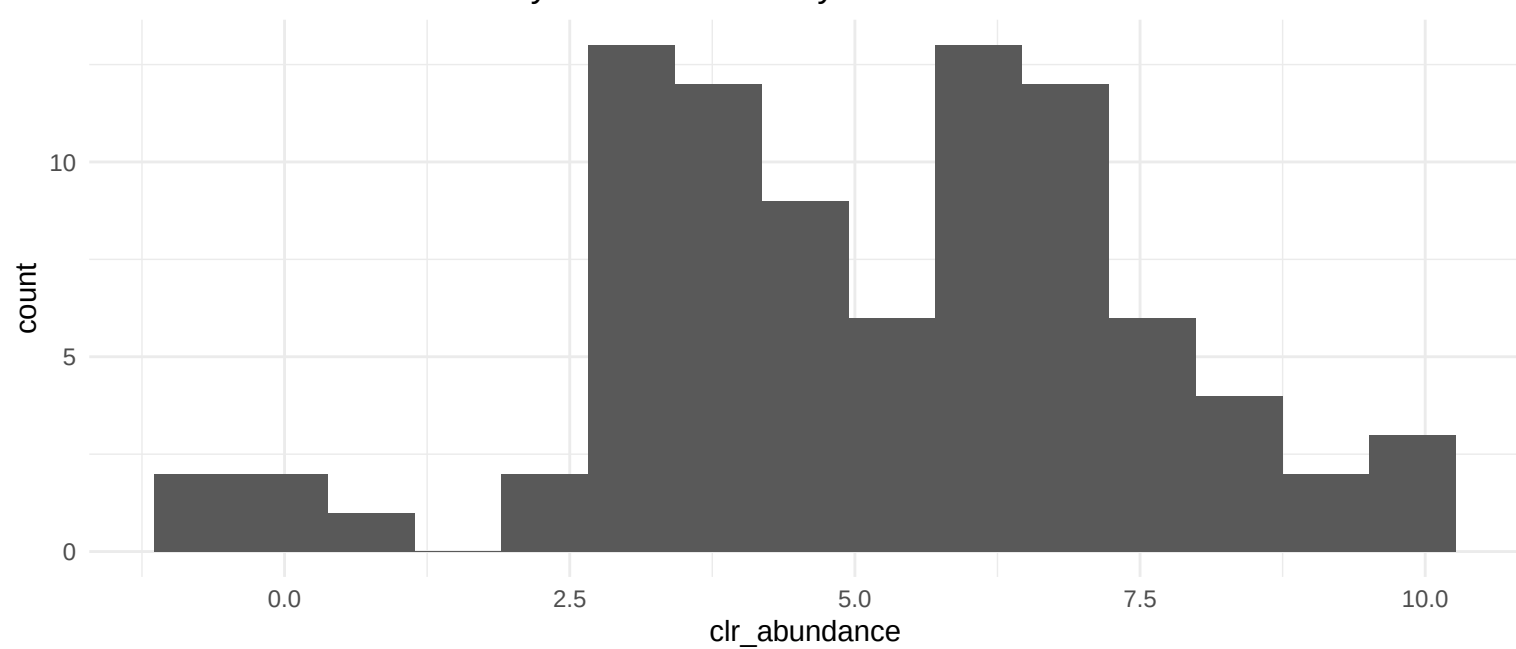

Distribution for 05322 Systemic lupus erythematosus

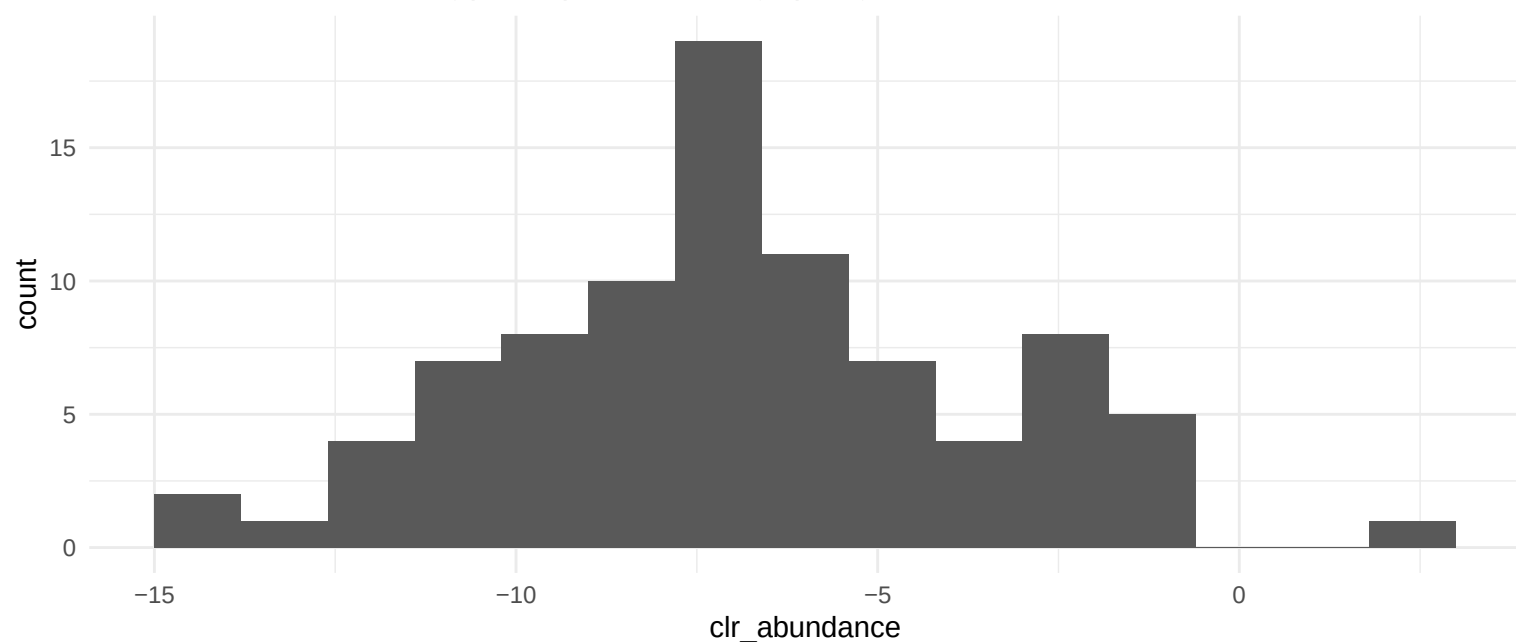

Distribution for 05323 Rheumatoid arthritis

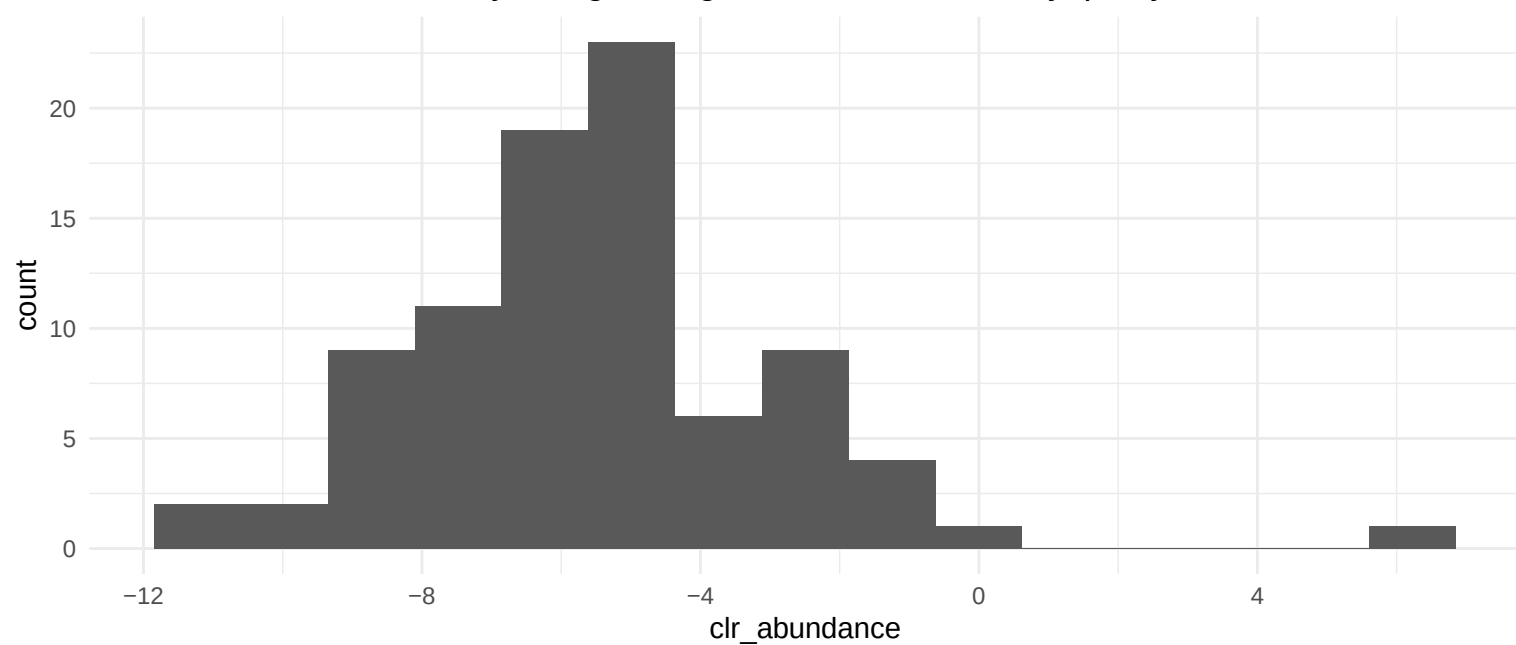

Distribution for 05340 Primary immunodeficiency

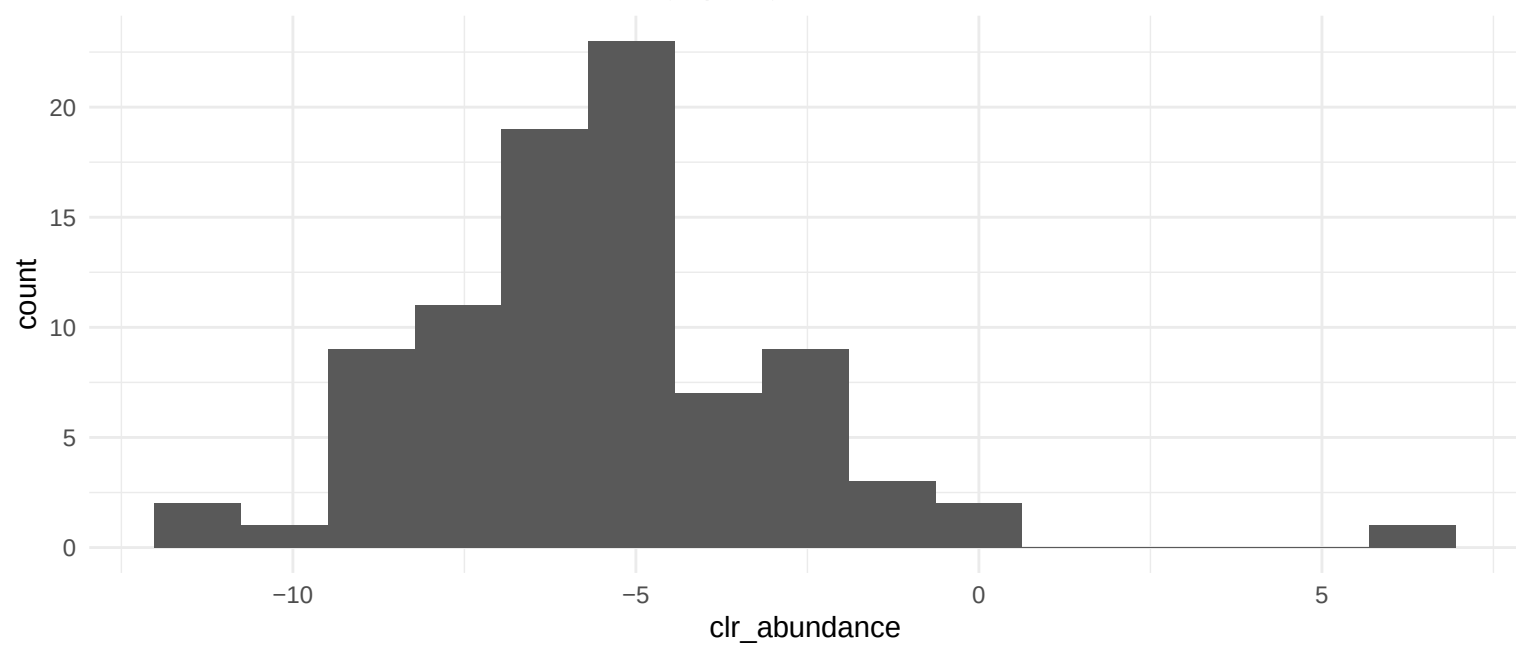

Distribution for 05410 Hypertrophic cardiomyopathy

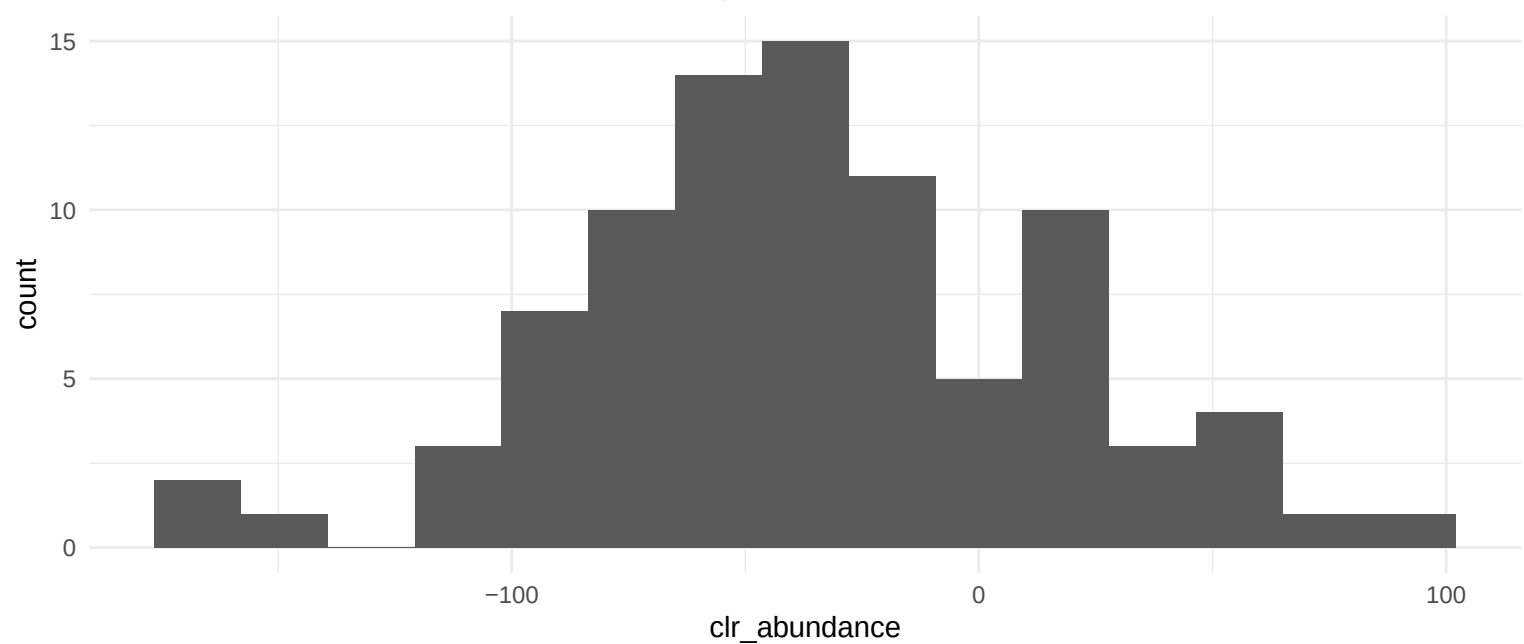

Distribution for 05412 Arrhythmogenic right ventricular cardiomyopathy

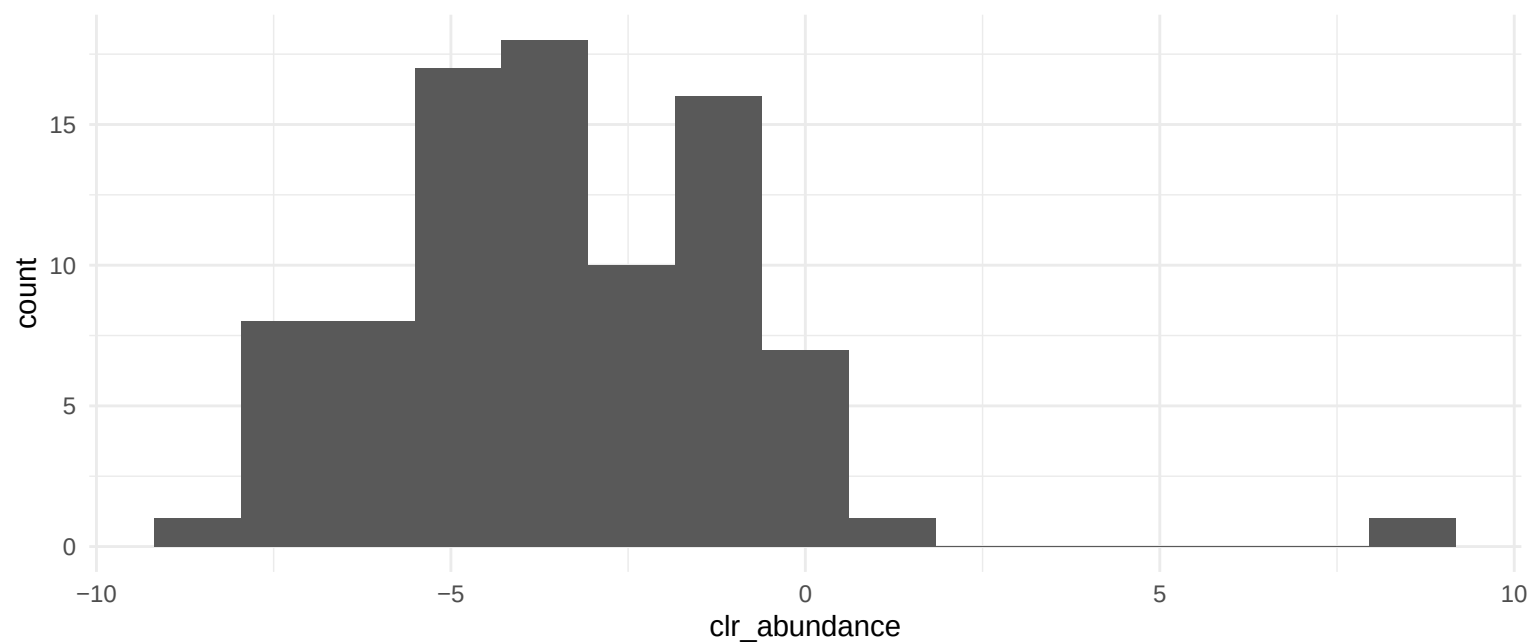

Distribution for 05414 Dilated cardiomyopathy

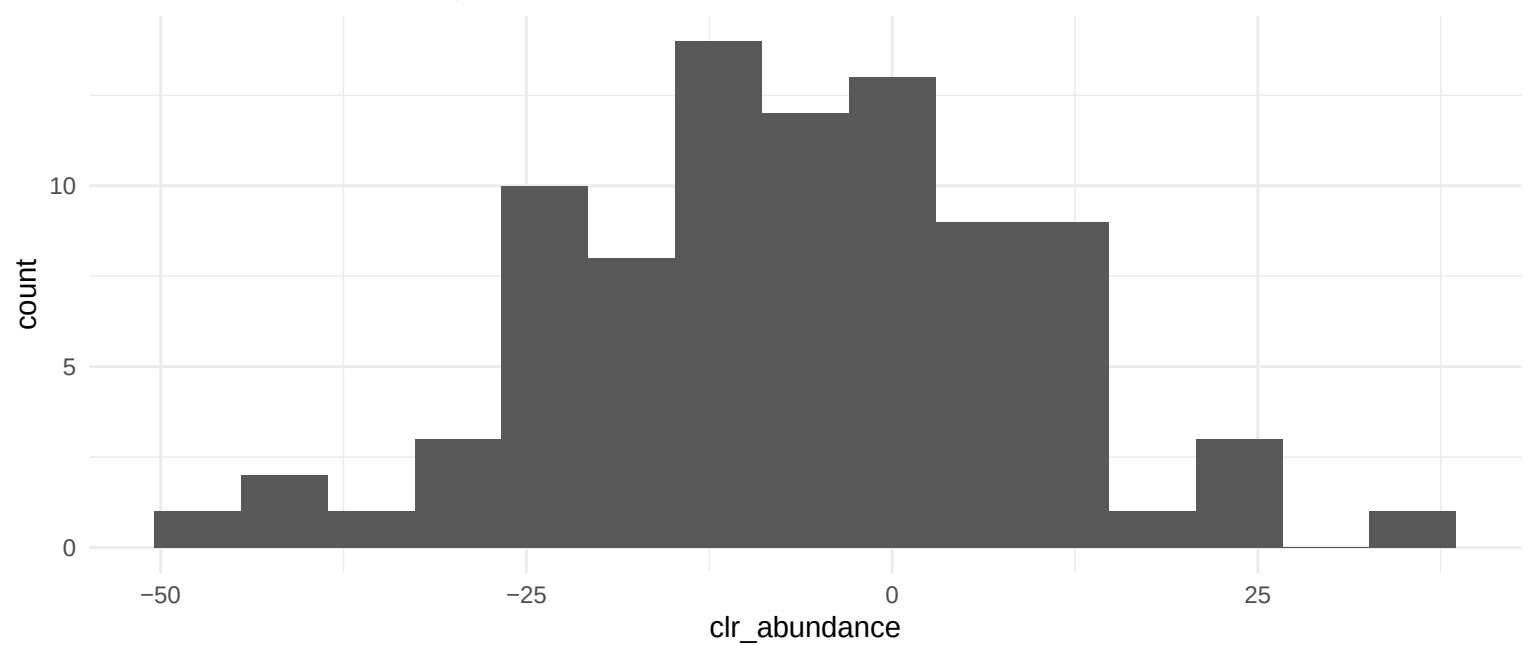

Distribution for 05415 Diabetic cardiomyopathy

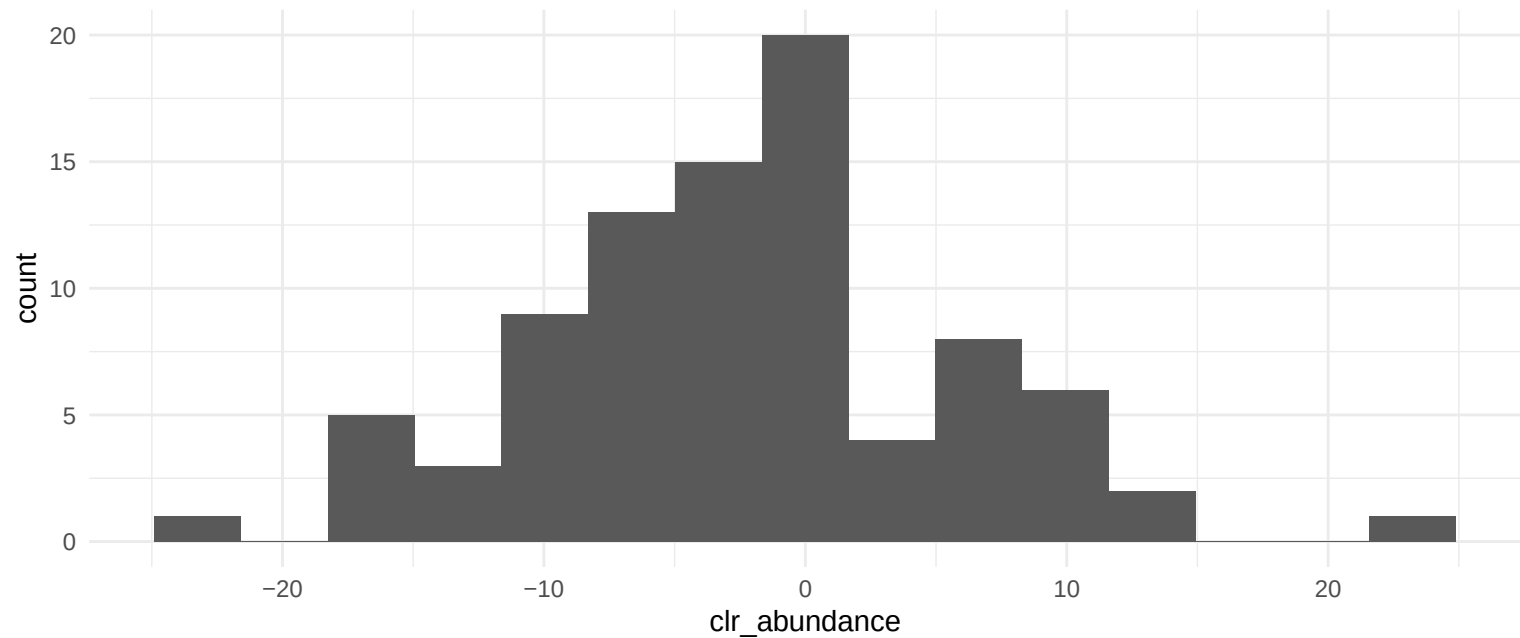

Distribution for 05416 Viral myocarditis

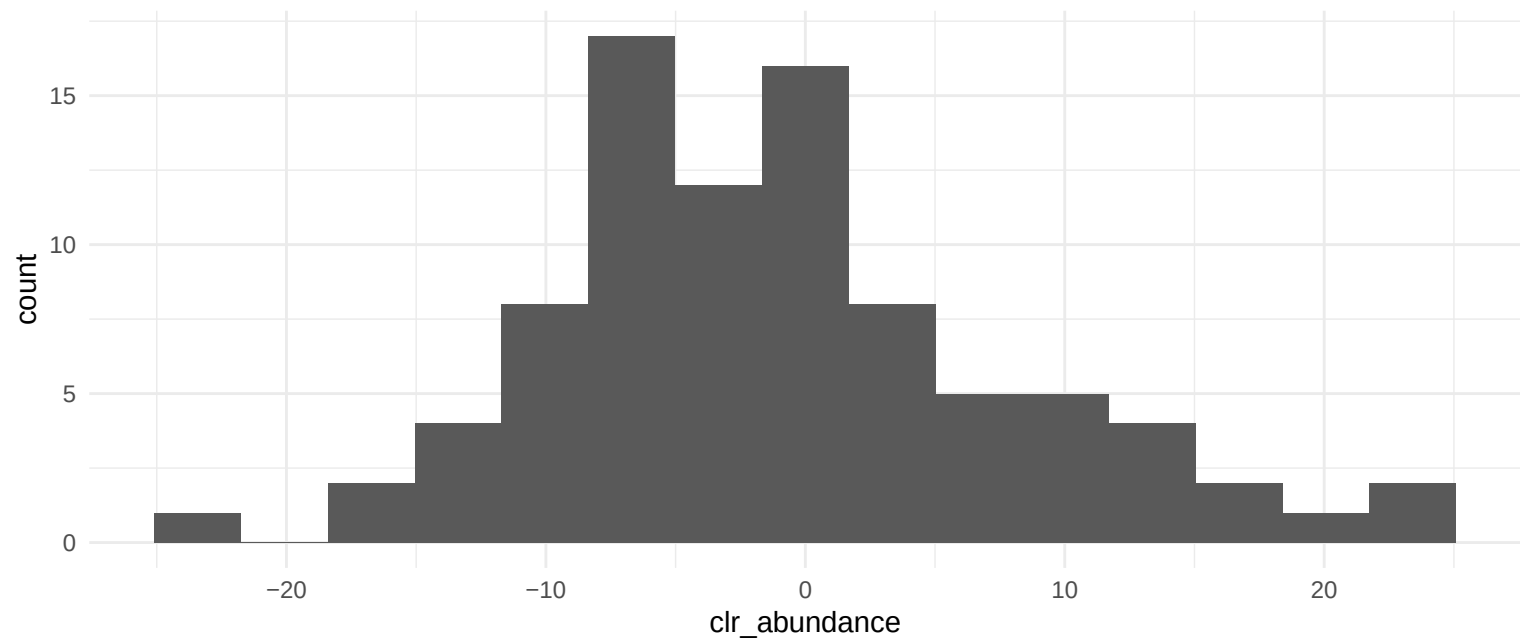

Distribution for 05417 Lipid and atherosclerosis

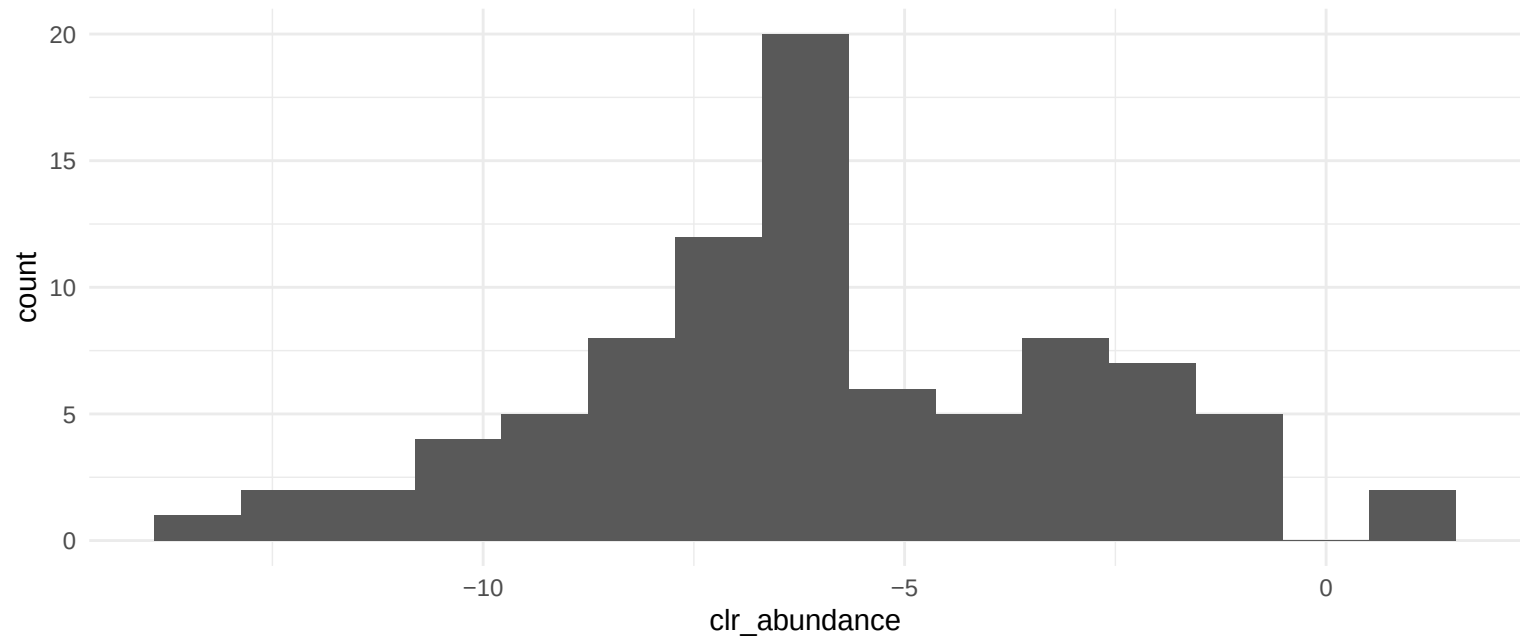

Distribution for 05418 Fluid shear stress and atherosclerosis

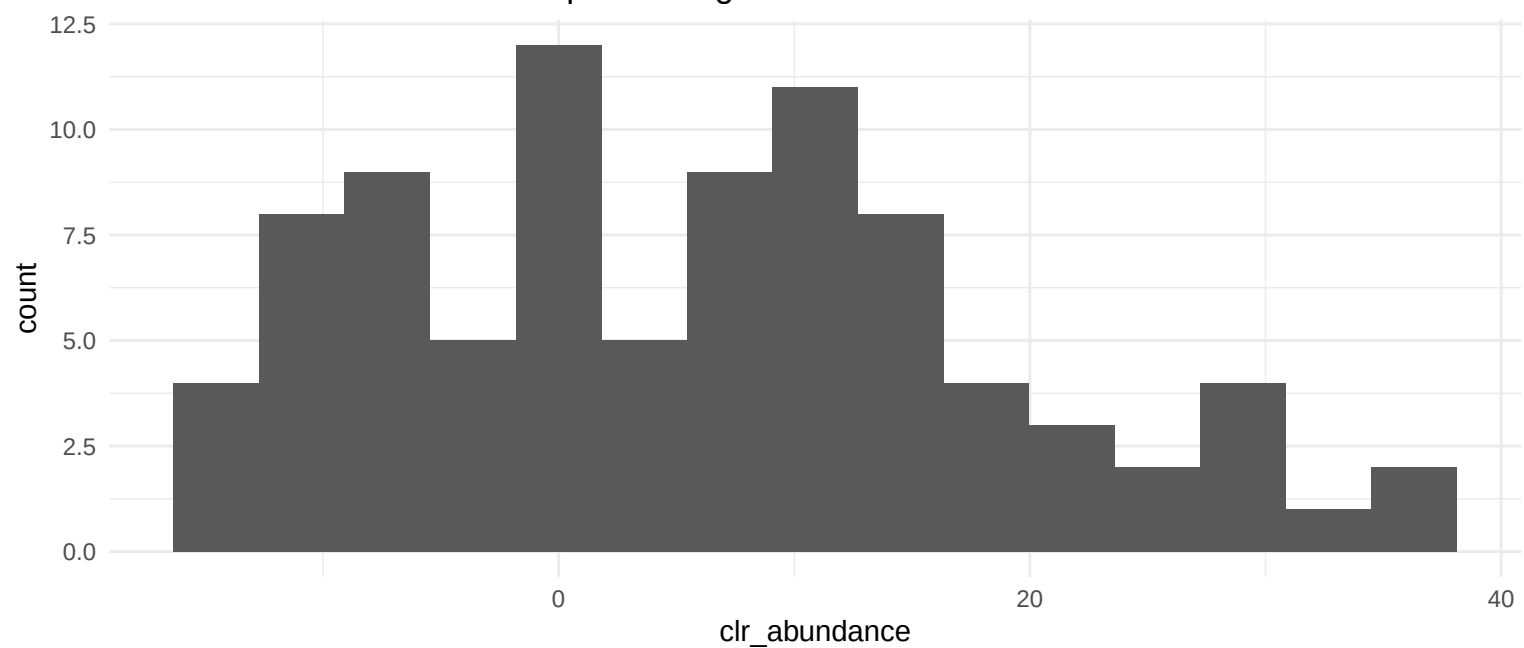

Distribution for 99973 Transcription

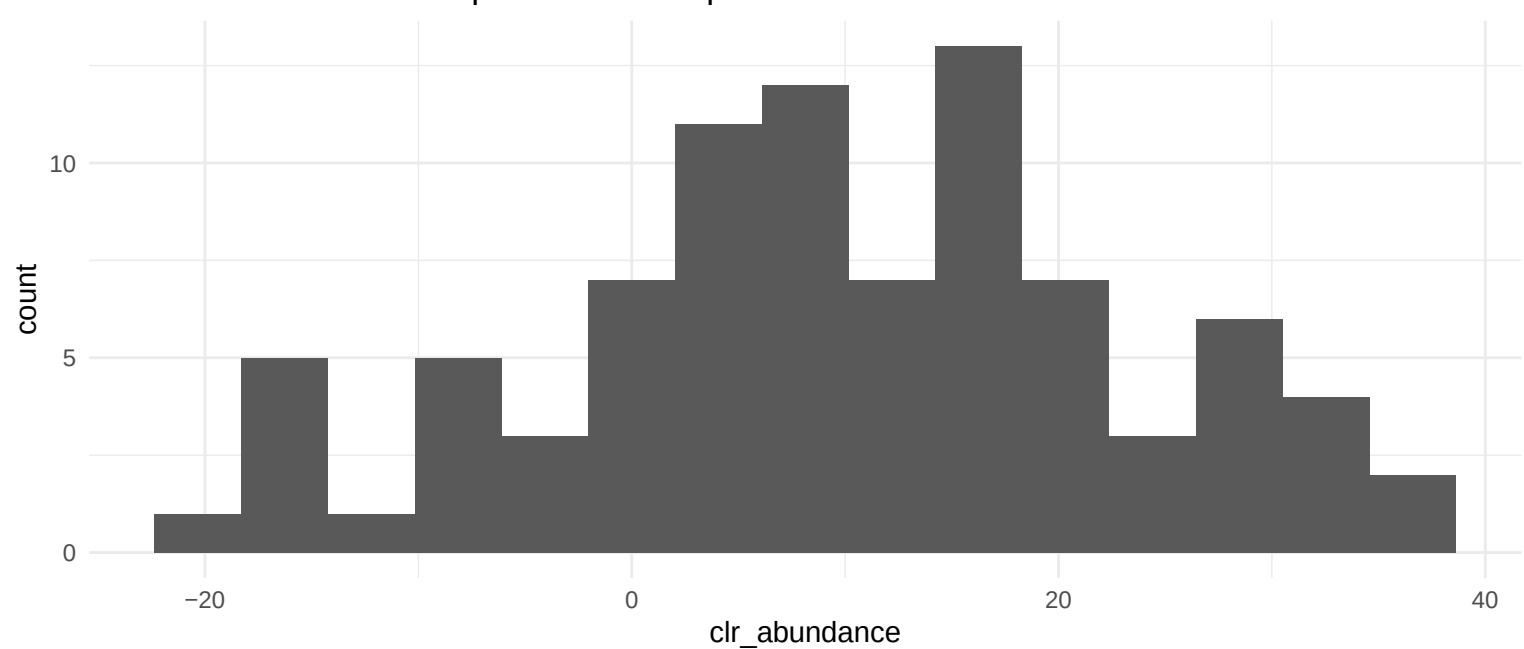

Distribution for 99974 Translation

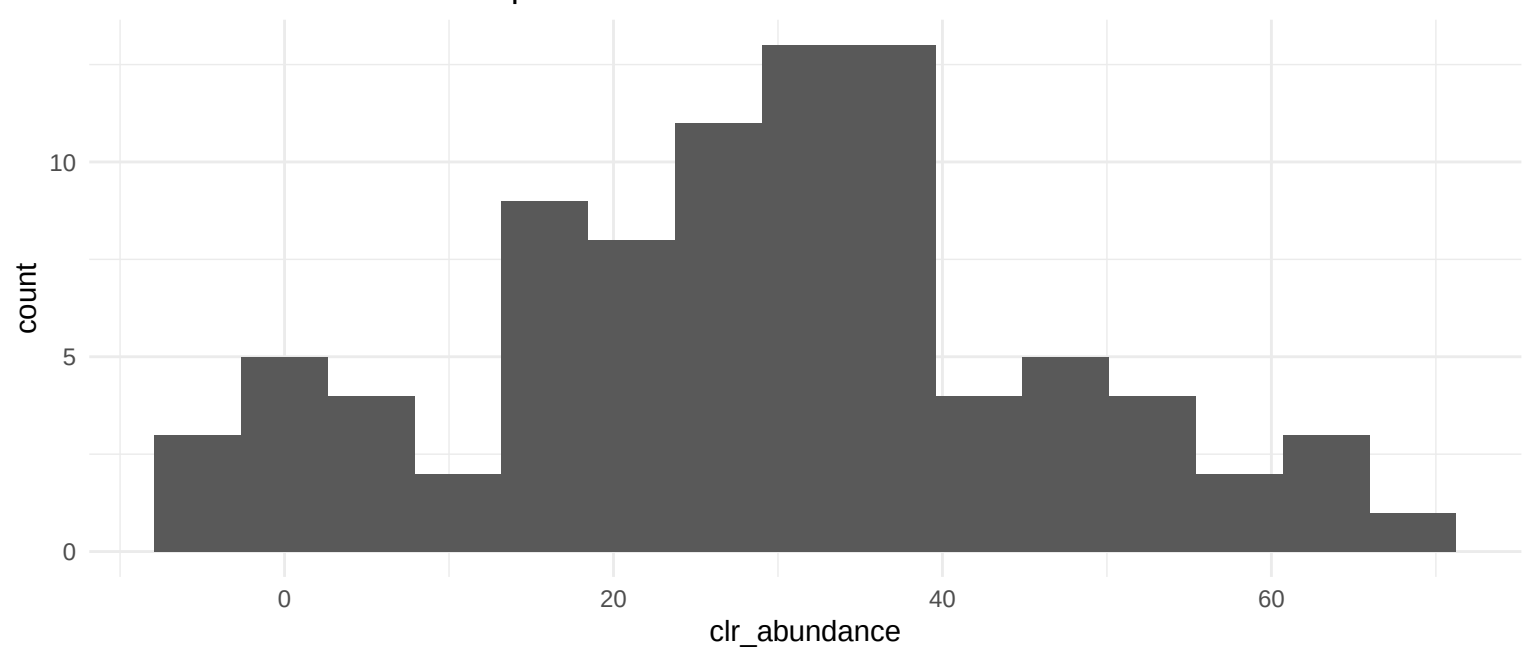

Distribution for 99975 Protein processing

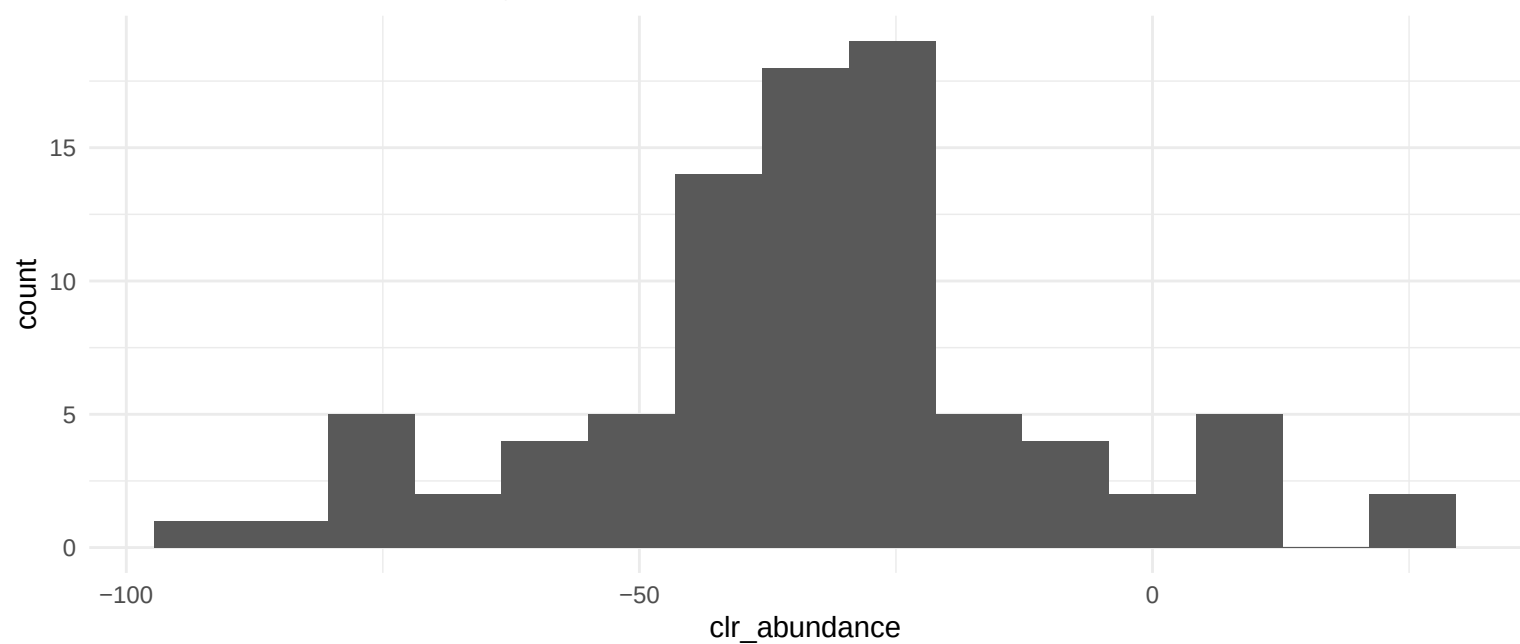

Distribution for 99976 Replication and repair

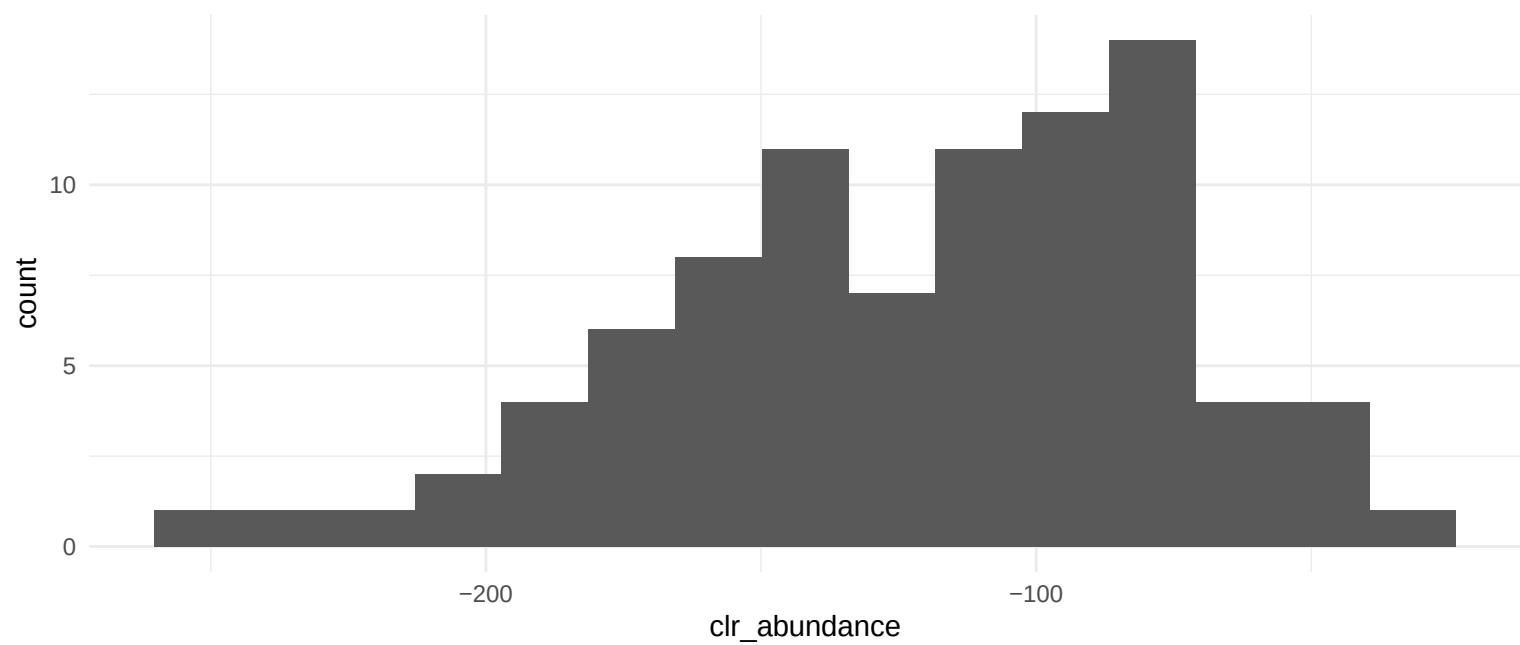

Distribution for 99977 Transport

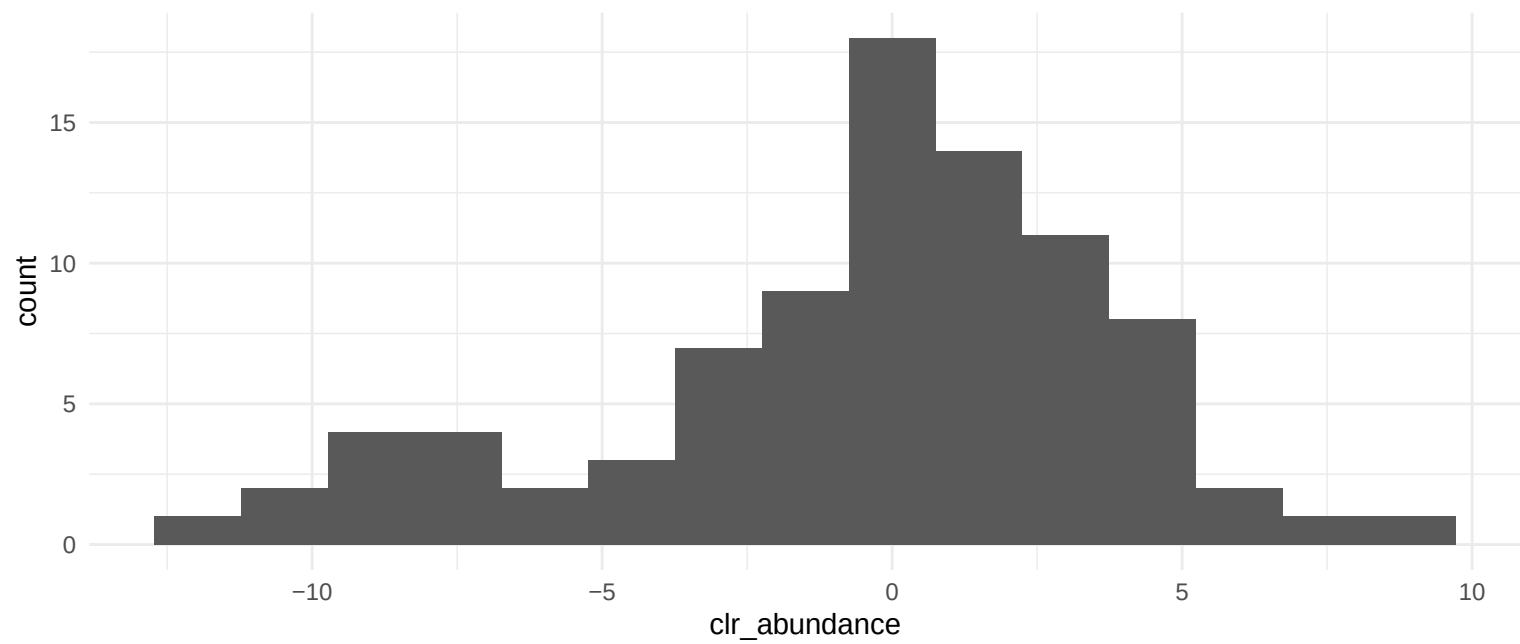

Distribution for 99978 Cell growth

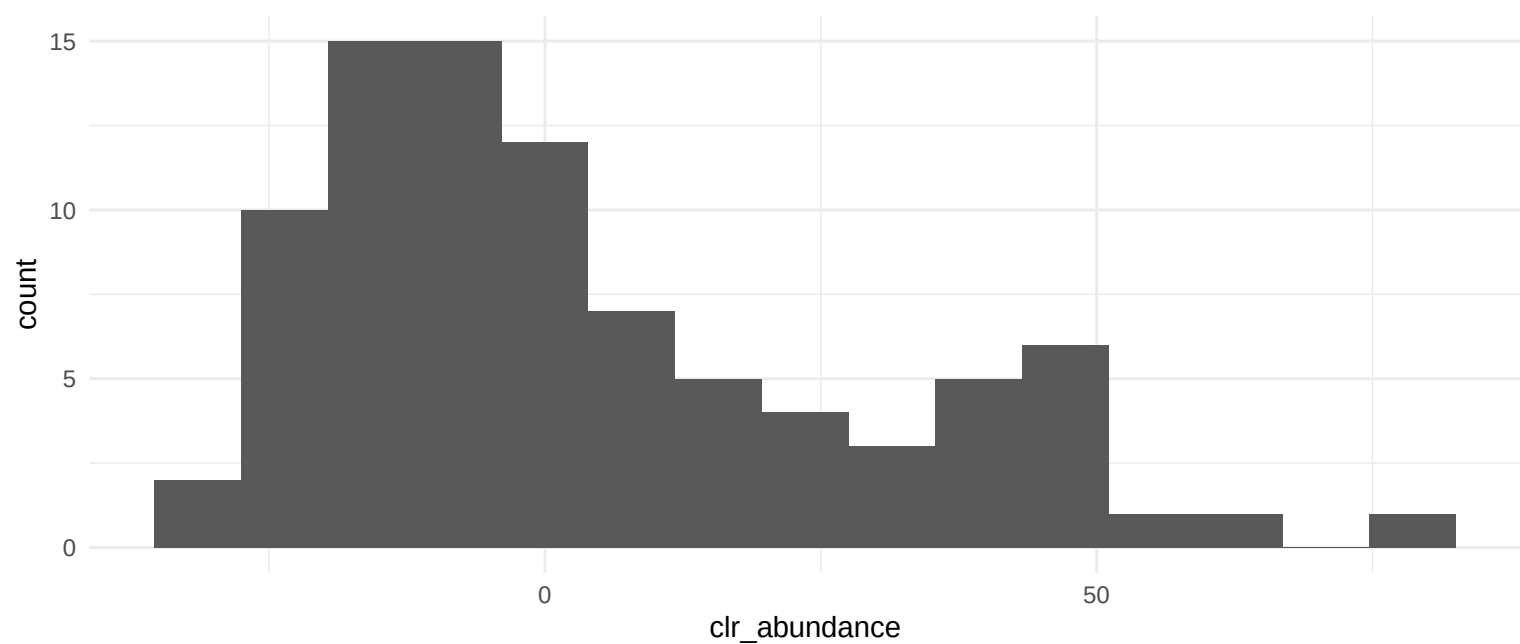

Distribution for 99980 Enzymes with EC numbers

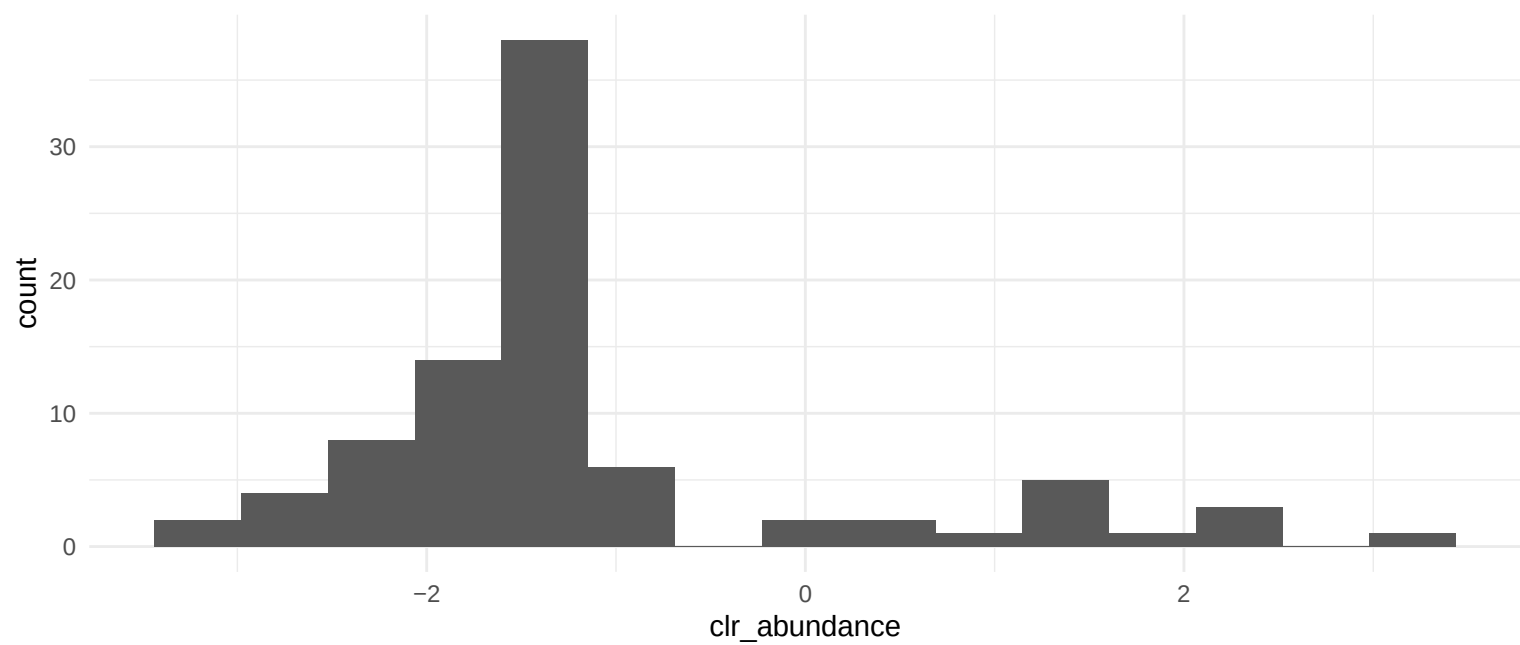

Distribution for 99981 Carbohydrate metabolism

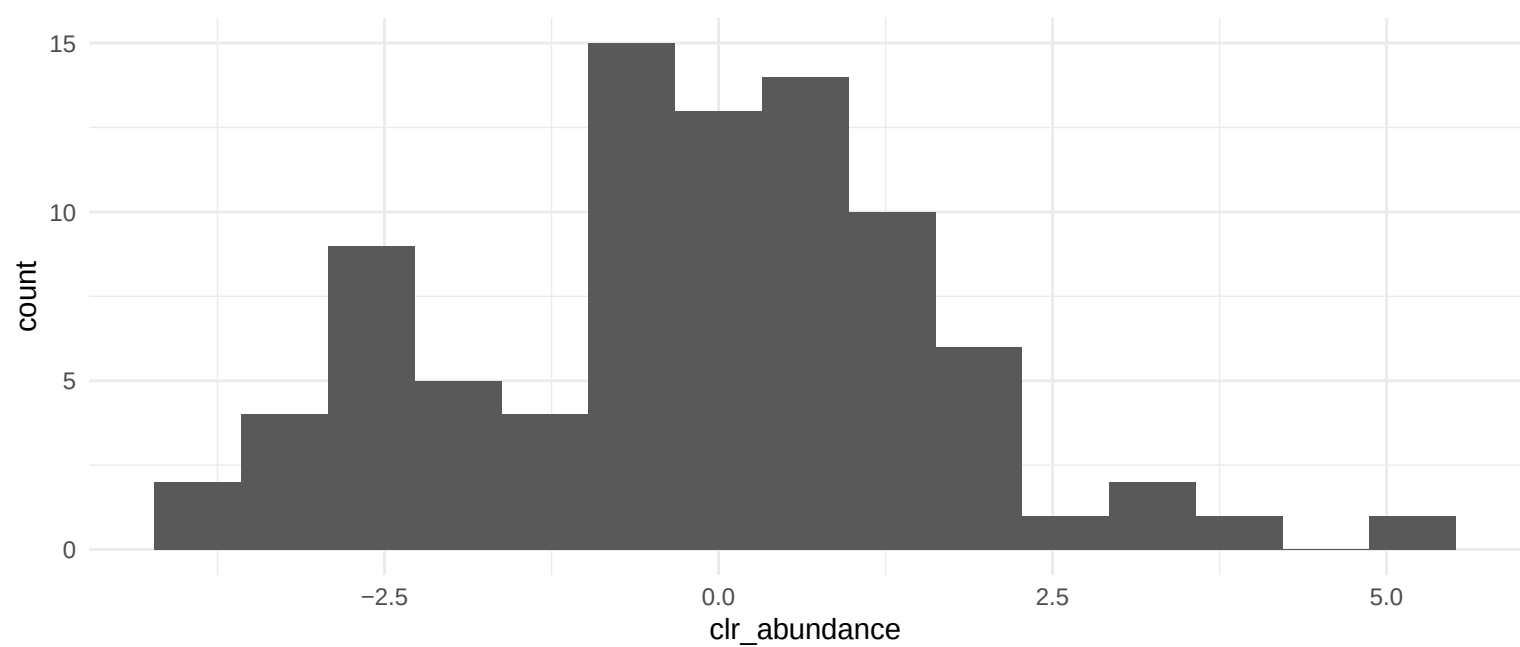

Distribution for 99982 Energy metabolism

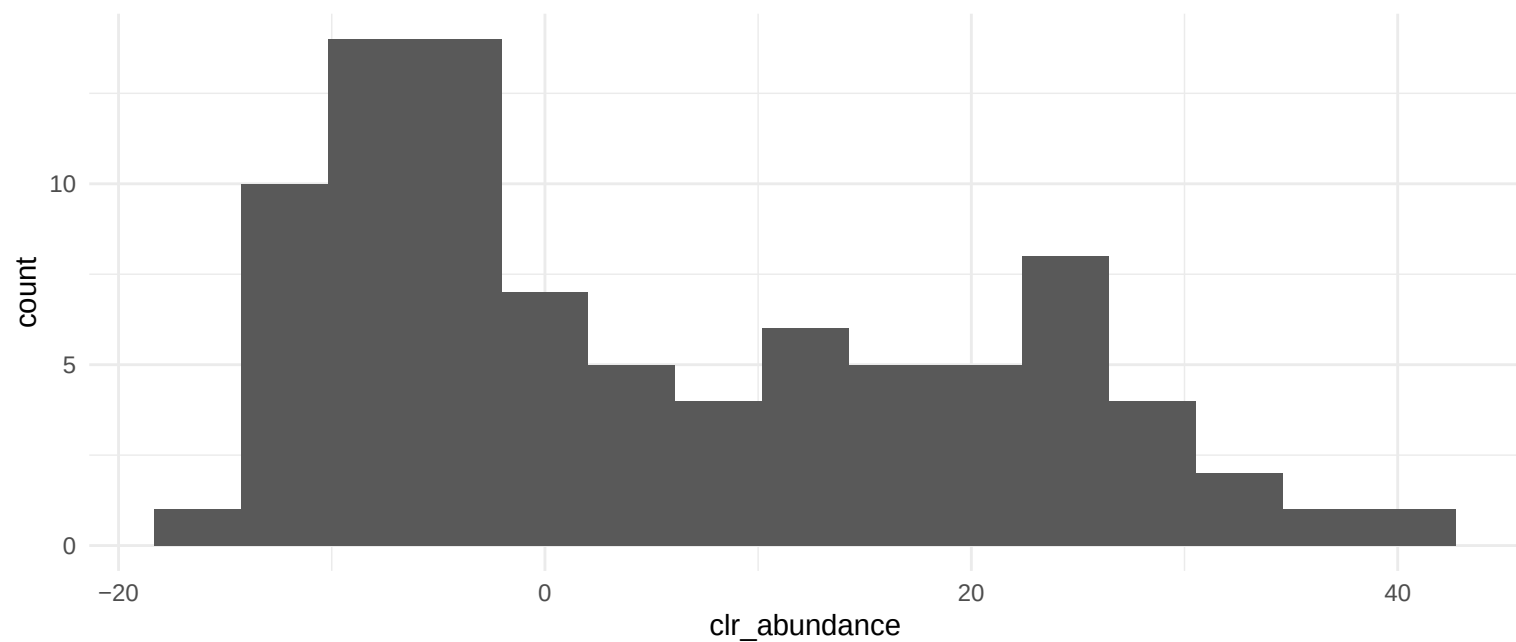

Distribution for 99983 Lipid metabolism

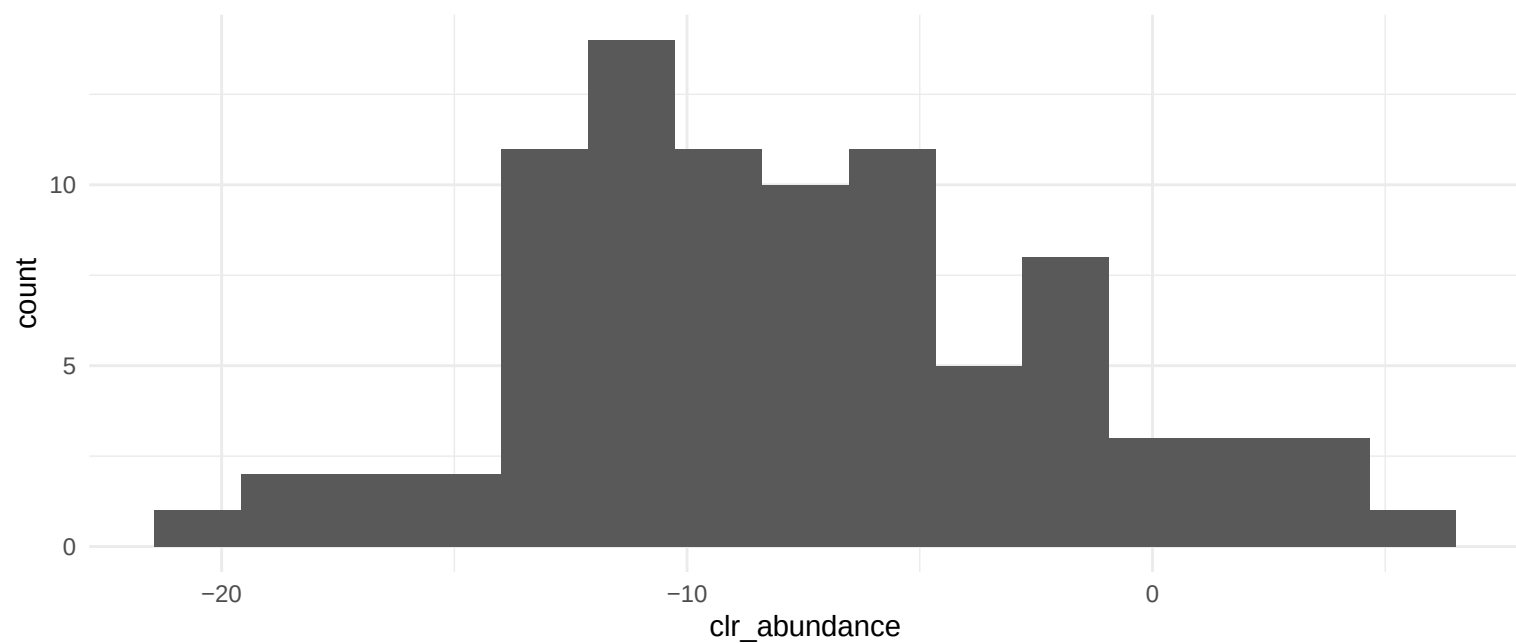

Distribution for 99984 Nucleotide metabolism

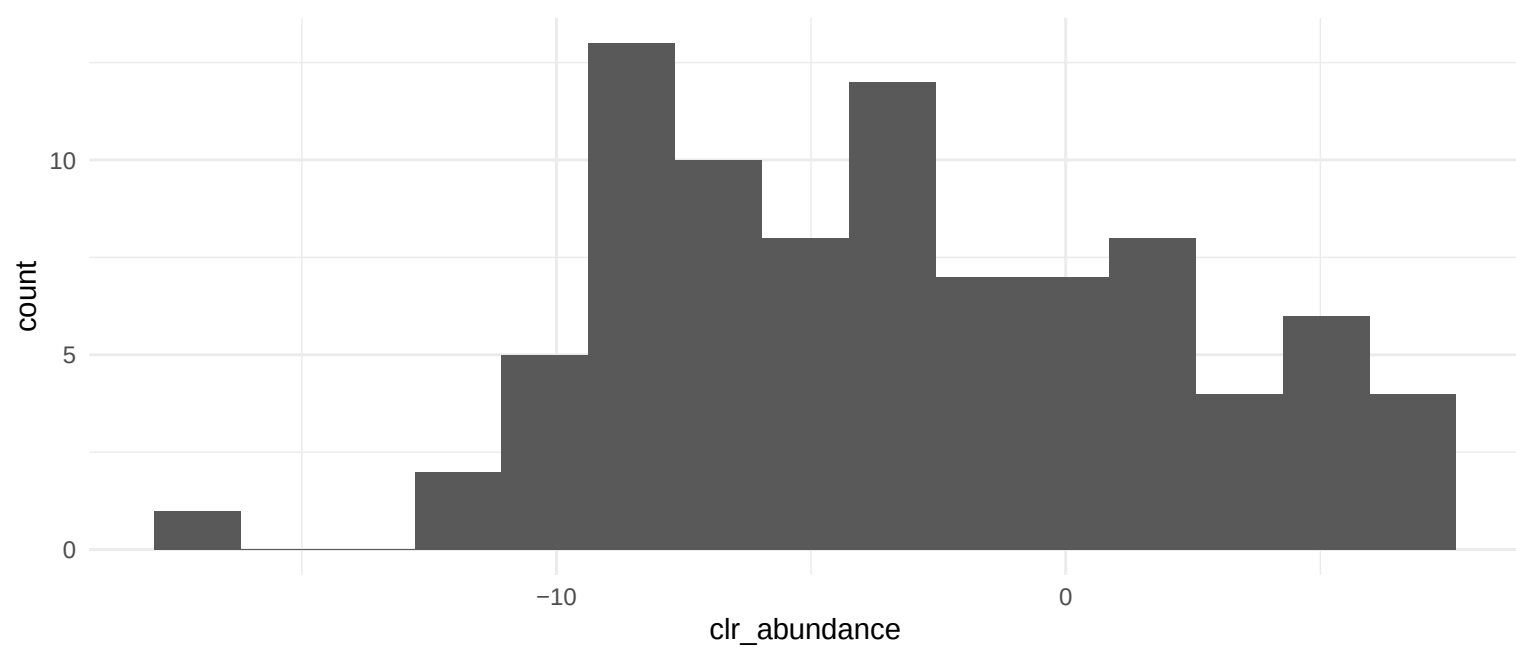

Distribution for 99985 Amino acid metabolism

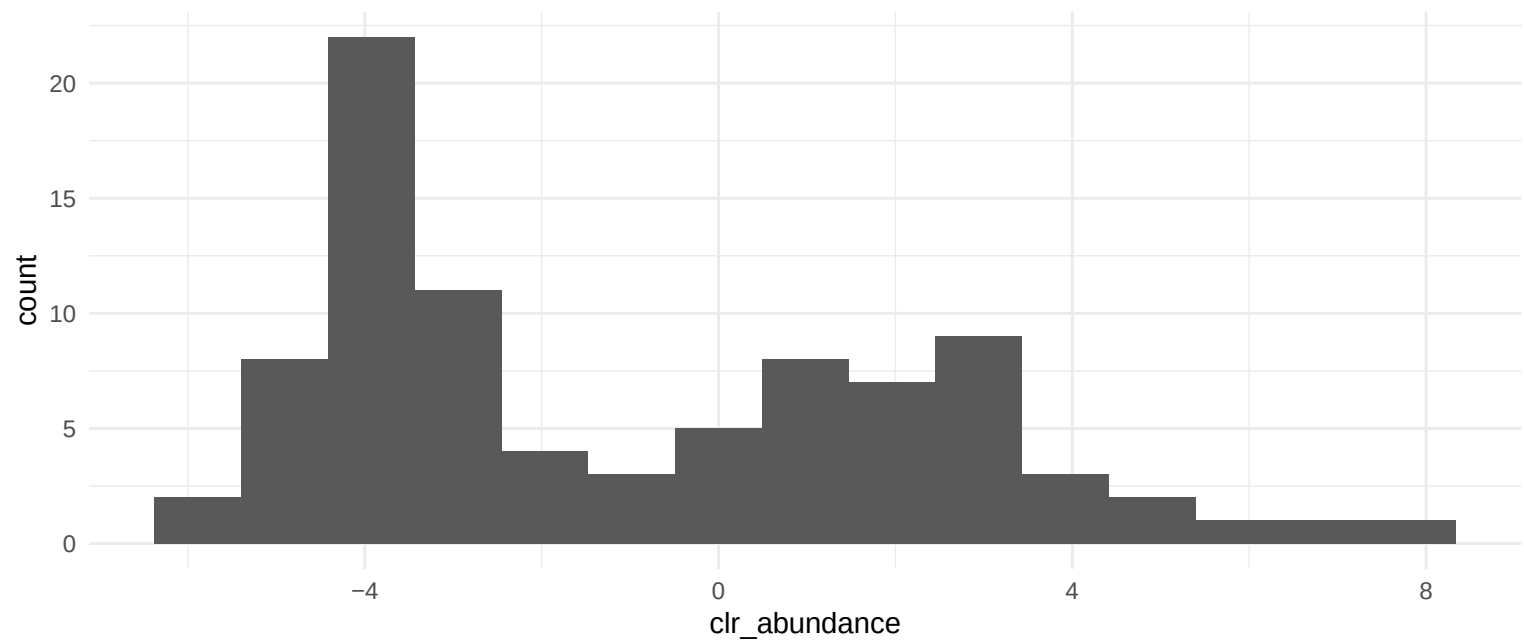

Distribution for 99986 Glycan metabolism

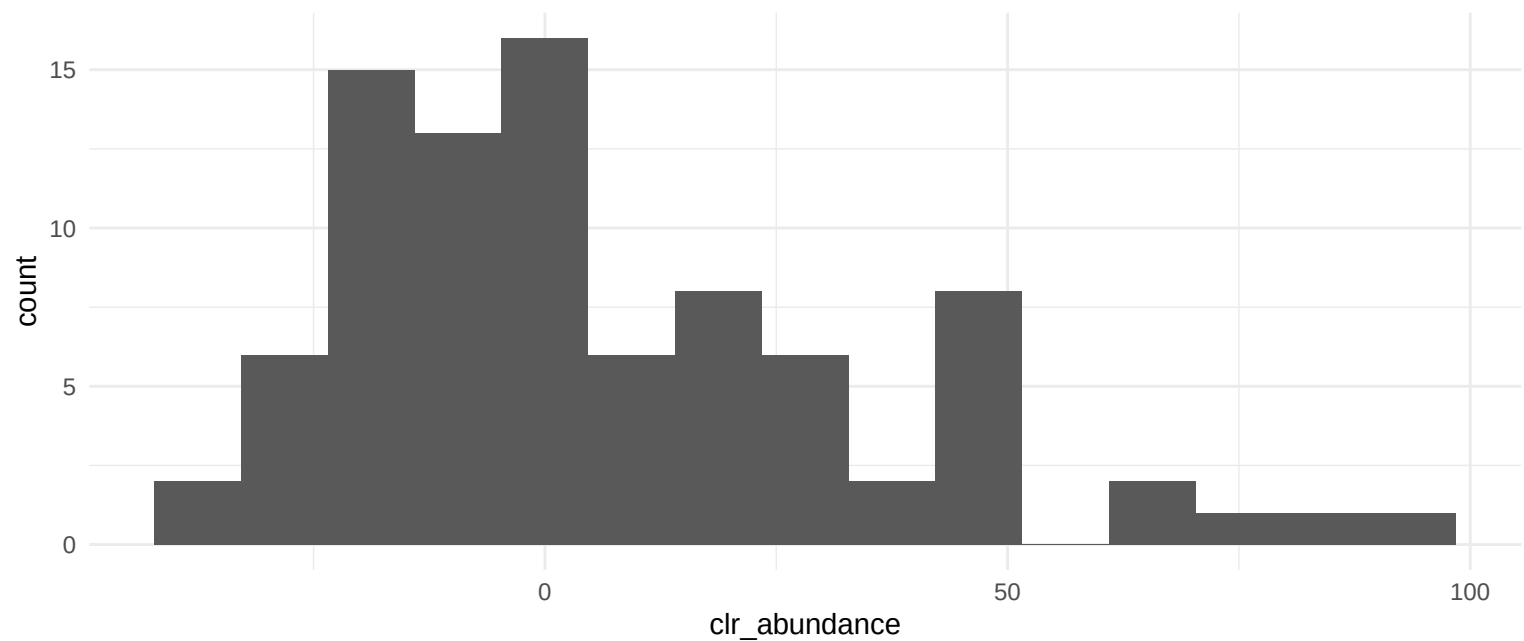

Distribution for 99987 Cofactor metabolism

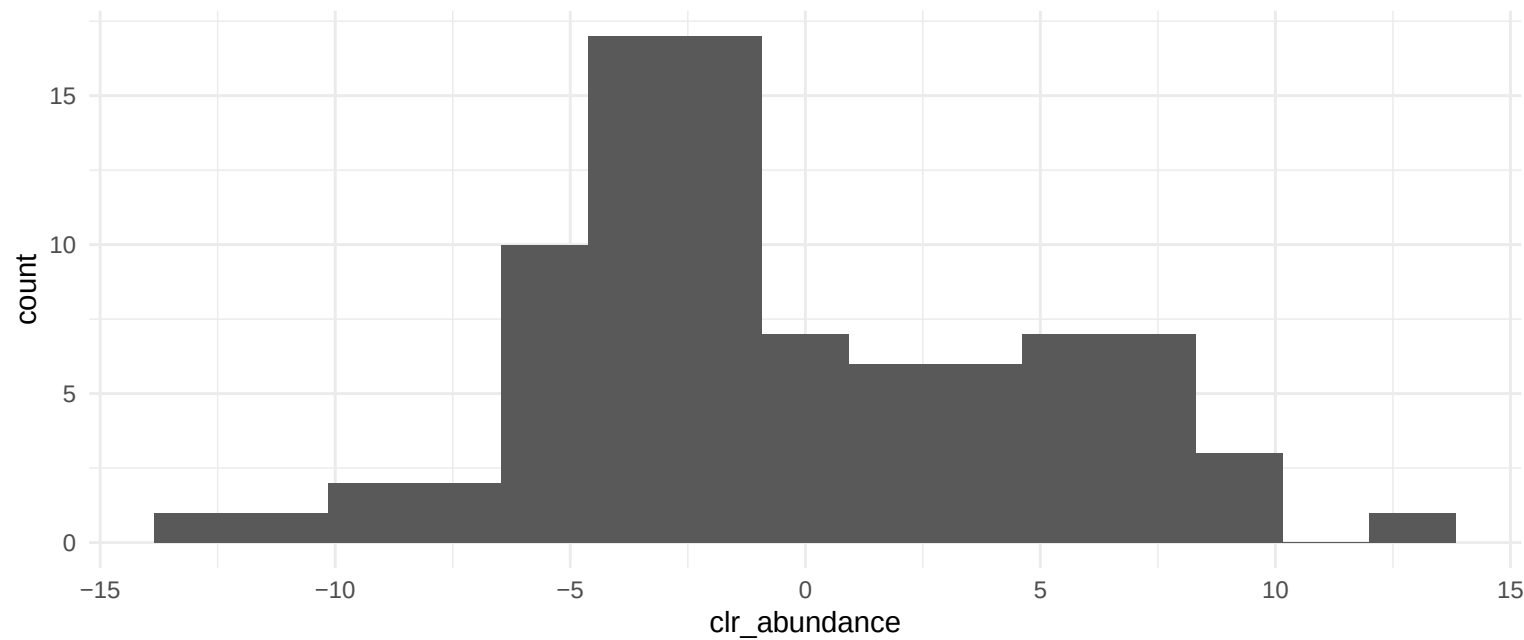

Distribution for 99988 Secondary metabolism

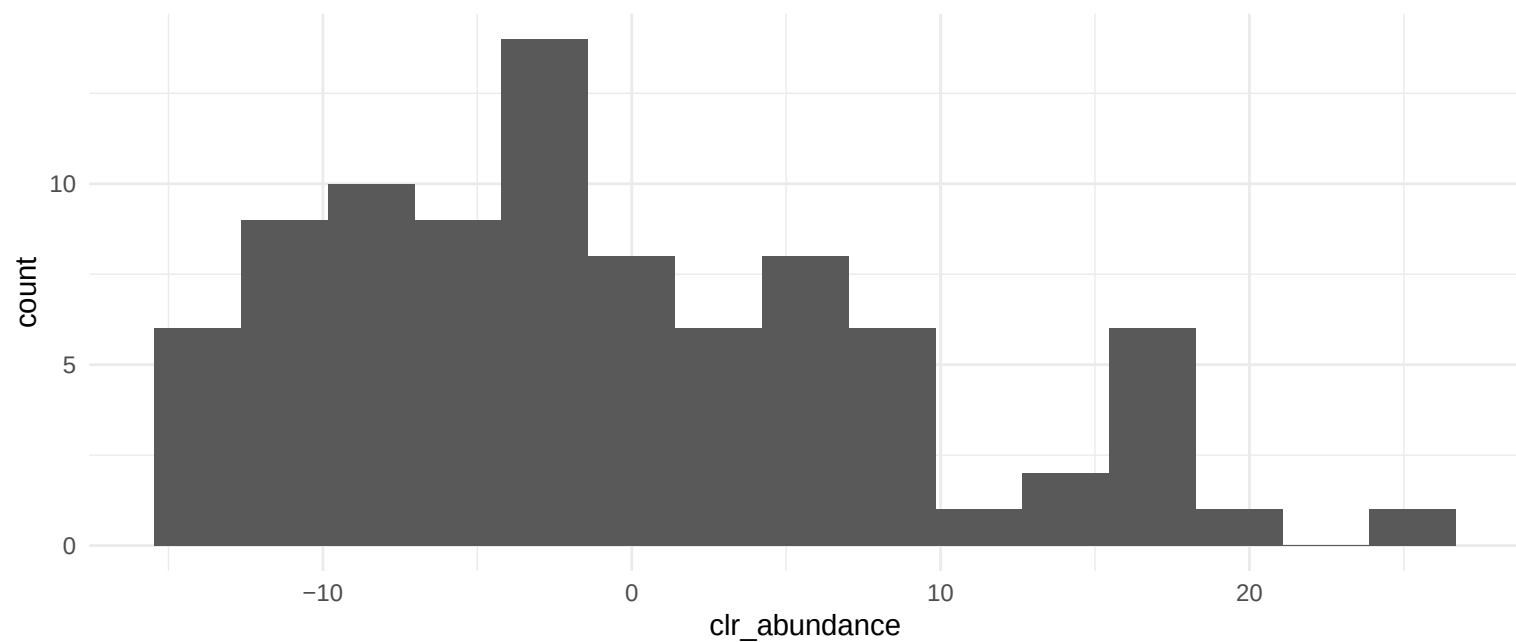

Distribution for 99992 Structural proteins

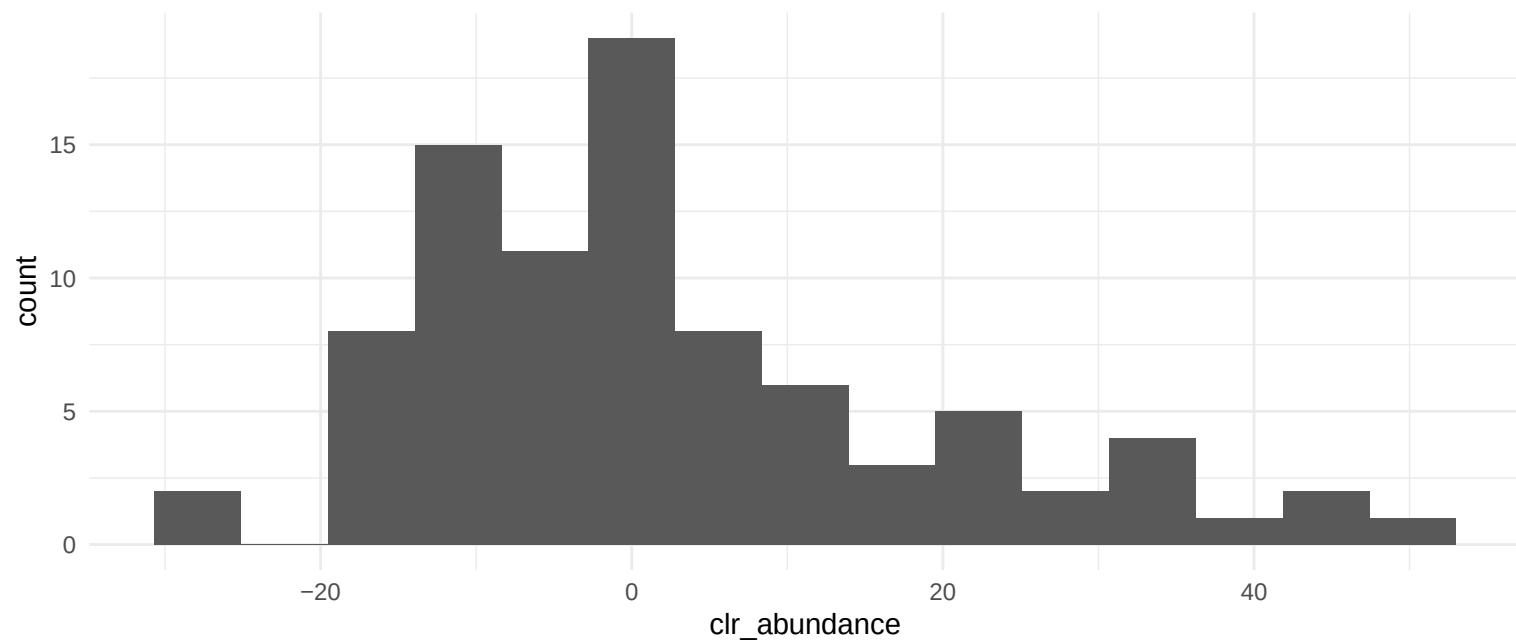

Distribution for 99993 Cell motility

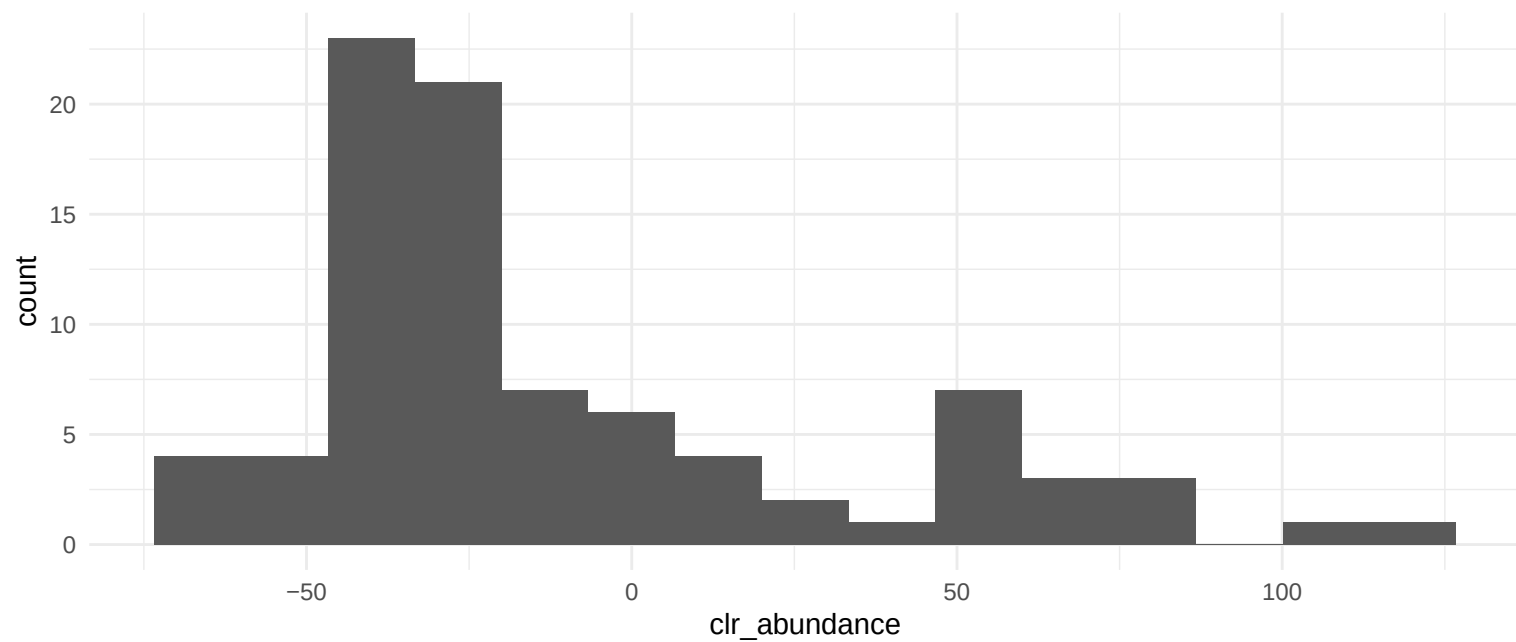

Distribution for 99994 Others

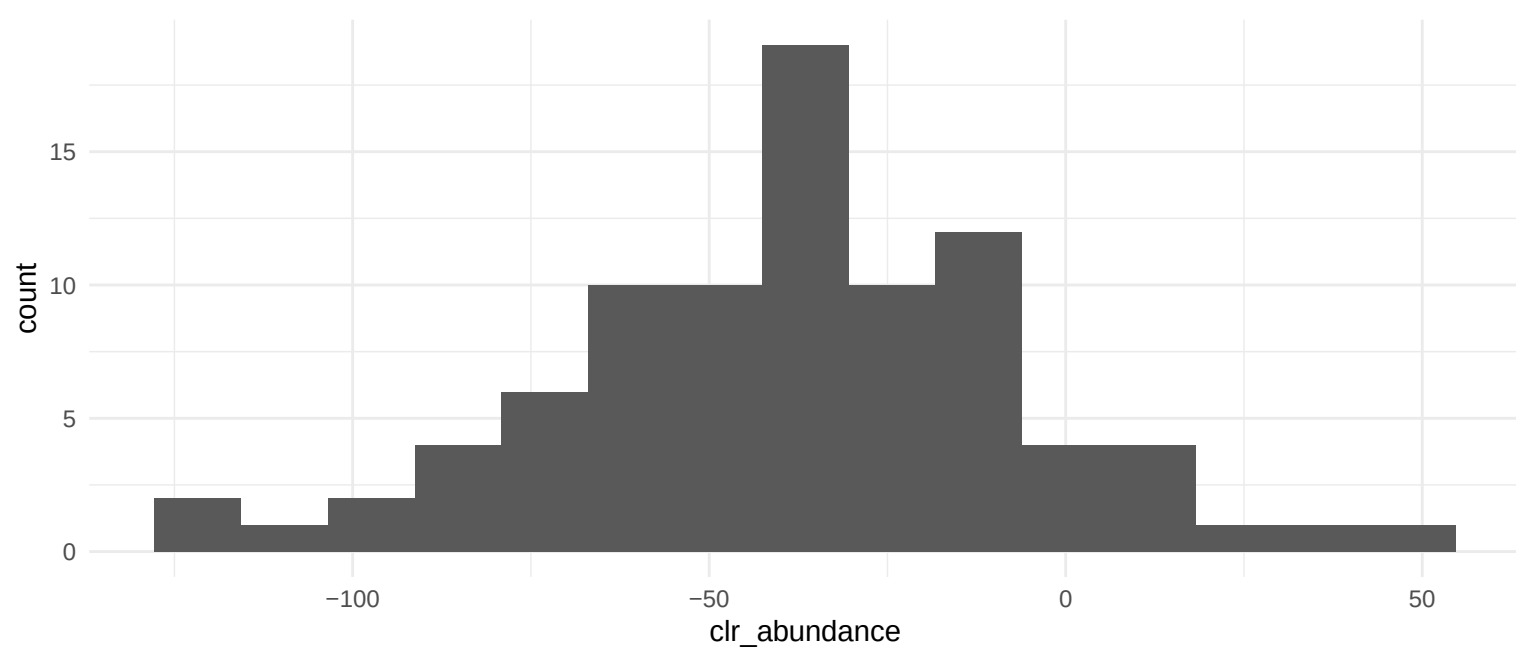

Distribution for 99995 Signaling proteins

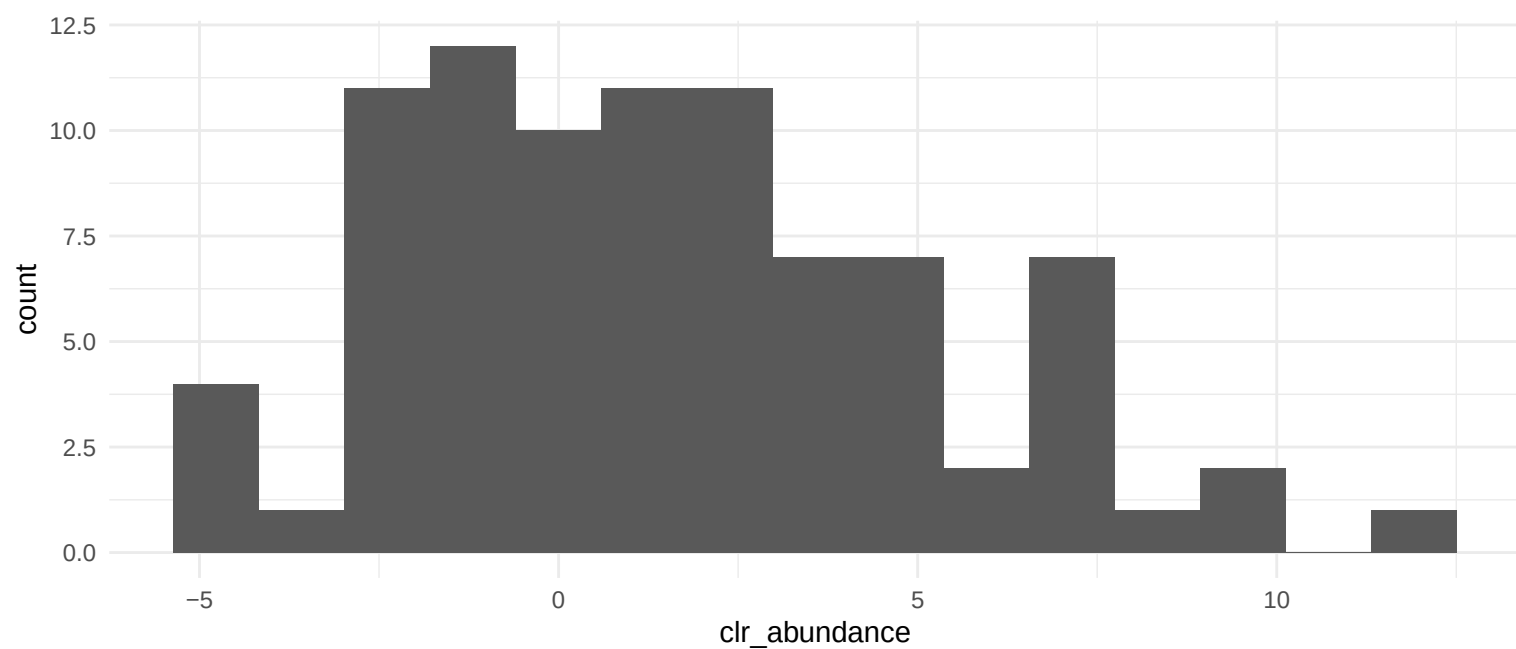

Distribution for 99996 General function prediction only

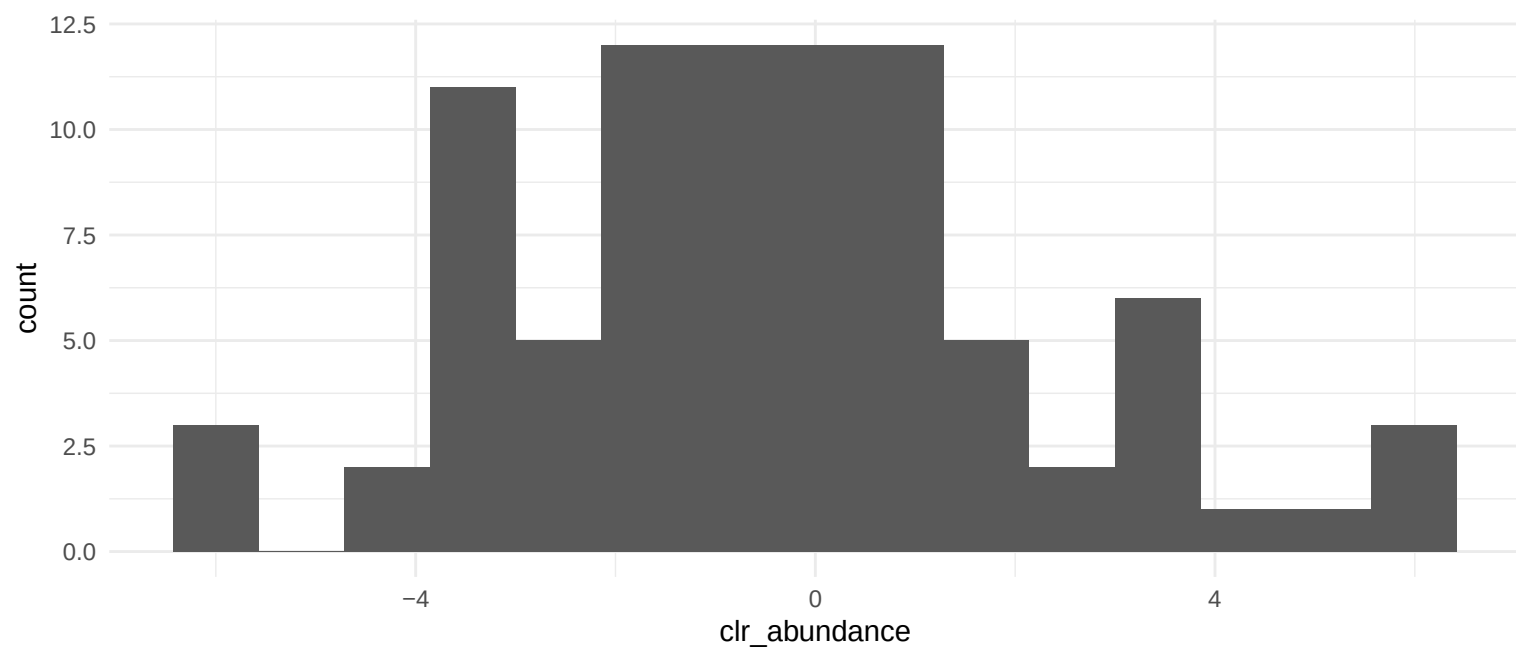

Distribution for 9997 Function unknown

Distribution for 99998 Others

Distribution for 99999 Others
